STATE OF NEW JERSEY,
HOUSE OF ASSEMBLY,
TRENTON, N J, TUESDAY, January 11th, 1921

This being the day designated by the Constitution for the assembling of the One Hundred and Forty-fifth Legislature of the State of New Jersey, the House was duly called to order at 12 o'clock (noon) by Upton S Jefferys, of Camden county, Clerk of the last House, who presided pending the organization of the House

Prayer was offered by the Rev T Porter Drumm D D, North Reformed Church, Newark, N J

Mr Rowland offered the following resolution, which was read and adopted

Resolved, That the reading of the certificates of election of the respective members be dispensed with

Mr Rowland offered the following resolution, which was read and adopted

Resolved, That the Hon Andrew C Boswell, of Cape May county, who is a Master in Chancery of this State and a member-

elect of this House, administer the oath of office to the Hon Sidney W Eldridge, of Union county, a member-elect, by whom the oath of office shall be administered to the members-elect

The Hon Andrew C Boswell thereupon administered the oath of office to the Hon Sidney W Eldridge, who administered the oath of office to all the other members-elect (Mr Emmor Roberts, of Burlington county affirmed)

All the members signed the roll

Mr Rowland offered the following resolution, which was read and adopted

Resolved, That the Hon William W Evans, of Passaic county, who is a Master in Chancery of this State and a member-elect of this House, administer the oath of office to the Speaker and other officers when they are elected

Mr Rowland offered the following resolution, which was read and adopted

Resolved, That the House do now proceed with the election of Speaker

In placing in nomination the Hon George S Hobart, of Essex county, for Speaker, Mrs Jennie C Van Ness, of Essex county, said

It is a matter of moment when the Assembly of one of the forty-eight sovereign of our United States is to choose a Speaker, who, presiding, shall aid in the expeditious transaction of the State's business One hundred and forty-four times in the history of New Jersey this has been done, and one hundred and forty-four times, therefore, it has been necessary to find a man to measure up to the qualifications of one to hold this important office

In all these years the qualifications, it seems to me, have remained the same, a back ground of knowledge, experience and poise is requisite, high purpose and sterling integrity, which, coupled with knowledge, makes for statesman rather than politician, is also a necessary qualification The ability to differentiate between principle and personality, and, discerning the difference, to adhere to principle, even in the face of present criticism, this, too, has always been and now is a most desirable qualification

It seems to me, Mr Chairman, that Tennyson must have been casting about for a Speaker when he voiced his cry

"Oh, God! for a man with heart, head, hand,
Like some of the simple great ones gone forever and ever by,
One still, strong man in a blatant land,
Who can rule and dare not lie"

This is the sort of a Speaker that the One Hundred and Forty-fifth Assembly may draw from its ranks of splendid men This is the sort of a Speaker who will meet the approval of the voters of New Jersey, including, as it does, a large number of new voters This is the sort of a Speaker I have in mind, a man who can fill these qualifications, for while on the surface it may appear difficult to do so, I feel certain that with the united party, co-operation and support, the Assembly shall give its presiding officer, it shall be altogether possible of achievement I, therefore, have at this time the unprecedented honor of nomina ig for Speaker of the One Hundred and Forty-fifth Session of the Assembly of New Jersey Mr Geo S Hobart, of Essex county

Mr Glover seconded the nomination

Mr Runyon stated that the minority would not make any nomination for Speaker, and that he intended to vote for Mr Hobart

Mr Rowland moved that the election of Speaker be made by acclamation, which motion was adopted

A *viva voce* vote being taken, Mr Hobart was the unanimous choice of the House for Speaker

The Clerk declared the Hon George S Hobart elected Speaker of the General Assembly for the Session of 1921

The Clerk requested Mr Pierson, Mr Glover and Mrs Laird to act as a committee to escort the Speaker to the bar of the House, where he took and subscribed to the oath of office

The Speaker assumed the chair and addressed the Assembly as follows

Fellow Members of the House of Assembly of the One Hundred and Forty-fifth Legislature of the State of New Jersey I accept the election as presiding officer of this House with mingled feelings of gratitude and gravity, of gratitude because I fully appreciate your generous and unanimous action in making your choice for this office, and of gravity because I am fully cognizant of the responsibility that attaches thereto, and am deeply conscious of my own short-comings I therefore crave your indulgence for errors and ask your most careful thought in

the consideration of the important matters that will come before us

There are many difficult problems that must be faced and should be solved Let us face them courageously and do our share in reaching a solution that will be for the common good of the people whom we represent In the consideration of these problems we welcome the active co-operation of the women of the State in general, and of the two women, in particular, who will be the first representatives of their sex in the New Jersey Legislature While the women of this State have not been backward in presenting their views to their representatives, now, for the first time in the history of the State, they have the opportunity to take a part in formulating and deciding legislative policies This fact may not unduly hasten the advent of the millennium, but it will certainly give the State the benefit of direct application to specific governmental questions of their best thought and conscientious judgment The reasonable expectations of our citizens cannot be better expressed than by the following quotation from a speech by United States Senator Sargent at the time the Anthony Amendment was first introduced in the year 1878

"I believe that by the bringing of the intelligence, the virtue, the good intentions, possessed by the women of America, to the ballot-box, we may have better politics, better administration and government, less grog-shops, less hells of iniquity, and that an improvement in every direction can be wrought out by the reenforcement of good morals and good intelligence"

The unprecedented majorities throughout our State indicate that by far the larger percentage of the new voters have enrolled under the banner of Republicanism But this is not necessarily an enlistment for life, nor even until after the next election We should prove ourselves worthy of the confidence thus expressed by giving prompt and favorable consideration to those matters in which the women of the State, because of their special training and experience, are peculiarly interested—including, of course, the subjects to which specific reference was made in the party platform

Before submitting certain matters to your consideration, I wish to pause a moment to pay tribute to one of our members-elect who has recently gone to render an account of his stewardship John B Rosser, member-elect from Hudson County, died on December 23d last, at the early age of thirty-one years A public career which promised useful service to his fellow citizens and credit to himself has been cut off at the very threshold For-

mal expression should be made of our sorrow at his untimely demise, and of our respect for his memory

There are some matters relative to the conduct of our deliberations to which I would like to call attention

In the first place, I wish to give due warning that unless prevented by some unforeseen emergency, the sessions of this House will be opened at the hours designated by you as the members With the many matters of public importance that will come before us for consideration, it is essential that we make the best use of the limited time at our disposal, and I therefore urge the members to be in their seats at the hours fixed for convening so that we may proceed to business promptly and act upon same expeditiously As one of the means to this end, the House Conference has already voted to begin the Tuesday sessions (when held) at eleven o'clock A M I trust all the members will make a sincere effort to put the affairs of the State ahead of their own personal convenience, even though they may feel that the salary fixed by our Constitution is an inadequate remuneration for their time and labor

In the matter of committee assignments, I attempted to learn in advance of the opening of the session, the preferences of the various members All of the members-elect have responded cordially to this inquiry—indeed, so very cordially that if all the requests were met certain committees would have far mor members than the limit fixed by the rules of the House It is gratifying to note that the most popular committees are those which have the greatest amount of hard labor This indicates "a willingness to work" on the part of the members-elect and may be taken as a happy augury of their earnest desire to serve the State with fidelity The Speaker sincerely regrets that it is impracticable to comply with all of the requests or to enable all of the members to work as hard as they would like to do However, I am quite sure that before the session is ended there will be work enough for all

In making the committee assignments I have taken into consideration personal preferences, previous legislative experience and other public activities In some cases these factors have made it desirable to have two members from the same county on the same committee, but I believe the result of the work of any such committee will justify this unusual assignment So far as possible, I have appointed each member of the House as chairman of at least one committee, either standing, special or joint There are not quite enough committees to go around, and those members who do not hold chairmanships have been assigned

either to the more important committees or have been given membership on more than the usual quota

Common experience has taught that the fullest and fairest consideration of proposed legislation can be given only through the medium of committees, and, hence, we have the practice of referring bills to them for study before they are brought to the attention of the entire membership I mention this truism merely for the purpose of emphasizing the importance of the work of the committees Not the least important feature of such work is a public hearing I am very desirous that action on bills of general public interest be taken only after all possible light has been thrown thereon by any and all persons whose interest may be affected thereby I therefore urge that hearings be given on all bills that are of sufficient interest to provoke a request from any one of our citizens for an opportunity to present his views Such procedure will, no doubt, require considerable extra labor on the part of the members of some of the committees, but I believe they will feel well repaid in the consciousness that their reports will be made in the light of all the information that may be available with respect to the particular matter under consideration

There is one subject concerning which I feel justified in asking your special attention, in the light of the conditions that are reputed to exist in certain parts of the State Much anxiety has been aroused by reason of the recent outbreak of serious criminal offenses Various means have been proposed to check or eliminate such offenses, many of these are, no doubt, wise and helpful and worthy of our serious attention, but I beg leave to suggest that these conditions are but the natural result of the public expression by some of our public officials of their contempt for the law of the land Such expressions are equivalent to an invitation to evilly disposed persons to violate any part of the law which may chance to interfere with their pecuniary profit or their criminal inclinations These persons can hardly be blamed if they conclude that officials who proclaim their contempt for certain laws will display little, if any, energy or enthusiasm in the enforcement of any laws Some classes of law breakers are less dangerous to civilized society than the officials who thus give the impression to criminals that violations of the law will be condoned or overlooked The worst menace to the community is the official who winks at wrong-doing If we may be permitted to quote from the charge of one of the Justices of our Supreme Court to a grand jury "It is a most dangerous condition when laws can be broken without punishment It leads to contempt and disrespect for all law, if one man can defy one

law, another man can defy another law, and there is no settled law and order This way leads to anarchy"

The future historian who has occasion to study conditions of the present day will be amazed to learn that the law which has been thus flouted not only by private citizens but by some of our public officials is a part of the organic constitution upon which the nation depends for its continuance as a political entity

Notwithstanding this attitude on the part of some officials, it is fortunate for the well-being of the State that there are many other officials who have been and are zealous in the performance of their sworn duty These faithful officers should be encouraged by the enactment of such legislation as will give them the necessary legal weapons to combat the greed and cunning of those elements of the community who, for the sake of pecuniary profit, are prepared to defy the law and to despise the law officer

Under the Eighteenth Amendment to the Federal Constitution, concurrent power to enforce the same by appropriate legislation is given to the Congress of the United States and to the several States As pointed out in the platform of the Republican party, the supreme judicial authority of our Nation has held that this amendment "is operative throughout the entire territorial limits of the United States, and it binds all legislative bodies, courts, public officials and individuals within those limits" The Federal Congress has already enacted legislation which has been found by this same supreme authority to be "appropriate" within the meaning of the amendment The State of New Jersey, as a member of the Union, has like power of enforcement The Republican platform has declared it to be the policy of that party to be for "impartial enforcement of the Eighteenth Amendment" It is, therefore, obvious, both as members of that party and as representatives of the citizens of New Jersey (elected by an overwhelming majority to carry out their wishes), that it is our duty to give prompt consideration to the enactment of appropriate legislation which will give the necessary authority to the public officials of the State for the enforcement of this article of the Federal Constitution

I have made special mention of this subject because the Republican party has taken a positive and unequivocal stand with respect to law enforcement, but I would not be understood as suggesting that our party has a monopoly of law-abiding citizens —on the contrary, I am firmly convinced that the better elements of all parties favor the impartial enforcement of the Law of the Land, regardless of their personal approval or disapproval of the Eighteenth Amendment, but it happens that at this time

the Republican party has been delegated as the instrument through which appropriate legislation for better law enforcement may be enacted

Of course, there are other matters of public importance which are specifically included in the Republican platform and which we may fairly say have received the approval of the citizens of the State (as indicated by their votes), and these promises should be enacted into law under the direction of the Republican party, but this is neither the time nor the place to discuss same in detail

In working out the solution of our legislative problems, may I add that the services of my secretaries and of myself are at the disposal of the members in so far as may be consistent with the performance of the duties that are peculiar to the presiding officer I therefore want every member of the House, including the minority (and also including the "fourth estate"), to feel at liberty to consult the Speaker at any time about legislative matters

A few days ago we had occasion to celebrate the three hundredth anniversary of the establishment of the first organized form of government on this continent We may not approve of all the laws and customs of the Pilgrim Fathers, but we may well take as our motto in the consideration of legislative problems that sentence in the Mayflower Compact whereby the signers agreed, in the name of God, "to enact, constitute and frame such just and equal laws, ordinances, acts, constitutions and offices, from time to time, as shall be thought most meet and convenient for the general good of the Colony"

The spirit in which this compact was made has been symbolized in the monument at Plymouth Rock, around the pedestal are four statues representing Morality, Law, Freedom and Education Above the pedestal is the figure of a woman of heroic size representing Faith, in one hand is held a copy of the Bible—the other hand points upward With such an ideal before it, no representative Assembly in either State or nation can go far wrong

Mr Rowland offered the following resolution, which was read and adopted

Resolved, That the House do now proceed with the election of the Clerk of the House

Mr Rowland, of Camden county, nominated Upton S Jefferys, of the same county, for Clerk of the House, which nomination was seconded by Mr Roberts, of Burlington county

Mr Rowland moved that the election of Clerk be made by acclamation, which motion was adopted

A *viva voce* vote being taken, Mr Jefferys was the unanimous choice of the House for Clerk

The Speaker declared Upton S Jefferys elected Clerk of the House of Assembly for the session of 1921, and he took and subscribed to the oath of office

Mr Rowland offered the following resolution, which was read and adopted

Resolved, That the Speaker appoint forthwith a committee of three to wait upon the Governor and inform him that the House of Assembly has organized by the election as Speaker of the Hon George S Hobart, of Essex county, and of Upton S Jefferys, of Camden county, as Clerk, and is now ready to proceed to business and to receive any communication he may be pleased to make

The Speaker named Messrs Roberts, Lyons and Looii as such committee

Mr Rowland offered the following resolution, which was read and adopted

Resolved, That the Clerk of the House is hereby directed to inform the Senate that the House of Assembly has organized by the election as Speaker of the Hon George S Hobart of Essex county, and of Upton S Jefferys, of Camden county, as Clerk, and has proceeded to business

Mr Rowland offered the following resolution, which was read and adopted

Resolved, That the House proceed to fill the remaining several offices of the House, and that nominations be made and a vote taken for all of the offices at one and the same time

Mr Rowland offered the following resolution, which was read and adopted

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 11th, 1921

To the House of Assembly

I have the honor to transmit, in accordance with the provisions of the Constitution, to you my first annual message, and earnestly recommend for your consideration the various matters therein referred to

Respectfully submitted,
EDWARD I EDWARDS,
Governor

Secretary to the Governor

GOVERNOR'S MESSAGE

Gentlemen of the Legislature

It is quite apparent that the forces which brought about the adoption of the Eighteenth Amendment to the Federal Constitution and the enactment of the Volstead Act intend now to turn their activities into other fields of endeavor Emboldened by their success in that particular, they now plan to further restrict and encroach upon the liberties of the American people Recently there appeared in the public press announcements by apparently authorized representatives of some of those organizations that efforts would be made in the Federal Congress to secure the passage of resolutions submitting a further amendment to the Federal Constitution with reference to the observance of Sunday The cheerful prospect was held out that it would be the effort of those persons to prohibit not only the transaction of any business on Sunday, but also the engaging in recreation of any sort, so that a man would have but one alternative, viz , to go to church That spirit is so entirely un-American that I am sure it can never prevail

I understand that as a part of the program they plan to present to the legislatures of the several States bills either reviving the

so-called "Blue Laws" where they have been repealed, or strengthening them I regard it as my duty to suggest to the Legislature that no such bills should be enacted into law It has been the vain but futile hope of misguided people for many years to be able to legislate morals into a community

I believe it to be to the advantage of the churches that such legislation should not prevail Sumptuary legislation upon questions of morals, restraining the liberty of the individual to worship God in his own way and to take such recreation as may be necessary to his well-being, may cause a reaction that will be detrimental to religious observance and will in itself be demoralizing to the community I therefore suggest to you that if such bills appear they be not approved

Not only am I opposed to any extension or amplification of the Sunday law for the reasons stated, but I believe it should be liberalized The difficulty inherent in our present Sunday law is that the sentiment of the people in many localities is opposed to its enforcement, with the result that it becomes unenforceable at the hands of grand juries and it is therefore publicly condemned This situation is undesirable because it breeds a contempt for law, and its results strike at the very basis of our system of government While the settled policy of the State has at all times been directed to preserving the sacred character of the day, as one of rest, the necessities of modern life have resulted in compelling the people to take advantage of the Sunday as an opportunity for recreation and amusement Golf-playing and driving on Sunday are generally indulged in by those who can afford that species of recreation, but that does not include the vast masses of the people, who seek other and less-expensive methods of recreation While I am anxious to preserve the sacred character of the day, I do not think anything in that regard can be lost by the enactment of legislation which will permit outdoor recreation by the youth of our cities and the masses of our people This privilege need not be imposed upon every community, but may assume the form of a local option law, to be adopted by ordinance in any city which may desire to take advantage of the provisions of any general act containing a local referendum

STATE PROJECTS

There are two important matters which I deem it my duty to lay before you for your consideration, viz, the State Highway System and the State's charitable and correctional institutions

Referring first to the State Highway System, the following facts are submitted

The number of miles of State highways which will be completed or under contract before January 1st, 1923, is 190, which leaves 494 53 miles which will be neither completed nor contracted for by that time That date is selected for the reason that 1922 marks the end of the five-year period within which the moneys called for under the Edge Road Tax Act of 1917 are to be collected It also is after the expiration of the period provided for under the Act of Congress extending Federal aid in the building of roads

The estimated cost for finishing the work of building the main State highway routes, other than those either completed or contracted for up to January 1st, 1923, is $40,000,000 Incident to the reconstruction of the State Highway System is the necessity for rebuilding or replacing bridges I am advised that the amount required after January 1st, 1923, to carry out the plans of the State Highway Commission for the rebuilding and replacement of bridges is $15,000,000, so that the total cost, according to the latest information, of completing the State Highway System, including the building of bridges, is $55,000,000 in addition to what has been or will be spent by January 1st, 1923, viz, $18,000,000, or a grand total of $73,000,000

Now, with regard to the State's institutions During the legislative session of 1920 the Department of Institutions and Agencies presented their report of a proposed construction program covering a period of ten years That program calls for the expenditure of some $16,000,000, which it is contended by the Department is necessary to furnish proper accommodations and facilities for taking care of feeble-minded, epileptic, insane, unstable and unadjusted persons, and incipient and advanced tubercular patients at large throughout the entire State, and also to insure the rehabilitation and reconstruction of the various in-

stitutions of the State, including certain new institutions for feeble-minded women and feeble-minded males, a custodial institution for defective males, a psychopathic building for outpatients, and a new reformatory—the latter building thereby permitting the use of the present Railway Reformatory as a State prison

Both of these projects are of the greatest importance to the people of the State They press upon us for a solution Perhaps it might be said that we are now reaping the results of the State's failure to provide in past years a good system of roads and its neglect to properly and adequately recognize its duty toward its wards Whether that be so or not, it seems to me that we cannot face the facts down any longer In the case of roads, unless the State is prepared to spend a large sum of money, the highway work after January 1st, 1923, will have to be discontinued in large part, and to postpone relief for the correctional and charitable institutions means to simply put off the day of reckoning

Of course, there is the other side to the proposition, which gives me no little concern Already a State debt, amounting to $40,000,000, has been placed upon the people To what extent we should further obligate the State, especially in these times, ought to be carefully weighed

I feel that the problem is one which should have the attention not only of the executive branch, but the legislative branch as well, for the reason that the ultimate responsibility for the creation of additional State debt rests with the Legislature My suggestion is that the Appropriations Committees of the House and Senate have too much to do in deciding upon ordinary routine appropriations to attempt to give these matters the study and thought they should have Therefore I invite the creation of a special committee, consisting of representatives from both the House and the Senate, to confer with me so that there will be submitted to the present session of the Legislature some concrete program which will take into account all of the various interests involved—the necessity for good roads, the seemingly absolute requirement that the institutions and agencies of the State be placed on a proper basis, and last but not least, to what extent

our already over-burdened people can further be called upon It will be my endeavor to cooperate with the committee to the fullest degree, and I am hopeful that with the combined judgment of the members of the committee, the State Highway Commission, and the Department of Institutions and Agencies, some progressive plan can be worked out

TAXATION

The equal distribution of the increasing burden of taxation continues to be a problem of vital importance to the people of the State We are more fortunate than some of our sister states in that we have not, thus far, been obliged to find new sources of revenue With rigid economy in public expenditures, and the efficient administration of our present system of providing for budget requirements, we should be able to avoid the necessity of seeking additional subjects of taxation

By strengthening the existing scheme at those points where experience has shown it to be weak, we may confidently hope for an amelioration of the tax burden through a more uniform distribution of the load Whatever may be its defects in practical operation, it must be conceded that our system of taxation is based upon the principle of equality and uniformity The more closely we adhere to this principle in administering the system, the more surely will we eliminate existing abuses and those grievances of which taxpayers justly complain The practical problem of taxation now confronting us is, therefore, the problem of so making our tax levies that all property subject to taxation shall contribute to the support of government precisely in proportion to the value of such property

The accomplishment of this object would, in my judgment, be materially advanced by widening the powers of the State Board of Taxes and Assessment The theory of administering our taxing system is that control centers in the State Board and extends down through the County Boards to the local assessors The powers lodged in the State Board, however, are not adequate to enforce this theory in practice Its function with respect to the assessment of general property is chiefly that of an appellate

body While the statute constitutes it "a board for the equalization, revision, review and enforcement of taxation," it fails to provide it with effective means to realize those objects I recommend that its powers be so extended that it shall have the authority on its own initiative to order, or itself make, a reassessment of property in any taxing district, without individual notice of the proceedings to each taxpayer The time for making such a reassessment should coincide with that period during which the local assessments are in the course of examination and revision by the County Boards Any attempt at reassessment after the tax rates are struck and the tax bills sent out can only result in injustice to the taxpayer and confusion in the municipal finances

The mere existence of such a power would be a potent discouragement to the practice of under-valuation, and its exercise would secure a greater equality of assessment as between taxing districts and as between counties than has ever been known in this State The only equalization that is fair and equitable to the taxpayer is that equalization which extends to the individual property owner, and the time to equalize is during the process of assessment

The State Board should also be given such powers as will enable it to enforce any order or direction issued to a local assessor The local assessor is the agent of the State in performing a highly important public duty, and the State should devise the means to make sure that that duty is honestly and efficiently discharged

Any additional powers should be conferred upon the State Board which are necessary to constitute it the controlling force in the machinery of assessment, functioning through its own agents, the County Boards and the local assessors What I suggest is not that the present taxing system be changed, but that it be strengthened, to the end that it may produce adequate revenues from reasonable rates, and assure equality of burden among all taxpayers

THE NATIONAL GUARD

Satisfactory progress has been made in the reorganization of the National Guard During the past year there were organized 24 units, which increases the strength of the National Guard to 2,594 New Jersey is rated eleventh of all the States, having enlisted 63½ per cent of its authorized commissioned and enlisted strength of 4,084, having completed 1 Infantry Brigade, consisting of 2 Regiments, 1 Squadron of Cavalry, and in addition Headquarters, Supply and Machine Gun Troops, 2 Batteries of Field Artillery and 1 Radio Company, Signal Corps It is gratifying to know that during the past year there has been exhibited by former service men a tendency to renew their interest in the military service by enlisting in units in course of organization The services of these men, who have a keen realization of the necessity of military training and the advantage of preparedness, will add much to the morale and efficiency of the entire National Guard

Under the provisions of an Act of Congress, the allotment of National Guard troops is based on the ratio of a minimum of 800 men per senator and representative in Congress, and the organization of the units within these allotments is to be distributed in annual increments over a period of five years New Jersey's allotment on this basis would be 11,200 men The increment for the fiscal year ending June 30th, 1921, including the present units, will consist of Division Troops—1 Infantry Brigade, 1 Field Artillery Battalion, 75 mm, horse drawn, 1 Engineer Battalion, 1 Divisional Signal Company and 1 Hospital Company Army Troops—1 Cavalry Regiment General Headquarters Reserve—2 Coast Artillery Companies Ultimately the National Guard of the State will consist of a division, less 1 Brigade of Infantry, 1 Regiment of Field Artillery and minor divisional units

While the allotment of troops is based upon the number of representatives in Congress, it is noted that units are only organized in fourteen of the twenty-one counties of the State The problem of organizing the National Guard allotted by the War Department is one that rests upon all of the people of the State,

and should be assumed by the different sections of the State in proportion to population and the available facilities for housing, drill and instruction of the National Guard

There is greater incentive for qualified men to enlist in the National Guard today than heretofore Officers and men are not only paid for attendance at encampments and field instruction, but also receive pay for attendance at drills, and in addition thereto, receive from the Federal Government all uniforms, arms and equipments of the latest model In addition to these features, opportunity is afforded each year for qualified young men to compete in examinations for admission to the United States Military Academy at West Point

Every possible assistance has been rendered by the military departments of the State to the veterans of the recent war and their dependents in the adjustment of claims, allotments, compensation and insurance with the War Risk Insurance Bureau

The records of 90 per cent of the residents of the State who entered the war have been secured through co-operation with the war and navy departments as well as with the numerous war service agencies The Victory Medal, authorized by the Legislature of 1919 has been issued to 60,760 of the 119,000 persons entitled thereto Medals have also been issued to the Militia Reserve for service within the State during the period of the war Recognition was denied the State Militia in the act of 1919, and it is recommended that it be given the same consideration as the Militia Reserve, either by the issue of a medal or a certificate of merit

MOTOR VEHICLE LICENSE FEES

State and County roads are kept in order and maintained with moneys realized from the licensing of automobiles From such funds there is first deducted the administration expenses of the Motor Vehicle Department Upon the basis of the Motor Vehicle Commissioner's estimate of receipts for the calendar year the State Highway Commission apportions to the respective counties of the State such sums of money as in its judgment will meet the requirements of the maintenance of county roads in such counties when augmented by an appropriation of like amount

by the respective counties Before the apportionment is made by the State Highway Commission there is deducted by that board a sum of money sufficient to meet the cost of maintaining the State Highway System

Experience of the past few years demonstrates that the receipts from motor vehicle fees have not been sufficient to keep pace with the maintenance needs of the highway system and of county roads The reason therefor seems to be the destructive effect of the modern motor vehicle, both pleasure and business

There are two remedies, one to limit the weight of vehicle and load to a maximum of twenty-eight thousand pounds and the other to increase the amount of the revenues

The motor vehicle license fees for 1919 were $2,931,902 15, an increase of approximately 20 per cent over the amount collected in 1918 The average rate of increase for the past few years has been approximately 25 per cent a year A commission is now considering the question of increasing license fees for such vehicles It seems to be recognized that the fees must be increased if the State Highway System and county roads are to be properly maintained I hesitate at this time to make any definite recommendations until I have had an opportunity of studying the Commission's report, nevertheless there are some observations which might now be of value, viz , a fair method of determining the license fee of pleasure cars is perhaps upon the basis of a fixed charge per horse power Passenger vehicles, perhaps, should be licensed upon the basis of carrying capacity Motor trucks should probably be on the basis of weight of vehicle and load, which I understand is the present method

It may be argued that to increase the license fees so as to raise the funds necessary for maintenance of the State Highway System and country roads is unfair to the user of the motor vehicle It must be borne in mind, however, that none of the motor vehicle fees are devoted to the upkeep of roads and highways located within the confines of municipalities, except in comparatively rare cases Such highways are open to and are used by motorists generally, without any direct charge therefor It is also true, as has been said before, that counties are required to

raise an equal amount in their budgets with that appropriated to them by the State Highway Commission from motor vehicle fees

Before making any more specific recommendations I will await the report of the commission now having the matter under consideration

PROTECTION OF WATER SUPPLIES

The health of our State, especially in the cities and counties of northern New Jersey, is dependent upon an ample supply of pure water In a compact state, such as New Jersey, where the towns and cities are but short distances apart, the protection of municipal water supplies should be given full consideration The State Boards charged with the duty of protecting the water supplies of the State should be given ample powers to prevent pollution or diversion of the potable waters of the State

I am informed that the State Board of Health is now without power to order municipalities, corporations or individuals to install and place in operation systems of sewers for the purpose of protecting municipal water supplies from pollution I recommend for your consideration the passage of a law empowering the State Board of Health to prevent the pollution of any water shed or stream which is a portion of, or tributary to, a source of municipal water supply

I recommend the passage of a bill which will give the State Board of Health power to prevent the location of factories liable to produce objectionable waste matter on any portion of a watershed unless the Department of Health issues a permit A nuisance once established is difficult to abate Our efforts should be directed toward preventing the establishment of a nuisance which may endanger the lives and health of any community

Power should be given the State Board of Health to prevent bathing at points where, in its judgment, such bathing will be in fact a substantial menace to persons using the water A similar law is on the statute books of New York State, and there can be no reason why an equal degree of protection should be withheld from the citizens of New Jersey While it is desirable to

provide places for public bathing, it is none the less far more important that such bathing should be prevented where the pollution of water used for drinking purposes is at all possible There is also to be considered the attitude of a community using the water in which bathing is permitted While the pollution may be chemically removed, there is none the less the æsthetic side of the question to be considered

It seems to be an accepted fact that available water sheds or sources of potable water supply in northern New Jersey will sooner or later fail to meet the demands of the municipalities now drawing upon them This would seem to dictate the wisdom of inaugurating such measures as will, by elimination of all possible sources of pollution, make available for such use all of the possible sources of supply

LEGISLATION FOR WOMEN

The rapidly increasing number of women in industrial and commercial life of our State requires consideration of the necessity for changes in our laws with respect to hours of employment and conditions under which the female is required to work

A number of our States have prohibited the employment of expectant mothers for periods before and after child-birth My suggestion is that legislation be passed prohibiting the engaging in industrial occupation or work of any woman for six weeks before and six weeks after the birth of her child

Further, I might suggest to you a modification of our labor laws so as to provide for women an eight-hour day within nine consecutive hours, and a forty-eight-hour week, as applied to industries now covered by the ten-hour law, and the prohibition of night work for women employed in manufacturing after ten o'clock at night and before six o'clock in morning

I am informed that for years there has been comparatively little improvement in the maternal death rate from child-birth The subject of preventing or checking the waste of motherhood is so important, in my judgment, that whatever relief may be extended by means of legislation should be promptly given

REVISION OF CRIMINAL LAWS

My constitutional duty as a member of the Court of Pardons has brought me into such close relation with the operation of the criminal laws that I feel impelled to suggest the necessity of appointing at an early date a commission to revise and codify such laws A revision was made in 1898 by a commission of three eminent lawyers, but from time to time since then the Legislature, by various enactments, has so changed what was then recognized as the New Jersey Criminal Code that it is now difficult for able jurists, without mature deliberation, to reconcile the differences between the conflicting statutes

An illustration of that conflict is found in the effect of Chapter 214, P L 1914, amending the Indeterminate Sentence Act of 1911 by Chapter 191 Under the Act of 1914, where a sentence of death is commuted to imprisonment for life the minimum term is fifteen years Therefore one who might have committed first degree murder could possibly secure his release from confinement at the expiration of fifteen years, whereas, under other statutes, the minimum term for second degree murder, a lesser offense, is twenty years

LABOR

During the last session of the Legislature certain bills were introduced designed to ameliorate the condition of labor These measures were not successful of passage They dealt with the issuance of writs of injunction in labor disputes where no property rights were involved, the right of trial by jury in cases of alleged contempt committed outside the Court's presence, and other subjects

It is my judgment that these measures, or others drawn along lines substantially the same, should be enacted into law

DAYLIGHT SAVING

The beneficent effect of this policy is so well understood that it requires no argument During the past year there was considerable confusion in the State, due to the fact that many of

the communities were operating under the so-called "Daylight Saving Plan," while others were not To prevent any repetition of that difficulty it seems to me that a law should be enacted providing for a change in the hours Perhaps there should be some slight modification from the practice of past years in this respect, viz , that standard time should be restored earlier in the fall

RARITAN ARSENAL

During the war the Federal Government, under the authority of emergency legislation, took certain steps toward the acquisition of title to two thousand and eighty-nine acres of land, more or less, situated near Metuchen, in this State, for use for ordnance purposes Although title to all the lands needed to carry out the War Department's plan of construction was not then and has not yet been fully and finally acquired, construction went forward, nevertheless, and the lands have since been occupied and used as an ordnance depot, known as the Raritan Arsenal

By act of Congress approved February 28, 1920, the Secretary of War was authorized to take the necessary steps to complete the acquisition of title to said lands, and a specific appropriation was made available for the purpose of meeting the payments necessary for such acquisition

The War Department has requested that jurisdiction over the lands acquired and to be acquired and forming part of the Raritan Arsenal should be ceded by the State to the Federal Government Accordingly, there will be presented to you the draft of a bill making such cession of jurisdiction, and which bill follows the general form that has been adopted by the Legislature of this State in similar cases I respectfully suggest that such measure should be enacted into law

EDWARD I EDWARDS,

Governor

Dated January 11, 1921

Mr McMillin offered the following resolution and moved its adoption

WHEREAS, The nineteenth amendment to the Federal Constitution confers upon women the full rights of citizenship, and

WHEREAS, By virtue of these rights the women of New Jersey were for the first time, on November 2d, 1920, enabled to participate in a general election in this State, and

WHEREAS, The people of Essex county, taking advantage of this privilege thus accorded, have elected two of the newly enfranchised citizens to represent them in the General Assembly of the State, and

WHEREAS, This action marks a new epoch in the history of New Jersey, be it

Resolved, by the General Assembly of the One Hundred and forty-fifth New Jersey Legislature at this its opening session, on January 11th, 1921, that the people of the State be congratulated upon this notable accession to their law-making body, that the women of the State be congratulated that they now have the opportunity of assuming their share of the responsibilities that rest upon every citizen of a democracy, and that a cordial welcome is herewith extended to the two Assemblywomen from Essex, the House pledging them its heartiest support in their newly assumed tasks, and be it further

A S Van Orden, of Bergen county, Clerk to Committee on Printed Bills

On motion of Mr Rowland the clerks were elected by acclamation

Mr Loori offered the following resolution and moved its adoption, which motion was carried and the House in accordance with the resolution stood in prayerful silence

RESOLUTION OF CONDOLENCE ON DEATH OF JOHN B ROSSER, ASSEMBLYMAN-ELECT, HUDSON COUNTY, ONE HUNDRED AND FORTY-FIFTH LEGISLATURE

WHEREAS, Upon the organization of the House of Assembly of the One Hundred and Forty-fifth Legislature, it appears that John B Rosser, Assemblyman-elect from Hudson county, is not present, and

WHEREAS, It appears further that the said John B Rosser was duly elected a member of the General Assembly for the year 1921 to represent the county of Hudson, and

WHEREAS, It has been the will of the Almighty God to call by death the said John B Rosser, and thereby taking from our midst one who was well on his way to do great service for the State of New Jersey, as well and ably and nobly as he did perform a service to his country, this great country of ours, when came the call to arms in the late world war, and

WHEREAS, We the members of the House of Assembly of the One Hundred and Forty-fifth Legislature, being firm believers in

the Supreme Being, do yield unto the call made upon one of our colleagues by a higher power than even this great State of New Jersey, therefore be it

Resolved, That this House, appreciating the loss caused by the death of the Honorable John B Rosser, a loss whereby the great State of New Jersey suffers as well, not forgetting the loss to the dear ones at home, that this House express its sorrow and sincere sympathy to the widow and child and the mother and father and to the brother and sister of the statesman who fails at this time to answer to the roll call, and be it

Resolved further, That the members of this House rise and stand with bowed heads and in reverent prayer for a period of one minute and solemnly pay their last respects to the departed, and be it

Resolved also, That a copy of these resolutions be properly transcribed and handed to the widow of the late Honorable John B Rosser, and be it lastly

To the House of Assembly February 6th, 1921

I return herewith, without my approval, Assembly Bill No 2 This bill raises the age of consent from sixteen to eighteen years The effect of the measure is to render void any marriage contracted with a female under eighteen years of age without the consent of her parent or guardian

The former limitation has existed for many years So far as I am informed it has afforded complete protection To raise the age limit, it seems to me, will unnecessarily interfere with established standards of many of our people and of those races which marry early To make young persons of advanced maturity, as is usually the case with such people guilty of a high misdemeanor for contracting marriage under eighteen without the parental consent, seems to me to work injustice and to militate against the encouragement of the marriage state

Respectfully,
EDWARD I EDWARDS,
Governor.

Attest
J HARRY FOLEY,
Secretary to the Governor

With the following amendments

Section one, line eleven, after the word "districts" insert the following words "and one-half of the franchise taxes and one-half of the tax on gross receipts of corporations"

Line thirteen, after the word "canal" insert the following words "and franchise" After the word "taxes" insert the following words "and tax on gross receipts of corporations"

Line fourteen, transpose the words "proper" and "other" so that the line shall read as follows "or other proper officer of the municipality"

Line thirty-six, strike out the following words "that no municipality or county shall issue tax revenue notes or bonds until it has exhausted its borrowing power under section twenty-one for issuing tax anticipation notes or bonds", and insert in lieu thereof the following "that if, at the time of borrowing, a municipality has power to borrow on tax anticipation notes or bonds, the power to borrow on such notes or bonds shall first be exhausted before it shall borrow on tax revenue notes or bonds"

Line forty-one, strike out the word "third" and insert in lieu thereof the word "fourth"

Line forty-two, strike out the word "third" and insert in lieu thereof the word "fourth"

Strike out section two and insert in lieu thereof the following Section two Section twenty-three of the act to which this act is an amendment is hereby amended to read as follows

23 On each tax anticipation note or bond, each tax revenue note or bond, and each tax title note or bond hereafter issued there shall appear a statement that it is issued pursuant to this act, and there shall be stated the total borrowing power authorized by this act under such instruments, as well as the amount of such instruments outstanding, *provided, however,* that the amount authorized to be borrowed by the governing body need not be reduced by reason of the further collection of taxes between the date when the resolution is adopted authorizing the borrowing and the date when the loan is actually effected Such a statement shall be made by the treasurer or chief financial officer of the municipality or county, as the case may be, and his signature to the instrument shall constitute a declaration to the other officials who are required to sign such statement that the statement made is correct, and such statement shall constitute conclusive evidence to the holder of such instrument that the same was fully authorized under and within the powers, limitations and provisions of this act

Add Section three Section twenty-six of the act to which this act is an amendment is hereby amended to read as follows

26 All notes or bonds issued hereunder shall be authorized by resolution They shall be negotiable instruments, but may be registered upon request of the purchaser or holder They shall bear interest at a rate not in excess of six per centum per annum, and shall be sold by the municipal or county maker thereof for not less than par The faith and credit of the municipality or county shall be deemed to be pledged for the payment of such notes or bonds, with interest, as though a statement to that effect were endorsed thereon When any municipality or county shall issue at one time notes or bonds hereunder where the amount exceeds one-tenth of one per centum of the next preceding assessed valuations of the taxable real and personal property of such municipality, or one-fortieth of one per centum of the next preceding assessed valuations of the taxable real and personal property of such county (excepting that this limitation shall not apply to an issue that shall be less than fifty thousand dollars, nor wherein tax revenue notes or bonds are issued to the holder of tax anticipation notes or bonds to refund same), such notes or bonds shall be sold at public bidding, as the result of sealed proposals, which shall be publicly opened and read at the place and time as stated in the advertisement for such bidding, and after advertisements of one week previous to date of bidding in the official newspaper of said municipality or county, if there be such, or, if not, in a newspaper published and circulated in said

municipality or county, as the case may be, and in such financial papers as the governing body may direct Such notes or bonds shall be sold at par The bidder shall be required to state the amount of interest he is willing to take for the loan about to be made The bidder offering the least interest rate, expressed in multiples of one one-hundredths of one per centum, shall be awarded the sale of said notes or bonds, if, however, one or more bidders offer the same interest rate, then the bidder who shall offer the greatest additional premium shall be awarded the sale of said notes or bonds Should no bid be received in response to the advertisement, the governing body shall have power within thirty days to sell such notes or bonds at private sale at the most advantageous rate obtainable, *provided, however,* that upon a two-thirds vote of the governing body notes or bonds to any amount may be sold to the sinking fund of the issuing municipality or county, as the case may be, at par, without advertisement or public bidding, *provided, further,* that upon two-thirds vote of the governing body notes or bonds to any amount which are by the provisions thereof payable within six months from their date may be sold at private sale at not less than par, without advertisement or public bidding

A message was received from the Governor, at the hands of his Secretary, which was read as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly February 21st, 1921

I return herewith, without my approval, Assembly Bill No 7 It is to repeal Chapter 57, P L 1920 That act changed the law as it existed prior thereto so as to require registration for commission government elections This repealer will revive the old method of allowing those who voted at the preceding general election to vote without registering at a succeeding commission government election

I can see no difference in principle between an election held to select the governing bodies of important cities of this State and elections to select representatives in the Legislature or to fill the various county offices For the latter no one can vote unless he is registered in accordance with the provisions of the Election

Act The commission government election is just as important as the general election, and if citizens desire the privilege of voting at the former election it seems to me they should not quarrel with the obligation to register

Furthermore, I believe the act of 1920 is in keeping with the consistent effort that is being made to secure purity of elections To repeal that legislation, in my judgment, can have but one result—to open the door to fraud In the six or seven months intervening between the general election in the fall and the commission government election in the spring numerous persons lose their right to vote by reason of deaths and removals from election districts The requirement of registration, as provided for in chapter 57, P L 1920, is a check upon any attempt on the part of those corruptly inclined to vote upon the names of persons who voted at the last election, but who have since, in that manner, lost their right to vote

It may be urged that the item of expense in conducting the registration is sufficient justification for repealing the so-called "McAteer Act" of 1920 To my mind, the expense sinks into insignificance compared with the object of the McAteer Act, designed as it is to prevent fraud

Respectfully,
EDWARD I EDWARDS,
Governor

Attest
J HARRY FOLEY,
Secretary to the Governor

Mr Rowland moved that the message be received, spread on the Minutes, and that the bill lie over, which motion was adopted

Mr Lyons offered the following resolution and moved that it be referred to the Committee on Judiciary, which motion was adopted

WHEREAS, There are several bills now pending in Congress vitally affecting nearly five million ex-service men, and

WHEREAS, These bills have been lying dormant in the committees of the House and Senate for an unreasonable length of time, and

WHEREAS, There remains only a few more days to this session of Congress, and

WHEREAS, There is a crying need for more hospitals to take care of the insane, maimed and injured of the late war, for the decentralization and consolidation of the Federal bureaus administering relief to the former service men, and a demand for the passage of the adjusted compensation bill, and

WHEREAS, The public sentiment of the American Legion and community cannot countenance further delay on these measures, and that those who elected them to office confidently expect immediate and favorable action on these vitally important measures affecting nearly five million men who served this country, therefore,

Be it Resolved, That the New Jersey Assembly go on record as favoring the immediate adoption by Congress of these bills, namely

1 The Watson Bill (H R 13558)

Providing for the establishment of fourteen regional offices of the War Risk Bureau with necessary sub-offices, authorizes Post-Office Department to collect war-risk premiums, and relieves disabled ex-service men, in receipt of hospitalization, from payment of war-risk premiums

2 The Stevenson Bill (H R 10845)

Providing that retiring disabled National Army officers receive same disability pay as those of Regular Army—at present they receive less than one-sixth as much

STATE OF NEW JERSEY,
SENATE CHAMBER,
February 28th, 1921

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has concurred in the following resolution

Be it resolved by the House of Assembly, That the Governor be and is hereby requested to return to the House of Assembly, Assembly Bill No 47, for further consideration

WM H ALBRIGHT,
Secretary of the Senate

A message was received from the Governor, at the hands of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
February 28th, 1921

Gentlemen of the Legislature

I direct your attention to a situation which should be, and no doubt is, giving you, as much as this department of the State, considerable concern I refer to the numerous measures now pending in both the Senate and House extending the State highway system I am informed that if all of the measures so offered are adopted the result will be to increase the mileage of roads included within the State highway system by 450 miles, the probable cost of completing which (exclusive of bridges) will be thirty-six millions of dollars There will remain to be completed, after January 1st, 1923, out of the original fifteen routes, including Route 16 added last year, some 495 miles, the estimated cost of which, including the replacement of bridges, is approximately fifty-five million dollars You will see, therefore, that if the measures now pending are adopted the total amount required to be spent to complete the highways will be ninety-one million dollars There should be added to that, of course, what has been or will be spent up to the end of 1922, eighteen million

dollars, making a grand total cost of one hundred and nine million dollars

The measures to which I refer are

Assembly 118, adding two routes, one from Morristown to Hackettstown and the other from Trenton to Washington

Assembly 292, adding one additional route from Paterson to the State line at Greenwood Lake by way of Pompton, Midvale, Hewitt and Coopers, and eliminating part of Route 11

Assembly 324, adding two connecting links—Route 17, from Elizabeth to Springfield via Morris avenue, and Route 18, Springfield and North Plainfield through Mountainside and Scotch Plains

Assembly 350, empowering the State Highway Commission to build and construct or take over any road now constructed in order to connect piers or docks to be located at Cape May or vicinity with any existing State highway road

Assembly 442, providing an additional route to run from Newark to connect up with the State highway of the State of New York

Committee Substitute for Senate Nos 6 and 30, which adds Routes Nos 17, 18, 19, 20, 21, 22, 23, 24, 25 and 26, or ten additional routes

Senate 89, which adds a new route to be known as No 17, to run from Far Hills to the State line by way of Chester, Netcong, Andover and Newton

Senate 129, which adds a road to run from Salem to Bridgeton by way of Quinton and Shiloh

Senate 147, which makes part of the State highway system the approaches to the proposed interstate bridge and tunnel, as well as the main highways leading thereto

While it is of great importance to establish a good road system, it is of equal importance to keep the program within reasonable bounds, and unless the situation is taken in hand firmly an enormous debt is bound to be placed upon the State

The existence of these measures is an illustration of what I pointed out last year, viz , that improvements which are parochial or provincial in their nature will be fastened on the State at large unless we vigilantly guard against such attempts Whether that be true or not, I think all must agree that this is not the time to pile up additional debt

It might be observed, in passing, that should these new routes be taken over there will be needed at once one million dollars additional to what has been counted upon for the 1921 maintenance of these roads

Already the State is obligated for approximately forty million dollars, which represents the amount of the bridge and tunnel bonds and the soldiers' bonus bonds If these measures are passed we will soon hit the two hundred million mark Some of them may be necessary, but my inclination is to veto every bill extending the State highway system unless the Legislature comes to some agreement with respect to keeping the extension program within reasonable limitations

Respectfully,
EDWARD I EDWARDS,
Governor

Mr Rowland moved that the further reading of the Governor's message be dispensed with, that it be spread in full upon the Minutes, and referred to the Committee on Judiciary

Which motion was adopted

A message was received from the Governor, at the hands of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
February 28th, 1921

Gentlemen of the Legislature

I desire to call to your attention Senate Bill No 182 and Assembly Joint Resolution No 5

These two measures deal with the plan to establish a Port of New York District

The Senate bill creates a commission to execute the proposed treaty, which is set out at length in the bill That treaty establishes the district referred to, which includes substantially all of the territory within Piermont, New York, on the north, Summit, New Jersey, on the west, New Brunswick and Atlantic Highlands, New Jersey, on the south, and Jamaica, Long Island, on the east Within that territory a body, politic and corporate is thereby created to function for the purpose of constructing and operating tunnel and transportation facilities The Port authority is made up of three New Jersey citizens and three New York citizens

Considerable objection to the plan has developed, and complaint has been made by some of the interested municipalities that sufficient time is not given them for a study of the proposed

scheme, for the reason that the report of the New York and New Jersey Port Development Commission, although that commission has been in existence for substantially four years, has but recently been made public, and its report is voluminous The municipalities affected by the measure, or some of them, suggest that action on the making of the treaty be postponed until the next session of the Legislature, so that, in the meantime, full consideration can be given to the recommendations contained in the report

With the making of the report the Port Development Commission ceases to function To prevent or forestall inattention and lack of consideration, on the theory that "what is everybody's business is nobody's business," Assembly Joint Resolution No 5 is offered so as to call for the appointment of a distinctly New Jersey commission, which will study the report of the New York and New Jersey Commission and be required to present, by January 1st, 1922, such criticisms and suggestions as it might have to make

I am in accord with the view that we ought not to enter into the proposed treaty until full opportunity has been given for consideration of the report of the Port Development Commission, and with that in mind I urge upon you that Assembly Joint Resolution No 5 be passed, and Senate Bill No 182 be held until the next session of the Legislature

Respectfully,

EDWARD I EDWARDS,

Governor

Mr President

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following bill

Senate Bill No 49, entitled "An act to amend an act entitled 'An act concerning public utilities, to create a Board of Public Utility Commissioners and to prescribe its duties and powers,'" approved April twenty-first, one thousand nine hundred and eleven,

The Governor's objection thereto notwithstanding

In which the concurrence of the House of Assembly is requested

WM H ALBRIGHT,
Secretary of the Senate

The following message was received from the Governor, by the hands of J Harry Foley, his Secretary, which was read as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 1st, 1921

Mr Speaker

I return herewith, without my approval, Senate Bill No 49 This bill amends the Public Utility Act of 1911 so as to provide for a board of three persons, not more than two of whom shall be members of the same political party and who shall receive an annual salary of twelve thousand dollars each The bill legislates out of office, or rather, attempts to do so, the former members of the Commission, whose removal was finally approved by the Court of Errors and Appeals a few days ago The Commissioners substituted for the former board, under the bill, are to be appointed, one for a term of two years, one for a term of four years, and one for a term of six years, and thereafter each for six years

My objections to this measure are as follows

Under the bill there is taken from the executive the power to remove, which was conferred upon the Governor, as the responsible head of the State, in the original legislation The removal of the former board, which has just been accomplished, is the first exercise of that power by the executive since the act was originally adopted, so that I do not think there can be any complaint on the score of an abuse of the power That such power should remain in the executive seems to me to be beyond argument It is a wise measure of protection against results following upon the failure of this board, vested as it is with powers and duties of great importance, to rigidly protect the interests of the people The duties which are committed to such board are of such nature that in my judgment they will be better discharged if the members of the board serve with the understanding that they can be called to account for the manner in which they administer the law

It may be urged that notwithstanding the absence of power of removal by the executive, nevertheless by impeachment an unfaithful commissioner may be separated from the office That method is not an adequate substitute for the executive power It is cumbersome, and involves action by two separate Houses of the Legislature, with a trial before a body of twenty-one Senators, who cannot be expected to devote the time necessarily required

By prescribing short terms for two of the incumbents of the board the object of the bill is frustrated—I assume the object of the bill is to take this board out of politics Its effect, however, for at least four years, is to keep alive the matter of the

personnel of the members of the board It would be better, in my judgment, to appoint all of the members for at least six years, so that the question of their reappointment will not be recurring too frequently

Respectfully,
EDWARD I EDWARDS,
Governor

Attest
J HARRY FOLEY,
Secretary to the Governor

Mr Rowland moved that the message be received, the Governor's objections be spread upon the Minutes, and that the bill lie over, which motion was adopted

Memorial to the Congress of the United States from the Legislature of the State of New Jersey

To the Congress of the United States

WHEREAS, It appears that funds have not been by Congress provided, nor authorization made for the purchase by the War Department of the tract of land occupied by the Chemical Warfare Service, near Lakehurst, in New Jersey, as a proving ground for the gas warfare material, and

WHEREAS, It appears, further, that the War Department will, lacking such provisions of funds and authorization, abandon said Chemical Warfare Service proving ground at Lakehurst, and

WHEREAS, The residents of the community and section of the State in which said proving ground is situate have by petitions to their representatives in this body requested its influence toward the retention of said proving ground by the national government, and

WHEREAS, By report of reputable citizens of the State, who have appeared before this body, the War Department has an investment of approximately $2,500,000 in improvements at said proving ground at Lakehurst, and an abandonment of said proving ground would result in loss of said investment, except such small salvage value as would accrue from wreckage and disposal, and the expense of removal and transfer of equipment and machinery to another point would approximate the cost of the site occupied by said proving ground, now, therefore,

Be it resolved by the General Assembly of the State of New Jersey (the Senate concurring), That the Congress of the United States be and the same hereby is requested to consider the advantages of enabling the War Department to retain said proving ground, and the appropriation of such sums as in the circumstances may be met, and be it further

Resolved, That a copy of the memorial be sent to the Honorable John W Weeks, Secretary of War, the Honorable Walter E Edge, the Honorable Joseph S Frelinghuysen, United States Senators, and the Honorable T Frank Appleby, Member of the House of Representatives from the Third Congressional District of the State of New Jersey

STATE OF NEW JERSEY,
SENATE CHAMBER
March 15th, 1921

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has concurred in the following memorial and concurrent resolution

Memorial to the Congress of the United States from the Legislature of the State of New Jersey

To the Congress of the United States

WHEREAS, It appears that funds have not been by Congress provided nor authorization made for the purchase by the War Department of the tract of land occupied by the Chemical Warfare Service near Lakehurst in New Jersey as a Proving Ground for the Gas Warfare material, and

WHEREAS, It appears, further, that the War Department will, lacking such provisions of funds and authorization, abandon said Chemical Warfare Service Proving Ground at Lakehurst, and

WHEREAS, The residents of the community and section of the State in which said Proving Ground is situate have by petitions

to their representatives in this body requested its influence toward the retention of said Proving Ground by the National Government, and

WHEREAS, By report of reputable citizens of the State who have appeared before this body, the War Department has an investment of approximately $2,500,000 00 in improvements at said Proving Ground at Lakehurst, and an abandonment of said Proving Ground would result in loss of said investment except such small salvage value as would accrue from wreckage and disposal, and the expense of removal and transfer of equipment and machinery to another point would approximate the cost of the site occupied by said Proving Ground, now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring), That the Congress of the United States be and the same hereby is requested to consider the advantages of enabling the War Department to retain said Proving Ground, and the appropriation of such sums as in the circumstances may be met, and be it further

Resolved, That a copy of the memorial be sent to the Honorable John W Weeks, Secretary of War, the Honorable Walter E Edge, the Honorable Joseph S Frelinghuysen, United States Senators, and the Honorable T Frank Appleby, member of the House of Representatives from the third Congressional District of the State of New Jersey

STATE OF NEW JERSEY,
SENATE CHAMBER
March 21st, 1921

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution

WHEREAS, It has been brought to the attention of this Legislature that certain irregularities are alleged to exist in the election and examination of officers of the National Guard of New Jersey, which have seriously affected its organization, discipline and morale, and

WHEREAS, The Appropriation Bill for the year 1921 appropriates vast sums of money for the maintenance and efficient training of the National Guard, the greater part of which may not be advantageously expended if such conditions continue, and,

WHEREAS, The foregoing matters are of grave import to the nation and State in the after-war reorganization of the National Guard of New Jersey, and the conditions as presented require relief by the Legislature for the correction of such conditions, if found to exist, therefore,

Be it resolved by the Senate and General Assembly of the State of New Jersey, That the Committee of Investigation as constituted and created by Senate Joint Resolution No 1 of this Legislature, be directed to conduct an exhaustive and impartial investigation of the conditions existing in the National Guard of the State of New Jersey, and in particular to determine the manner of selection of, and the nature and extent of examinations given to determine the military qualifications of National Guard officers

A message was received from the Governor by the hands of his secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly March 22d, 1921

I return herewith, without my approval, Committee Substitute for Assembly Bill No 43 I cannot approve this measure for these reasons

1 Section 24 provides for a forfeiture of any lease of premises wherein any violation of the act may be committed—the forfeiture to be at the option of the lessor Possession is to be enforced by summary proceedings under "An act concerning landlords and tenants," approved March twenty-seventh, one thousand eight hundred and seventy-four, and its amendments and supplements My opinion is that this section of the bill is unconstitutional, and that if any such ground for removal of a tenant is

to be created it must be done by amendment of or supplement to the Landlord and Tenant Act

2 Section 34 authorizes the trial of any accused person before a magistrate, without a jury, and, under sections 44 and 45, upon conviction, such person may be sentenced to be confined for a period not exceeding six months or to pay a fine of five hundred dollars, or both

I cannot give my consent to the adoption of such policy by the State It is my belief that no one should be placed in peril of being deprived of his liberty for any considerable period of time without the submission of the fact of his innocence or guilt to a jury Vesting of power in magistrates to hear and determine the innocence or guilt of accused persons, and to sentence them for short periods not to exceed one month, might perhaps be defended on the score of economical and speedy administration of justice, where petty offenses only are involved, but to extend the practice to the imposition of sentences resulting in confinement for six months, it seems to me, institutes an exceedingly dangerous practice, and is a blow at an institution which has served free countries for centuries

That feature of the measure, and the others to which I will now briefly allude, will set up in this State a condition of judicial and official tyranny the prospect of which gives me no little concern

The other provisions to which I have reference are those authorizing the searching of all premises where liquor is believed to be possessed in violation of the act, even to the extent of invading homes at any hour of the day or night

This measure is so drastic—denying trial by jury to the accused, working forfeitures of property of various descriptions, authorizing forfeitures of leases, and empowering agents of enforcement bureaus to break into private premises of our citizens —it seems to me that it would have, if law, only one effect—to arouse resentment on the part of the people as a whole

Respectfully,

EDWARD I EDWARDS,

[SEAL] *Governor.*

Attest

J HARRY FOLEY,

Secretary to the Governor

Mr Pierson moved that the Governor's message be spread on the Minutes and the bill lie over, which motion was adopted

The Clerk read the following notice

A public hearing will be given on Assembly Bill No 526, in the Municipal Corporation Room, on Monday, March 28th, at 2 P M

EMMOR ROBERTS,
Chairman Committee on Agriculture

Mr Pierson, Vice-Chairman of the special committee appointed under Assembly Joint Resolution No 3, offered the following report, and moved that same be spread on the Minutes

The report of the special committee appointed under Assembly Joint Resolution No 3 to investigate the needs of the State Highway Department and the Board of Institutions and Agencies, in connection with the proposed plan of bond issue for construction and reconstruction

The committee met on the 28th day of February and organized, with Senator Collins B Allen as Chairman, Assemblyman Arthur N Pierson, Vice-Chairman, and Assemblyman W Irving Glover as Secretary

At the meeting held on March 14th the proposal to issue $50,000,000 of State Highway bonds and $14,000 000 of Institutions and Agencies bonds was agreed upon

The committee recommends the issuance of $50,000,000 of highway bonds, running for a maximum of thirty years Included in this program are bonds for the construction of bridges of the highway system, which it is proposed to finance by thirty-year bonds Bonds for the construction of highways it is proposed to issue for twenty years After carefully estimating the amounts for interest and sinking fund requirements, it is clearly shown that the one mill tax will cover these charges throughout the life of the bonds, and during the earlier years of the issue the one mill tax will furnish between $10,000,000 and $12,000,000 in excess of interest and sinking fund requirements, which it is planned to add to the $50,000,000 to be received from the sale of bonds, giving an excess of $60,000,000 for construction purposes, which can be readily carried without an increase of the mill tax

In the committee's recommendation to issue $14,000,000 of State Institution bonds to run for a period of thirty years, it is proposed that the bonds shall be issued in series, as the needs of the institutions may require, and the facilities of the department may enable an economic reconstruction of our institutions Dur-

ing the past three years an average of $1,000,000 has been appropriated in our budget for the construction of new buildings and additions The plan in connection with the bond issue is that for the first eight years a minimum of $850,000 shall be appropriated from the budget, which amount, after interest on outstanding bonds is deducted, will accumulate a substantial sinking fund for their retirement, so that in the remaining years of the life of the bonds the sinking fund requirements will be much less than under the minimum sinking fund requirement each year Under such a plan the demands upon the State budget will not be increased over the present, but will enable the State to provide the much-needed facilities of our institutions with better equipment for the several branches of work, thereby improving the system and increasing the cures, and, in addition thereto, cut down the per capita cost of maintenance to a substantial degree

In support of the committee's recommendation, Committee Substitute for the Downs Highway Bill No 244 is proposed, and a Committee Substitute for the Pierson Institutions and Agencies Bill No 265 is proposed

COLLINS B ALLEN,
Chairman
ARTHUR N PIERSON,
Vice-Chairman
W IRVING GLOVER,
Secretary

' As correctly printed '

Senate Bill No 74, entitled "An act creating a Department of State Police, providing for the appointment of a superintendent thereof, together with the officers and men who shall constitute the force, defining their powers and duties, and making an appropriation for the expenses connected therewith,"

Together with the Governor's objections, was taken up The Clerk read the following veto message from the Governor

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Senate March 21st, 1921

I return herewith, without my approval, Senate Bill No 74

This bill is the so-called "State Constabulary" or "State Police" bill I am unable to approve of it for these reasons

First from the standpoint of added expense —The department created by the bill consists of the following positions, the incumbents of which are to receive the salaries set opposite the positions in this table

One superintendent,	$5,000 00
One deputy superintendent,	3,500 00
One clerk,	1,500 00
One stenographer,	1,200 00
Two captains, at $2,400,	4,800 00
Two lieutenants, at $1,800,	3,600 00
Two first sergeants, at $1,500,	3,000 00
Eight sergeants at $1,400,	11,200 00
Eight corporals, at $1,300,	10,400 00
Two mechanics, at $1,300,	2,600 00
Two saddlers, at $1,300,	2,600 00
Two blacksmiths, at $1,300,	2,600 00
Eighty-eight privates, at $1,200,	105,600 00
Or a total of	$157,600 00

It will be observed, therefore, that the annual payroll of this department starts out at a fairly respectable sized sum of money It would not require a very lively imagination to visualize a rapid increase in the number of employees, with a consequent increase in the salary list

In addition to the salary roll, there necessarily will be heavy upkeep for uniforms, weapons, horses, horse equipment, vehicles, automobiles and supplies of all description Of course, I have no information at hand upon which to base any judgment as to the probable cost, both initial and permanent, of such features, but evidently the author of the bill assumed that it would be considerable, because the appropriation provided for under the bill is the sum of $300,000

In connection with the matter of expense, I am somewhat concerned with the language of section 7 It authorizes the creation of a detective bureau Whether or not it is the intention of this measure to empower the superintendent of police to appoint from civil life State detectives, or to confine the work of such bureau to the department as constituted under the bill, I am unable to determine If it is the intention to have the detective work carried on by the members of the department as created by the bill, I am unable to understand why they are to be known as "assistant State detectives" The use of that expression rather indicates to me that it is the intention of the measure that, in addition to the employees specifically provided for under the bill, others, without limit in number, may be employed to do detective work

Second with reference to the uses to which the members of the department are to be put —So far as I am informed, there is no emergency existing which would justify fastening upon the State an annual expenditure of over $150,000 (and probably over $200,000) for the maintenance of such department Various labor organizations of this State have opposed the measure upon the ground that it is intended as a means of oppressing organized labor in disputes or controversies with employers While there is a provision that the members of the department shall not be used as a posse in any municipality except when ordered by the Governor to do so, upon the request of the governing body thereof, I am rather inclined to accept the view advanced by the labor organizations—that the purpose of the bill is to provide a means of oppressing labor In my judgment, ample authority and power already exist, vested in the various peace officers of the counties and municipalities, and in the Executive, as the head of the State militia, to control disorders incident to strikes, therefore legislation of this character is not necessary

Respectfully,
EDWARD I EDWARDS,
Governor

Mr Rowland moved that Senate Bill No 74 do pass, the objections of the Governor to the contrary notwithstanding

Which motion, the ayes and nays being called, was carried by the following vote

In the affirmative were—

Messrs Alexander, Baldwin, Blackwell, Blair, Boswell, Champion, Coles, Coon, Corio, Cranmer, Dater, Downs, Dutcher, Eldridge, Elliot, Fallon, Fooder, Franklin, Gibbs, Glover, Hastings, Hobart (Speaker), Laird, Lohsen, Loori, Loughran, Owen, Patterson, Peterson, Pierson, Read, Roberts, Rowland, Stephens A E, Templeton, Tozer, Warner—37

The Clerk read the following communication from the War Department

LAKEHURST PROVING GROUND,
LAKEHURST, N J,
March 25th, 1921

Mr Upton S Jefferys, Clerk, House of Assembly, Trenton, New Jersey

MY DEAR MR JEFFERYS—Replying to your letter of March 15th, in which you inclosed a resolution by the House of Assembly and the Senate of the State of New Jersey, urging the government to retain the Lakehurst Proving Ground, near Lakehurst, New Jersey, I desire to state that the government does not own the land on which the proving ground has been located, and at the present time has not been able to make terms for a lease

In view of the fact that the keeping of Lakehurst Proving Ground would require the purchase of about 16,000 acres of land, at an approximate cost of $160,000, and to the further fact that in the vicinity of Edgewood Arsenal, about twenty miles from Baltimore, the government has nearly 36,000 acres of land, it has been thought that practically all chemical warfare proving could be carried out at that place and avoid the necessity of purchasing the above-mentioned land at Lakehurst and the additional overhead expense that would be necessary to maintain it as an establishment of the chemical warfare service This matter will be further investigated at an early date

Very respectfully,
JOHN W WEEKS,
Secretary of War

Mr Rowland moved that the communication be received and entered upon the Minutes

To the Senate

I return herewith, without my approval, Senate Committee Substitute for Assembly Bill No 146

The present practice, in holding elections in the municipalities governed under the Commission Government act, is to allow all persons who desire to submit themselves as candidates to run at the election, without any primary or elimination contest That method seems to have worked satisfactorily, and to have resulted in a large field of eligible persons from whom the voters might choose those best fitted, in their judgment, to administer the affairs of the municipality

The bill under consideration affects only those first class cities which are operating under the Commission Government act It provides for a primary election for nominations Under the bill, the ten persons receiving the greatest number of votes emerge from the primary as the successful candidates for nomination, and are, in turn, voted for at the election

In my judgment, the measure is a step in the wrong direction Its effect is to restore partisanship to municipal elections The constant effort of the past few years has been to eliminate that undesirable feature If this measure becomes a law, nominations for those offices will go to the organization candidate, the independent, in my judgment, will have no chance

Therefore I am forced to veto the measure for that reason, and, as well, because I believe it to be unconstitutional

Respectfully,
EDWARD I EDWARDS,
Governor

Attest
J HARRY FOLEY,
Secretary to the Governor

A message was received from the Governor, at the hands of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly April 4th, 1921

I return herewith, without my approval, Assembly Bill No 270 This measure places under the jurisdiction of the Board of Public Utility Commissioners auto busses, jitneys, the routes of which, in whole or in part, parallel upon the same street the line of any street railway or traction railway, canal, express, subway, pipe line, gas, electric light, heat, power, water, oil, sewer, telephone, telegraph system, plant or equipment for public use, in effect, therefore, giving to the utility commissioners jurisdiction over practically all of the auto busses or jitneys operating in the State

I am opposed to the measure for the reason that I think the matter of regulation of a local convenience, such as jitneys, should be left with the local authority, which, in my judgment, is better informed, and better equipped to handle the problem

To delegate this work to the utility commissioners would be to increase the work of an already overburdened board

Respectfully,

EDWARD I EDWARDS,
Governor

Attest
J HARRY FOLEY,
Secretary to the Governor

Mr Rowland moved that the Governor's veto message be received and entered in the Journal, and that the bill, together with the Governor's objections, lie over,

A message was received from the Senate, by the hands of its Secretary, as follows

STATE OF NEW JERSEY,
SENATE CHAMBER,
April 6th, 1921

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following bill

Senate Bill No 182, entitled "An act to authorize a commission to enter into a compact or agreement with the State of New York for the development of the port of New York,"

The Governor's objections thereto notwithstanding

In which the concurrence of the House of Assembly is requested

WILLIAM H ALBRIGHT,
Secretary of the Senate

The Senate message was taken up

The Clerk read the following veto Message from the Governor

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Senate April 5th, 1921

I return herewith unapproved, Senate Bill No 182 This measure authorizes the commission named therein to enter into a treaty or agreement with the State of New York for the development of the Port of New York Within the Port of New York, as established in the bill, is included approximately all of the territory within Piermont, New York, on the north, Summit, New Jersey, on the west, New Brunswick and Atlantic Highlands, New Jersey, on the south, and Jamaica, Long Island, on the east Within that territory a body, politic and corporate, is created to function for the purpose of constructing and operating terminals and transportation facilities, to make charges for the use thereof, and for those purposes to own, hold, lease or operate real and personal property, to borrow money and secure the same by bonds or by mortgages upon any property held or to be held by it

Under Article 15 of the proposed compact provision is made for meeting salaries and office and other administrative expenses until the revenues from operation are adequate therefor There is a limitation of One Hundred Thousand Dollars per annum upon the appropriation for such purposes

Under Article 22 of the compact, the words "transportation facility" and "terminal facility" are given very broad, comprehensive definitions I apprehend that in view of the extent of the statement of the powers of the commission authorized by the compact, it is empowered to operate railways, street railways, build tunnels or bridges under or across any of the waters within Port district, including the Hudson River, and operate aeroplanes In a word, there seems to be hardly anything that this commission will not be authorized to do

I regard the measure as a dangerous one Except as limited by force of Article 21, New Jersey may not withdraw from the compact, although subsequent developments of future years may dictate the wisdom of that course The limitation I advert to, seems to be that either State may withdraw in the event that a plan for the comprehensive development of the Port shall not be adopted by both States on or prior to July 1, 1923

Assuming that the plan will be adopted by that date, to express it in a homely way, New Jersey may find itself united in an unsatisfactory, unhappy and unprofitable marriage, from which it cannot be relieved

The future of this State is so important that it should not be indissolubly bound up with that of any other commonwealth in a compact or agreement which cannot be abrogated for all time I am fearful that the enactment of this measure into law will result in tying the hands of the State Whether that be so or not, this much seems to me to be fundamental wisdom,—that no entity, whether it be that of an individual or that of a business corporation or municipality or a great State like New Jersey, should gamble with the property of the future by making an irrepealable contract which is to operate for eternity

I strongly urge that this measure be not made law

Respectfully,
EDWARD I EDWARDS,
Governor

Secretary to the Governor

Mr Rowland moved that the bill, together with the Governor's objections, lie over

A message was received from the Senate, by the hands of its Secretary, as follows

STATE OF NEW JERSEY,
SENATE CHAMBER,
April 6th, 1921

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following bill

Committee Substitute for Senate Bill No 285, entitled "An act appointing commissioners to 'The Port Authority' established by the agreement or compact between the States of New York and New Jersey within the 'Port of New York District,' providing for the transfer of all maps, plans and other properties in the possession of the commission appointed under chapter 130 of the Laws of 1917, and making appropriation for the expense of said commission,"

The Governor's objections thereto notwithstanding

In which the concurrence of the House of Assembly is requested

WILLIAM H ALBRIGHT,
Secretary of the Senate

The Senate message was taken up

The Clerk read the following veto message from the Governor

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Senate April 5th, 1921

I return herewith, unapproved, Senate Bill No 285, which names the members of the Port Authority Commission created by Senate Bill No 182

I veto this measure for the reasons, among others, set out in the veto message dealing with Senate Bill No 182

I veto this measure also for these reasons I know of no justification for depriving the Executive of the power of selecting and appointing the members of the Port Authority Commission, if it is to be created I am informed that it was stated on the floor of the Senate, during the consideration of this measure, that the Commission was chosen in this manner because of my public attitude in opposition to the Port of New York scheme It is true I have been opposed to the adoption of the Port Development scheme, but it seems to me presumptuous on the part of the Senate to assume that I would not select competent men to administer the affairs of that commission The evil complained of namely, that I would choose men opposed to the measure, of the scheme, it seems to me affects this very bill By the same token, this bill nominates for the Commission men who are confessed believers or open advocates of the scheme Not one of the three persons named resides within any of the populous communities affected by the Port Development scheme One resides in Tenafly, one in Bayonne, and the other in Montclair The two greatest cities of this State, Newark and Jersey City, both within the area of the Port district, are left without representation Therefore, I am against this bill, both because of the deprivation of the Executive power of appointment and because of the fact that the two most interested municipalities are unrepresented

Respectfully,
[SEAL] EDWARD I EDWARDS,
Governor

Attest J HARRY FOLEY
Secretary to the Governor

Mr Rowland moved that the bill, together with the Governor's objections, lie over

Disposition of Bills, Joint and Concurrent Resolutions Introduced During the One Hundred and Forty-fifth Session of the New Jersey Legislature.

Convened Tuesday, January 11th, 1921, Adjourned, Friday, April, 8th, 1921. Duration, thirteen weeks.

A total of 898 bills, 14 joint resolutions and 16 concurrent resolutions were introduced, of which 342 bills, 5 joint resolutions and 4 concurrent resolutions originated in the Senate, and 556 bills, 9 joint and 12 concurrent resolutions in the House of Assembly Of the total, 385 bills and 10 resolutions passed both branches and were delivered to the Governor who approved 341 bills and 7 joint resolutions, returned with his veto 10 bills and filed in the library, after adjournment, 32 bills and 3 joint resolutions

Ten bills recalled because of defects found by the Governor were corrected, came back and were among those approved, two were defeated

The ten bills vetoed, six from the Assembly and four from the Senate, were repassed as provided by the Constitution making the volume of laws for the session 359, including the seven joint resolutions approved Six of the 16 concurrent resolutions which do not require presentation to the Governor were adopted, one of the number being a proposed Constitutional amendment making the term of sheriffs five instead of three years

In addition to the ten concurrent resolutions which failed to meet the approval of both branches 515 bills and 4 joint resolutions met a similar fate and are now filed in the library morgue with those sent there by the Governor

Of the bills and joint resolutions which finally became laws 187 of the former and 3 of the latter were sponsored by the House of Assembly, and 164 bills and 4 joint resolutions by the Senate. Sixteen of the 32 bills filed came from each branch and the three joint resolutions filed were from the House The annual appropriation bill was delivered to the Governor and approved a week prior to adjournment Since 1895, when the system was adopted, this bill was invariably passed and delivered on the day of final adjournment
