drug discovery and development to commercial stage drug efficacy and safety evaluation.

CMIC Group is a fully AAALAC-accredited, non-clinical research facility that is run in compliance with GLP and GMP principles. We provide global coverage for our laboratory service offerings, with the Japan facility as one of the largest contract testing laboratories, providing capabilities and solutions in all aspects of non-clinical testing. With our strong link between Japan and our site in the U.S., we offer one-stop service solutions for both countries.

Our Edge in Laboratory Services

U.S.-Japan Collaboration

- With the strong collaboration between our US and Japan facilities, projects can be transferred quickly and efficiently allowing you the flexibility to work between both countries.

Major Equipment Investment

- Standing by our strong commitment to providing state-of-the-art equipment/facilities to enable a wide range of testing.
