Mr. Hess, upon taking the chair, addressed the members of the House as follows:
Members of the House of Assembly:

To preside as Speaker over the 169th General Assembly of the State of New Jersey is an honor I accept with genuine gratitude. It is a matter of pride and happiness to me. However, in these fateful days, my thoughts are centered more on the responsibilities which attend that honor. These must be discharged in a manner worthy of your confidence and for the honor of the State. Dignity is required and fairness in equal measure to every member of this body, Republican or Democrat. Both shall be my constant endeavor.

Again both Houses of the Legislature are organizing for their annual session with our country at war. Our problems will be many and grave and they will demand careful and sober consideration by this Assembly. To the many thousands of sons and daughters of New Jersey in the armed services, our actions and deliberations will measure the sincerity of our support in their noble and heroic sacrifices. We cannot and we will not fail them.

One year ago there were predictions of an early end of the war. Our thoughts were directed in a large measure to the necessity of enacting legislation designed to assist our people in readjustment to normal civil life. Today we realize that we were guilty of wishful thinking and that we are faced with all the grim realities of a prolonged and bitter war. Wishful thinking gives way to stern and decisive action. Surely, every possible assistance must be given by this body to our capable and efficient leader, Governor Walter E. Edge, in offering every facility which New Jersey possesses for a successful outcome of this war at the earliest possible date.

We are familiar with the constructive program inaugurated by Governor Edge last year. Among some of the more important measures enacted into law were the Reorganiza-

tion of State Departments, Reclassification of Civil Service, New Jury System, Absentee Voting Bill for Service men, and a major part of one Post-War program.

The people of New Jersey evinced approval of this forward-looking program and are hopeful that it will be expanded. And they are looking to this Legislature to make it a reality in the shortest time possible.

To that end, we of the Assembly stand ready to co-operate with the Senate. With both Houses willing to follow the experienced leadership of our very able Governor, we may look forward in confidence to accomplishments in this session which will be of great and lasting benefit and service to all the people of New Jersey.

The Speaker announced the appointment of Augustus S. Dreiser as his Secretary and C. Palmer Bateman as his Assistant Secretary.

Mr. W. H. Jones offered the following resolution, which was read by the clerk and adopted.

Resolved, that the House do now proceed with the election of a Clerk of the One Hundred and Sixty-ninth General Assembly of the State of New Jersey.

The Speaker announced that nominations for Clerk were in order and recognized Mr. Reiffin who nominated Mr. Philip C. Wadsworth of Bergen County, which nomination was seconded by Mr. Livermore and further seconded by Mr. Artaserse.

Mr. W. H. Jones moved that nominations be closed.

Which motion was adopted.

The Speaker declared that nominations for Clerk were closed and Mr. Wadsworth was elected by the following vote:

Messrs. Artaserse, Brescher, Conklin, Deith, Dickson, W. H., Dixon, A. F., Doremus, Frederick, Friedland, Greenbaum, Griffin, Griffith, Grogan, Hannold, Hardester, Harris, Herbert, Hess (Speaker), Hill, Hoff, Howell, C. R., Howell, R. G., Huhn, Jones, C. C., Jones, W. H., Kafes, Kajewski, Lasher, Leonard, Livermore, Loutrel, Mathis, McCay, Meyer, Minard, Mischlich, Muir, Neutze, ODell, Pike,

Preiser, Reiffin, Savage, Schaeffer, Shershin, Smith, F. X., Smith, N. C., Solimine, Stoddard, Thomas, Thompson, Tierney, Tumulty, Vogel, Walker, Wilson, Young, Zangara, Zimmermann—59.

The Speaker then declared Mr. Wadsworth elected Clerk of the House. Mr. Wadsworth took and subscribed to the oath of office administered by Assemblyman David Young, 3rd.

Mr. W. H. Jones offered the following resolution, which was read by the clerk and adopted.

Resolved, that the Speaker appoint forthwith a committee of six to wait upon the Governor and inform him that the House of General Assembly has organized by the election of the Honorable Freas L. Hess of Somerset County, as Speaker, and of Philip C. Wadsworth, of Bergen County, as Clerk of the One Hundred and Sixty-ninth General Assembly of the State of New Jersey, and is now ready to proceed to business.

GOVERNOR'S MESSAGE

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 9, 1945.

Message to the Legislature by Governor Walter E. Edge:

In my Inaugural Message one year ago I discussed the outstanding State problems that I felt should be met and as far as possible solved at that time. The program was a most ambitious one. It covered not only a large group of service adjustments, but looked toward the post-war period and beyond for long-range and permanent policies to guide our public life for years to come.

The Legislature responded loyally to my proposals and much was accomplished—indeed, there have been few sessions in the legislative history of New Jersey that have left so comprehensive a record of sound public policy. It was, moreover, not only an historic session, but likewise a convincing demonstration of what can be achieved in the public interest by real teamwork between the Executive and the Legislature.

Together we placed on the statute books three complete consolidations and reorganizations of scattered State departments. The State legal facilities were merged into a new Department of Law. Six fiscal agencies were united in a single Department of Taxation and Finance.

Numerous State planning and welfare agencies were integrated with veterans' services into a new Department of Economic Development. This department, I believe, is the first attempt by any State to establish a comprehensive unit designed for over-all State and local planning, closely tied into anticipated post-war responsibilities.

Aid to Veterans

With first attention to our returning veterans, the Department of Economic Development was designed as an effective co-ordinating agency for problems arising from the reconversion period — particularly re-employment, public works, Federal-State relations and veterans' affairs. A housing act to provide for the clearance and reconstruc-

tion of blighted urban areas by redevelopment companies also was passed and should go far toward improving living conditions in many parts of our State.

An act to provide State-guaranteed bank loans to war veterans placed venture capital at their disposal to assist in the establishment of servicemen in business enterprises and professions. About $350,000 in loans already have been made under this act and the fund has been liberally but carefully managed. These acts, with the benefits available under Federal legislation—namely, the Selective Service Act, the Mustering-Out Payments Act, and the Servicemen's Readjustment Act (the G. I. Bill)—provide a complete kit of tools with which every veteran can build a new and better place for himself in the civilian economy. Thus it will be realized from our State record we are not entirely dependent upon the Federal Government.

Service Voting Law

In addition, the Legislature enacted what has been generally admitted to be one of the most effective servicemen's absentee voting laws in the United States; and its practical value was well demonstrated when over 40 per cent of our servicemen and women from the far corners of the world returned completed ballots in the last general election.

This record is the more remarkable when it is realized that many of the servicemen and women receiving ballots were under legal voting age and also that consideration must be given to the many casualties, hospital cases, sudden transferrals and other happenings, making delivery of ballots impossible. This record, moreover indicates clearly that the insistent demand from some quarters that a special session of the Legislature be called before election for further changes of the Soldier's Voting Act was without merit.

Many other constructive acts became part of our chaptered laws. Election reform was given a strong impetus when the installation of voting machines was made mandatory in all first-class and second-class counties, with the result that certain long familiar majorities were reduced toward their sensible proportions in the November general election. Our State Civil Service system was reconstituted and a new classified system and revised salary

schedule were placed in operation. This step reduced over 1,800 authorized job titles and 2,300 payroll titles in classified positions to some 600 titles. Further, it established equal pay for equal work as a major principle in the State service.

Uniform Fiscal Year

The policemen's and firemen's pension funds—long an uncertain base of security for our policemen and firemen and a constant hazard to the municipalities and taxpayers of the State—were placed on a stronger actuarial basis supported by a State contribution of $1,000,000. A uniform fiscal year for all State departments was established; an important fiscal reform which climaxed years of persistent effort by finance officers and civic, business and taxpayer associations and greatly simplified and clarified State fiscal procedures.

A jury reform bill improved and modernized the methods of selecting grand and petit juries in various counties of the State, and its effect on the administration of justice in New Jersey will redound to the benefit of every citizen.

Over $1,000,000 was appropriated on a State-municipal share basis to help meet the damaging and disastrous erosion problem for our seashore communities and already is over-solicited. This State aid should be continued and facilities for municipal borrowing in event of an emergency liberalized with proper restrictions. Finally, a $25,000,000 post-war reserve was set aside as a "sacred fund" to meet the exigencies of the post-war period which are inevitable but yet unknown.

These and other forward-looking acts form a legislative record of which we can well be proud—and, I may add, this result was accomplished during the shortest session in many years.

Constitutional Revision

There was one part of our program which was not completed—the revision of our century-old Constitution. This was a great disappointment. Three years of almost continuous effort by commissions, leading citizens and legislators, coupled with the widest publicity and public discussion, resulted in preparation of a Revised Constitution generally admitted by all unbiased citizens to be a long step towards better and modernized government in New Jersey.

Deliberate misrepresentation—at times including false and libelous statements, even from nonpolitical sources least expected, created uncertainties and doubts in the public mind only a few hours before the polls were opened. The result is known only too well to you—the Revised Constitution was decisively defeated.

I have had many suggestions as to the next steps to be taken in this important matter. I still feel as strongly as before that a Revised Constitution is the first great need of our State; but I cannot forget that almost 600,000 persons voting in the last election failed to express an opinion for or against the proposed revision. Since then there has been no diminution in the persistent and selfish demands of special groups which have refused to rise to that level of public interest that so important a change in our fundamental law requires. Also, even among those who gave outward evidence of support, there was a marked defection in the voting booths.

I am not prepared at this time therefore to recommend the next step in constitutional revision, but as your Governor I must recognize there is important unfinished business before us which demands immediate attention. Under these circumstances, I consider it our first duty to continue now with the comprehensive program set forth in my Inaugural Message, to complete it as far as possible, and to meet other problems as they arise during this difficult and trying period. In the meantime, new plans for a Revised Constitution will be given earnest consideration.

The other important unfinished business includes the following agenda of what might be termed the ten "major problems" before you:

A partial revision of the tax system in order that property now escaping taxation or taxed inequitably may be properly adjusted.

A liberalization of both our Workmen's Compensation law and of unemployment compensation benefits.

A practical solution of the migrant farm labor problem, especially as it concerns health, sanitation and housing.

An increase in the available supply of potable and industrial water so that the menace that the State has faced for years past will be averted.

A continuation of the consolidation and reorganization of scattered and overlapping State departments, boards and commissions.

Revision of the State banking, building and loan and insurance laws.

A revision of the State's election laws in the interest of a more complete registration and a diminution of the possibilities of fraud; and purchase of sufficient voting machines to cover every precinct in first- and second-class counties and, if financially possible, in all counties.

The extension of the Absentee Service Voting Law to municipal and primary elections, and consideration of absentee voting by civilians.

An enlargement of State House facilities so that the business of the government can be more economically and efficiently administered.

A readjustment of educational policies in order to better serve the youth of the State.

I will briefly review some of these problems—others must await reports of commissions appointed for the purpose of making definite recommendations.

In addition, there are four other problems of which I wish to speak briefly. It is not that they are less important than those I have just mentioned to you; but it may be necessary for you to treat them in a more specialized way. They are as follows:

A revision of our mandatory laws as they apply to counties and municipalities.

An examination of the formula under which interest on railroad taxes is distributed with the purpose of seeking a more equitable distribution.

A restraint upon the excessive accumulation of municipal reserves.

A highway and parkway construction program for the post-war period.

Taxation

The erratic and uncertain conditions surrounding the taxation of intangible and other personal property is well known to you. It is indeed common knowledge beyond the borders of our own State. It has resulted in extreme embarrassment to our business and professional interests and, I am reliably informed, has been a serious deterrent to corporate organization in New Jersey. The Commission you created last year has given extensive study and consideration to this matter. It has conducted public hearings and received written statements from many interested groups. It will report its recommendations to you shortly, and I urge that you give it your most serious attention.

No State can afford to permit its tax structures to fall into the morass of inequities that marks the taxation of personal property in New Jersey. I am not in favor of new taxes. Neither am I in favor of unduly disturbing our business interests at this critical time.

I wish to preserve all competitive advantages we may have in relation to other States; but I cannot countenance a condition that permits large blocks of personal property to escape supporting its fair share of the cost of government; or even worse, a condition that reduces our tax laws to a barter-and-sale agreement between taxpayer and public official.

I shall give you my whole-hearted support in removing this disgraceful condition from the tax structure of our State; and in replacing it with fair, known and stable provisions, to the end that property now escaping taxation or now taxed inequitably may be properly reached. And, I may add, I hope that something may be done—even though it be but a beginning—to relieve real estate from what we all know to be an excessive burden of taxation.

Unemployment Compensation

The Commission on Post-War Economic Welfare has, at my request, been working on solutions to three far-reaching and important problems which will be placed before you for consideration.

The first of these is the adaptation of the unemployment compensation system to the needs of manpower reconversion from war to peace. This is the principal unfinished business in our post-war planning. Now that the Federal War Mobilization and Reconversion Act of 1944 has established a clear Federal policy of leaving administration of unemployment compensation benefits to the States, we are free to proceed with our plans.

I am advised that the studies and hearings of the Commission on Post-War Economic Welfare have brought out various proposals for the extension of unemployment compensation coverage; for increasing the maximum duration of benefits; and for raising the maximum weekly benefit amounts.

Extension of coverage to all maritime workers and at least to all employers of four or more persons, seem to be generally accepted as desirable steps at this time. Whether or not coverage should be extended to employers of one or more depends largely upon the administrative difficulties that such a policy would involve.

I differ with those who view every proposal for increased benefits as a "raid" on the unemployment trust fund. It appears self-evident that the working people of this State, as well as all employers interested in New Jersey's economic well-being, are entitled to the best type and amount of unemployment insurance that their contributions will provide. Wages have risen and the cost of living has risen since the present formula was adopted, but the present "ceiling" on weekly benefit payments will prevent many workers from realizing upon their greater earning power in the event of involuntary unemployment.

Present limitations on the duration of weekly benefit payments appear to present a particularly unsatisfactory record in the light of the tax contribution made by New Jersey employees—a contribution which is now paralleled only in Alabama, California, and Rhode Island. It is clear that some measure of liberalization of benefits will be required.

Workmen's Compensation

The second problem before the Post-War Commission is Workmen's Compensation. The workmen's compensation law has not been revised in many years and there are various aspects of the law which demand attention at this time. Of first importance is that part of the law which may apply to our wounded veterans—particularly disabled veterans.

It is unnecessary for me to emphasize our obligations to eliminate from the statute every obstruction to the welfare or employment of disabled veterans. To this end, I am recommending immediate legislation to remove the present statutory limit of $200,000 on the amount of the one per cent or "second injury" fund. This fund is used to compensate workers who become totally disabled from the effects of industrial injury following a previous disability. The fund is maintained by contributions from insurance carriers and these carriers are both willing and able to continue their contributions. Repeal of the statutory limit will clear the way for them to do so and also will assure protection to those whom we wish most to aid.

The principal measure of the adequacy of our workmen's compensation act, of course, is the scale of benefits which it provides. Our present benefits were established when the cost of living was considerably less than at present, and they appear to be lower in amount than those of comparable States. Adjustments of this kind are of a highly technical nature and I must await the forthcoming study of the Post-War Commission on this subject before advising you further.

There are also many improvements in the procedure of workmen's compensation which should be made for the benefit of covered workers. The Department of Labor is making recommendations to this end; and such measures as are found necessary to eliminate delays, needless expense and inequities will be submitted to you in due course.

Migrant Workers

The third problem before the Post-War Commission is that of the migrant worker in New Jersey. Workers from many parts of the country have been coming to this State for several years to work on farms at harvest time and

more recently to work in canning and processing factories at the peak of seasonal employment.

There are, at the height of the season, perhaps 15,000 such workers; and while their services are urgently required, our responsibilities in this connection have been neglected. Without permanent residence and living in rural areas, the migrant workers—men, women and children—must live in whatever camps or settlements employers are able to provide.

The health, sanitary and welfare conditions under which many of these people live, have become deplorable. Not only have they become a health menace to many communities, but both potential and actual disorders have added additional hazards to the peace of our rural areas. The State is morally bound to end this condition—not only in the interest of the migrant workers themselves, but in the interest of maintaining this important labor supply, of increasing the quality and efficiency of the workers, and in protecting the standards of community welfare. I ask your earnest consideration of this matter.

Potable and Industrial Water Supply

For years administration after administration and Legislature following Legislature have evaded or side-tracked the solution of the freely admitted inadequate supply of "potable" and "industrial" water for home and factory use. This shortage applies mainly, if not exclusively, to the central and northern sections of the State. Many investigations have been inaugurated, reports submitted and recommendations made. For one reason or another no progress or headway whatever has followed.

We cannot trifle longer with the future well-being of New Jersey. The time has arrived when it becomes the Legislature's outstanding duty to act favorably on one or more of the recommendations which have had the advantage of all types of engineering investigation and approval.

Permit me to present the impressive estimates of New Jersey's engineers. The dependable production of potable water (safe yield) for this section of the State is approximately 325 to 330 million gallons per day. This yield can be increased for a limited period to 340 million gallons per day, if the existing reservoirs were drawn down to the

point of exhaustion. Against this dependable yield, the consumption has now reached a point where it exceeds the supply. Going back to 1925 the consumption in this area has been as follows:

1925	263 m. g. d.	1940	270 m. g. d.
1929	305 m. g. d.	1943	333 m. g. d.
1935	265 m. g. d.	1944	348 m. g. d.
		(August	360 m. g. d.)

Threat to War Industries

The series of interconnections among the various water systems make all the water in the district available in most areas, but this does not increase the total amount of water. The dry spell in the winter and spring of 1944 brought the storage reservoirs in the Wanaque, Pequannock and Boonton districts to a seriously low level, particularly in view of the threat to operation of the war industries. Heavy rains averted the danger, but a new drought developed during the summer and fall of last year, so that the reservoirs were reduced again to the danger point.

Should the weather conditions existing during 1944 return this year, there will be no reserve upon which to draw and water rationing might well be forced upon us.

Another and a most important element has been injected into this picture. The Federal Government has been demanding the construction of a ship canal from the vicinity of Morgan, Middlesex County, on Raritan Bay, to Bordentown, on the Delaware River.

Such a canal would cut New Jersey in two parts and lay waste to thousands of acres of fertile land. The menace, however, goes far beyond this. There is no way to feed such a canal unless two or three tremendous water reservoirs are constructed in the vicinity. To the best of my knowledge, the Federal engineers have not denied that the construction of such reservoirs would tap to a considerable extent the undeveloped existing water sheds in the central section of the State.

Canal Not a War Necessity

At the request of these Federal engineers, I recently appointed a local committee to represent and protect New Jersey's interests during the explorations now being made.

If the construction of this canal were a war necessity we would cheerfully co-operate, but years must elapse before it could be completed.

If this Legislature will act favorably on bills necessary to increase the volume of New Jersey's available potable and industrial water supply, we shall have accomplished much for the protection of New Jersey's citizens from this threatened invasion of our water resources. I hope to have legislation carrying out this object ready for early submission to the Legislature so that full public hearings may be invited. However, I must emphasize that I consider this one of our major problems and a definite policy for the future must be adopted during this session of the Legislature.

In the meantime, we have made a substantial start on the rehabilitation of the Delaware and Raritan Canal which for years has been a mudhole and an eyesore. Through the authority of a bill passed at the last session of the Legislature, $225,000 was made available for this purpose. Contracts already have been awarded and it is confidently expected that when the work is completed the canal will produce not less than 75,000,000 gallons per day for industrial purposes in the Bound Brook section. This, however, in no way relieves the potable water shortage.

While the present emergency affects only a limited area of our State, nevertheless, it represents four-fifths of the population. I am not unmindful that a watchful eye should be kept upon the future development of the water supply to accommodate other parts of the State. Our growing resort industries in the coastal regions will require supplemental reserves to the well systems now in use, while the ever-increasing industrial activities along the Delaware means that reserves must be planned soon for these districts.

The immediate problem that must be resolved is the metropolitan area. We should not regard the solution of this crisis in a narrow, provincial sense. What affects the prosperity and well-being of one of the world's most concentrated centers of population and industry, is reflected in every other part of the State. If we expect industry to continue and our communities to increase, we must provide the facilities for their expansion and an inadequate water supply is a major barrier to the continued growth of this area.

There are now operating a number of separate commissions dealing with the water supply problem as well as with the sewage problem which is closely allied. In view of my many times repeated conviction that scattered boards and commissions should be brought under single heads, I have already requested the committee authorized by the last Legislature to consider and recommend the reorganization and consolidation of existing departments to study and submit a proposal for such consolidation so that the proposed enlarged water supply may be under one unified department of government, without in any way interfering with existing agencies now operating in conjunction with separate municipalities.

Consolidation of State Departments

The consolidation and reorganization of other scattered departments, boards and commissions in our State administration which already has had such an auspicious start, should be continued.

In these reorganization measures, it is imperative that we preserve the fine tradition of voluntary citizen participation in the affairs of State Government. New Jersey, perhaps more than any other State, has enjoyed the benefits of nonsalaried commissions, boards and committees in its public affairs. The Department of Economic Development law was careful to continue this very useful institution, and future reorganization measures should be worked out along similar lines.

Revision of State Banking and Insurance Laws

The far-reaching effects of the war economy on our banking structure makes this an opportune time to undertake needed revision of the banking statutes. Looking ahead, the State is vitally interested in safeguarding and strengthening the capital resources of our banks, building and loan associations and insurance companies, in preparing for the possible impact of the post-war readjustment.

The Banking Department and interested groups have been conducting studies designed to improve the basic banking law. It has been found that there are many desirable changes to be made to meet present-day financial conditions, such as improved limitations on loans and investments, reserve requirements, dividends and the issuance of stock.

Our neighboring State of New York has recently accomplished a complete revision of its banking statutes, and in the light of its experience we should be able to achieve a very high degree of sound legislative standards for our community banking facilities. I am also informed a legislative committee charged with a review and modernization of our building and loan association laws is ready to report and that appropriate legislation will be submitted for your consideration in the near future.

A Single State Fund and Budget

As already stated, last year the Legislature placed the General State Fund and Highway Fund on a July 1st to June 30th fiscal year by enactment of Chapter 159, Laws of 1944, and adoption of an 18-months' budget for the Highway Department and a 12-months' budget for the General State Fund.

There is one other change in the State finances, however, which I regard as particularly important and recommend for your approval. In addition to having a uniform fiscal year, the State of New Jersey also needs a single budget. There is no rhyme or reason in having one budget for departments under the Highway Fund totaling 46 million dollars, and all the rest of the State departments budgeted under the State Fund with a total of 35 million dollars.

In place of this cumbersome system I also strongly urge that all State revenues now in the highway and general fund be put into a single State Fund for such use as the Legislature may see fit. After the war is won this nation will experience a tremendous impact of re-establishing our domestic economy on a peacetime basis. While I have every confidence that New Jersey's diversification of industry will enable it to withstand the economic shocks incident to converting from war to peace, nevertheless, it is of the utmost importance that all our State revenues be made available for any and all requirements regardless of where such funds originate.

I will deal more in detail regarding State finances in my budget message which will be transmitted to you next week as provided by law.

Revision of State Election Laws

Following the last election, there was considerable criticism as to the methods of registration. Some of this criticism was undoubtedly justified but much of it was unjustified. However, a general review of the operation of the present law leads me to the conviction that our registration system can be improved.

It is questionable whether permanent registration in smaller areas and urban districts is wise. Through negligence or other causes there were innumerable reports of failure of registration. The old system of the house-to-house canvass by the local election board in the less populated areas where the canvassers are familiar with the legal voters, would seem to offer more assurance of a complete and correct registration.

I am of the opinion that the election bureaus in the two first-class counties, Essex and Hudson, have materially contributed to the lessening of fraudulent registration. I am further convinced these bureaus in these large populous counties perform a useful public service and should be maintained. There may be technical changes in the law which would help clarify their responsibilities, but as a State agency charged with the prevention of fraudulent registration and voting, I repeat, they are in every way justified.

In considering helpful amendments to the election laws, I am of the opinion that the existing county boards of election, nonpartisan bodies, should be given greater authority and provided with the necessary help to provide in effect a similar service to that now performed by the separate election bureaus in first-class counties. In order that these additional responsibilities be properly carried out, the remuneration of the members and the appropriation for a proper staff might justifiably be increased.

New Jersey is far behind several of her sister States in assembling election returns on a State-wide basis. While we have adequate county and municipal machinery to assemble local returns shortly after the polls close, nevertheless there is no central point at which returns are collected for the entire State. Actually, the only way in which voters know the State results is through tabulations by news-

papers as there is no official State count until five weeks after election when the Board of State Canvassers convenes.

Accordingly, I recommend a change in the election laws to require county and municipal election officials to notify the Secretary of State's office within a reasonable time after the polls close in order that official State returns can be given out promptly by a central authority.

Extension of Soldier's Voting Law and Absentee Voting for Civilians

The Absentee Soldier's Voting Law enacted by the last Legislature was perhaps the most workable of any service voting statute passed in any State of the Union and certainly was much more effective than the Federal effort.

It has been suggested, not without merit, that the law be so amended that the servicemen and women will have an opportunity to vote at the spring primary and municipal elections. If this can be worked out in the time permitted, I see no possible objection. In fact, I would recommend this additional facility. However, it will be necessary for the Committees on Election of the Senate and the House of Assembly to act quickly and to likewise ascertain whether the Federal Government will co-operate sufficiently to enable the ballots to be distributed and returned.

At the same time I urge that provision be made for absentee voting by civilians where business or personal requirements compel their absence from the State on election day. Several other States have such provisions, which, as a matter of fact, were in effect in this State some years ago. There is no reason why such citizens should not be permitted to vote. Of course, any such absentee voting should have strict safeguards as a protection against possible fraud.

Increased State House Facilities

You are well aware of the need to enlarge our State House facilities so that the business of the government can be more economically and efficiently administered.

Summarizing the present situation, the State today is renting over 600,000 square feet from private or other sources at an annual rental of almost $600,000. We are

occupying in State-owned buildings in Trenton approximately 237,000 square feet; in other words, the State is housing a little more than one-third of its business.

It does not require very much computation to realize that $600,000 would pay the interest on several million dollars which could readily be secured for such a laudable purpose. The question of efficiency is equally important with that of economy. Under the present system, with our consolidated departments, different branches of the same organization are scattered blocks and sometimes miles from each other.

I have initiated a competition among State architects to provide the most practical method of securing for State use approximately 500,000 additional square feet of space. Later in the session I hope to be able to recommend definite plans for such expansion which, of course, necessarily will run through several years but which could, in my judgment, very properly form a part of our post-war public building program.

Educational Reorganization and Public School Finance

The educational reorganization bills which were introduced in the last session of the Legislature have since been under further study and public scrutiny, and should be ready for favorable action at this session. These bills have been carefully designed to co-ordinate the schools of New Jersey at all levels of instruction, to place educational authority in a single body—the State Board of Education—and to give our school taxpayers a greater return for tax dollars invested. In addition, Rutgers University is designated as the State University of New Jersey. These bills have been widely endorsed by State educational groups as well as by a large number of civic organizations. I urge upon you early consideration of these measures.

For the past several years, groups of our educators have been working on the problem of improved educational facilities and a plan for State aid has been developed which is thought by many of those most competent to judge to be greatly superior to the present method of distribution—a method which has been practically unchanged since its inception in 1880. Its object is to eliminate serious in-

equities said to exist in the present system of school finance; to provide further financial assistance for the less wealthy school districts; and to lay a foundation for sound educational development in the years to come.

However, some of the arguments advanced by proponents do not present the entire picture. For instance, it has been frequently stated that New Jersey is far down in the list of States in its provision for youthful education. Undoubtedly there is a wide disparity in school district expenditures which should be corrected. However, in defense of New Jersey's educational policy, only one other State in the country, New York, spends a larger average amount per day school pupil.

The latest available figures from the United States Office of Education show that in the school year ending June 30, 1943, New Jersey spent $160.66 per pupil based on State-wide average daily attendance which, I repeat, is the second highest in the United States. Some of the States spent under $100.00 per pupil. I am presenting these figures as I have secured them so that the Legislature may have the benefit of all the information available.

As in all plans that attempt to remedy serious inequalities that have been allowed to multiply and crystalize over long periods of time, additional funds will be required. It is my understanding that this proposal will be submitted to you in due course; and while, as I have formerly stated, I cannot support new tax proposals at this time, further than readjustments of existing taxes, if sufficient funds can be found from available moneys not yet appropriated to make even a beginning in this program, I would commend it to your earnest consideration.

Revision of Mandatory Laws

From time to time, especially in periods of economic distress, there has been considerable agitation to have the State Government reduce or abolish the so-called mandatory spending laws; that is, legislation requiring counties, municipalities or other governmental subdivisions to maintain and operate certain governmental services and fixing their costs. It is unthinkable, of course, that all these laws could be repealed for then we would have a chaotic condition with each county and municipality operating its own courts, its own health department, poor relief, and fixing

the salaries of its officials without regard to any State-wide pattern.

On the other hand, I recognize that in some cases the Legislature in its desire to provide uniformity of governmental services perhaps has gone too far in loading burdens upon counties and municipalities which some could ill afford to bear. On this basis I believe there is a great opportunity for substantial savings in local government costs if a special committee from the House and Senate would comb through the statute books and recommend the elimination of some of the most onerous and least necessary of these mandatory spending laws.

To my mind so much preliminary research work has been done on this subject, particularly through the 1941 report published by the New Jersey State Planning Board, that there is no need to create a new investigatory body. All the factual data necessary for such a program is at hand and some intensive work by a legislative committee over a short time should produce a very effective program. When this is undertaken, it should be borne in mind that by far the greatest proportion of the so-called mandatory spending laws represent the costs of the courts, elections, education, public safety and welfare requirements that necessarily must operate throughout the State with a degree of uniformity.

Perhaps some of the less wealthy counties and municipalities could be given proper relief and opportunity to effect savings if the Legislature provided a degree of latitude for local officials in fixing salaries, which constitute the greatest proportion of such governmental expenses.

Municipal Reserves

It has been brought to my attention that certain municipalities are piling up large cash surpluses as the result of the current high level of tax collections. While it is a healthy condition for communities to have a backlog or reserve against declining revenues or emergency conditions, nevertheless, when such surpluses in some cases are equal to 25 per cent of the amount raised by taxation, there is the danger, in the absence of adequate safeguards, of untimely use, dictated by political expediency, or of over-extended capital improvements.

Instead, some of this income might well be applied to reducing the amount of money to be collected by taxation so that the taxpayers would share in the strong financial position of their community.

There is no equity in compelling taxpayers to pay more than is needed for the sound operation of their government merely to give local officials a large, unencumbered surplus which can be used for any purpose they see fit. In any event the appropriation of these large surpluses should be limited to necessary and practical post-war expenditures.

Therefore, I would recommend that the Legislature give consideration either to limiting the cash surplus of municipal governments to 10 per cent or 15 per cent of their tax levy as already provided by law for banking institutions, or to restrict the use of these funds in such a way as to prevent, so far as possible, a burdensome increase in the tax rate that might result in the post-war period from increased relief costs, increased tax delinquency, or increased capital expenditures which may be desirable to provide employment as well as needed improvements.

Such a fiscal policy would be of long-range benefit to all our municipalities and their taxpayers and would also make it possible to better organize our State and local public works programs for the post-war period.

Railroad Taxes

New Jersey during the past year has collected millions of dollars in unpaid interest on delinquent railroad taxes and millions more are due and payable. While the law is very clear on the disposition and distribution of delinquent railroad taxes when collected, there is no such directive for apportionment of unpaid interest when it is finally collected on these delinquent taxes.

Because of this fact I have instructed the Attorney-General to obtain if possible a declaratory ruling from the courts as to how this railroad tax interest should be distributed. This interest, however, continues to accumulate and the Legislature might well give consideration at this time to providing an equitable formula for its apportionment and distribution.

Such a new formula could be more in keeping with present-day conditions; and, it seems to me, could very properly give consideration to the fact that railroad traffic and business benefits the State as a whole, and not merely the community in which the tracks or railroad yards happen to be situated. The loss of ordinary tax ratables because of the occupation for railroad purposes is generally less than the railroad levy. Thus, it might well be that some portion of the interest at least could be distributed equitably to all municipalities of the State, possibly on the basis of school population, thus benefiting the municipalities which have no railroad property whatsoever within their borders and consequently receive nothing at all from one of the largest revenue sources of the State.

Highway and Parkway Construction

Congestion on our highways, before war time restrictions were imposed, was so great that it becomes obvious that additional or enlarged facilities will be required for post-war travel.

In this connection it seems to me that motorists might well be willing to pay moderate tolls for special highway facilities free from ordinary traffic obstructions and separated from truck travel.

Construction of such scenic highways or toll parkways in the neighboring States of New York and Connecticut, has expedited so-called pleasure driving, taken much of the pressure off the commercial roads, and greatly enhanced real estate values in surrounding communities.

I recommend that the Legislature give consideration to the practicability of granting the necessary authority for the construction of such roads as would pay their own way with moderate tolls. These highways can well form a part of our post-war program.

As to the all-over program for additional highway construction, I have purposely postponed any extensive activity both because of shortage of labor and material, and a desire to have such construction form an important part of our post-war public works when unemployment may, I fear, be one of our major problems.

Fortunately, much-needed improvements in the New Jersey highway system have been planned long in advance so that work can be started as soon as funds are available on 616 miles of new roads already approved by the Legislature, which would cost an estimated $300,000,000. Plans are available also for other construction and reconstruction, which if approved, provide a total post-war backlog of $520,000,000 in road improvements.

Appointments

At this time I repeat a paragraph from my Inaugural Message which I want to emphasize as a continuation of my policy. I quote:

> "One of the most trying responsibilities of a Chief Executive is selecting citizens for public office.
>
> "I take this opportunity to declare publicly that the utmost care will be given to insure the appointment of capable and trustworthy public servants.
>
> "I recognize that ours is a political government, but in the final analysis the responsibility is mine and all appointees must represent a high standard of citizenship and measure up to the responsibilities they assume on the basis of merit and integrity."

While I invite and am pleased at all times to receive recommendations from members of the Legislature, political leaders or interested citizens concerning appointments to both State and county offices, nevertheless there can be no division of the appointing power. Appointments to both State and county offices will be made by me, as Governor, and by me alone.

I want to emphasize again that under the Constitution and the statute law, I consider it to be my responsibility to find the best qualified men and women for all appointive positions and I will not compromise, evade or transfer this obligation in any way.

Conclusion

I must close my message with the solemn reminder that our nation is still at war. It is true that we are moving ahead on every front; that final victory over stubborn and ruthless enemies is inevitable; and that we shall emerge from this struggle stronger and more united than ever before.

But those who are closest to our military operations warn us that we are far from the end; that perhaps our greatest and most costly sacrifices both at home and abroad are yet to come; and that to relinquish our uttermost efforts is to postpone victory or even to invite disaster.

Every proposal before you, therefore, must be tested in the light of our national emergency; for let me caution you that while we have perfected a great war routine which has brought a new smoothness to our united efforts, we must not for a moment identify this with victory, permit it to foster a dangerous complacency, nor confuse it with sound prosperity.

The recent closely contested national election in which two diametrically opposed philosophies struggled for the ascendency, was won by a slight margin of popular votes. The tremendous minority expression, I trust, will retard many of the extreme policies of the past few years. But we remain in an abnormal national environment marked by unprecedented taxes, rising prices, reconversion shifts, and strong and aggressive group pressures. This is not an environment in which to be experimental, prodigal, or expansive. It is an environment that calls for poise, clear vision and prudence.

It is with confidence that I leave the legislative necessities of our great State to your thoughtful consideration and unbiased judgment, secure in the knowledge that together we will maintain the enviable record of last year.

Respectfully submitted,

WALTER E. EDGE,
Governor.

Mr. Shershin, Chairman of the Special Committee on Cemetery Legislation of 1944, reported as follows:

REPORT OF SPECIAL COMMITTEE

To the Members of the House of Assembly, State of New Jersey:

Your special committee appointed to study cemetery legislation reports that it designated Jasper G. Kirchner, of Clifton, N. J., as its clerk, and with his assistance your committee has compiled a synopsis of the cemetery laws of the various States of the Union.

A detailed study was also made of the court decisions involving cemetery litigation in New Jersey and in other States.

It is the recommendation of the committee that the Special Cemetery Committee be continued for the year 1945 so that a detailed and comprehensive report may be prepared.

Respectfully submitted,

FRANK W. SHERSHIN,
Chairman;
GEORGE F. NEUTZE.

JASPER G. KIRCHNER,
Clerk to the Committee.

Mr. Shershin offered the following resolution, which was read by the Clerk and adopted:

Resolution reconstituting and recreating an Assembly committee to make a study of the laws concerning cemeteries and mausoleums, and report thereon to the Assembly.

WHEREAS, the Assembly committee appointed to make a study of the laws concerning cemeteries and mausoleums has made a report to the Assembly, and in and by said report requests that the committee be reconstituted for the purpose of continuing its study; now, therefore,

1. The Assembly committee heretofore created to make a study of the laws concerning cemeteries and mausoleums and to report thereon to the Legislature is hereby reconstituted and recreated as an Assembly committee to consist of three (3) members of the Assembly to be chosen and appointed by the Speaker thereof, and it shall be the duty of such committee to make a study of the laws concerning cemeteries and mausoleums.

2. The committee may hold hearings in any part of the State and is empowered by its subpœna to compel the attendance and examination of all individuals, associations, co-partnerships and corporations formed under any special or general statute or act, who own, operate and maintain cemeteries, burial grounds and mausoleums, and to compel the production of any and all books, papers and records, and such committee shall have the power to draft any necessary assistance from any State Department.

3. The committee may sit during any recess of the Legislature or after any adjournment thereof, shall conclude its work as soon as practicable and shall report to the Assembly the result of its study and findings, with its recommendations.

The annual report of the Treasurer of the State of New Jersey was received and Mr. W. H. Jones moved that it be referred to the Committee on Treasurer's Report.

A message was received from the Governor by the hands of his Secretary.

Mr. W. H. Jones moved that the message from the Governor concerning the budget be received and spread in full upon the Minutes, and that the budget be received and filed.

Which motion was adopted.

BUDGET MESSAGE

To the Legislature:

We approach this fourth war-time budget with confidence born of the excellent fiscal accomplishments of our State Government during the past year. As a result of legislative and executive programs inaugurated last year with respect to personnel, revenues and expenditures, we are reasonably well adapted today to our abnormal fiscal responsibilities. At the same time we have endeavored to meet justifiable salary and hourly wage increases. We are in a strong, liquid position to apply our resources with primary emphasis upon post-war needs, and must continue to do so.

To this end, we may well establish three principal objectives:

(1) To continue the operating efficiency of essential State services under war-time conditions of manpower, materials, wages and prices;

(2) To continue and strengthen our sound financial foundation upon which to anticipate and meet our post-war responsibilities and problems;

(3) To protect in every way the rights of our men and women in the armed services and to defer so far as possible all State expenditures in order to build up a reserve for the proper needs of our returning veterans.

These objectives require a budget restricted to the minimum essential departmental requirements. For this reason, many meritorious and probably desirable, but not essential, requests for appropriations have had to be rejected. For the next fiscal year, recommended appropriations for both major State funds total $80,516,354 98, making possible a post-war reserve of $68,424,-607.29 as of June 30, 1946

In addition, the State has the economic protection of an estimated reserve under present conditions of $509,000,000.00 in

the Unemployment Compensation Fund, as of June 30, 1946. This huge fund will bear the first impact of any economic dislocation and will provide this much additional security for the people of the State.

Never in the history of our State has so bright a financial picture been painted. This accomplishment is all the more notable because New Jersey does not impose an income tax, sales tax, amusement tax, or other forms of consumer excise taxes found on the statute books of many States.

The strong fiscal position of our State has enabled us to participate to a notable extent in the national war bond program. The portfolios of the various State funds administered by the State Treasurer contain $104,506,000.00 in United States bonds as of the close of 1944. This is an achievement not only in patriotism, but also in the prudent investment of public trust funds.

The forthcoming budget, and its execution, will benefit greatly from the marked advantages of a single fiscal year, a uniform pay plan which applies the principle of equal pay for equal work, and a post-war reserve account to which we have committed the entire surpluses of our two major operating funds. These are accomplishments of last year which I know we will protect and expand.

Post-War Reserve

My Budget Message for 1944-45 featured an anticipated surplus in the two major funds—the State Fund and the Highway Fund —of an amount exceeding $25,000,000.00. The members of the Legislature were invited to join me in a pledge to conserve that surplus as a sacred fund That pledge was whole-heartedly given and honorably kept.

Present experience indicates that for the current fiscal year income from usual sources actually will exceed expenditures by $29,325,301.35—a surplus $3,547,832.87 greater than anticipated. This happy result has been made possible by the Legislature wisely limiting spending bills to those of an essential nature, and by State agencies co-operating with the fiscal officers in producing savings in their expenditure programs totaling $1,738,478.09 in the fiscal year ending June 30, 1944.

A statement appearing at the close of this Message sets forth the details of the revised anticipated surplus and of other post-

war resources. In summary, this surplus and all other resources of our anticipated $68,424,607.29 post-war reserve follow:

Revised Estimated Post-War Surplus and Reserves, July 1, 1945	$29,325,301 35
Interest on Delinquent Railroad Taxes	15,276,373 92
Earnings by State Treasurer from Investments of Post-War Surpluses, to June 30, 1946	500,000 00
Estimated Revenues for 1945-46 over and above amount required to cover budget recommendations for 1945-46	3,203,515 02
Sub-total Estimated Post-War Reserves, July 1, 1946	$48,305,190 29
Additional funds uncommitted or already earmarked for Post-War Use	20,119,417 00
Over-all Resources for Post-War Activities	$68,424,607 29

It should not be assumed, of course, that the post-war reserve will be used for any and all types of post-war activities A portion of this reserve must be spent for specific types of projects. A brief analysis of the earmarked funds indicates the uses to which they may be put, after allowing for post-war or emergency appropriations already enacted:

For Purchase of Highway Rights-of-Way	$13,571,000 00
For Construction of Roads and Bridges	4,300,000 00
For Elimination of Grade Crossings	8,428,317 00
For State, Municipalities, Counties and School Districts, as the Legislature may determine how the interest on Railroad Taxes shall be distributed	15,276,373 92
For Guaranteeing Veterans' Loans	5,000,000 00
For other Post-War Activities	21,848,916 37
Total possible Post-War Resources	$68,424,607 29

It should be noted that the sum of $15,276,373.92 received from New Jersey railroads as interest on past-due taxes (main stem and second-class) is included in the estimated surplus It has never been budgeted or appropriated. Whatever formula the Legislature may adopt for the distribution of this large sum, it must all be safeguarded so that these funds may be used for post-war purposes *only* In this way we will enable our returning veterans, as local taxpayers, to share in the benefits of this windfall

Your action last year was convincing proof that you agree with me that the surplus must be a sacred fund to be held for post-war activities It is even more so today. We must renew our solemn pledge to those in the armed forces that we will never forget their sacrifices—that we will not shirk our duty of preserving the

American future for which they are fighting We must husband all our resources and keep our State strong. Their security lies in our hands, even as ours lies in theirs.

Let us meet this challenge realistically. Our surplus and other resources not needed for current purposes must be preserved for post-war programs in which our fighting men and women will have their proper and deserved share. I am confident that the Legislature will not diminish the post-war reserve fund except for purposes of an extraordinary, emergency nature.

I submit the following analysis of recommendations for each of the major funds:

STATE FUND

1944-45 Appropriations	$48,526,371 79
1945-46 Departmental Requests	57,354,801 47
1945-46 Recommendations	51,070,846 87
Decrease in Recommendations against Requests 1945-46	6,283,954.60
Increase 1945-46 Recommendations against 1944-45 Appropriations	2,544,475 08

The increases in the 1945-46 recommendations over current appropriations include the following:

(1) In the Department of Taxation and Finance there is a recommendation of $300,000.00 for administration of the Motor Fuel Bureau, and $60,000 00 for the Billboard Bureau, which formerly were financed from other funds. These items now are being charged directly to the State Fund.

(2) Included in the Board of Commerce and Navigation appropriation is $1,250,000.00 for continuation of the emergency beach erosion program.

(3) The $6,732,031.00 appropriated from the State Fund for the Teachers' Pension and Annuity Fund is $43,374 00 greater than last year.

(4) The appropriation of $50,000.00 for the State Guard, formerly carried in the Defense Budget, has been included in the State Fund appropriations to the Quartermaster General. Although the 1944-45 budget contemplated a credit of $200,000 00 from the armory rental account, the new recommendation anticipates only $100,000.00.

(5) The $698,314 00 required for the State Employees' Retirement System out of the State Fund is $63,395 76 greater than last year.

(6) An appropriation of $1,000,000 00 recommended for the Police and Firemen's Pension Fund, continuing aid to municipal police and firemen, now is carried in the State Fund instead of the Highway Fund, as last year.

(7) The allotment required for Old Age Subsidy is increased $430,000 00

(8) Included in the budget for the various State departments is the sum of $1,134,537 00 covering part of the cost of applying the new classification and pay plan.

HIGHWAY FUND

Departmental Requests, 1945-46	$29,443,779 47
Recommendations	26,649,281 18
Decrease	$2,794,498 29

A comparison with the preceding budget is not available at this time because the current budget is on an 18-month basis.

Necessarily, the payrolls in the Highway Fund departments are $518,204 00 higher than originally appropriated last year as a result of completing the initial steps in the Civil Service reclassification and salary readjustment program

STATE FUND

The departmental budget requests for the next fiscal year total $57,354,801.47. This is $11,614,931.47 more than is available for appropriation from this fund My recommendations for appropriations out of the State Fund total $51,070,846 87, a reduction of $6,283,954 60 from the departmental requests; but still necessitating the transfer of $5,330,976.87 from the State Highway Fund

Much of the State budget goes for items other than direct operational costs of the State Government Out of the total of $51,070,846 87 recommended for appropriation in the General State Fund, there is included $18,938,745 06, or 37 1%, for the following purposes:

		$32,132,101 81
Total State Fund Appropriations		$51,070,846 87

Highway Fund

For the first time it is possible to present a comparison of Highway Fund recommendations on the same basis as the State Fund.

The departmental budget requests for the next fiscal year total $29,443,779.47. This is $8,536,220 53 less than is available for appropriation from this fund. My recommendations for appropriations out of the Highway Fund total $26,649,281.18, a reduction of $2,794,498.29 from the departmental requests.

Much of the Highway Fund budget goes for items other than direct operational costs. Out of the total of $26,649,281.18 recommended for appropriation in the Highway Fund, there is included $15,519,207.36, or 58.2%, for the following mandatory purposes:

Subventions to counties and municipalities	$9,885,000 00	
State pensions and retirements	166,486 00	
Teachers' Pension and Annuity Fund	1,266,556 00

	$11,130,073.82	
		$26,649,281.18

Highway Department

I repeat that war restrictions preclude the possibility of construction projects in the Highway Department program. The Highway Commissioner has made no request for funds for such projects. Accordingly, the appropriations recommended for the department are to provide for the continuance of the regular maintenance program, and no new construction is authorized. However, the request for maintenance materials has been recommended in full.

The funds recommended should be sufficient to supply the required aid to municipalities for highway lighting and to carry out other subsidy programs which are the department's responsibility.

It is further recommended that authorization be granted to the Highway Department to finance out of unexpended balances of appropriations for the fiscal period closing June 30, 1945, a sum not in excess of $90,000.00 as New Jersey's share of the cost of preparing plans and specifications for parkways for the Palisades Interstate Park Commission.

Should it be desirable to resume construction, as the Federal Government's new program for road aid develops, steps can be taken to make funds available to meet the State's share of the cost.

Deficiencies

This budget recommends the continuance of the excellent precedent established by the 1943 Legislature, and repeated last year, of including in the annual appropriation bills, funds for all known deficiencies for which supplemental appropriation bills formerly were enacted. The deficiencies for the current year for general and educational purposes that I recommend should be included in the appropriation bill covering this budget total $2,239,774.93.

Salaries

At the direction of the Legislature, the Civil Service Commission has adopted the reclassification and compensation plan prepared by a legislative commission. Although considerable detail necessarily attended the carrying out of the various initial steps of this program, much progress has been made All classified State employees who were receiving less than $1,200 00 per year, the new minimum set forth in the program, were brought up to

that level on July 1, 1944, except for a few junior clerical employees. Hourly wages of those classified as highway laborers were equalized in the urban and rural areas. The annual cost of completing these two steps totaled $98,000.00.

The next important step was the application of new salary ranges—some higher, some lower—for those in the classified service. The right was reserved to employees not in agreement with the action of the Civil Service Commission to file appeals. Many appeals have been disposed of; others are pending.

For those positions definitely allocated within the established ranges, salary adjustments have been effected, as of December 1, 1944, for employees receiving less than the minimum of their new ranges. When the remaining appeals have been decided, similar adjustments will be made, retroactive to the same date. The annual cost for this part of the program, which will benefit a great number of classified employees, totals approximately $470,000.00.

Believing that the inequalities found in the salary ranges of those in the classified service also existed for those in the unclassified service, I directed the Civil Service Commission to make a study and establish the same type of compensation plan for unclassified as for classified employees. This new part of the program has not yet been completed, but will be soon. When the new ranges for unclassified employees are established, the effective date for such salary changes also should be December 1, 1944, so that the program is equitable for all classes of employees.

In considering the compensation of unclassified personnel, the Civil Service Commission should take into consideration all unclassified employees, whether technically listed as such or not. It also should include employees in educational agencies supported by State funds, and any similar groups.

In addition, there are a few groups of employees whose salary ranges are frozen by specific statutory provisions. This category includes the uniformed personnel of the State Police, motor vehicle inspectors and prison officers. I have been informed that this static situation has resulted in hardships, particularly in the ranks of the State Police My understanding is that some State troopers with distinguished service records and continuing family obligations, are receiving salaries less than some classified clerical employees in the same department. Some reluctantly have resigned to take higher paid positions elsewhere.

Considering that the members of the State Police are on 24-hour call and restricted from engaging in outside enterprises to supplement their incomes, this inequitable situation certainly warrants consideration. Where similar conditions exist in the other statutory salary groups, I recommend the same consideration. Any new program developed for these employees should be within the framework of the new pay plan, retroactive to December 1, 1944.

To prevent the inconsistencies existing in the salary ranges before the reclassification and compensation program was developed, employees whose present salaries are between increment levels should be adjusted to the next higher increment as of December 1, 1944 This will eliminate from all departmental payrolls salaries which are not at the exact increment level

To continue the intention of the Legislature and the Civil Service reclassification program, I have drafted this budget with a view to effectuating the following·

> For reclassified employees whose compensation was raised to the minimum of their new salary ranges, effective December 1, 1944, but who did not thereby receive a salary adjustment equal to a full increment in their new range, I recommend the payment of a full increment as a salary increase, effective July 1, 1945.
>
> For reclassified employees whose compensation equalled the minimum, or broke between the minimum and maximum of their new salary ranges, and thereby received no salary adjustment, I recommend the payment of a full increment as a salary increase, retroactive to December 1, 1944 I do not, however, recommend any additional salary increase for this group of employees on July 1, 1945.

There remains still another group of employees who will not be benefited by the reclassification program because the salaries they were receiving already exceeded the maximums of the newly established ranges In this connection, it must be said that the recently established reclassification and compensation program is far more preferable and more equitable than any general plan providing for blanket increases or bonuses without regard to merit or service.

The reclassification plan is the result of a careful study of sound personnel policies and all factors pertaining to the State service; the other necessarily reflects the generalized action that flows from the pressure of an emergency situation. The first integrates and makes logical the personnel policies of the State; the other invariably brings about inequalities and inequities.

Nevertheless, those whose salaries exceed the maximums of their newly established ranges and who are receiving temporary war adjustments under the statute expiring June 30, 1945, should not in this period of continuing high costs of living be entirely deprived of the extra income enjoyed during the fiscal year 1944-45. Therefore, I am recommending that a limited bonus program of $120.00 per individual be adopted for this group of employees, effective July 1, 1945. This will guarantee to the employees in question an income for the next fiscal year comparable to the amount received during the present one.

The war adjustment plan should provide also for those in the junior clerical classification who will receive increments of $60.00 only. It is recommended that in addition to that increment, this group be paid a temporary war adjustment of $60.00 for the next fiscal year.

The annual cost of all of the various wage and salary adjustments encompassed in this budget, as a result of the reclassification program and new pay plan, and including modified war adjustments which are recommended, will be approximately $2,000,000.00. Of this sum, $1,600,000.00 will be found in the recommended appropriations for salaries in the respective departmental accounts. The remaining $400,000.00 is recommended in a special account to cover the employees whose reclassification status has not been determined as yet. Those of our State employees absent on military leave will share, of course, in the benefits of this program. Upon their return, they will receive the increased compensation that they would have enjoyed had the war not interrupted their State service.

Numerous requests have been made by department heads for special salary adjustments for certain key personnel. I assume that the requests are all worthy of full consideration. However, we are attempting to make our new reclassification and compensa-

tion program function smoothly. It is my belief, therefore, that all of these requests should be considered and disposed of under the provisions of that program. Since I have already stated that the program should deal with classified and unclassified employees alike, I am sure that these cases will be disposed of equitably as the program unfolds.

I have limited my recommendations for executive salary increases to a single department head to bring the compensation of the Commissioner of Labor whose work has increased over 100%, up to $10,000.00, as established last year for other department heads. This new salary will cover his duties as Commissioner of Labor as well as those as Commissioner of Workmen's Compensation which now are separately compensated.

In the past, it has been the practice for some State officials and employees to enjoy, in addition to the salaries or compensation provided for such positions, fees or costs allowed for services rendered as trustees, etc., in connection with work done in their official capacity or employment. Such payments have been permitted under our present laws. It is recommended that all such fees or costs be paid into the treasury as part of the State revenues. A bill that will accomplish this result was attached to my budget message last year, but was not taken up during the legislative session. I resubmit the same bill and recommend that the Legislature enact it into law.

Additional Employees

Requests were made by departments for 693 new positions in all budgets The total requested for these new positions was $1,325,000. With the exception of one department, none of these requests has been acted upon favorably. I am convinced that department heads and their personnel alike will agree that, because of the generous and fair compensation program recommended in this budget and the manpower need in war industries, public agencies have a duty to carry on their services with available personnel. This naturally means that many individuals will have to take on greater responsibilities, exert extra effort and put in even longer hours. But these sacrifices must be made, and I feel they will be made cheerfully.

The only funds recommended for new positions are to the Labor Department. The sum of $35,000.00 is set up to permit the Commissioner of Labor to carry out some of the necessary

duties of his department, although he had requested the sum of $115,720.00 for new positions. The same sacrifices other departments make must be made by the Labor Department. However, because of the greatly increased wartime employment and expanded production facilities in our State, the department's responsibilities are far greater than its normal personnel can absorb. For example, factory employment in 1944 was 150% of 1940.

Accordingly, I recommend the sum of $35,000 00 be appropriated for new personnel, to be restricted to positions other than executive with the exception of two additional referees at $3,600 00 per annum. The referees are necessary to relieve the crowded condition of the compensation calendar, and thereby protect injured industrial workers from unduly delayed compensation decisions and awards, with resultant demoralizing effect. The balance of the $35,000.00 is to be used for the expansion of the department's staff of factory inspectors and child labor examiners, the new employees to be added only with the approval of the Commissioner of Taxation and Finance, under the provisions of Chapter 112, Laws of 1944.

Equipment Purchase Account

The Equipment Purchase Account makes its first appearance in this budget. It has been the custom to appropriate annually to the several State departments, institutions and agencies, varying sums for the purchase or replacement of office, automotive, institutional, road and other equipment. This year the requests for such items totaled in excess of $1,000,000.00.

We must continue our policy of restricting appropriations to only the essential needs of each agency. Therefore, I have recommended equipment items totaling $463,253.00. The sum recommended in each case does not appear with the other items in the regular departmental accounts, but will be found in the statement appended to each account.

To cover these equipment items, I am recommending that the sum of $400,000.00 be appropriated to a special Equipment Purchase Account. Some $214,594.00 of this sum represents the cost of items which ordinarily would be charged to the Highway Fund. The Equipment Purchase Account will be administered by the Director of the Division of Purchases and Public Property, with the approval of the Commissioner of Taxation and Finance.

It will be noted that this amount is $63,253.00 less than the total estimated cost of the equipment items appearing in the respective appended statements. I am charging the Director of Purchases and the Commissioner of Taxation and Finance with the responsibility of examining further the requests for which appropriations have been recommended, so that some of those may be reduced or suitable items furnished from State-owned equipment not needed by other agencies.

I am sure that the Director of Purchases can, between now and July 1st next, when the Equipment Purchase Account appropriation becomes available, ascertain all the known needs of State agencies for the next fiscal year. A single quantity purchase can be made then of each necessary item, rather than hundreds of individual purchases. The result should be not only savings made available by the trade to those who buy in large quantities, but also a considerable saving in time and reduction in administrative detail.

In this connection, during the past year, as you know, I appointed an interdepartmental committee to take advantage of purchasing opportunities offered by the Federal Surplus Property Administrator, so that surplus war goods might be procured directly from that agency before they entered the open market. The Director of Purchases is a member of this committee and he will be aware of any opportunities to conserve on purchases for the State through this source.

Pensions

In last year's Budget Message I called attention to the actuarial unsoundness of the Prison Officers' Pension Fund established by Chapter 220 of the Laws of 1941. A study which I directed to be made in order to determine the actual condition of this fund, discloses the appalling instability of the arrangement. Every member of the Legislature has received a copy of the study and the press has devoted considerable space to its findings.

Directly after the passage of the 1941 act, 172 prison officers withdrew from the State Employees' Retirement Fund, taking with them $133,214.77 previously paid into the fund. A new pension plan was established without assets, the withdrawn payments having been used for personal purposes. Chapter 186 of the Laws of 1943 made possible the withdrawal of $30,316.46

additional from the State Employees' Retirement Fund, representing accumulated interest. Finally, fifteen instructors, acting under the provisions of Chapter 193 of the Laws of 1943, withdrew $25,721.32, representing interest and principal, from the State Employees' Retirement Fund. In all, 187 members withdrew $189,252.55 from the fund.

I recommend that the Prison Officers' Pension Fund be abolished, and that the employees be permitted to rejoin the actuarially sound State Employees' Retirement Fund. If the Prison Officers' Pension Fund is not abolished, the State will have to make an annual contribution of $319,240.00 over the next twenty years, a total of $6,384,800 00, as its share of the cost of benefits for only 315 individuals. This is the actuaries' estimate, based on a contribution by the State of 38.54% of the present annual payroll. This is to be contrasted with the State's annual contribution under the State Employees' Retirement Fund of approximately 4% of annual payroll.

There are various ways of financing the cost of restoring the employees to the State Employees' Retirement Fund. If the State should restore all service credits of each employee, as well as the amounts withdrawn by 187 members, the cost to the State would approximate $950,000.00, which could be spread over twenty years.

While it would be desirable for the employees who enjoyed a windfall when they withdrew from the State Fund to restore those withdrawals, the State necessarily must face the consequences of the legislation which permitted the present situation to develop. The sooner the Prison Officers' Pension Fund is liquidated and its present members covered by the State Employees' Retirement Fund, the more readily the change can be accomplished. The transfer will be of unquestioned benefit to the persons concerned, as well as to the State, since they will thereafter enjoy the real security of a soundly established and well administered retirement fund.

In connection with the subject of pension funds, I would also like to remind you of the continuing dispute in recent years over the amount of the State's contribution to the Teachers' Pension and Annuity Fund. Each year the State has contributed an amount to the fund in accordance with the actuary's finding and the trustees' certification of need. The difficulty has been that

the actuary and the trustees differ on the current value of the fund's assets. The actuary values the assets at $175,000,000.00; the trustees do not take into consideration anticipated future contributions and therefore they establish the value of the assets of the fund at $125,000,000.00.

These are, of course, very technical matters. However, I believe the time has come to re-examine the entire question of contributions. I would not suggest any step which would, in the slightest manner, affect the actuarial soundness of this great pension fund, but it is certainly unjust to the State to make annual payments that may be substantially in excess of actuarial needs.

Single State Fund and Single Budget

Sound State fiscal policy and practice require that there be a uniform fiscal year, a single State fund and a single budget which requires only one general appropriation act. The first of these goals was achieved last year when the Legislature, joining in my recommendation, enacted Chapter 159 of the Laws of 1944 establishing a uniform fiscal year, and adopted an 18-months' budget for the Highway Department and a 12-months' budget for the General State Fund. This constructive action represented a great forward step in New Jersey fiscal policy. There still remain the creation of a single State Fund and the establishment of a single budget with a single general appropriation act.

The total revenues available to the State Highway Fund have exceeded $50,000,000.00 almost every year from 1931 until war rationing restrictions became effective. That fund rivals the General State Fund in size. Thus, two great funds have existed side by side, one dedicated to highways and certain related purposes, the other meeting the needs of the remaining State agencies. This has resulted in unbalanced services and administrative organization, complicated accounting procedures and a confused and incomplete picture of State finances.

It has also made it necessary to engage in fiscal gymnastics to keep accounts orderly as between the two funds. Debt service for institutional building, educational aid and emergency relief bonds; part of the State Police Department and the Board of Commerce and Navigation budgets, as well as other deficiencies—all properly chargeable against the General State Fund—have been charged against the Highway Fund.

On the other hand, the cost of operating the Motor Fuel Tax Bureau in the Division of Taxation, Department of Taxation and Finance, is now charged against the General State Fund, although it formerly was paid out of the Highway Fund. If the State Government were to operate strictly on the basis of two funds, the General State Fund budget would show a deficit and the Highway Fund budget a large surplus.

Modern government has become too complex to allow the continuance of separate funds like the Highway Fund. The concept of such a separate fund connotes that the Highway Department is, in effect, a government unto itself, instead of being part of an integrated State administrative system.

The abolition of the Highway Fund and the payment of all revenues into the general State treasury have been urged repeatedly by experienced fiscal officers, sound legislative leaders, civic organizations and students of government generally, in the strongest possible terms. As long as a separate fund the size of the Highway Fund exists, there must be a fractionalization of the fiscal program and policy of the State.

The time has come to establish a single State Fund in New Jersey. I recommend that the Legislature abolish the State Highway Fund, and that it direct that all revenues now dedicated to the fund, as well as all Highway Department receipts, be paid directly into the general treasury of the State. The Legislature could then appropriate annually from a single fund such amounts as it might determine should go to each State agency after a careful study of relative needs.

A single State fund will make for better budgeting, a more unified and effective control of expenditures, simplified accounting procedure, and a clearer, more complete picture of State finances.

The existence of a single fiscal year and my recommendation of a single State fund lead to the further recommendation of a single budget requiring one annual appropriation act for all State agencies. This is the first year that the Highway Department has been required to present budget requests in the same form as other departments, but appropriations for its work are still the subject of a separate act. Anyone who has had to work with two different budgets has unhesitatingly advocated the need and advisability of a single State budget and a single general appropriation act.

When the Legislature of 1933 enacted Chapter 293 of the laws of that year, the announced intention of the legislation was "to provide for the budgeting of all State revenues and expenditures, whether or not they involve free treasury funds or prededicated funds," the ultimate purpose being to "afford legislative control over the expenditure of dedicated funds as well as free treasury funds, and to provide a comprehensive budget of all State Funds." The 1933 Budget Act amendments did not, however, result in a single budget. If the Legislature is to carry out the declared purpose of providing "a comprehensive budget of all State Funds," it should enact necessary legislation providing for one budget and one general appropriation bill covering all revenues and all expenditures for a single fiscal year. I strongly recommend such legislation. It will give New Jersey a sound basis for operations that will meet the requirements of fiscal administration in the modern State.

CONCLUSION

The fiscal problems of war-time have brought us a realization of how much can be accomplished through sound procedures and sincere co-operation. The continuance of this policy will be conclusive evidence that we remain faithful in our trust to the citizenry of our State.

Respectfully submitted,

(Signed) WALTER E. EDGE,
Governor.

For Economic Development Department	700,000 00		
For all other	77,000.00		
		6,797,000.00	
Net anticipated increase to July 1, 1945			3,547,832.87
Revised estimated Post-War Surplus and Reserves, July 1, 1945			$29,325,301.35

Sub-Total, Estimated Post-War Reserves, July 1, 1946			$48,305,190.29
Additional funds uncommitted or already earmarked for Post-War Use			20,119,417.00
Over-All Resources for Post-War Activities			$68,424,607.29

The figures presented in the table above, which show the Post-War Reserve Fund at June 30, 1946, do not adequately reflect the actual resources which the State has for post-war construction needs.

It should be noted that certain funds or potential funds are or can be made available and should be reserved strictly for future post-war necessities. They include:

Authorized but unsold Highway and Grade Crossing Elimination Bonds	$7,819,417 00
This is part of the balance of the $100,000,000 00 bond issue authorized in 1930. Selling by the State's issuing officials and appropriation by the Legislature would make these funds available for the purpose enumerated in the bond acts.	
Balance in Veterans Guaranteed Loan Fund	5,000,000.00
None of this fund has been expended to date. The entire balance is held in trust for this post-war purpose	
Balance in Grade Crossing Elimination Fund	1,850,000.00
Practically nothing is being expended from this fund, due to the war emergency. These funds will be available for post-war work in the elimination of grade crossings.	
Balance of Highway Construction Program:	
State and Federal Matched Funds	4,300,000 00
Bond Funds	1,150,000.00
These funds have been appropriated to the Highway Commissioner for construction of roads and bridges and for the purchase of rights of way. The war emergency has practically stopped all major construction. Most of these funds can undoubtedly be reserved until the war ends. At that time they, too, will constitute part of the funds which New Jersey will contribute to the post-war construction program.	
Total additional funds	$20,119,417.00

Adding to the Post-War Reserve Fund of $48,305,190.29, the additional potential funds, it is noted that the over-all resources which will stand to New Jersey's credit for post-war activities will equal $68,424,607.29.

It should not be assumed that this vast fund can be used for any and all types of post-war construction work. A brief analysis of these funds indicates the uses to which they may be put, after allowing for post-war or emergency appropriations already enacted:

For Purchase of Highway Rights-of-Way	$13,571,000 00
For Construction of Roads and Bridges	4,300,000 00
For Elimination of Grade Crossings	8,428,317.00
For State, Municipalities, Counties and School Districts as the Legislature may determine how the interest on Railroad Taxes shall be distributed	15,276,373.92
For Guaranteeing Veterans' Loans	5,000,000 00
For any other Post-War Activity	21,848,916 37
Total possible Post-War Resources	$68,424,607.29

LETTER OF TRANSMITTAL

NEW JERSEY STATE COMMISSION ON POST-WAR ECONOMIC WELFARE

STATE HOUSE, TRENTON, NEW JERSEY

January 29, 1945.

To the Governor and Legislature of New Jersey:

There is transmitted herewith the second report of the Commission on Post-War Economic Welfare, established by Chapter 192 of the Laws of 1943.

The report is concerned with three problems of the post-war period pertaining to the working men and women of New Jersey—unemployment compensation, workmen's compensation and migrant labor. In considering these problems, the Commission has been guided by a desire, shared by all of its members, to give every possible advantage to the New Jersey worker that the funds and the facilities at the disposal of the State will permit.

Throughout its deliberations, the Commission has had the thoughtful guidance of Governor Walter E. Edge; the technical assistance of the Princeton Surveys of Princeton University; and the generous co-operation of Frank T. Judge, Acting Executive Director, Unemployment Compensation Commission, and his staff; and Harry C. Harper, Commissioner of Labor, and his staff.

In addition, the Commission has heard many interested individuals and groups whose counsel and experience have been of the greatest benefit.

It has, nevertheless, been no easy task to arrive at decisions which, on the one hand, would provide the maximum benefits that the Commission sought; and, on the other, would maintain those prudential safeguards which will alone assure the effectiveness of its proposals.

On all questions, however, the decisions of the Commission have been unanimous; and it is gratifying to state that the recommendations pertaining to unemployment compensation and workmen's compensation will, if adopted, place New Jersey in the forefront among the progressive States of the Nation.

The Commission still has under consideration a plan of cash benefits for unemployment caused by sickness, upon which it will report separately.

COMMISSION ON POST-WAR ECONOMIC WELFARE,
HOWARD EASTWOOD, *Chairman.*

Herewith is the second report of the New Jersey Legislature's Veterans Commission, which was created by Assembly Concurrent Resolution No. 1 of 1943, and Senate Concurrent Resolution No. 5 of 1944.

The Commission was charged with the responsibility of making a continuing study of benefits for veterans of World War II, to report its findings to the Legislature, and to make recommendations for such legislation as it deems necessary.

The Commission reorganized on February 5, 1944. Assemblyman Frederic Stoddard, of Essex County, was named a member of the Commission by the Speaker of the House, succeeding former Assemblyman J. Edward Jacobi, of Essex County. Immediately thereafter the Commission resumed its study of the question of veterans' benefits, drawing on appropriate sources such as Congress and agencies of the Federal Government, the several States, various civilian organizations and agencies of the State of New Jersey which are concerned with veterans and their benefits. Public hearings were held at Trenton.

The Commission wishes to take this opportunity to express its appreciation of the valuable testimony given by the various spokesmen of industry, commerce, labor, education, government, and veterans' organizations.

A careful evaluation of all bills affecting veterans and servicemen and servicewomen of the armed forces introduced in the New Jersey Legislature during 1944 was made by the Commission. Thirty-five such bills were enacted in 1944.

Respectfully submitted,

(Signed) ALFRED B. LITTELL, *Chairman;*
I. GRANT SCOTT,
BRUCE A. WALLACE,
FREDERIC STODDARD,
KENNETH C. HAND,
HOWARD S. KEIM.

(Signed) LOUIS V. SHEPPER,
Secretary.

The Speaker introduced Assemblywoman Mrs. Irene Griffin, who delivered the following Lincoln Day Memorial address:

Mr. Speaker, Ladies and Gentlemen of the House of Assembly:

It is thoughtful that we pause in the conduct of our business this 12th of February to pay tribute to one whose birthday anniversary is today.

One hundred and thirty-six years ago, Nancy Hanks Lincoln gave birth to a son who was named Abraham.

This Abraham, born in a hut, was like a second Christ, and, though he died some eighty years ago, his spirit dwells forever on this earth. You know his history, his early struggle for learning; his political career which was interspersed with failure and discouragement; his election to Congress in 1846; his famous debate with Douglas on the slave question; his election to the Presidency of his country in 1860; his guidance of the Civil War; his Proclamation of Emancipation on January 1, 1863, and then his death from an assassin's bullet on April 15, 1865.

Yes, you and I know all these things for we learned them as children when we were in school. Birthdays are usually observed with celebration, but I would ask you today not to celebrate, but rather meditate. For the words and deeds of the immortal Lincoln take on a new and deep significance in this year of 1945.

Millions of homes are displaying flags of service and almost a million of the blue stars have turned to gold.

Yes, the world is at war and mothers are shedding tears as sons go forth. Why must it be? Why must children conceived in love go forth as men to hate and kill? What lessons have we yet to learn? And did not Lincoln try to teach them to us? Have we learned to conduct ourselves "with malice toward none, with charity for all"? We have not! Have we learned "firmness in the right, as God gives us to see the right"? We have not! Have we learned that we must not "wring our bread from the sweat of other men's faces"? We have not! Have we learned not to abuse power but to use it for the good of others? We have not! Have we learned the principle of the Declaration of Independence that "all men are created equal and endowed with certain inalienable rights, among which are life, liberty and the pursuit of happiness?" We have not!

Poets, editors and orators sing Lincoln's praises, but few men are willing to weave into the pattern of their daily living his truths, his simple teachings.

As we recall his words at Gettysburg, let us remember Corregidor, Bataan and the Philippines; Africa, Italy, France, Belgium and Germany.

Let us remember the simple markers on the graves, some with the Star of David, some with the Cross of Calvary. Some with names that end in vowels and some ending in

consonants. Some, at rest, were rich; some had little worldly goods. Some were of white skin, some of darker pigmentation. And now, Mother Earth holds them in her arms and they sleep as brothers.

In closing, I would speak to you not as the woman legislator who was requested to address you today, but as a mother, who will in a few weeks hang the blue star of service in her window. And I would ask that as our tribute to the immortal Lincoln, we rededicate ourselves to the tasks before us.

May the laws evolved in this great Chamber, to control human relationships, be born of a spirit and understanding that is kind and just!

May the power that has come to us who sit in high places make us humble and thoughtful of others. In the words of the great Lincoln, let us "do all which may achieve and cherish a just and lasting peace among ourselves and with all nations." May we "have faith that right makes might, and in that faith let us to the end dare to do our duty as we understand it."

This is February 12, 1945, the birthday of the Great Emancipator, the Great Humanitarian, Abraham Lincoln.

In case said court shall determine such arrangement and division, or any part thereof, to be null and void, the Legislature shall proceed to make a new arrangement and division, entire or partial, as the action of the court may require.

The Speaker announced that Thursday, February 22d, we celebrate the birthday of George Washington, and invited Assemblyman Lasher to the Rostrum who delivered an address in commemoration of this coming event as follows:

GEORGE WASHINGTON

Today we commemorate the two hundred thirteenth birthday anniversary of George Washington, the first President of our United States. Once again we Americans raise our voices in gratitude and praise for all of the blessings which have come to us under the Republic which he founded. And

in this reverence we are joined by the peoples of other nations—wherever men are free, or hope to be free.

On an occasion like this we are tempted to indulge in a mere recital of great deeds, as if to gain some reflected glory from them. But we fail of our purpose if we only review the life of Washington. We must revive and cherish our own patriotism. We must rededicate ourselves to the great principles by which he lived.

When Washington was born on February 22, 1732, kings presumed to rule by divine right. When Washington died on December 14, 1799, America had proved to the world that a government of free men could work—that the common man was himself a king. Let us consider for a few moments the kind of a man it was who played such a vital part in bringing about this change in the world.

Some well-intentioned but misguided historians deem it sacrilege to represent Washington as a man and not as a god. To the everlasting encouragement of mankind the truth shows that he never pretended to be free from the ordinary imperfections of human nature.

Born to wealth and high position, Washington nevertheless spent his youth in work and recreation which brought risk, hardship, and excitement to his life in ample measure. At the age of sixteen he helped survey the wilderness west of the Blue Ridge Mountains of Virginia. A few years later, following a successful mission in the French-Indian War, he was appointed a Lieutenant-Colonel of a Virginia Regiment. After that he became a member of General Braddock's staff with the rank of Colonel. In the year 1757, at the age of twenty-five, and while still serving with General Braddock, Washington became a candidate for the House of Burgesses from his home county, but was decisively defeated. In this campaign he ran on a dry platform. The next year he changed his platform and was overwhelmingly elected.

Washington loved to dance and follow the hounds, and he was also fond of cards and billiards. Despite his great physical prowess he suffered from many illnesses. In his early thirties he believed that he would not live much longer. But his most strenuous and fruitful years lay still ahead—years filled with disappointment, privation and grief.

In July of 1774 when the occupation of Boston by the British was discussed on the floor of the House of Burgesses in Virginia, Washington arose and told the members:

> "I will raise one thousand men, subsist them at my own expense, and march myself at their head for the relief of Boston."

Never once after that did he swerve from his determination to set the colonies free. For eight long years he kept alive the flame of independence, and many times the light from that flame flickered like a dying lamp and almost disappeared entirely.

In early December of the year 1776 one of the keenest blows of the war struck the Continental Army, the loss of Port Washington to the British, with a great number of troops and much supplies. Washington retreated across New Jersey with what was left of his tattered legions. And even their number melted with desertion and the lapse of enlistments. About this time Washington wrote to his brother and said, "The game is pretty near up." And well he might. The Continental Treasury was empty. Congress was divided and embattled.

Apparently the only matter of agreement which they could reach was to flee Philadelphia to escape the approaching enemy. Then, on Christmas night, Washington and his men crossed the Delaware, and in the dawn that followed surprised the Hessian hordes as they slept, exhausted from drunken revelry, in the very barracks which stand today a shadow length from this Capitol in which we meet.

This victory revived the waning hopes of the Colonists. Courage was renewed. Faith in their cause was restored. No, the war did not end then; there were other brilliant victories and bitter defeats. But through all of these alternating fortunes and misfortunes it was the physical and moral courage, the fiery energy, the tireless patience, the dogged and unyielding endurance of George Washington, which drove our forces on to final victory at Yorktown.

And then in the critical years that followed it was his steadying influence which kept the newly launched Ship of State from foundering. With personal modesty and a complete absence of self-seeking, he served as his country's leader, not its ruler, for in refusing the crown which had

been offered to him he revealed at once how intense was his feeling for liberty and how humble he considered his position among Americans.

Washington ranks great among the great men of all nations and all eras since the beginning of recorded time. The subtle quality which men call greatness is the hardest of all human attributes to measure or define. So the question of why Washington was great is difficult to answer. If any single word can give the answer it is the word *character*. Yet there were many recognizable facets of his nature which endeared him to his countrymen. He offered to sacrifice everything he had, including life itself, for his love of country. He always considered himself the servant, not the master, of the people; he did not glory in power. He never temporized with honesty of purpose nor did he let ambition sway his judgment in determining what was right and just. He was an aristocrat by birth, but a democrat by choice.

Have we learned from Washington? Are we worthy of his high hopes and lofty expectations? Does his spirit dwell in our hearts and guide our lives today? One cannot help but pause and wonder when these questions are honestly considered.

The lessons which we learn from war and sacrifice, and the lives of great men, are lost indeed unless they drive us ever forward in the direction of higher ideals. As Americans we cannot ignore the wisdom and the unselfish patriotism of Washington's life. Events have proved that forms of government, however well contrived, cannot assure their own permanence. If we would keep the spirit of Washington alive today we can do it only in our integrity, in our sense of justice, and in our devotion to human values. If, as representatives, we have, as Benjamin Franklin said, "No more durable pre-eminence than the different grains in an hour glass," we can perform our appointed task by wholehearted devotion to the principles which have made our nation great and free. For if we make our State strong, our country will gain by that strength to lead the way to permanent world peace and the fulfillment of the hope uttered by Washington when he said:

> "My first wish is to see the whole world in peace and the inhabitants of it as one band of brothers striving who should contribute most to the happiness of mankind."

REPORT OF THE JOINT LEGISLATIVE COMMITTEE ON MANDATORY LAWS

To the Senate and General Assembly of the State of New Jersey:

The Joint Legislative Committee, created by Senate Concurrent Resolution No. 2 of 1945, was directed to make a study of mandatory spending laws as they apply to counties and municipalities in order to determine which of these laws should be amended or repealed in order to promote efficiency and economy.

The committee appointed Senator Summerill as chairman, Assemblyman Livermore as vice-chairman, and John B. McGeehan, Esq., as counsel.

Early in its work, it was decided that it would be impossible, in the short time given, to consider mandatory legislation in its broad sense, namely, all legislation which directly or indirectly imposes an obligation on local governments to spend money. The immensity of such a task and the time necessary for its proper accomplishment is to be gleaned from the fact that in the pamphlet issued by the State Planning Board the mere citation of such laws as of 1941 fills 503 pages; and from the further fact that such pamphlet is of little value unless all mandatory laws enacted to date are compiled and the necessary changes and additions made in the compilation of 1941.

It was resolved to limit the study to the one type of mandatory legislation which receives the strongest and most frequent condemnation—the fixing by statute and the fixing by others than the governing bodies of the counties and municipalities by authority of statute of the compensation of persons who are to be paid by the counties or municipalities.

As a result of studies and conferences with interested groups, the conclusion was reached that most of the laws in this category violate the principle of home rule. Rather

than specific amendment and repeal of the numerous laws which appear to be objectionable, the committee resolved to follow the pattern laid down in the Home Rule Act of 1917 (which was passed in Governor Edge's first administration) which in Article XIII gave the governing bodies of municipalities the power within certain limitations to fix the compensation of all municipal officers and employees.

The committee has directed its chairman to present two bills to the Legislature for introduction: one covering counties and the other covering municipalities; each granting broad powers to the governing body in the fixing of the compensation to be paid to persons whose compensation must be paid by it; each containing only such limitations as are deemed essential.

It is recommended that no action be taken by the Legislature on these bills until a public hearing has been held at which all persons who are interested can be heard.

Respectfully submitted,

JOHN M. SUMMERILL, JR.,
Senator, Salem County;

HERBERT J. PASCOE,
Senator, Union County;

SAMUEL L. BODINE,
Senator, Hunterdon County;

JOHN E. TOOLAN,
Senator, Middlesex County;

FRANK D. LIVERMORE,
Assemblyman, Bergen County;

FRANK W. SHERSHIN,
Assemblyman, Passaic County;

WHEREAS, farm to city roads in New Jersey are of vast importance to all the citizens of the State in that they provide means of transportation of food and fibre from the farms to the consumers in the cities as well as access by citizens residing in rural areas to their work in war production plants and by city dwellers to recreation centers, camps and country homes; and

WHEREAS, the dirt roads upon which many of our citizens live and upon which many of such recreational centers, camps and country homes are situated and which form the termini of such farm to city roads are in a deplorable and practically impassable condition for a considerable part of every year due to snow and mud caused by frost, rains and melting snow; and

WHEREAS, owing to the unusual fall of snow during the past winter, such dirt roads have become so impassable that many farmers have become completely isolated without sufficient food for man or beast, and war plant workers have been prevented from reaching their work, for days at a time, notwithstanding the combined efforts of the State, county and municipal authorities to render such roads passable by the use not only of State, county and municipal owned equipment but, also, of such private contractors' equipment as could be hired for the purposes; and

WHEREAS, the condition of the dirt roads in Sussex county is typical of the condition of the dirt roads in other counties; therefore

Be It Resolved, that the State Highway Commissioner hereby is requested to make an investigation of the condition of the dirt roads in Sussex county and to formulate and recommend a plan for the relief of the condition hereinbefore described; and

Be It Further Resolved, that the State Highway Commissioner make an interim report to the House of Assembly at this session of the Legislature and a final report to the House of Assembly at its 1946 session.

DEAR SPEAKER HESS:

We received on March 23rd a copy of the resolution, introduced by Mr. Dixon of Sussex County, and passed by the General Assembly on March 19, 1945. This resolution requested the Highway Commissioner "to make an investigation of the conditions of the dirt roads in Sussex County and to formulate and recommend a plan for the relief of the condition hereinbefore described." Immediately upon receipt of this resolution I directed Mr. Edward E. Reed, Supervisor of State Aid Projects, to make a personal investigation of the condition of the dirt roads in Sussex County so that I might submit a report to the Legislature not later than Friday, April 6th. ADDRESS ON

ASSEMBLY BILLS RELATING TO FAIR EMPLOYMENT PRACTICES

by

Assemblyman James O. Hill, of Essex County,

Before the General Assembly of New Jersey,

On April 6, 1945

Mr. Speaker, Ladies and Gentlemen of the Assembly:

In 1863 there was a great apprehension among the people at that time as to just what would happen following the liberation or freedom of the Negro. Some predicted that the Negro would starve to death; others made other predictions. Some were afraid that the relationship would be disturbed between the Negro and the white people. The slaveholders claimed it was unjust to take from them their personal property, as they considered the Negro. There was much complaint on their part.

Today, in 1945, the same predictions are being made concerning the passage of the Fair Employment Practice Bill. Some are saying that there will be a disturbance in the white and colored relationship of today. They boast of the very beautiful relationship that exists now—the Negro part of the time being on relief and sometimes with a part-time job.

I hold that these predictions will not materialize. What is this bill all about? This bill only guarantees an equal opportunity for a job for every person, regardless of race, creed, color, and national origin or ancestry. Because a person has been guaranteed a job should not disturb the relationship between the whites and the blacks. It should make that relationship better. It should give more security for all.

We are not claiming that these bills are perfect. No bill can be considered perfect. The fact that from time to time the laws of our State are amended, shows clearly that the bill to begin with was not perfect and needed the necessary

amendment. But we do say that this is a step in the right direction.

This is truly a historic occasion. This is really democracy in action. I am glad that I am living in a democratic country. A country where the people have the right to make their own mistakes and where the people have the courage to correct their mistakes after they have been pointed out to them. We, the people, have discovered our weaknesses. We have found out that discrimination and segregation have no part in a real democracy. We have this day set out to correct our past mistakes. We are to be congratulated for this belated stand that we have made.

I want to thank and congratulate New York State for leading the way. I want to thank and to congratulate our great Governor for his courage and willingness to follow the leadership of that great State of New York. I want to thank and congratulate the people and leaders of all parties for the part they have played and are still playing in helping to correct the two great weaknesses of our State, namely, discrimination and segregation.

There can be no peace, no security, and no prosperity as long as we have discrimination and segregation as the hidden policy of our State. Our policy must be One God, One People, One Citizenship, and One Flag. There must be the same opportunity for all the people of our State. In 1914 we went to war to make the world safe for democracy. I am hoping that the war we are engaged in now will make democracy safe for the world.

Let the motto and the policy of our State be Freedom of the Press, Freedom of Religion, Freedom from Want, Freedom from Fear, Freedom from Discrimination, Freedom from Segregation, Freedom of Opportunity, Freedom from Prejudice and Freedom from Hatred.

Now we come to the main part and analysis of our Bill 321.

The purpose of this bill is to prevent and to eliminate practices of discrimination in employment and otherwise against persons because of race, creed, color, national origin or ancestry. To create a division in the Department of Education to effect such prevention and elimination, and make an appropriation therefor.

This act shall be known as a law against discrimination.

The opportunity to obtain employment without discrimination because of race, creed, color, national origin or ancestry is recognized and declared to be a civil right.

There is created in the State Department of Education a division to be known as the Division Against Discrimination, with power to prevent and eliminate discrimination in employment against persons because of race, creed, color, national origin or ancestry by employers, labor organizations, employment agencies or other persons, and to take other actions against discrimination because of race, creed, color, national origin or ancestry as herein provided, and the division created thereunder is given general jurisdiction and authority for such purposes.

The division shall consist of the Commissioner of Education and a seven-member council appointed by the Governor with the advice and consent of the Senate for terms of five years. Members of the council shall serve without compensation. The first chairman shall be designated by the Governor and, thereafter, the chairman shall be elected by the members annually.

The commissioner shall have complete control over the division, acting through an assistant commissioner. The assistant commissioner shall be appointed by the Governor with the advice and consent of the Senate. He shall receive a salary of seven thousand dollars annually. The council acts in an advisory capacity to the commissioner, approving or disapproving all appointments made by the commissioner. The council shall also have power to survey and study the operations of the division, create local and Statewide advisory agencies and conciliation councils, empowering them to study the problems of discrimination and make recommendations for the prevention and elimination of discrimination—religious, social, fraternal, charitable and educational; and employers with fewer than six persons in their employment are not affected by this act.

Procedure. Any person claiming to be aggrieved by an alleged unlawful employment practice may by himself or his attorney-at-law make, sign and file with the commissioner a verified complaint in writing, giving all details of the act. The Commissioner of Labor or the Attorney-General may in like manner make, sign, or file such complaint.

After the filing of any complaint, the commissioner shall cause an investigation to be made. Finding cause for the complaint, he shall immediately endeavor to eliminate the unlawful practice complained of by conference, conciliation and persuasion. Neither the commissioner nor any officer or employee of the division shall disclose what has transpired in the course of such endeavors.

In case the commissioner fails by conference, conciliation and persuasion, he then issues a written notice, together with a copy of the complaint, to the respondent to answer the charges of such complaint at a hearing before the commissioner. The attorney for the division represents the facts in the case to the commissioner.

The commissioner or the complainant shall have power to amend any complaint and the respondent shall have power to amend his answer. The testimony taken shall be under oath and be transcribed. The commissioner shall not be bound by the strict rules of evidence prevailing in the courts of law and equity.

After hearing the case, if the commissioner finds the respondent has engaged in any unlawful employment practice, he shall state his findings of fact and issue an order requiring the respondent to cease and desist from any unlawful practice, and to take such affirmative action as described by the commissioner. If the respondent has not engaged in unlawful practice, the commissioner shall serve or cause to be served on the complainant an order dismissing the case.

Observance of the order of the commissioner may be enforced by mandamus or injunction in appropriate cases, or by suit in equity to compel the specific performance of the order. Any order made by the commissioner may be reviewed upon certiorari by the Supreme Court. Applications must be made within thirty days from the order of the commissioner.

The Supreme Court is given jurisdiction to review any order of the commissioner, and to set aside such order in whole or in part when it clearly appears that there was no evidence before the commissioner to support the same reasonably or that the same was within the jurisdiction of the commissioner.

The Attorney-General shall be the attorney for the division.

Any person found guilty of violating the order of the commissioner or any of his representatives, shall be guilty of a misdemeanor and be punishable by imprisonment for not more than one year or by a fine of not more than five hundred dollars ($500.00) or by both.

There is appropriated to the Commissioner of Education the sum of forty-four thousand three hundred fifty dollars ($44,350.00) for the fiscal year ending June 30, 1946, to carry out the provision of this act. This act shall take effect immediately.

OFFICE OF PRICE ADMINISTRATION
WASHINGTON, D. C.

April 6, 1945.

Mr. Philip C. Wadsworth,
Clerk of the House of Assembly,
Trenton, New Jersey:

DEAR MR. WADSWORTH—This will acknowledge the receipt of your letter of March 23, enclosing a resolution adopted by the House of General Assembly on March 23, 1945.

The schedules of maximum ceiling prices established for poultry items are meeting all of the legal requirements of law, figured on a national basis. Prices are considerably above minimum parity requirements.

On March 25, 1945, Mr. William H. Davis, Director of the Office of Economic Stabilization, announced an increase of 1.1 cents per pound in the base price of live poultry for the State of New Jersey, effective July 1, 1945. This increase was recommended by the War Food Administration to stimulate production of poultry meat supplies this year and to meet the increased needs of the armed forces. It is expected that the increase in ceiling prices will induce farmers to raise more chicks this year.

Very truly yours,

(Signed) C. W. HALDEMAN,
Poultry and Egg Section, Food Price Division.

Ordered, that the Speaker sign the said bill, and that the Clerk carry it to the Senate and inform the Senate that the House of Assembly has passed the same.

The Speaker announced that pursuant to Senate Joint Resolution No. 24 the appointment of the following committee: Messrs. Dixon, Herbert and Tierney.

The Speaker announced that the House of Assembly has completed its calendar and is ready to adjourn *sine die*, and appointed the following committee to wait upon His Ex-

cellency, the Governor, and so inform him—Miss Doremus, Messrs. Muir, Young, Minard, Vogel and Thompson.

Mr. W. H. Jones spoke in behalf of the members of the House of Assembly and thanked its Speaker, the Honorable Freas Hess, for the fair, dignified and thoroughly impartial manner in which he has presided over its deliberations during the session of 1945. Mr. W. H. Jones then presented Mr. Hess with a gift of a gavel from the House of Assembly.

Mr. Artaserse in behalf of the Democratic minority also added his commendations to Mr. Hess for the kindly considerations and thoughtfulness in which he conducted the affairs of the House of Assembly.

Mr. Hess briefly replied and expressed his thanks for the kind words said in his behalf, and gratefulness for the gift which he will always cherish in memory of the happy days in the House of Assembly.

Mr. Muir returned to the House of Assembly, and reported for the committee appointed to wait upon His Excellency, the Governor. He stated that His Excellency, the Governor, expressed his appreciation of the expediency in which the House of Assembly had completed its work and thanked them for the services rendered in behalf of the people of the State of New Jersey, especially for their work on the intangible tax, labor and water problems.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
April 10, 1945.

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate is now ready to adjourn *sine die* and awaits the presence of the House of Assembly in the Senate Chambers.

In which the concurrence of the House of Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

The Senate message was then taken up, and

Mr. Hess, the Speaker, asked Mr. W. H. Jones to accompany him to the Senate Chambers to inform them that the House of Assembly was ready to adjourn *sine die.*

In the interim the House of Assembly held a humorous Rump Session.

At this time, Speaker Hess requested Assemblyman Reiffin of Passaic to assume the Speaker's chair. Upon assuming the chair, Speaker Reiffin then declared that the House was meeting as a committee of the whole and further announced that in view of the fact that the Legislature was due to adjourn *sine die,* that it would be appropriate, before closing, to take proper proceedings to discuss Assembly 69 or "What happened on the banks of the Raritan?"

The Speaker then declared the following as officers pro tem:

Majority Leader

Assemblyman Frederick Stoddard of Essex

Minority Leader

Assemblyman George F. Neutze of Camden

Clerk to House

Assemblyman David Young, 3rd, of Morris

Messenger from Governor

Assemblyman Clifford Thomas of Union

Song Leader

Assemblywoman Irene Griffin of Union

Piano Accompanist

Assemblywoman Mattie S. Doremus of Passaic

The Clerk then announced that there was a message from the Governor, and upon Speaker Reiffin's consent the messenger delivered the Governor's message which contained the appointment of Hon. Peter Artaserse as Lay Judge of the Court of Errors and Appeals. The nomination was then considered and after full and free discussion, was rejected. In order to properly express their regret at the rejection of this nomination, the following was then sung by the entire delegation.

To the Tune of "Daisy, Daisy"

(By F. Stoddard)

Sales tax, sales tax
Leonard got thirty-two votes,
Sales tax, sales tax
Essex put in sour notes.
Roy Wright is now quite harried
Essex bills will not be carried
Unless some heat
On Farley's seat
Turns him "cleanie" real quick and neat.

Thereupon the Clerk announced another resolution on his desk extending the privileges of the floor to the Hon. Herbert Pascoe, Senator of Union, which, after due deliberation, was approved and in celebration of the approval of this resolution, the delegation sang the following:

To the Tune of "Row, Row, Row Your Boat"

(By Mrs. Griffin)

Milk, milk, milk a cow gently for the cream
Merrily, merrily, merrily, merrily, Dave is on the beam.
Milk, milk, milk a cow
Money's scarce and lean
Merrily, merrily, merrily, merrily,
Black bags are what they seem.

Amid considerable fanfare, the Clerk announced another message by the Governor which was the appointment by the Governor of the Hon. P. James Tumulty as Commissioner of the State Board of Education. At this particular moment, there appears from the balcony a trapeze upon which there were two figures, one labeled Minard and the other Tumulty, and the delegation sang the following:

To the Tune of "The Man on the Flying Trapeze"

(By Reiffin, Griffin, and Stoddard)

They fly through the air with the greatest of ease
Minard and Tumulty who both are obese
Hand in hand they wander through fields new and green
As together they stroll down the lane.

The lane has no turning there is no way back
Perhaps these two guys are on the right track
We hope they keep going and we don't mean with words
So the State House will once more be sane.
Duane will soon leave us, next year he'll be gone
Tumulty will stay here, of Frank Hague a pawn
His absence would please us, from break of the dawn
And the silence would make us feel swell.

A considerable discussion was then had as to the qualifications of the said Tumulty. The nomination was unanimously rejected and in the rejoicing that followed, the delegation sang the following:

To the Tune of "On the Banks of the Old Raritan"

(By Stoddard and Reiffin)

Russell Watson sent us to Trenton
And resolved that we would to a man
Put our votes on the line
For dear old sixty-nine
On the banks of the old Raritan.

Chorus

On the banks of the old Raritan, my boys
Walter Jones and Russell Watson stand
They are college chums
We who vote are bums
On the banks of the old Raritan.
T. James loves to swim in the river
Though the mud makes him choke and sputter
Section four ever more
Will keep him good and sore
At the banks of the old Raritan.

Several other resolutions were then read by the Clerk, discussed by the delegation, and to celebrate the action taken thereon, the delegation sang the following:

To the Tune of "Oh Where, Oh Where, Has My Little Dog Gone"

Oh where, oh where, has our Walter gone
Oh where, oh where, can he be
In the Governor's office so they say
What's on his mind this very fine day.
He's back, he's back, now look out all
It's whack, and whack, the whip doth fall
And the college stands as we all stall
Who said, "it's fair;" it ain't at all.

To the Tune of "Sweet Adeline"

(By Mrs. Griffin)

Sweet '69
Wilt thou be mine,
The other two
Were russled thru
Amend or not, you're all I've got
You're the gavel of my heart
Sweet '69.

To the Tune of "Sweet Adeline"

Peter Artaserse
I can't write verse
But I would say
I'd like your pay
Is Frankie dear
The one you're near
You're the envy of my life
Peter Artaserse.

Speaker Reiffin then expressed his appreciation to the entire group for their co-operation and for the good fellowship engendered and announced that Mrs. Viola Adams, Committee Clerk from Passaic, had written a poem which he believed to be appropriate to the occasion and requested Mrs. Adams to recite the poem. This she did and it was received with considerable applause. The poem was as follows:

Today you close, you say *sine die,*
In fact, you really say "Goodbye."
The amiable Speaker, Mr. Hess
Has had his headaches, he'll confess.
But without Artaserse, Tumulty and Hill
'Twas no fun with the F. E. P. bill.
Majority Leader Walter Jones
Would get so hot he'd rattle his bones;
But all in all at the Hildebrecht
"Isms" were forgotten and parties forget—
Forget legislation, sunshine or rain
They were just plain citizens and smile again.
When discussions arose and Leader Jones left the floor
The Gentleman from Atlantic, Leonard, kept score,
And sat by the mike all during the fray
Wondering how long is Jones going to stay.
In all the beauty of artistic Venus
The delegation of ladies were lead by Doremus,
Their minds on laws and not on styles,
Were always alert and covered with smiles.
Each did a job and did it well;
Each group can return with their work to sell,
Each seeking to secure their party's vote,
And come sailing back on the political boat.
When the sign on the deck reads "House under call,"
May God grant you health, yes, one and all,
To return and answer I am here
To legislate laws another year.
So today you are saying *sine die*
But say Au Revoir and not "Goodbye."

MRS. VIOLA ADAMS,
Passaic County.

The Essex County Republican Delegation has continuously and for many years devoted its efforts toward securing for the people of New Jersey a Revised Constitution, to insure efficient and economical government for our State.

Having been in the forefront of citizen interest in Revision, the Essex Delegation is therefore charged with an especial trust in making sure that any Revision to be offered the people is genuine Revision, and not mere palliation.

Constitutional Revision to be worthy of the name and submission to the people must be substantial. To ask the citizenry of New Jersey to ratify mere superficial changes, so-called "non-controversial" or "innocuous" amendments, would be a breach of faith with the people. Substantial Revision of our Constitution must include a reaffirmance and implementation of the historic separation of the three principal departments of Government, Legislative, Executive and Judicial, allocating to each its proper function within its own sphere. It must include, in the Executive Department, integration, consolidation and the vesting of administrative authority in the Governor. In the Judicial branch, it must provide for simplification of our existing Court Structure and the elimination of competing tribunals with the same or similar jurisdiction.

Amendments to our present Constitution which attend themselves, merely to placating the demands of particular groups, only, of our people; those intended to appease special interests, whether they be selfish or otherwise, fall far short of the responsibilities of the Legislature. If this be the character of the grist to be offered to the people at a Constitutional referendum, then truly, it is like the grain of wheat in two bushels of chaff.

This, in our opinion, is the situation presented by the Amendments approved for submission to the Special Session of the Legislature and by it to the people. Piecemeal amendment, in any event, is of doubtful efficiency in obtaining adequate Revision of our present Constitution, but in any event, to adopt the Amendments proposed would to our mind effectively foreclose the opportunity of the people to obtain substantial Revision at a later time.

Respectfully submitted,

DUANE E. MINARD, JR.

Statement of Arthur T. Vanderbilt, Esq., member, by appointment of the Governor, of the Commission created by Senate Joint Resolution No. 20, to Study Article VI (the Judiciary Article) of the present Constitution of the State of New Jersey and to make a report to the Joint Legislative Committee to Study Constitutional Amendments, created by Senate Concurrent Resolution No. 25.

It is an unpleasant duty to be obliged to file a dissenting report, but the defects in the proposed judiciary article submitted by the Commission are so fundamental with respect to (1) the organization of the courts; (2) their jurisdiction; (3) the tenure of some of the judges; (4) the administrative provisions; and (5) the qualifications for appointment to the bench that I have no choice in the matter. In an effort to make this memorandum brief, I shall refrain from comment on any minor matters or questions of phraseology.

(1) The proposed judiciary article provides for two trial courts in every courthouse in every county. The first, a Superior Court with civil, criminal, equity and probate jurisdiction; the second, a county court with identical civil, criminal and probate powers. There is no more justification for two courts sitting in the same courthouse with competing jurisdiction than there would be for a monkey having two tails. It opens the door to the vicious practice of "choosing your judge." It is an expensive duplication of judicial manpower with no advantage to the public or litigants.

Instead of this dual system of courts in each county, there should be one State-wide trial court, with one or more judges assigned to each county, exercising civil, criminal, equity and probate jurisdiction under assignments from the Chief Justice. In the larger counties these judges would normally be assigned to separate calendars so that their specialized training in civil, criminal, equity or probate matters might best be utilized, though each judge, of course, would have the full authority of his court and thus be able to do complete justice in any case which might come before him without interference from any other trial judge. The judges assigned to the smaller counties would exercise all of the jurisdiction of the court precisely as the district judges in the United States courts do throughout the nation.

The proposed judiciary amendment sets up two appellate courts, one, the high court of appeals with jurisdiction partly of right and partly discretionary, the other an intermediate appellate tribunal called the Appellate Division of the Superior Court, which will be for many cases the final court of appeals. Thus, a considerable number of cases will

be subject to two appeals where but one appeal exists now, i. e. equity cases.

There is no need in a State the size of New Jersey of two appellate courts where, as in the proposed amendments, provision is made, following the New York constitution, for calling up from the Superior Court an additional bank of judges whenever the Court of Appeals may happen to fall behind with its work.

In short, instead of two appellate courts and two trial courts the proposed amendments should provide for one trial court with State-wide jurisdiction sitting in every county administering civil, criminal, equity and probate justice and one Court of Appeals with power to call up another bank of judges if need be. Economy, flexibility, the interests of litigants, and the welfare of the State would best be served by a simple organization of our courts of general jurisdiction.

(2) The proposed judiciary amendments fail in the great fundamental of any judiciary article, namely, the conferring of jurisdiction. For example, Section II, Paragraph 2, final sub-section (3) provides that "Appeal to the Court of Appeals may be taken also * * * in any other case when so provided by law." This gives the Legislature, or even conceivably the Court in the exercise of its rule-making power, the authority to alter the jurisdiction of the court of last resort. The proposition has but to be stated to show its danger. Again by Section VI, Paragraph 3, jurisdiction of certain of the prerogative writs by which the courts control the action of administrative and governmental bodies and subordinate courts and on which so much of our individual security may depend, is vested in the Appellate Division or the Superior Court "as provided by, and in accordance with, rules of the court of appeals." It is as unthinkable that the conferring of jurisdiction of this magnitude should be left to the discretion of any court as it is to leave to the Legislature the conferring of jurisdiction on the court of last resort. Included in this nebulous arrangement is the very important jurisdiction as to certiorari of indictments—a jurisdiction imperatively required to protect citizens against the action of corrupt grand juries. Further, no provision is made for certain prerogative writs such as procedendo, prohibition, habeas corpus cum causa.

(23) The judges of the Superior Court and the judges of the Court of Appeals are given terms during good behavior (the equivalent of tenure for life) following one term of seven years for the obvious reason that it is unfair to ask an able lawyer to give up his practice without reasonable security in his judgeship. The county judges in the first and second class counties who are barred from the practice of law are in exactly the same position as are these other judges, and yet by Section VII, Paragraph 2 their term of office is limited to five years. Such a distinction is indefensible. The tenure of the county judges is rendered even more precarious by Section VII, Paragraph 8 which provides:

> "Judges of inferior courts may be removed from office without impeachment and in such manner as may be provided by law."

It may be contended that the county court is not intended to be inferior for this purpose, but the use of the word "inferior" in contrast with a Superior Court creates a doubt that is too serious to be overlooked.

(4) The single provision on the subject of administration in the proposed amendments is Section VI, Paragraph 2:

> "The Chief Justice shall be the administrative head of all the courts in this State, and shall supervise their work."

The proposed amendment fails to give him the essential power of assigning the trial judges, or otherwise to implement his administrative powers as was done in the proposed Constitution of 1944. It fails to provide for the publication of the statistical record of all of the courts, the judges thereof and the costs of operating the same. The proposed amendment standing by itself is as impotent as the customary provision in most State Constitutions that the Governor shall enforce the laws. Only by giving the Chief Justice adequate powers of administration can the State and litigants be assured of the best possible use of judicial manpower.

(5) Section VII, Paragraph 5, of the proposed amendments provides that the judges shall be attorneys at law of at least ten years' standing. To argue cases in our appellate courts a lawyer has always been required to be a

counsellor at-law. It seems to border on the absurd to require higher standards of the lawyer who argues the case than of the judge who decides it. The proposed qualifications for the judge of our highest court are less than the present qualifications for vice chancellors or the juvenile court judge. It is difficult to assign a satisfactory reason for this retrograde step.

These are some of the fundamental reasons why I am impelled to dissent from the report of the Commission.

Respectfully submitted,

ARTHUR T. VANDERBILT.

Mr. Minard moved that the above reports be received, filed and spread in full upon the Minutes.

Which motion was adopted.

The following report was sent to the desk and read by the Clerk:

STATE CAPITOL BUILDING COMMISSION
TRENTON, NEW JERSEY

April 10, 1945.

INTERIM REPORT NO. 1 OF RECOMMENDATIONS TO HIS EXCELLENCY, WALTER E. EDGE, AND TO THE LEGISLATURE OF THE STATE OF NEW JERSEY.

Pursuant to the provisions of Joint Resolution No. 2, Laws of 1945, the State Capitol Building Commission has organized with Reeve Schley as chairman, under designation of the Governor, pursuant to the provisions of said resolution, and has appointed as secretary, Christopher F. Messerschmitt.

Need for Additional Space for Activities of State Offices and Departments

The Commission has made a careful investigation of the existing conditions and the needs of the different State departments which are now using rented space in the City of Trenton, or are overcrowded in the present space which they now occupy in State-owned buildings. At the present time the State is renting approximately 253,133 square feet

to house various State departments and bureaus. Inquiry was made of all departments as to the amount of additional space which would be reasonably required within a period approximating ten years. In answer to this inquiry approximately 230,000 square feet additional were requested.

A careful resurvey was made of such requests. Your Commission believes that in certain instances these requests for additional space are in excess of that actually required, and accordingly, has concluded that an additional 212,000 square feet of office space is more nearly the figure to be used, which, including the space now rented, would amount to approximately 465,000 square feet to be provided for State purposes. These figures relate to the actual square footage of space now used or to be used by the departments and do not take into consideration corridors, closet rooms, elevators and stairs.

New State Office Building

We estimate in order to meet these requirements. even after economies in the layout of certain departments are made, that it will be necessary to erect a new building providing a total of 450,000 square feet of floor space above the basement area to house the departments properly. To erect a building of this size, with a dignified but not ornate exterior, at the present prices of labor and material, would cost approximately five million dollars. In addition, a figure of approximately $600,000 must be added for various necessary changes to the power plant, architects' fees, landscaping, terracing, etc. A further figure must be added to cover the cost of procuring the site on which the building is to be erected.

In the latter part of 1944 Governor Edge initiated an architectural competition for a plan of development, location and architectural treatment of existing and future State capitol buildings. This competition produced eleven studies and a jury selected three prize winners from among the contestants.

Your Commission has carefully studied not only the three prize winning schemes but all the schemes submitted in that competition. These designs were of great interest and of high architectural merit. The great majority of the plans contemplated the condemnation, however, of a large area

north of West State Street. If this area were chosen, an indication of the probable cost is the fact that the assessed value of these properties is approximately $700,000.

In addition, if a new State Office Building were erected on this site new streets would have to be opened, various underpasses and overpasses would have to be provided, and large expenses would be involved in making connections with the present power plant. Furthermore, this area has a rock foundation, making excavation particularly expensive.

Location of Office Building

For the foregoing reasons your Commission has reached the conclusion that the new office building should be erected on the south side of West State Street, west of the present Annex Building, provided the necessary property can be acquired at a reasonable cost by purchase, exchange, or condemnation. Sufficient property should also be acquired for a street to run between West State Street and Lafayette Boulevard in order to provide definite street limitations for the State-owned property, and a west as well as a north entrance to the proposed building.

Saving to State and City

As an indication of the probable cost to the State for this plottage, the assessed value of the area sufficient in size for the erection of a State Office Building not to exceed 15 stories in height, and for the new street as provided, is somewhat less than $180,000. Accordingly, if this site is chosen, based on the assessed values, there will be a saving of approximately a half million dollars to the State and a substantial saving to the City of Trenton, by reason of the smaller value of the property to be acquired by the State. A large part of this area is now unoccupied and has become an eyesore to the entire community.

Your Commission recommends that this project be started at once and that it be known as Project No. 1.

Your Commission emphatically urges that the general development of the State-owned group of buildings should not cease with the completion of Project No. 1 but that a scheme of general development should be adopted at the present time in order that the plan for the State Capitol Building group may be a homogeneous one.

State House Antiquated

The Commission is of the opinion that the present State Capitol must soon be abandoned. The building itself is not only inadequate for its present purposes but is becoming more and more obsolete from day to day. It is a hodge-podge of various additions made from time to time without any architectural merit. The rear of the building, facing the beautiful Stacy Park, is an architectural disgrace. A large part of the building is not fireproof, the plumbing system is wholly inadequate and is beyond further repairs or modernizing. In many places the floors, being of frame construction, have rotted out. The building generally has outlived its usefulness and is rapidly approaching the time when it will be unsafe for occupancy.

New Building East of Capitol

As Project No. 2 in this general development, we suggest that a building of substantially the same size and same design as the State House Annex be erected between the present State Capitol and the existing School of Industrial Arts. There is sufficient space in this area to permit the erection of such a building prior to the abandonment of the State Capitol. Such a building would provide approximately 120,000 square feet of office space, slightly larger than the amount of space now provided in the Capitol.

Project No. 3 is the demolition of the present Capitol. This project should be undertaken on the completion of Project No. 2.

On account of its historical interest and due to the fact that it is really an outstanding piece of architecture, your Commission would recommend that the present dome of the State Capitol be retained if possible. A new Capitol building might be built, in which this dome would be the principal feature, following the design in general of the Capitol prior to its destruction by fire and the addition of the various present unsightly wings.

The new Capitol would house only the Executive Department and the Legislature.

On the completion of Projects 1, 2 and 3, the State would possess a group of buildings situated so as to provide efficiency and economy of operation, all within a compact area.

The group would be one of great architectural beauty, overlooking Stacy Park. It might be so developed that the new Capitol would have its entrance facing the park and the Delaware river, making an impressive and dignified appearance in keeping with the historic traditions of New Jersey.

Annexed to this report is a drawing setting forth Projects 1, 2 and 3, as outlined above.

Recommendations

Your Commission accordingly recommends:

1. That it be given authority to acquire the real estate necessary for the erection of a new State Office Building, either by purchase, exchange or condemnation, as set forth in Project No. 1.

2. That the Commission be authorized to employ such architect or architects as it may deem necessary, to prepare plans and specifications, in order that said office building may be erected at the earliest possible moment after the prohibition against building, due to the war emergency, is removed.

3. That sufficient funds be appropriated to acquire said real estate and to provide for the preliminary expenses of the architects' services in the preparation of plans for said building, such appropriation to be in the sum of at least $500,000.
