The following Report of the Ad Hoc Committee to the Senate Democratic Conference was received and filed.

Report to the Senate Democratic Conference and to the Senate from the Ad Hoc Committee concerning Senator Ammond.

This Committee was requested by the members of the Senate Democratic conference or caucus to review various statements in the public media made by or attributed to Senator Ammond which concern members of the Senate or the integrity of the Senate and the Legislature generally. The formation of this Committee arose out of the events culminating on January 20, 1975, when Senator Ammond walked out of a meeting of the conference following a heated discussion of certain charges she had made against other members of the conference. Following that incident, the sense of the conference was that she should be asked not to return pending a report from a committee to be appointed to recommend a course of action. There was a sense that a conference could not be held with all present in the face of the sharp feelings which had been created by her charges. This Committee was then appointed by the Democratic leadership. We now submit this report to the Senate Democratic Conference and to the Senate.

MONDAY, FEBRUARY 10, 1975

65

At the one conference meeting since then, on January 27, 1975, Senator Ammond sought admission and it was refused, again pending this report.

Since being formed, this Committee has reviewed numerous magazine and newspaper statements attributed to Senator Ammond as well as certain statements allegedly made by her on radio broadcast. We recognize and appreciate the concern of the members of the Legislature who have been attacked by the sweeping statements. These statements have tended to impugn the motives and character of many people in the Legislature. It also appears that to date there has been no effort to place supporting information in the record or submit it to proper authorities in the Senate or elsewhere. If Senator Ammond or any other person has facts to substantiate any charge against any Senator or other public official, those facts should be presented promptly to prosecuting authorities. Matters of that kind should be heard in full and open fashion in established tribunals so that the people of this State may be protected if the charges are true, and reassured if they are not.

If the charges are true, the conduct in question would be deplorable in the extreme. By the same token, the making of such charges is deplorable if they are not true. The public is entitled to know and know promptly.

At the same time, if this Committee is aware that it is not such a tribunal, and indeed has no power or authority to hear testimony and decide matters of fact. The Committee was not formed by action of the entire Senate and cannot purport to act on behalf of the Senate in any official sense. It does not have power to compel testimony or require attendance of witnesses or the production of documents or other information. Indeed it is our understanding that we are to act only in an advisory capacity.

We are also cognizant of the informal nature of the conference itself. The conference has no status in law or in Senate rules. It has no rules of procedure or recognized place in the formal operations of the Senate. As the members know, the conference is used as a convenient mechanism for members of the same political party to discuss together in an informal atmosphere some of the political and governmental problems which are of common concern. It follows no rule or party loyalty. Even though party responsibility is expected in our system of government, there are no decisions made in conference meetings which are binding

upon individual members as a matter of party discipline. No member is required or expected to take a specific position on any matter which may come before the Senate itself simply because a majority of the conference members may be so inclined. To many of the members, the greatest virtue of conference meetings is their informality and the opportunity provided therein to discuss matters of common interest and concern, free from the pressures and limitations of formal floor debate.

Party conferences have traditionally been held in private, presumably to encourage free and open discussion of ideas in a relationship of tentative and trusting exchange, although in fact there is little of a private nature. Indeed, the Democratic conference has recently invited press representatives to attend the substance of the conference.

In keeping with the concept of an informal atmosphere and an opportunity for a trusting exchange of tentative views, it is understandable that some feel there should be at least a minimum of personal acceptance and respect among the participants. Anyone who does not share that sense of minimum acceptance and respect may be concerned about taking part.

The exclusion of any Senator from such conferences in no way infringes upon the right of a Senator to serve in the Legislature. Such a Senator retains the right to participate in all official proceedings; the right to vote; to serve on committees if appointed; to avail herself or himself of Senate staff and Senate resources and to carry out the general responsibility of her or his office. We are satisfied that the law in this state and nation supports a contention that the members of an informal conference have wide latitude in determining who shall be invited to confer.

On the other hand, we are concerned about the desirability of excluding any Senator from the party proceedings without first articulating the standards of personal conduct expected and according that Senator ample opportunity to respond to any demands that she or he be barred from such proceedings. We believe that every Senator should be accorded such an opportunity regardless of the requirements of the law.

With regard to Senator Ammond, while we understand the provocation that led to the decision to exclude her temporarily from the conference, it is our opinion that she

MONDAY, FEBRUARY 10, 1975

67

should no longer be excluded from party proceedings in the absence of stated standards and agreed procedures for taking such action. Because of the largely unprecedented nature of this matter, no such written standards of procedures now exist.

For this reason, this Committee recommends to the membership of the Senate Democratic conference that Senator Ammond be permitted to return and participate. If this amounts to going the extra mile, it is nonetheless an effort we should make.

This Democratic majority in the Senate has been responsible for substantial progress in Senate conduct. We have abjured the binding majority caucus of old, where bills were killed in secret by vote of a majority of the majority. Our President has lived by his pledge to post the bills reported out of committee despite personal disfavor. We have vitalized the committee system, staffing the committees with high level talent and requiring open committee proceedings. We announce committee and floor agendas well in advance; we have stopped the infamous landslide sessions without 30 bill limit; and we have begun a process of standing committee review of the budget and performance of executive departments. We are proud of this progress in our procedures.

With regard to the future functioning of the Senate Democratic conference, this Committee is reluctant to suggest substantial changes that would formalize this deliberately informal mechanism where change would create an unnecessarily limited structure for conference proceedings. It is the very informal nature of this conference, as we have noted, that gives it utility as an adjunct to the regular and official proceedings of the Senate itself. Nevertheless, if the conference membership so desires, we would suggest that the conference give consideration to adopting some standards of personal conduct and appropriate procedures. Such guidelines could establish parameters within which proceedings hereafter could be conducted and conference membership determined.

Respectfully submitted,

Martin L. Greenberg
Edward J. Hughes
Anne C. Martindell

SENATE BILL No. 249

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(a) of the Constitution, I herewith return Senate Bill No. 249, without my approval, for the following reasons.

This bill amends Title 39 of the Revised Statutes to permit the use of approved studded snowtires between November 1 and April 15. Existing administrative regulations promulgated by the Division of Motor Vehicles,

N.J.A.C. 13:20-15.2, permit the use of such snowtires only between November 15 and April 1. This bill therefore accomplishes two ends:

(a) it prohibits the Division of Motor Vehicles from prohibiting the use of studded snowtires; and

(b) it extends by four weeks the period of use of studded snowtires.

I have reviewed voluminous and persuasive evidence that the marginal positive effect of studded snowtires upon driving safety in climates such as New Jersey's is far outweighed by the demonstrated negative effect of such snowtires upon pavement wear. Studded snowtires are somewhat safer than ordinary snowtires on icy pavement, but they are not safer on snowy or wet pavement, and may be less safe on dry surfaces. On the other hand, the use of studded snowtires causes serious deterioration of pavement in such a way as to decrease new pavement's normal skid resistance, and normal drying ability after precipitation.

Complicating any analysis of this bill is the fact that for the 1973-1974 winter, approximately 80 percent of the studded snowtires sold in New Jersey used "controlled protrusion" studs. These newly marketed studded snowtires contain studs that are 73 percent to 77 percent of the length of the older type of stud and consequently may reduce the amount of highway deterioration attributable to studded snowtires. Most available studies of safety and pavement wear fail to account for this newly marketed type of studded snowtire.

I have ascertained that the Division of Motor Vehicles has no plan to reduce the existing period of permitted use of studded snowtires. Vetoing this bill, as I believe I must in view of the marginal demonstrated effect of snowtires upon safety and the substantial demonstrated effect upon highway wear, permits the Division of Motor Vehicles to react to new snowtire technology and to the climate of any given winter. The existing administrative regulations could, of course, be modified as needed pursuant to the Administrative Procedure Act.

Accordingly, I feel I must return Senate Bill No. 249 without my approval.

SENATE BILL No. 808

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 808 with my objections for reconsideration.

This bill concerns alcoholic beverage control and amends Title 33 so as to eliminate the requirement that an applicant for renewal of an alcoholic beverage license must advertise an application for renewal in the municipality if the applicant has already held a license for three consecutive one-year periods.

This bill is really addressed to the burden placed upon applicants for the renewals of annual licenses by the required advertising. A more efficient and effective method of giving the public notice of renewal applications is to have the Division of Alcoholic Beverage Control publish a general notice of license renewals. When combined with a requirement that the renewal applications be received no later than May 1, this bill could provide the vehicle for a more systematic licensing process.

It should be noted that my objections contemplate an application for a new license, a transfer of a license or a seasonal license to continue to be advertised by the applicant, so that the public will continue to have knowledge and notice of the principals involved with any establishment serving alcoholic beverages.

Accordingly, I herewith return Senate Bill No. 808 with the following recommendations:

Page 2, Section 1, Line 32: After "License" insert "that is not a renewal of an annual license"

Page 2, Section 1, Lines 42-43: Delete "for a fourth or subsequent successive license period"

Page 2, Section 1, after Line 43 insert a new paragraph:

"The Division of Alcoholic Beverage Control shall cause a general notice of the making of annual renewal applications and the manner in which members of the public may object to the approving of such applications to be published in a form prescribed by rules and regulations, once a week from the week of April 1 through the week of June 1 in a newspaper printed in the English language published and circulated in the counties in which the premises of applicants for renewals of annual licenses are located. Any application for the renewal of an annual license shall be made by May 1, and none shall be approved before May 1."

Page 2, Section 2, Line 1: Delete "immediately" and insert "on July 1, 1975"

Respectfully,

/s/ BRENDAN T. BYRNE,

Governor.

SENATE BILL No. 1381

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(a) of the Constitution, I herewith return Senate Bill No. 1381, without my approval.

This bill authorizes the Board of Public Utility Commissioners to reallocate natural or synthetic gas supplies from a distributor that has a greater supply than necessary to meet present demand from its customers to a distributor that does not have sufficient supply to meet such demand. Although I am in sympathy with the general concept that the power to reallocate natural and synthetic gas supplies during certain circumstances should rest with a State agency, I note that the power granted by this bill is far too narrow because it only involves situations where at least one distribution company has a surplus. My review of existing law reveals that the State Energy Office has expressly

been granted the authority to reallocate natural and synthetic gas supplies even in situations where all distribution companies are suffering from curtailments but the problems of one are far more severe than the other. In addition, the Attorney General advises me that the Board of Public Utility Commissioners, through its broad grant of power over natural and synthetic gas distribution, also has such power. In view of the above, approval of this bill would not give rise to any new authority, but rather would serve to cast doubt upon existing authority which the State Government vitally needs to deal equitably with the present natural gas crisis. If, however, even this broader existing authority should prove inadequate, you can be assured of my support of new legislation which would address said inadequacy.

I am, therefore, returning Senate Bill No. 1381 without my approval.

SENATE BILL No. 168 (2ND OCR)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(a) of the Constitution, I herewith return Senate Bill No. 168 (2ND OCR), without my approval.

This bill provides that when a financing agency purchases or discounts a home repair contract, it shall advance or release to the home repair contractor no more than 66⅔% of the cash price specified in the contract until the work is actually finished and a certificate of completion is signed by the home owner and the home repair contractor. It is intended to protect a home owner against a contractor who is given 100% of the contract price before completing the work under the contract and then fails to satisfactorily complete the work. By limiting financing agencies to advancing only 66⅔% of the cash price, it is believed that at least one-third of the contract price can be preserved if a contrac-

tor fails to complete the work or completes the work in an unworkmanlike manner.

Although this bill is well intended, it is unnecessary. Under existing law, a home owner has adequate remedies when a home repair contractor has received full payment from a financing agency but has failed to satisfactorily complete the work. It is provided in L. 1969, c. 237 (C. 17:16C-64.1) that no home repair contract shall contain any provision relieving the holder, or other assignee, from liability for any civil remedy sounding in contract which the owner may have against the home repair contractor under the home repair contract or under any separate instrument executed in connection with that contract. Further, L. 1969, c. 237 (C. 17:16C-64.2) provides that any note executed in connection with a home repair contract shall be subject to the terms and conditions of the home repair contract and shall not be a negotiable instrument within the meaning of the Uniform Commercial Code, N. J. S. 12A:3-101 et seq. Accordingly, the home financing agency which has purchased or discounted a home repair contract or holds a note executed in connection with that contract is not a holder in due course and is subject to all the claims and defenses that the home owner has against the home repair contractor. Thus, even when a financing agency releases 100% of the contract price before the work is satisfactorily completed, the home owner is protected. He may sue the contractor or the financing agency to compel performance or to be relieved of his obligation under the contract and recoup any money that was paid without sufficient consideration. *See General Investment Corp. v. Angellini*, 58 N.J. 396 (1971). Indeed, for this reason, to protect their own interest financing agencies generally will not advance any portion of the cash price under the contract until work has been completed and the home owner has signed a certificate of completion. Clearly, therefore, present law and business practice thereunder affords the home owner the protection that this bill is intended to provide.

Accordingly, I herewith return Senate Bill No. 168 (2ND OCR), without my approval.

Respectfully,

/s/ BRENDAN T. BYRNE,

Governor.

SENATE BILL NO. 603 (2ND OCR)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(a) of the Constitution, I herewith return Senate Bill No. 603 (2ND OCR), without my approval.

Senate Bill No. 603 (2ND OCR) would require a local tax assessor, when preparing the tax list, to include in the description of each parcel of property, the existence of a tax title lien held by the municipality pursuant to a tax sale and to certify the amount of such liens. The amounts of property that are certified by the assessor would not be included by the county board in determining the valuation of the district for the purposes of apportioning county and county free library costs for a period not to exceed the limitation of time for foreclosure of the right of redemption pursuant to the In Rem Tax Foreclosure Act (1948), P. L. 1948, c. 96. When the taxes in default or uncollectible on the property are collected by the taxing district, a portion of the monies, as determined by the county board, would be paid by the taxing district to the county board.

The purpose of this bill is to remove from the tax list used to determine the apportionment of county costs among taxing districts the taxable value of properties for which a municipality holds a tax title lien and from which a municipality receives no tax revenue. However, the language in the bill does not clearly accomplish this goal. The tax assessor is required to certify the amount of the tax title lien against the property. The amount of a tax title lien is the amount of uncollected taxes plus interest and costs thereon. The county board is directed to exclude the "amounts of property as are certified by the assessor" from the valuation of the district for apportionment purposes. It would appear, therefore, that it is the amount that is certified by the tax assessor—the amount of the tax lien—and not the taxable value of the property that would be excluded from the apportionment process by the county board. Since the amount of the tax title lien is inevitably much less than the taxable value of the property, the bill would not implement its purpose.

MONDAY, MARCH 24, 1975

147

Even if "amounts" is interpreted to mean "taxable value," the burdens imposed by this bill outweigh its potential benefit. The additional bookkeeping costs that would be imposed on municipal and county tax authorities by this bill are substantial. There are hundreds of thousands of tax title liens held by municipalities. The requirement that the municipality pay a share of the uncollected taxes if and when they are collected will require considerable work and additional staff at the municipal and county levels. The In Rem Tax Foreclosure Act (1948), P. L. 1948, c. 96 was recently amended by P. L. 1974, c. 91 to allow a municipality holding a tax title lien to foreclose the right of redemption six months after the tax sale. This bill would have the property on which a tax title lien is held excluded from the county apportionment process only for the period of time allowed for such foreclosure. Exclusion of the taxable value of such properties for a limited period that could be as short as 6 months, would likely not compensate for the expense of the exclusion process.

I am, therefore, returning Senate Bill No. 603 (2ND OCR) without my approval.

Respectfully,

SENATE BILL No. 960

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(a) of the Constitution, I herewith return Senate Bill No. 960, without my approval.

This bill would authorize municipalities to waive, release or modify the terms imposed on any sale or conveyance of municipal land prior to January 1, 1973. The present law empowers municipalities to make such waivers, releases, or modifications for any such sales or conveyances made prior to January 1, 1969.

This bill is intended to apply to a certain proposed land transaction which cannot be consummated unless the municipality in which the land is located is authorized to waive or modify a term which was imposed on the use of land at a sale subsequent to January 1, 1969. However, it is cast in general terms so that it will have the effect of allowing all municipalities to waive, release or modify terms imposed on all sales of municipal land between January 1, 1969 and January 1, 1973. This effect is not desirable. The appropriate method for dealing with the specific situation involved is the enactment of special legislation, not general legislation which will have undesirable ramifications.

I am, therefore, returning Senate Bill No. 960, without my approval.

SENATE BILL No. 245

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 245, with my objections, for reconsideration.

Present law provides that possession or sale of syringes, needles, instruments or implements adapted for the use of cocaine and narcotic drugs is a disorderly persons offense. Senate Bill No. 245 would amend this law by substituting the term "controlled dangerous substances" for "cocaine and narcotic drugs." This nomenclature substitution would make the law governing sale or possession consistent with the present drug law, N. J. S. A. 24:21-1 *et seq.*, which refers to "controlled dangerous substances." This bill also eliminates the requirement of showing that one who possesses such an instrument possesses it with intent to inject a controlled dangerous substance.

I am in general agreement with the purpose of this bill. Narcotics addiction has become a major plague in our

MONDAY, MARCH 24, 1975

149

society and must be combated at every turn. When we made possession or sale of the tools of addiction an offense we added a significant tool to our arsenal. By substituting the phrase "controlled dangerous substances" we will widen our attack by recognizing that there are many other dangerous substances, amphetamines and methedrine for example, other than cocaine and narcotic drugs, which can be abused by injection with a hypodermic needle.

However, I question the necessity of eliminating the requirement of existing law that possession be accompanied by "intent to use such syringe, needle or instrument" for the injection of narcotic drugs. Under the criminal law of this State, nearly every criminal prosecution must show that the accused possessed some criminal knowledge, intent, or similar element of *mens rea*. By eliminating such requirement, this bill in effect imposes strict liability upon anyone found in possession of a hypodermic needle without an accompanying prescription and authorization from a physician or veterinarian. I do not consider the mere fact of possession of such an instrument, without a showing of intent to use the instrument to inject a controlled dangerous substance, sufficient to warrant imposition of criminal liability.

In view of the above, I return Senate Bill No. 245 for your reconsideration and recommend the following change:

Respectfully,

SENATE BILL No. 702

To the Senate:

I return Senate Bill No. 702 with my objections, pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, for reconsideration.

This bill permits a motor vehicle to be parked in front of a private driveway when both the motor vehicle and driveway involved are owned by the same person, if a municipality enacts an appropriate ordinance. I agree with the purpose of this bill, which is to relieve serious night-time parking problems in urban areas.

It would be difficult, if not impossible, to enforce the bill as presently written. Ownership of motor vehicles and especially of real property is often difficult to determine, and it is unclear where the burden of proof would lie in making such a determination—upon the law enforcement officer or upon the vehicle owner. The New Jersey State League of Municipalities rightfully points out that these difficulties would encourage undesirable parking habits, thereby increasing the amount of illegal parking in private driveways that now exists. A statutory mechanism to clarify the burden of proof problem is essential to accomplishment of the bill's purpose and enforcement of its provisions.

Accordingly, I recommend the following amendment.

Page 1, Section 1, after line 7: Insert:

“Any municipality enacting such an ordinance shall provide permits for specific vehicles at specific addresses to persons submitting proof of ownership of the vehicle and of the driveway in question. Such permits shall be 5½ inches by 8½ inches in size, shall bear an appropriate certification of authenticity and shall be displayed prominently over the front left seat of the vehicle, so as to be seen from the middle of the street. A municipality may, by ordinance, establish a fee for such permits.

“Any law enforcement officer may issue a summons for any vehicle parked in violation of the ordinance, or any vehicle failing to display the required permit. The burden of proof in any proceeding brought for violation of an ordinance enacted pursuant to this act shall rest with the person charged with the violation.”

SENATE BILL No. 1117

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 1117, with my objections, for reconsideration.

This bill would amend the present law to define more specifically those civil rights which are guaranteed to every individual who is mentally ill. It would guarantee that every such person is entitled to medical care and other professional services in accordance with the highest accepted standards. The bill provides that no patient may be denied any civil right solely by reason of his receiving treatment, including the right to register for and vote at elections. It further prohibits a presumption of incompetency based on prior treatment of or prior examination for mental illness. There is an enumeration of rights which could not be denied under any circumstances. These include freedom from unnecessary medication; freedom from non-consensual research, shock treatment, psycho-surgery or sterilization; freedom from physical restraint and isolation unless upon written orders of a physician; and freedom from corporal punishment. The bill further enumerates other rights which may be denied under specified circumstances. These include the right to privacy, to wear personal clothing, to have daily visitation, to use the telephone and to receive uncensored mail.

Certainly these are rights which most of us take for granted. They are clearly rights which should not be denied any citizen of this State, most especially those who may be incapable of protecting their own interests. With respect to this group the State has a special burden—a burden which I acknowledged in my Annual Message and a burden which I now urge you to assume. We must do everything possible to guarantee that those in our mental institutions do not become second class citizens, or worse, simply forgotten ones.

Enactment of this bill would be a substantial step towards assuming our burden. It would be a significant advance in

the treatment of the mentally ill, but I cannot sign the bill in its present form. The law now provides that the mentally ill "shall be entitled to humane care and treatment and, to the extent that facilities, equipment and personnel are available, to medical care and other professional services in accordance with the highest accepted standards." N. J. S. A. 30:4-24.1. This bill would delete the limiting language, "to the extent that facilities, equipment and personnel are available." I fully support the concept behind this deletion. But there can be no doubt that it imposes substantial additional costs on the State. Our Department of Institutions and Agencies has estimated that to provide every patient who is mentally ill with care and treatment "in accordance with the highest professional standards" would necessitate an expenditure of \$7.8 million in the first year alone, and \$19.3 million in the second. This estimate is based on the construction, renovation, equipment purchase and additional staffing which would be necessary to meet the standards promulgated by the Joint Committee on Accreditation of Hospitals, which are the acknowledged "highest professional standards" in the care and treatment of the mentally ill. Indeed, these standards have been the yardstick which the legislative committee from this House has used to measure the effectiveness of several of the State institutions.

I need not tell you that in our present fiscal situation, when many programs have been cut or eliminated and many plans have been postponed, there simply are no funds to meet the fiscal demands of this bill. Nor is there an appropriation in the bill. I must therefore return it and ask that additional burdens not be imposed without providing funds sufficient to implement them.

By returning this bill without my approval I am not denying the patients in our mental institutions their civil rights. Indeed, the present law grants them "all civil and religious rights provided for under the Constitution and the laws of the State of New Jersey and the United States." What I am doing is not holding out the false hope of immediately improved conditions. To do otherwise would be to perpetrate a cruel fraud on our citizens.

I will not promise what I know we cannot deliver. I do promise to move in this area immediately and with the highest priority, as soon as you give me the means to accomplish the goals set forth in this bill.

MONDAY, MARCH 24, 1975

153

Accordingly, I herewith return Senate Bill No. 1117 for reconsideration and recommend that it be amended as follows:

Page 1, Section 1, Line 4: Delete "humane care and treatment" insert "fundamental civil rights".

Page 1, Section 1, Line 7: Delete "the highest".

Page 1, Section 1, Line 7: After "standards" insert ", provided however, that this shall not be construed to require capital construction".

WHEREAS, The Federal government will inflict serious losses in employment on residents in the State of New Jersey by proposing that certain military installations be transferred to other parts of the Nation; and

WHEREAS, These installations, namely Fort Dix, Fort Monmouth, Picatinny Arsenal, and Bayonne Army Terminal are prime supporters of the economy in their respective counties, and their loss would wrack havoc upon the well being of those areas as well as the economy of New Jersey generally; and

WHEREAS, The State Department of Labor and Industry has determined that if the bases, with the exception of Bayonne, are lost to the State, over 10,000 civilian positions alone would be lost to the economy initially; and

WHEREAS, An additional 22,500 jobs in supportive industries would be lost, further decimating an already distressed economy in our State; and

WHEREAS, The same source predicts an additional point in New Jersey's unemployment rate, one of, if not the highest in the Nation, should the Department of Army's current planning come to fruition; and

WHEREAS, It is the view of many that rank discrimination is being practiced against New Jersey and the Northeast when Defense Construction moneys are allocated on the basis of \$54 million for the Northeast and \$800 million for the Southeast; and

WHEREAS, The economy will be stripped further by the loss of the uniformed military particularly at Fort Dix, running upwards of 15,000 servicemen, with the loss of their salaries, and its resultant impact upon the area, particularly the small businesses; and

WHEREAS, New Jersey sends out some 1.3 billion in Federal taxes to Washington each year, but is the recipient of only 672 million in Federal funds; and

WHEREAS, These potential Federal actions will bring not only private distress to the individuals affected, but public distress to our State by increasing our drain upon unemployment insurance, welfare, and reducing our tax revenues; and

WHEREAS, The prospects for employment of residents of New Jersey have been diminished, and the economy and morale of our citizens are to be further injured by these actions of the Federal authorities; and

WHEREAS, There are no indications that the Federal government intends to discontinue these harsh Federal employment policies against New Jersey and the Northeast, injuring the well being of our citizens, the economy of our communities, and the fiscal standing of our State; and

WHEREAS, New Jersey is a major contributor to the Federal tax income of the United States, and the funds of New Jersey citizens are being used to subsidize the other States,

Be It Resolved by the Senate and General Assembly of the State of New Jersey:

1. That the Senate and State Assembly, as the elected representatives of the people of New Jersey, herewith memorialize the President of the United States, the United

2. STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

SENATE BILL No. 1498

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 1498, with my objections, for reconsideration.

Senate Bill No. 1498 amends the present law governing the sale and distribution of goods manufactured by the blind. Present law provides that any person who uses a label or stamp issued or approved by the Commission for the Blind without having registered with the Commission or who indicates by any means that goods or articles were made by a blind person when in fact they were not so made is a disorderly person subject to a fine and imprisonment. Senate Bill No. 1498 would also make it a disorderly persons offense to falsely indicate, or tend to falsely indicate, by any means, that goods or articles were sold by or for the benefit of the blind. I fully support this addition as a means of strengthening the existing law regulating the sale and distribution of goods and articles made by the blind.

However, Senate Bill No. 1498 also increases from \$5.00 to \$25.00 the fee to register any public or private institu-

At a time when the cost of living is escalating and unemployment is increasing, I cannot condone any action which may discourage or make more difficult efforts at self-support, particularly when the affected group is already economically disadvantaged.

Accordingly, I herewith return Senate Bill No. 1498 for reconsideration and recommend that it be amended as follows:

STATE OF NEW JERSEY,

SENATE BILL No. 1351

To the Senate:

Pursuant to Article V, Section 1, Paragraph 14(a) of the Constitution, I herewith return Senate Bill No. 1351, without my approval, for the following reasons:

Senate Bill No. 1351 would amend R. S. 54:34-1 so as to exempt from the Transfer Inheritance Tax a membership certificate or stock in a cooperative housing corporation, the ownership of which entitles such member or stockholder to occupy real estate for dwelling purposes, when held by spouses as joint tenants. The effect of this bill, in most cases, is to permit stock in a cooperative to pass from a decedent to the surviving spouse without the payment of inheritance taxes, which must presently be paid on that portion of the personal property that represents the decedent's contribution.

This bill would grant a special class of personal property, stock, when held by husband and wife as joint tenants, the same status as presently exists for real estate such as condominiums, when held by husband and wife as tenants by the entirety. It ignores the existing legal distinction between cooperatives and condominiums. It also establishes an undesirable precedent for other legislation giving tax preferences to special classes of intangible personal property.

I note also that available fiscal data indicates the loss in revenue resulting from this bill to be as much as \$500,000 annually, not the \$125,000 indicated in the fiscal note attached to the bill.

Accordingly, I feel I must return Senate Bill No. 1351 without my approval.

Respectfully,

[SEAL]

/s/ BRENDAN BYRNE,
Governor.

WHEREAS, On November 10, 1975, the General Assembly of the United Nations did resolve, by a vote of 72 to 35, with 32 abstentions, to condemn Zionism as "a form of racism and racial discrimination"; and,

WHEREAS, The said resolution, false in its factual premises, constitutes a cynical and hypocritical attempt to arouse the ugly impulses of anti-semitism and enlist them in the vicious assaults currently being made upon the freedom, independence and very existence of the Israeli nation and its people; and,

WHEREAS, The true character of Zionism resides in its objective of providing for the Jewish people a refuge from centuries of persecution, discrimination and intolerance, through their ingathering into the restored nation of their historic homeland; and,

WHEREAS, The noble objectives of Zionism and just aspirations of the Jewish people were recognized and endorsed by the United Nations in 1947, when it authorized the establishment of the state of Israel; and,

WHEREAS, In its 27 years of freedom Israel has become a living example of justice, economic growth and social concern, which are the hallmarks of a free, industrious and responsible society; and,

WHEREAS, So far is the present state of Israel from evincing any of the "racism" or "intolerance" alleged by the United Nations General Assembly resolution, hereinbefore cited, to characterize Zionism, that it has distinguished itself for its equitable and compassionate treatment of minorities, and has accorded to its non-Jewish citizens full equality of political, social and economic rights and privileges; and,

WHEREAS, The said resolution, instigated by Arab nations as part of their long-standing campaign to undermine and destroy the state of Israel, has been supported or acquiesced in by various other nations through motives of cowardly expediency or cynical political opportunism; and,

WHEREAS, The outrageously hypocritical and disingenuous political manipulation of the United Nations General Assembly has struck a serious blow at the standing and reputation of the United Nations among discerning and impartial observers; and,

WHEREAS, The President of the United States and both Houses of Congress have decisively rejected, repudiated and condemned the said action of the United Nations General Assembly; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

That this House hereby deplores, condemns and denounces the United Nations General Assembly resolution of November 10, 1975, as hereinabove cited, as being false in fact, malicious in intent and vicious in tendency; and,

Be It Further Resolved, That this House expresses its confidence that, in the eyes of unprejudiced observers of all nations and creeds, the character, conduct and achievements of the state of Israel amply refute the imputations of the said resolution; and,

MONDAY, NOVEMBER 17, 1975

503

Be It Further Resolved, That this House views with alarm this striking instance of the cynical manipulation of the United Nations General Assembly for partisan ends as an unwholesome precedent with regard to the future value of the United Nations as an organ of international conciliation and order; and,

Be It Further Resolved, That duly authenticated copies of this resolution, signed by the President and attested by the Secretary, be transmitted to the President of the United States, to the Vice President of the United States and the Speaker of the United States House of Representatives, and to each of the members of Congress from this State.

SENATE BILL No. 459 (2ND OCR)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 459 (2nd OCR) with my objections, for reconsideration.

MONDAY, NOVEMBER 17, 1975

505

Senate Bill No. 459 (2nd OCR) amends the present law governing property-liability insurance companies to provide that every such insurance company must provide a complete accounting record of transactions to a policyholder when he receives payment for a loss incurred, if the policyholder so requests. The accounting must include dollar amounts for each specific item in the transaction, including attorney's fees, court costs and deductibles.

I fully support this action which shall make it possible for every citizen to know exactly what financial transactions have transpired which directly affect his interests. Each citizen is entitled to no less. However, the purpose of the bill would be furthered if accountings were required when requested where payments are made to third parties on behalf of a policyholder since the policyholder's interests are no less in this circumstance. I therefore recommend that the bill be amended to include language to require accountings under these circumstances.

In addition to the foregoing, Senate Bill No. 459 (2nd OCR) provides that any company which violates the provisions of the bill would be liable to pay the policyholder a sum of \$200 per violation. While it is appropriate that a company which fails to comply with the terms of a statute should be penalized, I feel that it is more appropriate that any fine which is levied should be paid to the State whose law has been violated.

Accordingly, I herewith return Senate Bill No. 459 (2nd OCR) with my recommendations for reconsideration and recommend that it be amended as follows:

Page 1, Section 1, line 2: delete "compensating," insert "making compensation to or on behalf of".

Page 1, Section 1, line 4: after "by," insert "or on behalf of".

Page 1, Section 1, line 11: after "by," insert "or on behalf of".

Page 1, Section 2, line 2: delete "pay to the policyholder".

Page 1, Section 2, line 4: delete "sum," insert "penalty".

Page 1, Section 2, line 5: after "violation," insert "which shall be collected pursuant to the Penalty Enforcement Act, P. L. 1948, c. 253 (c. N. J. S. 2A:58-1 *et seq.*)

SENATE BILL No. 995

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 995, with my objections, for reconsideration.

This bill would remove the reimbursement limit of \$750 per year for travel expenses of county child study supervisors. I concur with the purpose of Senate Bill No. 995. Increases in the cost of fuel, tolls and other travel expenses and significant disparities in travel expenses among the county child study supervisors in different counties make the present limitation on reimbursement both unrealistic and arbitrary.

However, Senate Bill No. 995 will impose additional costs upon the State. When fiscal constraints have required freezes or critical reductions in State school aid, the State can ill afford to assume this burden. Instead, it would be appropriate for each county to pay the travel expenses of its child study supervisor which exceed \$750.

Accordingly, I am returning Senate Bill No. 995 for reconsideration with the recommendation that it be amended as follows:

Page 1, Section 1, line 11: After "treasurer." insert "Notwithstanding any other provision of the law, the State shall reimburse each county no more than \$750.00 for the expenses of the supervisor in any 1 year. All claims for

expenses of the supervisor which exceed the sum of \$750.00 shall be paid by the county."

SENATE BILL No. 1415 (2d OCR)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 1415 (2d OCR), with my objections, for reconsideration.

This bill creates a commission charged with the responsibility of studying all three branches of State Government in order to promote economy, efficiency, and productivity in the transaction of State business. Furthermore, this commission is charged with examining governmental programs and policies to determine whether these activities are contributing to the causes of the present economic crisis and to make suggestions for changes that would produce a more positive economic climate and thereby reduce unemployment and inflationary pressures. Self examination, which is essential for any governmental body on a periodic basis, is especially appropriate during these difficult economic times. I commend you for recognizing this need.

I am, however, concerned about the \$25,000 appropriation set forth in the subject bill. We are all well aware of the extremely tight budget which is available for State Government this year. In previously appointing a Commission to Study the Capital Needs of New Jersey and an Economic Recovery Commission, I have found many outstanding public and private sector officials who recognize the economic situation of the State Government and who are therefore gladly willing to donate both their time and that of their staffs in the public interest. The same approach is appropriate for the commission created by this bill.

Accordingly, I am returning Senate Bill No. 1415 (2d OCR), for reconsideration, with the recommendation that it be amended as follows:

Page 3, Section 10, line 1: Delete "10. There is hereby appropriated for the purposes of the commission the sum of **[\$50,000.00]** \$25,000.00."

Page 3, Section 11, line 1: Delete "11," and insert "10".

Respectfully,

SENATE BILL No. 3130

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(a) of the Constitution, I herewith return Senate Bill No. 3130, without my approval.

This bill would appropriate from the general treasury \$20,000 to fund the Nursing Home Study Commission which was established by Senate Committee Resolution No. 15. The Commission is charged to conduct a thorough inquiry into the current condition of nursing homes and personal care facilities for the elderly in this State.

I fully support the need to study and assess so that we can improve the facilities which presently provide health care for the elderly in this State. There has been a regrettable tendency during the past several years to neglect the care of those who have contributed so much to this State. However, in this time of fiscal austerity, when much needed health services are being reduced, I cannot approve the expenditure of funds out of the general treasury to reimburse the Commission for expenses associated with the study.

The Commission is entitled to call to its assistance the employees of any State, county or municipal department, board, bureau, commission or agency as it may require.

MONDAY, NOVEMBER 17, 1975

509

I therefore urge each employee who may be called to volunteer his time. Likewise, I ask the Commission and its staff to volunteer their time and effort so that those who deserve so much may ultimately benefit.

Accordingly, I herewith return Senate Bill No. 3130, without my approval.

Respectfully,

SENATE BILL No. 1371

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(a) of the Constitution, I herewith return Senate Bill No. 1371, without my approval.

Senate bill 1371 would amend existing Civil Service laws by permitting employees involved in a hearing before the Civil Service Commission to be represented by an individual of their own choosing. The bill deletes the present requirement that such individuals can only be heard personally or through legal counsel.

I am concerned about the predicament of individuals who do not have the experience and background to adequately represent themselves in complex Civil Service hearings and yet cannot afford the expense and/or delay in obtaining legal counsel. But I recognize that the power to change existing practice in this area lies with the Judiciary. More specifically, Article VI, Section 2, Paragraph 3 of the New Jersey Constitution gives the Supreme Court of New Jersey the power to regulate the practice of law.

Accordingly, I herewith return Senate Bill No. 1371, without my approval.

Respectfully,

SENATE BILL No. 395

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 395, with my objections, for reconsideration.

Present law empowers the Commission for the Blind to inquire into the causes of blindness and to cooperate with the Department of Health and other interested boards and

officials to enforce proper preventive measures. Senate Bill No. 395 amends the law to also authorize consultation with the College of Medicine and Dentistry and to authorize the commission to participate in the development of preventive measures. In addition, the bill authorizes the commission to fund programs operated by the State Department of Health, organized health service groups, local health departments or similar agencies for the prevention of blindness on a project basis out of funds appropriated to the commission. Programs must be acceptable to the commission and supervised by it.

It has long been the policy of this State to assist blind persons. I wholeheartedly support this policy. However, it is well established that the State can distribute public funds only for projects of public benefit in a fair and equitable manner. The State must also be able to account for the expenditure of public funds. This responsibility becomes greater where the spending power of the State is delegated to a political subdivision. Accordingly, the expenditure of funds must be pursuant to promulgated standards. Senate Bill No. 395 does not contain such standards. Nor does it authorize the commission to promulgate regulations embodying standards which would govern which programs shall be funded, what criteria the commission will use in granting program approval or how the commission will supervise a project. It is imperative that such regulations be promulgated so that the spending power which has been delegated to the commission can be exercised in a fair and equitable manner according to established guidelines in conformity with the State's fiscal responsibilities.

Accordingly, I herewith return Senate Bill No. 395, with my recommendations, for reconsideration.

Page 1, line 15: add new section as follows:

"2. a. No project shall be funded unless the project can be economically accomplished and maintained and will contribute to the orderly investigation into the causes and prevention of blindness. In making such determinations there shall be taken into consideration (1) the existence of similar projects; (2) the need for investigation into the area proposed; (3) the financial feasibility of the project; (4) the possible advancement to be made in the prevention of blindness through the project; and (5) such other factors as may be established by regulation.

THURSDAY, JANUARY 8, 1976

597

b. Each project receiving funds pursuant to this act in any fiscal year shall file a written report with the commission within 4 months of the close of such fiscal year which shall include a financial statement covering such fiscal year, a schedule of the activities carried on with the grant funds and the amounts expended thereon, during such fiscal year.

c. The commission shall with the approval of the Commissioner of Institutions and Agencies, promulgate such regulations as shall be necessary for the administration of this act."

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

SENATE BILL No. 937

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 937, with my objections, for reconsideration.

This bill would raise the amount of deposit which may be required of all bidders in any public or private sale of property to be sold by a local government unit under the provisions of the Local Lands and Buildings Law. This bill

increases the maximum deposit from 1% to 10% of the minimum price or value of the property to be sold.

An increase in the amount required for a deposit would serve the salutary purpose of discouraging bids not offered in good faith. Many bids not offered in earnest unnecessarily increase the administrative cost of the bidding process.

On the other hand, requiring a deposit as high as 10% may effectively preclude lower income persons from bidding and thereby limit the bidding to speculators. Generally, these sales involve tax foreclosed properties in the \$8,000 to \$15,000 range. If a house is valued at \$10,000, this bill would allow the deposit requirement to be raised from \$100 to \$1,000. I do not favor enactment of an increase in the deposit requirement which would frustrate lower income persons interested in buying a home or property for immediate occupancy or use.

An increase in the minimum deposit requirement to 5% of the minimum price or value of the property to be sold allows a proper accommodation of the interests involved. A 5% deposit requirement should discourage frivolous bids but at the same time also allow a reasonable opportunity for lower income persons to bid for property sold by local units of government.

Accordingly, I herewith return Senate Bill No. 937 for reconsideration and recommend that it be amended as follows:

Page 4, Section 1, Line 147: After "exceeding" delete "10" and insert "5".

Respectfully yours,
