## OVER-THE-COUNTER PERMITS

### I. STREAM ENCROACHMENT (609) - 292 - 4869

DEP now has a one-day processing service for certain minor stream encroachment permits. This "over-the-counter" service is limited to minor projects which do not adversely change the water carrying capacity of the floodway, do not increase erosion or sedimentation in the stream, and do not require substantial channel modification or relocation. For further information contact the Bureau of Flood Plain Management, CN 029, Trenton, N.J. 08625.

### II. WATERFRONT DEVELOPMENT (609) - 292 - 0060

DEP has a one-day processing service for minor waterfront development projects. This over-the-counter service applies to waterfront construction activity in man-made lagoons and minor maintenance and/or repair or replacement of lawful existing structures. For further information contact: Waterfront Development, CN 401, Trenton, N.J. 08625.

### III. SEWER EXTENSIONS (609) - 292 - 3846

DEP has a one-day processing service for "minor" sewer extension projects. Eligible projects must meet certain criteria, such as, length of 1000 linear feet or less, cost of \$25,000 or less, sewage flow per day of 12,000 gallons or less. No projects with pump stations, force mains, siphons, gallorage transfers or holding tanks will be processed over-the-counter. Projects can not be located in areas under sewer ban, administrative orders, or litigation.

Projects must be in-house by 9:30 a.m., and all administrative documents must be in proper order. Pre-application conferences are strongly recommended. For further information contact Division of Water Resources, CN 029, Trenton, N.J. 08625.

## MASTER PERMIT INFORMATION APPLICATION

DEP has developed a Master Permit Information Application which, upon completion, will indicate all the DEP permits required for the project. Forms may be obtained by contacting the Office of Business Advocacy (See inside cover for details).

August 17--FLOOD CONTROL MASTER PLAN HEARINGS--DEP will hold a series of public statewide hearings on its Flood Control Master Plan. The Plan is being prepared by DEP's Division of Water Resources for future flood control planning and implementation. A \$25 million Emergency Flood Control Bond Act was approved in 1978. \$7 million has been allocated thus far.

\* \* \*

August 21--REVISED SEWERAGE CONSTRUCTION FUNDING--DEP Commissioner English proposed a major revision in New Jersey sewerage construction programs due to the drastic federal budget cuts in which \$70 million have been cut from New Jersey's sewer construction allocation. With no federal funding proposed for next year, only 43% of the federal funding will be available rather than the standard 75%. A public

hearing in this "phased funding" approach is scheduled for September 23.

WORKSHOPS ADDRESS LAND USE & AIR QUALITY

"Land Use Decisions are Air Quality Decisions" is the title of a one-evening workshop which will be offered five times during September at locations throughout New Jersey. Sponsored by The Association of New Jersey Environmental Commissions (ANJEC) under a grant funded by the State Department of Environmental Protection, the workshop will inform local officials of the impact which land use decisions have on automobile traffic, and, consequently, on air pollution.

The workshop will be offered twice in southern New Jersey: on September 16 at the Haddonfield Township Municipal Building, and on September 17 at Stockton State College in Pomona. In the central and northern part of the state, the workshop will be offered three times: on September 22 at the Morris County Cultural Center in Morristown, on September 23 at Middlesex County College in Edison, and on September 24 at William Paterson College in Wayne.

The program will emphasize land use planning policies which, when implemented by local governments, will minimize the use of private automobiles. The state's more than four million registered cars are a principal source of carbon monoxide and ozone air pollutants. New Jersey's levels of these two pollutants exceed Clean Air Act standards and may contribute to heart and lung disease, cancer and other ailments among the state's residents.

-more-

Page 2

The workshops, which each run from 7 p.m. to 10 p.m., will include speeches, a slide presentation, and a case study which will allow participants to apply the land use principles discussed in a simulation of the local planning process.

A registration fee of \$4.50 includes admission to the workshop, all materials, and refreshments. While the workshop is intended for local officials, all interested persons are welcome to attend. To register, or for more information, contact ANJEC, Box 157, Mendham, N.J. 07945.

PUBLIC NOTICE

NOTICE: ISSUANCE OF AN EMERGENCY NJPDES PERMIT FOR GROUND WATER DISCHARGE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) has issued an emergency permit, NJPDES No.0099754, to the Township of Fairfield in Essex County, to pump the Township of Fairfield Municipal Well No. 7 at the rate of 200 gallons per minute over a twenty-four (24) hour period or up to 300,000 gallons per day. The waters are to be diverted to a retention pond located on the Greenbrook Country Club Property in the Township of Fairfield and Borough of North Caldwell. The waters are to be used for spray irrigation only and shall not have any contact with water used for public consumption. The spray aerator in the retention pond must be in continuous operation over a twenty-four (24) hour period.

Sampling for volatile organic chemicals shall be performed bi-weekly at the well-head at Municipal Well No. 7 and from the detention pond discharge. Sample analyses shall be performed by a New Jersey certified laboratory. The total concentration of volatile organic chemicals in the retention pond discharge must be less than 100 parts per billion (p.p.b.) and no one volatile organic component shall exceed 50 p.p.b. Concentrations in excess of these limitations shall be cause for cessation of discharge until volatile organic sample analyses of the retention pond water indicate that the specified limits are being met.

This emergency permit is for 90 days only and a formal application must be made if the Township of Fairfield wishes to extend the period of pumping of Municipal Well No. 7. This permit commences on August 14, 1981 and expires on November 12, 1981.

The administrative record is on file at the offices of the NJDEP, Division of Water Resources, located at 1474 Prospect Street in the Township of Ewing, Mercer County, New Jersey. It is available for inspection, and for a fee copied, between 8:30 a.m. and 4:00 p.m., Monday through Friday.

Interested persons may submit written comments on the administrative record to the Assistant Director, Water Quality Management at the address cited above. All comments shall be submitted within 30 days of the date of this public notice. All comments submitted by interested persons in response to this notice within the time limit will be considered by the NJDEP with respect to the emergency NJPDES permit and future NJPDES permit actions.
