To the Members of the New Jersey Health Care Facilities Financing Authority

ERNST&YOUNG

We have audited the accompanying balance sheets of the New Jersey Health Care Facilities Financing Authority, a component unit of the State of New Jersey, as of December 31, 2004 and 2003 and the related statements of revenues, expenses and changes in fund net assets, and cash flows for the years then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority at December 31, 2004 and 2003 and the changes in its financial position and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States.

Management's discussion and analysis is not a required part of the financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding methods of measurement and presentation of this required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental financial information is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Ernst + Young LLP

Management's Discussion and Analysis

Year ended December 31, 2004

This section of the New Jersey Health Care Facilities Financing Authority's (the "Authority") annual financial report presents management's discussion and analysis of the Authority's financial performance during the fiscal year ended on December 31, 2004. Please read it in conjunction with the Authority's financial statements and accompanying notes.

Financial Highlights

The Authority's total net assets increased \$1,314,000 or 33.8% Cash and Investments increased \$1,292,000 or 51.5% Operating Revenue increased \$557,000 or 16.1% Operating Expenses increased \$94,000 or 3.6% Operating Income increased \$463,000 or 57.4%

Overview of the Financial Statements

This annual financial report consists of three parts – *Management's Discussion and Analysis* (this section), the *basic financial statements* and *supplemental financial information and related notes*. The Authority is a self-supporting entity and follows enterprise fund reporting. Accordingly, the financial statements are presented using the accrual basis of accounting.

Financial Analysis of the Authority

Net Assets – The following table represents the changes in net assets between December 31, 2004, 2003 and 2002:

| | 2004 | 2003 | 2002 | Increase/ (Decrease) 2003-2004 | Increase/ (Decrease) 2003-2004 |
|------------------------|---------|---------|---------|--------------------------------------|--------------------------------------|
| | (\$000) | (\$000) | (\$000) | (\$000) | (%) |
| Current assets | \$5,793 | \$4,516 | \$3,422 | \$1,277 | 28.3% |
| Noncurrent assets | 132 | 48 | 71 | 84 | 175.0% |
| Total assets | 5,925 | 4,564 | 3,493 | 1,361 | 29.8% |
| Current liabilities | 722 | 675 | 264 | 47 | 7.0% |
| Noncurrent liabilities | | | 166 | N/A | N/A |
| Total liabilities | 722 | 675 | 430 | 47 | 7.0% |
| Total net assets | \$5,203 | \$3,889 | \$3,063 | \$1,314 | 33.8% |

Current Assets are comprised of Cash and Cash Equivalents, Investments, Administrative Fees and Other Receivables and Prepaid Expenses. As of December 31, 2004, Cash and Cash Equivalents increased \$121,000 or 17.5% and Investments increased \$1,171,000 or 64.4% when compared to December 31, 2003. Depending on the Authority's cash projections, Cash and Cash Equivalents are maintained at a level sufficient to pay for current expenditures. Cash considered to be in excess of amounts that are needed to cover current expenditures is used to purchase permitted investments for the Authority's operating account. Administrative Fees and Other Receivables in total increased \$6,000 during 2004. However the Administrative Fees receivable portion which represents the Authority's semi-annual fee billing that was done on December 31, 2004 increased \$32,108 when compared to the semi-annual fee billing that was done on December 31, 2003. The semi-annual fee billings done on December 31, 2004 and 2003 totaled \$1,730,493 and \$1,698,385, respectively. It should be noted, that as Bond/Note financings are completed throughout the year, it is expected that the semi-annual fee billings will increase from year to year as a result of the completed financings being added to the billing Finally, Prepaid Expenses decreased \$21,000 or 12.1% when compared to December 31, 2003. This was due mainly to a decrease in the Authority's Directors' and Officers' Liability Policy premium as further explained in Note 8 to the financial statements.

When comparing Current Assets as of December 31, 2003 to December 31, 2002, Cash and Cash Equivalents increased \$318,000 or 84.8% and Administrative Fees receivable increased \$376,840 or 28.5%. The semi-annual fee billing that was done on December 31, 2002 totaled \$1,321,545. The increases were due in part to changes made in the annual administrative fee structure which were adopted by the Authority on November 26, 2002. Those changes included, but are not limited to, an increase in the annual administrative fee from 6.5 to 10 basis points, increasing the annual fee cap from \$50,000 to \$75,000, billing of the semi-annual fees in advance for Bond/Note financings closed after December 31, 2002, and subjecting those fees to a yearly inflation factor adjustment. Further information regarding the changes to the Authority's fee structure is mentioned throughout the remainder of the Management's Discussion and Analysis.

Current Liabilities in 2004 are comprised of Accounts Payable, Accrued Expenses and Deferred Revenue. Accounts Payable and Accrued Expenses increased \$22,000 or 12.0% compared to December 31, 2003. This was due in part to the reinstatement of the Employers Pension Expense which had been waived since 1997. Chapter 108, P.L. 2003 calls for the return of employer pension contributions on a phase-in basis with 20% of the actuarially calculated amount due in 2005, 40% will be due in 2006, 60% will be due in 2007, 80% will be due in 2008 and 100% will be due in 2009. The Authority has recorded a payable for the period July 1, 2003 to June 30, 2004 which is due April 1, 2005 and accrued an estimated employer pension expense for the period July 1, 2004 to December 31, 2004. Deferred Revenue increased \$215,000 or 71.4% compared to December 31, 2003. It represents the semi-annual fees billed on December 31, 2004 and 2003 which covers the periods January 1, 2005 to June 30, 2005 and January 1, 2004 to June 30, 2004, respectively. The billing of semi-annual fees in advance did not begin until 2003 as

mentioned above. Therefore, as more financings are completed from year to year that fall under this fee structure, deferred revenue will most likely increase. The prior fee structure called for billing semi-annual fees in arrears. Finally, it should be noted that there are no accrued retirement benefits in 2004 inasmuch as that liability was paid in January 2004. The liability related to the Authority's cost of an employee who opted to take the State's Early Retirement Incentive Program that was offered to State Agencies and Authorities in 2002. As of December 31, 2002, the liability was classified as a Noncurrent Liability and then reclassified to a Current Liability as of December 31, 2003.

Changes in Net Assets – The following table represents the changes in net assets between fiscal years 2004, 2003 and 2002:

| Operating revenues: (\$000) | | 2004 | 2003 | 2002 | Increase/ (Decrease) 2003-2004 | Increase/ (Decrease) 2003-2004 |

| | Net assets, end of year | \$5,203 | \$3,889 | \$ 3,063 | \$1,314 | 33.8% |

The Changes in Net Assets section indicates an increase in the Authority's financial position in calendar years 2003 and 2004. In March 2002, the Authority had to liquidate \$16,500,000 of its investment portfolio. The liquidation of the portfolio was necessary in order to comply with legislation that was passed in March 2002 that required the Authority to transfer \$16,500,000 to the State Treasurer for use in funding Hospital Charity Care. Due to the loss of interest income caused by the transfer of the funds, the Authority adopted changes to its fee structure as previously discussed. Changes not discussed previously, include the implementation of an initial fee for revenue bond/notes issues of 10 basis points on the estimated par amount of the issue with a cap of \$75,000 received at the time a Memorandum of Understanding is executed, subject to a yearly inflation factor adjustment. Also an initial fee of \$5,000 has been instituted for borrowers that submit an application through the Authority's Capital Asset Program. The changes were made in order to allow the Authority to once again provide the appropriate level of services to its borrowers.

Operating Revenues - During 2004, Annual Fees and Initial Fees increased \$503,000 and \$57,000, respectively, when compared to 2003. On average, the Authority completes eleven (11) financings a year resulting in new issues constantly being added to the annual fee billing schedule. This, in turn, will result in an increase in annual fee income from year to year. Further, 2004 was the first year in which there was deferred revenue from a prior year that was recorded in income. Initial fee income in 2004 compared to 2003, increased even though the number of initial fees received in both 2004 and 2003 totaled sixteen (16). The number and dollar amount of initial fees received during any given period can be affected by the financing needs of the health care institutions throughout the State, the timing of when financings are completed, the bond/note/loan size of the proposed issuance and the bond/note/loan size at the time the financings are completed. It should be noted, that as provided by the Authority's Annual Fee and Initial Fee structure, a 3.1% inflation factor was also incorporated in the semiannual fee billings done on December 31, 2003 and June 30, 2004 and initial fees received in 2004. In addition, the inflation rate adjustment resulted in the fee cap increasing to \$77,325. It should also be noted that no adjustment was made in the inflation factor at December 31, 2004 and therefore the annual and initial fee calculations remain at 10 basis points plus the 3.1% inflation factor.

Operating Expenses – During 2004, operating expenses increased \$94,000 or 3.6% when compared to 2003. There were salary and health benefit premium increases effective January 1, 2004. In addition, expenses for non-depreciable furniture, equipment and computer related items increased as well as expenses for general operating items such as telephone, postage, office supplies, printing and equipment and software maintenance. These increases were offset by a decrease in Professional Fees when compared to 2003. The decrease was due mainly to the Authority receiving reimbursement from its borrowers for legal costs incurred by the Authority's Deputy Attorney General on each borrower's financing project. This policy was effective for financings begun after January 1, 2003. Reimbursement recorded in 2004 and 2003, which offset total legal charges amounted to \$52,277 and \$30,308, respectively.

Nonoperating Revenues (Expenses) - Interest income in 2004 and 2003 represented interest earned on the Authority's checking accounts and operating funds invested in Agency and/or Treasury securities and in the New Jersey Cash Management Fund adjusted to their respective fair values. Interest earned in 2004 totaled \$44,000 when taking into account the adjustment for the decrease in the fair value in investments of \$28,000. For 2003, interest earned totaled \$42,000 when taking into account the adjustment for the decrease in the fair value in investments of \$16,000. By comparison, interest income in 2002 represented interest earned on the Authority's checking accounts and operating funds invested in a Guaranteed Investment Contract, Agency and/or Treasury securities and in the New Jersey Cash Management Fund adjusted to their respective fair values. For 2002, interest earned totaled \$303,000 when taking into account the adjustment for the decrease in the fair value in investments of \$91,000.

Contacting the Authority's Financial Management

This financial report is designed to provide New Jersey citizens, the Authority's clients, investors and creditors, with a general overview of the Authority's finances. Questions about this report and/or additional financial information, should be directed to the Executive Director at NJHCFFA, P.O. Box 366, Trenton, NJ 08625-0366. Readers are also invited to visit the Authority's web site at: www.njhcffa.com.

Notes to Financial Statements

December 31, 2004

1. Organization

The New Jersey Health Care Facilities Financing Authority (the "Authority") is a public body corporate and politic and a political subdivision of the State of New Jersey. The Authority is empowered to provide financing for health care organizations located in the State. The Authority is a component unit as reflected in the comprehensive annual financial report of the State of New Jersey.

Under the terms of the Act, the Authority has the power to issue bonds to, in addition to other things, construct, acquire, reconstruct, rehabilitate and improve, and furnish and equip projects on behalf of health care organizations. The Authority enters into loan and security agreements, and in some cases, mortgage agreements with designated health care organizations for each revenue bond issue. The loans and/or mortgages are general obligations of the health care organizations. Each of the Authority's issues of bonds and notes is payable out of revenues derived from separate organizations and is secured by its own series resolution, note resolution or trust agreement and is separate and distinct as to source of payment and security, except for certain issues for the same organization or system which may be secured on a parity basis. The Authority assigns the loan and security agreements and, if any, mortgage agreements to the trustee for each bond issue.

Bonds and notes issued by the Authority are not a debt or liability of the State of New Jersey or any political subdivision other than the Authority and do not constitute a pledge of the faith and credit of the State of New Jersey or any such political subdivision thereof, but are special and limited obligations of the Authority payable solely from the amounts payable under each agreement and mortgage and from amounts in the respective debt service reserve funds, if any, and other funds held pursuant to the resolutions, trust indenture, if any, and the mortgage agreement, if any. The Authority has no taxing power.

The Authority is exempt from both federal and state taxes.

2. Summary of Significant Accounting Policies

The accounts are maintained on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States.

In its accounting and financial reporting, the Authority follows the pronouncements of the Governmental Accounting Standards Board (GASB). In addition, the Authority follows the

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

pronouncements of only applicable Financial Accounting Standards Board (FASB) Statements and Interpretations, issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements.

Operating Revenues and Expenses - Operating revenues and expenses result from providing services to various health care organizations in connection with the issuance of bonds. The Authority's principal operating revenues are the administrative fees that it charges these entities as further explained below. Operating expenses include administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Administrative Fees - The Authority charges an initial fee to those health care organizations that have executed a Memorandum of Understanding signifying the organizations intentions to have the Authority finance a project through the issuance of bonds, notes and/or Capital Asset Program loans. An annual fee is also charged to those health care organizations for which bond and note sales have been completed. Such fees are charged for the processing of project costs, investment management of bond proceeds, monitoring of financial performance and other services provided to organizations to which it lends the proceeds of its bonds and notes. The fees are used to provide sufficient funds to ensure that the Authority's operating expenses will be met, and that sufficient funds will be available to provide for the Authority's needs, including, but not limited to the coverage of Authority members' legal liability as a result of official actions; and research and development costs consistent with the Authority's legislation.

Mortgage Servicing Fees - The Authority charges a fee in accordance with the servicing agreement for those issues for which the Authority has assumed the mortgage servicing function.

Section 142(d) Fees - The Authority charges an annual fee per each low and moderate income unit located in each project financed by the Authority under Section 142(d) of the Internal Revenue Code in order to compensate the Authority for monitoring the project's compliance therewith.

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Depreciation - Furniture, leasehold improvements and equipment are depreciated over their estimated useful lives using the straight-line method as follows:

Equipment 3 to 5 years
Furniture 7 years
Leasehold improvements Term of lease

Cash and Cash Equivalents - The Authority classifies all highly-liquid investments with an original maturity of less than ninety days as cash and cash equivalents. Cash equivalents consist of the Authority's checking account and units of the State of New Jersey Cash Management Fund.

Investments – Investments are recorded at fair value based upon current market quotations.

3. Cash and Investments

The components of cash and investments at December 31, 2004 and 2003 are:

| | 2004 | 2003 | |
|--|---------|---------|--|
| | (000's) | | |
| Cash and cash equivalents: | | | |
| New Jersey Cash Management Fund | \$ 814 | \$ 693 | |
| Investments: | | | |
| U.S. Treasury obligations | 503 | 505 | |
| U.S. Agency obligations | 2,486 | 1,313 | |
| Total cash, cash equivalents and investments | \$3,803 | \$2,511 | |

The Authority's bank balance at December 31, 2004 and 2003 amounted to \$10,142 and \$111,413, respectively, of which \$100,000 was covered by FDIC insurance. The remaining amount is uncollateralized.

Notes to Financial Statements (continued)

3. Cash and Investments (continued)

The Authority's investment policy permits the following securities and investment vehicles; (i) Obligations of or guaranteed by the State of New Jersey or the United States of America (including obligations which have been stripped of their unmatured interest coupons, and interest coupons which have been stripped from such obligations); (ii) Obligations issued or guaranteed by any instrumentality or agency of the United States of America, whether now existing or hereafter organized; (iii) Obligations issued or guaranteed by any State of the United States or District of Columbia, so long as such obligations are rated at the time of purchase in either of the highest two credit rating categories by any two nationally recognized securities rating agencies; (iv) Repurchase agreements and guaranteed investment contracts with any banking institution, where such agreement or contract is fully secured by obligations of the kind specified in (i), (ii) or (iii) above, provided that such security is held by a third party and that the seller of such obligations represents that such obligations are free and clear of claims by any other party; (v) Interest-bearing deposits in any bank or trust company provided that all such deposits shall, to the extent not insured, be secured by a pledge of obligations of the kind in (i), (ii) or (iii); (vi) Units of participation in the New Jersey Cash Management Fund, or any similar common trust fund which is established pursuant to law as a legal depository of public moneys and for which the New Jersey State Treasurer is custodian; and (vii) Shares of an open-end, diversified investment company which is registered under the Investment Company Act of 1940, as amended, and which (1) invests its assets exclusively in obligations of or guaranteed by the United States of America or any instrumentality or agency thereof having in each instance a final maturity date of less than one year from their date of purchase; (2) seeks to maintain a constant net asset value per share; and (3) has aggregate net assets of not less than \$50,000,000 on the date of purchase of such shares. As of December 31, 2004 and 2003, all investments were made in accordance with the Authority's investment policy.

The New Jersey Cash Management Fund is a common trust fund administered by the New Jersey Department of the Treasury, Division of Investment. Securities in the Fund are insured, registered or held by the Division or its agent in the Fund's name.

Notes to Financial Statements (continued)

3. Cash and Investments (continued)

As of December 31, 2004, the Authority implemented disclosure requirements of Governmental Accounting Standards Board Statement No. 40 "Deposit and Investment Risk Disclosures" ("GASB 40") and, accordingly, the Authority has assessed the Custodial Credit Risk, the Concentration of Credit Risk, Credit Risk and Interest Rate Risk of its Cash and Cash Equivalents and Investments.

(a) Custodial Credit Risk – The Authority's deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are: uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name. The deposit risk is that, in the event of the failure of a depository financial institution, the Authority will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Authority's investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Authority and are held by either: the counterparty or the counterparty's trust department or agent but not in the Authority's name. The investment risk is that, in the event of the failure of the counterparty to a transaction, the Authority will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party.

At December 31, 2004, the Authority's bank balance was not exposed to custodial credit risk since the full amount was covered by FDIC insurance. At December 31, 2003, the Authority was exposed to custodial credit risk in the amount of \$11,413. The New Jersey Cash Management Fund which is administered by the New Jersey Department of the Treasury invests pooled monies from various State and non-State agencies in primarily short-term investments. These investments include: U.S. Treasuries, Short-Term Commercial Paper, U.S. Government Agency Bonds, Corporate Bonds, and Certificates of Deposits. Agencies that are part of the Fund typically earn returns that mirror short-term interest rates. The Fund is considered an investment pool and as such is not exposed to custodial credit risk. The Authority does not have a formal policy for deposit custodial credit risk other than to maintain sufficient funds in the checking account to cover checks that have not cleared the account as of a specific date.

Notes to Financial Statements (continued)

3. Cash and Investments (continued)

As of December 31, 2004, the Authority's investments were comprised of U.S. Treasuries in the amount of \$503,419 and U.S. Agencies in the amount of \$2,485,441. As of December 31, 2003, the Authority's investments were comprised of U.S. Treasuries in the amount of \$505,459 and U.S. Agencies in the amount of \$1,312,813. Since the investments are not registered in the Authority's name and were held by the counterparty they are exposed to custodial credit risk. The Authority does not have a formal policy for investment securities custodial credit risk other than to maintain a safekeeping account for the securities at a financial institution.

- (b) Concentration of Credit Risk This is the risk associated with the amount of investments the Authority has with any one issuer that exceed 5 percent or more of its total investments. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement. The Authority places no limit on the amount it may invest in any one issuer. At December 31, 2004 more than 5 percent of the Authority's investments are in Federal Home Loan Mortgage Corporation, Federal Home Loan Bank and Federal National Mortgage Association (FNMA) obligations. These investments are 33.29%, 16.54% and 33.26%, respectively, of the Authority's total investments. At December 31, 2003 more than 5 percent of the Authority's investments were in Federal Home Loan Mortgage Corporation and Federal Home Loan Bank obligations. These investments were 55.49% and 16.64%, respectively, of the Authority's total investments.
- (c) Credit Risk GASB 40 requires that disclosure be made as to the credit rating of all debt security investments except for obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government. This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. In general, the Authority does not have an investment policy regarding Credit Risk except to the extent previously outlined under the Authority's investment policy. All U.S. Agency obligations as of December 31, 2004 and 2003 had a rating Aaa by Moody's. The New Jersey Cash Management Fund is not rated.
- (d) Interest Rate Risk This is the risk that changes in interest rates will adversely affect the fair value of an investment. The Authority does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from interest rate fluctuations. The Authority does from time to time evaluate its investment portfolio to

Notes to Financial Statements (continued)

3. Cash and Investments (continued)

determine if based on the interest rate environment, other investment vehicles would provide higher yields that lower the cost and risk. As of December 31, 2004, the U.S. Treasuries and Agencies had maturities ranging from January 31, 2005 through May 15, 2007. As of December 31, 2003, the U.S. Treasuries and Agencies had maturities ranging from January 14, 2004 through August 15, 2005.

4. Pension Plan

The Authority's employees participate in the Public Employees Retirement System of New Jersey (PERS), a cost sharing multiple-employer defined benefit plan. The Authority's contribution is based upon an actuarial computation performed by the PERS.

The Authority's total and covered payroll for the years ended December 31, 2004, 2003 and 2002 were \$1,509,563, \$1,446,816 and \$1,441,998, respectively. Pension cost (benefit) for the years ended December 31, 2004, 2003 and 2002 were \$17,193, (\$4,413) and \$3,464, respectively, and are included in the operating fund. Employees of the Authority also contribute a percentage of their wages to the pension system; the percentage of contributions, as determined by PERS, was 3.00% in 2004, 2003 and 2002, respectively.

5. Commitments

The Authority has an operating lease commitment for its offices at an annual rental of approximately \$232,000 through September 2006.

6. Related Party Transactions

Operating expenses for the years ended December 31, 2004 and 2003 include approximately \$319,000 and \$123,000, respectively, relating to payment for goods and services provided by various State of New Jersey agencies.

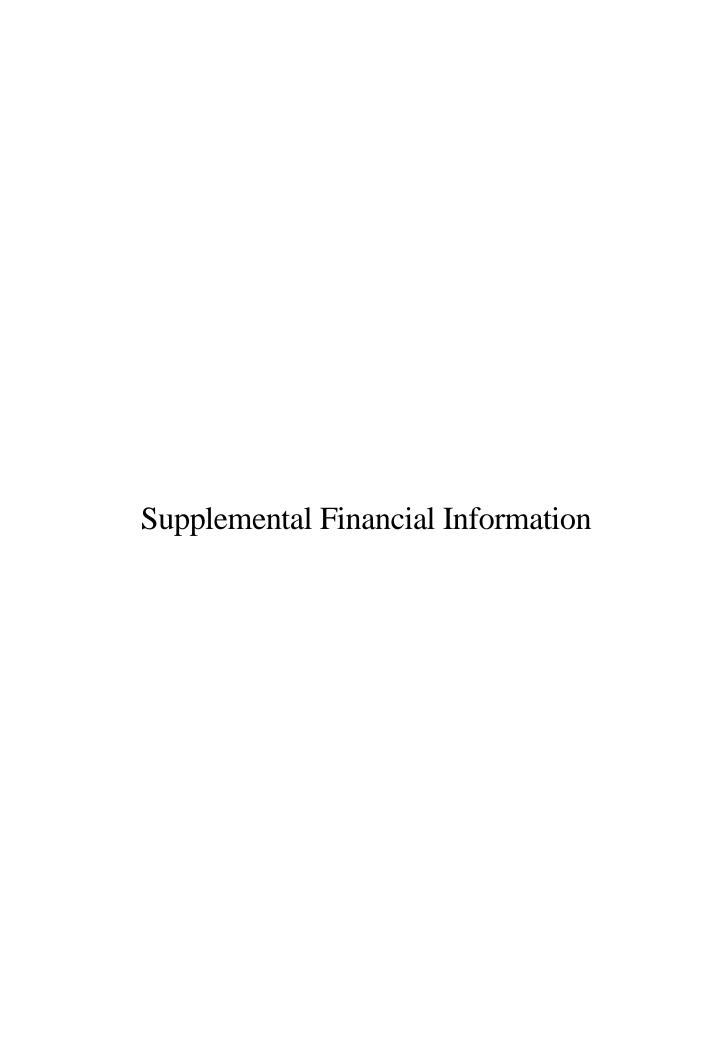

Notes to Financial Statements (continued)

7. Conduit Debt

Due to the fact that the bonds and notes issued by the Authority are nonrecourse conduit debt obligations of the Authority, the Authority has, in effect, none of the risks and rewards of the related financing. Accordingly, with the exception of certain fees generated as a result of the financing transaction, the financing transaction is given no accounting recognition in the accompanying financial statements. During the year ended December 31, 2004, the Authority issued \$506,700,000 in conduit debt. The amount of conduit debt outstanding at December 31, 2004 totaled \$5,096,147,000.

8. Risk Management

The New Jersey Health Care Facilities Financing Authority maintains a Not-For-Profit Protector Individual and Organization Insurance Policy (Directors & Officers Liability) that provides protection to the Authority's past, present and future members, committee members, officers and staff for official actions that may have been taken while carrying out their normal duties on behalf of the Authority. During 2004, the Authority decided to increase its level of retention (deductible) in order to lower its premium cost at the same time that it increased its coverage. The Authority's new policy which covers the period December 18, 2004 through December 18, 2005 has a \$20 million limit of liability with a retention level of \$250,000 at a premium cost of \$122,400. The previous policy had a \$15 million limit of liability with a retention level of \$50,000 at a premium cost of \$144,834.

Notes to Supplemental Financial Information

December 31, 2004

1. Background

As indicated in Note 1 to the Authority's financial statements, the Authority has the power to issue bonds and notes on behalf of healthcare organizations. Each of the Authority's issues of bonds and notes is payable out of revenues derived from separate organizations and is secured by its own series resolution, note resolution or trust agreement and is separate and distinct as to source of payment and security, except for certain issues for the same organization or system which may be secured on a parity basis. The Authority assigns the loan and security agreements and, if any, mortgage agreements to the trustee for each bond issue. The amounts reported in these supplemental financial statements include all Trustee Held Funds maintained by the Authority's various trustees.

Bonds and notes issued by the Authority are not a debt or liability of the State of New Jersey or any political subdivision other than the Authority and do not constitute a pledge of the faith and credit of the State of New Jersey or any such political subdivision thereof, but are special and limited obligations of the Authority payable solely from the amounts payable under each agreement and mortgage and from amounts in the respective debt service reserve funds, if any, and other funds held pursuant to the resolutions, trust indenture, if any, and the mortgage agreement, if any. The Authority has no taxing power.

2. Summary of Significant Accounting Policies

The accounts are maintained on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States.

Description of Funds - The Authority maintains books of account for each of the issues of debt outstanding and for its mortgage servicing funds (Trustee Held Funds). Funds are maintained in accordance with the requirements of the applicable bond and note resolutions and are combined for financial statement presentation. The following is a description of the Authority's financing programs:

Capital Asset Program - Accounts for the receipt and disbursement of funds in connection with the Authority's Capital Asset Revenue Bonds, Series A through D. These bonds were initially issued without designated borrowers. Under the Capital Asset Program, the Authority was required to establish a Debt Service Reserve Fund which may be used to pay debt service if pledged revenues are insufficient.

Notes to Supplemental Financial Information (continued)

2. Summary of Significant Accounting Policies (continued)

Revenue Bond/Note Program - Accounts for the receipt and disbursement of funds in connection with the various revenue bonds/notes issued by the Authority to designated borrowers for specific purposes as described in the applicable bond and note resolutions.

Under both programs the assets of the Construction/Program Accounts, Debt Service Accounts and Debt Service Reserve Accounts are held by trustees in accordance with the applicable bond and note resolutions. The resolutions establish the following accounts, which are referred to as "funds." These do not represent "funds" as the term is used in generally accepted accounting principles, but are separate "accounts" used to delineate the accounting and reporting of bond related monies.

- Construction/Program Accounts accounts for the receipt and disbursement of monies for the payment of construction expenses, related equipment expenditures, and expenses associated with bond issues.
- Debt Service Accounts accounts for the receipt and disbursement of monies held on behalf of the designated borrowers for the payment of bond or note interest and principal.
- Debt Service Reserve Accounts accounts for the receipt and disbursement of monies held in reserve on behalf of the investors in compliance with applicable bond resolutions.
 When required, the Debt Service Reserve Funds are generally maintained at an amount equal to the greatest annual amount of interest and principal payable.
- Mortgage Servicing Accounts accounts for receipt of principal, interest, insurance, reserve for replacements and property tax payments of institutions for which the Authority is the mortgagee of record and has assumed the mortgage servicing function. These funds are held in segregated escrow accounts until remitted to the bond trustee or appropriate agency.

Interest income on these accounts (except for accounts held under the Capital Asset Program) and the interest expense on the bonds and notes are recorded in the borrowers financial statements, and therefore, the Authority does not present a statement of revenues, expenses and changes in fund balance for the Trustee Held Funds.

Notes to Supplemental Financial Information (continued)

3. Mortgages and Loans Receivable

Loans are granted by the Authority to borrowers for periods concurrent with those of the related bond issues. In some instances, mortgages, and in most instances, a pledge of gross receipts is granted to the Authority to support the respective loans. The organizations are required to make principal and interest payments to the Authority or trustee bank sufficient to meet the principal and interest requirements of the bonds. To the extent required by the applicable bond documents, funds received by the Authority have been placed in Debt Service and Debt Service Reserve Funds for future interest and principal payments.

Among other things, the mortgages provide first liens on the physical property financed with the bond proceeds, and in some instances, all after-acquired property and previously existing facilities. The Authority has assigned all of its rights, title and interest in such security to the trustee bank for each respective issue.

As of December 31, 2004 and 2003, mortgages and loans receivable were:

| | 2004 | 2003 | |
|---|-----------|-----------|--|
| | (\$000) | | |

Notes to Supplemental Financial Information (continued)

4. Capital Asset Program Notes Receivable

Capital Asset Program notes receivable are for varying terms. The borrowing institutions are required to make principal and interest payments to the trustee in an amount sufficient to repay principal borrowed and to meet the interest requirements including program expenses related to the respective loans. Any principal repayments can be reloaned to other institutions as long as they are scheduled for repayment no later than six months prior to the maturity of the Capital Asset Program Bonds, Series A-D in 2035.

As of December 31, 2004 and 2003 Capital Asset Program notes receivable were:

| | 2004 200 | | |
|---|------------|----------|--|
| | (\$000) | | |
| Bayshore Community Hospital | \$ 1,513 | \$ 2,017 | |

| Total Capital Asset Program notes receivable | 52,044 | 73,900 | |
| Less cash and investments held by trustee | 42 | 1,111 | |
| Net Capital Asset Program notes receivable | \$52,002 | \$72,789 | |

Notes to Supplemental Financial Information (continued)

5. Equipment Revenue Notes Receivable

Equipment revenue notes receivable are for varying terms. The borrowing institutions are required to make principal and interest payments to the note holder in an amount sufficient to meet the principal and interest requirements of the Equipment Revenue Notes.

The notes are secured by first liens on all or a portion of the physical property financed with the note, or similar collateral. The Authority has assigned all of its rights, title and interest in such security to the holder of each respective note.

As of December 31, 2004, there was one equipment revenue note receivable for Barnert Hospital in the amount of \$4,600,000 less cash and investments held by the trustee of \$4,573,000 leaving a net equipment revenue note receivable of \$27,000. As of December 31, 2003, the note receivable was \$5,500,000 less cash and investments held by the trustee of \$5,496,000 leaving a net equipment revenue note receivable of \$4,000.

6. Lease Receivable: Greystone Park Psychiatric Hospital

The Authority entered into a 50-year lease on December 18, 2003 with the Department of Human Services of the State of New Jersey (DHS) whereby the Authority obtained a lease on the existing property and buildings of the Greystone Park Psychiatric Hospital. The Authority has agreed to make major improvements to the leased property and sublease the property back to DHS. The improvements are being financed by the issuance of Lease Revenue Bonds of the Authority payable solely from sublease rental payments received from DHS. On December 18, 2003 the Authority issued lease revenue bonds in the aggregate principal amount of \$19,125,000 to finance the improvements and anticipates a second issue of lease revenue bonds will be necessary in order to complete the project. The sublease was also entered into on December 18, 2003. Under the sublease, DHS agrees to make rental payments to the Authority that are sufficient to pay the principal, interest and other costs associated with the financing, subject to appropriation. There is no remedy provided to the Authority under the sublease for any default by DHS in its payment of rent or failure by DHS to make such payments, if in either case moneys therefor are not appropriated.

Notes to Supplemental Financial Information (continued)

7. Cash and Investments

The components of cash and investments at December 31, 2004 and 2003 are:

| | 2004 | 2003 | |
|--|-----------|-----------|--|
| | (\$000) | | |
| Cash and cash equivalents: | | | |
| Money Market Funds (which includes New Jersey Cash | | | |
| Management Fund) | \$539,609 | \$469,217 | |
| | | | |
| Investments: | | | |
| Investment agreements: | | | |
| Collateralized | 70,876 | 160,225 | |
| U.S. Treasury and Agency obligations | 249,725 | 307,467 | |
| Total cash, cash equivalents and investments | \$860,210 | \$936,909 | |

The New Jersey Cash Management Fund is a common trust fund administered by the New Jersey Department of the Treasury, Division of Investment. Securities in the Fund are insured, registered or held by the Division or its agent in the Fund's name. Money market funds represent shares of open-end, diversified investment companies which, along with funds invested in the New Jersey Cash Management Fund, are "uncategorized" investments for GASB purposes.

All investments, except for investment agreements, are carried at fair value. Investment agreements are non-participating guaranteed investment contracts which are carried at cost.

Investments of restricted funds are generally made in accordance with the Authority's General Bond Resolution, subject to modifications in the applicable Series Resolutions. The General Bond Resolution, which is amended from time to time, permits the investment of funds held by the trustee in the following: (a) obligations of or guaranteed by the State of New Jersey; the U.S. government or agencies of the U.S. government; (b) obligations of or guaranteed by any state of the U.S. or the District of Columbia rated in the highest two credit rating categories; (c) repurchase agreements secured by obligations noted in (a) or (b) above; (d) interest-bearing deposits in any bank or trust company, insured or secured by a pledge of obligations noted in (a) or (b) above; (e) New Jersey Cash Management Fund; (f) shares of an open-end, diversified investment company which is registered under the Investment Company Act of 1940 which invests in obligations of or guaranteed by the U.S. government or government agencies with maturities of less than one year and has net assets of not less than \$10,000,000.

Notes to Supplemental Financial Information (continued)

7. Cash and Investments (continued)

In addition, bond resolutions for FHA-insured mortgages, the Capital Asset Program and certain bond issues permit investments in investment agreements.

These investments are made at the direction of the Authority and are held by the respective trustee in the name of the Authority and the respective health care organization. Interest income earned on such investments is credited periodically to the participant's trust account.

8. Revenue Bonds and Notes

The security for the revenue bonds and notes of the Authority is described in Note 3 and is assigned to the trustee of the bond issue or to the holder of the equipment revenue note. The bonds and notes do not constitute a debt or liability of the State of New Jersey or any other political subdivision, or a pledge of the faith and credit of the State of New Jersey or any other political subdivision thereof, but are special limited obligations of the Authority payable solely from the revenues received by the Authority under the mortgage, loan, lease and note agreements and from amounts in the debt service reserve funds and other funds held pursuant to the resolutions, loan and mortgage agreements.

Revenue bonds and notes outstanding are comprised of the following:

| | Due in Varying Installments | Varying Annual | | utstanding ber 31 |

9. Compliance with Bond Provisions

Each bond issue has covenants stipulating certain financial ratios and permitted indebtedness limits with which the health care organizations must comply throughout the term of the related debt. The Authority has developed a compliance program to monitor the borrower's compliance with the terms and provisions of the related bond documents.

In the event an organization violates any of the said covenants, the bond documents outline various actions to be taken by the borrower, trustee and/or the Authority ranging from requiring an independent consultant's report related to the reasons for violations, to the appointment of a third-party to take over the management of the organization.

If an Event of Default, as defined in the Series Resolution, or the Authority's General Resolution does occur, the trustee may, and upon request of the required percentage of holders in principal amount of the outstanding bonds of the applicable series, shall declare the principal immediately due and payable from the respective borrower within thirty days of written notification to the Authority or the trustee.

The Authority routinely monitors the financial condition of all borrowers to determine compliance with the requirements pursuant to related bond documents. As of December 31, 2004, there were no Events of Default for any of the Authority's bond issues.

Notes to Supplemental Financial Information (continued)

10. Defeased Issues

When conditions have warranted, the Authority has sold various issues of bonds to provide for the refunding of previously issued obligations.

The proceeds received from the sales of these bond issues are used to refund the outstanding bond issues or to deposit in an irrevocable escrow account held by an escrow agent, an amount which, when combined with interest earnings thereon, is sufficient to pay the principal and interest on the defeased bonds when due. The escrow accounts meet the criteria under generally accepted accounting principles for a refunding and, accordingly, the escrow account assets and the liability for refunded bonds are not included in the Authority's financial statements.

Certain refundings result in annual debt service savings compared to the original debt service requirements. The debt service savings, together with any accounting gain or loss to be deferred, accrue to the respective organizations.

A summary of outstanding balances as of December 31, 2004 and 2003, by issue, is as follows:

| | Due in Varying Installments Ending | Range of Annual Interest Rate Percentages | Amount Outstanding December 31 2004 2003 | | |
