## EXECUTIVE SUMMARY

The New Jersey Wiretapping and Electronic Surveillance Control Act allows certain "consensual" wiretaps to occur without the need for a prior court order. Specifically, *N.J.S.A. 2A:156A-4c* permits any person acting at the direction of an investigative or law enforcement officer to intercept a wire, electronic or oral communication where that person is a party to the communication or where one of the parties to the communication consents to the intercept. That subsection further stipulates that before such an intercept can take place, the Attorney General, his designee or a county prosecutor must first determine that there exists a reasonable suspicion that evidence of criminal conduct will be derived from the intercept. Because the officer directing the intercept is not a party to the communication, this class of intercepts is collectively designated "third party" consensual intercepts.

Likewise, *N.J.S.A. 2A:156A-4b* permits any investigative and law enforcement officer to intercept wire, electronic or oral communications where the officer himself is a party to the communication or where another officer who is a party to the communication requests or requires that he do so. Because the officer is a party to the communication being recorded, this class of intercepts is collectively referred as "non-third party" consensual intercepts.

The Wiretap Act directs the Attorney General to collect and maintain records of all intercepts falling into either of the above categories, regardless of whether the intercept is carried out by his office, a county prosecutor or local law enforcement agency. The Act further requires that the Attorney General report annually to the Governor and Legislature on the manner in which both classes of intercepts are conducted.

*N.J.S.A. 2A:156A-23c* provides as follows for third party intercepts:

In addition to reports and records otherwise required by law, the Attorney General and the county prosecutor shall maintain records of all interceptions authorized by them pursuant to [*N.J.S.A. 2A:156A-4c*], on forms prescribed by the Attorney General. Such records shall include the name of the person requesting the authorization, the reasons for the request, and the results of any authorized intercept. The Attorney General shall require that copies of such records maintained by county prosecutors be filed with him periodically and he shall report annually to the Governor and the Legislature on the operation of section 4c.

*N.J.S.A. 2A:156A-23d* similarly provides for non-third party intercepts:

In addition to reports required to be made by applicants pursuant to Federal law, the Attorney General shall receive and maintain records of all interceptions authorized pursuant to [*N.J.S.A. 2A:156A-4b*] and shall include such information in his annual report to the Governor and the Legislature. It shall be the obligation of all law enforcement agencies in the State to file with the Attorney General on forms prescribed by the Attorney General information pertinent to the operation of section 4b. The information on the forms shall include, but not be limited to (1) the name of the investigative or law enforcement officer making the interception; (2) the law enforcement agency employing the officer involved in the interception; (3) the character of the investigation or activity involved; and (4) the results of such activity.

The report that follows contains all the required information for both 1995, 1996 and 1997 concerning the operation of all non-third party and third party consensual intercepts permitted by *N.J.S.A. 2A:156A-4b* and c. In accordance with the statutory scheme, this report identifies the law enforcement agencies utilizing consensual intercepts, the character of the investigation or activity for which each intercept was sought and the results of the investigation or activity. In addition to the narrative highlights provided for applications and consensual intercepts for the years 1995, 1996 and 1997, detailed intercept information for the current report year as well as supplemental follow-up data for consensual intercepts reported in previous calendar years are provided in the appendices.

**Third Party Consensual Intercept Applications**

In 1995, 755 third party consensual intercept applications were reported statewide in accordance with N.J.S.A. 2A:156A-4c. Of the total applications seeking authorization, 81 were processed through the Attorney General's Office. These applications were submitted by the Division of State Police and the Division of Criminal Justice. The other 674 reported applications were processed by the 21 county prosecutors' offices.

- . Of the 755 applications reported for consensual intercepts, 753 were authorized. One application was withdrawn and one was denied.
- . Of those 753 intercepts for which authorization was granted, 572 were installed and used. In all, 181 intercepts were never implemented.

The type of surveillance conducted is categorized as wire, oral, or electronic communication.

- . Of the 753 intercepts authorized and for which type of surveillance was reported, 226 (30%) involved wire intercepts; 205 (27%) involved oral intercepts; 195 (26%) involved both wire and oral intercepts; 39 involved wire, oral and electronic communication intercepts; and 1 involved an electronic communication. (The type of surveillance conducted for 87 intercepts was not reported.)

Offense data collected and analyzed consider only the most serious substantive offense investigated. Of those 753 consensual intercepts authorized, the largest proportion (45%) were authorized in conjunction with criminal investigations involving controlled dangerous substance offenses. **Third Party Consensual Intercept Applications**

In 1997, 595 third party consensual intercept applications were reported statewide in accordance with N.J.S.A. 2A:156A-4c. Of the total applications seeking authorization, 81 were processed through the Attorney General's Office. These applications were submitted by the Division of State Police and the Division of Criminal Justice. The other 514 reported applications were processed by the 21 county prosecutors' offices.

Of the 595 applications reported for consensual intercepts, 593 were authorized. Two applications were withdrawn.

Of those 593 intercepts for which authorization was granted, 430 were installed and used. In all, 163 intercepts were never implemented.

The type of surveillance conducted is categorized as wire, oral, or electronic communication.

Of the 593 intercepts authorized and for which type of surveillance was reported, 169 (29%) involved both wire and oral intercepts; 154 (26%) involved wire intercepts; 141 (24%) involved oral intercepts; 6 involved wire, oral and electronic communication intercepts; 2 involved electronic communications; and 1 involved both a wire intercept and electronic communication. (The type of surveillance conducted for 120 intercepts was not reported.)

Offense data collected and analyzed consider only the most serious substantive offense investigated. Of those 593 consensual intercepts authorized, the largest proportion (36%) were authorized in conjunction with criminal investigations involving controlled dangerous substance offenses. A list of intercepts granted by category of most serious offense investigated follows.

### **Investigations Utilizing 1997 Third Party Consensual Intercepts**

Since more than one intercept may be employed when conducting electronic surveillance investigations, the use of intercepts is reported by considering the total number of investigations which employ consensual intercepts.

During 1997, the 593 intercepts authorized were in conjunction with 501 investigations.

The 430 intercepts actually installed and utilized were in conjunction with 362 investigations. (Excludes the 163 intercepts which were authorized but never implemented.)

Of those 362 investigations for which intercepts were installed and utilized, 125 resulted in arrests.

In addition, 105 investigations were pending further investigation at the close of the report year and 16 were referred for action (9 were referred to another agency or jurisdiction for criminal prosecution, 4 were referred for administrative action, 2 were referred for further investigation and 1 was referred for both criminal prosecution and administrative action).

### **1997 Third Party Intercept Outcome**

Summary information regarding outcomes is provided below with detailed information in Appendix E.<sup>10</sup> The information provided concerns intercept and investigation outcomes, arrest and referral actions, defendant indictments resulting from each intercept application, the most serious offense charged, defendant dispositions, and administrative actions.

At the close of the report year (December 31, 1996), a total of 224 arrests were made and 115 defendants were indicted statewide as a result of 1997 third party consensual intercepts.

In addition, 16 defendants were indicted for sexual assault, 15 defendants were indicted for theft offenses, 4 were indicted for endangering the welfare of a child and 4 were indicted for forgery/fraud offenses.

Three defendants were indicted for arson/risking widespread injury and 2 were indicted for robbery.

Moreover, one defendant was indicted for each of the following offenses: bribery, burglary, compounding, gambling, murder, official misconduct, perjury, prostitution, and a weapons violation.

In addition to those 115 defendants indicted, 67 were arrested and awaiting grand jury action at the close of the report year, 9 were referred to another agency or jurisdiction for criminal prosecution, 4 pled guilty to disorderly persons offenses, 1 was admitted into a pre-indictment diversionary program, and 6 were referred to family court for disposition. (Of those referred to family court, 2 were adjudicated delinquent.)

At the close of the report year, 48 of the 115 defendants indicted reached final disposition.

Of those 48 defendants with indictments reaching final disposition, 40 (83%) were convicted through plea or trial, 6 were accepted into a post-indictment diversionary program, and 1 had indictment charges dismissed. (One matter was closed with no disposition reported.)

**(N.J.S.A. 2A:156A-4b)**  
**1997**

In 1997, 313 non-third party consensual intercepts were reported in accordance with N.J.S.A. 2A:156A-4b. Of the total non-third party intercepts reported, 28 were processed by the Attorney General's Office and 285 were processed by county and local law enforcement agencies.

Seven of the 21 counties (Bergen, Burlington, Cape May, Essex, Hunterdon, Monmouth, and Warren counties) reported non-third party intercepts processed by either county law enforcement agencies or local police departments.

Of the 313 non-third party intercepts reported, 303 were installed and used. The remaining 10 were never implemented.

The type of surveillance conducted is categorized as wire, oral, or electronic communication.

Of those non-third party intercepts installed and utilized and for which the type of surveillance was reported (271), 226 involved oral intercepts, 18 involved wire intercepts, and 27 involved both oral and wire intercepts.

Of the total 303 non-third party intercepts reported as installed and utilized, 296 were used in conjunction with criminal investigations. The remaining 7 were reportedly used for protection.

Offense data collected for non-third party intercepts and analyzed consider the most serious substantive offense investigated. Offenses investigated were reported for 301 of the 313 intercepts. A list of all intercepts by most serious offense, offense category or violation investigated follows.

#### **Investigations Utilizing 1997 Non-Third Party Consensual Intercepts**

When conducting electronic surveillance investigations, more than one intercept may be employed. Because of such instances, the use of intercepts is reported by considering the total number of investigations which employ intercepts.

- . Statewide, in 1997 non-third party intercepts were requested, installed and used in conjunction with 286 investigations.
- . Considering those 286 investigations during which intercepts were installed and used, 136 (48%) resulted in arrests.
- . In addition, 125 (44%) were pending further investigation at the close of the report year, one was referred for criminal prosecution, and one was referred for disposition in municipal court.

Summary information regarding outcomes is provided below with detailed information provided in Appendix F.<sup>12</sup> The information provided concerns intercept and investigation outcomes, arrest and referral actions, defendant indictments resulting from each intercept application, the most serious offense charged, and defendant dispositions.

- . At the close of the report year (December 31, 1997) a total of 90 defendants were indicted statewide as a result of 1997 non-third party consensual intercepts.
- . Of those 90 defendants indicted, considering the most serious offense or offenses category charged, 68 (76%) were indicted for controlled dangerous substance violations.
- . In addition, 14 (16%) of the total defendants indicted were indicted for racketeering and 5 (6%) were indicted for theft.
- . The remaining three defendants were indicted for one of the following offenses: murder, sexual assault or a weapons violation.
- . In all, 1997 non-third party consensual intercepts resulted in 179 arrests during the report year.
- . In addition to those 90 defendants who were indicted, 77 were pending grand jury action at the close of the report year, 6 defendants were referred for administration action (and resigned), 3 were referred to family court; 2 were admitted into (pre-indictment) diversionary programs, and 1 was referred for criminal prosecution.
- . At the close of the report year, 42 of the 90 defendants indicted reached final disposition.
- . Of those 42 defendants reaching final disposition, 41 were convicted through guilty pleas and 1 was admitted into a pretrial diversion program.
