## EXECUTIVE SUMMARY

The New Jersey Wiretapping and Electronic Surveillance Control Act allows certain "consensual" intercepts to occur without the need for a prior court order. Specifically, *N.J.S.A. 2A:156A-4c* permits any person acting at the direction of an investigative or law enforcement officer to intercept a wire, electronic or oral communication where that person is a party to the communication or where one of the parties to the communication consents to the intercept. Because the officer directing the intercept is not a party to the communication, this class of intercepts is collectively designated "third party" consensual intercepts.

Likewise, *N.J.S.A. 2A:156A-4b* permits any investigative and law enforcement officer to intercept wire, electronic or oral communications where the officer himself is a party to the communication or where another officer who is a party to the communication requests or requires that he do so. Because the officer is a party to the communication being recorded, this class of intercepts is collectively referred as "non-third party" consensual intercepts.

The Wiretap Act directs the Attorney General to collect and maintain records of all intercepts falling into either of the above categories, regardless of whether the intercept is carried out by his office, a county prosecutor or local law enforcement agency. The Act further requires that the Attorney General report annually to the Governor and Legislature on the manner in which both classes of intercepts are conducted.

*N.J.S.A. 2A:156A-23c* provides as follows for third party intercepts:

In addition to reports and records otherwise required by law, the Attorney General and the county prosecutor shall maintain records of all interceptions authorized by them pursuant to [*N.J.S.A. 2A:156A-4c*], on forms prescribed by the Attorney General. Such records shall include the name of the person requesting the authorization, the reasons for the request, and the results of any authorized intercept.

The Attorney General shall require that copies of such records maintained by county prosecutors be filed with him periodically and he shall report annually to the Governor and the Legislature on the operation of section 4c.

*N.J.S.A.* 2A:156A-23d similarly provides for non-third party intercepts:

In addition to reports required to be made by applicants pursuant to Federal law, the Attorney General shall receive and maintain records of all interceptions authorized pursuant to [*N.J.S.A.* 2A:156A-4b] and shall include such information in his annual report to the Governor and the Legislature. It shall be the obligation of all law enforcement agencies in the State to file with the Attorney General on forms prescribed by the Attorney General information pertinent to the operation of section 4b. The information on the forms shall include, but not be limited to (1) the name of the investigative or law enforcement officer making the interception; (2) the law enforcement agency employing the officer involved in the interception; (3) the character of the investigation or activity involved; and (4) the results of such activity.

The report that follows contains all the required information for 2001 concerning the operation of all non-third party and third party consensual intercepts permitted by *N.J.S.A.* 2A:156A-4b and c. In accordance with the statutory scheme, this report identifies the law enforcement agencies utilizing consensual intercepts, the character of the investigation or activity for which each intercept was sought and the results of the investigation or activity. In addition to the narrative highlights provided for applications and consensual intercepts for the year 2001, detailed intercept information for the current report year as well as supplemental follow-up data for consensual intercepts reported in previous calendar years are provided in the appendices.
