Data Resources

AT A GLANCE

Access our interactive data dashboards and visualizations, including U.S. dispensing rate maps, fatal overdose data, and nonfatal overdose data.

SUDORS: fatal overdose data

[SUDORS Dashboard: Fatal Drug Overdose Data](#)

View comprehensive data on unintentional and undetermined intent drug overdose deaths.

[SUDORS Dashboard: Fatal Drug Overdose Data – Accessible Version](#)

View an accessible version of data on unintentional and undetermined intent drug overdose deaths.

DOSE: nonfatal overdose data

[DOSE Dashboard: Nonfatal Overdose Syndromic Surveillance Data](#)

View the latest CDC nonfatal overdose syndromic surveillance data.

[DOSE Dashboard: Nonfatal Overdose Emergency Department and Inpatient Hospitalization Discharge Data](#)

View CDC nonfatal overdose emergency department and inpatient hospitalization discharge data.

[The Fentalog Study: A Subset of Nonfatal Suspected Opioid-Involved Overdoses with Toxicology Testing](#)

View substances detected in samples from patients experiencing a suspected opioid-involved overdose.

U.S. dispensing rate maps

[United States Dispensing Rate Maps](#)

View the total number of U.S. pharmacy-dispensed opioid, buprenorphine, and naloxone prescriptions.

[Buprenorphine Dispensing Rate Maps](#)

View the estimated rate of pharmacy-dispensed buprenorphine prescriptions in the U.S.

[Opioid Dispensing Rate Maps](#)

View the estimated rate of pharmacy-dispensed opioid prescriptions in the U.S.

[Naloxone Dispensing Rate Maps](#)

View the estimated rate of pharmacy-dispensed naloxone prescriptions in the U.S.

Medications for Opioid Use Disorder study

[Medications for Opioid Use Disorder \(MOUD\) Study](#)

The MOUD study examined patient outcomes from several opioid use disorder (OUD) treatments.
