

I Am Twelve

By: Nicholas

In the year 2020 I turned twelve.

I am twelve and I have to understand the importance of masks, the importance of hand washing, and the importance of social distancing.

I am twelve and I have to learn how to go to school virtually.

I am twelve and I have to worry about my sister taking care of sick people and worry about my family getting sick and dying.

I am twelve and I am sad, I am confused, and I am scared.

I am twelve and I have spent most of my year indoors.

I am twelve and I miss seeing my friends, miss seeing my family, miss going to school.

I am twelve.
