

Important Note of Caution To All Retail Licensees

In a determined move to wipe out price chiseling and gouging, the New Jersey Department of Alcoholic Beverage Control has compiled the present minimum resale price pamphlet containing price listings computed in conformity with the OPA formula for percentage mark-up. Herein are listed established minimum prices below which the listed items may not be sold. These prices are at the same time maximum OPA ceilings, and are inclusive of new Federal Excise Taxes effective April 1, 1944.

Honest law-abiding retailers wishing to cooperate with their State and Federal Governments in maintaining an orderly and fair distribution of alcoholic beverages will accept the prices listed as the level at which products named herein must be sold to the consumer.

For the purpose of emphasis, retailers are again cautioned that while the prices listed are minimum prices pursuant to State Fair Trade Regulations, they are at the same time the OPA ceiling prices as determined by this Department in cooperation with officials of the Office of Price Administration.

Should any changes in price levels be sanctioned by the OPA in the future or should additional new items be offered for sale in this State after April 24, 1944, the effective date of this publication, such changes and additions will be noted in a supplemental publication.

All prices set forth herein become effective Monday, April 24, 1944, at 10 A.M.
