Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A"

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

**DEPARTMENT OF ENVIRONMENTAL PROTECTION
OFFICE OF COASTAL AND LAND USE PLANNING
Adopted Amendment to the Ocean County Water Quality Management Plan (WQMP)
Public Notice**

Take notice that on April 1, 2014 pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), the Department of Environmental Protection (Department) adopted an amendment to the Ocean County WQMP. This amendment, entitled "Freedom Village at Toms River", submitted on behalf of Toms River Township, expands the Ocean County Utilities Authority (OCUA) sewer service area (SSA) to allow for the construction of an apartment complex. This amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15 and P.L 2013, c.188. This notice represents the Department's determination that the amendment is in compliance with the regulatory criteria pursuant to N.J.A.C. 7:15.

The proposed project site is located in Toms River Township, Ocean County on Block 164/Lot 4. This amendment allows for the construction of 6 apartment buildings with a total of 14 one-bedroom apartments, 40 two-bedroom

apartments, 18 three-bedroom apartments, and a clubhouse on the above referenced parcel. The projected wastewater flow for the proposed new development, calculated in accordance with N.J.A.C. 7:14A-23.3, is 16,574 gallons per day (gpd).

The currently adopted SSA excludes a significant portion of the above referenced property due to the presence of a Special Water Resource Protection Area (300-foot buffer) on the Slab Branch, a Category One Tributary to the Toms River, which had been mapped as being located on the property. A subsequent report dated August 14, 2013 prepared by Trident Environmental Consultants on behalf of the applicant determined that the Slab Branch does not, in fact, exist on the property and had been mapped incorrectly. The report found that the Slab Branch actually terminates approximately 115 feet south of the proposed project site. The Department's Division of Land Use Regulation (DLUR) has conducted a site visit of the area and accepted the findings of the report. DLUR will be updating the stream mapping to reflect this new information.

While the newly mapped Slab Branch is no longer located on the property, a portion of its 300 foot buffer area still extends partially onto the proposed project site. This area will still remain excluded from the SSA. No sewage producing structures are proposed for this portion of the property.

Of Block 164, Lot 4's total of 10.02 acres, the portion proposed to be added to the SSA is 6.89 acres. 2.45 acres of a conservation easement and the remainder of the 300 foot buffer not included in the conservation easement will remain outside of the SSA.

As outlined at N.J.A.C. 7:15-5.24, sewer service may only be provided to areas that are not identified as environmentally sensitive areas (ESAs), Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes. Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. Aside from portion of the 300 foot buffer associated with the Slab Branch that extends partially onto the proposed project site, as noted above, there are no environmentally sensitive areas identified on the parcel.

Pursuant to N.J.A.C. 7:15-5.24(c), certain coastal planning areas, not applicable here, must also be excluded from SSA. Specifically, there are no Coastal Fringe Planning Areas, Coastal Rural Planning Areas, or Coastal Environmentally Sensitive Areas on the project site.

In accordance with N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations that prohibit the extension of sewers are excluded from the adopted SSA either where local mapped information exists delineating these areas, or through a narrative description where mapping does not exist, except as provided under N.J.A.C. 7:15-5.24(f)1. Where a narrative approach has been used, it is noted as text on the adopted FWSA map. Pre-existing grant conditions and requirements (from Federal and State grants or loans for sewerage facilities), which provide for restriction of sewer service to environmentally sensitive areas, are unaffected by adoption of these amendments and compliance is required.

In addition to the environmentally sensitive areas with Federal 201 grant limitations that prohibit the extension of sewers identified under N.J.A.C. 7:15-5.24(d)1, there are other special restricted areas, not applicable here, which must also be excluded from SSA pursuant to N.J.A.C. 7:15-5.24(d)2 through 4. Specifically, there are no beaches, coastal high hazard areas, or dunes on the project site.

In accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The Department has determined that the OCUA Northern Wastewater Pollution Control Facility has adequate available capacity to treat the proposed wastewater flow from this project.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. Water supply for the proposed development will be provided by the United Water Toms River which is a public water system which withdraws water from the Kirkwood Cohansey, Middle PRM, Upper PRM, and Piney Point Aquifers. The

location of the diversion is Toms River and the water allocation permit number is WAP1000002, permit # 5000X. The existing water allocation permit will not require modification to serve the proposed project

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2013, c. 188 directs that there is a presumption that an engineered subdivision or site plan is not required. Without such information a review and determination of compliance with the Stormwater Management rules (N.J.A.C. 7:8) is not possible. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development. Toms River Township has an adopted stormwater management ordinance (No. 4060-06) which complies with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8.

In accordance with N.J.A.C. 7:15-5.25(h)5, the proposed project is not located in the riparian zone. As noted above, a portion of the 300 foot buffer associated with the Slab Branch still extends partially onto the proposed project site. This area will still remain excluded from the SSA. No sewage producing structures are proposed for this portion of the property.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

A Riparian buffer zone, as described above has been identified on the property. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules.

To become compliant, and in accordance with N.J.A.C. 7:15-5.25(h)5i, the Riparian Corridor Analysis has been satisfied by applying the 300 foot buffer to the applicable portions of the Slab Branch, and the exclusion of the buffer area from the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with N.J.A.C. 7:15-5.24(e)2, Letter of Interpretation: Presence/Absence Determination File # 1507-09-0006.1, FWW090001 issued by DLUR on March 11, 2009 was submitted to the Department, confirming that freshwater wetlands and waters are not present on the property and that no part of the above referenced property occurs within a transition area or buffer as designated in N.J.A.C. 7:7A-2.59(d) and (e).

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

This amendment proposal was noticed in the Department Bulletin on February 19, 2014, Volume 38 Issue 4, pages 8-10, and no comments were received during the comment period.

Additional issues which may need to be addressed for any new or expanded wastewater treatment facility proposal include, but are not limited to, compliance with stormwater regulations, antidegradation, effluent limitations, water quality analysis, and exact locations and designs of future treatment works. Additionally, sewer service to any

particular project is subject to contractual allocations between municipalities, authorities and/or private parties, and is not guaranteed by this amendment.

Approval of this amendment does not eliminate the need for any permits, approvals or certifications required by any Federal, State, County or municipal review agency with jurisdiction over this project/activity.

SIGNED

Elizabeth Semple, Acting Director
Office of Coastal & Land Use Planning
Department of Environmental Protection

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION

DIVISION OF REMEDIATION MANAGEMENT AND OPERATIONS ELEMENT

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz
Operations Element
PO Box 028
Trenton, NJ 08625

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Treatment consists of a bar screen, comminutor, influent pumping station, oxidation ditch, final clarifiers, tertiary filters and ultra violet light disinfection.
PLEASANT ACRES FARM CAMPGROUND NJ0100781 DGW	61 Dewitt Rd Wantage Twp, NJ 07461 Sussex County	Keith Howell Bureau of Nonpoint Pollution Control (609)633-7021	Allentown Upper II-A	Ground Water New Permit Action Pleasant Acres Farm Campground has applied for a NJPDES-DGW permit. This facility is a seasonal (Spring through Fall) campground located on 300 acres in Wantage Township, Sussex County. This facility is designed to accommodate 300 campsites out of which 270 campsites have sewer hook-ups that are directed to an on-site disposal system. In addition, there are 4 bathhouses, 1 RV waste disposal station, 1 laundry room, snack bar and front office.

BAYONNE DRY DOCK & REPAIR CO NJ0225746 DSW Minor	Constitution Ave Bayonne, NJ 07002 Hudson County	Robert Hall Bureau of Surface Water Permitting (609)292-4860	Upper New York Bay SE2(C2) Newark Bay / Kill Van Kull / Upr NY Bay	Surface Water Renewal Permit Action This is a renewal permit action for an existing facility to authorize discharges to surface water from a sump pump. The sump pump discharges via discharge serial number (DSN) 001A. The facility is a full service ship repair yard for commercial and government vessels. Site activities include, but are not limited to: sandblasting, hydroblasting, surface coating applications, engine maintenance, and vessel cleaning and repair. The facility utilizes a graving dock for the bulk of its operations which is drained via the sump pump.

New Jersey Department of Environmental Protection
Land Use Management
Division of Coastal and Land Use Planning

**Notice of Public Comment Period Regarding submission of
Municipal Public Access Plans**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following application(s) for NJDEP approval of a Municipal Public Access Plan requesting approval in accordance with N.J.A.C. 7:7E (the Coastal Zone Management Rules).

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. A copy of these plans can be found at <http://www.state.nj.us/dep/cmp/access/mpaplandraft.htm>.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:

**Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water
Quality Management Plan Consistency Determinations**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-1 et seq. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

Applications will be reviewed to determine whether the project proposal qualifies for the selected exemption and whether it is consistent with the applicable Water Quality Management Plan. Be advised, however, that the proposal will also be reviewed to determine whether it qualifies for an exemption other than the one specifically applied for.

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121.

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:
