## I N T R O D U C T I O N

On 1 February 1950, in accordance with Senate Joint Resolution No. 7 dated 10 March 1949, the commission to investigate the problem of the habitual sex offender submitted its report.

Resulting from that report was the repeal of the initial New Jersey habitual sex offender legislation (Chapter 20, P.L. 1949) on 8 June 1950 when Governor Alfred E. Driscoll signed Senate No. 193, making it Chapter 207, P.L. 1950 (Exhibit A). After a short period of use, it was felt that certain amendments were needed to make the act more effective. This was accomplished by Chapter 44, P.L. 1951 (Exhibit B), on 21 April 1951 when Governor Driscoll signed Senate No. 108.

Briefly, the legislation provides:

1. That a person shall be committed to the Diagnostic Center for a complete mental and physical examination whenever he is convicted of one of the following offenses: rape, carnal abuse, sodomy, open lewdness, indecent exposure, impairing the morals of a minor, or an attempt to commit any of the aforementioned offenses;
2. That if it is determined that such convicted person should be submitted to a program of specialized treatment and he is committed under the provisions of the special sex offender legislation to a State institution, the court shall not specify a minimum period of detention, but in no event shall the person be confined or subject to parole supervision for a period of time greater than that provided by law for the crime of which he was convicted;

3. For a special classification review board to review each such case at least semi-annually and to submit a recommendation to the State Parole Board when it appears that such person is capable of making an acceptable social adjustment in the community;
4. That the final authority to release on parole shall rest with the State Parole Board.

-----

### P R O C E D U R E S

In order to carry out the provisions of the special sex offender legislation, the following procedures are to be observed:

#### I. IDENTIFICATION OF CASES

- A. The responsibility for identifying cases committed under the special sex offender legislation shall rest with the institution to which the offender is initially committed.
- B. In the event of transfer to another institution, it shall be the responsibility of the sending institution to notify the receiving institution of the sex offender status (including date of commitment and expiration of maximum sentence) and date of initial or subsequent review by the special classification review board.
- C. To alert the institutions in identifying these special sex offender cases, at the time the Commissioner of Institutions and Agencies notifies the committing judge on the proper form (Exhibit C) of the institution to which the offender should be committed, a copy of the form will be sent to the institution recommended on the designation form.

There have been cases where the judge has not followed the recommendation; therefore, the institution must keep in mind that this is not an infallible check.

D. It has also been found that judges sometimes commit under the provisions of the special sex offender legislation without requesting the designation of an institution. Therefore, in order to assist the institution in identifying those cases, listed below are the offenses enumerated in the sex offender legislation, and the section of the statutes, carrying the indicated maximum:

1. N.J.S. 2A:164-3,
2. Rape - 30 years,
3. Carnal abuse<sup>1</sup> - 30 years if child is under 12, otherwise 15  
years,
4. Sodomy - if person involved is over the age of sixteen years,  
20 years if committed on or after 1 January 1952  
21 years if committed prior to 1 January 1952  
if child involved is under the age of sixteen years,  
30 years - regardless of date,
5. Open lewdness - 3 years,
6. Indecent exposure - 3 years,
7. Impairing the morals of a minor - 3 years, or
8. An attempt to commit any of the aforementioned offenses - 3  
years
- \*9. Assault with Intent to Commit any of the aforementioned offense  
12 years

E. It shall be the responsibility of the institution to check with the Deputy Commissioner in Charge of Correction and

1. N.J.S. 2A:138-1 "Any person who has carnal knowledge of a woman forcibly against her will, or who, being of the age of 16 or over, unlawfully and carnally abuses a woman-child under the age of 12 years, with or without her consent is guilty of a high misdemeanor and shall be punished by a fine of not more than \$5,000, or by imprisonment for not more than 30 years, or both; or who, being of the age of 16 or over, unlawfully and carnally abuses a woman-child of the age of 12 years or over, but under the age of 16 years, with or without her consent, is guilty of a high misdemeanor and shall be punished by a fine of not more than \$5,000, or by imprisonment for not more than 15 years, or both."

Parole whenever there is any question as to whether or not commitment has been made under the provisions of the special sex offender legislation, or if there is any doubt as to the correct maximum to be applied.

II. SCHEDULING OF CASES FOR REVIEW BY THE SPECIAL CLASSIFICATION REVIEW BOARD

- A. It shall be the responsibility of the institution to notify and to set up cases for hearing by the special classification review board six months after commitment and at least semi-annually thereafter. The proper forms are to be submitted to the office of the Deputy Commissioner in Charge of Correction and Parole not later than the fifteenth day of the month in which the case is to be reviewed.
- B. At the initial review, the special classification review board shall have before it a complete abstract (in triplicate) and four copies of the special classification review board form (Exhibit D), both to be prepared by the institution of residence and forwarded to the Deputy Commissioner in Charge of Correction and Parole according to the date specified in II.A. above.
- C. At the second and subsequent reviews, the special classification review board shall have before it four copies of the interval note (Exhibit E), prepared by the institution of residence and forwarded as specified in II.A. above.
- D. If the institution recommends parole consideration, it shall submit the material specified in II.B. above, as well as that requested in II.C. above.

- E. In the event of escape, the institution shall submit the required material initially and semi-annually thereafter, indicating the escape status, until the escapee is apprehended, at which time the case shall be prepared by the institution for the meeting of the special classification review board next following the offender's return to the institution.
- F. If the institution wishes to bring the case of a sex offender to the attention of the special classification review board before the regular six-month interval, it may do so on the appropriate forms.

### III. SPECIAL CLASSIFICATION REVIEW BOARD ACTION

- A. When the special classification review board reviews the case, a copy of the form (specified in II.A and II.B) showing the action of the review board shall be returned to the institution.
- B. If the special classification review board recommends routine reconsideration, the institution shall automatically schedule the case for review in six months.
- C. If the special classification review board endorses the institution recommendation for transfer, or itself so recommends, it shall be the responsibility of the institution of confinement to initiate transfer proceedings.
- D. If the special classification review board recommends parole, the institution will immediately ascertain from the offender the following information:
1. His proposed community plans, including first and

alternate choices of residence, together with names, relationships and complete addresses, and

2. Employment possibilities, indicating the type of employment for which he is fitted.

This information is to be forwarded in triplicate to the Deputy Commissioner in Charge of Correction and Parole who will arrange for the pre-parole investigation, copy of which will be forwarded to the institution.

- E. The Deputy Commissioner in Charge of Correction and Parole will be responsible for following up the preparation of the pre-parole report, in quadruplicate.
- F. When a community plan is completed, the Deputy Commissioner will be responsible for scheduling the case for hearing by the special classification review board.
- G. If the special classification review board, after consideration of the pre-parole report, decides to withhold recommendation for parole to the State Parole Board, it shall so notify the institution, which will schedule the case for review by the special classification review board six months from the date of last actual (as opposed to regular) review by the special classification review board, unless other instructions are set forth by the review board.

#### IV. REFERRAL TO THE STATE PAROLE BOARD

- A. If the special classification review board recommends favorable consideration, it will forward the case to the State Parole Board with the properly endorsed Parole Certificate (Exhibit F) in quadruplicate and the case file.

- B. The State Parole Board will notify the institution of confinement when and where to produce the offender for a parole hearing.
- C. The State Parole Board will advise its decision by sending a notice, in duplicate, to the inmate (Exhibit G) through the administrative head of the institution of confinement. The original is to be delivered to the inmate, and the copy retained for the institution file. Copies of this notification will also be sent to the District Parole Office concerned and to the Deputy Commissioner in Charge of Correction and Parole. Any special conditions imposed in connection with a parole will be included in this notification.
  - 1. If the offender is to be paroled, the State Parole Board will forward to the institution four copies of the parole certificate, each of which is to be signed by the offender as acceptance of the terms and conditions of the parole and properly witnessed.
    - a. The original is to be handed to the offender on the day of his release from the institution;
    - b. One copy is to be retained in the institution file;
    - c. The remaining two copies (accompanied by two photographs of the offender) are to be returned to the State Parole Board on the day of the offender's release, from which point a copy will be forwarded to the proper district parole office.
  - 2. Accompanying the parole certificate will be a letter (Exhibit H), prepared by the Division of Parole,

addressed to the offender at the address where he is to reside and giving him instructions as to his first parole report. This letter is to be handed to the offender at the time he is given his parole certificate.

3. If the State Parole Board requests the institution for additional information on any case, the institution will so comply, forwarding the material in triplicate.
4. If the offender is denied parole, the special classification review board shall notify the institution when his case will next be reviewed by that body.
5. When an offender is paroled to a plan out of this State the institution must furnish the office of the Deputy Commissioner in Charge of Correction and Parole with the following additional information at the time of release:
  - a. 2 copies of Agreement of Prisoner forms (Exhibit I).  
(These forms will be forwarded in quadruplicate to the institution with the parole certificate. The offender will sign all four at the time he signs his parole certificate. He will be given the original at the time of his release, and the institution will retain a copy for its files.);
  - b. 1 extra photograph;
  - c. 3 sets of fingerprints.

#### V. RELEASE ON PAROLE

- A. Release on parole may be only to plan approved by the State Parole Board.

- B. Supervision must be by the field staff of the Division of Parole only, or by a cooperating agency in another state under the terms of the Interstate Parole Compact.
- C. Copies of the parole reports will be forwarded to the institution by the Central Parole Division.

#### VI. VIOLATION OF PAROLE

- A. When the parole officer has reason to believe that the parolee "has resumed, or is about to resume, criminal activities", he may issue his warrant and make a report to the Central Parole Division, making a recommendation concerning the declaration of delinquency. The case will be reviewed by the Deputy Commissioner in Charge of Correction and Parole or his designated representative. If the parole officer's recommendation is sustained, the case is to be referred to the State Parole Board. If that body sustains the recommendation, it will revoke parole, which will be authorization for the offender's return to the institution by the institutional authorities in the case of those on parole from the penal and correctional institutions and by a member of the Parole Division staff in the case of those paroled from the mental institutions.
  - B. The institution will immediately notify the Deputy Commissioner in Charge of Correction and Parole of the parolee's return. The Deputy Commissioner, in turn, will advise the Parole Board and secure a violation report.
  - C. The State Parole Board will notify the institution when and where the offender will be heard on the violation.
-

VII. RELEASE FROM JURISDICTION

- A. Persons committed under the sex offender legislation may not be released from the institution prior to expiration of sentence without the authority of the State Parole Board or order of court of competent authority and may not be allowed the privilege of "visiting" in the community.
- B. The institution shall notify the Deputy Commissioner in Charge of Correction and Parole whenever an offender is released (see paragraph 2. in Introduction, page 1) from jurisdiction by reason of:
1. Termination of sentence while in the institution. The institution shall complete an original and two copies of the certificate of termination of sentence (Exhibit J) with the following distribution:
    - a. Giving the original to the offender at the time of his release;
    - b. Retaining one copy in the institution file, and
    - c. Forwarding a copy to the Deputy Commissioner in Charge of Correction and Parole.
  2. Termination of sentence while on parole. The institution shall complete an original and three copies of the termination certificate (Exhibit K) with the following distribution:
    - a. The original and two copies are to be sent to the Deputy Commissioner in Charge of Correction and Parole. He will arrange to have the Central Parole Division forward the original and one copy to the

parole district office (which will deliver the original to the parolee) and retain a copy in the Central Office file;

b. One copy should be retained by the institution for its own file;

3. Recall by judge or order of court of competent jurisdiction;

4. Death.

Chapter 207, P.L. 1950, Senate No. 193

An Act concerning the disposition of persons convicted of certain enumerated sex crimes and providing for sentence, incarceration and treatment, repealing chapter twenty of the laws of one thousand nine hundred and forty-nine, and supplementing chapter one hundred ninety-two of Title 2 of the Revised Statutes.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey.

1. Whenever a person is convicted of the offense of rape, carnal abuse, sodomy or impairing the morals of a minor or of an attempt to commit any of the aforementioned offenses, the judge shall order the commitment of such person to the Diagnostic Center for a period not to exceed sixty days. While confined in the said Diagnostic Center, such person shall be given a complete physical and mental examination.

2. Upon completion of the physical and mental examination of such person, but in no event later than sixty days after the date of the order of commitment, a written report of the results thereof shall be sent to the court.

3. If it shall appear from said report that it has been determined through clinical findings that the offender's conduct was characterized by

- (a) a pattern of repetitive, compulsive behavior; and
- (b) either violence; or
- (c) an age disparity from which it shall appear that the victim was under the age of fifteen years and the offender is an adult aggressor; it shall be the duty of the court, upon recommendation of the Diagnostic Center, to submit the offender to a program of specialized treatment for his mental and physical aberrations.

4. The disposition to be made by the court of such person, upon written report and recommendation of the Diagnostic Center, shall include one or more of the following measures;

- (a) The court may place such person on probation with the requirement, as a condition of said probation, that he receive out-patient psychiatric treatment in the manner to be prescribed in each individual case.
- (b) Such person may be committed to an institution to be designated by the Commissioner of Institutions and Agencies for treatment and upon release shall be subject to parole supervision.

In the event that the court shall order a commitment of the person as provided in this section, such order of commitment shall not specify a minimum period of detention, but in no event shall the person be confined or subject to parole supervision for a period of time greater than that provided by law for the crime of which such person was convicted.

5. The Commissioner of the Department of Institutions and Agencies, upon commitment of such person, shall thereupon arrange for his treatment in one of the institutions under the jurisdiction of the department which, in the judgment of the commissioner, is best suited to care for the needs of such person. The commissioner, in his discretion, is hereby authorized and empowered to arrange for the transfer of such person to or from any institution within the jurisdiction of the department for the purpose of providing for the needs and requirements of such person according to the individual circumstances of the case.

6. Any person committed to confinement, as provided for in section four hereof, may be released under parole supervision when it shall appear to the satisfaction of the commissioner, after recommendation by a special classification review board appointed by the State Board of Control of Institutions and Agencies, that such person is capable of making an acceptable social adjustment in the community. It shall be the duty of the chief executive officer of any institution wherein such a person is confined to report in writing at least semiannually to the commissioner concerning the physical and mental condition of such person with a recommendation as to his continued confinement or consideration for release on parole by said special committee. The State Board of Control of Institutions and Agencies is hereby authorized and empowered to promulgate rules and regulations for the parole, revocation thereof for cause, and the proper supervision on parole of said persons when released from confinement.

7. If it shall appear from the report of such examination made of such person that the offender's conduct was not characterized by a pattern of repetitive, compulsive behavior and neither violence nor age disparity was indicated, as provided for in section three hereof, the court shall impose sentence on such person in the manner provided by law.

8. No statute relating to remission of sentence by way of commutation time for good behavior and for work performed shall apply to any such person committed pursuant to section four hereof, but provisions may be made for monetary compensation in amount to be prescribed by the State Board of Control of Institutions and Agencies, in lieu of remission of sentence for work performed.

9. The commissioner shall determine and fix the per capita cost of examining and maintaining any person committed to the Diagnostic Center and shall notify each county treasurer monthly of the number of patients committed from the several counties, and upon certification by the commissioner of the amount due, the board of chosen freeholders of the county shall make provision for payment of one-half of the cost thereof to the Diagnostic Center, the remaining one-half to be borne by the State.

10. Except as otherwise provided herein, the provisions of Title 30, Revised Statutes, and the rules and regulations promulgated by the State Board of Control pursuant thereto regarding

supervision of persons released on parole and revocation of parole shall apply to any such person released on parole as provided herein.

11. Any person, believing himself to be suffering from a physical or mental condition which may result in sexual trends dangerous to the welfare of the public, may make application, upon forms to be prescribed by the Department of Institutions and Agencies, for voluntary admission to the Diagnostic Center for the purpose of receiving diagnosis therein. When such application is approved and such person is admitted, he shall be given a complete physical and mental examination. If it shall appear, as a result of such examination, that such person does in fact suffer from a physical or mental condition which may result in sexual trends of the type that might prove dangerous to the welfare of the general public, this fact shall be certified to such person and to the Commissioner of Institutions and Agencies. If such person thereupon indicates a desire to receive treatment for such condition, he may make application for voluntary admission to an institution to be designated by the commissioner and upon approval of such application he may be received in the designated institution and shall there receive the treatment indicated by the circumstances in the individual case. If such person is possessed of sufficient financial ability to defray all or a portion of the cost of his care and treatment, he shall be required so to do. If such person shall desire to leave such institution and discontinue the treatments being received by him, he shall be required to give five days' notice, in writing, to the chief executive officer of the institution of his intention to leave.

12. "An act concerning the sentencing of persons convicted of certain crime and providing for the place of their incarceration, and supplementing chapter one hundred ninety-two of Title 2 of the Revised Statutes," approved April eleventh, one thousand nine hundred and forty-nine, is repealed.

13. This act shall take effect immediately. (June 8, 1950).

Introduced February 12, 1951

By Mr. CAFIERO

Referred to Committee on Institutions and Agencies

AN ACT to amend "An act concerning the disposition of persons convicted of certain enumerated sex crimes and providing for sentence, incarceration and treatment, repealing chapter twenty of the laws of one thousand nine hundred and forty-nine, and supplementing chapter one hundred ninety-two of Title 2 of the Revised Statutes," approved June eighth, one thousand nine hundred and fifty (P.L. 1950, c. 207).

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. Section one of the act of which this act is amendatory is amended to read as follows:

1. Whenever a person is convicted of the offense of rape, carnal abuse, sodomy, open lewdness, indecent exposure or impairing the morals of a minor or of an attempt to commit any of the aforementioned offenses, the judge shall order the commitment of such person to the Diagnostic Center for a period not to exceed sixty days. While confined in the said Diagnostic Center, such person shall be given a complete physical and mental examination.

2. Section six of the act of which this act is amendatory is amended to read as follows:

6. Any person committed to confinement, as provided for in section four hereof, may be released under parole supervision when it shall appear to the satisfaction of the (commissioner) State Parole Board, after recommendation by a special classification review board appointed by the State Board of Control of Institutions

-2-

and Agencies, that such person is capable of making an acceptable social adjustment in the community. It shall be the duty of the chief executive officer of any institution wherein such a person is confined to report in writing at least semiannually to the commissioner concerning the physical and mental condition of such person with a recommendation as to his continued confinement or consideration for release on parole (by said special committee). The State Board of Control of Institutions and Agencies is hereby authorized and empowered to promulgate rules and regulations for the parole, revocation thereof for cause, and the proper supervision on parole of said persons when released from confinement.

3. This act shall take effect immediately.

#### STATEMENT

The purpose of this bill is to make certain amendments to the Sex Offender Law which are indicated as necessary after considerable experience in the field of examining and diagnosing sex offenders.

It has been found that a great number of cases of open lewdness and indecent exposure involve minor children. Under the present wording of the law this crime is not included within the category of those sex offenses which require mandatory examination of the prisoner after conviction. It is, therefore, deemed advisable to add this sex offense by proper amendment and place those individuals within the purview of the act.

Experience further indicates that the Commissioner of the Department of Institutions and Agencies, never having exercised parole authority in the past, should not now be required to do so with respect to the release of sex offenders. It seems more desirable to have this function carried on by the State Parole Board, which is duly constituted by law to give consideration to the release of persons on parole.
