OVER-THE-COUNTER PERMITS

STREAM ENCROACHMENT (609) - 292 - 4869

DEP now has a one-day processing service for certain minor stream encroachment permits. This "over-the-counter" service is limited to minor projects which do not adversely change the water carrying capacity of the floodway, do not increase erosion or sedimentation in the stream, and do not require substantial channel modification or relocation. For further information contact the Bureau of Flood Plain Management, P.O. Box CN029, Trenton, NJ 08625

RIPARIAN (609) - 292 - 2613

DEP has a one-day processing service for minor Riparian projects. This over-the-counter service applies to water-front construction activity in man-made lagoons and minor maintenance and/or repair or replacement of lawful existing structures. For further information contact Riparian Lands Management, P.O. Box 1889, Trenton, NJ 08625.

SEWER EXTENSIONS (609) 292 - 0700, or (609) - 292 - 4869

DEP has a one-day processing service for "minor" sewer extension projects. Eligible projects must meet certain criteria, such as, length of 1000 linear feet or less, cost of \$25,000 or less, sewage flow per day of 12,000 gallons or less. No projects with pump stations, force mains, syphons, gallonage transfers or holding tanks will be processed over-the-counter. Projects can not be located in areas under sewer ban, administrative orders, or litigation.

Projects must be in-house by 9:30 a.m., and all administrative documents must be in proper order. Pre-application conferences are strongly recommended. Appointments for over-the-counter processing should be arranged through the Office of Business Advocacy (below). For further information contact:

DEP - Army Corps of Engineers Workshop Meetings on Passaic River Basin Study

The New York District, U.S. Army Corps of Engineers and the New Jersey Department of Environmental Protection will co-sponsor public workshop meetings on the preliminary draft Plan of Study for the Passaic River Basin Study.

The November 28 workshops are scheduled for 10:00 a.m. in the Commission Chambers, Nutley Town Hall, Kennedy Drive, Nutley, and at 7:30 p.m. in the Social Room, Madison Borough Hall, Hartley Dodge Memorial, Kings Road, Madison.

The Passaic River Basin Study is a Phase 1 advance engineering and design study which was authorized in the 1976 Water Resources Development Act. The Study objective is the development of a feasible and publicly acceptable plan for meeting the water and related land resources needs.

The Plan of Study, scheduled for completion in early 1979, is the document which presents the work elements, timing and schedule for the total study effort. It sets forth the major problems and needs in the Basin, identifies the alternative solutions and future plans to be considered, and establishes the overall scope and management of the Passaic River Basin Study.

These workshop meetings are part of an extensive public involvement and citizen participation effort being conducted in regard to the preliminary draft Plan of Study. The Corps of Engineers' Passaic River Basin Study Group is seeking opinions and comments on the preliminary draft from the people of the Passaic River Basin to incorporate into the final Plan of Study.
