To: OLSaideAMV <OLSaideAMV@njleg.org>;

it is unfair to spend more on veterans when such exemption from spending by them raises everybody elses taxes in this high tax state. we need every dollars we can get so that the poor can stay here when the nj legislature has causd such high spending and this is more high spending that will cause more poor people to leave this state. it is not fair to be so discriminatory to the poor people of this state by constantly demanding more and more in taxes. this exemptions means more taxes for other citizens. the tax demands are there. exempting a particular class of people just means everybody else pays more. these are non wartime vets.
