JOURNAL OF THE SENATE

STATE OF NEW JERSEY

SENATE CHAMBER

TUESDAY, January 13, 1953.

At 12 o'clock noon, this being the time and place appointed by the Constitution for the assembling of the Legislature, the Senate was called to order by the Honorable Harold W. Hannold, of Gloucester county.

On motion of Mr. Mathis, the Senate proceeded to the election of a temporary President.

Mr. Mathis then nominated Mr. Edward J. O'Mara, the Senator from Hudson County, as temporary President.

Mr. Mathis moved the nominations be closed, which motion was adopted and the Secretary was directed to cast the ballot.

Mr. O'Mara was declared elected temporary President.

Mr. Hannold appointed Mr. Frank W. Shershin, of Passaic county, and Mr. J. Richard Kafes, of Mercer county, to escort the temporary President to the Chair.

Mr. Mathis nominated as temporary Secretary, Oliver F. Van Camp.

The Secretary was directed to cast the ballot and Oliver F. Van Camp was elected as temporary Secretary.

Mr. Mathis moved for the election of a President *pro tempore* for the legislative year.

Mr. Mathis nominated Senator Hannold as President *pro tempore.*

Under the direction of the temporary President, the Secretary called the Senate and Mr. Hannold was duly elected President *pro tempore* by the following roll call:

In the affirmative were—

Messrs. Bodine, Cafiero, Clapp, Dumont, Farley, Forbes, Hand, Hull, Kafes, Littell, Mathis, McCay, O'Mara, Sharp, Stout, Summerill, Van Alstyne, Vogel, Wallace, Young—20.

In the negative—None.

The President *pro tempore* was escorted to the Chair and temporary President O'Mara administered the oath of office to the President *pro tempore* for the legislative year.

Mr. Mathis moved that the Senate proceed to the election of a President for the legislative year.

Which was agreed to.

Mr. Littell nominated Mr. David Young, III, of Morris county, for President of the Senate for the legislative year.

The nomination was seconded by Messrs. Sharp, Cafiero, Bodine and Dumont.

Mr. Mathis moved that the nominations be closed.

Under the direction of the President *pro tempore,* the Secretary called the Senate, and Mr. Young was duly elected President by the following roll call:

In the affirmative were—

Messrs. Bodine, Cafiero, Clapp, Dumont, Farley, Forbes, Hand, Hannold (President), Hull, Kafes, Littell, Mathis, McCay, O'Mara, Sharp, Stout, Summerill, Van Alstyne, Vogel, Wallace—20.

Mr. Young having received 20 votes was declared by the President *pro tempore* duly elected President of the Senate for the legislative year and was escorted to the Chair by Messrs. Bodine, Vogel and Wallace.

The oath of office was administered to Mr. Young by President *pro tempore* Hannold.

The President then addressed the Senate:

Fellow members of the Senate and all our friends gathered here to officially open the 177th Session of the New Jersey Legislature:

I desire first to thank each and every member of this Senate and to express my sincere and deep appreciation in your having elected me to the highest office of this great traditional body, the second highest office in the State.

I am aware of the great responsibility and duties of the office of the Senate Presidency. I accept that responsibility with a deep feeling of humility and pledge that I will carry on the great tradition of this office and discharge the duties thereof in a fair and impartial manner, in keeping with your great trust and confidence in me.

To my wife, mother and children, many friends from Morris county and other parts of the State, I desire to express my appreciation from the bottom of my heart for your loyal support and friendship over many years. This friendship and warm feeling has been an inspiration to me and has made it possible for the people of our county to have the honor of the Senate Presidency conferred upon it. This honor has been bestowed upon a resident of Morris county on only a few occasions in over a hundred years.

As the 177th Session of the Legislature convenes to carry on its work for the year 1953, we find the world facing one crisis after another, with a continuing strain on all people throughout the free world. The eyes of all parts of the globe are focused upon the United States and its component parts, the 48 States.

We find our men and women of the armed services and civilian life in the four corners of the earth, trying to bring order out of chaos, to carry faith, hope and encouragement to free men and women of all races, creeds, origins or nationalities of those continents. We find the forces of Communism trying to undermine the economy of all free nations. New Jersey has felt the effect of these trying times throughout the world, from many points of view, but particularly from an economic one. This has had a bearing on our solutions of the problems facing our State.

This session of the Legislature will have many important problems to study and solve. Some of them are of recent date but others are of a continuing nature.

For six years the Legislature has had the able guidance, leadership and co-operation of our great Governor, Alfred

E. Driscoll. During his administration the co-operation of the Legislature and Executive has produced the solution of many problems. The Legislature has realized the controversial nature of each of these subjects, but the co-operation and leadership of the Governor and Legislature has resolved the issues, bringing about a worthwhile solution to the benefit and general welfare of our great State.

Without attempting to name all the accomplishments of these past six years, I would like to mention a few. The adoption of our new Constitution will long be remembered in this State, together with the reorganization of the many departments, divisions and boards into a few, placing responsibility in one man. As a further result, it is to be noted that our judicial system has been changed so that at the present time it ranks first throughout the country, and its pattern is being followed in the many States.

The recent establishment and completion of the New Jersey Turnpike, connecting New York and Philadelphia, is one of our great assets of our State. It is of modern construction and has shown its ability to pay for itself. The recent enactment of the Garden State Parkway Authority has provided the means of bringing the northern and southern parts of our State closer together. It will release highway funds for the construction of other necessary roads, so needed in our State.

The creation of the Delaware River Port Authority has provided for the creation of a great port in that area.

Many projects are being undertaken to provide for the development of additional recreation facilities, such as the purchase of the Phipps estate, creation of Sandy Hook reservation, and many others.

The modernization of our institutions is a milestone in the progres of our State, as well as the construction of additional facilities, which are so needed, at our teachers colleges in this State.

Many other accomplishments have been noted, such as veteran and housing legislation, employment security program, pioneering temporary disability benefits, improved workmen's compensation, new and modern parole system, youth guidance and narcotic legislation.

It would take too long to enumerate all the important program during this time, but it is sufficient to say that New Jersey has been an aggressive and modern State under the leadership of our great Governor.

I would like to pay tribute to the many cabinet members, officers and employees of the State, who have given so much of their own time helping to solve these many problems. Too few people of our State realize the interest that these people, both men and women, take in the affairs of our State, showing their extreme loyalty, real co-operation and interest in governmental affairs, giving unstintingly of their own time.

An address will be given today by Governor Driscoll at our joint session of the Legislature, making his recommendations for the year. I know that we will, as in the past, give due consideration to his proposals of major consideration, as by both co-operation and joint endeavor the accomplishments of this State have placed New Jersey first in many fields of endeavor in government and have been for the best interests of our great sovereign State.

I would like to speak briefly today on a few matters, touching slightly on a few subjects that will become a part of our legislative program.

Last year I introduced a bill to provide a Legislative Council in this State that would consist of legislators of both houses, to study the problems of our State, as a continuing body, and present a program from a legislative point of view at each session.

A great majority of our 48 States have Legislative Councils which are for the purpose of expert research and counseling of legislators, maintenance of reference library facilities, preparation of research reports, recommending of a substantive legislative program, preparation of bills and law summaries, together with drafting of same, and including statutory revision work. In some of the States, the Council has been used for a continuing study of State financing and expenditure reviewing, analyzing budget, and the auditing of State expenditures from a legislative point of view.

The legislators of New Jersey need a place where they may receive facts, have research performed and obtain in-

formation on any matter of legislation, and these facilities should be available in New Jersey. This type of program has brought results in other States and has more than paid for itself, and I do recommend it for your consideration.

During the last year or two, New Jersey has received a great deal of publicity concerning criminal activities. Last year we enacted a law which provided for a Law Enforcement Council. This council has had little time to perform its duties and has just started its active endeavors after a great deal of study. Although I am not in accord with having this council take the place of our traditional grand jury system, I do recommend that we continue this body, strengthening it in such a manner as to give it the necessary power, and give it ample financial support to carry out its duties. I am satisfied that honest people have nothing to fear, judging from the calibre of the members of its council, and that these powers will not be abused by them.

We cannot help but be impresed by the number of deaths and accidents in this State on our local, county and State roads, as well as the New Jersey Turnpike. We realize that New Jersey is a State between two great metropolitan areas and that the growth, both in population and traffic, has been tremendous. I would like to recommend to this body that one of our committees should investigate this problem and present any recommendations that might be necessary to help reduce this terrific toll of lives of our citizens.

This year the rules of our Senate will be amended to provide for an additional committee, named Teachers College Building Program Committee. This is a result of your thinking that the Senate should endeavor to follow the expenditure of the $15,000,000.00 bond issue for teachers colleges, approved in 1951 by the voters of the State. This committee will have the complete co-operation of the Governor and the Executive Department and should see that the program approved at last year's session is completed as quickly and as reasonably as possible.

Last year the Legislature submitted an additional $25,000,000.00 bond issue to the voters, which was approved last November. As soon as the program has been approved by the Legislature, I would ask that our Committee on Institutions and Agencies continue to see that this money

is spent wisely and with dispatch, and that the chairman of that committee continue to follow this program until its completion.

One of the largest problems of our State is providing free education to our youth. Our Constitution has a provision for the maintenance and support of a thorough and efficient system of free public schools for the instruction of all children in this State between five and 18 years of age. Municipalities of our State, and particularly those that have had a tremendous growth during the past decade, are finding it an insurmountable task. In the case of municipalities with a small amount of ratables for each child in the school, it is beginning to be an impossible one. Although under the leadership of our great Governor, Alfred E. Driscoll, the Legislature increased substantially the amount of State aid for that purpose, the cost of education has increased due to inflationary forces and the greater number of children in schools.

This year the amount will be increased again, as a result of action taken in the Special Session. Under the present revenues, it is nearly impossible for the State to assume any greater part of this duty guaranteed by the Constitution. To provide additional revenues is the responsibility of the Governor and the legislators, to be initiated in the General Assembly.

The difficulty presents the problem of the advisability of New Jersey incurring any new tax at a State level, with the present heavy load carried by the local and Federal taxpayers. The facts are that real estate is bearing a tremendous share of the tax with rates becoming higher each year. The Federal Government has placed taxes on many items, including a number that have always been considered as sources of taxes for the States.

In New Jersey, as has been pointed out a few years ago, a citizen does not pay any direct share of his cost of State government unless he drinks, smokes, bets on horses at tracks or pays an inheritance tax. I do not believe that it is a question of paying more taxes but one of spreading the cost of education among a greater portion of our citizenry, rather than have real estate taxpayers assume the greater burden.

It is my opinion that a citizen of one county owes the same duty as any other person in any other county to assume his part of the cost of our free educational system and that the burden of our public schools should not be placed on one small group of taxpayers of our State.

I would like to suggest that, nowithstanding the fact that this very involved question cannot be solved by any bill initiated in the Senate, that this body take the initiative to bring about a solution to this problem as it is very obvious to anyone in public life that this will be the end result in the near future.

These are only a few of the problems of our State, but a little later we will hear our great Governor, who will present to the joint session many important problems which I have intentionally avoided.

As we start this session with mixed emotions as to the outcome of our many world-wide problems, we all know it is the hope and prayer of each and every one of us, that Divine Guidance will be with our incoming President, General Eisenhower, so that these many problems and issues may be solved, and that the cause of a free people in a democratic world will continue and to that end let each and every one of us do everything in his power to perform his share of the tasks before us.

Mr. Mathis offered the following resolution, which was read and adopted:

Resolved, That the privileges of the floor be extended to Mrs. Kathryn Ely, Vice-Chairman of the Republican County Committee of Morris County, for the purpose of making a presentation to the President of the Senate.

Mr. Mathis offered the following resolution, which was read and adopted:

Resolved, That the privileges of the floor be extended to William Dean, Mayor of Butler, for the purpose of making a presentation to the President of the Senate.

Mr. Mathis offered the following resolution, which was read and adopted:

Resolved, That the privileges of the floor be extended to Leon Sanchez, Commander of Amputation Chapter, No. 53,

Disabled American Veterans, for the purpose of making a presentation to Senator Shershin, of Passaic county.

Mr. Mathis offered the following resolution, which was read and adopted:

Resolved, That Miss Joanne Shershin, daughter of Senator and Mrs. Frank Shershin, of the county of Passaic, be designated as the sweetheart of the Senate of 1953.

Mr. Mathis moved that the Senate proceed to the election of a Secretary.

Which was agreed to.

Mr. Mathis, Senator from Ocean county, nominated Oliver F. Van Camp, of Ocean county, for Secretary for the legislative year.

Mr. Mathis moved the nominations be closed.

Which was agreed to.

Under the direction of the President, the Secretary called the Senate and Mr. Van Camp was duly elected Secretary by the following vote:

In the affirmative were—

Messrs. Bodine, Cafiero, Clapp, Dumont, Farley, Forbes, Hand, Hannold, Kafes, Littell, Mathis, McCay, O'Mara, Sharp, Shershin, Stout, Summerill, Van Alstyne, Vogel, Wallace, Young (President)—21.

In the negative—None.

Mr. Van Camp having received 21 votes was declared duly elected Secretary of the Senate for the legislative year.

The oath of office of Secretary of the Senate was administered by the President.

A message was received from the Governor by the hands of his Secretary, consisting of four communications endorsed "Nominations."

Mr. Mathis offered the following resolution, which was read and adopted:

Resolved, That a committee of three be appointed to await upon His Excellency the Governor and inform him

that the Senate has organized and elected Honorable David Young, III, of the county of Morris, President, and Oliver F. Van Camp, of the county of Ocean, Secretary, and is now ready to proceed to business and also to receive any communications that he may forward.

President Young appointed Messrs. Wallace, Farley and Sharp.

Mr. Mathis offered the following resolution, which was read and adopted:

Resolved, That the Secretary of the Senate be directed to inform the General Assembly that the Senate has organized and elected the Honorable David Young, III, of the county of Morris, President, and Oliver F. Van Camp, of the county of Ocean, Secretary, and has proceeded to business.

Mr. Mathis offered the following resolution, which was read and adopted:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring), That at 1:30 o'clock P. M., both Houses of the Legislature meet in joint session for the purpose of receiving the annual message of His Excellency Alfred E. Driscoll, Governor of the State of New Jersey, which will be delivered in person.

Which was agreed to.

SIXTH ANNUAL MESSAGE

Mr. President, Mr. Speaker, Members of the Senate and General Assembly:

As we open this legislative year, our first and foremost thought must be for those who are fighting the terrible, undeclared war in Korea against a tough and ruthless adversary. Our military forces must be given every advantage that the finest materiel and most able diplomacy can afford. We all share the hope that a new national administration will bring the Korean war to a successful and honorable conclusion. This war, however, is but one aspect of the contest for freedom in which our Nation is engaged on a global scale. During this period of national emergency, we must stand ready to apply the principles of equality of sacrifices without fear or favor.

Despite the best efforts of the new administration, we shall undoubtedly be faced with a substantial continuation of the heavy Federal tax burdens. All governments will be required to sacrifice some of the extras that we would all like to have, but which must be deferred until the day when peace has been achieved and, at the very least, a balance of power secured which will permit us to substantially reduce expenditures for the military service. During this period, our State and municipal governments may be required to postpone the inauguration of policies, however desirable, which would place too heavy an economic burden upon a people already struggling under a war economy and its tax burdens. In the operation of our government, as well as in our daily conduct, we must be realistic as well as optimistic.

During the past six years, New Jersey has achieved a legislative record unsurpassed in this country. During a

period that has been marked by worldwide frustration and national disappointments, New Jersey has gone steadily about the business of strengthening the foundations of free government and preparing itself for an ever-increasingly important position in our Union of States. We have steadfastly insisted that the best road to domestic security is to be found in a prosperous, dynamic, free enterprise economy.

Accordingly, a first objective of my administration has been to create and maintain the kind of governmental environment in which our industrial life could grow and expand. The number of new industries moving to New Jersey or building new plants—all providing precious, new and better job opportunities—demonstrates that New Jersey does have a favorable environment for private enterprise.

During the period that I have mentioned, there were many significant achievements and, as was to be expected, some serious disappointments. The programs that you have initiated are now being copied by many of our sister states.

During 1952, we made good progress in the expansion and modernization of our institutional facilities. This program is bound to result in substantial benefits to society generally.

We have taken the first long steps to reduce the incidence of chronic illness and provide for more effective care for those who become chronically ill. A comprehensive program for insurance to protect our Civil Defense volunteers has been placed in operation.

For the first time in the modern history of our State, we adopted a comprehensive building program for our teacher colleges. Our teachers' pension program, a strong inducement to teach in this State, was liberalized and strengthened.

Unsound local police and firemen's pension funds were finally converted into a sound pension program. Provision was made for equal pay for equal work for women in busi-

ness and industry. Our social insurance programs, including workmen's compensation, temporary disability insurance and unemployment compensation, were strengthened, liberalized and improved in administrative procedures.

We have moved from one effective program to another with such rapidity that yesterday's accomplishments appear to be soon forgotten or at least accepted as a matter of course. For example, the final and, perhaps, most important section of the main stem of the New Jersey Turnpike, was completed in January of last year. In the first 12 months of its operation, this modern highway was used by more than 18,000,000 vehicles. It is easy to imagine the condition of our parallel State highways if this volume of traffic had been forced to use them.

During last year, despite steel shortages and other handicaps imposed by the current world crisis, we continued the most important State highway construction program in the history of New Jersey. Among the significant achievements of the past year was the approval of plans for the speedy completion of the 165-mile Garden State Parkway. I am pleased to report that work on this project is proceeding "ahead of schedule." In co-operation with Pennsylvania and New York, provision has been made for additional interstate crossings of the Delaware and the Hudson.

Provision was made for the protection of New Jersey residents against financial loss due to injury by uninsured motorists operating vehicles in this State. The legislation adopted in 1952 gives New Jersey one of the most comprehensive plans ever adopted in this country. Our State Police forces have been expanded, new training programs for local police forces provided.

Further steps were taken to strengthen our law enforcement activities in a campaign against the forces of crime and corruption that have grown surprisingly strong throughout our Nation. For decades this growth has fed on public complacency, a lack of a comprehensive State and interstate plan to combat these forces, and failure of all levels

of government to accept their rightful responsibilities. At long last, we now have a co-ordinated program. Our forces have been mobilized and effective steps are being taken to overcome the menace. Among the important steps taken last year was the creation of a Law Enforcement Council, which, as I indicated in my Message of a year ago, was designed "(1) To develop plans and programs insofar as possible to eliminate the basic causes of crime; (2) To review and evaluate our criminal laws for the purpose of making them more effective deterrents to crime; (3) To examine and appraise, on a continuous basis, the administration of all law enforcement facilities and, *wherever necessary in its judgment, make such investigations as may be required to permit it to advise the Governor, the Attorney General, the Legislature and our citizens on law enforcement within the State.*"

These and other accomplishments are part of a program that began with constitutional revision and was continued when we achieved the best judicial system in the country, reorganized the Executive Branch of our State Government, adopted a modern social security program, built new super-highways and modernized institutions, established a truly significant civil rights program, with one first-class citizenship for all, and provided comprehensive provisions for our veterans upon their return to civilian life.

We have lived within our income, balanced our budgets, and are now operating our State Government with fewer State employees in proportion to our population than any other State in the Nation. We shall continue these prudent policies.

Our task now is to complete the progress that we have begun, to consolidate our gains and to prepare for new and imaginative improvements and services that must soon be undertaken. Government is a dynamic business. Old problems refuse to stay solved and the legislative defeats of yesteryear are the foundation upon which we build the next year's achievements. Deterioration in government begins when those entrusted with its administration are

satisfied that it has reached its peak of efficiency. In our business there is always room for improvement. While perfection is our goal, a government of laws administered by men and women is hardly likely to achieve that objective. Hence, the challenge to try to achieve this illusory goal is one of the principal attractions for men and women of good will to accept "a painful and thankless office." Changing circumstances require us to reappraise old programs and seek new solutions for new as well as old problems. In this message, I shall not attempt to outline all of the subjects that will require legislative action. A number of the more acute issues confronting our State, of very great significance, must be considered against the background of available revenues. These will be discussed in the Budget Message.

REAPPORTIONMENT

Equitable representation of the people of our State is a key requirement of our republican form of government. While there may be some difference of opinion as to the mathematics of the question, there can be no compromise with the immediate need to reapportion the General Assembly in accordance with the 1950 Federal census of population, as required by our Constitution. I renew my recommendation that you make this a first order of business, since the failure to act promptly may make it impossible in a number of counties to nominate and elect members of the General Assembly in accordance with the requirements of the Constitution.

ABSENTEE VOTING

The best guarantee for the preservation and strengthening of our way of life lies in the widest possible participation by voters in elections. The right to vote is one of the great privileges of American citizenship; and yet that right has been denied to a substantial number of our citizens otherwise qualified to vote, because New Jersey does not have a civilian absentee voting law. A New Jersey citizen in the

military service is eligible to vote under our military service voting law; but his wife, who may be with him away from the State, is denied the privilege.

This State once had a civilian absentee voting law. It was repealed in 1926 due to abuses in its operation. The sponsor of the repeal bill cited as reasons for repealing the law the opportunity afforded for fraud, the fact that few qualified absentees availed themselves of the voting privilege, and the expense entailed in printing a relatively large number of ballots that were not used.

Apparently there was some fraud during the time the law was in effect, for on March 13, 1926, an editorial in the *Trenton Evening Times* stated:

> "There is no question but that the law providing for the casting of ballots on election day by voters absent from the State has been abused."

Conditions have changed materially in the past quarter century. The new mobility of our citizens, due to world conditions, decentralization of industry, and improved transportation have combined to make a new absentee voting law essential. Fortunately, we now have permanent registration, which they did not have in 1926. It is my conviction that a properly designed law could be well administered and that it is possible to protect the integrity of our ballot while permitting civilian absentee voting. Accordingly, I recommend: (1) Absentee voting be authorized for any registered voter who is absent or expects to be absent from this State on election day; (2) absentee voting be authorized for any registered voter who is unable to appear at the polls due to illness or physical disability; (3) voters be permitted to cast their "absentee" ballot in person at the office of the County Board of Elections during the weekend preceding election day—a form of this privilege is provided in 18 states and in our military service voting law.

I also recommend that the time within which the military service ballot must be mailed be extended to 45 days prior to any election.

It is important to go further, however, and consider the removal of any other needless impediments to the exercise of the voting privilege. It would be worthwhile to reconsider all of the qualifications for voting, including the requirement of residence for five months within the county.

COURT INTEGRATION

Under our new Constitution, and with great judicial leadership, we have achieved a judicial system generally recognized as the best in the country. In his Annual Message to the New York Legislature last week, Governor Thomas E. Dewey, in urging judicial reform in that State, said: "In the neighboring State of New Jersey we have seen an enviable improvement in the administration of justice." Despite the excellence of our judicial system, this bulwark of our republican form of government may further be strengthened and improved.

A month ago, the Constitutional Convention Association, composed of the living delegates to the Convention of 1947 and a limited number of representative citizens of New Jersey, overwhelmingly approved integration of the present County Courts with the Superior Court. This decision by the members of the association, following intensive study by its judicial committee, confirms previous recommendations made by me on this subject. It is interesting to note that substantially all of the delegates who were in the forefront of the opposition to inclusion of the County Courts in the completely unified plan submitted by the Judiciary Committee at the Constitutional Convention have, in the light of subsequent experience, altered their views.

There are a number of substantial reasons for integrating the present County Courts with the Superior Court. The basic flexibility of the present system does not overcome the inherent disadvantages which flow from the necessity of maintaining separate County Courts with jurisdiction over judicial business for which the Superior Court is entirely appropriate. A separate County Court

means separate judges who have neither the status nor the security of Superior Court judges. The judicial assignments of county judges can only be on a temporary basis, and the present arrangement necessitates the undesirable practice of having some part-time county judges assigned to try matters pending in a higher court.

Existing constitutional distinctions between the Superior Court and the County Courts require special treatment, procedures, schedules of fees, records and trained personnel. Integration will eliminate the possibility of error, delay, unnecessary expense, and possible injustice. It will insure for the people of our State the fullest measure of prompt and efficient judicial administration.

It is difficult to obtain the best available talent for appointment to the County Courts. Practicing lawyers, who have achieved outstanding reputations for their legal abilities, will not lightly abandon the far greater financial returns available to them in private practice to accept any lesser place on the Bench than the Superior Court would afford.

There would appear to be two methods by which we may achieve the integration that is now earnestly recommended: The first method is by constitutional amendment. The second method is to proceed within the framework of the Judicial Article of the Constitution. The delegates to the Constitutional Convention in 1947 wisely included the following provision (Article VI, Section IV, paragraph 4): "The jurisdiction, powers and functions of the County Courts and of the Judges of the County Courts may be altered by law as the public good may require." Under the authority of this provision of the Constitution, the Legislature may alter the existing County Courts by repealing their existing jurisdiction and transferring to them all of the jurisdiction, powers and functions of the county district courts. If the Legislature will adopt this course of action, it may increase the number of Superior Court judges to permit the transfer by appointment of the present

County Court judges to the Superior Court and the transfer of existing county district court judges to the new County Courts. The compensation of the judges of the new County Courts would, of course, be the same as that now paid to the same judges in their capacities as judges of the county district courts. The counties should be relieved of the burden of paying the salaries of these judges. The county district courts, as such, would be abolished after the transfer of their jurisdiction and judges to the new County Courts. There are advantages to this procedure which go beyond the immediate purpose of integration of the existing County Courts with the Superior Court, including a new opportunity to strengthen the operation of our traffic law enforcement.

With respect to the operation of the judicial system, I repeat my previous recommendation that the authority to appoint jury commissioners be transferred to the Supreme Court where it naturally belongs. The jury system is an integral and very important part of our judicial system, and it should be administered as part of the general administration of justice. Such a step could, moreover, develop into a useful contribution to improved law enforcement.

CRIME

The strengthening of our local governments coupled with a greater and more productive participation of our citizens in political activities has been and continues to be a major goal of this Administration. We have worked long and hard to bring home to our citizens the full realization that they have it in their power to achieve the kind of government they want. Time and time again, we have stressed the vital importance to good government of sound local law enforcement programs. Our local police forces are and must continue to be the first line of defense against those who would

violate our laws. Aided by an ever-vigilant press, substantial strides have been made in arousing public interest in the need to attain this objective.

In 1949, following a complete reorganization of our State law enforcement agencies, we opened a broad attack on the problem of organized crime—something that all signs now indicate was neglected by all levels of government in many parts of the country for more than a generation. The task carried us into questions of local police departments, the operation of the courts and county prosecutors' offices, prison and parole administration, and a whole range of interstate and even international implications of organized crime. We knew the job would be long and difficult. Syndicated crime does not respect state lines. Our geographic location, in the most densely populated region in the United States, has its disadvantages as well as its advantages. We warned in 1949 that there would be repercussions and that the dirt that had theretofore been hidden would be exposed, whatever the consequences.

Frankly, I have been impatient with our progress even though much has been accomplished. We have revitalized our criminal courts and procedures, alerted all county prosecutors and superseded those who have moved too slowly or failed in their assignments. We have strengthened the State Police to augment the work of local police departments. The Department of Law and Public Safety has succeeded in breaking at least three major crime syndicates—lottery, bookmaking by telegraph, and gambling combines of nation-wide scope—and caught some underworld chieftains in our nets.

Our State has been singled out for commendation by the head of the Federal Bureau of Narcotics as "doing more than any other state to suppress the abuse of narcotic drugs"; and the establishment of our State narcotic squad as an arm of the Division of State Police has been termed by him "the finest act taken by any state in recent years." Our State law enforcement officers gathered and provided

valuable evidence to the Federal Senate Committee to Investigate Crime and to the New York State Crime Commission; and they have reciprocated. Much has been done and much more will and must be done. But it is apparent that all levels of government have underestimated the nature, strength and ingenuity of the enemy.

I have not been satisfied with the results to date—I will not be satisfied until every violator has been indicted, tried and convicted; and until corrective measures to prevent the recurrence of the evils are adopted and put into effective operation. We have set our sights upon these objectives. I am convinced that our forces of law enforcement are now geared up to the true size of the gigantic problem of organized crime.

The bi-state waterfront investigation which New Jersey initiated in 1951 with our neighboring State of New York is still in its early stages. Racketeering and restrictive practices which have apparently plagued the waterfront for half a century must be routed out if we are to keep the Port of New York a pre-eminent center of shipping and commerce. It should be remembered, however, that sensational headlines alone do not produce lasting remedies. When the first phase of the current investigation of the waterfront is completed, I plan to submit to you specific proposals for the further strengthening of our law enforcement activities along the waterfront. The corrective legislation will undoubtedly be required to be uniform in character and in the finest tradition of interstate co-operation that has prevailed between the States of New Jersey and New York.

Accordingly, I urge that you immediately strengthen the hands of our Law Enforcement Council. This can be done by adopting the recommendation which I submitted to you in my Annual Message a year ago, that our Law Enforcement Council be made a permanent continuing agency with adequate financial support.

During the past year, I discussed with the members of our Law Enforcement Council the work of our prosecutors

and the structure and functioning of their offices. I am requesting the council to consider a proposal that seems to me to have much merit; namely, that in all counties where there is provision for more than one county judge, the prosecutors and the members of their staffs be required to devote full-time to their duties. I recognize that the adoption of this proposal would require the persons who accept the difficult and frequently very burdensome task of prosecutor to make substantial sacrifices. In the past, it has not always been easy to secure the acceptance of the best qualified men for appointment to the position of prosecutor. If the proposal made to the council were accepted and prosecutors and members of their staffs in the counties designated are not permitted to engage in the private practice of law, as in my judgment should be the case, I would recommend that the prosecutors be given the same salary as a Superior Court judge.

During recent years, we have witnessed the unedifying spectacle of officials who refuse to testify when called before public investigatory bodies. The practice has been common in Washington; it is not unknown elsewhere in the Nation. The constitutional privilege against self-incrimination has been used to keep from the public information of the most vital concern and which it has every right to have. This privilege has been invoked by those who have held public office while unfaithful to their trust, irresponsible in action, corrupt or disloyal. There is no logic in permitting a public official or employee who so refuses to testify to continue to exercise the powers and advantages of his office. I strongly recommend legislative action which will forfeit the office or position, tenure and pension rights of any such person.

CORRECTIONAL INSTITUTIONS

The fact that New Jersey has been sending criminals to jail—among these some who, despite their activities, appear to have been immune from punishment in other states—was brought unpleasantly to our attention last year when a comparatively few inmates of our correctional institutions participated in disturbances that had their counterparts elsewhere in the Nation. The only concessions made by the authorities were that there would be an investigation of the parole system, the prisoners having expressed an opinion that our parole system was unduly harsh, and that corporal punishment, prohibited under the rules of the Department of Institutions and Agencies, would not be meted out to the rioters.

Until the new Constitution was adopted in 1947, the office of Principal Keeper of the State Prison had a constitutional status. Since 1951, when the constitutional status of the carry-over Principal Keeper terminated, and on my insistence, the appointing authority has resided in the Board of Managers of the Prison, subject to the approval of the State Board of Control of Institutions and Agencies. As a result, we achieved a career administration for the first time in the modern history of that institution. The one condition I imposed upon the appointing authority and our Board of Control was that appointments be based upon merit and that the Principal Keeper and his staff be qualified by experience, character and judgment to perform their difficult duties. This change opens up new opportunities for our penal and correctional institutions. The transition from the old *laissez-faire* days, when the prisoners were reasonably content because in effect they exercised an authority they never should have been permitted to exercise, was not expected to be an easy one. Unhappily, my fears were confirmed.

It is my hope that you will read the constructive report of the committee I appointed to examine and investigate the prison and parole systems of New Jersey. Mr. Justice

Harry Heher and his associates, Dr. Austin H. MacCormick and Mr. Stanley P. Ashe, are entitled to our grateful acknowledgment and thanks for the time and effort they devoted to the investigation as well as for the constructive character of their excellent report. Many of the recommendations contained in the report either have been or are in process of being adopted. The report confirms an opinion I have previously expressed to the effect that "the State Prison at Trenton has long since outlived its usefulness * * *."

The purpose of our correctional institutions is at least threefold: the protection of society, the custody of prisoners, and the rehabilitation of the offenders. We must constantly bear in mind that in most instances prisoners committed to our correctional institutions will be returned to society. Accordingly, our physical facilities, the staff and the program must be designed to rehabilitate the prisoner, returning him to society as a useful citizen determined to avoid any further conflict with the law.

We should promptly begin the construction of a new prison to replace the present State Prison in Trenton. In the meantime, improvements presently in process at Rahway should be completed. Our correctional institutions are an important and integral part of our institutional program.

A substantial portion of the money that has been authorized by our citizens for the improvement of our institutions should be made available for the beginning of construction of the new prison.

During the past year, our Departments of Institutions and Agencies and Civil Service, under the leadership of Commissioner Sanford Bates and Dr. Lester Clee, respectively, have completely reviewed, revised and strengthened the civil service in our correctional institutions. Our salary schedule is now one of the best in the country. This should permit us to recruit competent men. In addition, new training programs for personnel have been initiated which should prove very helpful.

With increasing rapidity we are overcoming the neglect of a great many years in the physical facilities of our institutions. As a result of the action taken by you last year, our citizens confirmed our judgment that the capital improvement program for the modernization and expansion of our institutional facilities should be continued. It is my hope that the legislation allocating the funds for this important program will be promptly approved.

YOUTHFUL OFFENDERS

In my Annual Message last year, I pointed to the Highfields Experimental Treatment Project as one of the significant New Jersey contributions to the difficult task of treating the young offender. I stated that it was entirely possible that with this project New Jersey may have discovered a type of treatment for the pre-delinquent and adolescent offender which is more economical, more humanitarian, and more effective than the traditional type of discipline heretofore imposed.

The Highfields Project has been conducted by the State Department of Institutions and Agencies since July 1, 1950. For a completely objective evaluation of the effectiveness of the work of that project, an independent agency was established to undertake a detailed, five-year study of the work being performed and its effects in the treatment of boys sent to the Treatment Center. The Director of Research for the agency, the Scientific Advisory Committee, has recently filed an interim report based on a 17-month operational period. The citizens of New Jersey may well be encouraged by the results already disclosed. For example, the report states that the Highfields Project "accomplishes as much, if not more, in its four months of residential treatment as the reformatory at Annandale does in its more than twelve months." In the cases included in the study, 85 per cent of the boys released from Highfields were shown to be successful on probation or parole, as compared with only 61 per cent for Annandale. "High-

fields," the report concludes, "may even do better, but such results can only be known after more cases are analyzed in the years ahead."

I cite this merely as another illustration of a bold New Jersey experimental program of attacking the basic causes of crime while at the same time conserving our human resources. This program as well as the tremendously encouraging program of the Child Treatment Center at Allaire, that of the Diagnostic Center, and others that are presently being administered by the Department of Institutions and Agencies should be supported and expanded.

TRAFFIC SAFETY

The daily accidents on our highways constitute a "crime" of another character. On several occasions county prosecutors have recommended that the words "willful" and "wanton" should be deleted from the statute having to do with death by automobiles. The alarming number of deaths and accidents on our highways overshadows the fact that New Jersey has one of the best highway safety records in the country. It must be improved. We can ill afford to adopt a complacent attitude toward this problem.

In the Fall of 1951, we created the Bureau of Traffic Safety, in the Department of Law and Public Safety. This Bureau is presently providing constructive leadership in a comprehensive, state-wide traffic safety program.

The "point system," adopted by the Department of Law and Public Safety last year, is proving a useful preventive measure, designed to deter users of our highways from reckless and careless conduct. It is significant of the public concern that this measure has won widespread public support.

Likewise, the driver clinic that we established last year as a part of our program to reduce the number of motor vehicle violations, has already demonstrated its worth and should be continued.

Now I recommend the adoption of legislation, proposed by the State Co-ordinating Council on Traffic and Safety, for special examinations and licenses for the drivers of tractor-trailers.

Likewise, provision should be made in our laws for limited driver licenses to be issued by the Division of Motor Vehicles based on scientific tests where individual disabilities demonstrate that such limited licenses are in the public interest.

HIGHWAYS

I am pleased to be able to report that the plans for extensions of the New Jersey Turnpike have been substantially completed and that work on several of these extensions will be begun in the near future. In the case of the Newark Bay Bridge and the Hudson County extension, this has thus far been a co-operative venture of the New Jersey Highway Department and the Turnpike Authority.

As was to be expected, the New Jersey Highway Authority, responsible for the construction of the Garden State Parkway, and the Highway Department, have collaborated to speed the completion of this tremendously important project.

The Highway Department itself is proceeding with its construction program as rapidly as steel and available funds will permit. If we are to protect our new highways from commercial encroachment and the hazards of traffic friction that inevitably accompany marginal business, the Department should be given a greater opportunity to build limited-access highways and freeways. The legislation adopted last year should be expanded this year. This action by you will permit the Highway Department to build State highways that will support the free and safe flow of traffic on our new highways and protect them against unsightly encroachments.

INTERSTATE CO-OPERATION

In 1952 we substantially expanded our interstate co-operative programs. The new interstate crossings that are being constructed under or over the Hudson and Delaware rivers are a challenge to this State to build the finest approach highways to these new crossings that have ever been planned or built in this country.

In addition to the new crossings that are actually being built (one of these was completed in December of 1952), it is apparent that we will need additional crossings. I am requesting the Delaware River Port Authority to plan now for another crossing of the Delaware between Gloucester county and the southern part of Philadelphia.

We have completed our studies and preliminary engineering plans for a ferry service between Cape May and Lewes, Delaware. Looking further ahead, it is apparent that within the foreseeable future a bridge will span the Delaware Bay and we shall have, for the first time in the history of our country, a complete "ocean highway" from Florida to Maine. The construction of such a bridge would be of inestimable benefit to the southern part of our State.

The need for high-speed rail transportation in the North Jersey-New York metropolitan area, as well as in the South Jersey-Philadelphia metropolitan area, is becoming more urgent every day. We are fortunate in now having State and interstate agencies committed to determine the development of a blueprint for action. I refer to the Delaware River Port Authority, created by the Legislatures of the States of Pennsylvania and New Jersey in 1951; the Port of New York Authority, which has rendered such important service to the citizens of New York and New Jersey; and the Metropolitan Rapid Transit Commissions, created respectively by the Legislatures of New York and New Jersey last year.

I continue to be of the opinion that one of our primary needs is for additional rail facilities between the metropoli-

tan areas of New York and North Jersey, Philadelphia and South Jersey.

The rehabilitation of Port Newark by the Port of New York Authority, pursuant to legislation adopted concurrently by New Jersey and New York in 1948, will soon be followed by the modernization of important Hoboken piers which will materially strengthen the economy of Hudson county and the entire State. The Port Authority has spent or committed about $20,000,000 in its rehabilitation and development program for Port Newark. It is estimated that the cost of rehabilitating the Hoboken harbor area will amount to approximately $22,000,000. Since commerce is a part of the lifeblood of our economy, these activities and others that have been completed—including the $8,000,000 Union Motor Truck Terminal in Newark designed to take huge over-the-road trucks off city streets, the new runway at the Newark Airport, and the bus terminal in New York that serves over 60,000 New Jersey commuters daily—constitute important achievements of interstate co-operation.

NATURAL RESOURCES

Last year you made provision for the acquisition of additional water reserves and recreational areas.

We are nearing the end of our negotiations for the purchase of Island Beach.

We have reached a tentative agreement with representatives of the Federal Government with respect to the Wharton Tract, with its important recreational opportunities and water reserves.

It is my hope that during 1953 we will complete our negotiations for the acquisition of Sandy Hook.

EDUCATION

In 1952, near the end of the legislative session, you received the concluding section of an important report from our State School Aid Commission recommending an in-

crease of from $55,000,000 to $60,000,000 in State aid for public education.

I wish to express my personal appreciation to the Commission for the time and energy it devoted to its work and to thank it for the contribution it has made to public thinking on one of our most important problems. The Commission, in its report, recognized that consideration of its proposals raised many perplexing issues that obviously could not be settled over-night. It is obvious that any substantial increase in State aid will require additional revenue which must be provided by the Legislature. Therefore the Commission concluded: "Until a proper program of taxation sufficient to provide the additional support recommended by the Commission can be determined and made operative, the Commission urges the Legislature to make available as much additional State School Aid from other sources as can be appropriated." This has been done.

I am sure that the appropriate committees of this Legislature will wish to consider very carefully the recommendations made by the State School Aid Commission.

Certain facts stand out in the Commission's report. The first of these is that New Jersey has one of the best public school systems in the United States, judged by the amount of expenditure per pupil in average daily attendance. The purpose of the proposed additional State aid, and this is another fact of the report, is directed as much to diverting the burden of supporting this excellent school system from local real estate to some other tax base to be specified by the Legislature, as it is to the provision of additional State aid in and of itself. The question of more State aid thus becomes as much a question of tax policy as of educational policy. In brief: Is it better to continue to pay for our schools principally from the local real estate tax, or would it be better to adopt some new and additional tax to be collected by the State and distributed to school districts, thereby shifting some of the burden to a non-property tax base? It is pertinent to note that so-called replacement taxes seldom achieve their objectives.

The question of State aid for schools is easy to confuse with the quality of public schools. We all want the best possible public schools, adequately financed. During the past five years, we have taken some rather effective steps to increase teachers' salaries, substantially increase State aid for education and, as previously noted, to liberalize and strengthen teachers' pension programs. Now we are engaged in the task of enlarging our teachers' colleges so as to increase the number of graduates who will be prepared to teach in our public schools.

Any consideration of our tax and school problems requires us to consider present methods of distribution of State aid for education. The formulas are inequitable and need to be completely revised. Even the measure of need for State aid must depend upon reform of the real estate tax which presently provides the major financial support for education.

There will shortly be submitted to you a report of the Commission on State Tax Policy. The Commission, at my request, has been engaged in an intensive study of assessment and equalization of real estate taxes.

In my Inaugural Address in 1947, and on more than one occasion thereafter, I have stated that our entire system of taxation—which is really no system at all—needs overhauling and that we should begin with our local assessment procedures and practices.

All of these subjects—so intimately interwoven—will be discussed by me in the Budget Message.

SOCIAL WELFARE

A task of every modern government worthy of public confidence is to help its citizens to maintain at least minimum standards of human decency. The privilege of the more progressive and able governments is to raise those minimum standards in recognition of the general rise in the standard of living. Since our economy is not static,

and since the battle against human misery is never completely won, we are well advised to review each year the progress we have made and the current needs of all social welfare programs.

Over the past six years, constructive co-operation between the Legislative and Executive Branches of our State Government has produced many major improvements. Beginning with the guarantee of labor's right to organize and bargain collectively, incorporated in the new Constitution, our State has made good progress in assuring equality of opportunity and a single first-class citizenship. A pioneer and leader in the field of workmen's compensation, New Jersey now enjoys the benefits of full coverage of all occupational diseases under our workmen's compensation law. We are one of only four states (California, New York, and Rhode Island are the other three) to adopt a temporary disability benefits program which is now safeguarding more than 1,800,000 workers against loss of wages due to off-the-job accidents or illness.

In recognition of the increase in the cost of living and of the rise in general wage structure, the benefits of all social insurance programs (workmen's compensation, unemployment compensation, and temporary disability benefits) have been substantially increased. Last year, at the same time that you enacted the most recent of the benefit increases, you provided for a complete overhauling of the legislative standards and administrative procedures that apply to the unemployment and disability benefit systems. This is the first month that the new legislation has been in full operation and I am informed that its administration is proceeding smoothly.

We need some time to consolidate our gains. There is no reason to assume that we have gone as far as we ought to go in this type of legislation. The primary need this year, however, is to strengthen and improve the programs we already have. To this end, I recommend legislation to:

(1) Extend the coverage of the unemployment compensation and the temporary disability benefits laws to include those working for firms with 1-or-more employees rather than the present 4-or-more coverage. Under the Federal social security law and our own State workmen's compensation law, these smaller firms are covered, and there is no reason to discriminate against them in other social insurance programs.

(2) Revise our State minimum wage law so as to establish a uniform hourly minimum in conformity with Federal regulation of interstate commerce, and continuing the present provision for wage orders, setting higher minimum wages applicable to specific industries, upon appropriate economic findings.

(3) Increase the maximum workmen's compensation rate payable to widows and other dependents in death cases from $25.00 per week to $30.00 per week, for the number of allowable weeks. As a result of recent amendments, the workmen's compensation law now provides for a maximum weekly compensation rate of $30.00 for temporary disability, and for partial permanent disability and total permanent disability. We should make the maximum weekly amount payable in death cases conform to the previously established amount in other cases.

I shall submit additional recommendations to you during the course of this legislative session. It has been well said that in the long run the best economic security for the wage earner must depend upon steady employment at a good rate of earnings. This principle is recognized in the recommendations I am making to you and has been the guide to our proposals of the past. We have sought to discharge the proper responsibilities of State government to the working people in a leading industrial State, and at the same time to maintain New Jersey's position as a favorable environment in which to locate new employment-giving industries. That we have apparently succeeded in this policy is evident in the great increase in industrial develop-

ment throughout New Jersey. At the same time, we have been perfecting a superior social welfare program during the past six years.

PUBLIC ASSISTANCE

Specialists in public assistance are agreed that more should be accomplished in the integration of public assistance services administered by professionally qualified persons. They are not, as yet, agreed on the form and degree of such further integration.

The Commission to Study the Administration of Welfare in New Jersey, under the able leadership of Walter L. Kidde, has applied itself diligently to this knotty problem. I am informed that the commission will submit legislative recommendations. I urge that you carefully study them so that there can be agreement on legislation which will advance the objectives of fair and humane treatment to those in need, sound and professional administration, and economy of operation.

CHRONIC SICK

The inadequately controlled incidence of chronic illness is adding significantly to the mounting costs of all levels of government. We now know there are long-term chronic illnesses which are preventable. We have in the last year made a new and promising beginning on a control program. While we know that we cannot prevent all chronic illness, with the knowledge that we now have we can prevent some types of chronic illness and defer the onset of other types. Prevention is far cheaper than prolonged institutionalization and cure. We must, in my judgment, give very serious consideration to the possibility of strengthening the preventive program with the assurance that any investment that can be made will pay big dividends in the savings of institutional and other social costs.

LEGISLATIVE PROCEDURE

In the course of much of the constructive work we have accomplished together in the past, it has become apparent that improved legislative procedures could contribute to a better functioning of the Executive as well as the Legislative Branch of our State Government. I am fully conscious that the responsibility for legislative procedures is the particular province of the two Houses of the Legislature. Under the constitutional requirement that all bills passed by the Legislature be transmitted to the Governor for his consideration, however, certain aspects of legislative procedure may also affect the executive function. Over the past years, for example, it has been my duty, a distasteful duty I might add, to exercise the veto power, both qualified and absolute, over a substantial number of bills. From time to time, I have become aware of the fact that part of the difficulty has arisen because of inadequate legislative procedures.

At a time when democracy is fighting against a ruthless adversary in many parts of the world, it is more important than ever to preserve at home the highest possible standards of representative government. To this end, you may wish to consider the advisability of these steps:

(1) Provide an opportunity for a public hearing on every bill by the committee to which it has been referred. This will require the assignment of hearing rooms and dates for the various committees, and the establishment of a hearings calendar. I can assure you of the full co-operation of the Executive Branch to this end. Such a step should assure the removal of one major cause of dissatisfaction with the existing legislative processes.

(2) Require each legislative committee to submit a formal written report with the bills it reports out, and require it to report out any bill upon petition of seven Senators in the Senate or twenty members in the General Assembly.

(3) Strengthen and increase facilities of the Legislature for bill drafting and committee staffing, as the need appears.

MODERNIZATION OF STATUTES

The 1951 Special Session of the Legislature adopted a complete revision of Titles 2 and 3 of the Revised Statutes. Your prompt action in approving of the work of the Committee on Revision of Statutes added immeasurably to effective judicial administration in our State and has received merited national attention. I urge that you adopt the recently completed work of this important committee in order to insure a uniform body of practice and procedure and the effective operation of the Judicial Branch of our State Government.

The task of modernizing Title 48 of the Revised Statutes relating to public utilities is going forward. It is my hope that this work will be completed with all possible dispatch. The provisions of that title are clearly outdated; effective administration requires that they be replaced. In addition to this task, other titles affected by the Administrative Reorganization Program of 1948 are receiving the attention of the Legislative Commission on Statute Revision. The Legislature has taken a truly progressive step in re-considering the entire body of our statute law in the light of modern conditions.

This work of statutory revision will be of lasting public benefit. It will eliminate antiquated provisions, clarify and simplify governmental regulation, and assure every citizen the far-reaching benefits of a well ordered and clearly stated set of laws under which he is to be governed.

There are other important subjects which will require your attention. Among them will be rent control, a continuing attention to our veterans' benefits programs, and further reference to recommendations which I have made i-

previous messages. I will, of course, direct your attention to the salary needs of State employees, as well as to other financial matters, in the forthcoming Budget Message.

CONCLUSION

1953 may be reported as a year of transition. Within a few days there will be an historic change in the administration of the Federal Government. This is a proper and perhaps an auspicious time to reappraise the relationship between the various levels of government in the firm hope that such a re-examination of the business of government in this country, followed by appropriate action by Congress and State Legislatures, may make it possible for us (1) to strengthen and preserve American principles of government, including the restoration of a working federalism in this country; (2) conserve tax dollars, thereby securing less government and better government for less money; (3) conserve the time and energy of our executives and legislators, both State and Federal, by the elimination of a major portion of the divided responsibility that presently exists in many fields of governmental endeavor, including duplication of services and administration and competition for the same tax dollar; and (4) provide for the effective performance of essential governmental services by the agencies best equipped to perform those services.

A Committee of State Governors is presently engaged in a determined effort to reduce the cost of government and to achieve substantial progress on the program that I have outlined.

Therefore, as we consider the requests that are constantly being made to government for new services, involving as they do additional taxes, we must be mindful not only of the cost of our war effort but also the total impact of all taxes levied by all government on our citizens. We must consider every opportunity for economy and avoid the danger of piecemeal tax legislation. The obvious need is for a thorough co-ordinated overhauling of the Federal

and State tax laws for which the word "system" is hardly descriptive.

Over the years, we have worked together on the basis of mutual respect and confidence. We have recognized that in our representative form of government, an occasional disagreement, however disappointing it may be at the time, may be as much an evidence of strength as weakness. It is the weakness of the communists that compels them to stifle debate and requires slavish adherence to the party line.

In New Jersey, a dramatic evidence of our strength is to be found in the tremendous number of public-spirited men and women who daily serve as volunteers in various official capacities. Advisory boards and councils in the principal departments, as well as the members of our National Guard, the Air National Guard, the Naval Militia, and those who staff our Selective Service and Civil Defense agencies, are rendering outstanding service for which our State is grateful. The officers and men of our military forces have been acclaimed by representatives of the National Department of Defense for their efficiency as well as for their valor.

Among the many volunteer citizens to whom we owe a debt of gratitude are the 232,000 members of our civil defense forces. This number is a substantial increase over last year. Despite the fact that we spend less money for the administration of civil defense than almost any other state, the officers and members of our civil defense forces have won nation-wide recognition for their fine program and constructive service.

All of these volunteers are cast in the image of the men who first won our freedoms. They represent one of our best hopes, enlightened citizen interest and active participation in the government of our land. In them, we see democracy at work. Mindful of their service and the service of the men and women in our military forces, particularly those who are fighting a mean war, we can have faith and confidence that our Republic will survive all the vicissitudes of

a trying era. In their spirit of dedication, and with Divine Guidance, we may turn with renewed hope and understanding to take up our mutual responsibilities of the year ahead.

Respectfully submitted,

ALFRED E. DRISCOLL,
Governor.

[SEAL]

Attest:

LEON S. MILMED,
Counsel and Acting Secretary to the Governor.

Upon the conclusion of which and under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Bodine, Cafiero, Clapp, Dumont, Farley, Forbes, Hand, Hannold, Kafes, Littell, Mathis, McCay, O'Mara, Sharp, Shershin, Stout, Summerill, Van Alstyne, Vogel, Wallace, Young (President)—21.

Mr. Clapp, on leave, introduced

Senate Bill No. 1, entitled "An act concerning acts and statutes, and revising parts of the statutory law,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Revision and Amendment of Laws.

Mr. Forbes, on leave, introduced

Senate Joint Resolution No. 1, entitled "A joint resolution concerning the Law Enforcement Council and directing it to investigate and expose relationship between governmental officials and organized crime,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Judiciary.

Mr. Shershin offered the following resolution, which was read and adopted:

WHEREAS, It has pleased Almighty God, in His infinite wisdom, to call Robert Williams, of Paterson, to his eternal reward; and

WHEREAS, Mr. Williams was a brother of former Senator Henry A. Williams who represented the county of Passaic; and

WHEREAS, Mr. Williams was a valued citizen of the City of Paterson, a great philanthropist and humanitarian, and as publisher of the Paterson Morning Call and as a member of the Library Board of Trustees of Paterson for many years gave unselfishly of his time and ability for the benefit of his fellow citizens; and

WHEREAS, His passing will leave a deep void in the community; therefore,

Be It Resolved, That the Senate of the State of New Jersey does hereby express its sincere sorrow at the death of Robert Williams; and

Be It Further Resolved, That a copy of this resolution, signed by the President of the Senate, and attested by the Secretary of the Senate, be sent to his bereaved family.

On motion of Mr. Mathis, the Senate proceeded to the consideration of Executive business, on the conclusion of which and,

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call.

Messr. Bodine, Cafiero, Clapp, Dumont, Farley, Forbes, Hand, Hannold, Kafes, Littell, Mathis, McCay, O'Mara, Sharp, Shershin, Stout, Summerill, Van Alstyne, Vogel, Wallace, Young (President)—21.

Mr. Clapp offered the following resolution, which was read and adopted:

Be It Resolved by the Senate of the State of New Jersey:

That instead of the usual number of copies there shall be printed two hundred copies of each of The Senate Bills numbered one to fifty-four, inclusive.

Mr. Mathis offered the following resolution, which was read and adopted:

Resolved, That when the Senate adjourns it be to meet on Thursday morning at 11:00 o'clock, that when it then adjourn it be to meet on Saturday morning at 11:00 o'clock, and that when it then adjourn it be to meet on Monday morning, January 19, at 11:00 o'clock.

Mr. Clapp, on leave, introduced

Senate Bill No. 2, entitled "An act concerning agriculture and domestic animals, and revising parts of the statutory law,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Revision and Amendment of Laws.

The following message was received and read by the Secretary:

BUDGET MESSAGE

To the Members of the Senate and General Assembly:

This is the seventh Budget Message it has been my privilege to submit to the Legislature of New Jersey. It has much in common with my previous Budget Messages. Like its predecessors, it will cover a period of national crisis, when all of our citizens will be called upon to bear very heavy Federal tax burdens. As in the case of all previous budgets, we have achieved a balance between our available resources and recommended appropriations. We can carry on our present programs for another year without the need for new taxes.

On January 9, 1953, the then President of the United States submitted a Budget to Congress recommending total expenditures of more than 78 billion dollars. In his Budget Message, he anticipated a deficit of almost 10 billion dollars. This deficit in the Federal Budget, and the ones that have preceded it, constitute one measure of the inflationary forces that have bedeviled and harassed business, housekeepers, and State, county and municipal governments alike.

A first order of business for government is to put its house in order, confining its expenditures to available income—restricting exceptions to this rule to those limited occasions when the Nation may be in mortal peril. Even as men and women become accustomed to peril and accept peril as a part of their lives, so our Nation and its governments must learn to perform their normal duties in the world atmosphere in which we find ourselves. Without minimizing our danger or shirking our responsibilities, we must strive to avoid a perpetual "state of emergency." If we adopt this philosophy, we shall promote the general welfare by the acceptance of principles and practices which time has demonstrated to be consistent with our constitutional, representative government and proven laws of economics.

The present peril that confronts this Nation in the struggle between the forces of freedom and slavery is likely to be with us for a considerable period of time. We are, therefore, required to achieve a long-range balance between the necessity to repulse the forces that are ranged against us, while maintaining national stability and an adherence to sound principles.

If the recommendations that I have made in the proposals which I am now submitting to you are adopted, we shall once again "pay as we go" the costs of operating our State government and our cash assistance programs to our counties, municipalities and school districts.

We shall continue to avoid deficit financing. We shall, moreover, seek to maintain New Jersey's record of doing more for less money. New Jersey, for example, operates its State government with fewer State employees in proportion to its population than any other State in the Union.

The reorganization of the Executive Branch of our government, under the new Constitution, has and will continue to pay substantial dividends in the form of better government for less money.

Each of our fourteen State departments, under wise leadership, is rendering distinguished service to the citizens of the State. The programs initiated in New Jersey are now being copied by many other States. In this Message, it is appropriate that I call your attention particularly to the work of the Department of the Treasury. In this department are concentrated all of the fiscal services of the State including the Division of Budget and Accounting. Our State Treasurer, Walter Margetts, the chief executive of the department, and his associates, by their prudent and careful management of the funds entrusted to the department, have saved or earned for the State very large sums of money.

It is appropriate that we should also acknowledge the fine service of the Director of the Division of Purchase and Property, Mr. Fred Ferber, and his associates. During the past five years, the leaders of this division have supervised one of the largest capital improvement programs (apart from highways) ever

undertaken by this State. The new facilities that had been needed for a great many years have at long last been built or are in the process of being built. Our historic State House, for many years neglected, with its antiquated and, in some cases, dangerous facilities is one of the beneficiaries of this program.

The fact that New Jersey has achieved more effective budgetary controls and better business practices than any other government in the United States is due in large measure to the extraordinarily fine service rendered to the citizens of this State by Mr. J. Lindsay deValliere, Comptroller and Director of the Division of Budget and Accounting; Mr. Abram M. Vermeulen, the Deputy Director; and their associates. In our reorganization program, Mr. deValliere has assumed burdens and has been called upon to perform difficult and frequently unpopular tasks. He has been compelled to say "No" when it would have been easier and far more pleasant to say "Yes." He and his associates have helped to make New Jersey a pioneer in fiscal reform. They have been of immeasurable help to this administration, as it has achieved the lowest per capita State tax collection in the Nation.

It is comparatively easy for a government, or the leaders of government, to achieve a temporary popularity. It is somewhat more difficult for a government to be right. If a government is right, it may ultimately expect to have that rightness recognized, even though its adherence to proper standards may compel its leaders for a period to travel through the valley of articulate disapproval. In the performance of our assignment, we have consistently striven to recognize that the methods we employ are frequently as important as our objectives. Wise methods, skillfully employed, may ultimately achieve our objectives. The adoption of practices and procedures that are contrary to the basic principles of our constitutional form of government and proven laws of economics, however popular or expedient they may appear at the moment, may destroy all chance of achieving our objectives.

It is apparent that the concentration of the State's fiscal functions in the Department of the Treasury, under the new Constitution, with its wise balancing of power and responsibility, has been one of our most notable achievements.

REVENUES

During the past and current fiscal year, our revenue experience has followed the national pattern. Fortunately, collections have exceeded anticipations. This experience was taken into consideration in arriving at the revenue estimates used in the preparation of this Budget. It is estimated that if the present trend continues, the resources available to support the formal recommendations contained in this Budget will amount to $220,989,457. There is an anticipated budget surplus as of July 1, 1953 (not yet earned, but in process) of $24,181,131. Revenues for the fiscal year 1953-54, it is estimated, will amount to $196,808,326.

For at least two reasons I deem it inadvisable for you to make any major revision upwards in the recommendations contained in the proposed Budget:

(1) As I stated in my Budget Message of a year ago, "Practically all of the taxes levied by the State of New Jersey are subject to substantial change during this period of national emergency." The tax levies upon which our State relies are in many respects vulnerable. Our best estimates may be changed overnight by some presently unforeseen action by the Federal Government. Practically all the taxes that we now levy are in competition with similar taxes levied by the Federal Government which, in many instances, gets to the taxpayer "fustest with the mostest."

(2) The balance estimated for July 1, 1954, is $1,209,902. Considering the size of our business and the extent of our responsibilities, this is a dangerously low balance, leaving little room for error and practically none for unforeseen emergencies.

Budget Requests

In the preparation of this Budget, we were confronted with requests from public-spirited citizens, civic groups and others for additional State services, capital improvements and expansion of State Aid programs which, if adopted, would have cost the State more than a billion dollars for the next fiscal year. Following informal conferences between representatives of the Division of Budget and Accounting and the various departments, formal requests were filed with the Director, totalling more than $281,000,000. To achieve a balanced budget, and in an effort to avoid new taxes to support current operations, we have been compelled to reduce these requests. Many of the new services that have been requested have real merit. It is my hope that in an orderly way we may ultimately find a way to support a number of these services.

In the development of this Budget, I have felt that it was incumbent upon me to recognize the weight of the total tax burden that our citizens are presently being called upon to bear. It is my hope that the next fiscal year will be a year of transition from the muddled, expensive Federal programs of the past, with their complexities, excessive costs and waste, to a more orderly future and that the total cost of government may be reduced with a greater share of tax levies being made available for essential State and local services.

BUDGET RECOMMENDATIONS

Following the practice of previous budget messages, the proposed Budget is in reality three budgets in one: namely, (1) General State Operations; (2) Capital Improvements; and (3) State Aid (assistance to our municipalities, counties and school districts).

The following table summarizes estimated income, as well as proposed allocations for the three budgets:

Estimated Surplus July 1, 1953	$24,181,131.00
Less Deficiencies and Supplementals for 1952-53	452,393.00
	$23,728,738.00
Estimated Revenues for 1953-54	196,808,326.00
Total Estimated Resources for 1953-54	$220,537,064.00
Budget—Part I—General State Operations	$117,619,364.00
Part II—Capital Purposes	23,074,581.00
Part III—State Aid	78,633,217.00
Total recommended for 1953-54	$219,327,162.00
Balance for Reservations and Surplus	$1,209,902.00

Gross appropriations for the current fiscal year (1952-1953) total $220,756,045. This figure includes reappropriations of approximately $4,800,000, supplemental appropriations and adjustments of $4,650,000, as well as appropriations for non-recurring capital improvements (shown in last year's Budget Message as Reservations) of $13,250,000.

Total appropriations for the fiscal year 1953-1954 and reservations pending action of the Legislature total $219,842,162. Included in this recommendation is an increase in State Aid of $9,200,000, provision for salary increments, increases, adjustments and new positions to staff our new facilities and perform additional services totaling $8,900,000. The reservations total $515,000 and include a recommended appropriation to support the work of the Law Enforcement Council in the amount of $250,000. It is my hope that this sum will be included in the supplemental appropriation bill.

Legislation has been introduced clarifying the status of members of the National Guard inducted into Federal service and to correct inequities that presently exist. If this legislation is adopted, it will cost the State approximately $190,000. Accordingly, a reservation of this amount has been made. In addition, $75,000 to support the educational television research project of the Department of Education is included in these recommended reservations, subject, of course, as in all such cases, to legislative approval.

Of the total recommended Budget of $219,327,162, $58,939,619 has been allocated to the support of our educational programs; and $50,200,028 has been devoted to the support of our various welfare programs. Thus, more than 50 per cent, including adjustments, of the total Budget has been allocated to the administration of our Departments of Education and Institutions and Agencies, and the State Aid programs administered by them.

BUDGET—PART I

CURRENT STATE OPERATIONS

The amount recommended for the operation of the various State Departments to support presently authorized services for 1953-54 is $117,619,364, which is $11,818,415 less than the $129,437,779 requested of the Budget Director.

I shall confine my Message to a brief review of major requests. The details covering all requests will be found in the schedules attached to the Message.

Department of Education

In the Department of Education we are fortunate in having a fine, new leader, Commissioner Frederick M. Raubinger, the successor to Commissioner John Bosshart, who made a fine contribution to the welfare of our society during his tour of duty. The primary concern of the Department of Education is the education of our youth.

The Department is presently engaged in the largest capital improvement program for our State Teacher Colleges in the modern history of our State. With this program and others we are seeking to strengthen our programs for the recruitment of new teachers.

More than 12 per cent of the total recommended for the General State Purpose Budget, or approximately $14,500,000, has been allocated for educational purposes at the State level. This allocation is designed to support our State Education Department, including the State Teacher Colleges, the School for the Deaf, and the Manual Training School at Bordentown. Within this allocation, provision has been made for support for the Newark College of Engineering and the State University.

The amount recommended is approximately $1,000,000 more than was appropriated for the current fiscal year. The increase will provide funds to carry on a number of new research projects

and to initiate new training programs for social and library services.

Provision has been made to strengthen our teacher training and recruitment program. It is anticipated that the appropriation will also permit the Department to render more effective assistance to local school districts engaged in the construction of new schools.

Department of Institutions and Agencies

We turn now to a department which has tasks that are not always pleasant. Its primary concern is to help citizens who, for one reason or another, have suffered adversity and need our help. It, too, is one of our most important departments. We are fortunate in having fine leadership in this Department. Commissioner Sanford Bates, the chief executive of the Department, and a constructive member of my Cabinet, is a world-renowned penologist.

Committed to its care in the various institutions operated by the Department are approximately 26,000 members of our society. In addition, the various humanitarian programs administered by the Department are designed to help an additional 53,000 aged persons, dependent children, blind persons, permanently and totally disabled persons, as well as others entitled to public assistance.

One of the primary tasks of the Department is to restore to a productive citizenship the mentally sick, the physically handicapped, the unfortunate victims of our industrial revolution, as well as those who have failed to recognize that an orderly society requires observance of our laws.

Of the total sum recommended for General State Operations, $35,330,028, or slightly more than 30 per cent of the total Budget for State Operations, is allocated to this Department.

We are presently engaged in the most important institutional construction program in the history of the State. Our older institutions are being renovated, modernized and rebuilt. New facilities are being constructed. The Budget recommendation includes adequate provision for staffing the new facilities to be completed during the next fiscal year.

More than $500,000 has been provided in the proposed Budget for new positions to provide better care and treatment for the 15,000 patients in our mental hospitals, the Village for Epileptics at Skillman, and other similar institutions.

An additional $600,000 is included in the Budget to provide salary adjustments for the employees of our correctional institutions, and for new positions in these institutions. The adoption of this recommendation will be a long step in our efforts to comply with the recommendations of the committee which recently reviewed our prison and parole systems.

Likewise, we have provided increases for the care and maintenance of our institutions for the feeble-minded, the tubercular, and the soldiers' homes.

Although a recent survey of our dietary practices and procedures found them ample and basically sound, a continuation of high food prices, as well as the desirability for some changes to strengthen our program, has resulted in our recommendation of an increase in the appropriation for food and maintenance.

Additional funds have also been provided to support and expand the programs at the Highfields Treatment Center, the Child Treatment Center at Allaire, and the Diagnostic Center.

Department of Health

The sum of $1,912,379 has been allocated in the proposed Budget for the operation of this Department. Commissioner Daniel Bergsma assumed command of this important department in 1948 when he became a member of the Cabinet, after a distinguished career in the field of public health and as Assistant Theater Surgeon, Caribbean Defense Command, U. S. Army. Under his constructive leadership, the Department has been completely reorganized.

Included in the proposed appropriation is $300,000 to initiate research and preventive programs in chronic illness. It is appropriate that New Jersey, with its great industrial research facilities, should be the first to emphasize the need for effective programs designed to prevent chronic illness. In the past, we have spent

more for cure than we have for prevention. Chronic disease is the cause of two-thirds of our deaths today. It exacts a terrible toll, overloading our hospitals, retarding our production lines, and spreading gloom in our families.

Accordingly, the program recommended by a distinguished Committee on the Chronic Sick, appointed in 1949, pursuant to legislative action, is of major importance. Our own State institutions will be included within the research activities that will be supported in the event my recommendations are adopted.

Department of Law and Public Safety

Proportionately, the largest increase recommended in the proposed Budget is allocated to the Department of Law and Public Safety, led by Attorney-General Theodore D. Parsons, a conscientious public servant who patriotically agreed to assume one of the most difficult services in this State, at great personal sacrifice. Under his leadership, the Department has assumed many new, constructive and important duties never heretofore assumed in this or any other State.

In the schedules attached to this Message, you will find an allocation to this Department of $13,082,806, representing more than 11 per cent of our total State Operating Budget. This is an increase over current allocations of $2,500,000.

The Division of State Police has been allocated funds for 93 new positions, many of them to relieve uniformed personnel for law enforcement activities.

In addition, I am recommending an appropriation for a complete revision of the communications system of our law enforcement agencies.

Likewise, provision has been made for a substantial increase in personnel for the enforcement of our traffic laws. While in the schedules an allocation amounting to $541,744 has been made to the Division of Motor Vehicles, it should be understood that it may be used to augment our State Police force, as well as to strengthen the activities of the Motor Vehicle Division.

In this Budget, we have made provision for the establishment of the new Security Responsibility Bureau, in the Division of Motor Vehicles. The establishment of this bureau, however, will not constitute an additional burden on State revenues, because it is anticipated that this activity will be supported by revenues derived from insurance carriers.

Department of Defense

Provision has been made in this Budget for a continuation of the various programs of this Department. There is included within the requested appropriation $132,600 to support our Civil Defense activities. Despite the magnitude of our Civil Defense program, it is operated at far less cost than in any other comparable State.

Department of Civil Service

Included in the appropriation of $667,673 for the Department of Civil Service is a sum sufficient to support the first phase of an in-service training program. This program, recommended by the fine President of the Civil Service Commission, Dr. Lester Clee, has tremendous possibilities for our taxpayers, as well as for our State employees.

Department of the Treasury

In the proposed Budget, there has been allocated to the Department of the Treasury $5,583,512 to maintain the present services of the Department and to continue the renovation of our State office buildings.

Department of Labor

This Department has been allocated for the next fiscal year $2,876,009. Included in this allocation is an appropriation for an additional school for the children of migrant laborers. New Jersey has been a leader in the education of children of migrant laborers. Its first school has been a great success. There is a substantial need for a second school. The Commissioner of Education concurs in this recommendation.

Department of Conservation and Economic Development

$3,589,415 has been allocated in the proposed Budget to the Department of Conservation and Economic Development. Included in this appropriation is a comparatively small sum to support a research program to help one of New Jersey's oldest activities—its oyster industry.

The State Highway Department

In the proposed budget there has been allocated to the State Highway Department for its operation, $13,689,415. This is almost 12 per cent of the total State Operating Budget.

This Department, under the energetic leadership of Commissioner Ransford J. Abbott, is engaged in the most important highway construction program in the history of the State. The Department is exceeding all previous productive records. The funds that have been allocated should be sufficient to maintain our present roads, as well as those that are under construction and to be completed during the next fiscal year.

It should be noted that the responsibilities of this Department have been substantially increased in recent years. It was a major contributor to the success of the New Jersey Turnpike. It is presently engaged, in a co-operative effort with the New Jersey Turnpike Authority, in the expansion of the Turnpike; and is likewise assisting the New Jersey Highway Authority in the construction of the Garden State Parkway.

* * * * * *

There has been allocated to the remaining State Departments the following sums: Department of Agriculture, $1,013,691; Department of Banking and Insurance, $1,352,027; Department of State, $188,850, and Department of Public Utilities, $505,240.

A sense of gratitude compels me to acknowledge the fine service that is being rendered by the chief executives of our State Departments: Willard H. Allen in the Department of Agriculture, Warren N. Gaffney in the Department of Banking and Insurance, Lester H. Clee in the Department of Civil Service, Charles R. Erdman, Jr., in the Department of Conservation and Economic Development, Major General Edward C. Rose in the Department of Defense, Frederick M. Raubinger in the Depart-

ment of Education, Ransford J. Abbott in the State Highway Department, Daniel Bergsma in the Department of Health, Sanford Bates in the Department of Institutions and Agencies, Percy A. Miller, Jr., in the Department of Labor and Industry, Theodore D. Parsons in the Department of Law and Public Safety, John E. Boswell in the Department of Public Utilities, Lloyd B. Marsh in the Department of State, and Walter T. Margetts, Jr., in the Department of the Treasury. These men who serve without protection of tenure, operating substantial businesses that in private life would provide them far greater remuneration, are constructive leaders in the business of government. The salaries they receive are far below those that private industries would pay for similar services. These men assume heavy responsibilities, working as they do in an arena where criticism is freely given and praise, despite a job well done, is the exception rather than the rule.

One of the disappointments that I have experienced is the difficulty of drafting the best men and women in our society to serve in governmental positions. It is my hope that an increase in salaries for services in our top level offices, including the Cabinet, will make governmental service somewhat more palatable by reducing slightly the sacrifice that men and women in public life must make.

The salary of the Governor of $20,000 was set by the Legislature many years ago. No increase in the salary has been made to offset the impact of the Federal income tax or the increase in the cost of living and the new burdens that the Governor's office has assumed under our new Constitution. There was a time, not many years ago, when the Governor of this State devoted a portion of three or four days a week to his tasks, reserving the remainder of his time to personal interests. Today, the responsibilities of the Governor require his continuing attention around the clock. The disparity between the remuneration of the Governor and the salaries paid to the judiciary, who fortunately labor in an atmosphere not so highly charged with controversy as that which surrounds the office of the Chief Executive and his associates, has been the subject of comment. During my tour of

duty as Governor, it has been frequently suggested that the Governor's salary should be increased. My personal feelings as well as the Constitution compelled me to reject such suggestions. Mindful, however, of the burdens of the office and the heavy toll it exacts, I believe the salary of the next Chief Executive of this State should be increased to $30,000. I am also recommending that there be included in the Budget for the Chief Executive's Office an amount of $5,000 to permit the Governor-elect to begin informal work immediately following his election and prior to the time that he takes office so that the transition may be orderly and efficient, avoiding delay of the State's business.

Debt Service

There is continued in the Budget, the sum of $9,449,437.50 for the service of the State debt. This represents an increase of approximately $800,000 over the current fiscal year to meet the needs of our present capital improvement program.

Salaries

During 1952-53, a program of selective range revision, first initiated in July, 1949, reached its peak and required an appropriation for the current year of $8,186,720 for salary adjustments and increments. This appropriation was a wise investment in the excellent program that has been developed by the Civil Service Department and is being carried forward to completion under the energetic leadership of Dr. Lester Clee. The Department has made certain additional recommendations to complete a program of equalization in which a heavy emphasis has been placed on incentive. Accordingly, I am recommending an appropriation of $3,333,987 which, together with funds that have been provided for normal increments, will make available a total sum of $5,500,000 for State employees' salaries, increments and adjustments. As previously indicated, provision has been made in the budget for new positions to staff our new institutions as they are completed, and to increase certain other very important services. The total cost of these new positions will be $3,400,000.

Reservations

In my Annual Message, I urged that our Law Enforcement Council be made a continuing agency with adequate financial support. I hope this legislation strengthening our Law Enforcement Council will be speedily adopted. Pending the adoption of this legislation, I have in this Budget Message reserved the sum of $250,000 which I hope will be appropriated to the Council in a supplemental bill as soon as the Council has been placed upon a permanent basis.

A distinguished committee of our fellow citizens has been engaged in exploring the use of television as an educational medium. In the budget, there is reserved for a continuation of these research and experimental activities for television and education the sum of $75,000. Finally, I have reserved $190,000 to support legislation designed to clarify the status of members of our National Guard inducted into Federal service.

Supplemental Appropriations

Because of legislative changes in the Motor Vehicle Act and the passage of our new Motor Vehicle Security Law, it was necessary to permit the Department to use $25,000 from their present appropriation for printing new drivers' manuals. This fund must be repaid to the regular division accounts or they will be unable to continue operations to the end of the fiscal year. Accordingly, I am recommending that a supplemental appropriation be given this division in the amount of $25,000.

While the Security Responsibility Law for motor vehicle owners does not go into effect until July 1, 1953, it is necessary that the staff be established prior to that date. Accordingly, I am recommending a supplemental appropriation in the amount of $163,212.75 for this purpose.

The Legislature in 1952 passed an act creating a State Board of Examiners of Ophthalmic Dispensers and Ophthalmic Technicians. While this board will eventually be self-supporting, it will be necessary to establish a staff prior to the receipt of any revenues. Accordingly, I am recommending a supplemental appropriation in the amount of $9,180.

It is recommended that there be appropriated to the Department of Law and Public Safety an additional sum of $250,000 to enable the State to protect its tremendously valuable water rights that are now under attack in litigation before the United States Supreme Court.

Budget—Part II

Capital Expenditures

I am recommending the allocation of $23,074,581 for capital improvements for the fiscal year 1953-54.

Highways

We plan to continue our highway construction program, which presently is the largest and most important ever undertaken by this State. On the one hand, we have sought to avoid saturating the market, thus losing the advantages of truly competitive bidding; while, on the other hand, building the maximum number of roads that our limited finances will permit. We have been encouraged by the competitive bids that we have been receiving. We propose to continue our normal State highway program.

There has been allocated for this purpose $20,000,000, together with any highway user taxes collected by the Federal Government which may be returned to the State for highway construction purposes.

Lands and Buildings

There has been allocated to the Department of Law and Public Safety $550,000. Three hundred thousand dollars of this amount is for improvement at the headquarters of the New Jersey State Police at West Trenton. Included in these improvements are additional administration and classroom facilities, and the movement of a warehouse and substation. The New Jersey Police Academy at the headquarters is now the center of training for instructors in civil defense. We likewise plan to strengthen our traffic refresher courses, assist regional training schools conducted by the Federal Bureau of Investigation, provide training programs for auxiliary police and additional training programs for local police forces. These programs are designed to get to the very heart of our problem of law enforcement. If we are to have good law enforcement in this State, we must have it at the local or community level. Our local police forces and their auxiliaries

are our first line of defense against criminal activities. It would be a great mistake for either the local police forces, the citizens of our communities or for the State to consider that the latter can adequately take the place of community action to enforce our laws. Therefore, the major task of our State law enforcement agencies is to backstop community efforts. One way that this can be achieved is by providing adequate training programs for community forces. These programs, initiated by Attorney-General Theodore D. Parsons, have deservedly won the approval of local, State and Federal authorities, as well as civic-minded groups. Additional facilities are required to expand this program, and additional appropriations may be required to support them.

$250,000 has been allocated to the Motor Vehicle Division for the establishment and equipment of new testing stations in critical areas.

To the Department of Conservation and Economic Development there has been allocated $100,000 to complete the Delaware-Raritan Canal, a very important source of water for a growing industrial area. In addition, it is recommended that the unexpended balances in the accounts for the current year for the acquisition of wildlife, recreational areas and water resource areas be reappropriated. Negotiations are presently well under way to acquire these properties. In the event these negotiations are not consummated this year, the amounts appropriated for the current year should be reappropriated so that New Jersey will not lose an opportunity to protect its resources.

There is allocated to the Department of Education $2,119,000 for additional facilities at the State University. This allocation will permit us to complete the library project commenced last year. An adequate library is the heart of an educational institution. The lack of an adequate library at the State University has been a great handicap to the University and to the educational programs of this State. Included in the allocation is a $100,000 allocation to the New Jersey College for Women for the construction of a service building. $15,000 is likewise allocated for the construction of an oyster research laboratory.

Included in the total recommendations for capital improvements is $60,000 for new buildings at Clinton Reformatory and the Vineland State School, both within the Department of Institutions and Agencies.

BUDGET—PART III

STATE AID

As in previous years, it has been comparatively easy for the State to maintain basic, essential State operations within presently available or reasonably to be anticipated revenues. Thus, in this Message, it is apparent that we have sufficient revenues to manage present services including a reasonable capital program. Our difficulties really become acute when we begin to consider State aid to our counties, municipalities, and school districts. In this Budget Message, I am recommending an appropriation for State aid of $78,633,217, the largest State aid program in the history of the State. This recommendation is an increase of $9,200,000 over the appropriation for the current fiscal year, which totaled $69,447,277 and substantially complies with the official requests received by the Budget Director from the various State boards.

General State Aid

Chapter 358 of the Laws of 1952 consolidated under State control the various police and firemen's pension programs which, prior to that date, were administered in our municipalities. This law initiated a program, the need for which had long been recognized, destined to place these funds, heretofore threatened with bankruptcy and, in any event, a potentially heavy drain upon the municipalities, on an actuarially sound basis. In an effort to rehabilitate the funds and to achieve the laudatory objectives of the law, the State agreed to make a substantial contribution to the fund. The amount required for the next fiscal year to keep the legislative commitment is $3,500,000 or $2,500,000 more than that allocated for the current fiscal year.

The Department of the Treasury has strongly recommended an increase in the salaries of our various county tax boards. It is anticipated that the work of these boards, under the programs that are presently being developed by the Department, and which will be the subject of comment in the next report of the State Tax

Policy Commission, will be increased substantially. $87,000 has been allocated for this purpose.

In the Budget, I have recommended continuation of our current State Aid programs for veterans services. I have likewise recommended a continuation of our present beach protection program.

State Aid for Highways

State aid to our counties and municipalities for highway purposes has been increased in the proposed Budget by $1,050,000. The total sum recommended is $17,010,355.

It is my hope that before the current fiscal year is completed, the Federal Government, in a co-operative effort with the States, will repeal the Federal gasoline tax, which was first levied as an emergency tax and thereafter recognized by Congress on numerous occasions as belonging to the States. This proposal is now supported by the Council of State Governments, the Conference of State Governors, and the committee, of which I have the honor to be Chairman, which is actively engaged in exploring this proposal with representatives of the Congress of the United States and the President of the United States.

From 1939 to 1953, inclusive, it is estimated that the Federal Government has collected from highway users more than 14 billion dollars. Less than 5 billion dollars has been appropriated by the Federal Government during this period for highway construction. The present system handicaps highway construction by its delays and its waste. We are devoting too many dollars to administration. Many of the tax dollars that are presently being devoted to the administration of two competing taxes on the same activities, duplication of administrative responsibilities, should be devoted to highway construction. In the event a substantial change is achieved in the relationship between the Federal Government and the States, State aid to our counties and municipalities for the maintenance and construction of our highways may be substantially increased.

I hope to be able to report to the Legislature on the progress of our negotiations with the Federal Government in the near future. The Committee of Governors is working under favorable auspices.

Welfare

The amounts recommended for the various welfare programs follow rather closely the allocations made available for the current year. These allocations will support present programs for old age assistance, dependent children, relief subsidies, permanently and totally disabled, as well as current subsidies for county, mental, and tubercular hospitals.

When the Commission to Study the Administration of Welfare in New Jersey has completed its work, it is my hope that you will carefully review our entire welfare aid program. A clarification of administrative responsibility is desired. As a part of such clarification, it is anticipated that the State's share of the financial burden should be increased.

State Aid for Education

There is allocated in the proposed budget, for direct State Aid to our school districts, the sum of $28,016,031, and to the Teachers' Pension and Annuity Fund, $13,824,397. This phase of our State Aid program, therefore, will require a total appropriation of $41,840,428. This is more than 53 per cent of our total State Aid Budget, and constitutes an increase of $5,500,000 over last year.

The increase in the State's contribution to the Teachers' Pension and Annuity Fund reflects in part the substantial increase in salaries that our teachers have received in recent years. The proposed appropriation also includes an allocation to make up the deficiency between the interest earned by the Teachers' Pension Fund and interest guaranteed by the State. It is noteworthy that the Teachers' Pension Fund contains assets valued at $221,000,000 as of December 31, 1952. The proposed appropriation contains an increase of approximately $1,900,000 more than last year for direct State Aid to our school districts.

Last year the New Jersey State School Aid Commission filed a report in three parts, the last dated March 26, 1952, recommending a very substantial increase in State Aid for our school districts. This report states that there are a number of taxes that may be levied to provide the funds required for additional State Aid. This report recognizes that within the limits of presently available revenues it will be impossible to increase the State appropriation beyond that recommended in the proposed budget. The difficult determination is referred back to the Legislature for decision.

Section VI of Article IV of the Constitution of 1947 states, "All bills for raising revenue shall originate in the General Assembly; but the Senate may propose or concur with amendments, as on other bills."

While I recognize that there is a need for some additional State Aid for education, I submit that there are certain preliminary steps that should be taken.

Within a few days, there will be submitted to you the Sixth Annual Report of the Commission on State Tax Policy. This report will demonstrate the inequities that presently exist in the assessment of real estate in this State. According to the Commission:

> "Real estate in New Jersey is assessed at an average assessment ratio of 34 per cent of its appraised value. Among the municipalities this average ranges from under 10 per cent in seven municipalities to over 60 per cent in two municipalities. On an over-all basis, the State-wide average tax rate of $6.77 per $100 of valuation taxable in 1952 represents an average effective tax burden of $2.30 per $100 of full value."

A first step that should be taken immediately by the Legislature is to completely revise and modernize our practices and procedures for the assessment and collection of our real estate taxes. I discussed this subject in my Budget Message a year ago and referred to it in my Annual Message this year, as in previous Annual Messages. Until this step is taken, we are "laboring in the dark," unable to determine the true ability of our munici-

palities to support local services, and the extent of their need for additional State assistance or new tax sources. A fair and sound administration of the general property tax may provide more municipal aid for schools at the local level and would certainly nourish the very roots of successful local self-government. By eliminating inequities in the administration of the property tax, we may well enable local government to help itself more effectively than with any possible outside aid.

It is my hope that the Sixth Annual Report of the Commission on State Tax Policy, together with previous reports of this excellent commission, will be referred to the appropriate committees of the Legislature, together with the report of the State School Aid Commission.

Section I of Article VIII of our Constitution provides: "Property shall be assessed for taxation under general laws and by uniform rules. All real property assessed and taxed locally or by the State for allotment and payment to taxing districts shall be assessed according to the same standard of value; and such real property shall be taxed at the general tax rate of the taxing district in which the property is situated, for the use of such taxing district."

Thus far we have failed to implement this section of our Constitution effectively by the classification of property and the adoption of realistic laws.

These reports contain all the basic material required to permit the committees to review current and proposed taxes authoritatively and to reach basic decisions with respect to the same. I submit, however, that it would be ill-advised, at this time, for you merely to superimpose more taxes on the taxes that are presently being levied by all levels of government.

Our present school aid formulae, as I have stated in previous Messages to the Legislature, are inequitable and should be completely revised. This revision is the second step that should be taken to help our school districts.

As you consider the plea for additional State Aid, you will undoubtedly be mindful of the total impact of all taxes that are

presently being levied. The total tax bill is too high! Therefore, a third step is to close present loopholes and to correct current inequities. We cannot afford to subsidize waste.

As we consider the need for additional State Aid, we should be mindful of the fact that for the first time in many years there is a strong possibility that we may be nearing an agreement with the Federal Government for a reallocation of service responsibilities and supporting taxes. The opportunity for savings, through a realignment of Federal-State services and a fairer apportionment of taxes between the various levels of government, is favorable.

The problem of Federal-State relations is not a new problem—it was the primary question at the time the Republic was established; it is still a primary question. About fifty years ago, a very distinguished American statesman said: "The question of the relation of the States to the Federal Government is the cardinal question of our constitutional system. It cannot be settled by the opinion of any one generation because it is a question of growth and every successive stage of our political and economic development gives it a new aspect, makes it a new question." All agree that we are entering a new stage of political and economic development which makes it imperative that we examine anew the whole question of Federal-State relations.

Our entire tax program, with all of its vulnerabilities and inequities, should be reviewed. It is my hope that the recommendations I have made in previous Messages will receive the earnest consideration of the committee, or committees, to whom the reports that I have mentioned are referred for legislative action.

We are more fortunate than our predecessors in that we may have an opportunity to achieve substantial economies by a redefinition of the business of government and a co-ordinated Federal-State-local tax program that has heretofore eluded our best efforts. Accordingly, we should strive to avoid expediency—piecemeal legislation. Any revision of our tax laws that may be undertaken should be comprehensive, apportioning the tax burden

fairly and equitably among all of our citizens. The system should be designed to conserve, rather than to unnecessarily expend, our resources. You will undoubtedly recognize that there is always a point of diminishing returns. It is significant that those States that have adopted new tax programs without taking the preliminary steps that I have recommended have completely failed to solve their problem. While vested interests in these new taxes have been swiftly acquired, they have failed to stifle the clamor for additional State Aid.

History teaches us that worthwhile objectives are not accomplished quickly or easily. Our task is to reconcile ourselves to the hard facts of the world environment and to gird ourselves for the long pull.

As in the past, I look forward to working with the Legislature in a common effort to solve our mutual problems.

Respectfully submitted,

ALFRED E. DRISCOLL,
Governor of the State of New Jersey.

Attest:

LEON S. MILMED,
Counsel and Acting Secretary to the Governor.

The following message was received from the General Assembly by the hands of its Clerk:

Senate Resolution No. 1, entitled "A resolution to create an investigating committee consisting of five members, to be appointed by the President of the Senate, with power to investigate any public body receiving funds in whole or in part from the State."

BE IT RESOLVED *by the Senate of the State of New Jersey:*

1. There is hereby created a committee to be known as the "Senate Investigating Committee" to be composed of five Senators to be named by the President of the Senate, who shall constitute a committee for the purpose of investigating the finances, affairs and operations of any and all departments, boards, officers and commissions of the State Government, and all other bodies and political subdivisions of the State who shall be receiving State moneys or public funds of any kind. The committee is authorized to examine into the pay and duties of the employees and the conduct of the work and affairs of all such boards, commissions, officers and departments and other bodies and political subdivisions of the State who shall be receiving State moneys, for the purpose of recommending ways and means of reducing costs of administration and promoting efficiency.

2. Such committee shall serve without pay, but is authorized to employ counsel and such accounting, investigating, clerical or other assistants as it may deem necesary.

3. Such committee shall have the power to subpœna and examine witnesses, and any accounts, records or other matter pertaining to the operating of any department or departments of the State Government, of any political subdivision of the State, or of any other body receiving State moneys or public funds of any kind, or of any bi-State commission which may be acting jointly with another State.

4. The committee may appoint a secretary who need not be a member of the committee. Said committee shall meet from time to time, hold hearings and examinations in a manner and in places which to them may seem best and proper.

5. Any agency, board or department of the State Government, any officer or employee of any political subdivision of the State or of any other body receiving State funds, and

the officers and employees of any bi-State commission which may be acting jointly with another State, shall furnish to such committee such information, records and data as may be required for a comprehensive analysis of the operation and financial affairs of such agency, board or commission, or other public body, including any bi-State commission, as from time to time such commission shall determine.

6. Investigations and examinations may be made privately or publicly, but it shall be unlawful for any person to divulge the results of any investigation or examination to any person or persons other than such committee, unless a public hearing shall have first been held. Whenever any person shall be examined by such committee or by its duly authorized representative or representatives, under the powers contained in this act, at a public hearing, the officer, department, board, bureau, commission or individual under investigation or scrutiny may through his or its authorized representative or representatives cross-examine any such person or any phase of the matter concerning which he has been examined or questioned, and such officer, department, board, bureau, commission or individual may introduce other evidence to explain, enlarge upon, or clarify the matter, situation or condition under investigation or scrutiny to the end that the full details of any such matter, situation or condition may be developed and presented at one and the same time.

7. This committee shall remain in effect and force until the opening day of the 1954 Legislature, notwithstanding any *sine die* adjournment.

8. There is hereby appropriated for the expenses of such committee any funds that may be hereafter included in any appropriation bill.

9. This resolution shall take effect immediately.

"15. (1) So long as the tenant continues to pay the rent to which the landlord is entitled no tenant shall be removed from any housing space subject to this act, by action to evict or to recover possession, by exclusion of possession,

or otherwise, nor shall any person attempt such removal or exclusion of possession notwithstanding the fact that the tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated, and notwithstanding any contract, lease agreement or obligation heretofore or hereafter entered into which provides for surrender of possession, or which otherwise provides contrary hereto, unless the landlord has obtained a certificate of eviction pursuant to subdivision. (2) of this section;

(2) No such tenant shall be removed or evicted unless on application of the landlord the county rent control agency shall issue a certificate of eviction in accordance with its rules and regulations, designed to effectuate the purposes of this act, permitting the landlord to pursue his remedies at law. The county rent control agency shall issue such an order whenever it finds that:

(a) the tenant is violating a substantial obligation of his tenancy other than the obligation to surrender possession of such housing space and has failed to correct such violation after written notice by the landlord that the violation cease within ten days; or within the three-month period immediately prior to the commencement of the proceeding the tenant has wilfully violated such an obligation inflicting serious and substantial injury to the landlord; or

(b) the tenant is committing or permitting a nuisance in such housing space; or is maliciously or by reason of gross negligence substantially damaging the housing space; or his conduct is such as to interfere substantially with the comfort or safety of the landlord or of other tenants or occupants of the same or other adjacent building or structure; or

(c) occupancy of the housing space by the tenant is illegal and the landlord is subject to criminal or civil penalties therefor, or both; or

(d) the tenant is using or permitting such housing space to be used for an immoral or illegal purpose;

(e) the tenant has unreasonably refused the landlord access to the housing space for the purpose of inspection or of showing the space to a prospective purchaser, mortgagee or prospective mortgagee, or other persons having a legitimate interest therein; provided, however, that such

refusal shall not be ground for removal or eviction if such inspection or showing of the space is contrary to the provisions of the tenant's lease or other rental agreement;

(f) the landlord seeks in good faith to recover possession of housing space because of immediate and compelling necessity for his own personal use and occupancy or for the use and occupancy of his immediate family; or

(g) the landlord seeks in good faith to recover possession of housing space for which the tenant's lease or other rental agreement has expired or otherwise terminated and at the time of termination the occupants of the housing space are subtenants or other persons who occupied under a rental agreement with the tenant and no part of the space is used by the tenant as his dwelling; or

(h) the landlord seeks in good faith to recover possession of the housing space for the immediate purpose of substantially altering, remodeling or demolishing it, provided that the landlord shall have secured such approval therefor as is required by law and the county rent control agency determines that the issuance of order granting the certificate of eviction is not inconsistent with the purposes of this act, and provided also that such alteration or remodelling is not practicable with the tenant in occupancy.

Notwithstanding the preceding provisions of this section, the State, any municipality, or housing authority may nevertheless recover possession of any housing space operated by it where such action or proceeding is authorized by statute or regulations under which such housing space is administered.

The adjustment under this subsection shall be in such amount as is necessary to bring the net operating income from the building (expressed as a percentage of annual income after adjustment) to the median net operating income of landlords generally; provided, however, that where it is determined that the building falls within a class which normally experienced considerably lower percentages of net operating income than the median, the amount of adjustment may be determined on a basis which will yield a lower percentage of net operating income than the median and which would be fair and equitable for that class of buildings.

Where an adjustment is granted under this section and a subsequent petition is filed thereunder, the test year used in any such subsequent petition shall begin after the end of the test year used in the last previous petition; *provided, however,* that the county rent control agency and the county rent control review board and a court may waive this limitation where the building has been affected by a significant increase in operating expenses which apply to all or an important class of housing accommodations in the community (such as a significant increase in property taxes or a significant increase in contract wages).

Amend page 8, section 19, lines 11, 12, 13, 14 and 15, delete entire lines and substitute the following:

For the purpose of this act, the term (1) "building" means any structure or group of structures containing housing space having common facilities and operated as a single enterprise; (2) "net operating income" means the amount

by which annual income exceeds annual operating expenses; (3) "annual income" means the legal monthly, weekly, or other periodic rent for all units in the building, both residential and commercial, on the date the petition is filed, computed on an annual basis, together with any other income earned from the operation of the building during the test year; provided that where a unit has seasonal, alternate or other varying rents, appropriate adjustment shall be made by the agency. In any case where a rental unit is vacant or is occupied in whole or in part rent free, the full rental value shall be considered the legal rent; (4) "annual operating expenses" means all real estate taxes and operating costs necessary to the operation and maintenance of the building, plus depreciation, but excluding mortgage interest and amortization, properly allocated to the test year or projected on an annual basis in accordance with principles determined by the agency or review board; (5) "depreciation" means the amount shown for the building in the latest required Federal income tax return, but in no event more than twenty-one per centum (21%) of the annual income for a building containing less than five dwelling units or sixteen per centum (16%) of the annual income for a building containing five or more dwelling units; (6) "test year" means the most recent full calendar or fiscal year, or any twelve consecutive months ending not earlier than ninety days before the date the petition is filed.

WHEREAS, She served as Director of the Atlantic County Health Service, and as State Committeewoman; President of the Atlantic County Federation of Women's Republican Clubs since 1937; Honorary Chairman of the Pleasantville Red Cross and the Atlantic-Cape May Social Service Workers; was an Honorary member of the Executive Committee of the New Jersey Tuberculosis League; Chairman of the Nursing Activities Committee of the Atlantic City Chapter Red Cross, and as Secretary of the Atlantic County American Red Cross; and President of the Atlantic Visiting Nurse and Tuberculosis Association; and served on many other civic and charitable committees in her lifetime; and

WHEREAS, Her inspired role in civic, organizational and political affairs has made a lasting contribution to the community and the State; and

WHEREAS, The Senate of the State of New Jersey wishes to make an official record of her demise and express its deepest regret and condolences upon her passing; now therefore,

Be It Resolved, That the Senate of the State of New Jersey express its sincere regrets and condolences to the family of Caroline R. Shreve, an inspired and public spirited citizen, who served her people unselfishly during her lifetime; and

Be It Further Resolved, That a copy of this resolution, suitably engrossed and signed by the President and Secretary of the Senate of the State of New Jersey, be forwarded to the family of the late Mrs. Caroline R. Shreve.

Mr. McCay offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, The Junior Order United American Mechanics was founder in the year of our Lord one thousand eight hundred and fifty-three; and

WHEREAS, The State Council of New Jersey, Junior Order of United American Mechanics, the State body of that organization, operating under the charter granted them under an act passed by the Legislature of the State and approved the twenty-fifth of February A.D. 1875; and

WHEREAS, The Junior Order United American Mechanics has supported over the years the free public school system of New Jersey—the complete separation of church and State—the continued and proper display of the flag of our country and the upholding of the Constitution of the United States; and

WHEREAS, The Junior Order United American Mechanics is presently actively engaged in suppressing Communism and constantly opposing any subversive movements; therefore,

Be It Resolved, By the Senate of the State of New Jersey:

1. That congratulations and commendation are herewith offered to the State Council of New Jersey Junior Order United American Mechanics and its one hundred sixty-five councils of the State on the completion of one hundred years of outstanding service to the government and citizenry of New Jersey.

2. This resolution shall take effect immediately.

A message was received from the Governor by the hands of his Secretary.

SPECIAL MESSAGE

Mr. President, Mr. Speaker, Members of the Senate and General Assembly:

By acting together with the State of New York, we hope to drive the gangsters and hoodlums off the waterfronts of New York harbor. I am proposing legislation to give the honest, hard-working longshoreman a chance to earn a living free of the coercion, intimidation and discrimination of the criminal element which has infested the piers in the port of New York district. It will free shipping in the port from the illegal toll of bribery, pilferage and gangsterism which is a real threat to the successful operation of our great port facilities. The ultimate consumer of goods will gain since the illegal levy of corruption on the waterfront must eventually show up in the cost of food, fuel and the other necessaries handled through the piers.

In the latter part of 1951, Governor Thomas E. Dewey and I discussed this subject at length and agreed that the two States should mobilize their forces in an unremitting drive against racketeering, organized crime and restrictive practice which have increasingly hamstrung the port of New York. Immediately after its creation in 1952, the New Jersey Law Enforcement Council coopérated with the New York Crime Commission in the study and investigation that was being made by that Commission. As a result of these investigations, a number of very important reports and Grand Jury presentments have been made with specific recommendations which have received our earnest consideration and, I believe, general approval on the part of the public.

The record of these official investigating bodies points to an appalling neglect or inability, for as much as thirty years, on the part of the shipping industry to rid itself of crime and corruption that have been preying upon the port area. Considering that the very lifeblood of the nation, as well as of the two States of New Jersey and New York, flows through the port of New York, it is apparent that government must step in to restore ordinary honesty on the piers for the good of everyone concerned. The industry itself now recognizes that State regulation is necessary and desirable.

All investigations agree upon the urgent necessity of certain remedies: the method of hiring longshoremen known as the "shape up" must be outlawed; the public loading racket, which has been used as an aid to theft, pilferage and extortion, must be abolished.

Those holding key jobs on the docks and piers such as pier superintendents, hiring agents and port watchmen must be carefully licensed to rid the port of the gangsters who have used these jobs for their own purposes. It is also essential to eliminate corrupt practices by stevedoring companies to induce their hire by carriers or to induce officers and representatives of labor organizations to betray their trust to their members. Loan sharks, goons and hoodlums who have preyed upon longshoremen must be driven off the waterfront.

It is now proposed to create an interstate commission to free the port district from the domination of gangsterism and to protect and promote the great economic assets of our country. The situation confronting the States of New Jersey and New York is unique and, hence, calls for a unique solution. We are now given an opportunity to terminate the malicious exploitation of labor and industry which has cast an evil shadow over the port, handicapped its development and made it difficult for both labor and industry to perform efficiently their normal and proper functions.

A main purpose of the bill is to protect labor from intimidation and violence. Of equal note, is the assurance that the proposed compact offers to employers that they may conduct their business in the open in an orderly manner, likewise without fear of intimidation, coercion or the threat of being compelled to pay tribute.

The cost involved is very small to pay for the security that can be achieved by the elimination of the abundant opportunities for extortions that exist under the present way of operation.

Of primary importance, the shipping industry may fairly be expected to accept its full measure of responsibility for tolerating or condoning conditions as they are, and to cooperate fully in this joint effort of the States of New Jersey and New York to restore law and order to the nation's greatest port. Within the scope of this legislation, labor and management are given a new opportunity to work out

effective procedures to arbitrate their differences without the frightful costs of strikes and work stoppages. If full advantage is taken of this opportunity, after there has been a reasonable time to test the value of the law and the ability of the industry to place its own house in order, the whole problem may be reappraised in the light of future conditions.

A summary of the proposed act "to establish a Waterfront Commission of New York Harbor," is attached.

Respectfully submitted,

[SEAL] ALFRED. E. DRISCOLL,
Attest: *Governor.*

RUSSELL E. WATSON, JR.,
Secretary to the Governor.

Summary of an act to establish a Waterfront Commission of New York Harbor and authorizing a compact between the State of New Jersey and the State of New York for the establishment of such a Commission

The act authorizes a compact between the States of New Jersey and New York to improve waterfront labor conditions in the port of New York district, establishes a bi-state commission to administer the plan, and provides that in the interim, until Congress grants its consent to the compact, the two States may separately but cooperatively place the program in operation.

THE COMPACT

The proposed compact is set forth in the sixteen articles which make up section 1 of the bill.

LEGISLATIVE FINDINGS

Article I contains legislative declarations and findings which reflect the conclusions of the New Jersey Law Enforcement Council, Hudson County Grand Jury presentments, our Department of Law and Public Safety, the report of the New York State Crime Commission on the port of New York waterfront and the record of the public hearings held thereon by Governor Thomas E. Dewey on

June 8 and 9, 1953. In substance the findings are that the methods now used in the port of New York district for hiring waterfront labor, and the conduct of the businesses of public loading and stevedoring are uneconomic, unjust and degrading insofar as the worker is concerned, foster waterfront crime and corruption, and adversely affect the economical and expeditious handling of port commerce. Accordingly, it is declared that the present practices of public loaders must be eliminated and that the occupations of stevedores, pier superintendents, hiring agents, pier watchmen and longshoremen must be regulated in the public interest.

BASIC PLAN

The plan to improve waterfront labor conditions has five basic features:

1. Licensing of pier superintendents and hiring agents. Only persons of good character (convicted criminals are barred for at least five years) will be licensed for these key positions. The license must be requested by the employer concerned, is good only for the duration of the employment and may be revoked for specified cause;

2. Licensing of stevedores and port watchmen;

3. The abolition of "public loading";

4. Registration of longshoremen. The right to register is absolute unless the person has been convicted of a crime (but this disqualification may be waived by the Commission) or is engaged in subversive activity or unless his employment on the waterfront is clearly likely to endanger the public peace or safety. Longshoremen who are not attached to the waterfront labor market may be dropped from the register under specified conditions thus providing more and steadier work for and increasing the earning capacity of those who depend on this work for their livelihood;

5. Operation by the Commission of regionally located employment exchanges for registered longshoremen and licensed port watchmen, replacing the wasteful and inhuman "shape-up" method, providing information as to available employment and flexibility in obtaining such employment, but without interference with em-

ployer-employee freedom of selection or with provisions of collective bargaining agreements.

The rights of licensees and registrants are carefully protected by procedural safeguards set forth in Article XI including hearings, court review and other requirements for the protection of the individual.

THE WATERFRONT COMMISSION

Article III creates the Waterfront Commission of New York Harbor. The Commission consists of two members, one from each State appointed by the Governor with the consent of the Senate, to serve for a term of three years. It is contemplated that they may be compensated either on a full time or per diem basis dependent upon whether the office will be a policy making one with administration delegated to an executive director or a full time executive assignment.

Appropriate provision is made for the transfer of civil service employees to service with the Commission without loss of civil service or retirement privileges.

The general powers of the Commission as set forth in Article IV are to make rules and regulations to carry out the statutory plan, to administer oaths and issue subpœnas, to have access to the waterfront in the performance of its duties, to investigate waterfront practices in the port district and to advise and consult with other public officers and with representatives of labor and industry on matters within its jurisdiction, including problems involved in rule making, in the granting and denial of registrations and licenses and in the maintenance of the longshoremen's register. The Commission is required to report annually to the Governors and Legislatures of both States and to make recommendations for the improvement of the conditions of waterfront labor within the port district.

In order to insure that public regulation of waterfront labor practices shall not unnecessarily continue once law and order has been restored to the waterfront, the Commission is expressly required to include in its Annual Report findings as to whether the public necessity still exists for continued registration of longshoremen, licensing of the other waterfront occupations and public operation of the employment information centers.

LICENSING OF PIER SUPERINTENDENTS AND HIRING AGENTS

Article V requires that on and after December 1, 1953, any person who wishes to act as a pier superintendent or hiring agent for a shipping company or stevedore at a pier or other waterfront terminal within the port district must be licensed. Because pier superintendents and hiring agents are, or should be, key supervisory representatives of the employer for whose acts the employer should be held responsible, the application for these licenses is to be made by the prospective employer. A person is disqualified for either of these licenses if he has been convicted of a felony or high misdemeanor or of the following violations of law which, while less serious in themselves, make him a bad risk for waterfront employment: Illegally using, carrying or possessing a dangerous weapon; making or possessing burglar's instruments; buying or receiving stolen property; unlawful entry; aiding an escape from prison; unlawfully possessing or distributing narcotic drugs and previous violation of the Compact. However, if a person so disqualified submits satisfactory evidence of good conduct for at least five years, the Commission may waive this statutory disability.

Additional grounds for disqualification for a license as a pier superintendent or hiring agent include subversive activities by the applicant or a finding that he is not a person of good character or integrity.

The term of a pier superintendent's or hiring agent's license is tied to his employment by the employer-applicant. However, it may be revoked or suspended or he may be reprimanded for the following specified causes: violation of the Compact; conviction of a crime or other cause which would have been disqualifying originally; consorting with criminals for an unlawful purpose; fraud in securing the license or while acting thereunder; addiction to or trafficking in narcotic drugs; violation of the Compact; bribing public officers or anyone else to violate their duties under the Compact; unwarranted giving of his license to someone else; impersonation of another licensee; accepting a bribe in connection with his work; coercion of longshoremen; lending money to or borrowing money from a longshoreman for a fee.

Pier superintendents and hiring agents are ineligible for membership in any union which represents longshoremen.

STEVEDORES

Article VI requires that on and after December 1, 1953, all stevedores in the port district must be licensed. The license application must fully disclose the real parties in interest. A license will be granted if the Commission is satisfied as to the good character and integrity of the real parties in interest and if the applicant is a bona fide stevedore, that is to say that he has, or will, if licensed, have a contract with a shipping company to load and unload the company's ships at a pier in this port.

Prior conviction of the same serious crimes which disqualify pier superintendents and hiring agents also disqualify a stevedore. The Commission is authorized to waive this disqualification upon a showing of at least five years' good conduct. Additional grounds for disqualification in the case of stevedores are prescribed to accord with the Crime Commission's specific findings of abuses and evils now prevalent in this industry. These include payments made for an improper or unlawful purpose and are designed to reach the payment of bribes to a shipper to obtain a stevedoring contract or to a union representative to betray his trust.

PUBLIC LOADING

Article VII sets forth the States' policy against "public loading" and reviews the compelling policy reasons for abolition of the public loader system. Under the bill loading service will be performed in the port of New York as it is in every other major American port—by water carriers; operators of piers and other waterfront terminals at their own facilities; railroads, truckers, and other carriers in connection with freight being carried by them; shippers or consignees in connection with their own freight; and licensed stevedores, in the regular course of business, and through their own employees.

LONGSHOREMEN

A longshoremen's register is to be established by the Commission by December 1, 1953. Article VIII sets forth the provisions with respect to the registration of longshoremen.

There is no fee for registration and no special qualifications are prescribed. The applicant must provide his name,

address, social security number and such further facts as may be needed to establish his identity and criminal record, if any.

Conviction of certain serious crimes or engaging in subversive activities is made basis for disqualification. The Commission, however, may waive the disqualification in a proper case and it may register a longshoreman even though he has previously been convicted of a crime.

In the light of the Crime Commission's disclosures of the activities of known waterfront gangsters who have so far escaped being convicted of crime, provision has been inserted to permit the Commission to deny registration as a longshoreman to a person "whose presence on the piers or other waterfront terminals in the port of New York district is found by the Commission, on the basis of the facts and evidence before it, to constitute a danger to the public peace or safety."

A longshoreman may be removed or suspended from the register only for specified cause. In such case he is entitled to a hearing before the Commission, counsel, his own witnesses, and court review. The causes specified are similar to those specified for removal of hiring agents and wilful acts involving physical injury to a person or damage to or misappropriation of property at a waterfront terminal.

Article IX contains the provisions designed to permit purging the longshoremen's register periodically of drifters and floaters who, although they are not bona fide longshoremen, have been permitted under the present system to take work away from longshoremen who depend on it for their livelihood.

For each six months' period, and in advance, the Commission will establish the minimum number of days a man must work or offer himself for work as a longshoreman in order to stay on the register. A person failing so to qualify will be dropped on ten days' notice and cannot again be registered for one year unless he can show that his absence was occasioned by military service, sickness or other good cause.

PORT WATCHMEN

Port watchmen will be licensed pursuant to Article X. Applicants must not only possess qualifications similar to those prescribed for pier superintendents, but must also

meet reasonable standards of physical and mental fitness. Since these port watchmen are security officers, prior criminal conviction is an absolute bar to a license. Because of the nature of their duties, port watchmen are not permitted to belong to the same union as longshoremen or pier superintendents or hiring agents.

The term of the port watchmen's license is three years and is not tied to a particular employment. The grounds for revocation or suspension are basically the same as those for pier superintendents and hiring agents.

HEARINGS AND COURT REVIEW

Article XI safeguards the rights of licensees and registrants by prescribing procedures for Commission hearings and assuring court review of Commission determinations. A registered longshoreman or any licensee must be given notice of any charges made against him and is entitled to a hearing at which he may have counsel and cross examine witnesses and the licensee or longshoreman can require the Commission to subpœna witnesses requested by him. At least ten days' advance notice of such a hearing must be provided.

The refusal to register a longshoreman or issue a license cannot be effective until after opportunity has been afforded for such hearing and any Commission determination affecting the right to work is subject to court review. The reviewing court is granted power to stay the Commission's action for thirty days. No provision is incorporated in the bill which makes refusal to testify or refusal to answer questions, without other cause, grounds for refusing or rescinding a license or registration.

EMPLOYMENT INFORMATION CENTERS

Article XII authorizes the Commission to establish employment information centers throughout the port district to replace the "shape up."

All hiring of longshoremen and port watchmen will be through these publicly operated centers. The employer would have freedom of choice in the selection of employees at such centers but there would be no interference with normal and proper hiring practices, including the gang or unit system, or procedures established under collective bar-

gaining agreements not inconsistent with the requirements of the compact. The Commission will establish a system of records and communication with employers and workers designed to provide the maximum possible information as to available employment for longshoremen. The Commission is empowered to obtain any Federal assistance that may be available under the Wagner-Peyser Act for the operation of the employment centers.

EXPENSES OF ADMINISTRATION

Article XIII and other sections of the act adopt the principle of charging the cost of administration upon the basis of service received. The Commission will prepare an annual budget of estimated expenses and assess the cost, over Federal or other contributions, against the employers of the registered and licensed waterfront employees in proportion to their gross annual payments to such employees. The rate of assessment may not be more than two per cent of the payroll payments. Expenses of the Commission, in excess of amounts produced by the two per cent payroll assessment will be met by the two States, proportionately, out of general revenues. Until the Commission is jointly established by the two States, or July 1, 1954, whichever is earlier, the rate will be one and one-half per cent in each State.

The budget of the Commission may be reduced or modified by the Governor of each State. In addition, the Commission may establish procedures to enable employers to protest budget estimates and computations of the rate of assessment.

It is felt that the savings to employers and consignees which may be obtained through a reduction in pilferage, the elimination of "phantom" employees from the payroll and other exactions and levies on commerce will greatly exceed the cost of administration of the waterfront commission program.

VIOLATIONS

Article XIV concerns general violations of the compact and prosecutions and penalties therefor. Contempt is made punishable in accordance with normal judicial process. Wilful, false statements under oath are constituted as perjury and other violations of the compact or attempts or conspiracies to violate it are made punishable as is interference with the orderly registration of longshoremen.

The statute also prohibits loitering on the waterfront without satisfactory explanation. The language for this section is taken from comparable provisions of law which presently exist in both States.

Section 8 prohibits the collection of funds for waterfront labor unions having officers or agents who are convicted felons unless they have been subsequently pardoned or have received a certificate of good conduct from a board of parole or similar authority.

COLLECTIVE BARGAINING SAFEGUARDED

There is nothing in the statute which is designed or can reasonably be construed to interfere in any way with the right of the waterfront industry to select its own employees, or with the right of industry and labor to bargain collectively and agree on any method for the selection of longshoremen and port watchmen by way of seniority, experience, regular gangs or otherwise in conformity with the license, registration and employment information center provisions of the statute. Because of apparent misunderstanding of this point within the shipping industry, an express declaration to this effect has been included as Article XV in the Compact.

Similarly, Article XV includes an express statement that the statute is not designed and shall not be construed to limit labor's rights.

THE INTERIM ARRANGEMENT

Since there could be some delay in procuring Congressional consent, the statute in each State provides for a single state commission to perform within that State the functions of the bi-state commission until Congressional approval of the compact is obtained. The bill is so drafted that a single commissioner will be able to function in each State from the time of enactment of the bill.

Section 3 authorizes the commissioners from each State to work in the closest possible cooperation with each other to effectuate the purposes of the act.

The bill also provides for a returnable cash advance by each State, to provide for expenses of administration pending the assessment of such expenses against employers in accordance with the compact.

The licensing, registration and employment center provisions of the bill do not become operative until December 1, 1953.

CONSTITUTIONAL SESSION

MONDAY, August 17, 1953.

At 12:00 o'clock noon the Senate met.

The session was opened with prayer by the Reverend W. Neal Raver.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Cafiero, Dumont, Farley, Forbes, Hand, Hannold, Littell, Mathis, McCay, O'Mara, Shershin, Stout, Summerill, Van Alstyne, Vogel, Young (President)—16.

A message was received from the Governor by the hands of his Secretary.

Forty-seven Senate bills and two Senate joint resolutions were received from the Governor together with veto messages attached to each.

Under the direction of the President the seals of the messages were broken and the Secretary read as follows:

CONDITIONAL VETOES

Senate Bill No. 77, entitled "An act providing for tenure in office, position or employment of certain superintendents of public works,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 77

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 77.

This is a permissive tenure bill dealing with superintendents of public works in any borough in a county of

the second class, where the superintendent fulfills a certain description set forth in the bill. In general, the bill conforms to legislation previously approved, except that it does not safeguard the public interest by an appropriate retirement provision applicable to any person who might acquire life tenure under the terms of the bill.

Accordingly, I am returning herewith Senate Bill No. 77 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

Amend page 1, section 1, line 14, by inserting after the word "provided" and before the period, the following:

"; and that any such person may be retired by the governing body of said municipality when he shall have attained seventy years of age".

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

Attest:
RUSSELL E. WATSON, JR.,
Secretary to the Governor.

Senate Bill No. 91, entitled "An act concerning county bridge commissions, and supplementing article two of chapter nineteen of Title 27 of the Revised Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 91

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 91.

I am informed that the Burlington County Bridge Commission wishes to obtain the use from the State Highway Department of certain highway lands upon which to erect

toll booths to relieve congestion on approaches to its bridges. This bill would allow any county, municipality, or any State department, agency, or commission to lease, lend, grant or convey to a county bridge commission at its request, upon "reasonable and fair" terms and conditions, "any real property which may be necessary or convenient to the effectuation of the authorized purposes of such county bridge commission, including public roads and other real property already devoted to public use."

The bill, prompted by a meritorious purpose, is so broad in scope and so completely lacking in provision for public notice or hearing that it is impractical to anticipate its possible effects. Since the conditions sought to be met do not require or warrant any such sweeping authority as the bill might convey, the legislation should be confined more closely to its immediate objective.

Accordingly, I am returning herewith Senate Bill No. 91 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

Amend page 1, section 1, line 1, by deleting "county or municipality, or any".

Amend page 1, section 1, line 4, after the word "request," insert "with the approval of the State House Commission and ".

Amend page 1, section 1, lines 5 and 6, by deleting all of said lines and inserting in lieu thereof "State House Commission may deem reasonable and".

Amend page 1, section 1, line 12, by inserting after the word "use", and before the period, the words "; to the extent, however, that such real property may, in the judgment of the authorities concerned, and subject to the approval of the State House Commission, be required by the county bridge commission for the erection of toll booths".

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

Attest:

RUSSELL E. WATSON, JR.,
Secretary to the Governor.

Senate Bill No. 110, entitled "An act concerning motor vehicles and traffic regulations in relation to certain parks, and supplementing subtitle one of Title 39 of the Revised Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL NO. 110

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 110.

This bill would authorize the board of trustees of certain parks to initiate the application of Subtitle one of Title 39 (Motor Vehicle and Traffic Regulation) of the Revised Statutes by written request to the governing body of the municipality in which the park is located. This bill differs from Senate Bill No. 111, in that it relates to parkways or other roadways open to or used by the public for purposes of vehicular traffic, in a park maintained in whole or in part by the municipality. This public character of the roadway would warrant the public protection afforded by Title 39 of the Revised Statutes.

Accordingly, I am returning herewith Senate Bill No. 110 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

Amend page 1, section 1, lines 1-4, by striking out all of said lines and inserting in lieu thereof the following:

"1. The provisions of sub-".

Amend page 1, section 1, line 5, by deleting the word "made".

Amend page 1, section 1, line 8, by deleting the words "by permission of such trustees" and inserting a comma in lieu thereof.

Amend page 1, section 1, lines 9-12, by deleting all of said lines and inserting in lieu thereof the words

"otherwise, within any park maintained in whole or in part by any municipality.".

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Attest: *Governor.*
RUSSELL E. WATSON, JR.,
Secretary to the Governor.

Senate Bill No. 130, entitled "An act concerning education and granting tenure in office to district clerks of boards of education in certain cases,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 130

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 130.

Under existing law (R. S. 18:5–51) the district clerk of a board of education in any municipality devoting his full time to the duties of his office acquires tenure during good behavior after three years of service. Under the present bill, any clerical or secretarial personnel who has acquired or shall acquire tenure in such position or employment with a school district and who has been or shall be appointed as district clerk, would have tenure in the office of district clerk. In effect, the bill would merely transfer tenure already acquired in one job to another job in which the law also provides protected tenure of office.

The bill might not accomplish its purpose, however, in view of the fact that Assembly Bill No. 195, which has been approved and is now Chapter 255 of the Laws of 1953, has changed the title of "district clerk" to "secretary" as of July 1, 1953. In order to avoid confusion between the two bills, amendments are necessary.

Accordingly, I am returning herewith Senate Bill No. 130 for reconsideration and with the recommendation that

amendments be made to the bill (Official Copy Reprint) as follows:

On page 1, section 1, line 4, after the words "district clerk" insert the words "or secretary".

On page 1, section 1, line 5, delete the words "district clerk" and insert the word "secretary".

Respectfully,

Senate Bill No. 164, entitled "An act concerning hunting on Sunday in certain cases, and amending section 23:4–24 of the Revised Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 164

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 164.

This is the bill which has become known as "the woodchuck bill" among farmers and as "the hawk bill" among conservationists. Neither the woodchuck nor the hawk are the object of interest of those who have come to designate the bill as "the Sunday shooting bill."

It is even reasonable to view this bill as a law revision measure. The present law prohibits "going into the woods or fields with a firearm, except during the open seasons . . . ; *provided, however,* that this section shall not apply to the killing of crows, hawks, woodchuck and vermin which may be taken in any manner and at any time of the year, when in the act of destroying poultry, crops or property." (R. S. 23:4–25.) It has been represented that there is a conflict between the last quoted proviso and R. S. 23:4–24 which flatly prohibits hunting on Sunday.

Among all the many citizens who have expressed a view on this subject, few if any have sought to grapple with the niceties of the law which says in one section that crows, hawks, woodchuck and vermin "may be taken in any manner and at any time of the year" and another section of the same law which says that no person shall hunt on Sunday.

The problem then is to resolve the legal haze and serve the objectives of wildlife conservation, the proper interest of the farmer in protecting his land, and the religious convictions of those who would maintain the Sabbath. If this can be done without calling upon each group to reconcile itself in part at least to the proper interest of the other, it would be an act of statecraft indeed.

After studying the various views at length, I am convinced that there has been ample room for misunderstanding as to the true purport of the legislation. It is not a woodchuck bill since it obviously covers hawks in addition to the other animals specified. Nor is it a hawk bill, since hawks are already subject to be shot when they are caught in the act of "destroying poultry, crops or property." Under the bill, it is plain that the guilt of the hawk might be something less and her risk of destruction something greater by one day in seven. Nor is this a Sunday shooting bill, in that the prohibition against Sunday hunting would remain fully effective except as to the farmer who may be engaged in protecting his own property. His battle against the elements, crop disease and pests goes around the clock and throughout the week. If these reasonable interests be admitted, they can be reconciled.

Accordingly, I am returning herewith Senate Bill No. 164 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

Amend page 1, section 1, line 5, by inserting before the word "land" the word "farm".

Amend page 1, section 1, line 7, by deleting the word "hawks,".

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

Senate Bill No. 170, entitled "An act concerning the suspension or revocation of drivers' licenses in certain cases, and supplementing chapter five of Title 39 of the Revised Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL NO. 170

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 170.

The general object of this bill is to recognize the grossly unequal penalties which are imposed under laws of the several States for motor vehicle violations where the offense charged is driving under the influence of intoxicating liquor or narcotics. In some States a conviction results in a suspension or revocation of the driving privilege for three months whereas in our own State the period is two years. It is quite apparent that a system of law enforcement must be considered in all its parts, including not only the designation by which an offense is known but also the nature and character of the evidence generally required for a conviction and the severity of the penalty that may be imposed. It is well known that light penalties are apt to promote more numerous convictions, and that offenses of identical designation may in fact imply very different degrees of culpability among the different States.

Our policy of applying the most stringent penalties for driving a motor vehicle while intoxicated should not blind us to the realities of the reciprocal revocation provisions of our law. The present bill goes much too far however by limiting the period of suspension or revocation in this State to the maximum period for which the reciprocity driving privilege was revoked by the State in which the violation occurred. In effect this reduces our penal sanction to the least common denominator of other States. It has always been our policy, however, to lead rather than to follow in the development of laws and administration for safety on the highways. In order to reconcile this policy with the necessities of our reciprocal relations with other States, it

is sufficient to give the Director of the Division of Motor Vehicles discretion as to the period of revocation or suspension provided that the period shall not be less than that required by the law of the State where the offense occurred nor more than that required by our State law if the offense had occurred within this State.

Accordingly, I am returning Senate Bill No. 170 herewith for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

Amend page 1, section 1, line 1, by deleting the word "licensed" and inserting in lieu thereof the word "resident".

On page 1, section 1, line 2, delete the word "driver," and after the words "revoked by" insert the words "lawful authority in".

Amend page 1, section 1, line 6, by inserting after the word "thereof," the words "the Director shall suspend or revoke".

Amend page 1, section 1, lines 7, 8, 9 and 10 by deleting all of said lines and inserting in lieu thereof the following: "such resident in this State, in the manner prescribed by section 39:5–30 of the Revised Statutes, for a period not less than that for which the reciprocity driving privilege was suspended or revoked in such other State nor more than the period for which the driving privilege would have been suspended or revoked had a conviction of a like offense occurred in this State.".

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

Senate Bill No. 185, entitled "An act respecting the issuance of hunting and fishing licenses, and amending sections 23:3–1, 23:3–4, 23:3–6, 23:3–7, 23:3–8 and repealing section 23:3–5 of the Revised Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 185

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 185.

At the time this bill was introduced, there was another bill, Assembly Bill No. 294, which would have required a separate deer license, under our State laws regulating hunting and fishing. In view of the requirement of Assembly Bill No. 294 for such a separate deer license, Senate Bill No. 185 provided for the elimination of the tag to be worn on the back of the hunter in order to obviate the confusion that would ensue if different types of tags for different types of licenses would be required to be on the back at the same time.

Similarly, Senate Bill No. 185, as introduced, eliminated the present requirement for a special bow and arrow license in view of the provision for a special deer license contained in Assembly Bill No. 294, and in anticipation of the additional revenue that would be provided by such a license.

The special deer license bill, Assembly Bill No. 294, having failed to pass in the General Assembly, it is necessary to restore to Senate Bill No. 185 the existing provision of the law requiring a special bow and arrow license and requiring that gunners display a tag on their backs.

Accordingly, I am returning herewith Senate Bill No. 185 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

Amend the title by striking out all of the second line and inserting in lieu thereof "Section 23:3–1".

Amend page 1, section 1, line 9, by inserting after the word "license." a new sentence to read as follows: "Nor shall any person engage in hunting or trapping unless he has in addition first procured a button or tag showing the number of the license and whether the hunter or trapper is a resident or a nonresident; and such button or tag shall be worn in a conspicuous place on his outer clothing at the time of such hunting or trapping.".

Amend page 1, section 1, line 10-14, by inserting after the word "license" the words "and tag or button".

Amend page 1, section 1, after line 17 by inserting the following paragraph:

"Any person found hunting or trapping without his button or tag conspicuously displayed shall be liable to a penalty of five dollars ($5.00) and costs to be recovered pursuant to the provisions of Title 23, chapter ten, of the Revised Statutes.".

Amend pages 2 and 3, section 2, by striking out all of said section.

Amend pages 3 and 4, sections 3, 4, 5 and 6, by strikout all of said sections.

Amend page 4, section 7, line 1, by changing the section number "7" to section number "2".

Respectfully,

Governor.

Senate Bill No. 223, entitled "An act concerning municipalities in relation to official maps and building permits, and supplementing chapter fifty-five of Title 40 of the Revised Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL NO. 223

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 223.

This is a companion measure to Senate Bill No. 224. Together, both bills represent an outstanding contribution to the law of municipal planning and subdivision control, upon which I have commented more fully in my message returning Senate Bill No. 224 for recommended amendments.

The present bill cannot stand alone since it refers to and, in effect, anticipates the enactment of Senate Bill No. 224, known as the "Municipal Planning Act (1953)." In view of the fact that the latter bill requires amendment, there are also clarifying amendments which would be helpful at this time, to eliminate a few remaining points of possible ambiguity in Senate Bill No. 223.

Accordingly, I am returning herewith Senate Bill No. 223 for reconsideration and with the recommendation that amendments be made to the bill (Second Official Copy Reprint) as follows:

Amend page 1, section 2, lines 6 and 7, by deleting all of said lines and inserting in lieu thereof the following:

" 'Street' means any street, avenue, boulevard, road, lane, parkway, viaduct, alley or other way which is an existing State, county, or municipal roadway, or a street or way shown upon a plat heretofore approved pursuant to law or approved by official action pursuant to the Municipal Planning Act (1953), or a street or

way on a plat duly filed and recorded in the office of the county recording officer prior to the appointment of a planning board and the grant to such board of the power to review plats, and includes the land between the street lines, whether improved or unimproved, and may comprise pavement, shoulders, gutters, sidewalks, parking areas and other areas within the street lines.''.

Amend page 1, section 2, line 11, by deleting the entire line and inserting in lieu thereof the word ''posed.''.

Amend page 2, section 3, line 7, after the word ''reserve'' by inserting the words ''for future public use''.

Amend page 2, section 3, line 14, after the word ''observe'' by inserting the words ''the reservation of''.

Amend page 2, section 3, line 15, by inserting after the word ''playgrounds.'' a new sentence as follows: ''During such period of one year or any extension thereof the applicant for the plat approval, and his assigns and successors in interest, may use the area so reserved for any purpose other than the location of buildings or improvements thereon, except as provided in section 9 of this act.''.

Amend page 3, section 9, line 5, by deleting all of said line and inserting in lieu thereof the following:

''map, except as herein provided. Whenever one or more parcels of land upon which is located the bed of such a mapped street or drainage right of way, or any park or playground location reserved pursuant to section 3 hereof,''.

Amend page 3, section 9, line 6, by deleting the words ''location forms a part,''.

Amend page 3, section 9, line 7, by deleting the word ''such'' and inserting in lieu thereof the words ''a building''.

Amend page 3, section 9, line 9, by deleting all of said line and inserting in lieu thereof the following:

''of its members, grant a permit for a building in the bed of such mapped street or drainage right of way or within such reserved location of a public park or playground, which will as little''.

Amend page 4, section 10, line 3, after the word "map" where it first occurs by changing the comma to a semicolon and inserting a comma after the word "or" and after the word "map" at the end of the line.

Amend page 4, section 10, line 4, after the word "municipal" by inserting the words "street or".

Amend page 4, section 10, line 9, by changing the words "would require" to the word "required".

Amend page 5, section 12, line 4, by deleting the semicolon and inserting a comma.

Senate Bill No. 224, entitled "An act concerning municipalities in relation to municipal planning, repealing sections 40:55–1 to 40:55–21, inclusive, and supplementing chapter fifty-five of Title 40 of the Revised Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 224

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 224.

This bill and Senate Bill No. 223 are companion measures resulting from my veto message concerning Assembly Bill No. 463 of 1952. As one spokesman for local government in this State has said, last year's bill "would have set municipal planning back twenty-five years." Many organizations and individuals have made an outstanding contribution in the intervening year to provide New Jersey with completely modernized municipal planning statutes.

The present bills are the co-operative work of the following organizations of New Jersey: Municipal Attorneys Institute, Municipal Engineers Association, Home Builders Society, Real Estate Association, Society of Professional Engineers and Land Surveyors, State Federation of Official Planning Boards, and the State Departments of Health and Conservation and Economic Development. In the course of a large legislative problem such as this, it is to be expected that the varying views of many groups and individuals had to be reconciled, and that it is unlikely that the final draft as enacted by the Legislature will completely agree with the views of any one group. It is a real pleasure for me to acknowledge the valuable contribution to the public welfare which has been made by the special committee of individuals representing these organizations.

In the course of the give and take which the drafting of this type of legislation must imply, a few provisions have crept in which are susceptible of an interpretation which, I am sure, was not the intention of the sponsors. Section 13, for example, could be construed so as to become a source of conflict and discord between county, State and Federal agencies, which are concerned with county-wide, State-wide and even nation-wide planning problems, and the municipal planning board which should properly be empowered to make recommendations with respect to the projects of these other agencies. Other minor technical matters could also give trouble in the future.

Accordingly, I am returning Senate Bill No. 224 for reconsideration and with the recommendation that amendments be made to the bill (Second Official Copy Reprint) as follows:

Amend page 3, section 3, line 8, by inserting after "board" the words "continued by section 27 of this act or".

Amend page 7, section 13, line 13, by deleting before the word "public" the word "the" and inserting in lieu thereof the words "any municipal"; and before the word "officer" inserting the word "municipal".

Amend page 7, section 13, lines 19 and 20, by deleting the sentence beginning with the words "Whenever such" including all of line 20.

Amend page 8, section 13, by deleting lines 21 and 22, inclusive, in their entirety and inserting in lieu thereof the following:

"Where the body which shall have overridden a recommendation of the planning board is a municipal body or agency, the action of such body shall not become final until the governing body of the municipality shall, by majority vote, approve its action in overriding the recommendation of the planning board".

Amend page 9, section 16, line 2, after the word "Statutes" insert ", as amended or supplemented,".

Amend page 16, section 26, lines 18 and 19 by deleting all of said lines and inserting in lieu thereof the following:

"heretofore created pursuant to Chapter 55 of Title 40 of the Revised Statutes or hereafter created under the provisions of this act".

Amend page 16, section 27, line 11, by deleting all of said line and inserting in lieu thereof the following:
"suant to this act for the regulation of subdivisions, in which".

Senate Bill No. 225, entitled "An act concerning certain employees of the Division of Motor Vehicles in the Department of Law and Public Safety, and supplementing subtitle two of Title 11 of the Revised Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 225

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 225.

This bill proposes to cover into the classified service of the Civil Service certain investigators and auditor-investigators employed in the Division of Motor Vehicles in connection with the Bus Excise Bureau. The employees concerned were appointed prior to the adoption of the State Constitution of 1947 under a statute which did not permit their appointment to be made subject to the provisions of Title 11 of the Revised Statutes, Civil Service. The statute, R. S. 48:4–29, prescribes that "The appointment . . . shall be free of the provisions and limitations imposed by Title 11, Civil Service . . .".

The bill should first amend R. S. 48:4–29 to place the positions within the classified service of Civil Service.

Accordingly, I am returning herewith Senate Bill No. 225 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 1, title, line 2, after the words "Public Safety," insert the words "amending Section 48:4–29,".

On page 1, title, line 3, after the words "Title 11" insert a comma.

On page 1, following the enacting clause, insert the following new section 1:

"1. Section 48:4–29 of the Revised Statutes is amended to read as follows:

"48:4–29. The [commissioner of motor vehicles] Director of the Division of Motor Vehicles may appoint one or more auditors and investigators and such clerical assistants as he may deem necessary, subject to the provisions of Title 11, Civil Service. [The appointment of auditors and investigators shall be free of the provisions and limitations imposed by Title 11, Civil Service. The appointment of clerical assistants shall be subject to the provisions of said Title 11.]

[The rate of compensation of all employees engaged in the administration of sections 48:4–20 to 48:4–34 of this title shall be fixed by the commissioner with the approval of the state commissioner of finance.]

On page 1, change the section numbers "1", "2" and "3" to section numbers "2", "3" and "4", respectively.

Senate Bill No. 229, entitled "An act concerning jury commissioners in certain counties, and amending section 2A:68–7 of the New Jersey Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 229

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 229.

The object of this bill is to revise the schedule of compensation paid to jury commissioners. As originally introduced, the bill would have increased the annual com-

pensation payable in counties of the first class to eighteen hundred dollars; in counties of the second class and counties of the third class having a population in excess of one hundred and ninety thousand to fifteen hundred dollars; and in all other counties to one thousand dollars. By an amendment to the bill, made in the Senate, the amount originally proposed for jury commissioners in counties of the first class was deleted, and the present compensation payable to these jury commissioners (nine hundred dollars per annum) was reinserted.

If the bill were approved in its present form, jury commissioners in counties of the first class would be paid six hundred dollars less each year than the amount which would be paid in counties of the second class and those counties of the third class having a population in excess of one hundred and ninety thousand. There is no sound reason why jury commissioners in counties of the first class should be paid less compensation than that which is proposed to be paid in less populated counties.

Accordingly, I am returning herewith Senate Bill No. 229 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 1, title, line 1, delete the words "in certain counties".

On page 1, section 1, lines 5 and 6, delete the words "nine hundred dollars ($900.00) per annum in counties of the first class;".

On page 1, section 1, line 7, after the words "in counties of", insert the words "the first class, counties of".

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 241

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 241.

This bill would authorize the State House Commission, upon certification by the State Fish and Game Council that certain lands located in the Borough of Glassboro are no longer required for public purposes, to convey the property to the Gloucester County Board of Agriculture, at a sales price which the Commission shall deem adequate. This measure has the approval of the Division of Fish and Game in the Department of Conservation and Economic Development.

The bill, however, fails to set forth the municipality in which the land proposed to be conveyed, and described in the bill, is located. For this reason an amendment is necessary.

Accordingly, I am returning herewith Senate Bill No. 241 for reconsideration and with the recommendation that an amendment be made to the bill (Official Copy Reprint) as follows:

On page 1, section 1, line 8, after the word "land" insert the words "situate in the Borough of Glassboro, in the County of Gloucester".

Senate Bill No. 264, entitled "An act to amend the 'Temporary Disability Benefits Law' (P. L. 1948, c. 110),"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 264

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 264.

This bill presumes to limit the delegation of administrative power conferred by the Temporary Disability Benefits Law, with respect to the determination of when the exclusion of a class or classes of employees from a private plan "will result in a substantial selection of risk adverse to the State plan." One of the major principles upon which our New Jersey system of cash sickness benefits was built was to encourage employers and employees to agree upon voluntary plans of cash sickness benefits which can be tailored to the conditions and opportunities for superior coverage within the various industries. I am pleased to note that this purpose has been amply fulfilled and that labor and management have, through the process of collective bargaining, been able in numerous cases to raise the standard of health and accident protection well above the minimum now required by our State law.

Since the State fund is already protected by the variable charges to employers, there can be no substantial objection to the limitation of unnecessary administrative discretion by specifying the conditions under which the question of adverse selection of risk may be considered. The bill, however, fails to specify one of the important factors which could operate as a basis of risk selection, namely, the average wage level of a particular class of employees. Wage level is important in this program for two reasons: first, there is a tendency on the part of higher paid employees to be able to maintain themselves in better general health and, therefore, to have occasion to make fewer claims for sickness benefits; and secondly, the manner in which contributions are computed affords an ad-

vantage to the fund where there is a greater percentage of covered workers earning three thousand dollars or more. We should be careful that in limiting administrative discretion, we do not dilute the substantive power to be exercised.

Accordingly, I am returning herewith Senate Bill No. 264 for reconsideration and with the recommendation that an amendment to the bill (Second Official Copy Reprint) be made as follows:

Amend page 2, section 1, line 47, by inserting after the word "employees," the words "or by the wages paid such employees,".

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objection, Senate Bill No. 273.

To accomplish its objective this bill requires a technical amendment. Accordingly, I am returning it herewith for reconsideration and with the recommendation that an

SENATE BILL No. 284

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 284.

This is a companion bill to Senate Bill No. 283 which has been approved. The purpose of the present bill is to revise the schedule of fees applicable in courts of limited criminal jurisdiction. Unfortunately the title is defective in that it only refers to fees and costs in county district courts, and there is a further defective reference to county district courts in the first section of the bill.

Accordingly, I am returning herewith Senate Bill No. 284 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

Amend the title by striking out the words " in county district courts" and inserting in lieu thereof "of courts of limited criminal jurisdiction and of their officers".

Amend page 2, section 1, line 38, by deleting the words "county district".

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 343

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 343.

In the course of the past seven years, one of the most constructive achievements of the Legislature, working in co-operation with the Executive branch, has been the enactment of the "Temporary Disability Benefits Law", commonly known as cash sickness benefits. This was pioneering legislation, and to this day only three other states—California, New York and Rhode Island, have comparable laws. Our New Jersey law is today providing security against loss of earnings due to non-occupational sickness and accident for some 1,900,000 covered workers and their employers.

The present bill would impart a novel feature to this type of insurance protection. It is intended to require the State Plan and all private plans to pay benefits retroactively for the first seven days of disability (now a non-compensable waiting period), whenever a claimant suffers a disability lasting twenty-eight days.

The retroactive payment for the waiting week does not exist in the laws of any of the other three states which

have cash sickness benefit plans. It does not appear, I am informed, in any private plans qualified under our New Jersey law. A similar provision was inserted in our unemployment compensation law only last year, but in this respect the nature of the two programs is distinguishable.

In view of the administrative problem, as compared with the limited benefit, that this proposal would bring to the system, I am frankly doubtful whether it is in the best interest of a liberal tradition. It may well be preferable to increase the maximum benefit rate or to provide for an earned dependent's benefit. Either of these tested and worthy improvements for both unemployment compensation and temporary disability benefits, are likely to be more difficult to adopt once the retroactive payment of the waiting week is established.

Regardless of these considerations of legislative policy, certain amendments are required if the bill is to carry out its intended purpose.

Accordingly, I am returning herewith Senate Bill No. 343 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

Amend page 2, section 1, lines 18 and 19, by deleting the words "and prior to July first, one thousand nine hundred and fifty-three," and inserting a comma in lieu thereof.

Amend page 2, section 1, lines 32–41, by deleting all of said lines and inserting in lieu thereof a new subsection (c) to read as follows:

"(c) With respect to periods of disability commencing on or after January first, one thousand nine hundred and fifty-four, when benefits become payable with respect to the twenty-eighth consecutive day of disability the claimant shall be eligible to receive benefits as appropriate with respect to the first seven days of such period of disability, provided that such benefits, together with all other benefits payable to any individual, shall not exceed the maximum total benefits payable to such individual in any twelve-month period."

Amend page 3, section 2, lines 9 and 10, by deleting the words "third consecutive week next following the

first seventh", and inserting in lieu thereof "twenty-eighth".

Amend page 3, section 2, line 12, by deleting the word "each" and inserting the word "such" in lieu thereof.

Amend page 3, section 2, line 18, by inserting after the word "inflicted" the word "injury,".

Senate Bill No. 364, entitled "An act to amend 'An act for the punishment of crimes, and supplementing Title 2A of the New Jersey Statutes,' approved June eighteenth, one thousand nine hundred and fifty-two (P. L. 1952, c. 332),"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL NO. 364

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 364.

This bill has the general purpose of making it a crime for any person to remove, alter or obliterate a trade-mark, distinguishing or identification number or manufacturer's serial number on or from any appliance, machine or apparatus. Motor vehicles (being already covered with respect to such acts under Chapter 127 of Title 2A of the New Jersey Statutes) are specifically excepted from the provisions of the measure except those running upon or guided by rails or tracks. The object of the bill is to prevent fraud by dealers in household appliances particularly, although the coverage is broader.

The way the bill is drawn any home owner who removes a trade-mark or number on a piece of his own property for purely personal reasons would technically become a

violator of the criminal law, even though he may not have sold the appliance or have any intention of selling it. This would be an unfortunate consequence of a desirable piece of legislation.

Also, if this measure, after proper amendment, is to have any likelihood of effective enforcement, it would seem desirable to modify the penalty in accordance with the recent policy of the Legislature, so that the offense will be under the Disorderly Persons Law, rather than a misdemeanor.

Accordingly, I am returning herewith Senate Bill No. 364 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 1, section 1, line 3, delete the word "who" and insert in lieu thereof the words "engaged in the business of selling tangible personal property or in the maintenance and repair of such property who, by his own act or through any agent or employee,"

On page 1, section 1, line 11, delete the word "guilty".

On page 1, section 1, line 12, delete the words "of a misdemeanor" and insert in lieu thereof the words "a disorderly person".

On page 2, section 2, line 3, after the word "person" delete the words "who knowingly possesses or who acquires" and insert in lieu thereof the words "who shall knowingly acquire".

On page 2, section 2, line 4, after the words "sale or resale," insert the words "and who shall knowingly possess,".

On page 2, section 2, line 10, delete the word "guilty".

On page 2, section 2, line 11, delete the words "of a misdemeanor" and insert in lieu thereof the words "a disorderly person".

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

Senate Bill No. 366, entitled "An act to amend the 'Private Detective Act of 1939,' approved November eighteenth, one thousand nine hundred and thirty-nine (P. L. 1939, c. 369),"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 366

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 366.

This measure would amend that section of the "Private Detective Act of 1939" which prohibits persons licensed by the Division of State Police under that Statute, or their officers, directors, employees, operators or agents, to wear, carry or accept any badge or shield purporting to indicate that the person is a private detective or investigator or connected with the private detective business. The amendment would permit any such licensee or any officer, director, employee, operator or agent thereof who is acting as a guard or performs any special service and while in uniform and on the premises where he is so acting, to wear a badge or shield inscribed with the name of the license holder, the number and the word "Guard" or "Special Service". The apparent objective of the bill is to provide for more effective industrial plant protection service.

The exercise of the privilege afforded by this amendment should, I am advised by the Division of State Police, properly be limited to the premises of the employer of the licensee. Although this limitation was apparently intended, it is not clearly stated in the bill.

Accordingly, I am returning herewith Senate Bill No. 366 for reconsideration and with the recommendation that amendment be made to the bill (Official Copy Reprint) as follows:

On page 1, section 1, line 9, after the word "premises" insert the words "of the employer of the licensee".

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

Senate Bill No. 379, entitled "An act correcting certain errors in the statutes, and revising parts of the statute law,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 379

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 379.

This bill was introduced for the purpose of correcting technical errors existing in certain of the statutes. Section 8 of the bill would correct such an error appearing in the first section of Chapter 236 of the Laws of 1952 which set out to amend R. S. 18:2–4.

Senate Bill No. 15, which was approved on March 19, 1953, contains an amendment to R. S. 18:2–4 which is not incorporated in Senate Bill No. 379. An amendment is necessary to conform the present bill with Senate Bill No. 15, which is now P. L. 1953, c. 18.

Accordingly, I am returning herewith Senate Bill No. 379 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 2, section 3, line 15, after the word "clerks" delete the colon and insert in lieu thereof a semi-colon.

On page 8, section 8, line 49, after the words "State Board of Education in" delete the word "an" and insert in lieu thereof the words "a civil".

On page 8, section 8, line 50, delete the words "of debt" appearing at the beginning of the line.

Senate Bill No. 381, entitled "An act for the establishment of an alcoholic beverage control law enforcement officers pension fund,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 381

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 381.

This bill would establish a new pension fund for Alcoholic Beverage Control law enforcement officers. Our chief actuary reports that he is satisfied that the bill "contains the best practical solution of this problem at this time." It will be highly desirable if other groups of law enforcement officers could eventually be included within a single state law enforcement officers' pension fund.

Since the present bill has been recommended as actuarially sound, in general, the legislation may be viewed as a constructive solution of a long standing problem. It contains two defects, however. The title does not indicate that the bill makes an appropriation, and the actuary has indicated that in order to assure the participating members that their contribution rates for the benefits provided will not be unduly increased in future years because of an unfavorable mortality experience, it is necessary to amend the bill.

Accordingly, I am returning herewith Senate Bill No. 381 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

Amend the title by inserting after the word "fund," the words "and making an appropriation therefor".

On page 3, section 2, line 4, delete the word "July" and insert in lieu thereof the word "October".

On page 9, section 7, line 13, delete the word "servicement" and insert in lieu thereof the words "service retirement".

On page 10, section 8, line 11, delete "(a)" and insert in lieu thereof "(2)".

On page 14, section 13, lines 27 and 28, delete the words "sixty per centum (60%)" and insert in lieu thereof the words "seventy-five per centum (75%)".

On page 15, section 16, line 21, delete the word "survime" and insert in lieu thereof the word "survive".

SENATE BILL No. 394

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 394.

This bill if it is to accomplish its purpose requires a technical amendment. Accordingly, I am returning it herewith for reconsideration and with the recommendation that an amendment be made to the bill (Official Copy Reprint) as follows:

On page 1, section 1, line 4, delete the word "judgment" and insert in lieu thereof the word "judgments".

ABSOLUTE VETOES

Senate Bill No. 66, entitled "An act concerning the county district courts in certain counties of the fifth class and providing for the judicial and ministerial officers and the employees of said courts,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL NO. 66

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 66, for the following reasons:

This bill would create a new county district court judgeship in Ocean County. It would also require the appointment of a clerk and a sergeant-at-arms and authorize the employment of deputy clerks, assistants, clerical assistants, and other employees, for the county district court.

An examination of the work of the courts in Ocean County fails to justify any need for a separate district court judge in the county affected. The present status of the calendars in Ocean County in both the district court and the County Court is sound. As of March 31, 1953, the County Court list had only 48 active cases pending at issue untried, none of which were instituted prior to the year 1951. As of December 31, 1952, there were 111 active district court cases plus 418 cases not considered active because the summons had not been served. It is apparent that the present status of the calendars would not justify an additional judge.

The total number of hours on the bench of the Ocean County judge holding a district court has averaged 59 per cent less than the time spent by the part-time County Court judges holding district court in other counties. Based on the volume of judicial business, a separate district court judge in the county would have only about 16 per cent of the average volume of contested matters handled by the separate district court judges in the counties where they are in office.

Accordingly, I am constrained to return the bill without my approval.

SENATE BILL NO. 63

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 63, for the following reasons:

The subject matter of the amendment to the "Private Detective Act of 1939" proposed by this bill is adequately covered in Senate Bill No. 366, which I am also returning today for reconsideration and amendment.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 92

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 92, for the following reasons:

The manner in which county boards of elections are appointed would be changed by this bill so as to require the chairman of each State committee to meet with twenty-one different committees for the making of such appointments. At present, the chairman of the State committee of each of the two political parties nominates and the Governor commissions the members of the Board of Elections. Under the bill, a committee would be constituted for each county consisting of the chairman and vice-chairman of the county committee, the State committeeman and the State committeewoman, and the State chairman, who would jointly make the nomination, and the term of office would be extended from two to four years.

There appear to be advantages in the present law, which vests the executive responsibility for the making of the nominations in the chief executive officers of the two political parties. Moreover, the State chairman is in a good position to receive recommendations from each county committee and to consult with the State committeemen and committeewomen.

Accordingly, I am constrained to return Senate Bill No. 92 herewith without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

L. 1945, c. 284), so that the same shall read 'An act concerning motor vehicles and traffic regulations of certain semipublic or private roads, streets, driveways, trails, terraces, bridle paths, parkways, parking areas or other roadways owned by certain persons or corporations or by public or semipublic corporations not for pecuniary profit and open to or used by the public for purposes of vehicular travel, and supplementing subtitle one, Title 39, of the Revised Statutes,' and to amend the body of said act,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL NO. 111

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 111, for the following reasons:

Under existing law, "any corporation or other institution of a public or semipublic character not for pecuniary profit" may initiate the application of the provisions of Title 39 of the Revised Statutes with respect to certain semipublic or private streets and roads by written request to the governing body of the municipality in which such property is located. The present bill would extend this power to any person or corporation owning and operating an apartment house or apartment project containing ten or more apartments. The present statute would also allow the operation of the Motor Vehicle and Traffic Act, once invoked, to be rescinded by action of the private parties.

The police power is an exercise of the sovereign power of the State and is delegated to municipal corporations by virtue of historical practice recognized by the courts. It

is a power which can be exercised only by the duly elected representatives of the people for governmental purposes.

The present bill would detract from this basic character of the public power in that it would permit the provisions of the Motor Vehicle and Traffic Act to be invoked for private purposes, that is, to control parking and the use of roads and paths on private property, regardless of whether such use was related in any way to the operation and control of traffic on public streets and highways. While the bill has a beneficial objective, it unfortunately falls outside the constitutional limits of delegated legislative power.

I am, accordingly, constrained to return the bill herewith without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

SENATE BILL NO. 123

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 123, for the following reasons:

The Department has not requested this bill, since it is obviously free to direct any such request to the appropriate authority at the time of the preparation of the Annual Budget and to the legislative committees on

appropriations when the Budget is before them for consideration.

Accordingly, I am constrained to return the bill without my approval.

SENATE BILL No. 161

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 161, for the following reasons:

Following extensive studies of the subject by the Commission on State Administrative Reorganization, legislation was adopted in 1947 providing for the complete reorganization of the structure and functions of the State Department of Health and the co-ordination and consolidation of public health activities. That legislation is eminently sound and has proved its value by providing a well-rounded agency through which the people of the State are afforded the highest standards of public health administration.

Senate Bill No. 161 would reintroduce the old concept of looking upon the Public Health Council as a forum for the expression of the special interests of the various professional and technical groups. This proved to be an undesirable feature which was abandoned by the Legislature in the reorganization program for the State Department of Health.

Moreover, there is ample opportunity within the present framework of the legislation establishing the Council for appointments to be made from among the dental profession as well as other professions which have an abiding interest in public health matters.

Accordingly, I am constrained to return the bill without my approval.

Senate Bill No. 162, entitled "An act concerning the Board of Public Utility Commissioners, and amending section 48:2–21 of the Revised Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL NO. 162

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 162, for the following reasons:

The purpose of this bill is to compel the Board of Public Utility Commissioners, in fixing the "just and reasonable" rates of certain public bus transportation companies, to base the rate on the so-called "operating ratio." The bill would apply to only such common carrier whose annual gross operating revenue "as determined or estimated by the board, exceeds the depreciated book value of the property of the carrier used and useful in its business," subject to the "consent" of the carrier.

It is generally recognized that rate making is a proper legislative function. The Board of Public Utility Commissioners, to which the Legislature has lawfully delegated its rate fixing power, when it fixes rates is carrying out the policies established by the Legislature. The policy heretofore established by the Legislature is to be found in the statement in R. S. 48:2–21(b) that rates shall be "just and reasonable." While R. S. 48:2–21(b) requires the board to conform to standards of "reasonableness," it does not specifically state what the Legislature regards as "reasonable." Accordingly, it was left to the courts by judicial decision to define standards of "reasonableness." Neither the Board of Public Utility Commissioners nor, for that matter, the Legislature, may establish a rate which the court would be compelled to hold "unjust, unreasonable, insufficient or unjustly discriminatory or preferential." The Board of Public Utility Commissioners has heretofore been and, indeed, should be entrusted with broad discretion in the exercise of its authority. Senate Bill No. 162 appears to me to limit rather than define the broad discretionary

power now vested in the Board of Public Utility Commissioners. The authority of the Board ought not to be limited by arbitrary rules, however well intended. As Mr. Justice Heher stated in *Atlantic City Sewerage Company* vs. *Board of Public Utility Commissioners,* 128 N. J. Law 359, 366, affirmed 129 N. J. Law 401, "There is no formula making for certainty in the exercise of this authority. The estimation of the fair value base is not controlled by arbitrary rules. It is not 'a matter of formulas,' but rather of 'a reasonable judgment' grounded 'in a proper consideration of all relevant facts.' "

In some respects Senate 162 is similar to Assembly Bill 650, which I was obliged to veto in 1951. There are, however, notable differences. The 1951 bill was permissive. The present bill is mandatory. Senate 162 apparently presents a choice of procedure to the utility, as evidenced by the language "the board shall with the *consent* of the carrier and without determining a rate base, fix such rates, . . .". (emphasis added) No such choice is presented to the Board of Public Utility Commissioners. The bill takes the regulation of rates out of the hands of the Board of Public Utility Commissioners and, in effect, vests it in the carrier. The choice of method of fixing the rates is, through the necessity of the carrier's consent, given the carrier. All of this is an undesirable departure from sound tradition and practice.

Furthermore, the 1951 bill (Second Committee Substitute —Second Official Copy Reprint) authorized the Board of Public Utility Commissioners to "fix rates on the basis of an operating ratio" if it found "that the operations of the carrier have been conducted in an honest, efficient and economical manner" and the "burden of proof as to the reasonableness of the operating expenses" was on the auto bus operator. The last two quoted provisions are not found in the present bill.

It is likewise significant that the 1951 bill provided "that in the application of such operating ratio the operating revenue deductions, including charges for depreciation and taxes, shall not be less than ninety per centum (90%) nor more than ninety-five per centum (95%) of the total operating revenues resulting from such rates, to the extent that the board may find it *just and reasonable.*" (emphasis added) In the first printing of the Second Committee Substitute for the 1951 bill (Assembly 650) it was provided

"that in the application of such operating ratio the operating revenue deductions, including charges for depreciation and taxes, shall not be less than eighty-five per centum (85%) nor more than ninety per centum (90%) of the total operating revenues resulting from such rates.

It is, perhaps, because the same ratio may provide one carrier with a lush reward for its services to the public while failing to provide another company with a return sufficient to meet interest charges, that the attempt in 1951 to place a floor and ceiling under and over operating revenue deductions was not included in the present bill.

In the current bill, Senate No. 162, no particular ratio is specified, this task apparently being left to the Board of Public Utility Commissioners.

It is significant that Senate 162, as introduced, defines operating ratio as "that proportion which operating expenses, including changes for depreciation and taxes (exclusive of Federal income taxes) bears to total operating revenues." As finally adopted by the Legislature, operating ratio is defined in Senate 162 to mean "that proportion which operating expenses, including charges for depreciation and taxes, bears to total operating revenues." It is therefore apparent from legislative history of the two bills, in which an effort has been sought to substitute operating ratio for a return on a rate base, that the operating ratio theory is not as simple as its advocates would have us believe, in fact there are many conflicting views on the subject.

While some regulatory bodies have fixed rates upon the basis of operating ratio, it is interesting to note that the ratios sought or approved have varied from 84.58 per cent to 93.8 per cent. Thus far, apparently, there has been no final determination as to what operating ratio would be "just and reasonable" to the owner and operator, as well as to the very important rate payers. I doubt if any such final determination is possible as changing circumstances will require different ratios.

In the course of my consideration of this bill, there was submitted to me by a proponent an article by Charles Allen Wright, entitled "Operating Ratio—A Regulatory Tool," published in the January 1st, 1953 issue of "Public Utilities Fortnightly." Mr. Wright, in his article, concedes:

"It is unfortunate that the decisions to date offer rather little guidance as to the operating ratio which transit companies should be allowed."

That this situation currently exists is due, in my judgment, to the fact that the operating ratio is neither a simple nor easily applied yardstick to determine rates. In fact, the application of the theory may, in the long run, harm the carrier as much as it may harm the rate payer, dependent upon the skill, resourcefulness and the extent of the discretionary power vested in the administrative agency. The "operating ratio" relates operating expenses to operating revenues and determines what proportion of the revenues are left over. But whether the margin left over is "just and reasonable" requires the Public Utility Commissioners to take into consideration many other factors.

Among these factors, inevitably, it seems to me, must be the amount of invested capital. For, while we must consider the risks assumed by those engaged in the management of our utilities, these risks are related to capital invested in the enterprise by the owners.

Those who are familiar with the intricacies of rate making will undoubtedly acknowledge that the determination of "proper operating expenses" may be almost as difficult and time-consuming as the determination of "a rate base."

As I read the bill, it seems to me susceptible to the interpretation that where the carrier elects to adopt an operating ratio, the Board of Public Utility Commissioners is required to relate operating expenses to total operating revenues without any substantial right of inquiry as to whether or not the expenses incurred were either proper or reasonable.

Likewise, the proposed law appears to require the Board of Public Utility Commissioners to accept the carrier's book value. This mandatory feature, coupled with the failure of the bill to clearly give the Board authority to review book values, raises serious issues that should be clarified before a bill on this subject is enacted into law.

In the event the Board of Public Utility Commissioners determines that the best method in any given case to achieve "just and reasonable" rates is to adopt an operating ratio, there should be no doubt with respect to the

Board's authority to review book value, just as there should be no doubt as to its authority to review salaries and, in fact, all operating expenses.

Even more fundamental is the clear right and obligation of the administrative agency in fixing rates to consider "all the elements properly entering into the ascertainment of a reasonable return for supplying the public need" (*Public Service Co-ordinated Transport* vs. *State,* 5 N. J. 196, 217). A comment by the Supreme Court in the last cited case (page 217) may be pertinent at this point: "There are a number of formulae useful in the determination of fair value: depreciated original cost, depreciated prudent investment, reproduction cost of the property less depreciation, cost of reproducing the service as distinct from the property, and there are undoubtedly others. But the Board is not bound to and, indeed, should not use any single formula or combination of formulae in arriving at a proper rate base, for the determination of fair value is not controlled by arbitrary rules or formulae, but should reflect the reasonable judgment of the Board based upon all the relevant facts." Just as the Board should not be bound to a single formula in its determination of fair value, so it should not be bound by the arbitrary rule sought to be imposed by this bill for all relevant facts must at all times be open for its consideration and the subject of its judgment.

While it has been alleged that the present bill is designed primarily to help small bus companies, two facts stand out: (1) it applies to all bus companies; and (2) there are indubitably cases where the bill may hurt, rather than help the operator of a few busses. This is particularly true if the bill became law and should be construed as limiting the general jurisdiction of the Board of Public Utility Commissioners under R. S. 48:2–21.

I am certain that the provisions of Title 48 presently empowers and authorizes the Board of Public Utility Commissioners to meet every reasonable basic objective of Senate Bill No. 162.

There is presently a commission engaged in the task of revising Title 48 of the Revised Statutes. It is anticipated that this commission will file its report during the next legislative session, and I have been assured that it will give painstaking consideration to the issues raised by this bill. An opportunity should be given to this commission to complete its work and to make its recommendations prior to

the adoption of major legislation with respect to the fixing of rates.

Our primary objective must always be to achieve just and reasonable rates. This objective, I believe, can best be accomplished by vesting in a competent board a broad discretionary power, rather than by the adoption of mandatory requirements which, however beneficial they may be to one or more parties at any given time, may prove very detrimental at another time under different circumstances and conditions. Neither the executive, legislative or judicial branches of our government should impose any barriers to the accomplishment of elemental fair play, that is, "just and reasonable" rates. All these branches of the government should scrupulously avoid the imposition of arbitrary rules that may slow the accomplishment of this objective.

Accordingly, I am constrained to return Senate Bill No. 162 without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

SENATE BILL NO. 175

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 175, for the following reasons:

Existing law permits a local board of health to adopt ordinances and rules for the licensing and regulation of any person engaged in the production, distribution or sale of milk or cream within its jurisdiction. It may impose an

annual license fee not to exceed two dollars for each wagon or vehicle used in such distribution or sale. While the measure of the license fee is determined by the number of vehicles, the fee is, in fact, imposed in order to help defray the expense of inspection in order to carry out health regulations.

The power of municipal governing bodies to license and regulate vehicles, on the other hand, is a general power in which there is no distinction between those carrying dairy products and those carrying other types of products. If there is any overlap between the health ordinances and general municipal regulations, it would appear to be due to the special costs of inspection in the milk and dairy products business.

I am, accordingly, constrained to return the bill without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Attest: *Governor.*
RUSSELL E. WATSON, JR.,

Senate Bill No. 188, entitled "An act providing for and authorizing the payment of a pension to retired Inspectors General of the National Guard who served in the National Guard for a period of twenty years and who have attained the age of seventy years,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL NO. 188

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 188, for the following reasons:

This bill proposes to establish a non-contributory pension of $7,500.00 annually for any member of the National Guard, seventy years of age, who performed the duties of

Inspector General of the New Jersey National Guard during any world war and has been a member of the National Guard for a period of at least twenty years. To the extent that the bill requires the pension to be paid from State funds, unsupported by any appropriation in the bill, the measure is in direct conflict with that provision contained in Article VIII, Section II, paragraph 2 of the State Constitution prohibiting the drawing of any money from the State treasury "but for appropriations made by law."

Accordingly, I am compelled to return Senate Bill No. 188 herewith without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

Senate Bill No. 189, entitled "An act concerning retirement on pension of certain veterans in the public service, and amending section 43:4–1 of the Revised Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL NO. 189

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 189, for the following reasons:

The financial problem presented by non-contributory pensions for veterans engaged in public office or employment has been a subject of intensive legislative consideration for a number of years. It does not appear that the extension of the non-contributory benefits proposed by the present bill has heretofore been recommended as the result of any of the studies of veterans' pension legislation.

Senate Bill No. 189 would provide that in computing the 20 years of service required to qualify for a veteran's pension, there shall be included the period of service, if any, as a member of the Congress of the United States from the State of New Jersey. This could have a most unfortunate result. For example, an officer or employee of a county or a municipality, as well as of the State, could be employed for a relatively short time within the State, and the State, county or municipality, as the case may be, would be obligated to pay him a life pension of one-half pay. In its extensive attention to the general question of the veteran's pension provision, the Legislature has recognized the financial embarrassment that the statute in its present form presents to all levels of government in this State. To add a further burden based upon service for the federal government would be neither wise nor justified under the circumstances.

In principle, a pension may be looked upon as a form of deferred compensation for services rendered. Inasmuch as the State and its political subdivisions do not pay a salary for service in Congress, it is impossible to reconcile credit for such service toward a pension which is to be paid by the State or one of its political subdivisions. Where the employer has not received the service and has not been obligated to pay compensation, there could be no reasonable justification for imposing an obligation to provide a noncontributory pension.

Accordingly, I am constrained to return Senate Bill No. 189 without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

Senate Bill No. 243, entitled "An act to amend the 'Department of Labor and Industry Act of 1948,' approved October twenty-first, one thousand nine hundred and forty-eight (P. L. 1948, c. 446),"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 243

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 243 for the following reasons:

A similar bill, Senate Bill No. 179 of 1952, was adopted by the Legislature at its regular session last year. The latter bill proposed a per diem compensation of twenty-five dollars, but not more than twenty-five hundred dollars for any one fiscal year, for each member of the Employment Security Council in the Department of Labor and Industry. Senate Bill No. 243 proposes a per diem compensation of thirty dollars, but not more than three thousand dollars, for any one fiscal year, for each member of this Council.

Legislation of this type would run counter to the major policy underlying the administrative reorganization program of 1948. In my message accompanying the return, without my approval, of Senate Bill No. 179 on May 27th, last year, I pointed out that:

> "The Council is not an administrative agency and is not unlike the advisory councils that exist in a number of other divisions in the Executive Branch of the Government. Some of our most effective citizen participation in government has come from volunteer citizens who at most are reimbursed for necessary expenses. For example, there is the State Board of Control of Institutions and Agencies, the State Board of Agriculture, the State Board of Education, the Planning and Development Council, the Veterans' Services Council, the Fish and Game Council and the Banking Advisory Board, to name but a few. If the Employment Security Council is to be compensated it would then be appropriate to compensate the numerous

other citizen boards and commissions of an advisory nature. This is a policy which would depart from long established precedent in this State, and would be a step away from the valuable tradition of citizen volunteer services in government which we have established in New Jersey.

"It is recognized that no State funds would be involved by the adoption of this measure, since payment for the Council would come from funds made available by the Federal Security Agency for administrative purposes. This is an insufficient reason to depart from the basic principle of citizen participation. It is pertinent to observe that these funds are themselves the product of taxes paid by New Jersey taxpayers and that the National Government collects far more from the citizens of the states than it allocates to the states for the administration of Unemployment Compensation. As I have heretofore pointed out, this unfortunate, unfair and expensive arrangement should be corrected by appropriate action of the National Government."

For these reasons, I am constrained to return Senate Bill No. 243 without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

Senate Bill No. 247, entitled "An act concerning the legal settlement of persons convicted of certain sex offenses, and the effect thereof, and amending sections 2A:164–3 and 2A:164–11 of the New Jersey Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 247

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 247, for the following reasons:

The general purpose of the present bill is to provide for the allocation of cost in connection with the care of patients sent to the State Diagnostic Center. Under present practice, the State charges the counties for the cost of maintaining the individuals that are referred from the county courts. In the case of sex offenders, the State absorbs half of the cost and the county pays the other half.

This bill would require that the order of commitment contain a determination of the person's legal settlement so that the cost of maintaining sex offenders would be transferred from the county in which the crime was committed and the individual tried, to the county of legal settlement. If there were no county of legal settlement, the entire cost would be borne by the State under the provisions of the bill.

The expenditure for the Diagnostic Center for 1952 was $270,700. (and is in excess of that amount for 1953). As against that expenditure, the State realized $5,723, during the 1952 fiscal year, under the provision requiring the counties to pay fifty per cent of the cost of sex offenders, and $95,666. as the reimbursement for all cases committed by the courts under Section 11 of the act authorizing the Diagnostic Center (Laws of 1946, chapter 118, section 11). It thus appears that the State is already providing the major part of the expense of operating the Diagnostic Center. The county in which a crime is committed and a case tried has the normal cost of custody of the offender where there is a commitment to a county institution including medical, psychiatric and advisory services in connection therewith.

Legal settlement cannot be and should not be an issue in connection with punishment or treatment related to the commission of a crime. Nor should the State be asked, in light of its present support of the Diagnostic Center, to absorb any further cost due to lack of proof of legal settlement.

Accordingly, I am constrained to return the bill herewith without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Attest: *Governor.*
RUSSELL E. WATSON, JR.,
Secretary to the Governor.

Senate Bill No. 272, entitled "An act concerning the retirement, upon pension, of certain policemen and firemen and providing a pension for the widows, children and sole dependent parents of certain deceased policemen and firemen, and amending section 43:16–3 of the Revised Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL NO. 272

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 272, for the following reasons:

Although this legislation is designed to effectuate a meritorious purpose, it is piecemeal in character and would, if signed into law, create a highly inequitable situation.

The bill would amend Section 43:16–3 of the Revised Statutes which relates to pensions payable to widows, children and dependent parents of certain policemen and firemen who are retired from service, or continue in service after becoming eligible for pension, or who die, not while on duty, before becoming eligible for a service retirement pension.

The widow qualifying under the existing law receives a pension so long as she remains unmarried for the use of herself and the children of her deceased husband, if any, under 18 years of age. If the deceased policeman or fireman leaves no widow but does leave children under 18 years of age, or if the widow dies leaving children of the deceased policeman or fireman under 18 years of age, then the pension which the widow would have received had she survived is payable to the children.

Senate Bill No. 272 would require the payment of one-half of the widow's pension to a child or children of the deceased policeman or fireman by a former wife. If the widow remarries she would forfeit her share of the pension benefit but the benefit payable to the children would continue.

The bill fails to provide the same protection to children, by previous marriages, of policemen or firemen who lose their lives while on duty.

Accordingly, I am returning Senate Bill No. 272 herewith for further study and consideration by the next regular session of the Legislature.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

Senate Bill No. 296, entitled "An act concerning unemployment compensation and temporary disability insurance, and amending the 'Temporary Disability Benefits Law,' approved June first, one thousand nine hundred and forty-eight (P. L. 1948, c. 110), and section 43:21–7 of the Revised Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 296

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 296, for the following reasons:

The purpose of this measure is to require the State Treasurer to transfer from the State Disability Benefits Fund, in his custody, the sum of $50,000,000 to the Unemployment Compensation Trust Fund, in the custody of the Secretary of the Treasury of the United States. In 1948, when the State Disability Benefits Law was adopted, the sum in question was transferred from Federal custody to State custody and was used for two purposes: First, to provide ample funds with which to start the disability benefits fund into operation; and secondly, to provide investment earnings out of which cash sickness benefits to the unemployed sick could be paid without assessing individual employers for the cost of such benefits.

It is now suggested that the transfer of this large fund back to Washington would have the effect of producing a reduced rate of contribution by employers to the Unemployment Compensation Trust Fund. In this connection, it is proper to note that employers were afforded a tax reduction, amounting to some $26,000,000 dollars, concurrently with the transfer into the Disability Benefits Fund of the same moneys in 1948. The force of the argument in favor of the bill is considerably lessened, moreover, when it is recognized that all covered employers could become liable, under this bill, to a new assessment of up to 5/100 of 1 per cent upon taxable wages to provide for the expense of paying cash sickness benefits to the unemployed sick.

Even were the net difference to be favorable to employers, the proposed bill would require the State Treasurer to sell securities of a value of approximately $55,000,000 to realize

$50,000,000 in cash to be transferred to the Unemployment Compensation Fund. This is due to the fact that investments in this fund are principally in obligations of the United States government, the price of which has declined over the past few years. This is a loss which the State might properly take were there any real necessity for it. Under present conditions, however, it would be improvident to sustain a loss of almost $5,000,000 in order to make a transfer from one fund to another fund where both funds are operating in the service of employers and employees of this State.

The Knowland Act (section 1607 (f) of the Internal Revenue Code) authorized the withdrawal of the $50,000,000 from what are known as "worker contributions" to unemployment compensation, for the payment of disability benefits. It may be noted in passing that the Federal statute makes no provision for the return of these moneys, although it is conceivable that the Federal government would accept the retransfer. While, as a matter of law, once contributions are made to either the Unemployment or the Disability Benefits Fund they lose their identity as employers' contributions or employees' contributions, the Federal statute clearly conditioned the right of withdrawal to such moneys as could be attributed to worker contributions. For this reason, the $50,000,000 is commonly looked upon by employees as their contribution. Under the circumstances, it could become a matter of general public concern that this money is retransferred for custody in Washington solely to benefit employers.

The Disability Benefits Law is relatively new in operation and in experience. It has not had to face any substantial period of unemployment and the consequent heavy charges for benefits to the unemployed sick. It has only this year come to the point where the current payments of benefits has for a time exceeded the current receipts from contributions. If this trend were to continue in the normal course of administration, the withdrawal and readjustment of assets called for by this bill might have disturbing consequences. In view of the sacrifice of investment values that would be required, and the questionable effect it would have on the security of the Disability Benefits Fund, the bill has been fairly criticised as "economically unsound." Even if this were not the case, there are extensive conflicts in the bill with the provisions of Senate No. 258, which has been

approved and is now Chapter 219 of the Laws of 1953, which would prevent its approval in any event.

For these reasons, I am constrained to return herewith Senate Bill No. 296 without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Attest: *Governor.*

Senate Bill No. 320, entitled "An act authorizing the Department of Conservation and Economic Development to sell and convey certain State lands in the borough of Point Pleasant in Ocean county to Tillie Burley, her heirs and assigns,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL NO. 320

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 320, for the following reasons:

This bill would authorize the Department of Conservation and Economic Development to convey, in the name of the State, certain property situated on the right-of-way line of the Bayhead-Manasquan canal to one Tillie Burley, at a price to be determined by the Planning and Development Council.

By Chapter 333 of the Laws of 1950, as amended by Chapter 14 of the Laws of 1951, the Legislature established the policy and purpose of the State "to co-operate with the United States in a project for the improvement of the New Jersey Intracoastal Waterway." In order to effectuate that policy and purpose the Commissioner of Conservation and Economic Development was authorized to convey to the Federal government, on behalf of the State, on terms and conditions to be agreed upon, the State's right, title and interest in lands, easements, water rights and struc-

tures, other than bridges, which the State heretofore owned or acquired and used for the construction, operation and maintenance of the Manasquan-Bayhead canal.

Pending the completion of negotiations between the Department of Conservation and Economic Development and the Federal government for such conveyance to the United States and the determination of plans for the improvement of the intracoastal waterway, it would appear to be advisable to withhold approval from this measure.

Accordingly, I am returning the bill herewith without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Attest: *Governor.*
RUSSELL E. WATSON, JR.,
Secretary to the Governor.

Senate Bill No. 326, entitled "An act concerning the confinement of dangerous lunatics or persons of unsound mind, and amending section 30:4–26.1 of the Revised Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL NO. 326

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 326, for the following reasons:

This bill has the commendable purpose of providing some way in which a law enforcement officer may arrange for the temporary hospitalization of an individual in his custody who appears to be mentally ill and, because of his illness, is likely to injure himself or others if allowed to remain in the usual place of confinement. The decision as to whether such a person is of unsound mind and dangerous to himself and the public should not be made by a sheriff, keeper of a jail, chief of police or other police official. This type of determination would be authorized by the bill,

which contains no provision for examination by a physician or psychiatrist. Nor does the bill require that the "place of temporary confinement" be to a place which is equipped to render medical service.

There is undoubtedly need for an appropriate statute to take care of emergency situations, but we must be conscious of our responsibility to individuals who are confined and of their legal rights to be protected against improper confinement. No useful purpose can be served if an individual is confined in any place within the county or municipality unless such confinement results in active diagnostic service to determine the cause of the individual's condition. While it may not be a satisfactory substitute, a law enforcement officer confronted with the situation to be covered by this bill, could apply for the commitment of the individual involved through the normal procedure of the courts, upon certification of two physicians. Since additional judges are now available in the several counties as a result of the reorganization of our court system, such procedure may prove to be adequate in the large majority of cases.

It is my hope that this question will receive further study and that a properly worked-out bill will eventually be enacted.

Accordingly, I am constrained to return the bill herewith without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

Senate Bill No. 347, entitled "An act concerning the control of contagious and infectious diseases in live stock, including tuberculosis, and amending section 4:5–10 of the Revised Statutes,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 347

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 347, for the following reasons:

The general purpose of this bill is to provide for reimbursement to livestock owners "Whenever, as the result of an outbreak of a contagious or infectious disease of cattle, the disease results in death of an animal or animals, . . ." such reimbursement would be at the full "market value of the animals immediately prior to the time when they became so diseased or were ordered slaughtered."

This would be a most extraordinary assumption of public responsibility for the normal hazards of the cattle growing industry. The law already provides for a one-half reimbursement, based upon an appraisement limited generally to $100.00 for registered animals and to $40.00 for all others, where the animals are slaughtered or otherwise disposed of as directed in R. S. 4:5–9. Any further extension of this form of compensation would not be justified. This view is confirmed by the disapproval of this bill by the State Board of Agriculture.

Accordingly, I am constrained to return this bill without my approval.

Respectfully,

ALFRED E. DRISCOLL,
Governor.

Senate Bill No. 348, entitled "An act to indemnify producers of milk for losses due to quarantine,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 348

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 348, for the following reasons:

This bill contemplates reimbursement to dairy farmers, to the extent of the appraised value, for milk condemned and withheld from market by reason of a quarantine established as a result of "an outbreak of a contagious or infectious disease of livestock or man."

I agree with the recent determination of the State Board of Agriculture that this measure is not justified. In addition, it should be pointed out that the bill incorporates no standards to guide the Committee (which is created by the bill) in making its appraisal of the value of the condemned milk. This would appear to be in conflict with requirements laid down in decisions of the highest court of the State.

For these reasons, I am constrained to return the bill without my approval.

Respectfully,

ALFRED E. DRISCOLL,
Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 359

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 359 for the following reasons:

This bill would amend section 39:5–39 of the Revised Statutes to provide for the payment in all cases of a fee of twenty dollars ($20.00) (for making an examination and testifying in the proceeding, if so required) to "Any physician, who examines any defendant charged with the violation of section 39:4–50 of the Revised Statutes at the request of an enforcement officer, . . ." R. S. 39:4–50 relates to the offense of operating a motor vehicle while under the influence of intoxicating liquor or a narcotic or habit producing drug. The fee is to be paid by the State, if the complainant in the proceeding is the Director of Motor Vehicles, a member of his staff, a member of the State Police, or a law enforcement officer of any other State agency. It is to be paid by the county if the complainant is any other law enforcement officer.

While the objective of the measure is in keeping with sound traffic law enforcement, no appropriation has been provided to meet any increased costs to the State which may be involved.

Accordingly, I am constrained to return Senate Bill No. 359 without my approval.

Senate Bill No. 374, entitled "An act to validate sales of land at public auction or private sale by the several municipalities of this State in certain cases,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 374

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 374, for the following reasons:

By its terms, this bill would validate all sales of lands and premises heretofore made at public auction or private sale by any municipality.

In my disapproval of previous similar legislation, that is, Assembly Bill No. 58 of 1947 and Senate Bill No. 58 of 1949, I pointed out that although sound reasons may exist in particular instances for the validation of conveyances made despite certain technical defects, I cannot affix my approval to a bill which, in effect, would excuse the failure to comply with any and all safeguards imposed by law.

For the same reasons, I am constrained to return Senate Bill No. 374 herewith without my approval.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 375

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 375, for the following reasons:

This bill would apparently single out for special treatment, in the matter of appointment of a county adjuster, counties of the third class having a population of less than 125,000 inhabitants.

Aside from the fact that the language in the bill is somewhat ambiguous, R. S. 30:4–34, providing for the designation of county adjuster, is reasonably general legislation which has apparently operated well for many years. There would appear to be no sound reason for establishing the special classification proposed by the measure.

I am, accordingly, constrained to return the bill herewith without my approval.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 398

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 398, for the following reasons:

This bill has the laudable object of seeking to provide a basis for coverage under the Social Security Act and Chapter 253 of the Laws of 1951, as amended, of employees of certain joint meetings, provided for by Article 2 of Chapter 63 of Title 40 of the Revised Statutes. In an effort to accomplish this purpose, the bill would change the legal character of such joint meetings by constituting them bodies corporate and politic.

The statutes applicable to joint meetings contemplate that the municipalities participating in these joint sewerage projects comprise what amounts, generally, to an intermunicipal partnership relationship. To convert such a relationship into a corporate structure by legislative fiat, such as proposed by Senate No. 398, would undoubtedly result in endless confusion and much litigation.

It is my hope that the Legislature will further consider this problem and adopt comprehensive legislation to accomplish the desirable stated objective of the measure.

Accordingly, I am constrained to return Senate Bill No. 398 without my approval.

August 17, 1953.

SENATE BILL No. 401

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 401, for the following reasons:

This measure has the laudable objective of further rewarding those policemen who receive awards for heroism from "any duly organized State-wide police association."

The bill would, however, if approved, be in conflict with the express provisions of Article VII, Section I, paragraph 2 of the State Constitution which requires that "Appointments and promotions in the civil service of the State, and of such political subdivisions as may be provided by law, shall be made according to merit and fitness to be ascertained, as far as practicable, by examination, which, as far as practicable, shall be competitive."

Senate Bill No. 412, entitled "An act to validate sales of land at public auction by the several municipalities of this State in certain cases,"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE BILL No. 412

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 412, for the following reasons:

The object of this bill is to validate certain sales heretofore made at public auction by municipalities of land to which the municipality had title in fee simple, as well as all proceedings had in connection with such sales, where the sale was made subject to condition as to use of the property or the buildings and structures to be erected thereon. The validation would take effect notwithstanding that the sale was not made to the highest bidder as required by law, but was made to a person who in the opinion of the governing body of the municipality was by reason of his experience best qualified to comply with the terms and conditions of sale.

This measure would run counter to the salient features of existing legislation governing public sales by a municipality which has determined to sell lands or buildings or rights and interests therein not needed for public use. These well-established procedures, designed to protect the public interest in public property, should not be relaxed.

Accordingly, I am constrained to return this bill without my approval.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

SENATE JOINT RESOLUTION No. 4

To the Senate:

I am returning herewith, without my approval, Senate Joint Resolution No. 4, for the following reasons:

This resolution would create a highway study commission and would authorize the expenditure of $50,000 "from the sums appropriated to the State Highway Department as of July 1, 1952." There is a substantial question whether such a retroactive appropriation can be given effect. The work that the study commission would do, moreover, is already being done by the Planning Section of the State Highway Department and by the Planning Division of the State Department of Conservation and Economic Development.

Experience has proved that such a commission without an appropriation would be so handicapped as to be unable to perform any useful service. If the appropriation carried in the bill were to be effective, the expenditure would duplicate the work being done by the other two State departments. It is my hope that those questions of policy which the Legislature wishes to have investigated can be brought to the attention of the two departments concerned with this work, so that the necessary factual data may be developed in the normal course of State administration.

Accordingly, I am constrained to return this resolution without my approval.

To the Senate:

I am returning herewith, without my approval, Senate Joint Resolution No. 7, for the following reasons:

This resolution directs the Department of Conservation and Economic Development to undertake a special study of flood control for the Passaic valley.

Many studies similar to that contemplated by Senate Joint Resolution No. 7 have been made in the past. Until agreement on a flood control program is reached by the upper and lower regions of the Passaic valley, further surveys would appear to serve no useful purpose while entailing considerable expense.

Moreover, the Department of Conservation and Economic Development, together with a committee including representatives of the counties affected, is presently engaged in the difficult task of developing an effective flood control program for the Passaic valley.

For these reasons, I am constrained to return Senate Joint Resolution No. 7 herewith without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

Attest:
RUSSELL E. WATSON, JR.,
Secretary to the Governor.

Mr. Mathis offered the following resolution, which was read and adopted:

BE IT RESOLVED *by the Senate (the General Assembly concurring):*

Mr. McCay offered the following resolution, which was read and adopted:

FIRST SPECIAL SESSION RESOLUTION No. 1

A Senate Resolution providing for the deferment of any and all actions in furtherance of the pending project to

construct a State penal institution in the township of North Hanover in Burlington county until the board of chosen freeholders of Burlington county, the Township Committee of the Township of North Hanover in Burlington county and the members of the State Legislature from Burlington county shall have been afforded an opportunity to be heard by the Commissioner of Institutions and Agencies and the State Board of Control of Institutions and Agencies in respect to the construction of a State penal institution in said township and county and for the further deferment of any such construction if good cause be shown to the said commissioner and State Board of Control at such hearing.

WHEREAS, The Commissioner of Institutions and Agencies and the State Department of Institutions and Agencies has undertaken or is about to undertake the furtherance of a project to construct a State penal institution in the township of North Hanover in Burlington county; and

WHEREAS, The Senate deems it proper that all actions in furtherance of the said project should be deferred until the board of chosen freeholders of Burlington county, the Township Committee of the Township of North Hanover in Burlington county and the members of the State Legislature from Burlington county shall have been afforded an opportunity to be heard by the Commissioner of Institutions and Agencies and the State Board of Control of Institutions and Agencies in respect to the construction of a State penal institution in said township and county and further deferred if good cause be shown to the said commissioner and State Board of Control at such hearing; now, therefore,

BE IT RESOLVED *by the Senate of the State of New Jersey:*

1. That the Commissioner of Institutions and Agencies and the State Department of Institutions and Agencies defer any and all actions in furtherance of the pending project to construct a State penal institution in the township of North Hanover in Burlington county except as otherwise provided in this resolution.

2. That the Commissioner of Institutions and Agencies and the State Board of Control of Institutions and Agencies forthwith fix a convenient time and place for a hearing before the said commissioner and board and give written notice thereof to the board of chosen freeholders of Burling-

ton county, the Township Committee of the Township of North Hanover in Burlington county and the members of the State Legislature from Burlington county and afford the members of the said board of chosen freeholders, the township committee and State Legislature an opportunity to be fully heard at the said time and place in respect to the construction of a State penal institution in said township and county and to show cause why such construction should be permanently deferred.

3. At such hearing the said board of chosen freeholders and the said township committee shall be entitled to be represented by counsel and to present testimony and other evidence relevant to the said proposed construction.

4. The said State Board of Control shall hear and determine the question of the advisability or nonadvisability of such proposed construction and no action in furtherance of the project to construct a State penal institution in the said township and county shall be taken unless the said State Board of Control after such hearing shall determine that it is advisable to proceed with the said project and then only after thirty days' notice in writing of such determination shall have been given to the said board of chosen freeholders and township committee.

5. Nothing herein shall be deemed to impair or otherwise limit the jurisdiction of the Commissioner of the State Department of Conservation and Economic Development and the requirement for the giving of notice to the said commissioner in respect to major public improvements or projects involving the acquisition of lands for public use pursuant to the provisions of chapter eighty-five of the laws of one thousand nine hundred and forty-four.

6. Copies of this resolution shall be forwarded by the Secretary of the Senate to the Commissioner of Institutions and Agencies and to each member of the State Board of Control of Institutions and Agencies.

7. This resolution shall take effect immediately.

Mr. Dumont offered the following resolution, which was read and adopted:

WHEREAS, There is present at this Special Session of the Senate today Joseph Yosko, State Senator, who represents Northampton County in Pennsylvania;

It is requested that the President of the Senate extend a cordial welcome to Senator Yosko and that he be given the privileges of the floor.

Mr. O'Mara offered the following resolution which was read and adopted:

Resolved, That the privilege of the floor be extended to Hon. James F. Murray, Jr., Senator-elect from Hudson County.

Messrs. Forbes and Anton offered the following resolution, which was read and adopted:

WHEREAS, It has pleased Almighty God, in His infinite wisdom to call Franklin D'Olier, of Morristown, to his eternal reward; and

WHEREAS, Mr. D'Olier was an outstanding citizen and humanitarian and had served his municipality, his county, his State and his country in numerous positions throughout his career; and

WHEREAS, Mr. D'Olier served with distinction in World War I, which was recognized when he was awarded the Distinguished Service Medal and he was made a commander of the Legion of Honor in France. The following year he became the first national commander of the American Legion. He was for many years a member of the Newark and Morristown Legion posts. In 1921 France bestowed upon him the Legion of Honor Cross.

During World War II he headed the New Jersey War Fund and was a director of the National War Fund.

In 1926 he became a director of the Prudential Insurance Company and later succeeded to the presidency, from which he retired in 1945.

In 1942 he became chairman of the newly-created New Jersey Economic Council.

The Newark Advertising Club selected him as Newark's "Outstanding Citizen of 1945."

Mr. D'Olier was a member of the State Division of Veteran's Services, the Morristown Board of Water Commissioners, a director of the Chase National Bank, Howard Savings Institution, and countless others.

In June, 1940, Newark University awarded him an honorary doctorate of laws degree.

WHEREAS, Few citizens of New Jersey have contributed more unselfishly of time and ability for the benefit of his fellow citizens;

WHEREAS, His passing will leave a deep void in this State; therefore,

Be It Resolved, That the Senate of the State of New Jersey express its sincere sorrow at the death of Franklin D'Olier; and

Be It Further Resolved, That a copy of this resolution, signed by the President of the Senate, and attested by the Secretary of the Senate, be sent to his bereaved family.

The following communication was read and filed by the Secretary:

NEW JERSEY STATE PATROLMEN'S BENEVOLENT ASS'N., INC.
GLEN RIDGE, NEW JERSEY

Friday, December 18, 1953.

WHEREAS, Law enforcement is growing in complexity in New Jersey, requiring specialized instruction and training not only for patrolmen but as well for superior officers; and

WHEREAS, The State Police Academy provides training for men beginning police work but has no program for su-

perior officers advancing in grades of increased responsibility; and

WHEREAS, It would appear advantageous to the State of New Jersey to make available educational facilities with which to equip and train policemen in four phases: (1) Policemen of the rank of lieutenant and above to attend courses on the administrative duties and functions of the police department. (2) Specialized Training courses designed to teach police specialties to policemen selected for specialized work in the police field, open to all ranks and grades. (3) Refresher or In Service Training designed for the experienced policemen for a period of retraining, so that they can be brought up to date on new laws to be enforced and new methods of law enforcement procedure. (4) A course in public and human relations for chiefs and departmental bureau heads; therefore,

Be It Resolved by the New Jersey State Patrolmen's Benevolent Association, this 17th day of December, 1953, that we petition the 1953 and 1954 Legislatures, Governor Alfred E. Driscoll and Governor-elect Robert B. Meyner, to create a Police College, preferably at Rutgers University, where the State already has subsidized much education at the college level.

STATEMENT—*Re: Police College*

Facilities for adequate training of police are woefully inadequate in New Jersey, considering the complexity of law enforcement in this day and age. This is particularly true for superior officers, whose responsibilities would seem to demand additional training.

The Patrolmen's Benevolent Association is fundamentally concerned with good law enforcement, realizing that a good job well done by its members reflects honor on all policemen.

We feel that the State Police Academy—and the training schools of Newark and Jersey City—adequately equip the new patrolmen. But there is a big void that must be filled for ranking officers and patrolmen assigned to specialized services if New Jersey is to get the type of enforcement it deserves.

This resolution suggests that the State set up a police college at Rutgers. The municipalities could pay the expense of sending their men. These are details which could be worked out.

Some colleges, notably Northwestern University, have specialized courses for policemen. There are none, however, as convenient to New Jersey policemen as Rutgers would be. It prides itself on being a State University, and courses for law enforcement men certainly would be of tremendous public service.

This is the first of several moves the PBA plans to broaden the scope of law enforcement in New Jersey.

Signed: HOWARD J. DEVANEY,
President, State P.B.A.

The following communication was received, read by the Secretary and ordered filed:

Report of the Senate Committee created by Senate Resolution No. 4.

WHEREAS, Under date of March thirtieth, one thousand nine hundred and fifty-three, there was introduced to the Senate of the State of New Jersey, by Mr. Hand, Senator from the county of Union, New Jersey, Senate Bill No. 342, relating to municipalities having a uniformed paid or part-paid fire department, and regulating the right of members of such departments to engage in effective collective bargaining for wages, hours, working conditions and terms and conditions of their employment with their employers, and supplementing chapter forty-seven of Title 40 of the Revised Statutes; and

WHEREAS, Under date of March thirtieth, one thousand nine hundred and fifty-three, there was introduced to the Senate of the State of New Jersey, by Mr. Hand, Senator from the county of Union, New Jersey, Senate Bill No. 341, relating to fire districts in townships having a uniformed paid or part-paid fire department, and regulating the rights of members of such departments to engage in effective collective bargaining over their wages, hours, working conditions and terms and conditions of their employment with their employers, and supplementing chapter one hundred fifty-one of Title 40 of the Revised Statutes; and

WHEREAS, Examination, consideration and analysis of said bill leaves the Senate of the State of New Jersey with the conclusion that a study of such proposed Legislation by a suitable committee made up of three members of the Senate of the State of New Jersey, would be practical, informative and to the best interests of the Senate and its members; now, therefore,

BE IT RESOLVED, *by the Senate of the State of New Jersey:*

1. That a committee of three of the elected members of the Senate of the State of New Jersey be designated as a committee to examine and study the above referred to proposed Legislation, with authority to hold hearings, public or private, as the said committee in its judgment may deem suitable, fit and proper, and to report its findings to the body general of the Senate of the State of New Jersey, in suitable form hereafter but at a time not later than six months from the passing of this resolution.

2. That the President of the Senate shall have authority to name and designate the members of the committee.

3. This resolution shall take effect immediately.

WHEREAS, The Delaware River Joint Toll Bridge Commission has publicly announced its determination to close and demolish the bridge currently operated and maintained by it as a free bridge, known as the Delaware-Upper Mt. Bethel township bridge, extending across the Delaware river between Knowlton township in the county of Warren, State of New Jersey, and Upper Mt. Bethel township in Northampton county, Commonwealth of Pennsylvania; and

WHEREAS, Said bridge is extensively used for vehicular traffic of all types, and during the year 1952 was traversed by over two million vehicles; and

WHEREAS, The closing and demolition of said bridge by the Delaware River Joint Toll Bridge Commission in accordance with its public announcement would result in severe hardship upon, and inconvenience to, the citizens of the area served by said bridge and the commerce and industry of such area; and

WHEREAS, There is currently pending in the District Court of the United States for the District of New Jersey an action instituted by certain citizens of the Commonwealth of Pennsylvania against the Delaware River Joint Toll Bridge Commission, to enjoin such closing or demolition of said bridge, and a temporary injunction has issued thereon effective until January 8, 1954, and certain jurisdictional questions have been raised in such action; and

WHEREAS, It is the consensus of this Legislature that a concurrent proceeding be instituted in the Superior Court of New Jersey to enjoin the closing and demolition of said bridge, in order to further protect the welfare of the citizens of the area in the event of a dissolution of the aforementioned restraint issued by the District Court of the United States for the District of New Jersey by reason of any failure of jurisdiction of said Court of such action; now, therefore,

BE IT RESOLVED *by the Senate of the State of New Jersey (the General Assembly concurring):*

1. The Attorney-General of New Jersey is hereby requested to institute an action in the Superior Court of New Jersey to enjoin the Delaware River Joint Toll Bridge Commission from closing and demolishing the free bridge maintained and operated by said commission, known as the Delaware-Upper Mt. Bethel township bridge, extending across the Delaware river between Knowlton township in the county of Warren, State of New Jersey, and Upper Mt. Bethel township in Northampton county, Commonwealth of Pennsylvania; and to take such further proceedings as may be necessary to effectuate the purposes of this resolution.
