Pursuant to the decision at August meeting, the SADC is requiring a Soil Protection Standards Agreement, as approved on August 27, 2020, to be signed by landowners who are relatively close to the limits of disturbance, and which will be recorded at the same time as the Deed of Easement. As presently proposed and based on what is currently known about the property, the Owners would have approximately 2.73 acres of additional permanent disturbance remaining on the premises.
