Since 1950 we have, each year, held the December statistics open for ten days, in order to pick up the existing time-lag and not carry over into a new year sales dated the previous year. For this reason December totals are more apparent than real. By doing this, each year, the year totals reflect a true picture, despite the carry-over from month to month, necessary because of the time-lag existing between the dealer reporting his sale to a motor vehicle agency, the processing of same when it reaches the Trenton central office of the Motor Vehicle Division, our processing of same and publication of reports of sales each ten days.
