OF THE

FIRST SPECIAL SESSION

1936

MINUTES

OF THE

FIRST SPECIAL SESSION

MONDAY, December 21, 1936,

The House of Assembly met at 8 o'clock P. M., this being the time designated by the Governor for the assembling of the One Hundred and Sixtieth Legislature in Special Session.

The House was called to order by the Speaker.

At the Speaker's direction, the Clerk read the following proclamation of the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT.

PROCLAMATION

WHEREAS, It appears to me that public necessity demands the convening of the Legislature of the State of New Jersey in special session,

THEREFORE, I, HAROLD G. HOFFMAN, Governor of the State of New Jersey, in and by virtue of the power vested in me by Article V, Paragraph 6 of the State Constitution, do hereby convene the Legislature of this State to meet in special session on Monday, the twenty-first day of December, A. D. 1936, at eight o'clock in the evening of the said day.

Given, under my hand and the Great Seal of the State of New Jersey, this thirtieth day of Novem-
[SEAL] ber, in the year of Our Lord one thousand nine hundred and thirty-six, and in the Independence

of the United States the one hundred and sixty-first.

HAROLD G. HOFFMAN,
Governor.

By the Governor:
THOMAS A. MATHIS,
Secretary of State.

Endorsed:
"Filed Dec. 2, 1936,
THOMAS A. MATHIS,
Secretary of State."

STATE OF NEW JERSEY,
DEPARTMENT OF STATE,

I, THOMAS A. MATHIS, Secretary of State of the State of New Jersey, do hereby certify, that the annexed is a true copy of the Proclamation issued by the Honorable Harold G. Hoffman, Governor of the State of New Jersey for a special session of the Legislature on Monday, the twenty-first day of December, 1936, at eight o'clock in the evening of the said day.

In Testimony Whereof, I have hereunto set my
[SEAL] hand and affixed my official seal, at Trenton, this twenty-first day of December, A. D. 1936.

THOMAS A. MATHIS,
Secretary of State.

Prayer was offered by Rev. George W. Scarborough.

Upon calling the roll, the following members appeared and answered to their names:

Mr. Cavinato offered the following resolution, which was read by the clerk and adopted.

Resolved, That the Clerk of the House be and is hereby directed to inform the Senate that the House of Assembly, in pursuance to the proclamation of Harold G. Hoffman, Governor, is now in session and has proceeded to business.

Mr. Cavinato moved that the rules of the regular session be adopted as the rules of the special session.

Which motion, upon a viva voce vote, with the ayes and nays being called, was declared passed.

The following communication was sent to the desk and read by the clerk.

Clerk, House of Assembly, Trenton, N. J.:

I hereby tender my resignation as a member of the House of Assembly of New Jersey, effective immediately.

CRAWFORD JAMIESON,
Member—Mercer County.

Mr. Cavinato moved that the communication be received.

Which was adopted.

Mr. Katzenbach offered the following resolution, which was read by the clerk and adopted.

WHEREAS, The electorate of Mercer County on November 3, 1936, saw fit to elect our erstwhile colleague, Crawford Jamieson, to fill the unexpired term of the late Senator A. Crozer Reeves, as Senator of the County of Mercer; and

WHEREAS, Senator Crawford Jamieson has heretofore and on this the twenty-first day of December, in the year or Our Lord, one thousand nine hundred and thirty-six, tendered to this honorable House of Assembly, his resignation as Member of this House from and for the County of Mercer, and said resignation is now in the hands of the Clerk of this House; now, therefore,

Be It Resolved, That we, the members of the House of Assembly of this, the One Hundred and Sixtieth Legislature of the State of New Jersey, in First Special Session convened, do accept the resignation of said Crawford Jamieson as a member of this House, and we do hereby instruct our said clerk to receive and file the same.

Mr. Cavinato offered the following resolution, which was read by the clerk and adopted.

Resolved, that a committee of two be appointed to wait upon the Governor, and inform him that in pursuance to his proclamation, calling a special session of the Legislature, the House of Assembly is now in session, and has proceeded to business, and is ready to receive any communications he may be pleased to make.

In accordance with the above resolution the Speaker announced the appointment of Mr. Cavinato and Mr. Artaserse as the committee to wait upon the Governor.

Be It Resolved by the House of Assembly of the State of New Jersey (the Senate concurring):

That both Houses of the Legislature meet in joint session on Monday evening, December twenty-first, one thousand nine hundred and thirty-six, at eight-thirty o'clock, for the purpose of receiving a message to be delivered by His Excellency, Harold G. Hoffman, Governor of the State of New Jersey.

A message was received from the Senate by the hands of its Secretary as follows, and was read by the clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
December 21, 1936.

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate has concurred in the following concurrent resolution:

Be It Resolved by the House of Assembly of the State of New Jersey (the Senate concurring):

That both Houses of the Legislature meet in joint session on Monday evening, December twenty-first, one thousand nine hundred and thirty-six, at eight-thirty o'clock, for the purpose of receiving a message to be delivered by His Excellency, Harold G. Hoffman, Governor of the State of New Jersey.

OLIVER F. VAN CAMP,
Secretary of the Senate.

Mr. DeVoe offered the following resolution, which was read by the clerk and adopted:

WHEREAS, Almighty God in His Divine Wisdom has called to Him our esteemed friend and conscientious colleague, John V. Burke, late Assemblyman of Middlesex County; and

WHEREAS, We desire to formally express our great sorrow at the passing of this efficient and popular public servant, whose passing has caused a great loss to the State of New Jersey, and whose place as a friend and citizen will be hard to fill; therefore, be it and it is hereby

Resolved, That we, the Members of the House of Assembly of the State of New Jersey, do hereby express our sincere regrets upon the tragic and untimely death of Assemblyman John V. Burke of Middlesex County; and do further express our sincere sympathies to his bereaved family; and be it

Further Resolved, That this resolution be spread in full upon the minutes of this body, and a copy thereof be forwarded to the Burke family.

Mr. Young offered the following resolution, which was read by the clerk and adopted:

Resolved, That Mr. Harry L. Derby, the Chairman of the Social Security Commission, and Professor J. Douglas Brown, Technical Adviser to the Commission, be granted the privileges of the floor.

Page 12, line 105, add the following paragraphs:

"(6) Increased rate of contribution for employment exceeding average hourly week.—The rate of any employer's

contribution whose respective employee shall be required as part of his customary scheduled full time week to be employed more than the "average hourly week" as determined by the commission, shall be increased to the extent as determined by the commission, as herein provided—

(A) The commission shall have the power to determine at the commencement of each calendar year the number of hours of employment that shall constitute the "average hourly week," the minimum being thirty-eight (38) hours and the maximum forty-eight (48) hours. In making this determination the commission shall consider the extent of unemployment existing in the State and shall fix the average hourly week with a view towards reducing hours of employment, based on the experience of payments of weekly benefits in the previous year, except that said commission may make such finding and determination for the year commencing 1937 based on their best judgment and information available concerning unemployment during the year 1936.

(B) The commission shall have the power to determine at the commencement of each calendar year the extent of the increase of rate above provided, which increase shall be a minimum of one-half per centum (½%) and a maximum of one per centum (1%).

(C) The determination of the average hourly week and the determination of percentage of increase shall be uniform.

Which motion, upon a viva voce vote, with the ayes and nays being called, was declared lost.

GOVERNOR'S MESSAGE

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 12, 1937.

To the Legislature:

In my previous Messages I have presented to you and to the people of the State my recommendations for the further development of our natural resources and advantages and my analyses of the seriously difficult problems which we have faced and which we continue to face with respect to our State and municipal governments. For the solution of these problems I have offered plans which I am convinced are not only practicable and sound but necessary. In presenting them I kept constantly in mind the vital relationships which exist between the people and their governments, the heavy burden of taxation which the best kind of public administration imposes and the impossibility of maintaining a healthy government, whether local, State or national, under a system which does not and will not produce enough assured revenue for its operation. I have pointed out the folly of any approach to these problems which takes no account of changed and changing economic and financial conditions and of placing our sole reliance upon a worn out revenue system which imposes confiscatory tax burdens upon a limited part of the people who share in the protection and benefits of government, and which is admittedly unfair and inadequate.

I have sought to present to you and to the public at large the compelling need for meeting our problems of public finance frankly and directly. I have proposed action that

looks to their permanent solution. In support of such a policy, we have not only the record of financial difficulty and failure in public affairs in our own State, but also the record of similar experiences in every other State whose legislative and administrative authorities have followed a policy of delay, linger and wait, and of applying a poultice when a major operation is unmistakably needed.

As there are corroborative proofs on the one hand of the unfortunate experiences that inevitably grow out of policies of this kind, there is, on the other hand, convincing evidence that adequate government can be maintained, that the services which present-day social and industrial conditions require can be provided, and that communities of citizens can pay for these common services without visiting undue hardship or placing impossible tax burdens upon any class or group of the community.

The records in these forward-looking States, where there have been realism and courage enough to bring action, show also that financial solvency can be re-established and maintained and that acceptable standards of public housekeeping, public budgeting and financial control are altogether possible.

There have been solid accomplishments both in the State and local governments during the past two years. Notwithstanding the unusual and distressing conditions that have existed, these accomplishments compare favorably with those of any similar period in recent years. But the policies which we have accepted and the progress that has been made are not adequate to the needs of the situation with which we are faced. The same broad questions of taxation, of governmental costs, of the maintenance of our system of public education, of public improvements sufficient to our current needs, and of satisfying standards in public administration, have not been met. These problems will continue to plague us in the future, as they have in the past. They will not be laid at rest until they have been settled in the right way.

FINANCIAL CONDITION—STATE GENERAL FUNDS

The State is in a sound financial position. We have met, so far, the demands for unemployment relief funds; we have maintained a balanced budget; we have effected a substantial reduction in the State debt; and there will be presented to you a balanced budget for all purposes, except unemployment relief, in the ensuing fiscal year. This record has been achieved only because we had the sales tax, which produced $7,085,732.75 up to the close of the last fiscal year and because we had a windfall in inheritance taxes, from the Dorrance Estate, in the sum of $16,801,-103.50.

No other State without a sales tax has such a record. Only fifteen of the forty-eight States reduced their debts in the past year and in thirteen of these States sales taxes are in force. New Jersey is fourth among these fifteen States in the amount of per capita debt reduction, being exceeded only by California, Utah, and West Virginia, in the order named and in which sales taxes are effective. Not all of the fifteen States have balanced their budgets.

It is gratifying to be able to report that with the improvement in economic conditions there is an upward trend in State revenues, but it is yet too early to predict with confidence whether the increased yields in the immediate future will offset the increase in the cost of government due to rising prices.

The State budget for the ensuing fiscal year, which will be presented to you, carries recommended appropriations totalling $39,730,757.37. Of this amount, $23,471,871.77 represents the amount recommended for the ordinary recurring expenses of operating and maintaining the State government. The remainder covers debt service, contributions to pension funds, subventions and grants, and proposed capital outlays of some $539,000.00 for additions and betterments. My budget recommendations are based upon the conclusion that the time has arrived when we must begin to reshape our financial policies if we are to secure

the maximum efficiency and economy in the operations of the State government. The serious inequalities in rates of compensation that exist in the State service and the absence of any rewards for meritorious service in the past six years will operate to impair the morale of State employees if there is no move to improve their lot as economic conditions improve. During the past six years we have followed a "get-by" policy in the maintenance of plant and equipment, so that today we have a substantial liability in the form of deferred maintenance which we must begin to meet to prevent deterioration that will prove both serious and costly in the years to come.

It is generally recognized that we are paying hundreds of employees less than we would regard as tolerable in industry and far below a living wage. I have recommended adjustments in salaries, principally in the lower brackets, but in a few cases in the higher ranges where the exacting responsibilities of old employees show that their rates of compensation are clearly out of line with those paid in other parts of the service and in comparable positions in industry. The proposed increases amount in all to $894,-731.79—an increase which I believe to be very conservative. I have also recommended conservative increases in appropriations for repairs and additions and betterments to plant and equipment.

It is estimated that at the close of the present fiscal year we will have a free surplus of $1,262,691.43 in the State Fund available for appropriation. On the basis of the recommended budget, the free surplus as of June 30, 1938, would be $203,599.06.

STATE HIGHWAY FUND

A recommended budget for the State Highway Fund, totalling $42,168,336.00, will be presented to you. This budget carries recommended appropriations for the State Highway Department of $18,339,162.00, or approximately 43.6 per cent of the entire resources of the State Highway

Fund. The budget is based upon the continuation of the State policy of using available motor vehicle revenues for highway purposes, but stress is laid upon improvements in the interests of safety upon our highways. Substantial appropriations are recommended for safety construction to relieve congestion, to eliminate dangerous conditions, and to extend highway lighting and traffic control.

UNEMPLOYMENT RELIEF

The past year saw the complete discontinuance of Federal funds for direct relief, the demobilization of the State Emergency Relief structure, and the return of the relief problem to municipal governments with substantial State aid through the Financial Assistance Commission.

The 1936 appropriations for unemployment relief were not included in the regular appropriation act and I have excluded unemployment relief financing from the Executive Budget for the ensuing fiscal year. This means that the problem of financing unemployment relief in 1937 remains to be solved with no prospect of any such windfall as we had in 1936. For the year 1936, relief costs paid and to be paid amounted to $17,415,563.00, financed as follows:

State Emergency Relief Administration	$5,526,014 00
Financial Assistance Commission	7,500,000 00
Total State Contributions	$13,026,014 00
Municipal Contributions	3,316,725.00
Federal Aid	1,072,824 00
	$17,415,563.00

These figures are for direct relief and do not include costs of administration by the Emergency Relief Administration, the Financial Assistance Commission, nor the municipalities.

In November, 1936, reports from municipalities representing 88 per cent of the population of the State show

50,096 unemployment relief cases involving 148,314 persons. Tentative estimates of relief costs for 1937 show a total of $16,659,200.00 for direct relief, with administration costs estimated at $1,652,000.00, making a total of $18,311,200.00.

The problem of unemployment relief has become perennial, but it is none the less real and it is before us again. I have already said that it is estimated that approximately $17,000,000.00 will be required for direct relief this year. Assuming that the municipalities can supply the same amount for unemployment relief in 1937, as they did in 1936, and, in addition, bear the costs of administration, the State will be called upon to provide approximately $13,700,000.00 for the year 1937. I favor a permanent solution of this problem; my program is well known and need not be reiterated here.

Further diversions of motor vehicle revenues for unemployment relief and further evasion of the issues and consequences involved in seeking and reaching a constructive and progressive solution of our fiscal problems may prove to be the presently popular and, hence, the politically expedient course of action. This is the get-by-until-after-election policy that always stands in the way of progressive legislation, prevents establishment of a sound revenue system as a basis for the adequate and economical financing of our State and local governments, and keeps our governing bodies and our people in a state of uncertainty as we proceed from crisis to crisis.

If the State Highway Department were placed on a strictly maintenance basis, some $9,600,000.00 could be made available for diversion for unemployment relief. This would mean the sacrificing of $1,675,751.00 of regular Federal aid, but assumes the continuation of the existing grants-in-aid to counties and municipalities. In 1937 not more than another million dollars could be secured by entirely exhausting the resources of the State Fund and by utilizing unexpended balances of appropriations and small surpluses of revolving funds as of June 30, 1937. Approximately $500,000.00 will be available from the unexpended

balances of funds turned back to the treasury by the Emergency Relief Administration. This would make total resources of $11,120,811.00 that might be made available for relief if our obligations to the motorists of the State are ignored. In this connection may I point out that motor vehicle revenues diverted to relief since 1930 and for which the State Highway Fund has not been reimbursed total $15,688,470.50. In addition, motor vehicle revenues have been diverted to pay institution construction bonds and interest, educational aid bonds and interest, and relief bonds and interest, aggregating in all $56,375,750.00, bringing the grand total of all diversion since 1930 to $72,064,220.50.

New Jersey motorists paid in taxes in 1936 $25,000,000.00. Improved and adequate highways are absolutely essential to our modern, economic, and social life. Without these highways our whole industrial system would rapidly stagnate. I have made my position clear on this matter many times heretofore. I would use funds from any source to feed and shelter our needy citizens in an emergency. I cannot but consider that it is the rankest kind of foolishness and bad faith on our part to continue wholesale diversion of motor vehicle revenues and pay no regard either to binding moral obligations entered into many years ago or to the maintenance of our highway systems which must not be allowed to deteriorate.

THE STATE REVENUE SYSTEM

We have made no progress in the modernization of our archaic and inequitable revenue system under which general property is taxed at confiscatory rates that impede collections, result in the piling up of tax arrears, necessitate borrowing for current purposes and frequent funding and refunding operations, penalize our schools which during the depression have borne the brunt of the decrease in revenues due to tax delinquency, impose undue hardship upon home owners and industries, and depress the market for real estate.

We have done nothing to solve the problems of school financing. We have accepted the principles of a minimum foundation program in education with State support to make it effective, but we have done nothing towards providing the funds necessary to carrying the accepted principles into effect. We continue to require local governments to raise moneys for offices, activities, and purposes over which they have no control. Our whole revenue system, our State-administered, locally-shared taxes, our system of State aid grants, the system of mandatory appropriations, and the allocation of functions as between the State and the local governments have all been exhaustively studied and reported upon, their weaknesses disclosed, and recommendations made for improvements. The facts are generally well accepted, the conclusions and recommendations are regarded as sound, but the courage to carry out the major operation that is necessary is lacking because a few people would think themselves hurt before the full measure of relief could be felt by a majority of our citizens.

We have spent entirely too much energy in trying to place the responsibility for our unsatisfactory fiscal conditions in local governments on the other fellow in the hope, perhaps, that attention would be turned away from our particular interests and the tax gatherer would pass by on the other side. One group calls for the last possible economy before there shall be replacement revenues and no one will define the term. Another group calls for reduced spending and refuses to listen when the figures show that fixed charges of government which have been established at the demands of the people themselves or, at least, with their consent, will not permit of greatly reduced spending if we are to continue the elementary services of community government and meet these obligations. Another group demands that all public construction and improvements be stopped for an indefinite term and that funds devoted to these purposes be diverted, without con-

sidering that these activities have been greatly curtailed, that the local funds for these purposes are borrowed money, that such a policy is destructive of economy, and that the moneys released would not suffice anyway. There is, however, evidence of increasing realization of the dire need for the equalization of the tax burden. The New Jersey State Taxpayers' Association has gone on record in favor of equalization and urges the Legislature to take action to this end.

TAX ASSESSMENT AND COLLECTION

Two years ago I said that there must be a more effective system for the assessment of property and the collection of taxes. Unless there is fair and uniform assessment, there can be no equalization of the tax burden, and debt limits based on assessed values will have no real meaning. Property assessment is an important and exacting task. It is not a job for amateurs. It should be handled by intelligent and qualified people, free from political or other influences, and in accordance with established standards applied to the whole State. I propose that the county be made the unit of assessment, with general supervisory powers vested in the State Tax Department. I propose a county assessor in each county, thoroughly qualified by training and experience, with a permanent force of deputies and assistants selected under the provisions of the Civil Service Laws, but with protection for those assessors in office who are qualified and efficient. I propose a similar plan for the collection of taxes with a county tax collector selected on the basis of experience and fitness, whose necessary staff of deputies and assistants shall be selected through Civil Service methods. In some of the larger municipalities it may be found advisable to provide for local assessing and collecting authorities functioning as deputies under the county officers. These administrative details and procedures can readily be worked out, and under such a plan we can be assured of more equitable assessments and more effective collection procedure in the small cities, town-

ships, boroughs, and villages, as well as in the larger communities. Arrangements can well be made with banks throughout each county to serve as collecting agencies for the convenience of taxpayers. Adequate records can be maintained and the moneys collected for each local unit of government can be paid to the proper local officials as rapidly as collections are made.

My further and continuing study of our taxing problems convinces me that this recommendation is sound. This proposal creates no new revenue, to be sure, but it will place upon a more equitable and businesslike basis the whole question of tax assessment and collection. If you are unwilling to consider the recasting of our tax structure, then I am sure that there is no action which you can take that will be so equitable and effective as is contained in this proposal.

Other matters respecting the laying and collection of taxes under our present laws should be given your attention. Since 1932 the railroads have withheld a part of the taxes levied and the equity of the procedure under which these levies have been made has been in continuous litigation. Taxes amounting to $30,128,796.00 are overdue. The decisions thus far have been generally in favor of the State, but the questions raised and the observations of the courts indicate that an extensive restudy of our assessing procedure with respect to railroad taxes should not be longer delayed. A clarification of the methods of the apportionment of the utility tax on gross receipts is also needed. It is clear that the new Foreign Corporation Franchise Tax Act passed last year will not work satisfactorily. This Act should be extensively amended in order that foreign corporations may continue to carry on their proper business and financial activities in the State.

The volume of tax appeals which are presented first to the County Boards of Taxation and thence to the State Board of Tax Appeals is indicative of the distress of property owners, which inordinate taxation upon a single class of property brings. In some of the counties the tax board

has been unable to give consideration to the thousands of appeals within the time limits prescribed by law. For example, eighteen thousand appeals were filed with the Essex County Board of Taxation for the year 1936 and eight thousand of these appeals were dismissed without prejudice because the county board was unable to hear and dispose of them within the time prescribed by law. In order to obtain consideration, these taxpayers were required to file their appeal with the State Board. It is proposed that the filing of appeals with County Tax Boards shall be advanced from August 15th to July 15th and that the membership of the county boards be increased from three to seven. These proposals seem to me to be reasonable and in public interest. I commend them to your consideration.

MUNICIPAL GOVERNMENTS

We have made some headway in the improvement of our procedures in dealing with the fiscal problems of our municipal governments. The Wolber Bond Act of 1935 provides for more effective debt limits, the orderly retirement of excess debt, sounder installment buying of public improvements involving capital outlay, and a new schedule of debt terms with proper relation to the life of the improvements involved. This measure supplemented and extended legislation previously adopted.

The Local Budget Act of 1936 was designed further to advance sound financial practices in municipal government by restricting and regulating budget procedure, which would result in a cash-basis operation for all municipalities by 1943. On signing this bill, I urged that the people should not accept a procedure of legal regulation and limitation of borrowing and expenditure as a cure for the financial ills of local governments. I said, "I am under no delusion that our counties and municipalities can be brought on a cash basis by legislative fiat. The act as it now stands does nothing to correct the fundamental weaknesses of local government finances in the State of New Jersey,

namely, reliance upon general property taxes as the source of almost all revenues for the support of local government. . . . I am convinced that this law can never be carried fully into effect until we broaden the tax base so as to replace property taxes with other sources of revenue and reduce the property tax rates to the point where these taxes can be currently collected without undue hardship to the taxpayer and without outright confiscation of his property. . . . I have approved the bill because I believe it is a step in the right direction, because it will compel either the funding or the liquidation of floating debt, and will eventually force a broadening of the tax base, because I believe there is public demand for such a law, and because I feel that its most objectionable provisions will be amended as soon as local officials and members of the Legislature realize what their results will be." One of the first proposals that will be presented to this Legislature will be the repeal or the extensive modification of this law. This action will be urged upon you vigorously and earnestly by the League of Municipalities and municipal officials generally. In my observations respecting this measure, I was stating merely the result which logic and common sense forecast as inevitable. Repeal of the act would necessitate the re-enactment of the Pierson Budget Laws.

LOCAL CONSOLIDATIONS

In the search for the causes of the financial distress in many of our municipalities, of the heavy tax burdens, and of the failure to realize satisfactory standards of municipal administration, we are told over and over again that we have too many local governments and that the remedy lies in consolidation. I am satisfied that we would be better governed if our municipal governments were combined in larger units. There are very real and time-consuming difficulties in the way of such consolidations, and for such an accomplishment we must look ahead to years and possibly generations. As a matter of fact, I have not considered

that mandatory action looking to territorial consolidation is the desirable first procedure.

As I stated in my Inaugural Message, I favor authorization for the combination of functions and services for our local governments such as purchasing, engineering, street and road maintenance and construction, police and fire protection, health and laboratory service, and such other activities as lend themselves to such arrangement. I can accept the proposals for extensive reorganizations of government at any of its levels as good theory, but it is my observation that real and lasting progress toward good and responsible government comes by way of evolution and not through revolutionary procedures so frequently proposed as administrative panaceas. It is my notion that we should reorganize and improve upon what we have, instead of attempting to create a new and strange pattern of public administration.

The releases of the Princeton Local Government Survey confirm what has been said so many times heretofore respecting governmental costs, the point at which most of our difficulties in the business of government arise, where the bulk of the money is spent, and where the remedies must be applied. In passing, I am led to observe that this point is not the State government, the loud and repeated claims to the contrary notwithstanding. The Princeton authorities are stating, perhaps, in a different way, many of the things that I have proposed as essential to a forward-looking, effective, and economical handling of all of our public affairs.

The Princeton Committee said recently, "No community can be self-governing when: its fiscal policy is throttled by the requirements of its bonded debt; its planned expenditures are 30 per cent more than its cash income; its budget methods bear little or no relation to planned expenditures and are subject to no real expenditure control." They said also that, "Local government uses four-fifths of the money raised from all State and local taxes. The gen-

eral property tax is used almost entirely for local purposes. The general property tax provides nine-tenths of the tax money used by local government. Nine-tenths of the general property tax consists of the tax on real estate."

They assert that further action is essential because, "Recent legislative efforts toward the improvement of local fiscal administration in New Jersey are too narrow in scope, too unbalanced in emphasis, too limited in effect to give intelligent guidance to local fiscal methods."

Finally, they place the responsibility upon the taxpayer and citizen by reminding him that "loud and vigorous complaints" against "spending of your own money * * * after it is all spent" are not effective in sound governmental reform. I am hopeful that the press and the public will accept these statements from the Princeton Committee more readily than they have been willing to accept the same pronouncements from those of us in active public life.

The State, in my opinion, must be co-operative and helpful in aiding our municipal governments in their struggle back to financial solvency and restored credit. There must be a greater realization upon the part of local as well as State officials that the solution for our municipal problems is a mutual responsibility, and citizens generally must accept their own part in the process. Helpful citizens will not confine their activities to "loud and vigorous" demands that the stable door shall be locked after the horse is stolen. They will lend their constructive and continued interest, recognizing facts, even though unpleasant, and aid in applying the corrective measures required.

The State's revenues are limited and fixed. The State annually shares these revenues with our local governments to the extent of $32,000,000.00. It spends, itself, in ordinary operating costs approximately $27,000,000.00. Out of its total revenues approximately $13,000,000.00 is devoted to the construction of highways, institutional and other public buildings. When we take into account the fact that our local governments spend normally somewhere between two

hundred and fifty and three hundred millions of dollars a year, we are able to see that the problem of municipal governmental costs is a vitally important one. We should recognize that in the solution of the problems of governmental costs and of satisfying administrative standards, we shall have more promise of success if we will cease to place all of our reliance upon a division of State funds among the municipal governments. Both the State and local governments have their responsibilities and their obligations. Only a realistic approach to our public problems can be effective. Let us find the truth and act upon it.

INTERSTATE CO-OPERATION

New Jersey has maintained the leading position which it assumed two years ago in dealing with matters of interstate compacts and interstate co-operation having to do with crime, taxation, traffic, sanitary conditions in the Delaware Basin and the waters of the Port of New York, and in other projects requiring interstate action.

AGRICULTURE

One thousand nine hundred and thirty-six marks our most favorable year in a decade for agriculture. Noteworthy improvements have been effected in co-operative marketing. The initial work in the long campaign for the eradication of bovine tuberculosis is nearing completion. Nearly $6,000,000.00 have been spent in this work. Fifteen counties are being accredited, and it is hoped that the entire State will be fully accredited during the present year. Thereafter, this task will be one of holding the ground already gained against new infection. This must be provided for, but it should not prove expensive. The regulation of the milk industry has been maintained with profit to our extensive dairy interests, and the work of the Milk Control Board should be continued.

BANKING AND INSURANCE

The year has been marked by the almost complete return of public confidence in the integrity and soundness of our State-chartered financial institutions under the supervision of the Department of Banking and Insurance.

Banks, trust companies, and savings institutions have shown further deposit gains and a healthy recovery in asset values. Reports of insurance companies of all classes for the year will undoubtedly reveal a further marked improvement. The troublesome mortgage guaranty problem looks brighter than it has during the past several years, due in part to the revived interest generally in real estate and to the improvement noted under plans of rehabilitation approved by the Commissioner. The building and loan structure has been measurably strengthened, not only by reason of increased sales of real estate and closer supervision, but as well by the cumulative effect of corrective legislation enacted into law within recent years and the prospect for share insurance.

The liquidation or rehabilitation of distressed institutions has been continued along rational lines toward the preservation of asset values. During the year, not only have several millions of dollars been made available to the depositors and other creditors of these distressed institutions, but liquidation has virtually been completed in ten of the 14 banks and trust companies in the possession of the Commissioner and substantial progress made toward the reorganization or rehabilitation of many of the other classes of institutions in possession.

PUBLIC UTILITIES

In my message to the Legislature upon induction into office in 1935, I recognized the need for clarifying and broadening the powers of the Public Utility Commission and bringing the provisions of the public utility act into accord with rapidly changing conditions and the needs newly disclosed by national investigations and investiga-

tions by several States. I recommended to the Legislature a series of bills that in my advised judgment took into account and made possible the conserving of the interests of the users of utility services, those of labor, and the legitimate interests of the investors alike. These bills so submitted were enacted into law.

Among them was a bill regularizing negotiation as to rates between the Public Utility Commission and the utilities. It was my belief that such a bill might in many important instances serve as a means of escape from the long and costly rate proceedings which dragged their weary way over months and years before the Board and, after an order was made by the Board, before the courts. I suggested the bill as a means of securing prompt reduction in rates and the avoidance of costs which fall on the taxpayers and users of the service and are never borne by investors. The act has justified itself. Negotiations by the Commission since 1935 have effected savings to the utility users of the State of approximately $3,000,000.00.

I recognize that much remains to be done in effective regulation to conserve and keep in equitable balance the interests of labor, consumers, and legitimate investors. I recognize that to this end further legislation may be required and I ask deliberate consideration for such recommendations as the Commission may submit.

TRAFFIC REGULATION AND HIGHWAY SAFETY

In the field of regulation of motor traffic and highway safety, New Jersey has maintained her place as a leader in the Nation. The State Highway Commissioner has established the fact that highway lighting is practicable, that it is an important factor in the reduction of accidents, and that funds spent in this way represent a sound investment, not only in money and property values, but in the saving of life and limb and the prevention of sorrow and suffering.

Throughout the limited program of highway construction carried on during the past year and that projected

for 1937, the principal emphasis has been placed upon highway safety. The latest available records show that the drive for safety upon public highways, which has been growing in volume and momentum for a number of years past, is at last beginning to bear fruit. Notwithstanding the actual increase in highway and motor vehicle fatalities throughout the nation last year, the statistics show an eight per cent decrease for New Jersey. This represents one hundred lives saved.

More than a year ago, I had a part in stating the plans and objectives for the nation-wide, five-year safety campaign sponsored by the National Safety Congress. The challenge offered to the country was a 35 per cent reduction in traffic fatalities during this period, or a rate of seven per cent each year. I am especially happy to proclaim our own State as one of the few which has reached or exceeded this quota during the first year.

The factors that have to do with automobile accidents are so many and so complicated that they call for a continual broadening of the scope of all safety activity. Constant effort and eternal vigilance are the price which we must pay in keeping this growing enemy of modern society within even tolerable bounds. There seems to be scarcely any saturation point in highway traffic. Roads and more roads are required to keep pace with the volume of traffic and regulation and enforcement are continually essential. Our choice lies between an appalling increase in major accidents and more adequate regulation by enforcement agencies. The forces of the State Police and the Motor Vehicle Inspectional Service are not adequate properly to patrol the important highway routes of the State.

The enactment of comprehensive motor vehicle safety laws, requiring systematic testing and examination of all motor equipment, is bound to result in heavy reductions in the number of motor accidents and in the saving of hundreds of lives year after year upon our public highways. A significant feature of this law, which should not be lost

sight of, is the provision that the user who creates the risk and receives this service is required to pay for the total cost of administration of this desirable undertaking.

LIQUOR CONTROL

Tied up in some measure with traffic safety is the enforcement of our alcoholic beverage law. The Department of Alcoholic Beverage Control has established a leading position. Its leadership is acknowledged in the country at large, and it commands, I am sure, the respect and confidence of our citizenry. The license system, which affords a fair field for individual initiative and enterprise, has avoided the pitfalls which have beset several of the States which have entered the liquor business in competition with their own citizens. This industry brings in State revenue of over seven millions of dollars per annum, and license fees contributed to municipal treasuries represent more than four millions of dollars annually. Strict enforcement is a moral duty of the government. It is a source of lawful revenue; it protects law-abiding licensees against liquor outlaws and customers from spurious and sometimes poisonous goods. The accomplishments in this particular field lead to the reasonable belief that the objectives of control of this business can ultimately be obtained by fair but determined administration, and that the evils which beset the prohibition era may be wiped out eventually.

EDUCATION

In the field of education, I am able to report solid progress in spite of the depression period. The record of service in the face of unusual difficulties and discouragements on the part of the rank and file of the teaching forces of the State is one that is rarely, if at all, equalled by any group of our citizens. Boards of Education are entitled to the commendation of citizens generally for the valuable and painstaking service which they have rendered during these discouraging years. Appropriations for the main-

tenance of the schools have been made annually in every district in the State in spite of an almost hopeless financial situation in some of the smaller districts. In this most serious crisis, not a single district denied educational opportunities to its pupils.

The State Department of Public Instruction reports a large number of projects for the improvement of instruction and for the development of high school courses better adapted to the individual abilities and needs of the pupils. The program of character education, inaugurated two years ago, has become an important part of our educational system. This program is bound to contribute important values to the development of a responsible citizenship as well as to the solution of the problems of juvenile delinquency. The plan providing for minimum foundation support for our public schools is law; it awaits legislative action for the provision of the funds required.

Public education is recognized, of course, as one of the chief responsibilities of our State. The very foundations of good government rest upon educated and informed citizens. Our public school population represents eight hundred and fifty thousand boys and girls. Almost two hundred thousand of these pupils are of high school grade.

In spite of the untiring efforts of our public school teachers, we have not kept abreast of our school problems. Our total expenditures for public school education were $20,692,000.00 less in the last school year than in the year 1931-32. The State and every school district must face this problem of adequate school facilities for our children and when the greatest possible economies have been effected we must be prepared to restore our expenditures for school purposes to the 1931-32 level. As a matter of fact, as the school population continues to grow, that level must be exceeded.

When the appropriation of State funds to the several counties was made last June, it was found that there was not sufficient money in the 10 percent emergency fund to

pay to the several school districts the quotas provided by law. These quotas include those for teachers, supervisors and superintendents, for high school tuition, and for three-fourths of the cost of pupil transportation. For many years the State Board of Education has paid from this fund an additional allotment of three cents for each day's attendance. An appropriation of $1,716,616.61 is required to meet this deficiency. I repeat here my recommendation made in my Message to the Special Session of December 21, last.

The minimum foundation program enacted in 1935, and to which I have already referred, remains merely an empty gesture until funds are provided for its operation. School moneys, for the most part, come from local taxation. To the extent that these moneys are provided from other revenues, exactly to that extent our hard-pressed municipal governments are relieved of this financial burden.

PUBLIC WELFARE

During the year conspicuous progress has been made in adjusting our welfare legislation to the accepted thought of the times. In my Inaugural Message two years ago I urged the Legislature to provide for a careful study of our New Jersey public assistance or social security laws, with a view to extending their scope and bringing them into line with the National social security program which had just been announced by the President.

The State Social Security Commission was established. It began its study promptly, and a year ago presented its recommendations with respect to aid to dependent children, old age assistance, aid to the needy blind, aid to crippled children, child welfare service, public health, maternal and child health, and rehabilitation of accident victims. Substantial assistance to all of these classes of dependents had long been provided in New Jersey at State and local expense. It was necessary only to bring existing legislation into line with Federal requirements in order that the maximum amount of "grants-in-aid" provided

under the Federal Social Security Act could be obtained, thus increasing the scope and usefulness of these services with the least possible drain upon the treasuries of the State and local governments.

The program proposed was promptly adopted by unanimous legislative action, and these services are in full effect with the support and co-operation of the Federal Government. The action taken in this State has already made available for these purposes the sum of $4,705,600.00, as indicated in the following tabulation:

GRANTS-IN-AID

APPROPRIATIONS FROM FEDERAL GOVERNMENT

	Fiscal Year 1935-36*	First Half Fiscal Year 1936-37	Third Quarter Fiscal Year 1936-37**	Total
Board of Children's Guardians

*** Requisitioned from Federal government without confirmation to date.

As a result of this co-operation, the State health service has been greatly augmented and provided with the necessary professional and financial assistance to undertake a more aggressive program for the prevention of communicable diseases and for the proper medical care of expectant mothers and their infant children.

The aid available for dependent children has freed the State from some of the limiting restrictions formerly imposed upon this kind of assistance. We now have more

than 31,000 children, the wards of the State Board of Children's Guardians, receiving support and care in homes of widowed mothers or in suitable foster homes. By June this number is expected to increase by several thousand, and the expenditure for this particular service will rise to approximately six million dollars annually. Of this amount, the Federal government will pay something less than one-third. The State and the several counties will share the remaining cost equally. The required State appropriation in the next fiscal year will be $2,253,874.00.

Within the few short months since this enlarged public welfare program became law, old age assistance has become effective in thousands of homes where restrictions theretofore had barred such aid. The age of beneficiaries was reduced from seventy to sixty-five years and the residence requirement from fifteen years to five years within the last nine. The number of aged persons receiving assistance has increased from 15,904 as of June last, to approximately 22,000. This number will continue to increase during the coming months, and it is anticipated that 30,000 of our aged people will be receiving assistance by the end of the present fiscal year, at a total annual expenditure of $7,782,000.00. Of each dollar spent for old age assistance, the Federal government will provide 50 cents, the State 37½ cents, and the counties 12½ cents. Our required State appropriation for the next fiscal year will be $2,918,532.00, and the Federal contribution is estimated at $3,891,376.00.

The law respecting aid to the needy blind and to crippled children was likewise liberalized, and the number of persons aided has been substantially increased. This is especially the case with respect to crippled children, since much needed treatment will be henceforth available for older crippled children who were ineligible under the old law. Four hundred and sixty-six blind persons are receiving assistance, and 15,557 crippled children are under the care of the Crippled Children's Commission.

This substantial enlargement of our public assistance program, so strongly endorsed by the nation as a whole, seems to represent only the beginning of an effective partnership between the Federal government, the State, and our local communities. It is our problem to see to it that our obligations under this partnership shall be scrupulously and effectively discharged.

UNEMPLOYMENT COMPENSATION

Within the past month, the Social Security Commission presented its final report and recommendations on unemployment compensation. At a special session of the Legislature, a carefully drawn bill was offered, which both Houses of the Legislature promptly and unanimously adopted. The Federal Social Security Board immediately gave its approval to this measure. We may feel complimented by the fact that the day following its adoption, two States which had not then adopted unemployment compensation laws asked for copies of our law, saying that the Washington authorities had recommended it as representing the best legislation yet evolved by any State. The Unemployment Compensation Commission has been appointed and organized under the chairmanship of Senator W. Warren Barbour. Each member of the Board has assumed this task as an obligation of good citizenship.

Announcement of the requirements imposed upon employers and the benefits provided for employees has been prepared and distributed along with initial report forms to be filed by each employing unit in the State. Contribution returns will follow promptly, the permanent staff will be organized, and the work of this new and important State agency will soon begin to function in a normal way. I have confidence that the legislation we have adopted and the organization plans that have been proposed are sound. I expect that the functions of this agency will go far toward properly protecting our industrial workers and smoothing the course of business activity for the future.

STATE DEVELOPMENT

In both my Inaugural and First Annual Messages, I called attention to the unusual advantages of our geographic location with respect to industrial, agricultural, and residential areas and recreational resources. I emphasized the fact that our citizens, both in their private and official capacities, have neglected the proper advertisement of the State's facilities for industrial, commercial, residential, and recreational purposes. I expressed the hope that during my term as Governor, a New Jersey Council might be established and provided with a reasonable appropriation for the legitimate advertisement of our natural facilities and attractions, not only as a warranted public activity, but with the promise of tremendous profit to the State. I return to these recommendations.

No State in the Union, and no like area in the world, lends itself so completely to the servicing of the present-day needs of our industrial, commercial, and social life as does New Jersey. This State shares two of the greatest seaports in the world. It is the eastern terminal for all of the great railroads of the country. We have spent almost three hundred millions of dollars in constructing the main arteries of a great highway system which ranks among the best. Our seacoast is famous as the playground of the Nation. We have hundreds of miles of streams, whose maximum facilities are used only during the angling season. Our mountain lakes rival any in the world for beauty and scenery, and we have passed by, almost untouched, the recreational and residential attractions of our forests and countryside.

Forty million people are within an overnight journey of the State, and our shores, our inland waters, and our mountains are within a few hours' drive of twenty million people.

The recreational business of the State—and it is substantial in volume—has been drawn to us by reason of our natural attractions and advantages and in spite of our neglect. It is not now, and it has never been, more than a fraction of the certain possibility in this field. As a State,

we have done practically nothing to feature our priceless assets. The opportunity for the development of a profitable business with the chances for employment and profit in this field will not permit us, it seems to me, to delay action any longer.

Other States and Nations, many of them not as favorably situated as we are, are appropriating money to acquaint the holiday-seeking public with their particular attractions. These States and countries have discovered and proved to their own satisfaction what we have permitted to pass unnoticed.

Some years ago, a group of businessmen in Los Angeles organized the "All Year California Club". A forty-thousand-dollar advertising campaign was launched, stressing rainless days, cool nights, and other natural attractions. The results have amazed even the group which started the movement. Until recent years, California had practically no summer tourists. Last year, the State had over six hundred thousand summer tourists, and the number of winter tourists has greatly increased. I am informed that the income to the people of the State from the tourist trade exceeds that from the entire citrus crop and is second only to petroleum as a primary resource.

The New England States have pooled their interests in a New England Council to advertise that area as "Vacation Land". The Council has declared that the tourist and vacation trade has doubled and tripled. New Hampshire recently announced that this trade is its largest and most profitable business. Former Governor Curley of Massachusetts has stated repeatedly that the holiday and vacation business in New England in 1936 exceeded six hundred millions of dollars.

New York State, I understand, is spending one hundred thousand dollars a year in the interests of the tourist trade. Six million visitors were reported during the three summer months of last year, and a total of two hundred and sixty millions of dollars was spent by tourists within that State, an increase of 50 per cent over 1934.

Taken as a whole, New Jersey has more attractive facilities than our neighboring States. We have also the advantage of nearness to the great metropolitan centers. It is my purpose to ask for legislative authority to establish a State Council, composed of representatives of the Legislature, of industry, commerce, home development, community life, and recreational interests for the purpose of increasing knowledge of, and interest in, our recreational attractions and our unused resources.

An undertaking of this kind leads us immediately into the questions of shore protection, improvement of inland waterways, and the expansion of our forest reservations, parks, and recreational centers. New Jersey is far behind her sister States in providing these facilities as a policy for sound conservation, for current enjoyment, and for future use.

We have more than two million acres of forests and wild land and but one hundred and fifty-one thousand acres are in State forests and sixteen thousand acres in State parks. More than one-third of publicly-owned acreage is represented in municipal watersheds and not available for any but the most limited recreational use.

For each thousand of its population, New York has two hundred and thirty acres of parks and forests in public ownership; Pennsylvania has two hundred and fourteen and New Jersey about thirty-five. Our needs are no less, certainly, than those of our neighboring States. Indeed, they are greater, because of the density of our population and the possibilities of attracting a greater volume of out-of-State tourists to our recreational centers.

Notwithstanding our present needs and the demands upon our public funds, we should, as a matter of forethought and preparation for the future, provide for extensive additions to the land areas in public ownership. Hundreds of thousands of acres can be acquired for from one to three dollars an acre. Seashore parks are still available at reasonable cost. Based upon the proved statistics from States in various parts of the country, I am confident

that we can add more to our State income by a modest outlay of funds in acquiring additional public recreational areas and of properly advertising our recreational attractions than by means of any other plan of expenditure and development.

In all of this it must be remembered that there is a commercial and industrial side that is not to be overlooked. Improved water facilities bring added commerce; a protected shoreline invites new investments. Tourists and vacationists must be housed and fed and their wants provided for. Great as are our industrial, financial, and agricultural interests, recreation can well become one of our major and most profitable industries.

POTABLE WATERS

I regret to report that no positive action has yet been taken looking towards the ultimate solution of the water supply problem in the State. A great deal of earnest discussion has been carried on among both official and unofficial groups whose members sense the seriousness of this question. The National Resources Committee has recently completed a study of New Jersey waters as a part of a comprehensive survey covering most of the country.

The effort to treat the water and allied problems of the Delaware River Basin, through interstate arrangement, has been renewed with greater promise of success, I think, than at any time heretofore. In the meantime, New York City has begun, or is prepared to begin almost immediately, the construction of the tunnels designed to carry a supplementary water supply from the headwaters of the Delaware, in accordance with the authorization of the United States Supreme Court some years ago. New Jersey and Pennsylvania are entitled to designate engineering observers as the work of the New York project proceeds. For the time being, I have designated the State Water Policy Commission as our agent for this purpose.

We are told, year after year, on dependable engineering authority, that major water supply developments require from ten to twenty years for completion. We are likewise told that there are not now available sufficient and safe supplies of potable water for our Metropolitan area beyond 1950. In spite of the acknowledged complications and difficulties involved, I am anxious that no further valuable time shall be wasted, that those who represent the people's interest in this vital essential may reach accord as to the proper procedure to be taken in the public interest, and that the cause of adequate potable water supply for New Jersey municipalities may be definitely advanced at this session.

OTHER MATTERS

There are a number of other matters whose importance warrant your attention and interest. I shall not undertake to discuss them here. I have in mind presenting some of these problems for your special consideration as the legislative session proceeds.

Among these may be mentioned the advisability of further amendments to the public utility laws in rounding out the board's authority with respect to rates, capitalization, holding company control and service, and the urgent request for a special appropriation for funds to carry forward studies required under existing law.

There is also the matter of considering the first recommendations that may be presented during the session respecting improvement of our methods in dealing with juvenile delinquents. This subject is now being intensively studied by the Juvenile Delinquency Commission established under Chapter 136, P. L. 1936.

Consideration ought also be given to the establishment of a permanent policy with respect to space required to house State departments in Trenton. The situation is acute; the costs, under the present arrangement, are greater than necessary; and we should take steps either

to purchase an available building or to proceed with the construction of a new building adequate to the needs.

The Commissioner of Finance has been giving consideration to a plan for the centralization of the State's motor transportation facilities and requirements. The facts so far developed show that substantial savings as well as improved service can be effected. The plans that will be presented merit your careful study.

The year 1937 marks the One Hundred and Fiftieth Anniversary of the adoption of the United States Constitution. The New Jersey United States Constitution Commission, appointed on legislative authority in 1935, is planning a series of celebrations and observances in various parts of the State and in every community, to begin on September 17 and continue until December 18. This anniversary period should be made the occasion of widespread study and renewed interest in our organic law. The members of the Legislature will be asked to lend their individual aid and interest to this important celebration and to provide a small appropriation to cover necessary incidental expenses.

The New York World's Fair will be held in 1939. Its theme will be "Building The World of Tomorrow". This Fair represents the most important undertaking of its kind in the twentieth century and perhaps in our whole history. New Jersey will serve as the highway over which tens of millions of people will travel in visiting the Fair. It is bound to increase substantially the business activity of our metropolitan area. Hundreds of thousands of visitors will look to New Jersey for housing and other accommodations. Aside from this, our position requires that we have some part in this great spectacle. Authority will be asked for the appointment of a temporary New York World's Fair Commission to provide for our active and proper participation.

SUMMARY OF ACCOMPLISHMENTS AND REMAINING PROBLEMS

In my Inaugural Message I undertook to present a comprehensive program which would include the major objectives for my entire term of office. I submit that we have made progress towards these objectives. We have continued to operate under a balanced budget; we have financed unemployment relief up to the end of 1936; and we have reduced our State debt. By retiring bonds and adhering to the pay-as-we-go policy, the State debt is $26,084,000.00 less than it would have been had I followed the policy in effect when I took office.

I proposed a revision of the bonding laws to provide, for local governments, effective borrowing and debt limits, the retirement of excess debt, and sounder installment buying of public improvements. That legislation has been enacted.

I proposed more effective budgeting for local governments. That legislation also has been enacted, but, as I have already pointed out, the means for its full operation are yet lacking.

I proposed a State advisory service on matters of municipal finance. That plan has been provided through the Municipal Finance Commission.

I proposed a reorganization of the State Relief Administration. That has been accomplished through several steps. In my judgment, the present arrangement is sound and adequate for the handling and distribution of such relief funds from State sources as may yet be made.

I proposed a study of our social insurance problems looking to effective legislative action. New Jersey social security laws have been brought into complete accord with the Federal policies and plans.

I proposed the adoption of the minimum foundation plan in support of our public schools. That plan likewise has been accepted.

I proposed a practical study of crime and its related problems, with special regard to its interstate and regional

aspects, and the development of laws and machinery for dealing more effectively with these problems. Two years ago New Jersey assumed the lead in the expansion of interstate co-operation. We still maintain that leadership, and legislation of far-reaching significance for dealing with criminal and other regional problems through interstate co-operation has been enacted.

I proposed an extension of the authority of the Board of Public Utility Commissioners, in order that warranted benefits in the way of more effective regulation and reduced rates might be returned to the people. A series of important laws has been enacted, and the principal benefits accruing have already been referred to.

I pointed to the necessity for the strengthening of our banking and financial institutions, the conservation of the funds entrusted to their care, and the restoration of public confidence. The report of the Banking and Insurance Department indicates the complete restoration of confidence, the renewed use of building and loan associations as savings institutions, and the rapid progress in clearing up the problems of those few remaining distressed institutions that have not yet been liquidated or rehabilitated.

I proposed that the Highway Department should be put under a single, responsible head in accordance with the recommendations of the Princeton Survey. That was done, and the accomplishments of that department during the past two years warrant public confidence and commendation.

I proposed increasing education in the matter of highway safety and a determined and continuing campaign against reckless and drunken driving, and against other contributing factors to the appalling roster of death, accidents, and property destruction resulting from traffic abuses. Worthwhile advancements have been made in this field. An extended patrol service under existing law, together with the beneficial results which must derive from the motor vehicle testing law, is bound to assure greater highway safety.

These and numerous other accomplishments, which I have mentioned, rightly go to the credit side of the ledger. But the record is not complete. The several remaining major proposals, which I made two years ago and which have not yet been disposed of, are as pressing and necessary today or even more so than they were two years ago.

I proposed a reduction in the real estate tax by at least one-third. I recommended the revision of our taxing system to bring it into line with modern conditions and requirements, to broaden the tax base, to spread the tax load over all the wealth and services that are properly taxable, and the citizens who are benefited and protected by the services of government, and to solve our problem of financing unemployment relief.

I proposed far-reaching changes in the matter of assessment and collection of taxes. I advised the consolidation of functions of government and the allocation of those functions and their cost according to logic and common sense.

I urged early agreement and action with respect to the pressing problems of our potable water supply.

I asked for the development of the resources of the State, not only in preservation of the valuable heritage of the people, but as a profitable business enterprise.

Definite action is yet lacking upon these important questions. Their proper solutions are essential to the continued well-being of the people of the State and to the realization of acceptable standards of government and public service.

I know, of course, the controversial nature of some of these questions. I appreciate the reluctance of politically minded officials and individuals to deal with these questions in accordance with the needs of the situation and as the facts warrant and require. I had hoped that after two years of discussion, the false issues that have been raised about a number of them would have been effectively disposed of, that the supply of "red herrings" would have been exhausted, and the smoke screens penetrated and cleared away. I regret that the public mind is still confused, that the Legislature seems yet unwilling to face the real and

stubborn facts, and that lack of public understanding and support apparently remains.

The cry of economy is appealing, but it does not meet the situation which we face. The charges of careless spending, of extravagance, of waste, need only to be raised to be accepted by many people. Even citizens with a full understanding of their responsibilities do not seek to become taxpayers under any revenue system if they can avoid it. The great rank and file, who have not been called upon heretofore to pay direct taxes and who by that token are convinced that they pay no taxes, can be readily organized and regimented against a sound taxing system and sound financial procedures. Citizens are too prone to forget that government has no resources other than the revenues it receives, that the very existence of government depends upon its solvency and its assured income, and that the constantly increasing public service which we demand and require does cost money and must be paid for by the people themselves.

CONCLUSION

The path which we in this State have traveled in these recent depression years has been beset by difficulties, and by hardships and dangers which we have not known heretofore. Our experiences have been common to all of our fellow-citizens in every part of the country. Hundreds of thousands of our people, and millions in the Nation, have lost their savings and their opportunity for work by which they might be fed and clothed and sheltered. It is no wonder that we have widely questioned the form and character of our industrial and economic systems, our social organizations, and even our institutions of government.

Happily, this devastating depression is passing. Unmistakable evidence that this is so is all about us. We are emerging again into the sunlight of restored confidence, of expanding business, and of renewed and extended activities in the solid and essential enterprises upon which our security and well-being are fundamentally based. Our free

institutions of a free people under a free government, shaped and controlled by the people themselves, have withstood the individual and combined attacks that have been made upon them. In the way in which the people have faced these recent unprecedented conditions, in their generosity, in their forbearance, we have had a new demonstration of the incontrovertible fact, that the people can be finally trusted to make wise and right decisions in their own interests, both for the present and the future, and that democracy, our democracy, has shown again that it can endure even among the falling dynasties of the world.

The scars of the struggle with the forces of depression, of fear, and of adversity are unhealed. The storm is happily over, but the injured must be cared for, the debris must be cleared away, and the processes of restoration and reconstruction must be set in action. More than 50,000 families in New Jersey must be aided for some time to come, through public funds, as they struggle back to the places where they will again be able to shift for themselves. Those who are too young, too weak or too old, to march unassisted in the procession are now assured of more adequate care and protection than at any other time in our history.

It is the particular task of this Legislature to enact sound and essential legislation to provide adequate public service, effective control of the cost of government, equitable distribution of that cost over the people and wealth that share its benefits, and sound financial procedures in the handling and expenditure of the people's money. It is my responsibility, and that of the departmental officials who administer the activities of the government, to see to it that our work is done effectively, economically and in the interests of all. There is no more important work that we can do than that of serving faithfully and well in our several spheres. I plead for your understanding co-operation, as I pledge to you my own.

In this last Annual Message, as in my Inaugural and other Messages of the past two years, I urge an end of expediency and timidity and fear in dealing with our public

problems and in legislating for their sound solution. I urge again the substitution therefor of directness, of decision, and of courage as the situation clearly requires.

Finally, I appeal to all responsible citizens in the State to accept as their problem the providing of good government in the community and in the State. I ask them to study the vitally important matters which directly affect them and the actions proposed and taken thereon. I ask that they be satisfied with nothing less than the whole truth about these matters and our actions, yours and mine, in dealing with them. I do not ask that they spare their criticism of any of us. I do urge that they make sure that that criticism is fair and constructive. No public official can or should ask more. Our sense of justice and the public interest demand nothing less. The acute and pressing problems of government in recent years and the wide discussion of them by radio, in conference, in legislative bodies, and in the public press, have brought public interest in public questions to an all-time high, not only in the State, but in the nation. There is a better appreciation today than ever before of the fact that the people are the government, that they have it in their power to change its form and direction, its policies, and its personnel.

I believe in the people and their capacity for sound judgment. I welcome this greater interest. I shall continue to urge, in office and out, that the only lasting guarantee of good public administration is an active and intelligent citizen-interest in the common affairs of government. It will continue to be my purpose to state frankly and without reservation my position on important public questions and my proposals for their proper solution. I shall continue to be guided by my convictions rather than by fear and expediency.

In the space of this Message, it is not possible to recognize and commend the great volume of highly creditable work and service that has been rendered during the year by departments and outstanding public officers and em-

ployees. I am impelled to say, however, that the spirit and devotion to duty that permeate the State administration generally are worthy of the highest commendation by the people. Few citizens realize the enormous volume of work and service required of, and rendered by, State agencies and departments, and seldom do they hear of the industry, the ability and the loyal service that hundreds of their civil servants bring to their daily tasks.

As we proceed with the people's business in this legislative session, I ask for sound and essential legislative action; I plead for citizen-support as the facts and conditions warrant; and I urge their partnership in the affairs of their government.

Respectfully submitted,

HAROLD G. HOFFMAN,
Governor.

ATTEST:

ELIZABETH J. MCLAUGHLIN,
Secretary to the Governor.

NEW JERSEY STATE BOARD OF REGENTS
1060 Broad Street, Newark, New Jersey

January 25, 1937.

Mr. Edward J. Kelleher,
Clerk of the Assembly, State of New Jersey,
State House, Trenton, New Jersey:

DEAR SIR—May we hereby transmit the Eighth Annual Report of the New Jersey State Board of Regents to the Legislature of the State of New Jersey. Copies of the report have been distributed on each respective member's desk.

Very truly yours,

NEW JERSEY STATE BOARD OF REGENTS,
(Signed) CHARLES H. JUNG,
Secretary.

Mr. DeVoe moved that the communication and annual report of New Jersey Board of Regents be received and spread in full upon the Minutes.

Which motion was adopted.

Eighth Annual Report of the New Jersey State Board of Regents to the Legislature of the State of New Jersey:

The New Jersey State Board of Regents submits herewith its eighth annual report pursuant to Section 4 of Chapter 76, Laws of 1929.

PERSONAL AND ORGANIZATION OF BOARD

The members of the Board duly appointed by His Excellency, the Governor, are:

Henry W. Jeffers, Plainsboro, President 1943
Charles A. Heiss, East Orange, Vice-President 1937
George O. Smalley, Bound Brook 1938
Edwin L. Seabrook, Camden 1939
Mrs. L. Ethel Heine, Chatham 1940
J. Logan Clevenger, Perth Amboy 1941
Peter A. Smith, South Orange 1942
Charles H. Elliott, Commissioner of Education, ex-officio.
Educational Adviser to the Board, Dr. Albert B. Meredith, Cranford.
Secretary, Charles H. Jung, South Orange.
Office of Board, 1060 Broad Street, Newark, New Jersey.

Seven Regents are appointed by the Governor for a term of seven years and serve without compensation. The Commissioner of Education is a member ex-officio. Terms of the appointed members expire in June of the years listed above.

EDUCATIONAL POLICIES

Higher Education Reorganization

The organization and support of public education in New Jersey, as in many other States, is the result of piecemeal legislation, and not the outcome of a logically developed plan. Consequently it is extremely difficult to summarize in a brief compass our educational situation. What follows, therefore, is but a condensed statement of the case.

Your Board received a mandate from the Legislature eight years ago to study the State's educational needs, particularly as they related to public higher education. The facts and conditions described in previous reports of the Board of Regents have clearly indicated that there should be a reorganization of the State's entire tax-supported educational structure, as well as a revision of its

methods of policy determination and of fiscal control. The result sought was a better allocation of educational functions and responsibilities among the different types of tax-supported institutions.

The solution proposed by the Regents was a State system of two major divisions, the "Common School System" and the "University System," each responsible through their respective governing boards to the Legislature, and thus to the people of the State. It was proposed that the State System be unified in policy determination through a "Committee on Educational Coordination" composed of representatives of the two major divisions of the system. This committee would have the power of recommendation only.

The plan outlined by the Regents provided that the elementary, secondary and vocational schools, and various aspects of adult education would constitute the Common School System, and be under the administrative direction of the Commissioner of Education and of the State Board of Education.

A second provision of the plan created a University System, under the title of the "University of New Jersey," to be under the general administration of a Board of Regents. Its constituent institutions would be administered either directly by the Regents, or indirectly through some form of agency contract with the trustees of non-profit sharing institutions. The University of New Jersey eventually would consist of professional schools, colleges, junior colleges, technical institutes and other post secondary institutions that are, or would be receiving support from the State. At first, the University would include Colleges of Agriculture, Ceramics, Education, Engineering, Journalism, Arts College for Women, etc., as well as agencies for research and for extension education. Future economic social and cultural demands will suggest new types of constitutent institutions.

At present, certain tax-supported professional schools, the normal schools and teachers colleges, are legally constituted and administered as though they were functionally related to the Common School System rather than to a University System of specialized Schools, to which they logically belong. Manifestly these institutions would ultimately become identified with the University of New Jersey.

Furthermore, there are other forms of higher education activities such as agriculture, engineering (in part),

ceramics, journalism, and liberal arts education for women, most of which, although directly State-created, are nevertheless being managed by a non-tax-supported corporation, "The Trustees of Rutgers College in New Jersey." It is from this corporation that the Regents now purchase, on contract, public higher educational services. At the same time, the State has in its own right, capital interests on the Rutgers campus to the amount of $2,250,000. An anomalous situation is thus created.

It is the State-created units at New Brunswick that the Regents eventually seek to transfer, under appropriate law, to membership in the proposed University of New Jersey. Together they would constitute the nucleus of a true State University and its governing body, a Board of Regents, would be the recipient of the State appropriations, and supervise directly their expenditures. Moreover, the details of the appropriation would be subject, within broad limits of State policy, to the examination of the Legislature, in a manner not now consistent with the purchase of a service.

By such examination many matters now confusing to the public mind would be cleared up and a stable program and popularly understood State policy of higher education established. If agreeable to the Trustees of Rutgers College, a contract could be effected whereby such State-created units, as are now a part of the Rutgers University organization, would be managed for the University of New Jersey by the Rutgers Trustees in accordance with the Regents' approved budget. This would mean a complete separation of the State budget from that of the non-tax-supported corporation, Rutgers College in New Jersey.

Reciprocal services would be paid for on the basis of student hours of work, sold and bought. Under this plan the integrity of the educational interests at Rutgers would be conserved, while at the same time there would be a State determination and control of policies and of finances, including current expenditures as well as capital outlay, as these related to State units.

The University of New Jersey plan also contemplates the ultimate inclusion of the State Agricultural Experiment Station among its activities.

Appropriation Procedure

It has been frequently stated that the State Board of Regents does not, at present, directly administer public higher education. This statement is true. It manages its

own office, but purchases on contract, services of public higher education—in a broad sense it buys a commodity. On this point, from time to time, evidences of public misunderstanding appear, especially with regard to a lack of published details in the appropriation request of the Regents. Concerning the items of expense for the Regents' office, the customary classification used by all State institutions is followed, and each item of expenditure and of requested appropriation is scrutinized very properly by the budget officer and by the Legislature.

For services of public higher education, however, a lump sum appropriation is requested, as required by law. This fact of a purposed purchase on contract opens up an entirely different set of considerations. As to the adequacy and the specific application of the appropriation, the Legislature must rely, and rightly so, upon its own creation, the Board of Regents. To cite only one instance of confusion: Matters relating to professional salaries in those non-tax-supported institutions furnishing educational service, in their relation to the salaries of State officials or to the salaries of teachers in the State-controlled schools, are not of immediate and direct budgetary concern to the Legislature or to the Regents. Your Board believes, however, that adequate salary provisions create conditions more conducive to better educational results. Salaries would automatically all fall into line with the State educational policy, if certain parts of the institutions furnishing higher education were treated as fully State institutions. The Board of Regents would administer such a policy.

An extreme but logical position could be taken in its purchase of a service or of any commodity if the State were to say that, in the absence of law governing such matters, it had no legal responsibility to inquire into the compensation of the persons rendering the services, or the conditions under which they work. It would be regarded as sufficient for the State to be assured by a responsible body, that the quality of service or of goods was satisfactory and within the capacity of the State to pay.

As it is, the Board of Regents has to satisfy itself that, in general, the items which go to make up the total of its request, are in conformity with accepted prevailing practices of comparable institutions. For this purpose it has complete budgetary and educational information. The Regents also must be in a position to assure the Legislature concerning the quality of the educational products and that

defensible standards are maintained; in short, that the State is getting value received for the funds expended. This your Board does now. This it would also do under a plan of direct State control.

It should be kept in mind that although the State's support of higher education must be considered technically and legally as the purchase of a service, the quality of that service has to be measured by an entirely different scale of values than those applicable to the merely economic and commercial interests of the State. These latter have their places, and have been notably realized in the past. The relationship of the different phases of higher education to the well-being of the State culturally as well as in its material aspects, is so intimate that it is the belief of the Regents that the State should assume a more direct responsibility for the development of a broad program of tax-supported higher education and in such a form that the people of New Jersey will realize more fully that such a program is theirs to foster and to support.

At present, as has often been said, the State provides most of its higher educational opportunities through a non-tax-supported corporation. The State's control of educational policy is indirect and hence the State cannot be as flexible in its adjustment, on the University level, to popular educational demands, as would be the case with a true State University.

The fact that it furnishes, to the State, on contract, the greater part of the services of public higher education, has created a widespread misconception that Rutgers University is a State institution. This is an error. Rutgers University renders a public service, but it is under private control.

Furthermore, it is believed that the future development of Rutgers by means of private benefactions is likely to be greatly hampered by the prevailing false opinion. The one hundred and seventy years of cultural influence, and of devoted service to the civic and economic interests of the State must be conserved. A discontinuance of the confused situation with respect to public funds will promote this end.

On the other hand, as viewed by the State, the erroneous impression that the Legislature still makes appropriations to Rutgers, is doubtless a deterrent influence to the State's embarking on a long term and comprehensive policy of public higher education.

Your Board desires to emphasize the fact that it is here discussing a principle of public educational policy and not criticizing any institution that is now providing for the State higher educational service.

Legislation

The Board of Regents stated in the closing paragraph of the section on "Educational Policies" in its Seventh Annual Report (March 16, 1936, p. 23), that:

> "Thus far no legislation has been sought other than for the purchase of public higher education, but your Board has felt that the time is rapidly approaching when definite legislative action should be taken to give effect to its proposals."

Accordingly, the Board has prepared, and presents herewith, specific recommendations for the consideration of the Legislature.

These recommendations aim to simplify the present situation and eventually to provide a more compact organization of those higher educational activities which are supported by the State. These recommendations must not, by implication or otherwise, be taken as criticizing the Boards referred to. The Regents are concerned only with principles and policies. The proposals also make possible ultimate State control—educational and fiscal—of those institutions through which the State's policy in the field of education beyond the secondary school is to be made effective.

In brief, the Regents' proposals for action are the following:

(A) Transfer to the Regents the powers and duties of the State Board of Managers of the State Experiment Station.

At present the State Agricultural Experiment Station, while intimately associated with the State Agricultural College at New Brunswick, is under the general control of a Board of Managers. It follows that this board has its own budget and seeks its own appropriation. The budget is not subject to the approval of the Board of Regents.

In operation, however, many of the staff of the State Experiment Station are also included in the budget of a second experiment station, namely, the College Experiment Station. This latter station is managed by the Trustees of Rutgers, and its budget is subject to the approval of the

Regents. The legislation proposed would legally merge the two stations and set up one budget for all the State educational activities at New Brunswick. The steps are:

1. Transfer the power of the Board of Managers to the Regents.
2. Authorize the Regents to negotiate an agency contract with the Trustees of Rutgers, to manage on behalf of the Regents the State Experiment Station.

(B) Transfer to the Regents the powers and duties of the State Board of Visitors of the College of Agriculture and Mechanic Arts.

Under the law this Board of Visitors exercises general supervision and control over the State Agricultural College, except that of its budget. The Board of Regents controls, indirectly through the budget, in its contractual purchase of public higher education, the budget of the Agricultural College and its affiliates.

The effect of the proposed legislation would be to place the Board of Regents in direct, rather than indirect, relation to the State's policy regarding the education to be given in the State-created units of higher education, now a part of Rutgers University.

With the enactment of the above proposals into law a long step would be taken toward the simplification of a relation that has been confusing to the public mind for many years. At the same time there would result a concentration of authority in one State board.

With respect to what follows, the Regents are proposing for consideration by the Legislature the creation of the University of New Jersey.

Your Board gives a summary of its previous discussions of this subject and indicates the general plan it has been developing for the unification of all forms of public higher education, under one board, a Board of Regents of a State University, and providing for a single budget that shall also include such Federal funds as are allocated for higher education.

Future legislative proposals look to:

(a) The chartering, by the Legislature, of a new institution to be known as the "University of New Jersey."

This would bring together under one management the State-created units at New Brunswick and such other State-supported higher educational institutions as the Legislature might from time to time add to the University.

The Trustees of the University would be a State Board of Regents.

(b) Designate the University of New Jersey as the Land Grant College, or College of Agriculture and Mechanic Arts, with such legal adjustments with the Trustees of Rutgers College in New Jersey regarding property, etc., as may be necessary.

(c) The conservation of the educational unity that has been built up at Rutgers over the years.

It is proposed that this be done by means of an agency contract, whereby certain educational services continue to be conducted for the State on the Rutgers campus, and whereby the services of the State Agricultural College and other State-created units are made available to the students of the non-tax-supported Rutgers College.

(d) Eventually bringing together under one control, that of the University of New Jersey, the higher educational activities, namely, the normal schools and teachers colleges, now administered by the State Board of Education and the Commissioner of Education.

Within the broad outlines of the proposals cited above, there would result a clarification of a situation in higher education that has confused the public for years, and retarded the development of a system of schools beyond the high school grades.

The proposed University of New Jersey would provide the basis of a unified and State-supported and State-controlled system of higher education which would be both economical and efficient.

FINANCIAL POLICIES

Appropriation to the Board and Disposition Thereof

For the fiscal year July 1, 1935, to June 30, 1936, the Board received from your honorable body an appropriation of $14,595.00 (Chapter 239, P. ADDENDA

Contracts and Letters of Transmittal

LETTER OF TRANSMITTAL

July 17, 1936.

Dr. Robert C. Clothier, President,
The Trustees of Rutgers College in New Jersey,
New Brunswick, N. J.

Dear Dr. Clothier:

I enclose herewith for your files a copy of the contract (duly signed and executed by the proper officers of both boards), between the New Jersey State Board of Regents and The Trustees of Rutgers College in New Jersey for services of public higher education to be rendered for the fiscal year July 1, 1936, to July 1, 1937, as authorized by Chapter 76, P. L. 1929

The policy and procedure of the Board of Regents will be substantially the same as set forth in its letter of transmittal of the contract for 1935-1936. The Board of Regents will examine the total expenditures of the University, particularly at the end of the year, to determine whether any expenditures have been made from any general unassigned or contingent amount and from any excess from budgetary items appearing in the budgets approved by the Regents, as well as from surplus income, i. e., income in excess of that estimated in approved budgets, without prior consultation with and approval by the Regents, and whether any balances exist in relation to the expenditures for general educational services as set forth in said budgets or as authorized by special

action of the Regents. Such balances as may appear will be subject to deduction in determining the amount to be paid under a subsequent contract.

This procedure is based upon the expectation that the Trustees will utilize the funds provided under this contract as an addition to its total income from fees and from other general sources, this aggregate of University and State moneys constituting the entire amount necessary to meet the expenditures for the operation of the approved general educational program.

Furthermore the Board of Regents will be pleased to inform the Board of Trustees from time to time of any changes the Regents may deem desirable in relation to the amounts and quality of the services utilized.

The amount of $843,320.00 set forth in Section 1 of the enclosed contract, has been arrived at by deducting from the total appropriation the sum of $5,800 00, representing the interest on the Land Grant Fund due The Trustees of Rutgers College in New Jersey for 1936-1937, pursuant to Chapter 369, P. L. 1864 and amendments thereto This amount of $5,800 will be paid to the Trustees in addition to the amount of the contract for 1936-1937 and is to be spent by the Trustees in accordance with the provisions of law.

Very sincerely yours,

NEW JERSEY STATE BOARD OF REGENTS,
CHARLES H. JUNG, *Secretary.*

CONTRACT—THE TRUSTEES OF RUTGERS COLLEGE IN NEW JERSEY

THIS AGREEMENT, made this 16th day of July, 1936, between THE NEW JERSEY STATE BOARD OF REGENTS, hereinafter called the Regents, and THE TRUSTEES OF RUTGERS COLLEGE IN NEW JERSEY, hereinafter called the Trustees, WITNESSETH THAT

WHEREAS, in accordance with the provisions of Chapter 76, Laws of New Jersey, 1929, the Regents are charged with certain duties with respect to public higher education in this State, and

WHEREAS, the Regents have selected Rutgers University, administered by the Board of Trustees of Rutgers College in New Jersey, for rendering services of public higher education to the State of New Jersey for the fiscal year July 1, 1936, to July 1, 1937, and

WHEREAS, the Legislature of 1936 by act approved June 24, 1936 (Chapter 220, Laws of New Jersey, 1936), made appropriation to the State Board of Regents for public higher education.

NOW, THEREFORE, the Regents and the Trustees mutually covenant and agree as follows:

1. In consideration of the payment of $843,320.00 by the Regents to the Trustees, at the times and in the manner hereinafter provided, the Trustees agree that in certain major divisions of resident instruction, the tuition fee charged to bona fide residents of New Jersey admitted subsequent to July 1, 1930, shall be $100 less than is charged non-residents in accordance with the following schedule:

Colleges of Arts and Sciences and Engineering, School of Chemistry, School of Education and Department of Ceramics.	
Tuition for residents of New Jersey, per year	$200
Tuition for nonresidents of New Jersey, per year	300
College of Agriculture:	
Tuition for residents of New Jersey, per year	$80
Tuition for nonresidents of New Jersey, per year	180
New Jersey College for Women:	
Tuition for residents of New Jersey, per year	$125
Tuition for nonresidents of New Jersey, per year	225

In other divisions of instruction such as University extension work and special courses, the fees charged to bona-fide residents of New Jersey shall be the same as those set forth in the University's published bulletins or any supplements thereto; provided, however, that in no event shall the scale of tuition or any other fees now in effect, be changed or modified, neither shall any new or additional fees be levied in the University or any of its departments during the period covered by this contract, without first obtaining the approval of the Regents.

2. When and as approved by the Regents, the schedules of fees for the fiscal year 1936-1937, submitted to the Regents by the Comptroller of Rutgers University on February 8, 1936, showing in complete detail all the fees of the University including the tuition fees above set forth, shall be the schedule of the official fees of the University for the fiscal year July 1, 1936, to July 1, 1937, and such fees shall be subject to all the provisions of Section 1 of this agreement.

The Trustees shall submit to the Regents, prior to the publishing of the annual catalogues, bulletins and other official announcements of the University for 1937-1938, a schedule showing in complete detail all fees to be charged at the University for any and all of its activities and instruction covered by contract for said fiscal year.

3. The entire institution conducted by the Trustees, known as Rutgers University, shall be composed of the following co-ordinate and constituent colleges: College of Arts and Sciences, College of Engineering, School of Chemistry, College of Agriculture, School of Education, New Jersey College for Women, together with the Department of Ceramics, University College, the University Extension Division, the Department of Military Science and Tactics, and such other divisions and services as are now or hereafter may be established by the Trustees with the approval of the Regents; and the Trustees will continue to conduct and operate the same in accordance with the provisions of law.

4. The organization, the resident and extension instruction provided, the curricula offered, and the research pursued shall be substantially as published in the current issues of the various catalogues and other official publications of the University and of a character which meets the approval of the Regents and to the extent that any new course or courses be offered, said course or courses shall be subject to the examination and approval of the Regents.

5. The total amount of $843,320.00 set forth in Section 1 hereof shall be apportioned by the Trustees as follows:

Rutgers University (State Agricultural College)	$536,800.00
College for Women	306,520.00

and the amounts so apportioned shall be expended in accordance with the budgets of the University, for all its colleges and divisions as approved by the Regents for the fiscal year 1936-1937.

6. The Trustees shall submit to the Regents prior to September 15, 1936, in the form required by the Regents, budgets of all colleges and divisions of the University for the year July 1, 1937, to July 1, 1938, containing estimated income from all sources and proposed expenditures. Said budgets shall include schedules exhibiting full details by colleges, administrative divisions, and departments of instruction.

7. All records and books of the Board of Trustees and its committees shall be open at all times to the examination and inspection of the Board of Regents or its duly appointed representatives, and the system of accounts and financial records shall be such as meets the approval of the Board of Regents and shall be kept in such form as will enable it to secure from time to time such information as it may require.

8. A full financial report of conditions and operation of all divisions of the University by a Certified Public Accountant of New Jersey, approved by the Regents and to be paid by the Trustees, shall be submitted as soon as possible after the close of the fiscal year ending June 30, 1937, and 25 copies thereof shall be filed with the said Regents; and the Trustees shall from time to time, as requested, furnish the Regents, in the form required, with financial and other

reports of the affairs of the University and the manner of application of the funds which the Regents have advanced.

9. On or before the fifteenth day of each month the President of the University shall transmit to the Regents, in the required form, a statement of funds requested from said Regents for the operation of the University for the succeeding month from the appropriations made by the Legislature and under the budgets adopted by the Trustees and approved by the Regents; and if such monthly requisitions of funds are found by the Regents not to exceed one-twelfth of the total amount of $843,320.00 set forth in Section 1 of this agreement, and not inconsistent with the terms of this agreement and with said appropriations and budgets, the Regents will pay to the Comptroller of The Trustees of Rutgers College in New Jersey, on the first day of the following month, the amounts thus requisitioned from and approved by them.

10. It is the intent of this Agreement that nothing herein contained shall be construed to operate to the disadvantage of any employee of the University in relation to the State Employees Retirement Fund, or in relation to the Civil Service requirements, and all deductions from salaries of any such employees for purposes of said fund, shall be made as heretofore.

11. This Agreement is made expressly subject to all the provisions of Chapter 76, Laws of New Jersey, 1929.

12. This Agreement shall be effective as of July 1, 1936, and shall continue in operation until July 1, 1937, and nothing contained herein shall be deemed to bind the Regents to the execution of any subsequent contract.

IN WITNESS WHEREOF, THE NEW JERSEY STATE BOARD OF REGENTS has caused this Agreement to be signed by its President and its official seal to be hereto set and duly attested by its Secretary, pursuant to its resolution, and THE TRUSTEES OF RUTGERS COLLEGE IN NEW JERSEY has caused this Agreement to be signed by its President and its official seal to be hereto set and duly attested by its Assistant Secretary, pursuant to the resolution of its Board of Trustees, in duplicate, this 16th day of July, 1936.

THE NEW JERSEY STATE BOARD OF REGENTS,

LETTER OF TRANSMITTAL

July 21, 1936.

Mr. Allan R. Cullimore, Secretary,
Board of Trustees of Schools for Industrial Education
of Newark, New Jersey,
367 High Street,
Newark, New Jersey

Dear Mr. Cullimore:

I enclose herewith for your files a copy of the contract (duly signed and executed by the proper officers of both Boards) between the New Jersey State Board of Regents and the Board of Trustees of Schools for Industrial Education of Newark, New Jersey, for services of public higher education to be rendered for the fiscal year July 1, 1936, to July 1, 1937, as authorized by Chapter 76, P. L. 1929.

Instead of making certain items details of the contract, the Board of Regents prefers to indicate its position and its procedure in less formal terms Accordingly the Board of Regents will examine the total expenditures of the Newark Technical School and the Newark College of Engineering, particularly at the end of the year, to determine whether any expenditures have been made from any general unassigned or contingent amount and from any excess from budgetary items appearing in the budget approved by the Regents, as well as from surplus income, i e., income in excess of that estimated in said approved budget, without prior consultation with and approval by the Regents and whether any balances exist in relation to the expenditures for general educational services as set forth in the said budgets or as authorized by special action of the Regents Such balances as may appear will be subject to deduction in determining the amount to be paid under a subsequent contract.

This procedure is based upon the expectation that the Board of Trustees will utilize the funds provided under this contract as an addition to its total income from fees, from municipal appropriations, and from other general sources, this aggregate of Institution, Municipal and State moneys constituting the entire amount necessary to meet the expenditures for the operation of the approved general educational program

Furthermore, the Board of Regents will be pleased to inform the Board of Trustees from time to time of any changes the Regents may deem desirable in relation to the amounts and quality of the services utilized.

Very sincerely yours,

NEW JERSEY STATE BOARD OF REGENTS,
CHARLES H. JUNG, *Secretary.*

CONTRACT—BOARD OF TRUSTEES OF SCHOOLS FOR INDUSTRIAL EDUCATION OF NEWARK, NEW JERSEY

THIS AGREEMENT, made this 21st day of July, 1936, between THE NEW JERSEY STATE BOARD OF REGENTS, hereinafter called the Regents, and THE BOARD OF TRUSTEES OF SCHOOLS FOR INDUSTRIAL EDUCATION OF NEWARK, NEW JERSEY (administering the Newark College of Engineering and the Newark Technical School), hereinafter called the Trustees, WITNESSETH THAT

WHEREAS, in accordance with the provisions of Chapter 76, Laws of New Jersey, 1929, the Regents are charged with certain duties with respect to public higher education in this State, and

WHEREAS, the Regents have selected the Newark College of Engineering and the Newark Technical School, administered by The Board of Trustees of Schools for Industrial Education of Newark, New Jersey, for rendering services of public higher education to the State of New Jersey for the fiscal year July 1, 1936, to July 1, 1937; and

WHEREAS, the Legislature of 1936 by act approved June 24, 1936 (Chapter 220, Laws of New Jersey, 1936), made appropriation to the State Board of Regents for public higher education.

NOW, THEREFORE, the Regents and the Trustees mutually covenant and agree as follows:

1. In consideration of the payment of $38,940 by the Regents to the Trustees, at the times and in the manner hereinafter provided, the Trustees agree that the tuition fee charged to bona fide residents of New Jersey admitted subsequent to July 1, 1930, shall be fifty per cent less than is charged nonresidents, and the Trustees further agree that in no event shall the scale of tuition or any other fees now in effect, be changed or modified during the period covered by this contract without first obtaining the approval of the Regents.

2. When and as approved by the Regents, the schedules of fees for the fiscal year 1936-1937, submitted to the Regents by Mr. Metzenheim, Assistant to the President of the Newark College of Engineering and Director of the Newark Technical School, on February 11, 1936, showing in complete detail all the fees of these institutions, shall be the schedule of the official fees of said institutions for the fiscal year July 1, 1936, to July 1, 1937, and such fees shall be subject to all the provisions of Section 1 of this agreement.

The Trustees shall submit to the Regents, prior to the publishing of the annual catalogues and bulletins for 1937-1938 a schedule showing in complete detail all the fees to be charged at these institutions for any and all of their activities and instruction for said fiscal year.

3. The entire institution conducted by the Trustees shall be composed of the Newark College of Engineering, the Newark Technical School, and such other divisions and services as are now or hereafter may be established by the Trustees with the approval of the Regents, and the Trustees will continue to conduct and operate the same in accordance with the provisions of law

4. The organization and staff maintained, the resident instruction provided, and the curricula offered shall be substantially as published in the current issues of the various catalogues and other official publications of the Newark College of Engineering and the Newark Technical School, and of a character which meets the approval of the Regents, and to the extent that any new course or courses be offered, said course or courses shall be subject to the examination and approval of the Regents.

5. The total amount of $38,940 set forth in Section 1 hereof shall be expended in accordance with the budgets of the institutions as approved by the Regents for the fiscal year 1936-1937.

6. The Trustees shall submit to the Regents prior to September 15, 1936, in the form required by the Regents, budgets of the Newark College of Engineering and the Newark Technical School for the year July 1, 1937, to July 1, 1938, containing estimated income from all sources and proposed expenditures

7. All records and books of the Board of Trustees and its committees shall be open at all times to the examination and inspection of the Board of Regents or its duly appointed representatives, and the system of accounts and financial records shall be such as meets the approval of the Board of Regents and shall be kept in such form as will enable it to secure from time to time such information as it may require.

8. A full financial report of conditions and operation of the Newark College of Engineering and the Newark Technical School by a Certified Public Accountant of New Jersey, approved by the Regents and to be paid by the Trustees, shall be submitted as soon as possible after the close of the fiscal year ending June 30, 1937, and 15 copies thereof shall be filed with the said Regents;

and the Trustees shall from time to time, as requested, furnish the Regents, in the form required, with financial and other reports of the affairs of the institutions and the manner of application of the funds which the Regents have advanced

9 On or before the fifteenth day of each month the President of the Newark College of Engineering, and Director of the Newark Technical School shall transmit to the Regents, in the required form, a statement of funds requested from said Regents for the operation of these institutions for the succeeding month from the appropriations made by the Legislature and under the budgets adopted by the Trustees and approved by the Regents, and if such monthly requisitions of funds are found by the Regents not to exceed one-twelfth of the total amount of $38,940 set forth in Section 1 of this agreement, and not inconsistent with the terms of this agreement and with said appropriations and budgets, the Regents will pay to the Treasurer of the Board of Trustees of Schools for Industrial Education of Newark, New Jersey, on the first day of the following month, the amounts thus requisitioned from and approved by them.

10 This Agreement is made expressly subject to all the provisions of Chapter 76, Laws of New Jersey, 1929.

11 This Agreement shall be effective as of July 1, 1936, and shall continue in operation until July 1, 1937, and nothing contained herein shall be deemed to bind the Regents to the execution of any subsequent contract

IN WITNESS WHEREOF, THE NEW JERSEY STATE BOARD OF REGENTS has caused this Agreement to be signed by its President and its official seal to be hereto set and duly attested by its Secretary, pursuant to its resolution, and THE BOARD OF TRUSTEES OF SCHOOLS FOR INDUSTRIAL EDUCATION OF NEWARK, NEW JERSEY, has caused this Agreement to be signed by its President and its official seal to be hereto set and duly attested by its Assistant Secretary, pursuant to the resolution of its Board of Trustees, in duplicate, this 21st day of July, 1936

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature: January 25, 1937.

Enclosed is a copy of a letter which I have received from the Honorable Frank F. Merriam, Governor of California, wherein he extends an invitation to the people of New Jersey to participate in the Golden Gate International Exposition, to be held in the City of San Francisco in 1939.

I am referring this invitation to the Legislature for such action as it deems appropriate.

Respectfully submitted,

HAROLD G. HOFFMAN,
Governor.

Attest:

ELIZABETH J. MCLAUGHLIN,
Secretary to the Governor.

STATE OF CALIFORNIA,
GOVERNOR'S OFFICE,

Sacramento, December 22, 1936.

Hon. Harold G. Hoffman,
Governor,
Trenton, New Jersey.

DEAR GOVERNOR HOFFMAN:

I have the honor of extending to you and to the citizens of your State a cordial and sincere invitation to participate in the Golden Gate International Exposition to be held in the City of San Francisco in 1939.

The international status of this Exposition has been recognized and confirmed by the act of the President of the United States in sending, in conformity with the provisions of a Joint Resolution of the Congress, invitations to the countries of the world to participate therein.

Through appropriate acts of the State Legislature and the municipal government of the city and county of San Francisco a site adequate in extent, in a wonderful scenic setting in San Francisco Bay, has been provided for the Exposition Company, which is a non-profit corporation organized for the specific purpose of constructing and operating this international exposition.

The major theme of the Exposition, educational in nature, will be the modern developments in transportation and communication, as symbolized by the two great bridges over San Francisco Bay; by the trans-oceanic air services and aviation generally, and by the progress in radio, television, telegraph, telephone and associated science of communication, and by motor, rail and marine transportation.

We offer you and your people an opportunity to share your culture and accomplishments with those from other states and nations. Your personal co-operation will stimulate interest and encourage others to favorable action.

We welcome you most cordially and extend to you the courtesies of California.

With kind personal regards, I am,

Very sincerely yours,

FRANK F. MERRIAM,
Governor of California.

Mr. DeVoe moved that the communication be acknowledged and spread in full upon the Minutes.

Which motion was adopted.

Mr. Walker offered the following resolution, which was read by the clerk:

WHEREAS, When the Legislature of the State of New Jersey adopted the Old Age Pension, it was commonly understood that the beneficiaries of the act would receive permanent subsistence of $1.00 per day; and

WHEREAS, It has been determined to be an actuality that the recipients of the act have been receiving not more than $10.00 per month; now, therefore,

Be It Resolved, By the unanimous vote of the First Ward Republican Club of Wildwood, in regular session assembled on Wednesday, the 13th day of January, 1937, that the New Jersey State Legislature be petitioned to amend the present law so as to provide for a compulsory payment to the beneficiaries of the Old Age Pension of $1.00 per diem, and that a copy of this resolution be transmitted to the Senator and Assemblyman of Cape May County, and the Speaker of the Assembly and the President of the New Jersey State Senate.

FIRST WARD REPUBLICAN CLUB,
WALTER S. KOONS,
President.

Assembly Resolution No. 4, entitled "Assembly resolution appointing an Assembly committee of five members of the General Assembly to be appointed by the Speaker thereof, to make a survey of all questions of public interest; to investigate violations of law and the conduct of any State, county or municipal official; State, county or municipal department; State, county or municipal commission; State, county or municipal board; or State, county or municipal body; to report whether the functions of such officials, departments, commissions, boards and bodies have

been or are being lawfully and properly discharged, for the purpose of obtaining information relative thereto, as a basis for such legislative action as the General Assembly may deem necessary and proper; to ascertain what departments or activities of the State, county or municipal governments may be curtailed, consolidated or eliminated, and to report its findings as a basis for such legislative action as the General Assembly may deem necessary and proper; to make a general survey of the finances of the State, counties and municipalities, and to report its findings as a basis for such legislative action as the General Assembly may deem necessary and proper; and making appropriation for the expenses connected therewith."

BE IT RESOLVED *by the General Assembly of the State of New Jersey:*

1. An Assembly committee of five members of the General Assembly shall be appointed by the Speaker thereof to make a survey of all questions of public interest, to investigate violations of law and the conduct of any State, county or municipal official, State, county or municipal department, State, county or municipal commission, State, county or municipal board, or State, county or municipal body; to report whether the functions of such officials, departments, commissions, boards and bodies, have been or are being lawfully and properly discharged, for the purpose of obtaining information relative thereto, as a basis for such legislative action as the General Assembly may deem necessary and proper; to ascertain what departments or activities of the State, county or municipal governments may be curtailed, consolidated or eliminated, and to report its findings as a basis for such legislative action as the General Assembly may deem necessary and proper; to make a general survey of the finances of the State, counties and municipalities, and to report its findings as a basis for such legislative action as the General Assembly may deem necessary and proper.

2. The members of said committee shall serve without salary and shall be entitled to receive reimbursement for necessary expenses. The Speaker of the House of Assembly shall designate the chairman of said committee.

3. The committee shall appoint a secretary and it shall have power to employ necessary legal, clerical and other assistance.

4. Said committee shall sit at such times and places as the majority of the committee shall decide and shall have power to make its own rules and to determine its own procedure. At any meeting, if a quorum shall not be present, the members of the committee present, though less than a quorum, shall have power to adjourn and notice of the meeting on the adjourned day shall be given by the secretary of the committee to all the members, by mail. The said committee shall have power to compel the attendance of witnesses and the production of books, papers and records, by subpœna, to administer oath and to examine the witnesses.

5. Said committee shall report the result of its survey and investigation, together with such recommendations as may seem to be advisable, as a basis for such legislative action as the General Assembly may deem necessary or proper, to the present or subsequent session of the General Assembly.

6. All necessary expenses incurred in the investigation and survey authorized by this resolution shall be submitted to the Legislature in session at the time of the filing of the report and recommendation of the committee appointed hereunder, at which time the Legislature shall take such steps as they deem necessary and proper for the payment of said expenses.

7. This resolution shall take effect immediately.

OFFICE OF THE CITY CLERK
ELIZABETH, N. J.

March 6, 1937.

Hon. Thomas G. Walker,
Speaker of the House of Assembly,
Trenton, New Jersey:

HON. DEAR SIR—Inclosed herewith is a copy of a resolution adopted at a meeting of the City Council held March 5, 1937.

Yours truly,
(Signed) P. F. KEELAN,
City Clerk.

RESOLUTION

By Councilman Rauh.

WHEREAS, There has been introduced in the New Jersey Legislature, a bill by Assemblyman Roberto, known as Assembly Bill No. 283, which provides for the Board of Chosen Freeholders of any County in this State to adopt legislation for the inspection of electric wires and apparatus and also for the licensing of Master and Journeymen electricians; and

WHEREAS, Said Assembly Bill No. 283 if enacted into law would invalidate ordinances now in effect in any City or Municipality adopted by governing bodies or boards or commissions; and

WHEREAS, The City Council and Mayor and the Board of Public Works of the City of Elizabeth did adopt safety legislation for the protection to person and property through the medium of Electrical Inspection and Licensing; therefore,

Be It Resolved, That the City Council of the City of Elizabeth go on record as being opposed to said bill as being a direct violation of the principles of Home Rule and that copies of the same be directed to be forwarded to the Senator and Assemblymen from Union County.

I, Patrick F. Keelan, Clerk of the City of Elizabeth hereby certify that the foregoing resolution is a full, true and correct copy of a resolution adopted at a meeting of the City Council held March 5, 1937.

In witness whereof I have hereto set my hand and the seal of the City of Elizabeth this 6th day of March, A. D. 1937.

(Signed) PATRICK F. KEELAN,
City Clerk.

STATE OF NEW JERSEY

TRENTON, N. J., February 23, 1937.

Clerk of State Assembly,
State House, Trenton, N. J.

DEAR SIR—At the last regular meeting of the Executive Committee meeting of the Ramsey Republican Club it was the unanimous opinion of all present that we go on record opposing any change in our Supreme Court.

Very truly yours,

(Signed) R. V. ACKERMAN,
Secretary Ramsey Republican Club.

OFFICE OF THE CITY CLERK
EGG HARBOR CITY, NEW JERSEY

March 2, 1937.

To the Clerk of the House of General Assembly,
State House,
Trenton, N. J.

DEAR SIR—We are herewith enclosing a copy of a resolution passed by the Common Council of Egg Harbor City.

Yours very truly,

(Signed) WM. MORGENWECK, JR.,
City Clerk.

RESOLUTION

WHEREAS, It is required by the Works Progress Administration that all municipalities, as sponsors of projects, provide as their contribution a part of the funds necessary to carry on the work in connection with such projects; and

WHEREAS, Many municipalities, owing to financial conditions, are unable to furnish their contribution and are therefore deprived of participating in such projects, thereby causing suffering and hardships to its citizens through the loss of employment provided by projects of the Works Progress Administration; therefore

Be It Resolved by the Mayor and Common Council of the City of Egg Harbor City, Atlantic County. That the House of Assembly and Senate be and the same are hereby urged and petitioned to appropriate funds wherefrom municipalities in financial distress may be able to receive aid to meet their contribution to carry on their Works Progress Administration projects,

Be It Further Resolved, That the City Clerk be instructed to forward a copy of these resolutions to the above Houses and a copy to each of our representatives.

This is to certify that the above is a true and correct copy of a resolution adopted by Common Council of Egg Harbor City at a meeting duly convened the third day of February, 1937.

(Signed) WM. MORGENWECK, JR.,
City Clerk.

All as correctly printed.

Mr. DeVoe offered Assembly Resolution No. 6, without reference, which was read by the Clerk.

Assembly Resolution No. 6.

WHEREAS, It appears that the Local Budget Act, chapter two hundred eleven of the laws of one thousand nine hundred and thirty-six, would, if allowed to control the making of budgets for the current fiscal year, result in increases in tax rates in some municipalities from one hundred per centum (100%) to five hundred per centum (500%), and would result in tax rates of from ten dollars ($10.00) to twenty dollars ($20.00) on the hundred dollars ($100.00) of assessed valuations; and

WHEREAS, This situation has made it necessary to suspend the operation of certain provisions of the said Local

Budget Act in order that such municipalities may continue to function without being forced into bankruptcy; and

WHEREAS, The House of Assembly feels that it is without adequate information to enable it to determine what legislation should be enacted to remedy the conditions in these municipalities which are unable to comply with the Local Budget Act and has, therefore, with great reluctance, concurred in the Senate Committee Substitute for Senate Bill No. 22, and Senate Committee Substitute for Senate Bill No. 26, which purport to suspend certain provisions of the Local Budget Act for the current fiscal year; and

WHEREAS, The House of Assembly is unwilling to permit the return to the conditions which required the adoption of the Local Budget Act and feels that so far as possible, the safeguards requiring the proper administration of financial affairs of municipalities, particularly of the cash basis requirements, should be preserved, now, therefore,

Be It Resolved by the House of Assembly, That the State Auditor be and he hereby is ordered to prepare and submit to the Speaker of the said House, not later than the first day of September, one thousand nine hundred and thirty-seven, a summary report containing full information as to the effect of the Local Budget Act on all municipalities if it had been applied without modification during the current fiscal year.

Mr. DeVoe moved that, under suspension of the rules, Assembly Resolution No. 6 be advanced to second reading.

Which motion was adopted.

CENTRAL LABOR UNION
of Camden, Gloucester, Salem, Burlington
and Cumberland Counties, N. J.
Labor Temple, Camden, New Jersey,

March 13, 1937.

Clerk of the House of Assembly,
State House, Trenton, N. J.:

DEAR SIR—At the last regular meeting of the Central Labor Union of Camden, held on Thursday evening, March 11th, the following resolution was adopted:

Whereas, Disclosures by the LaFollette Committee of the United States Senate have bared the labor-hating Harold G. Hoffman in his true colors as an active fink; and

Whereas, By admittedly advocating the use of strike-breakers in the City of Camden he has conspired to violate the law of New Jersey which guarantees the right of peaceful picketing; now, therefore,

Be It Resolved, That the Central Labor Union of Camden and vicinity request the House of Assembly of the State of New Jersey immediately to undertake impeachment proceedings against said Harold G. Hoffman on the grounds that he has conspired to violate the laws of this State; and

Be It Further Resolved, That copies of this resolution be dispatched to the Clerk of the House of Assembly, the Secretary of the State Senate, the Governor and the press.

Very truly yours,

MEYER HAVETZ, *Secretary.*

NEW JERSEY CONFERENCE
AUTOMOBILE CLUBS
116 West State Street
Trenton, New Jersey

March 8, 1937.

A request for immediate action in reporting out one of the joint resolutions, Nos. 6 or 7, calling for a constitutional amendment to prohibit diversion of motor tax revenues to non-highway uses, was sent to members of the Senate's Judiciary Committee today by Mrs. Kathryn D. Sullivan, Secretary of the New Jersey Conference of A. A. A. Motor Clubs. This request carries the endorsement of officers of the eight A. A. A. Motor Clubs in the State, it was announced.

"I believe the processes of legislation should be started at once," Mrs. Sullivan said. "At best, the proposition must pass both Houses of two successive Legislatures to bring this important issue before the voters.

"The national organization of the American Automobile Association has taken the attitude that such legislation is

necessary in all States in which diversion has been practiced to finance non-highway functions of government. Several States have enacted the necessary laws already, and New Jersey voters should have an opportunity to express themselves.

"The A. A. A. clubs in New Jersey are anvious to push this measure particularly in view of the diversions of the past and the proposed diversion bill now before the Legislature, which, if allowed to pass would divert almost $8,000,000 this year and bring the total diversion of motor taxes in New Jersey to a figure of approximately $80,000,000."

HUDSON COUNTY SAFETY COUNCIL
One Newark Avenue
Jersey City, N. J.

March 11, 1937.

My dear Assemblyman:

On January 18, Assemblyman Bischoff introduced a bill which would prohibit the indiscriminate sale and use of fireworks in the State of New Jersey. Provision, however, is made for public displays of fireworks by municipalities, religious or civic organizations or other reputable or responsible bodies, under proper municipal supervision and control; also the use of pyrotechnics of any nature by railroads, the militia, in athletic sports, etc.

Mr. Bischoff had the technical advice, assistance and wholehearted co-operation generally of a special committee, consisting of representatives of chambers of commerce, safety councils, public officials, including fire department representatives, and others in the actual drawing and preparation of the measure.

Practically all of the representative organizations of the State, including those of an official and semi-official nature, have endorsed this bill. Public sentiment generally is back of it, as reflected by countless press editorials urging its passage.

No later than March 9 the State Board of Health released an article to the press renewing its recommendation for just such legislation and calling attention to the fact that despite the passage of ordinances by 107 municipalities in New Jersey prohibiting the sale and use of fireworks

within their borders, New Jersey's accidents from this cause "topped the list in 1935 and were increased by 10 per cent in 1936, when there were 927 fireworks accidents —90 more than in the previous year—two fatalities as against one in 1935." Dr. J. Lynn Mahaffey, State Health Director, re-emphasizes the plaint of those public officials who have attempted to protect their people by the passage of ordinances, that such ordinances are largely nullified because of the ease with which fireworks may be bootlegged into their cities and towns from other municipalities beyond their borders, thus demonstrating the need for State legislation.

The committee has been reliably informed that a majority of the members of the Legislature would unhesitatingly vote for the passage of this measure if given the opportunity. In order that the people of New Jersey may know this definitely, the enclosed questionnaire is being sent to you and to every other member of the House of Assembly. The letter and questionnaire are likewise given to the press of the State for immediate release. Your prompt response will be appreciated.

Sincerely yours,
GEORGE J. BAUMANN

385 Connecticut Ave.,
Trenton, N. J.,
March 17, 1937.

The Clerk, New Jersey House of Assembly, State House, Trenton, N. J.:

DEAR SIR—In accordance with the instructions of William Trent Lodge, local number 1264, of the Amalgamated Association of Iron, Steel and Tin Workers, I am herewith enclosing a copy of a resolution adopted at our meeting on Sunday, March 14, at Casteltermini Hall.

Very truly yours,
FRANCIS G. BOYER, JR.,
Acting Secretary.

WHEREAS, Testimony before the LaFollette civil liberties committee of the United States Senate has revealed that Harold G. Hoffman is an enemy of labor; and

WHEREAS, By helping to supply strike-breakers, he has conspired to violate the laws of New Jersey, which guarantee the right of peaceful picketing; and

WHEREAS, He has shown a disregard for the rights of all workers by threatening to use violence against sit-down strikers; therefore

Be It Resolved, That William Trent Lodge, local number 1264, of the Amalgamated Association of Iron, Steel and Tin Workers, request the House of Assembly of the State of New Jersey immediately to undertake impeachment proceedings against the said Harold G. Hoffman on the ground that he has conspired to violate the law of this State; and

Be It Further Resolved, That copies of this resolution be sent to the clerk of the House of Assembly, the secretary of the State Senate, and the Governor.

STATE OF NEW JERSEY

THE COMMISSIONER OF MOTOR VEHICLES

Trenton, N. J.,
March 12, 1937.

Honorable Thomas Glynn Walker, Speaker of the House of Assembly, State House, Trenton, New Jersey:

DEAR SIR—In accordance with the provisions of Section 4-1 of the Motor Vehicle Law, I am transmitting to the Legislature, herewith, the annual report of the Department of Motor Vehicles for the year ending December 31, 1936.

Very truly yours,

A. W. MAGEE,
Commissioner.

DELAWARE RIVER JOINT COMMISSION

OF

PENNSYLVANIA AND NEW JERSEY

Camden, N. J.,

March 20, 1937.

Hon. Thomas Glynn Walker, Speaker, General Assembly, Trenton, New Jersey:

DEAR SIR—I am directed by the Delaware River Joint Commission to transmit the enclosed report covering the operation of the Delaware River Bridge during the calendar year 1936 for respectful submission to the General Assembly of the State of New Jersey.

Additional copies have been sent for each member of your Honorable body.

Respectfully submitted,

JOSEPH K. COSTELLO,
General Manager.

T. G. HILLIARD,
Counselor-at-law,
97 Market Street,
Salem, N. J.

March 17, 1937.

Hon. Thomas G. Walker, Speaker of the House of Assembly, Trenton, N. J.

At the suggestion of Governor Harold G. Hoffman, to whom the enclosed report has been submitted, I hand you herewith for transmission to the New Jersey State Assembly the report of the Commissioners appointed by Governor Hoffman in pursuance of the provisions of Chapter 160, P. L. 1935, matter of New Jersey-Delaware boundary.

Yours very respectfully,

T. G. HILLIARD,
By A. P. Richman,
Secretary.

REPORT OF COMMISSIONERS

In matter of boundary and jurisdiction in Delaware River between the States of New Jersey and Delaware.

To the Senate and General Assembly of the State of New Jersey:

GENTLEMEN — The Commissioners appointed by Honorable Harold G. Hoffman, Governor of the State of New Jersey, in pursuance of the provisions of Chapter 160, Pamphlet Laws of 1935, said act dealing with the matter above entitled, respectfully report that:

1. They have accepted the commissions to them issued under and in pursuance of the terms and provisions of the said act of the Legislature of the State of New Jersey and have organized and are in the discharge of the duties cast upon them by the said commissions.

2. Your Commissioners have met with P. Warren Green, Attorney-General of the State of Delaware, and Clarence A. Southerland, Esq., the Commissioners appointed and representing, in the above entitled matter, the State of Delaware.

3. The matters entrusted by both States to their said Commissioners have been discussed fully and your Commissioners are in agreement with the Commissioners of the State of Delaware in ascertaining the fact to be that pending definite disposition by the Legislature of the State of Delaware of the questions involved in the granting of permission to build a proposed tunnel to be constructed beneath the surface of the Delaware River within the limits of what is known as the "Twelve Mile Circle," it is impractical for the Commissioners of either State to recommend to their respective Legislatures any legislation at this time.

4. The Commissioners of both States are further in agreement that final action on the matters entrusted to the Commissioners should be deferred until such time as action shall have been taken by the Delaware Legislature on proposed or pending legislation affecting the construction of the said proposed tunnel.

5. Your Commissioners desire to be advised whether this matter is to be continued in their charge or are their duties now to be considered as having been completed.

Respectfully submitted,

WM. H. CHEVE,
JOHN W. SUMMERVILLE, JR.,
T. G. HILLIARD,
Commissioners.

WORKERS ALLIANCE OF NEW JERSEY

Camden, N. J.,
March 15, 1937.

To the Members of the New Jersey Legislature:

GREETINGS—We are enclosing herewith a copy of a resolution on the New Jersey relief situation which was adopted 100 percent at a meeting of the South Jersey Regional Council of the Workers Alliance of New Jersey, in the Camden City Commission Chambers, Thursday night, March 11th, 1937.

We recommend that you give this resolution very serious thought and consideration. The people of New Jersey request action not only on the relief question but on other matters of legislation aimed for the benefit of all the people. Inaction, on your part, will not be tolerated any longer. We shall remember those who prefer to serve the interests of big business at the next election.

Very truly yours,
SOUTH JERSEY REGIONAL COUNCIL
WORKERS ALLIANCE OF NEW JERSEY
464 Royden Street, Camden, N. J.

NICHOLAS MARINELLA,
Chairman.

RESOLUTION ON NEW JERSEY RELIEF

WHEREAS, Relief as administered in the State of New Jersey is inadequate and considerably lower than the standard required to insure health and decency; and

WHEREAS, It is a social crime to force men, women and children to undergo this impairment of their health and well being, when it can and must be avoided; and

WHEREAS, The blame for this "social crime" must be placed where it rightfully belongs; on the shoulders of past and present members of the New Jersey Legislature, whom we elected to represent us, the workers, in Trenton, but who always have insisted and still insist in serving the interests of New Jersey reactionaries; and

WHEREAS, This policy of continued inaction, on the relief question on the part of our Legislators, proves that their sole interest and intent lies in passing legislation beneficial to big business interests; therefore, be it

Resolved, That we go on record opposing this indifferent attitude of the members of the New Jersey Legislature, as inimical to the best interests of human kindness and decency; and be it

Further Resolved, That we so notify the members of the New Jersey Legislature; that they "quit this business" of playing with human misery and that they get off their high horses, forget their political affiliation and "Axe grinding" for once and settle down to the humane task of formulating plans for legislation that will provide adequate cash relief to the needy men, women and children of this State; and be it

Further Resolved, That a copy of this resolution be mailed to the Governor of the State of New Jersey, the members of the New Jersey Legislature and the press.

Respectfully submitted,

SOUTH JERSEY REGIONAL COUNCIL
WORKERS ALLIANCE OF NEW JERSEY
N. MARINELLA,
Chairman.

Mr. Pesin offered the following report, which was read by the Clerk:

REPORT OF APPROPRIATIONS COMMITTEE

Pursuant to the provisions of Chapter 54, P. L. 1929, the Legislature of that year authorized the sale of the New Jersey Home for Disabled Soldiers located in the town of Kearny, in the County of Hudson. This same law authorized the State House Commission, acting for and on behalf of the State of New Jersey, to sell the lands and buildings used as the New Jersey Home for Disabled Soldiers at Kearny, and that the funds derived therefrom be paid into the Treasury, and kept therein as a trust fund. This fund was to be used by the State Department of Institutions and Agencies, for the construction of a New Jersey Home for Disabled Soldiers of all wars, to be located in the area north of the City of Trenton.

This act further provided for an Advisory Committee, to act also as Site Committee, composed of five persons, to be designated by the Governor, and further provided that of this committee at least one representative should be appointed from the following: a veteran from the organization of the Grand Army of the Republic, United States Spanish War Veterans, and World War Veterans.

By Legislative enactment, a new Home for Disabled Soldiers was erected, and has been in operation since June, 1932, and is located at Menlo Park, in the County of Middlesex, and the patients were transferred to the new institution from the old one at Kearny.

The buildings at the Kearny Soldiers Home were of the old war-time, cantonment type of construction, that is, completely built of wood, with tar paper roofs and tar paper sidings. These were demolished, and the State House Commission, due to the present depression in the real estate field, has refrained from offering the lands for sale. These lands are situate in a heavily populated, industrial area, and have been conservatively appraised between $300,000 and $500,000.

It was the original intention of the Legislature that from the funds received from the sale of the property at Kearny, additional buildings would be constructed at Menlo Park, and that the other New Jersey Home at Vineland be discontinued, and the members moved to the new location.

There was a bill introduced at the last session of the Legislature (Senate Bill 249), which provided funds for the construction of two additional buildings at Menlo Park, in order that the present Soldiers, Sailors, Marines and their wives and widows, now resident at the Vineland Soldiers Home, could be transferred to the new buildings at Menlo Park, and the sum of $200,000 was appropriated as the State's share of the cost for such buildings, it being anticipated that the Federal Government would contribute forty-five percent of the total cost, or approximately $180,000. This bill, however, was never reported out of committee during the 1936 session of the Legislature.

Every year, the Legislative Appropriations Committee, on the occasion of their annual inspection of State Institutions, are reluctant to recommend any funds for repairs or reconstruction at the Vineland Soldiers Home, because of

the fact that the buildings are not only inadequate, but are very old and unsuited to present conditions, and constitute a very serious fire hazard, and some of the members have declared them unsafe for human occupancy.

In the study made by the Department, at the direction of the Legislative Appropriations Committee last year, it was conservatively estimated that as a result of combining the two Soldiers Homes, an annual saving of between $35,000 and $40,000 would be realized by the State.

It was also the intention of the Legislature of last year to specifically provide that when the State House Commission sold the lands at Kearny, the funds derived therefrom would be credited back to the General State Treasury in view of the fact that funds contemplated in Senate Bill 249 directly appropriated from State funds, the cost of the State's share.

On the occasion of a recent visit of the Legislative Appropriations Committee to the Vineland Soldiers Home, the matter of its abandonment was again discussed at length. The main building of this institution is four stories of stone construction, but the interior is of the old non-fireproof type, consisting of wooden floors, wooden lath, BX cable, etc., and is, at the present time, deteriorating very rapidly, and it is practically impossible, with the limited funds available, to even attempt to keep the present plant and equipment in a fair state of repair.

It is the feeling of the Committee that, with the combining of the two institutions, many costs now borne by the State can be eliminated, and as a result of the study made last year for the Appropriations Committee, it developed that since the passage of the Act of 1929 (Chapter 54, P. L. 1929), and for the period up to and including the last fiscal year, there has been expended at the Vineland Institution for current repairs alone, the sum of $53,085.80, and for major reconstruction, and additions and improvement items, the sum of $30,433.83.

The amounts expended by the State for the maintenance and up-keep for the old plant at Vineland really represents interest charges at the rate of six percent on the amount which was requested to be set up, and it is safe to assume that for the next five years at least, if not more, this annual, average expenditure would result, so that if the two

Homes were combined, and the old, obsolete buildings eliminated, this amount alone could be saved in repairs and reconstruction.

On the basis of the estimated saving, exclusive of current repairs and reconstruction, that could be realized in salaries and maintenance, the amount to be set up for the reconstruction of the new buildings at Menlo Park would be repaid to the State in a period of five years.

The plant and equipment at the Vineland Soldiers Home could, in no way, be considered as a total loss, as it has some potential salvage value, which could be transferred to other institutions to replace old and worn-out equipment. Included in this group are such items as boilers, laundry equipment, kitchen equipment, sprinkler systems, etc. In addition to these items, the State will have an asset in the land and a few buildings at the Vineland Institution that could be saved and sold.

It was necessary, two years ago, to obtain a Federal Work Project to repair the main walls of the central building which had developed cracks, and in some places were bulging.

Mr. Pesin moved that the report become part of the Minutes of the House of Assembly,

Which motion was adopted.

Mrs. Brady offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the privileges of the floor be extended to the Organized Women Legislators, being former members of this House.

Mr. Hedges offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, A° great disaster has befallen the citizens of the municipality of New London, Texas, where an explosion in a public school took the lives of more than 450 students and teachers; and

WHEREAS, A deep sympathy is felt by the citizens of the State of New Jersey in this hour of sorrow and bereavement for parents and relatives of those who lost their lives in the catastrophe; therefore

Be It Resolved, By the House of Assembly, the Senate concurring, that the State of New Jersey extend its heartfelt condolences to fellow citizens of this Texas municipality who have suffered this great loss; and be it

Further Resolved, That a copy of this Resolution be sent to the Mayor of New London, Texas, as a memorial from the citizens of the State of New Jersey.

ARTICLE II

STATE BOARD

In place of section two hundred one, article II, page two, substitute the following:

201. The membership of the board shall comprise four members who shall be appointed by the Governor, two of whom shall be chosen from each of the two major political

parties. The four members first appointed under this act shall be appointed as follows: one member from the leading major political party for a period of four (4) years, one member from the second major political party for a period of three (3) years, one member from the leading major political party for a period of two (2) years, and one member from the second major political party for a period of one (1) year, respectively as appointed, and members appointed thereafter, shall serve for a period of four (4) years. The Governor may remove any member of the State board for cause and appoint some other person to fill the vacancy caused by death, resignation, or removal, which shall be for the unexpired term only.

In place of section two hundred two, article II, page three, substitute the following:

202. Members of the State board shall receive as compensation for their services three thousand five hundred dollars ($3,500.00) per annum, and each member of the board shall also be entitled to his expenses actually and necessarily incurred by him in the performance of his duties.

In place of section two hundred three, article II, page two, substitute the following:

203. The State board shall organize each year by the selection of a chairman and the appointment of a secretary, a counsel, a chief executive officer and such inspectors and other assistants and employees as may be necessary to carry out the provisions of this act and to prescribe their powers and duties and fix the compensation for such appointees. Such appointees shall be equally divided between the two major political parties.

In place of section two hundred four, article II, page two, substitute the following:

204. Three (3) members of the board shall constitute a quorum.

Mr. DeVoe moved the adoption of the proposed amendments to Assembly Bill No. 426.

AGRICULTURAL WORKERS UNION
LOCAL 19996
BRIDGETON, NEW JERSEY

March 29, 1937.

Clerk,
House of Assembly,
Trenton, N. J.,

DEAR SIR—The enclosed resolution is self-explanatory. It is meant for the information and action of all members of the New Jersey Assembly.

Sincerely yours,

ROBT. SHEPPARD,
President.

NEW JERSEY WAGE CONFERENCE OF AGRICULTURAL WORKERS

Camden, N. J., March 21, 1937.

The following resolution was unanimously passed and ordered sent to the Clerk of the House of Assembly and to the Secretary of the State Senate of the State of New Jersey.

WHEREAS, Harold G. Hoffman, Governor of the State of New Jersey, has publicly gone on record against organized labor in connection with the C I O drive in our State and sit-down strikes; and

WHEREAS, This same Governor has been exposed by the LaFollette Committee as a strike breaker by recommending a notorious detective agency to break the R C A strike last summer; and

WHEREAS, This same Governor is illegally using the N. J. State Police to probe labor activity within the State; therefore be it

Resolved, That this New Jersey Conference of Agricultural Workers demand the State Legislature institute impeachment proceedings against said Harold G. Hoffman on the grounds of conspiracy against labor.

JACK JOHNSON,
Conference Sec.

Mr. Bischoff moved that the communication be received and filed.

The following communication was sent to the desk and read by the Clerk:

NEW JERSEY SAVINGS BANKS' ASSOCIATION
744 Broad Street, Newark, N. J.

April 3, 1937.

Hon. Edward J. Kelleher, Clerk,
House of Assembly,
Trenton, N. J.

Re Assembly Bill No. 371

DEAR SIR—Unanimous opposition to the passage of this bill was voted on March 22, 1937, at a combined meeting of the Executive and Legislative Committees of the New Jer-

sey Savings Banks' Association, which has as its members all of the 23 mutual savings banks of New Jersey, with total deposits in excess of $300,000,000, belonging to 543,000 individual depositors. We wish, therefore, to present some facts for your consideration, which, we believe have an important bearing on this matter, and which explain the reasons for the opposition.

The present statutory 15% maximum surplus, required for the security of depositors before permitting disbursements of extra interest-dividends, has proven to be ample by many years' experience through both good and bad times, including the recent worst depression of all times.

That our depositors are entitled to receive the benefit of efficient and conservative management, and the larger earning power resulting therefrom, is clearly indicated and intended in the savings bank act itself, of which section forty reads in part as follows:

"The managers of every savings bank shall regulate the rate of interest or dividends, not to exceed five per centum per annum, upon the deposits therewith, in such manner that the depositors shall receive, as nearly as may be, all the profits of such bank, after deducting necessary expenses and reserving such amount as the managers may deem expedient, as a surplus fund for the security of depositors, which, to the amount of fifteen per centum of their deposits, the managers of any such bank are hereby authorized gradually to accumulate and to hold, to meet any contingency or loss in its business, from the depreciation of its securities or otherwise; - - - - the managers of any savings bank whose surplus amounts to fifteen per centum of its deposits shall, at least once in three years, divide equitably the accumulation beyond such authorized surplus, as an extra dividend to depositors, in excess of the regular dividends hereinbefore authorized. (Amended, Chap. 74, Laws of 1911.)"

The great mass of our depositors is made up of wage-earners and small salaried people, who need and are entitled to the maximum return on their savings. To require them to wait for such extra returns until a savings bank builds up its surplus to an excessive and unnecessary 25% of deposits, which means a radical departure from the intent of the savings bank act, would thrust upon them an additional financial sacrifice.

In the State of Massachusetts, where are located the largest number (193) of mutual savings banks of any State the maximum surplus required is 15¼%.

The officers and boards of managers of our institution are dedicated to the principle of safety and security for their depositors first, and if they believed that a greater than a 15% surplus was advisable, they would be taking the initiative in requesting a change in the law.

For these reasons, we respectfully request and will appreciate your opposition to this unneeded and unwanted piece of legislation, and if the bill comes up for a vote to vote "No".

I attach a memorandum which shows in detail the member banks of this association, the amount of their deposits and the number of depositors as of December 31, 1936.

Very truly yours,

C. H. JOHNSON,
Executive Secretary.

COMMISSIONERS OF THE PALISADES INTERSTATE PARK

April 19, 1937.

Hon. Thomas G. Walker,
Speaker of the House of Assembly,
Trenton, New Jersey.

DEAR SIR—I have the honor to transmit herewith to the Assembly of the State of New Jersey the Thirty-seventh Annual Report of the Commissioners of the Palisades Interstate Park, as required by law.

Very respectfully,

(Signed) FREDERICK C. SUTRO,
Executive Director.

STATE OF NEW JERSEY
Office of State Auditor

Trenton, N. J., April 12, 1937.

To the Governor and Members of the Legislature,
State House,
Trenton, N. J.

I herewith transmit a report covering the office of the State Auditor. This report is a brief summary of the operations of the office covering the period July 1, 1933 to date. I have not attempted to deal with the detailed features of the work of the office but have attempted to briefly set forth some of the problems and accomplishments.

Respectfully submitted,

WALTER R. DARBY,
State Auditor.

Mr. DeVoe moved the communications be read and filed.

Which motion was adopted.

The following message received from his Excellency the Governor Harold G. Hoffman was sent to the desk and read by the Clerk:

SPECIAL MESSAGE OF HAROLD G. HOFFMAN, GOVERNOR OF NEW JERSEY TO THE 161ST SESSION OF THE NEW JERSEY LEGISLATURE, RELATING TO SALARIES FOR STATE EMPLOYEES.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
April 19, 1937.

To the Legislature:

On January 12th I submitted my Budget recommendations for the operating costs of the State government during the fiscal year 1936-37. Those recommendations carried a total of $39,730,757.32. Of this total, $894,731.79 represented salary increases and adjustments.

In my Inaugural Message I urged an end of the practice of omitting numerous sums from the budget and from the annual Appropriations Act, in order to show favorable bookkeeping totals, which did not reflect the real facts. I urged that both the budget estimates and the Appropriations Act should be so clear that the average citizen could understand the financial management of the State government. Substantial progress has been made in this direction.

While the Appropriations Bill, now under consideration, has been referred to as a measure to effect a saving of $1,004,522.73 from my recommendations, I am confident that the members of the Appropriations Committee will want it understood that $358,341.31 of this million-dollar difference is due to a voluntary reduction by the Department of Institutions and Agencies in the amount originally requested by that Department for the State's share of Federal-State funds to administer the Division of Old Age Assistance and to provide adequate care for the children under the jurisdiction of the Board of Children's Guardians, and that this amount, together with other bookkeeping changes in the set-up of the Appropriations Bill, accounts for approximately one-half of the million-dollar reduction involved. Slight reductions in hundreds of budget items scattered widely throughout the departments indicate the care and attention to detail given by the Appropriations Committee. The major portion of the remaining half-million involved, however, is accomplished through postponement of highly desirable expenditures and a reduction in the amount of moneys recommended for salary increases and adjustments.

I appreciate the desire of the Appropriations Committee and the Legislature to keep current appropriations as low as possible. I am in accord with the ends sought, but I am unable to agree that it is either sound economy or in the public interest to continue to withhold modest salary increases for thousands of our State employees who are receiving less than enough to maintain themselves and their dependents in decency and in accordance with the lowest acceptable minimum standards of American working men.

I note with satisfaction that the Appropriations Committee, recognizing in part, the seriously acute situation that exists with respect to the salary and wage situation

in the State service, has included something like $350,000 for salary increases and adjustments applying to those receiving less than $70 per month, trained nurses in State institutions, and a limited number of other employees. I am unable to agree that these provisions meet the absolute minimum needs and I am impelled to urge that you give the matter further consideration looking to the inclusion in the Appropriations Act of a total amount for salaries and wages equal at least to the amount set out in the Executive Budget.

I am led to make this further representation both as a matter of fairness and good faith to our public employees and in keeping with the clearly apparent, wide-spread public support of the demands made in industry and business for salary and wage levels which will permit workers to live in decency and to meet, in part at least, recent increases in living costs. As public officials we seem to support this policy without reservation for private workers. Under the same logic, we ought to support, as a matter of course, the same consideration for public employees.

Calculations made in 1933 show almost seventy per cent of State officers and employees as receiving an annual salary of $1,000 or less, and that the average annual compensation of every State officer and employee, from the highest to the lowest, was $1,592.02. The average cash salary of classified employees for the last fiscal year was $1,320. This is not adequate pay for untrained workers, much less for highly trained public employees who look to the public service as a career in the same sense that the lawyer, the doctor and other professional men and women look upon their own professions. Thousands of these employees, who do the more routine work of the government, have served five, ten, twenty and more years and their only prospect for a living wage lies in the action of the State's administrative officials and the Legislature. Those of us who share in determining State policy with respect to all public employees are under a heavy responsibility; we must face these facts. Public employees may not use the bargaining methods of workers in industry. They are entirely dependent upon the consideration and action of our administrative and legislative authorities.

For six years there have been practically no salary increases and few promotions in the State service. Practically every employee who has come into the service during this period has entered at the minimum rate and many of them below the minimum rates of compensation for their respective positions. These employees have grown in skill and ability and hundreds of them are performing work that bears little relation to the rates of compensation they are being paid. Many of the young men and women have grown to maturity and their own responsibilities have been increased. They entered the service with the understanding that they might expect salary increments from time to time as their responsibilities and value increased. In some instances, as for example the State Police, this was more than an understanding; it assumed the character of a contract because the salary schedules were written in the statutes. The Budget Advisory Committee last year recognized these existing inequalities in pay, brought about primarily because of the policy of no salary increases and practically no promotions over the past six years. Because of these inequalities, of this almost universal movement toward substantial advances in the pay of industrial and business workers, of increased living costs, and of what seems to me to be our public obligation, I was convinced that we should make a beginning this year to eliminate some of these inequalities that have developed and to recognize our obligations to our public employees. These considerations led me to make the salary and wage recommendations carried in the Executive Budget. I am yet of the opinion that those recommendations represent the least we should do in this direction. And I want to observe, in passing, that I favor reasonable salary adjustments for those employees who receive wages at more than starvation levels where there is special merit and where it is clearly evident that the rates of pay are not commensurate with the work done or the responsibilities carried.

It is presumed that business men have learned that competent, well paid, employees are essential to profitable production and good management. We have not accepted this principle in government although we acknowledge that government is our biggest and most important business and requires quite as much skill and industry and devotion as are required in any successful business.

It is generally understood that a substantial number of our State employees are working at wages and under conditions that would not be tolerated in factories of the State. We should be realistic enough and determined enough to put an end to these conditions and to let it be known that New Jersey will, as a matter of permanent policy, provide reasonable compensation for her employees and will expect and require competent service. Such a policy is bound to pay substantial dividends.

Public employees are not to be regarded merely as drains upon the public treasury. The State Police, which I have already mentioned, the Motor Vehicle Inspectors and many other groups of employees bring about savings through the reduction of crime, the protection of property from loss or destruction, and the collecting of fines and fees, enough to make both themselves and their departments self-sustaining. The scrutiny of public payrolls and requests for added employees should be a continuing function, but we must assume that all public employees are doing necessary and essential work. They are entitled to fair treatment not only as public employees, but as self-respecting citizens. Good administration, not only in the State government, but in all government—in every county and municipal government—depends upon the employees quite as much as upon the administrative authorities. One of the best ways to insure competent employees is to select them carefully and to pay them a reasonable and in every instance a living wage.

We, in the State government, as well as responsible officials in local governments, should be guided by principles of equity rather than mere political expediency in an effort to satisfy that relatively small part of our citizens who insist that public money shall be saved by keeping the wages and work conditions of public employees below that which these same citizens would tolerate in their own business. There is no more reason to demand that the small group of public workers should carry an inordinate part of the relief load than there is to insist that the property owners shall struggle under the back-breaking load of local government costs while we refuse to bring into the taxpayer group hundreds of thousands of the people of the State who enjoy the same protection and the same benefits of government as do the owners of real estate.

I know, of course, that under what seems to me to be a short-sighted procedure we have adopted the policy of reaching into funds dedicated for specific purposes and balances which good business procedure would demand should be continued in the State treasury in order to meet the financial demands for unemployment relief. I recognize that the estimated free balances at the end of the next fiscal year are small, but I am satisfied that funds can be found to provide for reasonable salary increments. I note, for instance, an appropriation of $100,000 as a first installment to develop marsh lands on the Cheesequake as a public park. This proposed improvement is in my own county, and, make no mistake about it, I believe in the provision now for parks and recreation areas. I believe also in the policy of making public expenditures on the basis of greatest immediate need. In this instance, I am satisfied that the prior claim rests with our employees. *I am advised by the State Tax Department that while the Comptroller's estimates for the present fiscal year carry $6,200,000.00 for the transfer inheritance taxes, that figure is likely to be exceeded by at least a million dollars.* In this item alone may be found the funds required.

It is my hope that the Legislature will see its way clear to reconsider the Appropriations Act as originally submitted and provide for warranted salary increments for our State employees.

Respectfully submitted,

[SEAL] HAROLD G. HOFFMAN,
Governor.

Attest:
ELIZABETH J. MCLAUGHLIN,
Secretary to the Governor.

Mr. DeVoe moved that the message be received and spread in full upon the Minutes and a copy be furnished to each member.

Which motion was adopted.

STATE OF NEW JERSEY
Executive Department

April 19, 1937.

To the Legislature:

Enclosed is a copy of a letter which I have received from the Honorable George H. Earle, Governor of Pennsylvania, in which, as you will note, the co-operation of the State of

New Jersey is asked in the movement to erect an "Eternal Light Peace Memorial" at Gettysburg, Pennsylvania, during the observance of the 75th anniversary of the Battle of Gettysburg.

Respectfully submitted,

HAROLD G. HOFFMAN,
Governor.

Attest:
ELIZABETH MCLAUGHLIN,
Secretary to the Governor.

COMMONWEALTH OF PENNSYLVANIA
Governor's Office

Harrisburg, April 9, 1937.

Hon. Harold G. Hoffman,
Governor of New Jersey,
Trenton, New Jersey.

DEAR GOVERNOR HOFFMAN—The movement to erect an "Eternal Light Peace Memorial" at Gettysburg, Pennsylvania, during the observance of the 75th anniversary of the Battle of Gettysburg and the joint reunion of the surviving veterans of the Civil War has reached nation-wide significance.

Virginia, Indiana and Pennsylvania have voted their appropriations. Favorable action is expected this week from New Hampshire, Connecticut, Vermont, New York, Illinois, Maryland and Iowa.

Similar measures are before the Legislatures of Michigan, Minnesota, Ohio, Missouri, Tennessee, Wisconsin, Massachusetts, Texas, Oklahoma and New Mexico. Maine expects to participate through a contingent fund. Florida and Georgia will consider the appropriation when their legislatures convene in April and June, respectively.

Because of the activity of New Jersey troops in the four-year struggle, Pennsylvania is eager to have your great State join in this splendid and final tribute to all those who participated in any way in that struggle three-quarters of a century ago.

I will deeply appreciate your most earnest consideration and support towards securing New Jersey's appropriation for this splendid memorial.

With best wishes, I am,

Sincerely yours,

GEORGE H. EARLE.

Mr. DeVoe moved that the communication be received and spread in full upon the Minutes.

Which motion was adopted.

STATE OF NEW JERSEY,
SENATE CHAMBER,
April 26, 1937.

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following bill:

Senate Committee Substitute for Assembly Bill No. 60, entitled "An act making an appropriation to the State Financial Assistance Commission for public assistance for the year beginning January first, one thousand nine hundred and thirty-seven, and ending December thirty-first, one thousand nine hundred and thirty-seven,"

OLIVER F. VAN CAMP,
Secretary of the Senate.

The Senate message was then taken up, and

Mr. DeVoe moved that the veto message of His Excellency, the Governor, Harold G. Hoffman, be read by the Clerk.

Which motion was adopted.

The Clerk read the message as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
April 5, 1937.

Honorable Frank Durand,
President of the Senate,
State of New Jersey:

MY DEAR SENATOR: I am returning to the Senate, without my approval, Senate Committee Substitute for Assembly No. 60.

This bill made its appearance in the House of Assembly, and after being passed in that House, this legislative child of Assembly parentage reappeared with a blue dress in the custody of a step-father and came to my desk as a Senate

debutante who is expected to make a good "catch" in the election of next November.

I cannot add my blessing to this proposal.

In my opinion, this is an ill-considered piece of legislation; it is dishonest, discriminatory and economically unsound. It reflects a wanton disregard for human life, avoids an honest decision, and definitely is not the answer to the financing of our unemployment relief problem. It will remove employment opportunities for our people. It will eventually withhold from over ten thousand heads of New Jersey families a chance to maintain their self-respect through *earning* an honest livelihood. Instead of giving work at a living wage in the construction of roads, representing a capital investment for the people who have paid for these highways, it will commit New Jersey to a policy of collecting monies under false pretenses and spending them through the medium of a "dole" that will keep unemployed workers unemployed.

With due appreciation of our obligation to provide sustenance and shelter for our honest unemployed—those who sincerely want work that they can not find—I sincerely believe that legislation of this kind will add to the already too-large number of people who, to use their own phrase, are "too smart to work," and who expect to get by for the rest of their lives upon governmental subsidies made possible through additional levies upon our citizens who are willing to work.

To this message I am attaching a statement setting out facts that form the basis for the opinions I have expressed, and additional reasons supporting my belief that this proposal, conceived in the womb of political expediency and reared in an atmosphere of misrepresentation, should not be enacted into law. If any of the figures submitted by me are questioned or further clarification of my views should be desired, I shall be very glad to submit the proofs and additional information.

Respectfully,
HAROLD G. HOFFMAN,
Governor.

Attest:
ELIZABETH J. MCLAUGHLIN,
Secretary to the Governor.

WHEREAS, Our Heavenly Father has called to his Eternal Reward the Honorable Hart S. VanFleet, who passed into the Great Beyond at 3 P. M., Sunday, May 9th, 1937; and

WHEREAS, The life of said Hart S. VanFleet was distinguished by a career of success in business and public affairs. He was a devoted parent, a friendly neighbor whose untiring service to his fellowman and his faithful fulfillment of his civic duties endeared him to a host of people who will ever cherish his memory with fond and loving recollections; and

WHEREAS, His love of his country found him, in keeping with the example of a long line of his ancestors who had served their country in times of stress, serving in the military ranks of the nation in the Spanish-American War; and

WHEREAS, His distinguished services included beside his military achievements a quarter of a century of service as an official of the Bell Telephone Company of New Jersey; President of the National Farm Loan Association; Vice-President of the Union County Board of Agriculture; President of the Shade Commission and a Member of the Borough Council of his home community, Roselle Park, N. J., a Member of the United States Constitution One Hundred and Fiftieth Anniversary Committee. To him his outstanding civic service was his membership in the New Jersey House of Assembly, where he served four years as a Representative of Union County. Here he was especially interested in advancing agricultural, educational and veterans' affairs; and

WHEREAS, Through his passing the State and her people have suffered an irreparable loss, his family has been deprived of a devoted father, and the members of this House of Assembly have lost an earnest, faithful colleague and friend; now, therefore,

Be It Resolved, That this House of Assembly for the State of New Jersey do hereby express their great sorrow at the passing of the Honorable Hart S. VanFleet, the soldier, the business executive and public official; and be it

Further Resolved, That a page be set aside in the minutes of the House of Assembly to commemorate his memory, that his desk and chair be draped in mourning for a period of thirty days, and that a copy of this resolution, suitably engrossed, signed by the Speaker and attest by the Clerk, be forwarded to his widow, Mrs. Mae VanFleet.

Resolved, That when the House adjourns it be to meet on Thursday, May 27, 1937, at 12 o'clock noon, Daylight Saving Time.

A message was received from his Excellency the Governor by the hands of his secretary.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
May 17, 1937.

To the Legislature:

Chapter 253, P. L. 1936, provides for the appointment of a commission to examine into the feasibility and practicability of acquiring, on behalf of the State, one or more State Veterans' cemeteries.

The act further provides that the commission so appointed shall submit its findings and recommendations to the Governor for transmission to the Legislature during the term of the 1936 Legislature or during the term of the 1937 Legislature.

This commission, which is known as the Veterans Cemeteries' Commission, has submitted its preliminary report to me, which I now transmit to the Legislature.

Respectfully submitted,

HAROLD G. HOFFMAN,
Governor.

Attest:
ELIZABETH J. MCLAUGHLIN,
Secretary to the Governor.

PRELIMINARY REPORT OF THE VETERANS CEMETERIES' COMMISSION

AUTHORITY—PURPOSE AND POWERS

The act approved June 26, 1936, provided for a commission of four members to examine into the feasibility and practicability of acquiring on behalf of this State one or more State veterans' cemeteries, to serve for not more than two years from the passage of the act. Its duties and powers limited to examination and inquiry; its findings and recommendations to be submitted to the Governor for transmission to the Legislature during the term of the 1937 Legislature.

COMPOSITION

The Governor appointed J. Eugene Laurencelle of Park Ridge, Bergen county, on the recommendation of the Adjutant-General of the State;

Charles A. Meyer of Andover, Sussex county, on the recommendation of the Association of Chosen Freeholders of New Jersey;

Brigadier-General Edward Olmsted, N. J. N. G., retired, of Elizabeth, Union county, and

Honorable Oliver Van Camp of Point Pleasant, Ocean county, Secretary of the Senate, chosen by the Governor.

ORGANIZATION

The commission met on August 29, 1936, and organized by the election of General Edward Olmsted as chairman and Mr. J. Eugene Laurencelle as secretary; designated room 5, War Memorial Building, Trenton, as the headquarters and meeting place of the commission; discussed its future activities; arranged for the procurement of necessary data on veteran burials, development of cemeteries, etc., and decided to request an appropriation of $300.00 from the State House Commission for necessary expenses—stationery, postage, et cetera.

PROCUREMENT OF DATA

For the proper performance of its functions and in order to make a comprehensive study of the whole situation in relation to veteran burials, development of cemeteries and the numerous attendant details, the commission considered it important and essential to obtain all data available from many sources of information.

This involved correspondence with the boards of chosen freeholders of the several counties of the State, several visits to Washington for consultation with the War Department, Bureau of Navigation and the Veterans' Bureau.

The data thus obtained has been correlated and tabulated, studied and discussed in several conferences and meetings of the commission.

PROJECT

As a result of deliberations, discussions and study of all data available, the commission visualizes as a completed project, one State veterans' cemetery, providing for New Jersey a "Bivouac of the Dead" comparable with the National Cemetery at Arlington, Virginia, in a generally central location on suitable termain, as approved by the several State agencies, which may have co-ordinate jurisdiction in relation to such a project, viz.,

The Water Policy Commission,
The State Board of Health.

A cemetery tract, as generally described above, should of course be accessible by highway, rail or both, from all sections of the State; should have sufficient capacity for all burials to be made therein under approved policies and regulations to be established therefor, and should be suitably landscaped and beautified by appropriate construction of surrounding walls, chapels, shrines or memorials, under a comprehensive plan for complete future development.

PROPOSITIONS SUBMITTED

The commission has received several communications from representatives of organizations presently operating cemeteries in several different sections of the State.

All such communications have been acknowledged and the writers informed that their propositions will be given consideration by the commission at the proper time.

The commission contemplates visiting all these tracts for investigation of the conditions existing at each to be considered in relation to the known requirements of a State Veterans' Cemetery, viz., location, accessibility, present capacity, availability of present capacity for veteran burials, availability of adjoining acreage for future extension to provide capacity for veteran burials, general layout, et cetera., with a view to possible future recommendation by the commission on the suitability of one of them as a site for the State Veterans' Cemetery.

However, the commission has refrained from such visits pending a more definite determination of the ultimate capacity needful for a State Veterans' Cemetery.

ULTIMATE CAPACITY

Determination of the ultimate capacity for a veterans' cemetery involves several factors, some of which are based on future policies or regulations for the operation of the cemetery which will have a direct relation to the acreage required.

It is obvious that the intent of the act is to provide a cemetery maintained by the State for the burial of indigent veterans at the expense of the State, thus relieving the several counties from the cost of such burials under the provisions of the act approved March 20, 1902, and amendments thereto.

However, several points arise in connection with the procedure, which may be authorized for the future operation of a State Veterans' Cemetery as visualized by this commission. Some of these are as follows:

(1) In addition to the burial of indigent veterans at State expense, would the burial of other veterans, at the expense of their families, be permitted in the State Veterans' Cemetery? The commission considers that such burials should be authorized.

(2) Would the burial of wives of veterans (officers or enlisted—either or both) be authorized in the State Veterans' Cemetery?

(3) It is assumed that the removal of the bodies of veterans from their present resting places, in the several counties, to the State Veterans' Cemetery, at the expense of the State, would not be authorized.

In the opinion of this commission such removals should not be authorized either at the expense of the State or at the expense of the families of deceased veterans.

The total number of persons inducted into the military or naval services from the State of New Jersey for the World War was 142,036.

From a full consideration of this figure, it must be realized that any estimate of the ultimate capacity required for a State Veterans' Cemetery must be approxi-

mate—ranging from a maximum of 100,000 to a more probable figure—still only an estimate—of 75,000.

From data available, on the normal practice in modern cemetery development, an acre of ground is allotted as follows:

For 1,000 graves	83%
Roads, paths, shrubbery, etc.	17%

Thus, it appears that a total of about 75 acres would suffice for all probable capacity of a State Veterans' Cemetery and the acquisition of a tract of that area might be arranged on the basis of an initial acquisition of a tract as above, for development of approximately 50 acres and adjacent acreage for future development. It is the opinion of the commission that all the land likely to be required for many years to come should be acquired.

The foregoing is based on the assumption of a purchase by the State of an approved tract, to be developed as the State Veterans' Cemetery, though the same procedure might apply to the purchase, by the State, of all or part of an approved tract already developed (entirely or partially) for cemetery purposes.

COST

From a study of data on the cost of development of cemetery properties, it appears that the cost of undeveloped acreage for cemetery purposes averages $1,000.00 per acre.

Similarly the development of such acreage for cemetery purposes will average $1,000.00 to $1,500.00 per acre, depending upon the condition of the land, the type of roads, curbing, chapel, shrubbery and other improvements.

Using the figures shown, that is: Land at $1,000.00 per acre, and development at $1,500.00 per acre, the total cost per acre (1,000 graves capacity) would be $2,500.00 or—

50 acres	$125,000.00
75 acres	$187,500.00

A detail of normal operating cost as usually figured in commercial cemeteries may not be amiss at this point. The actual cost for opening, closing and sodding a grave averages $6.00.

ECONOMY

From data supplied by the boards of chosen freeholders of the several counties of the State, some of which have furnished very complete particulars, for the period of 1931 to 1936, inclusive, it appears that the cost of burial of an indigent veteran has ranged from $100.00 to $200.00, which cost has been defrayed by the counties.

Seventeen counties (Hunterdon, Mercer, Middlesex and Salem missing) have reported burials of 1,659 indigent veterans at a cost of $180,831.00, an average of $109.00 each.

If we assume the expense to the counties at $150.00 for each burial (probably a conservative figure), the aggregate expense for the burial of 4,536 veterans (not all indigent) in the period of 1929 to 1937, inclusive, would be $680,400.00.

A consideration of these figures leads to the conclusion that the establishment of a State Veterans' Cemetery would, over a period of years, result in a very considerable saving of public funds, which was one of the objectives of the act creating this commission.

FINDINGS

The commission is unanimously of the opinion that the acquisition by the State of New Jersey of a State Veterans' Cemetery is entirely feasible and practicable.

RECOMMENDATION

That the Legislature take all necessary action for the acquisition by the State of New Jersey of a State Veterans' Cemetery.

The commission submits this preliminary report with its findings and recommendations in general terms, as above, with full realization that the findings and recommendations are indefinite and not specific, because of the fact that the commission, as yet, has not had ample opportunity to make a complete examination and inquiry in order to submit a final report. Such final report will contain more detailed data as to actual figures on the increas-

ing death rate of veterans, as well as estimates as to the burden to the taxpayers in the maintenance of graves or burial plots for indigent veterans, if the system of county cemetery graves or plots for veterans is maintained.

We believe that the matter of location or locations as would be feasible and practicable, at which to establish one or more State Veterans' Cemeteries, should be considered. While this commission has no power to select, or authority to recommend a location or locations, still we are of the opinion that the Governor and the Legislature would welcome transmittal of all information on the subject of location that has been called to our attention.

Preliminary report of the State Veterans Cemeteries' Commission, submitted complete in four pages, executed in triplicate, by all members of the commission on April 20, 1937.

Amend page 1, section 1, line 6, by changing the period at the end of line to a comma ,and adding the following: "except as provided in section 20 hereof."

Amend page 8, present section 17 (new section 20), lines 8 to 10, inclusive, by substituting for the present subdivision "(3)" the following:

(3) "For any cautionary, informative or directory sign, signal or device erected on any public highway exclusively in the interest of public safety, convenience or health when permission has been given therefor by the public authority having jurisdiction of such public highway;"

Amend page 8, present section 17 (new section 20), line 22, by inserting before the semicolon the following: "and after the State Tax Commissioner shall have given notice either personally or by registered mail to the person, firm or corporation erecting, using and maintaining such sign or device, that such person, firm or corporation will be in violation of the act if such signs are not removed within fourteen days."

Amend page 8, present section 17 (new section 20), line 27, by changing the period to a semicolon, and adding after that line a new subdivision to be numbered "(7)" and to read as follows:

(7) "For any private directional sign not exceeding two square feet in area."

Amend page 7, section 11, by substituting for section 11 four new sections to be numbered 11 to 14 inclusive, to read as follows:

"11. No permit shall be issued for the erection of any billboard, structure or other object for the display of outdoor advertising in any location embraced within an area which for the purposes of this act is designated as a 'rural area'. No area shall be designated a 'rural area' which has been defined by a municipal ordinance to be an industrial, commercial, manufacturing or business area, or which is not suitable for any other use.

"12. Upon the passage of this act a committee composed of the Supervisor of the Billboard Division of the New Jersey State Tax Department and two members appointed by the Governor, one to be a representative of the outdoor advertising industry of New Jersey, shall make physical inspections of the highways and shall designate to be 'rural areas' those sections of the highways not excluded

by section 11 of this act in which for a distance of not less than one-half mile there shall be no building or other structure devoted to business purposes. One side of a highway may be designated as a 'rural area' although there may be business uses on the opposite side. Such committee may, from time to time, revoke any such designation when any business use is made of any rural area. Such committee shall receive no compensation as such from the State, but shall be paid their expenses out of the funds collected under this or any prior similar act.

"13. Such designated 'rural areas' or zones may be marked at each end with appropriate notices by the State Tax Commissioner.

"14. When any section of any municipality has been designated by such committee as a 'rural area', the governing body of such municipality may, by a brief zoning ordinance, limit, restrict and prohibit the erection, use and maintenance of billboards, structures and other objects for outdoor advertising in such sections as have been so designated. Such brief ordinances may be adopted in the same way as general ordinances of municipalities are adopted and without compliance with the detailed requirements of the general zoning act of 1928, chapter 274, page 696, or of any amendments, supplements or revisions thereof, and such brief ordinances may provide such penalties for the violation thereof as permitted by law."

Amend page 7 and the following pages by renumbering the present section 12 to be section 15 and renumbering all following sections to present section 20 to be renumbered 23.

On page 9, take out the entire present section 21, and renumber present section 22 to be 24.

Amend page 10 by striking out all of present section 23 and renumber present section 24 to be 25 and renumber all subsequent sections.

Amend page 18, present section 31, to read:

"33. This act shall take effect December first, one thousand nine hundred and thirty-seven, but all permits issued prior to the effective date of this act shall remain in full force and effect until December thirty-first, one thousand

nine hundred and thirty-seven, and no fees or permits shall be required under this act for the period from its effective date until December thirty-first, one thousand nine hundred and thirty-seven, where no fees or permits were required under any prior act, and section 12 of this act shall take effect immediately."

Amend page 5, section 4, by inserting between lines 33 and 34, a new subdivision to read:

"(d) Where a series of signs, not exceeding six in number, under permit when this act becomes effective, each not exceeding two square feet in area, is placed in a line parallel to the highway, and each at least ten feet back therefrom, all carrying a single advertising message, part of which is contained on each sign, then in fixing the permit fee hereunder, the entire series of signs shall be considered as two signs; but this rate shall not apply to permits for any new series of signs not under permit when this act becomes effective."

Amend page 18 by inserting after the present section 30 (new number 31), a new section to be numbered 32, to read as follows:

"32. Any advertising structure which by consent of the State Tax Department is moved prior to October 1, 1937, from a location which is exempt under section eleven of chapter two hundred and ten, laws of one thousand nine hundred and thirty-one, shall not be taxable under said act or under this act until January first, one thousand nine hundred and thirty-eight,"

Mr. Johnson moved the adoption of the proposed amendments to Committee Substitute for Assembly Bill No. 203.

Which motion was adopted.

Committee Substitute for Assembly Bill No. 203, entitled "An act to require and provide for the issuing of licenses and permits to persons, firms and corporations for the erection, use and maintenance of billboards, structures and other objects for outdoor advertising and to regulate such erection, use and maintenance and to provide penalties for violations of this act,"

Mr. Carlin offered the following resolution, which was read by the Clerk, and asked for a roll call on same:

WHEREAS, The House of Assembly of New Jersey did on May twenty-seventh, one thousand nine hundred and thirty-seven, enact Assembly Bill Number three hundred and three, which measure was introduced by Assemblyman Leo P. Carlin, of the county of Essex, and is an act designed to promote equality of bargaining power between employer and employee and to diminish the cause of industrial disputes by encouraging collective bargaining; and

WHEREAS, The proposed statute passed the House of Assembly by a vote of fifty-one to one, and, in accordance with the rules was transmitted to the Senate; and

WHEREAS, The measure is an important and progressive piece of legislation in the interest of the whole public and should be enacted into law; therefore,

Be It Resolved by the House of Assembly of the State of New Jersey, That the Senate be requested to pass the aforesaid measure, thus promoting the public welfare of the citizens of the State of New Jersey.

This resolution, signed by the Speaker and attested by the Clerk, shall be forwarded to the Senate forthwith.

Mr. Sheehan offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, The General Assembly heretofore adopted Assembly Resolution No. 4, whereby a committee of five members were appointed to investigate and make a survey of questions of public interest; and

WHEREAS, Pursuant to the said resolution the committee so appointed has been investigating the city of Wildwood in Cape May county; and

WHEREAS, It was definitely proven and established before the circuit court of Cape May county that prior to the recent election for State Senator for the said county a number of officials of the city of Wildwood conspired to corrupt the election, and by means of the importation of floaters and repeaters, to prevent the election of Jesse D. Ludlam, the Democratic candidate for said office; and

WHEREAS, The testimony before the said circuit court further disclosed and the court found as a fact that one Richard Gownley—alias Chester Dick—the excise commissioner of the city of Wildwood, had charge of these nu-

merous floaters; that he arranged for their transportation into the city of Wildwood; that he paid them for their services on election day; that on the morning of election he made a speech to them, declaring "don't worry about anybody; don't worry; everything is all right; you won't get in any trouble;" and that he provided his coconspirators with lists containing hundreds of names which were used by the floaters for the purpose of repeating on election day; and

WHEREAS, The grand jury of Cape May county indicted Chester Dick, who had fled the jurisdiction as soon as the investigation was commenced, and also indicted his coconspirators, May Lloyd, Leo McGraw, Victoria Jetters and William Williams; and

WHEREAS, After the circuit court had by its opinion determined that the corrupt election of the Senator of Cape May county should be set aside and a new election held, so that the voters of Cape May county may honestly elect the candidate of their choice, Chester Dick and several of his coconspirators who had been previously indicted suddenly returned from their hideout, appeared before the Hon. Palmer M. Way, judge of the Cape May county court of common pleas, pleaded guilty to the charges for which they had been indicted and were immediately sentenced by the said judge as follows: Chester Dick, six months, $1,000 fine, disfranchised 5 years; May Lloyd, six months, sentence suspended, $200 fine, disfranchised 1 year; Leo McGraw, Victoria Jetters and William Williams, 3 months, sentence suspended, two years parole; and

WHEREAS, Notwithstanding the very serious offenses for which these conspirators were indicted and particularly disregarding the absconding of Chester Dick during all the months of the investigation and the tremendous effort made to locate him, the judge of the court of common pleas of Cape May county imposed the lightest kind of sentences in haste and without giving the State and other persons interested an opportunity to be heard before sentence was imposed; and

WHEREAS, The conduct of the Honorable Palmer M. Way, judge of the Cape May county court of common pleas, in imposing these light sentences should be carefully ex-

amined and scrutinized by the committee appointed under Assembly Resolution No. 4 as soon as they have completed their investigation of the affairs of the municipality of Wildwood; now therefore,

Be It Resolved, That the investigating committee appointed by virtue of Assembly Resolution No. 4 be and they are hereby directed, as soon as it may be convenient, to investigate the manner in which Chester Dick, May Lloyd, Leo McGraw, Victoria Jetters and William Williams were sentenced by the Hon. Palmer M. Way, judge of the Cape May county court of common pleas, and report the result of its investigation and such recommendations which it deems proper for legislative action.

The following communication was sent to the desk and read by the Clerk:

THE DELAWARE RIVER JOINT COMMISSION OF PENNSYLVANIA AND NEW JERSEY

Camden, New Jersey, June 2, 1937.

Honorable Thomas Walker, Speaker,
House of Assembly,
24 Branford Place,
Newark, New Jersey.

MY DEAR SPEAKER—I herewith tender my resignation as a member of the Delaware River Joint Commission, effective at once.

Yours sincerely,
JBK:MCC. JOHN B. KATES.

Mr. Roye offered the following concurrent resolution, which was read by the Clerk and adopted.

WHEREAS, By the provisions of chapter three hundred and ninety-one of the laws of one thousand nine hundred and thirty-one (P. L. 1931, page 1219), it is provided that succeeding commissioners of the Delaware River Joint Commission shall be elected by the Legislature; and

WHEREAS, On June third, one thousand nine hundred and thirty-seven, one John B. Kates did resign from the said commission, thereby creating a vacancy in the representation of this State on said Delaware River Joint Commission; now therefore,

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring), That James V. Moran, of Haddon Heights, N. J., in this State, be and he hereby is elected a commissioner, in accordance with the statute in such case made and provided, for the term prescribed by law.

This resolution shall take effect immediately.

At the direction of the Speaker, the Clerk carried the resolution to the Senate and notified it that the House has passed the same and asks its concurrence therein.

Mr. Irwin offered the following resolution, which was read by the Clerk and adopted:

On behalf of my colleague, Assemblyman Haydn Proctor, who since the last meeting of the Assembly, having been appointed and confirmed as district court judge in Asbury Park, in the county of Monmouth, has been sworn into office and in order that the records of the House of Assembly may be complete I hereby, in behalf of Assemblyman Haydn Proctor, tender his resignation from the House of Assembly, awaiting his written confirmation.

Mr. Taggart asked unanimous consent of the House to introduce a bill.

WHEREAS, Mrs. Helen W. Coxon, the only woman representative in the Georgia Legislature, and vice-chairman of the Georgia Democratic State Committee, is in attendance at this session in the guests' gallery; therefore,

Be it Resolved, That the House of Assembly, through the Speaker, extends its greetings and best wishes to Mrs. Coxon.

Mr. Lodge offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, In the providence of Almighty God, Whose ways are inscrutable, He has seen fit to call from the midst

of his friends and his family the soul of Frederick J. Roye, the father of our esteemed colleague, the Honorable Harry Roye, Assemblyman from Camden county; and

WHEREAS, This House of Assembly, in solemn meeting assembled, do join the sorrow and bereavement of our colleague; therefore,

Be It Resolved by the House of Assembly of the State of New Jersey, That the heartfelt sympathy of this Assembly and every member thereof be extended to the family of the late Frederick J. Roye, and particularly to our colleague, Assemblyman Roye; and

Be It Further Resolved, That this minute be entered upon the record of the Assembly, and that an attested copy thereof be transmitted to the members of the bereaved family.

Mr. Bayer offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, Traffic conditions prevailing upon the Lincoln highway, between the Hackensack and Passaic rivers, constitute a menace to life and property; and

WHEREAS, In the interest of the public and the furtherance of highway safety traffic hazards should be eliminated; therefore,

Be It Resolved by the House of Assembly of the State of New Jersey, That the State Highway Commissioner is directed to undertake and complete a survey of traffic conditions prevailing upon the Lincoln highway between the Hackensack and Passaic rivers to the end that as far as possible all such hazards to highway safety may be eliminated.

The State Highway Commissioner shall transmit his findings and report to the House of Assembly at the next session thereof.

This resolution shall take effect immediately.

The Speaker directed the Clerk to deliver a copy of the resolution to the State Highway Commissioner.

The following communication and report was sent to the desk and read by the Clerk:

A report was received from the State of New Jersey Financial Assistance Commission.

State of New Jersey,
Financial Assistance Commission
State House, Trenton, N. J.

June 28, 1937.

To the Honorable Harold G. Hoffman, Governor,
and to the Senate and General Assembly
of the State of New Jersey:

I am pleased to submit herewith the report of the Financial Assistance Commission concerning the probable cost of relief during the calendar year 1937.

For the first five months of the calendar year, municipalities have reported relief commitments, exclusive of administrative expense, aggregating $7,216,773. As commitment reports are not due to be received until the 10th of the following month, municipalities were requested to estimate their June commitments. Their estimate was $1,155,742. Combining the reported commitment figures for the first five months with the June estimate, we secure a total of $8,372,515 as the cost of relief during the first half of 1937. (This figure compares with $10,096,096 for the first half of 1936.)

The cost of relief, exclusive of administration, for the second half of 1936 totaled $6,757,174. If it is assumed that the cost will be the same for the second half of 1937, a total of $15,129,689 for the year 1937 is estimated.

In the early part of March, 1937, an estimate was compiled based on actual January costs and using usual trends of relief for succeeding months. The total for 1937 produced by this method of estimating was $15,260,860—$8,101,088 for the first half and $7,159,772 for the second half of the year. If this estimate is revised by substituting current figures for the first half of the year, retaining the estimate for the last half, a total of $15,532,287 for the year is arrived at.

Using the current figure of $8,372,515 for the first six months and estimating the second six months using the same trends that were employed in the March estimate, we arrive at a figure for the last six months of $7,133,291 and an estimate of $15,505,806 for the year.

Considering the possibilities that always exist for wide fluctuations in relief costs, it is felt that the estimate of approximately fifteen and a half million dollars for the year 1937 is reasonably accurate. In the several estimates prepared, there is only a variation of 2½% between the lowest estimate of $15,129,689 and the highest estimate of $15,532,287.

In preparing our figures, no consideration was given to the probable effect on direct relief costs of a reduction in the Federal Work Relief Program. Correspondence with the WPA administrator indicates that they are not yet in a position to definitely outline their program for the next fiscal year (beginning July 1, 1937) and will not be until Congress passes the Work Relief Bill.

For data detail, reference is directed to the attached papers, viz.:

Exhibit (a) Estimated Relief Cost for 1937.

Exhibit (b) Relief Cost for First Half of 1937.

Exhibit (c) Estimate of March 10, 1937.

Exhibit (d) 1936 Relief Cost.

Chapter 43, P. L. 1937, passed May 4, estimates the total cost of relief, excluding administration, for 1937, at $12,667,660, fixing the municipalities' share or contribution at $3,000,000 and the State share at $9,667,660; funds for the latter being provided from an old ERA balance, $1,750,000, and diversion of road funds, $7,917,660.

On May 4, your director issued a circular letter to municipal officials calling their attention to the fact that they were spending for relief at a rate which indicated a trend to an annual cost of $15,000,000.

They were advised that "Unless municipal officials take firm measures to keep the cost of relief for the months of April through December, inclusive, within $8,000,000, then

a shortage of over two and a quarter million dollars will occur in the latter part of the year. Should no additional funds be provided, this would mean that local government would have to carry the entire cost of relief during the last half of November and the month of December. Governing bodies, executive and financial officers of municipalities throughout the State should give this possibility their most careful consideration."

The director personally feels that June 28 is too early a date to say with any finality what may be accomplished in relief during the balance of the year. Many municipalities are seriously endeavoring to reduce relief costs. However, our largest city estimates that their cost of relief for 1937 will probably be slightly higher than in 1936 (approximately a quarter million dollars).

It is respectfully suggested that the Legislature again review the subject of relief in the latter part of November, at which time any shortage of cash would be definitely acute. On an average, usually two months elapse after commitments are made before the Commission is called upon to make reimbursement to the municipality. For example, the Commission will not pay September commitments until November.

Respectfully submitted,

ARTHUR MUDD, *Director*
State Financial Assistance Commission.

MEMORANDUM

March 10, 1937

To Mr Arthur Mudd
From J. H Lepper

The following is the estimated relief cost for 1937 by months. The figures have been compiled on the basis of the trend that the relief cost reflects from August, 1934, to July, 1935

	1937 Relief Estimate
January	$1,460,373
February	1,438,175
March (high)	1,504,476
April	1,302.907
May	1,235,037
June	1,160,120
July	1,174,870
August (low)	930,696
September	1,048,694
October	1,286,881
November	1,322,222
December	1,396,409
	$15,260,860

In making our estimate, we used January as the basis from which to compile the other months because of the fact that January is a known quantity. The only period during which a reliable trend is available is from August, 1934, to July, 1935 The factors that distort the other months are namely: CWA, WPA, unemployment which increased the relief load in the summer months when it was natural for it to decline, and the return of relief responsibility to municipalities

1934	*Relief Cost*	*Per Cent of Change from January, 1935*	*1937 Relief Cost*

Allardice of Ocean County on their election to the honorable position of State Senator from their respective counties at the recent general election; and be it

Further Resolved, That we wish them every success in their new sphere of service.

Mr. Freund offered the following resolution, which was read by the Clerk and adopted.

Resolution expressing the thanks and appreciation of the people of New Jersey to Hiram Calkins, Charlotte C. Aycrigg, of Ridgewood, and Martin J. Hogencamp, of Paterson, for their public services, and to Erskine Hewitt for his gift to the State of New Jersey of Ringwood Manor and the adjoining land as a historic shrine.

Be It Resolved by the General Assembly of the State of New Jersey:

WHEREAS, The Legislature enacted Chapter 48 of the Public Laws of 1934, for the purpose of examining into the feasibility and practicability of acquiring, on behalf of the State of New Jersey, and for preservation as a State park, the property known as the Old Ryerson House and Burial

Grounds, located in the Borough of Ringwood, in the County of Passaic, being the former home and present burial place of General Erskine, chief geographer for General Washington, and the site of the old forge where cannon ball and other supplies were forged for the Continental Army throughout the War for American Independence; and

WHEREAS, The Legislature enacted Chapter 120 of the Public Laws of 1935, and therein appointed a Commission consisting of Hiram Calkins, Charlotte C. Aycrigg, both of Ridgewood, and Martin Hogencamp, of Paterson, for the purpose of continuing its examination into the acquisition and preservation of the Old Ryerson House, as mentioned aforesaid, and the members of this Commission having served without compensation; and

WHEREAS, Through the efforts of the members of said Commission, mentioned aforesaid, and through public interest and generosity, Erskine Hewitt has by deed of gift conveyed to the State of New Jersey ninety-five acres of land upon which is situated the Old Ryerson House and Burial Grounds, outbuildings, valuable trees and shrubbery, all of which is generally known as Ringwood Manor, and the same is now the property of the State of New Jersey, for the use and enjoyment of the people of our State as a historic shrine and public park; and

WHEREAS, It is fitting and proper that the people of the State of New Jersey, through their legislative representatives, should recognize the public spirit of citizens who have rendered a fine public work and have so eminently served the people of the State of New Jersey, without any cost to the State of New Jersey; and

WHEREAS, It is also fitting and proper that the people of the State of New Jersey, in like manner, should express their appreciation and thanks to Erskine Hewitt, for his generous gift to the people of the State of New Jersey, so that there may be preserved to future generations this historic property; therefore,

Be It Resolved, That the people of the State of New Jersey, through their duly elected representatives, believing that the establishment and maintenance of historic shrines are memorials of the glorious past and conducive to patriotism and good citizenship and public parks con-

tribute to the general welfare of all the people, do hereby acknowledge appreciation and thanks to Hiram Calkins, Charlotte C. Aycrigg and Martin Hogencamp for the public service rendered by them in the acquisition of Ringwood Manor, and to Erskine Hewitt for his invaluable gift of Ringwood Manor to the State of New Jersey.

A message was received from the Governor by the hands of his Secretary as follows and was read by the Clerk.

GOVERNOR'S SPECIAL MESSAGE

FREIGHT RATES

To the Members of the Legislature:

The Governors of the States of Alabama, Louisiana, Georgia, Florida, South Carolina, North Carolina, Mississippi and Tennessee have organized themselves into The Southern Governors' Freight-Rate Conference for the announced purpose of obtaining substantial reductions in freight rates on products moving from these States into our northern markets. Adequate funds have been provided, expert counsel employed and a Complaint against northern carriers entering southern territory has been filed with the Interstate Commerce Commission.

The hearings on this Complaint filed by the southern Governors was scheduled to begin on November 10th, in Birmingham, Alabama. In support of the principles and purposes involved in the Complaint, Congressman Ramspeck of Georgia introduced at the last session H. R. 2927, which if enacted would require the Interstate Commerce Commission to fix freight rates for southern products coming into northern markets on the basis of the lower rates obtaining in this industrial area and for northern products moving into the South on the basis of the higher rates obtaining in southern territory. The Tennessee Valley Authority has likewise submitted to the President (75th Congress, 1st Session, House Document No. 264) a report

prepared under its direction recommending that such a basis of freight rates shall be made effective.

If the prayer of the complainants should be granted by the Interstate Commerce Commission, the effects upon industry, labor and agriculture in New Jersey and in the whole northeastern section of the United States would be disastrous. The products of the South produced at lower labor costs and under other advantages which we cannot duplicate by reason of the higher living levels of our industrial population and greater production costs would come into our territory at reduced rates and our products would go into the southern area at higher rates. The consequent disturbance would result in distress and greater unemployment among our people and might very well throw this whole area back into another major depression. The trade associations, chambers of commerce and our major industries in New Jersey are seriously concerned about the outcome of this action now pending before the Interstate Commerce Commission.

The Governors of the six New England States are organizing for the purpose of presenting an effective defense before the Interstate Commerce Commission, a movement toward the same end is in progress in New York, New Jersey, Pennsylvania, Delaware and Maryland as well as in Illinois, Indiana, Michigan and Ohio. I am hopeful that within the coming weeks we may be able to perfect an organization of all of the States directly concerned and affected by the petition of the Southern Conference and that a vigorous and solid defense may be presented before the Interstate Commerce Commission.

The situation created by the action of our southern neighbors, however, is so serious in its consequences to the welfare of our own people that we cannot delay action if we are to protect their real interests. We cannot afford to wait or let this case go by default. We must act alone if it should become necessary in the protection of our own

interests. At least we must be ready. I am presenting, therefore, this matter for your consideration at this Session with the request that an appropriation of $85,000 be made immediately available in order that we may, on our own responsibility, and in co-operation with the other States concerned, employ counsel, rate and traffic experts and prepare and present an effective defense of our vital interests. This is the amount determined by Attorney-General Wilentz to be necessary to adequately represent the interests of New Jersey.

I shall not undertake to present an extended discussion of the fixing of freight rates by the Interstate Commerce Commission or the principles which underlie and determine these rates in the various sections of the country. It would seem to be sufficient to say that as a result of the intensive development of industry in the northern States, these States with their large populations have become not only the great producing centers but also the great consuming centers for the products of industry and agriculture throughout the country. The railroad and freight traffic development are much more intensive and extensive in the northeastern area than elsewhere. In consequence of this, railroad freight rates are somewhat lower in the area north of the Ohio and Potomac Rivers and, generally speaking, east of the Mississippi than in other areas of the country with less population and less intensive development. The rates on freight moving within this northeastern area are lower than those on freight moving within the southern territory. The interterritorial rates on freight moving between the North and South have been fixed and approved by the Interstate Commerce Commission at a level somewhere between the levels of the northern and the southern rates.

The present rate structure within this northeastern territory, within the southern territory and from one area to the other has been long established and accepted. We must

assume that the principles underlying this structure are sound and equitable. We in New Jersey should not nor do we oppose the efforts of the southern States to seek correction of freight rates which may be in and of themselves unjust or unreasonable. We do not fear competition on equal terms nor do we ask to be saved from it. Our concern, and I am convinced that it is as serious as it is equitable, must be about the disarrangement of interterritorial rates which will tend to syphon southern products into our consumer markets under terms and conditions advantageous only to the southern States, which will deny our products the same advantages in moving to southern markets and which will unsettle our whole industrial and labor economy in this northeastern area.

The Complaint recites that the adjustments sought, one-sided and calculated as they are to upset industry and labor and investment in this whole area, are in national interest and in pursuance of national purpose. We in New Jersey must insist that whatever policies, public or otherwise, which must result in the closing of industrial plants, the reduction of labor opportunities, in greater unemployment, the discouragement of investment, and the narrowing of markets for our own products in this great northeastern area, are likewise of national concern and of national purpose. The people in these northeastern States cannot fail to heed the lesson of the wholesale loss of the textile industry to the South and of the continuing flight of other industries in the same direction in search of cheaper labor, cheaper housing, tax and other advantages.

I repeat—we should seek no unfair advantages over any other section of the country. But I would fail in my responsibilities if I did not emphasize the importance of this pending action and urge that every necessary provision be made for the protection of the real interests of our own people, of our own industries, and a vigorous presentation of our defense in co-operation with all of the other States affected.

I trust that you will see your way clear to act promptly in this matter.

Respectfully submitted,

HAROLD G. HOFFMAN,
Governor of New Jersey.

GOVERNOR'S SPECIAL MESSAGE

LOW-RENT HOUSING PROJECTS

To the Members of the Legislature:

Under the United States Housing Act of 1937, New Jersey has the opportunity of obtaining, through enabling legislation in our State, an estimated sum of $25,000,000 of Federal money for slum clearance and low-rent housing projects in our State. The major portion of this substantial fund will be expended for wages, equipment and building materials. A similar opportunity is, of course, extended by this act to other States, and many of them have already enacted such enabling legislation. The Legislature of New Jersey should immediately adopt an enabling act if the State is to receive any consideration in the distribution of the Federal fund. Without such legislation, New Jersey cannot meet the conditions imposed by the Federal act.

For the last few years the State Housing Authority, created under State law, has been in charge of a housing program in New Jersey. It has had no funds for the construction of the many housing projects which have been

submitted to it. It has secured for New Jersey two projects which were constructed by the Federal Public Works Administration. Its functions, however, have consisted mainly in gathering important information dealing with low-rent housing and slum clearance. At the present time this authority is the only New Jersey governmental agency which has assembled and co-ordinated such information on a State-wide basis. Under agreement with Rutgers University, it has set up at that university a unit which is engaged in compiling and co-ordinating all available housing data. This important task is being performed efficiently. The personnel engaged in the work has been selected by representatives of the University.

Under the Federal act, the term "Public Housing Agency" is defined as "any State, county, municipality, or other governmental entity or public body." This would of necessity include the State Housing Authority.

Hon. E. H. Foley, Jr., general counsel for the Federal Emergency Administration of Public Works, has questioned the legality of bonds issued by our State Housing Authority on the ground that the bonds might be affected by a restriction in our State Constitution, prohibiting an indebtedness in excess of $100,000 without a State-wide referendum. While many members of high standing at the bar of New Jersey maintain that such bonds would be legal, any judicial test of their legality would subject the program to serious delay, and this would imperil it in its initial stages.

Generally we all agree today that slum clearance and low-rent housing are not controversial political issues. All important social agencies are in accord that we must eradicate our blighted areas. While in common with others in this State I have been opposed to the participation of the government in private business, I regard the situation pertaining to slum areas as an exception justifying governmental assistance because private capital has not been

available to solve the housing problems which affect so many of our under-privileged citizens.

Numerous requests, prior to and subsequent to the enactment of the Federal law, have been made to the State Housing Authority for the approval of municipal housing projects. Many resolutions have been adopted by representative bodies throughout the State, urging the Governor and the Legislature to expedite enabling legislation in New Jersey. Furthermore, I received, under date of October 20th, a letter from Hon. Charles West, Acting Secretary of the Interior, stressing the importance of immediate action. I have been advised that, without such action, the Federal fund may be distributed elsewhere, thus depriving New Jersey of its present opportunity. No distribution of the fund has been made as yet.

Under the Federal plan, loans secured by the revenues of housing projects will be made by the Federal government. In addition to such loans, annual contributions and outright grants may also be made by the Federal government, on condition that a benefiting municipality will in some way match a portion of such Federal payments. Without enabling legislation, municipal contributions would be legally impossible.

Among municipal bodies and other organized groups in New Jersey which are urging the passage of enabling legislation, it is generally felt that there should be co-ordination within the State, and that this can best be brought about through regional or local authorities working under and through our established State Housing Authority.

It is apparent that, in the more densely populated areas of the State, what one municipality may do as to its housing problems will have a direct bearing on the plans of contiguous or nearby municipalities. With a centralized State control, a clearing house for information and assistance in dealing more promptly with local problems would be

not only useful but essential. The legal question raised by Mr. Foley, of issuing bonds not affected by our constitutional provisions, would be solved by establishing regional or local authorities, and these local agencies would issue the bonds required under the Federal plan.

Under the new Federal housing plan, the State of New Jersey will not be required to contribute any part of the fund for building or maintaining local housing projects. No municipality will be required to contribute any sum whatsoever unless it voluntarily participates in the Federal housing program by sponsoring a project within its corporate limits.

I need not dwell upon the fact that slum clearance and low-rent housing have been projected to the forefront of important governmental problems within recent years; that slums are breeding grounds for crime and disease, unrest and discontent; that it is a sad but true travesty on justice that we have on our statute books laws which make cruelty to animals an offense, and that our advanced civilization permits the greater cruelty of housing human beings in hovels unfit even for the habitation of a beast. The force of enlightened public opinion brought about the passage of the United States Housing Act of 1937. Enlightened public opinion will guide our decision on this important matter in our State.

The knowledge and experience gained by the State Housing Authority includes important statistical information obtained through surveys undertaken as relief projects at a Federal cost exceeding a million dollars. This material will be of great value to us in the furtherance of our work in New Jersey if we co-ordinate with the Federal plan.

Municipal bodies and civic groups in New Jersey, as well as housing officials at Washington, have importuned me to expedite legislative action, even to the extent of calling a special session of the Legislature. I was reluctant to

take such special action on the eve of election, when so many members of the Legislature were engaged in campaign activities; but I promised the various interested groups that I would present the matter to the Legislature when it reconvened on November 15th.

Under the circumstances, I now urge prompt action by the Legislature to the end that New Jersey shall meet her full responsibility in the solution of a problem so vital to the welfare of thousands of citizens of our State.

HAROLD G. HOFFMAN,
Governor.

GOVERNOR'S SPECIAL MESSAGE

BANKING

To the Members of the Legislature:

Assembly Bill No. 348, to amend "An act concerning trust companies," introduced by Assemblyman John B. Rooney, passed the House and failed of action in the Senate. This amendment was designed to meet an emergency resulting from the depression years that yet faces at least three banking institutions in the State.

I am advised by the Commissioner of Banking and Insurance and other responsible bankers that it is highly urgent that the amendment proposed shall be given further and prompt consideration in order to protect old depositors and preferred stockholders in the institutions concerned.

I am therefore calling it to your particular attention at this adjourned session.

This proposed amendment authorizes any trust company in liquidation or in contemplation of liquidation to be an incorporator of, subscribe to, and acquire shares of the capital stock of the new, or successor, company. Under its provisions the successor company may accept assets of the liquidating company in the purchase of its capital stock. This procedure can be followed only with the approval and consent of the Commissioner of Banking and Insurance.

The Banking Department advises that many millions of dollars of assets now on the books of the institutions concerned will be released under the authorization provided in Assembly 348, that funds may be much more quickly released to depositors and preferred stockholders, that definite benefits will accrue to old depositors and that this authorization is in support of the sound protection of depositors and investors involved. This measure has the approval of the Banking Advisory Board and that Board joins with the Commissioner of Banking and Insurance in recommending its passage.

I urge your immediate consideration and action.

Respectfully submitted,

HAROLD G. HOFFMAN,
Governor of New Jersey.

November 30, 1937.

Hon. Harry E. Bischoff,
118—48th Street,
Weehawken, New Jersey.

My dear Harry—I hereby designate you as the Speaker *pro tem.* to open the House of Assembly on December 20, 1937, at the time designated in the resolution adopted.

Sincerely yours,

(Signed) Thomas Glynn Walker.

Mr. Bischoff presented the following communication, which was read by the Clerk and ordered spread in full upon the minutes.

STATE OF NEW JERSEY,
DEPARTMENT OF STATE,
TRENTON, December 3, 1937.

Hon. Alexander Crawford,
Trenton, N. J.

DEAR SIR—I have received and filed under date of November 30, 1937, the resignation of Thomas Glynn Walker as a member of the General Assembly of the State of New Jersey from Hudson County.

Yours very truly,

(Signed) THOMAS A. MATHIS,
Secretary of State.

Mr. DeVoe offered the following resolution, which was read by the Clerk and adopted and ordered spread in full upon the minutes.

Resolved, That the House of Assembly take this opportunity to express to the Honorable Thomas Glynn Walker, its Speaker, the sincere appreciation of its members for the fair, dignified and thoroughly impartial manner in which he has presided over its deliberations during the session of 1937, and that the House congratulate him upon the careful and painstaking manner in which he has conducted its affairs, whereby the business has been disposed of in a methodical manner with regard to and respect for the interests of the members in pending legislation, and with a high purpose to serve the best interests of the State; his eminent fitness to preside, his kindly consideration and thoughtfulness have made for him a place in the affections of the entire membership of this House; they wish him long life and prosperity and wish for him higher political honors in the future.

Mr. Artaserse offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the House do now proceed with the election of a Speaker to fill the vacancy caused by the resignation of Thomas Glynn Walker, of Hudson.

Mr. Artaserse nominated Mr. Fred DeVoe, of Middlesex, as Speaker of the House.

The following seconded the nomination of Mr. DeVoe as Speaker of the House:

Messrs. S. Pesin, H. Pascoe and Mrs. E. Brady.

Which motion, upon a viva voce vote, with the ayes and nays being called was declared carried.

STATE OF NEW JERSEY,
HOUSE OF ASSEMBLY.

REPORT OF SUMMARY INVESTIGATION OF MUNICIPAL EXPENDITURES OF THE CITY OF WILDWOOD, COUNTY OF CAPE MAY, STATE OF NEW JERSEY, BY AN ASSEMBLY COMMITTEE APPOINTED BY THE SPEAKER PURSUANT TO THE PROVISIONS OF ASSEMBLY RESOLUTION NO. 4 OF THE LAWS OF 1937, TO MAKE A SURVEY OF ALL QUESTIONS OF PUBLIC INTEREST AND TO INVESTIGATE, AMONG OTHER THINGS, VIOLATIONS OF LAW AND THE CONDUCT OF ANY STATE, COUNTY OR MUNICIPAL COMMISSION, BOARD, BODY OR DEPARTMENT, TO THE GENERAL ASSEMBLY.

We, the undersigned, appointed as members of a committee of five by the Speaker on the 24th day of February, 1937, pursuant to the provisions of Assembly Resolution No. 4, did conduct a summary investigation of the municipal expenditures of the City of Wildwood and the conduct of its Board of Commissioners and its various municipal departments and we submit herewith our report and the results of said investigation.

The Committee organized with Hon. Harry E. Bischoff as its chairman and Hon. Alex Crawford as its secretary; it appointed J. Victor D'Aloia, Esq., of the City of Newark, to act as its counsel and engaged the firm of Boyce, Hughes and Farrell, of New York City, certified public accountants, to make an examination of all books, documents, vouchers, correspondence, payrolls, checks and all records, including the minutes of all meetings, regular, adjourned or special of the City Commission or any subdivision thereof or committee, board or commission, directly or indirectly controlled by the municipal government together with all other paper-writings, books, records and documents in the archives of the said City of Wildwood, from January 1, 1930, to date.

The City of Wildwood, its governing body and officers were represented by counsel who took part in such investigation and who were permitted to examine and cross-examine witnesses; public hearings were held within the County of Cape May, to wit: at Cape May Court House during the months of April, June and September, 1937, and

in the City of Wildwood during the latter part of September and the months of October and November, 1937.

These public hearings were held on the following days: April 27th, April 28th, April 29th, June 8th, June 9th, June 10th, June 23d, June 24th, September 14th, September 15th and September 16th, 1937, at Cape May Court House; September 22d, September 23d, September 24th, September 28th, September 29th, September 30th, October 6th, October 7th, October 8th, October 14th, October 15th, October 20th and November 23d, 1937, in the City of Wildwood.

At the hearings the appearances were as follows:

For the Committee—J. VICTOR D'ALOIA, Esq.

For the City of Wildwood—HARRY TENENBAUM, Esq., City Solicitor of the City of Wildwood. Hon. MERRITT LANE, JOHN J. CLANCY, Esq., and ANDREW J. CAFIERO, Esq., Special Counsel for the City of Wildwood, the Commissioners of Wildwood and the Officials of Wildwood.

Although no resolution of the governing body of Wildwood was ever brought to the attention of this Committee indicating the appointment of the above named counsel, nevertheless, we considered it only fair that all persons who might be affected by any testimony produced before us should have an opportunity not only to examine the witnesses called by us, but should also have an opportunity to present testimony in explanation or justification of anything done or performed by them as commissioners, officials or employees of the City of Wildwood.

Our report and findings are based entirely upon the testimony given before us, under oath, at these public hearings, as set forth in the stenographic record of same and upon the many exhibits made a part of that record.

The City of Wildwood is governed by a Commission form of government under and by virtue of the provisions of what is commonly known as the "Walsh Act." The Commissioners are three in number and those holding office, at the time your Committee undertook this summary investigation and who were elected at the May, 1936, Election, were and are as follows:

Doris W. Bradway, Mayor and Director of the Department of Public Affairs and Public Safety;

Roland Corson, Commissioner and Director of Revenue and Finance;

Frederick W. MacMurray, Commissioner and Director of the Department of Streets, Parks and Public Property.

At the election held in May, 1932, the Commissioners elected were: William H. Bright, Kenneth K. Kirby and Frederick W. MacMurray. On August 4, 1932, following the death of Commissioner Kirby, Doris W. Bradway was selected as Commissioner and also put in charge as Director of the Department of Revenue and Finance. Subsequently in August, 1933, upon the death of William H. Bright, Doris W. Bradway became Mayor and Roland Corson was selected Commissioner and placed in charge as Director of the Department of Revenue and Finance.

The various City Departments and the Commissioners in charge thereof, from 1928 to date and their subdivisions, together with the non-departmental bureaus, are as follows:

DIRECTOR OF PUBLIC AFFAIRS AND PUBLIC SAFETY
MAYOR

ROBERT C. PIERPONT, May, 1928, to May, 1932.
WILLIAM H. BRIGHT, May, 1932, to August 5, 1933.

Commission has charge of all parks, playgrounds, tennis courts and athletic fields, directs their operation, care, repair and improvements, and functions to provide and promote entertainment for guests and controlled play for children.

In order to maintain the foregoing departments and the subdivisions and bureaus of each department and to meet its debt service, the budgetary requirements of the City of Wildwood for the year 1936 were $681,949.71 and the tax levy was $703,797.47.

The investigation has been directed to the following subjects of inquiry:

1. Over-expenditures by the Commissioners as Against Appropriations.
2. Rebates of Interest on Taxes.
3. Examination of Payrolls.
4. Automotive Equipment, Purchases and Repairs.
5. Deficit Cash Position and Use of Surplus Revenues.
6. Increase in Operating Costs of the Municipal Government.
7. Purchases and Payments Without Competitive Bidding.
8. Publicity and Advertising.
9. Vouchers and Method of Disbursing Municipal Funds.

OVER-EXPENDITURES BY THE COMMISSIONERS AS AGAINST APPROPRIATIONS

Our examination of the financial set-up of the City of Wildwood, from 1933 to date, reveals a continuous disregard of statutory requirements with reference to appropriations and budgetary accounts; in many instances appropriations have been over-expended and transfers from one budgetary account to another have been made illegally and improperly; figures have been juggled and totals have been arrived at without any consideration given to the various items from which they were derived. The statute governing said financial transactions has been repeatedly and

wantonly violated and the Commissioners, particularly the Mayor, have evinced a woeful lack of knowledge of the provisions of the statute although the Mayor had been the Director of the Department of Revenue and Finance for a year prior to becoming Mayor; she was unable to explain any of the many illegal and improper transactions which are palpably evident from a perusal of the audits made since she has been the head of the City Government. Where an over-expenditure is anticipated there is statutory provision for the creation of an emergency authorization and the issuance of emergency notes to finance any additional expenditure. This was not observed in numerous instances noted in Schedules "A", "B", "C", and "D" hereunto annexed and made part of this report, which schedules show the computation of unexpended balances and over-expenditures of appropriations during the years 1933, 1934, 1935 and 1936.

The municipal accountant was derelict in not warning the City Officials and its financial officers each year of their failure to comply with the statute.

REBATES OF INTEREST ON TAXES

On the 10th day of December, 1935, a resolution (Exhibit "C-3") was introduced and passed by the Commissioners to rebate interest on taxes due and levied on divers properties. The first property, upon which interest was rebated, was Lot No. 9, Block No. 9, in the City of Wildwood, owned by Doris W. Bradway and Edwin T. Bradway, the Mayor and her husband. The resolution was adopted, with her vote, at that meeting: The preamble of the resolution sets forth, as a reason for such action, the fact that the assessed valuation of each listed property was questioned. Mayor Bradway admitted, under oath, that no one questioned the assessed valuation of the lot owned by her and her husband at or before the meeting of December 10, 1935. The reason for asking that rebate was the dire financial condition of herself and her husband. A similar resolution was adopted by the Commissioners, with her vote, on August 24, 1937, setting forth the same fact as a reason, to wit: That the assessed valuation of said Lot No. 9, Block No. 9, was questioned. She could not recall whether the assessed valuation had been questioned at the August 24, 1937, meeting. She

testified that her dire need of financial assistance on August 24, 1937, was as great as her need on December 10, 1935, but when asked whether or not she and her husband had, on August 1, 1937, twenty-three days before, acquired and paid for various parcels of real estate situated in North Wildwood, she declined to answer.

The Committee looks upon her testimony, with reference to the rebates of interest in favor of herself and her husband, as untrue; that she was not in dire need of financial assistance on August 24, 1937, and her refusal to answer questions pertaining to the purchase by her, her husband or the E. T. Bradway Corporation, of real estate in North Wildwood, on August 1, 1937, clearly indicates that fact. She refused to state whether or not she or her husband or the E. T. Bradway Corporation had paid cash or by check for about twenty-four parcels of land on August 1, 1937. None of the assessed valuations, of the properties set forth and listed in the resolutions adopted at the meetings of December 10, 1935, and August 24, 1937, respectively, was ever questioned by the owner thereof and said false statement set forth in the resolutions, as adopted, was made the basis of interest rebates solely for the purpose of benefiting the Mayor and other owners of property who were and are favorites of her administration.

EXAMINATION OF PAYROLLS

The Committee examined the payrolls for the years 1932, 1933, 1934, 1935 and 1936 and found a great increase in pay vouchers just before elections. Many of the employees, temporary or otherwise, were and are supporters of the present administration and it is one of the main reasons for the increase in the operating costs of the City Government of the City of Wildwood during the time Doris W. Bradway has been mayor. Unnecessary, extra and temporary employees were put on the payroll and paid so-called wages simply because they were supporters of her administration. Her employment manager was one George Fowler and the Committee found that there is now a city check for $9.60, dated November 14, 1933, in the possession of one John Henry White, colored, uncashed, because he testified, under oath, he never did any work for it. White returned the check the same day he received it, but it was redelivered to him at his home in January, 1934, brought

there by someone from the City Hall. It is charged to the Water Department which was then under the control of Mayor Bradway; John Henry White was never an employee of the Wildwood Water Department and being a scrupulously honest negro, never cashed it and the check is still in his possession. (Exhibit "C-59").

AUTOMOTIVE EQUIPMENT, PURCHASES AND REPAIRS

In March, 1935, the Board of Commissioners of the City of Wildwood rejected a bid of $34,500.00 for a three year garbage collecting contract and decided to collect its own garbage. This work was assigned to the Department of Streets, which was then and now is under the direction of Commissioner MacMurray. Second-handed trucks were purchased, admittedly too light for the work, at a cost of $6,000.00. The repairs to date on those trucks alone amount to $4,705.00 all paid to Bright's Garage. This garage was and still is owned by one Webster C. Bright, also known as "Webbie" Bright, a protegé of Doris W. Bradway. Webster C. Bright was, until the 17th day of November, 1937, the president of the Wildwood Board of Education. Bright was subpœnaed to appear before this Committee as a witness and he attended the hearing at Cape May Court House, on September 14, 1937, but was not called to the stand; after September 14, 1937, all attempts to compel him to attend and testify were unsuccessful. The Committee was informed that he had closed up his residence at Wildwood and had gone to Florida, leaving hurriedly by plane just before the first hearing began in Wildwood on September 22, 1937. We find that Webster C. Bright has received about $36,000.00 from the City of Wildwood for repairs on its automotive equipment since Doris W. Bradway has been Mayor; the Committee would have been very much interested in his explanation of many vouchers and checks paid to him and to his garage for alleged repairs to the City cars. We feel that he fled the jurisdiction, although under subpœna, because he feared interrogation about his dealings with the City of Wildwood. An idea of the magnanimity of the City of Wildwood toward Webster C. Bright might be gathered from the fact that a Pontiac automobile, a city car which cost originally $800.00 and was used by his cousin Nobel Bright, as the Deputy-Assistant Health Director, needed, during a period of ten months,

eleven tires and twelve tubes and was the subject of eighteen repair jobs all done on it by Bright's Garage, from January to November, 1936. The total cost of the tires, tubes and repairs on that Pontiac car was $900.00. Besides, Webbie Bright furnished the City with oil burners, linoleum, paint, roofing materials and also advanced cash to the City's advertising and publicity bureau when the bureau head was vacationing at Miami, Florida. In January, 1936, two automobiles were sold to the City by one Ralph Goldinger. Their cost was $428.00 and $698.86, respectively; Goldinger took in trade two old cars for which he made the City an allowance of $200.00. It appears from the testimony that Webbie Bright wanted a commission of $50.00 on the sale of these two cars to the City; this is how he tried to get it: One of the old cars, taken in trade by Goldinger, was sold to the Mayor's husband, Edwin T. Bradway, for $30.00; the sum of $5.00 was paid on account to Goldinger, leaving a balance of $25.00, which Mr. Bradway was holding out for Webbie Bright's cut. On June 8, 1937, when Goldinger was served with a subpœna to appear before this Committee, he called up Mr. Bradway, the Mayor's husband, and threatened to disclose to this Committee, if and when called as a witness, the details of the deal; the Mayor's husband paid the $25.00 to Goldinger on June 21, 1937; Goldinger, having been paid by Bradway in the latter part of June, 1937, when called to the stand as a witness on September 24, 1937, tried to deny the details of the attempt made by the Mayor's husband to collect Bright's commission.

During the years 1932 and 1933, Webster Bright had been collecting for repairs on City owned automobiles; the work was done by others but the bills paid by the City were made out in the name of Webster Bright and paid to him. A witness, Calvin Jordan, Sr., owner of a garage in Wildwood, had been repairing City cars, but in 1934 he refused to pad a bill for repairs on a City car when requested so to do by Webbie Bright; as a result Jordan got no more work and was compelled to close up his garage. He is and has been since 1934, to use his own expression, "out in the country," because Webster Bright then went into the garage business and since that time Bright's Garage has monopolized all the work on City owned cars.

DEFICIT CASH POSITION AND USE OF SURPLUS REVENUES

The following was the deficit cash position of the City of Wildwood as shown by an examination of the records:

December 1933 cash deficit was....	$548,095.70
December 1934 cash deficit was....	414,388.57
December 1935 cash deficit was....	507,074.15
December 1936 cash deficit was....	494,278.73

Notwithstanding these large deficits, the Commissioners saw fit to appropriate, from surplus revenue (non-existent in cash), the sums of $35,000.00 and $30,000.00 to support the budgets of the years 1935 and 1936, respectively, in direct violation of the State Auditor's regulations that surplus revenue, to be appropriated, must exist in cash on the first day of January of the year of the appropriation. This action of the Commissioners further tended to aggravate the City's financial position.

INCREASE IN OPERATING COSTS OF GOVERNMENT

In the year 1932, when Doris W. Bradway took office as Director of Revenue and Finance, the Mayor of the City of Wildwood was Ex-Senator William H. Bright and his policy was strict economy in the municipal government. Actuated by this motive, he supervised the preparation of the 1933 budget and operating costs were fixed at $190,000.00. Upon his death in August, 1933, Doris W. Bradway was elevated to the office of Mayor. In 1934, the operating costs of government mounted to $241,000.00, an increase of $51,000.00; in 1935 they still kept going up and amounted to $312,000.00, an increase of $71,000.00 over the preceding year; and in 1936 the operating costs reached the stupendous figure of $421,113.00, all exclusive of debt service and other mandatory items. During these years she was and still is the Mayor of the City of Wildwood. No explanation could be elicited from her. Innumerable questions were asked which she refused to answer and insofar as any financial matter was concerned, she professed abysmal ignorance and proclaimed, under oath, that she was and is very "dumb."

PURCHASES AND PAYMENTS WITHOUT COMPETITIVE BIDDING

When two automobiles were bought by the City in January, 1936, instead of making it one purchase it was divided into two because the total cost was over $1,000.00. The Committee found after an examination of vouchers that four separate purchases of fire-hose, from the same concern, B. B. Goodrich and Company, were made as follows:

December 13, 1932	$977.50
December 27, 1932	938.40
January 24, 1933	957.94
February 28, 1933	957.95

When the Mayor, who was the Director of Revenue and Finance during the months of December, 1932, January and February, 1933, was asked if the purchases of fire-hose were split up so as to avoid competitive bidding, her answer was "so what?".

PUBLICITY AND ADVERTISING

This department is known as "Advertising and Publicity," a sort of promotional unit. The Director of Publicity is Marshall Bainbridge. He receives a salary of $2,140.00 per year. In 1936 Howard Topham was made Assistant Director of Publicity at a salary of $300.00 per year. Topham was and is manager of the Huf Fish Company. He took a trip to St. Augustine, Florida, in the spring of 1936 and a trip to Portland, Maine, in October, 1936. These trips were made by automobile accompanied by his wife and the expenses were paid by the City of Wildwood. The purpose of the trips was the advertising of the fishing advantages of Wildwood to the fishing industry. Net result of the two trips taken in 1936 was the sale of 30,000 lbs. of fish by Topham's Company in September, 1937. Cost to Wildwood, $300.00 salary, $200.00 expenses. Topham was and is a supporter of the Bradway Administration and Bainbridge, under oath, admitted that Topham's employment as Assistant Director of Publicity was unnecessary.

In the year 1933, advertising cost the City of Wildwood $7,000.00 but in the year 1936, it reached the total of $44,252.61 for a twelve-month period. An example of how

some of the money was spent by Mr. Bainbridge is found during the months of January and February, 1936. The Advertising Manager went to Miami on a vacation the last week of January, 1936; Mayor Bradway had preceded him by several weeks; she was staying at the Grand Plaza Hotel on Indian Creek Drive; Bainbridge went to the same hotel. Webster C. Bright was also vacationing at Miami; without authorization and without any appropriation given to the Advertising Manager of Wildwood, he immediately, on January 28, 1936, borrowed $100.00 in cash from Webster C. Bright; a regular form voucher was typewritten at Miami, setting forth that said sum was "an advance to the Publicity Bureau"; the affidavit to this voucher was signed with the name of "W. C. Bright" and it appears to have been notarized in the City Clerk's office in Wildwood. Another voucher, dated February 3, 1936, for "funds advanced to Publicity Bureau for distribution of 5,000 booklets in real estate, hotel and information bureaus, in Miami and Miami Beach, and Publicity" appears to have been approved by the Commissioners and the Mayor on February 11, 1936, the affidavit to this voucher is signed "W. C. Bright c/o H. P. G." It is admitted that on both dates Webster C. Bright was in Miami, Florida, but the affidavit appears to have been sworn to at the City Clerk's office in the City of Wildwood on February 11, 1936, before the Assistant City Clerk. The Mayor had returned from Florida on February 11, 1936, and voted approval of this second voucher, which, like the first, was made payable to Webster C. Bright. When interrogated, the Mayor had no knowledge of this advertising expense at Miami; Bainbridge admitted that, although she was staying at the same hotel, he never consulted her about the advertising program at Miami nor did he make known to her the fact that he had borrowed from Webster C. Bright $100.00 in cash on two occasions; he could not satisfactorily explain why the vouchers were filled out on regular printed blanks and made payable to W. C. Bright with the affidavit on each apparently sworn to at Wildwood, in the City Clerk's office, while the affiant was in Miami. The whole story sounded incredible but it appears palpably evident that the City of Wildwood paid $200.00 for someone's twelve-day stay at Miami, Florida. Webster C. Bright might have explained it but he fled to Florida early in September, while under

subpœna and has not as yet returned. His resignation, as President of the Wildwood Board of Education, was tendered by mail and acted upon and accepted by the Commissioners at their meeting of November 17, 1937; the Mayor with the vote of Commissioner MacMurray, elected herself successor to Bright as President of the Wildwood Board of Education.

No adequate explanation or reason was given us justifying the enormous advertising expense during the year 1936 except that it was under the exclusive supervision of Marshall Bainbridge and his deputy, C. Howard Topham, without any apparent check or control on the part of the Mayor and the Commissioners.

VOUCHERS AND METHOD OF DISBURSING MUNICIPAL FUNDS

The following witnesses were examined upon this subject:

C. A. Heil, Jr., City Clerk—

Mr. Heil is and has been City Clerk of the City of Wildwood for over ten years; he was interrogated exhaustively on this subject of vouchers and checks and the method of disbursing municipal funds. His complete and extensive testimony shows that city funds were paid out on hundreds of vouchers illegally and improperly made out; that the affidavits attached to the vouchers, the most important part thereof provided by law, were, in numerous instances, not filled out; many of the affidavits bear no signature of the affiant although notarized by the witness as City Clerk or by the Assistant City Clerk; many of the signatures to the affidavits are palpable forgeries and in several instances the signature of the affiant appears to be in the same handwriting as that of the City Clerk, whose signature as notary also appears thereon. Mr. Heil admitted that the municipal Auditor had, in his audit reports, called the attention of the Mayor and the Commissioners to the fact that the vouchers were not made out in legal and proper form but that neither he nor the Commissioners had heeded the admonition of the Auditor; subsequent vouchers were made out and approved for payment, in the same illegal manner, without the proper sworn statement attached thereto as required by law.

Doris W. Bradway, Mayor—

This witness, when called upon to explain the irregular, improper and illegal vouchers which were called to her attention, admitted under oath that she had never taken the trouble to scrutinize, note the contents of or examine any voucher signed and approved by her either as Director of Revenue and Finance or as Mayor; that when Mayor Bright was living and during the time she was Director of Revenue and Finance, she would sign any document bearing the signature of Senator Bright without question; she further admitted that, until informed by our Counsel, she had never known that an affidavit, properly and legally signed and sworn to by the claimant, was required by law to be attached to all vouchers before approval for payment; she made an attempt to excuse her woeful lack of knowledge by insisting that she was "dumb"—yes, "very dumb"—and then by stating that when she became a Commissioner, in August, 1932, and was made Director of Revenue and Finance, the transition from housewife to manager of the fiscal affairs of the City of Wildwood was much too great. No credence can be given to her plea of ignorance because the minutes of Commission meetings for several years prior to her becoming a Commissioner show that she regularly attended them not as a spectator but as a well informed objector to the passage of ordinances; arguing petitions for the reinstatement of discharged City employees and that she had often taken the floor at the Commission meetings and had discussed intricate questions of land titles involving beach and other properties which were the subject of the ordinances which the municipal body had under consideration. When asked if she was not the same Doris W. Bradway who had attended those Commission meetings in 1930 and in 1931, she refused to answer. Her refusal to admit her identity as the Doris W. Bradway versed in municipal governmental affairs and experienced as a chronic objector, and her spurious plea of ignorance offered in an attempt to excuse her official signatures approving hundreds of illegally prepared vouchers involving the disbursement of thousands of dollars of the City's money, has convinced your Committee that it is an impossibility to obtain from her any truthful explanation on any phase of her conduct as the Director of Revenue and Finance of the City of Wildwood from August, 1932, to

August, 1933, and as Mayor from August, 1933, to date. A perusal of the stenographic record shows the effrontery and temerity with which she attempted and did defy the Committee; she proved neither helpful nor willing to help the Committee, but her demeanor on the witness stand impressed us with this evident fact: that her colleagues in the City government have been and are compelled by her to do her bidding and to follow her orders, whether legal or illegal, proper or improper, right or wrong, and she defies the world to question any action dictated by her.

Frederick MacMurray, Commissioner—

This witness has been since May, 1932, and still is the Director of Streets, Parks and Public Property. No information about any of the irregular and illegal vouchers and apparent padded payrolls found applying to his department could be elicited from this witness; he knows nothing about the expenditures of money used to carry on his department and has no knowledge of the functions of any of the subdivisions thereof; several adjournments were taken to give him time to look up information desired by the Committee, but he returned to the stand only to inform us that, in his estimation, he considers himself "a pretty good Commissioner."

Philip W. Decatur—

This witness has been the Superintendent of Streets during the year 1932 and still is.

This witness reluctantly admitted, after several attempts to lie about it (page 1543 *et seq.*), that he signed the names of numerous alleged affiants to the affidavits attached to pay vouchers all of which appear to be notarized by the City Clerk or the Assistant City Clerk. None of the alleged affiants was ever sworn to the affidavit bearing his name; this procedure was palpably illegal and criminal.

George Fowler—

This witness seems to have been in charge of hiring men when ordered so to do. No explanation was forthcoming regarding any of the pay vouchers called to his attention. A voucher is dated November 14, 1933, and a City check thereon was made payable to one John Henry White for work in the Water Department. White tried to tell them at

the time that he had not worked in that department and the check was returned by him the same day he received it, but in January, 1934, the check was re-delivered to him at his home. White still had it in his possession when called as a witness on October 15, 1937. He stated that he was not entitled to the money and had never cashed the check.

The record shows that this favorite supporter of the Mayor, with many important duties to perform, particularly the hiring and employing of labor for the City, has a past which includes several convictions of crime. At various times he has graced the Georgia "Chain Gang" and the penitentiary of the neighboring Commonwealth of Pennsylvania, but this record has apparently qualified him for the political job he is doing and has been doing for Mayor Bradway at Wildwood.

Considering the testimony given, under oath, by the City Officials and the other witnesses who were examined before this Committee, we can only arrive at the following conclusions:

We find that the municipal affairs of the City of Wildwood since Doris W. Bradway became a member of the City Commission, first as Director of the Department of Revenue and Finance and then as Mayor, have been administered by her, her colleagues and her appointees principally to benefit herself and themselves, politically and otherwise. The record discloses a corrupt, selfish and unthinking administration of public affairs to the detriment of the citizens and taxpayers of the City of Wildwood whose interests the elective and appointive officials have failed to protect although sworn so to do. Instead of trying to help the needy during the past four years the Bradway Administration has made no attempt to meet the emergency but the City funds have been liberally used to promote her political fortunes and those of her henchmen and supporters.

We find that loading the City payroll, at her dictation, has been resorted to especially around election times; this has resulted in exhausting appropriations and in augmenting the operating costs of government to such an extent that the taxpayers are burdened with a staggering tax rate of over $9.00 per hundred dollars of assessed valuation.

We respectfully recommend that this entire record be referred to the proper authorities for their consideration as to whatever appears herein to constitute violations of the criminal law, not specifically set out in this report, with instructions to prosecute any and all officials guilty of willfully and corruptly betraying the trust reposed in them by the citizens of the City of Wildwood.

We further recommend that appropriate legislation be enacted, having as its object the absolute safeguarding of public funds providing that, where such funds are administered by elected or appointed officials, they shall be held strictly accountable for their acts in the receipt and disbursement of same; said legislative acts to provide adequate penalties for any violation thereof.

Further: Whereas the witnesses Webster C. Bright and Ralph Goldinger have, by their contumacious conduct, impeded and obstructed this investigation and have prevented this Committee from obtaining necessary and material information, to wit:—Webster C. Bright, by fleeing the jurisdiction while under subpœna to appear before this Committee; Ralph Goldinger, by false and perjured statements made to the Committee: We recommend that proper steps be taken by this House of Assembly to have said Webster C. Bright and Ralph Goldinger taken into custody and brought before the Bar of the House to be dealt with in accordance with what this House shall consider proper and just in the premises.

The following message was received from His Excellency, the Governor, and motion made that the message be received and spread in full upon the Minutes:

GOVERNOR'S SPECIAL MESSAGE RELATING TO UNEMPLOYMENT COMPENSATION

December 20, 1937.

To the Members of the Legislature:

The Unemployment Compensation Commission at its meeting Friday, December 17, 1937, recommended the passage of legislation amendatory of the Unemployment Compensation Law, Chapter 270, P. L. 1936. The Unemployment Compensation Law has been in operation during the past year. In the main it has worked out very satisfactorily toward attaining the objectives of that legislation as stated in the declaration of the act, reading:

> "Economic insecurity due to unemployment is a serious menace to the health, morals, and welfare of the people of this State. Involuntary unemployment is therefore a subject of general interest and concern which requires appropriate action by the Legislature to prevent its spread and to lighten its burden which now so often falls with crushing force upon the unemployed worker and his family. The achievement of social security requires protection against this greatest hazard of our economic life. This can be provided by encouraging employers to provide more stable employment and by the systematic accumulation of funds during periods of employment to provide benefits for periods of unemployment, thus maintaining purchasing power and limiting the serious social consequences of poor relief assistance. The Legislature, therefore, declares that in its considered judgment the public good, and the general welfare of the citizens of this State requires the

enactment of this measure, under the police powers of the State, for the compulsory setting aside of unemployment reserves to be used for the benefit of persons unemployed after qualifying periods of employment."

The employers of the State on the whole have co-operated very generously with the Commission; its Executive Director, Mr. James G. Robinson, and the staff, in the administration of the Act. Contributions collected to date are in excess of $28,000,000. This fund represents contributions collected from employers only. On January 1, 1938 the workers of New Jersey, totalling approximately 1,200,000 in covered employment, will participate in building up this fund by payment of one per cent of their earnings. Benefit payments to covered employees start January 1, 1939, by which time the combined contributions of employers and employees will, it is estimated, swell the fund to $70,000,000.

Experience of the administration during the present year has shown that the contributions made in certain covered employments do not pay the cost of administering their accounts, and therefore are really a detriment to the fund instead of a benefit. The contributions by some of these employers are sent in the form of postage stamps. To continue such units within the coverage of the Act is neither good economy nor good business.

The amendment proposed by the Unemployment Compensation Commission is designed to correct the situation by excepting from the definition of employment, services rendered by individuals in the employ of trade unions, organizations, associations or councils; political clubs or organizations; Chambers of Commerce or Boards of Trade; civic or community organizations, and fraternal, or social organizations, associations or societies, when acting in the capacity of officers or members of committees not regularly engaged in any business or commercial activity

wherein or whereby public patronage is solicited or catered to, except where such services constitute the principal employment of the individuals. Building and Loan Associations are also placed in the exempt class. I strongly urge upon you the passage of this amendment.

I also ask you to give your consideration to another amendment proposed by the Commission on the subject of penalties imposed for delinquent filing of reports and delinquent payments. The Commission has found that penalties as they are now written (One dollar a day for each day of delinquency) are quite harsh and severe, resulting often times in situations where such penalties are many times greater than the basic contributions. This renders administration difficult and has a tendency to develop a feeling of hostility toward this benign legislation.

The proposed amendment fixes a penalty of one dollar per day for delinquent reports for the first ten days of delinquency, and thereafter at the rate of one dollar per day; such additional penalty, however, not to exceed twenty per cent of the contributions due.

I urge that both amendments be enacted at this session of the Legislature. The Executive Director of the Unemployment Compensation Commission informs me that a tremendous amount of labor, cost and confusion can be averted if the Commission can start off the new year with this legislation on the statute books.

Respectfully submitted,

HAROLD G. HOFFMAN,
Governor.

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring);

WHEREAS, The revision and consolidation of public statutes just passed by this body was a very arduous task, occupying a period of something over ten years, and at considerable expense to the State of New Jersey; and

WHEREAS, The Honorable Merritt Lane and the Honorable Frank H. Sommer are members of the Revision of Laws Commission at the present time, and the Honorable Edward L. Katzenbach, the Honorable Frederic J. Faulks, and the Honorable M. T. Rosenberg, during their lifetime, were members of this Commission; and

WHEREAS, Their unselfish and untiring efforts to bring about so complete a revision and consolidation of the statutes are a great contribution to the State; and

WHEREAS, The members of the Commission served without compensation and devoted a very great deal of their valuable time to bring about the successful and final consummation of this work; therefore,

Be It Resolved by the Assembly of the State of New Jersey, (the Senate concurring), That a vote of appreciation and sincere thanks be tendered to the Honorable Merritt Lane and the Honorable Frank H. Sommer, the surviving members of the Commission for their services and untiring energy; and

Be It Further Resolved, That we record with sincere appreciation the efforts of the Honorable Edward L. Katzenbach, the Honorable Frederic R. Faulks and the Honorable M. T. Rosenberg in the service they rendered during their term of office as members of the said Commission; and

Be It Further Resolved, That the Secretary of State be and he is hereby directed to have a copy of this resolution properly embossed and delivered to each of the said surviving members of the Commission, and to each of the families of the said deceased members of the Commission.

The Speaker introduced the Honorable Dean Sommer and the Honorable Merritt Lane to the members of the House.

The following message was received from His Excellency, the Governor, and motion made that the message be received and spread in full upon the minutes.

Which motion was adopted.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
December 20, 1937.

To the Legislature:

I transmit herewith the Final Report of the Veterans Cemeteries' Commission, which commission was authorized by the provisions of Chapter 253, P. L. 1936.

Respectfully submitted,

HAROLD G. HOFFMAN,
Governor.

Attest:

ELIZABETH J. MCLAUGHLIN,
Secretary to the Governor.

FINAL REPORT OF THE VETERANS CEMETERIES' COMMISSION

This Report is submitted to the Governor for transmittal to the Legislature pursuant to the act approved June 26, 1936, which provided that the Report of the Commission with its findings and recommendations be so submitted during the term of the 1937 Legislature.

A Preliminary Report of this Commission was submitted to the Governor on May 3, 1937, and is understood to have been transmitted to the Legislature on that same date.

The Preliminary Report, above mentioned, and the present Final Report, should be considered together as supplementary and complementary, each to the other, and constitute the Complete Report of this Commission under the act approved June 26, 1936.

The Commission has received communications from ten different parties submitting their requests for consideration by the Commission of certain tracts in Atlantic, Burlington, Camden, Mercer, Middlesex, Monmouth, Somerset and Union Counties.

These locations numbered in the order in which communications were received are identified as follows:

1. Gangloff Farms. Adjoining Washington Rock Park, on Route No. 29, in the Township of North Plainfield, Somerset County.

2. Cloverleaf Memorial Park. Partially developed commercial cemetery, on Routes Nos. 1, 25, 9, 4, in the Township of Woodbridge, Middlesex County.

3. Tract licensed for cemetery purposes but undeveloped, on Galloping Hill Road, in Kenilworth, Union County.

4. Tract 1,000 feet north of Seaview Golf Club, in Galloway Township, Atlantic County.

5. Greenlawn Memorial Park. Developed commercial cemetery, near Bernardsville, Somerset County.

6. Portion of Locustwood Memorial Park. Partially developed commercial cemetery, on Route No. 40, in the Township of Earlton, Camden County.

7. Owanamassie Country Club. About five miles north of Somerville, on Route No. 31, in the Township of Bridgewater, Somerset County.

8. Lincoln Memorial Park. Licensed for cemetery purposes but undeveloped, on Route No. 33, in the Township of East Windsor, Mercer County.

9. Lakeview Memorial Park. Developed as a commercial Cemetery, on Route No. 25, in the Township of Pensauken, Burlington County.

10. Windsor Gardens. Partially developed as a commercial cemetery, on Route No. 25, in the Township of Woodbridge, Middlesex County.

The Commission submits herewith, as a part of this Report, Atlas Sheet No. 39 of the State Department of Conservation and Development, on which have been located, by a black square, the several tracts, Nos. 1 to 10, inclusive, as listed herein.

On the map is also located, by a black circle, the centre of population of the State, which is about two miles north of the letter "H" in the words "North Plainfield."

Members of the Commission have visited all the locations, Nos. 1 to 10, as listed herein, for survey of the terrain and existing conditions at the various tracts, for contacts with representatives of the interests involved and to secure details as to definite locations, bounds, or other particulars.

The details concerning each of the tracts, Nos. 1 to 10, inclusive, referred to in the preceding paragraphs are included with records of the Commission, which are, of course, available to the Legislature if as and when required.

As stated in the Preliminary Report of the Commission, by the act approved June 26, 1936, the duties and powers of the Commission were "limited to examination and inquiry," which the Commission has not construed as warranting inquiry as to the cost of any of the several properties, Nos. 1 to 10, inclusive, as listed herein.

Your Commission therefor begs to report that as a result of their inquiry and investigation it is their opinion that the acquisition and maintenance by the State of New Jersey of a State Veterans' Cemetery is both practical and feasible

as well as economical, and we do respectfully urge that the necessary enabling legislation be enacted, embodying within its provision, an appropriation sufficient for the carrying into operation such a State Veterans' Cemetery.

Respectfully submitted this 9th day of December, 1937.

EDWARD OLMSTED, *Chairman,*
CHARLES A. MEYER,
OLIVER F. VAN CAMP,
J. EUGENE LAURENCELLE, *Secretary.*

Mr. Pesin moved that the rules be suspended and that Senate Bill No. 248 be taken up on third reading and final passage.

Which motion was adopted.

Senate Bill No. 248 on third reading.

Senate Bill No. 248, entitled "An act to appropriate money from the treasury of this State to pay expenses incurred in connection with litigation respecting taxes on property in railroad and canal use,"

Was taken up and passed by the following vote:

In the affirmative were—

Messrs. Ajamian, Artaserse, Beronio, Bischoff, Bogle, Brady, Butz, Carlin, Cohen, DeVoe, Donohue, Downer, Featherer, Harrison, Irwin, Johnson, Kelley, Kennedy, Kerner, Litvak, Lodge, Loper, Maloney, McClave, Moorehead, Morrissey, Pascoe, Pesin, Pilch, Pyne, Rinaldi, Roberto, Rooney, Roye, Russomanno, Shatz, Shaw, Sheehan, Stokes, Vogel, Ward, Watt, Wilson—43.

In the negative were—

Messrs. Freund and Taggart—2.

Mr. Bischoff offered the following resolution, which was read and adopted:

Resolved, That the Honorable Herbert J. Pascoe, of Union County, leader of the Republican representation in the House, be extended the thanks of the House for the able manner in which he has fulfilled the peculiarly exacting duties of that office. He is to be congratulated upon so ably representing his party.

Mr. Pascoe offered the following resolution, which was read and adopted:

Resolved, That the thanks of the House be and are hereby extended to the Honorable Fred W. DeVoe, of Middlesex County, leader of the Democratic representation in the House, for the capable manner in which he has assisted in the transaction of the important matters which have come before this body for action.

While the sentiment of this resolution is fully endorsed and approved by the entire membership, the Republican leader especially wishes to record his appreciation of fairness and consideration shown to the minority by Mr. DeVoe.

Mr. Bischoff offered the following resolution, which was read and adopted:

Resolved, That the thanks of the House of Assembly be and are hereby extended to Edward J. Kelleher, Clerk of the 1937 session, for the prompt, efficient and courteous manner in which he has administered his office.

Mr. Bischoff offered the following resolution, which was read and adopted:

Resolved, That the thanks of the House be and they are hereby extended to Louis Micone, Supervisor of Bills, Alfred Gales, and John Czarnecki, Asst. Supervisors of Bills, for the efficient and faithful manner in which they have attended to the duties of their office in the preparation of bills submitted to the House for consideration.

Mr. Bischoff offered the following resolution, which was read and adopted:

Resolved, That the thanks of the House be and they are hereby extended to Emmanuel Millman, Assistant Clerk; Frank Demerit, Journal Clerk; Meyer Linnick, Assistant Journal Clerk; Thomas Dohaney, Sergeant-at-arms; Brevoort Conover, Assistant Sergeant-at-arms; Herman J. Finn, Calendar Clerk; Leonard Lavella, Bill Clerk; Roger M. Yancey, Assistant Bill Clerk; A. F. Mets, Nellie Mitchell, Helen Ryan and Doris Reddan, Stenographers; Emma Newton and Abbie Magee, for the efficient and faithful manner in which they have attended to the affairs of the House during the session.

Mr. Bischoff offered the following resolution, which was read and adopted:

Resolved, That the thanks of the House be extended to Paul Ewing, Clerk of the Democratic Leader, and to Thomas Williams, Clerk to the Republican Leader, for the faithful manner in which they have attended to the wants of the House during the session.

Mr. Bischoff offered the following resolution, which was read and adopted:

Resolved, That the Speaker of the House and the members of the One Hundred and Sixty-first Assembly hereby extend their sincere thanks to Parker Sweet, Custodian of the Capitol, for the many courtesies and for the able assistance he has rendered the members during the session. His prompt attention to the many demands made upon him have demonstrated a most willing spirit and the fullest possible endeavor to help make the duties of the membership the most agreeable possible.

Mr. Bischoff offered the following resolution, which was read and adopted:

Resolved, That the thanks and appreciation of the House of Assembly be extended to George S. Skillman, of the Municipal Accounts Department, for the efficient and courteous manner in which he has rendered service to the Committee on Stationery and the Committee on Incidental Expenses.

Mr. Bischoff offered the following resolution, which was read and adopted:

Resolved, That the thanks of the House be extended to the Postmaster of the State House and his Assistant for the efficient and courteous manner in which they have handled the mail for the members throughout the 1937 session.

Mr. Bischoff offered the following resolution, which was read and adopted:

Resolved, That the thanks and appreciation of the House of Assembly be extended to the pages, doorkeepers, file clerks and other officers of the House for the efforts put forth by them in their respective positions.

Mr. Bischoff offered the following resolution, which was read and adopted:

Resolved, That the thanks of the House be extended to William Hoffman, Guard, for his unfailing courtesy in caring for the personal effects of the members of the House.

Mr. Bischoff offered the following resolution, which was read and adopted:

Be It Resolved, That the House of Assembly at this time express to Mr. James W. West, the official representative of MacCrellish & Quigley Company, the New Jersey State Legislative Printers, its sincerest appreciation for the high degree of efficient service in handling the diversified and detailed printed matters of the House and that it also express to Mr. West its sincere appreciation of his efforts and personal sacrifices in seeing that the House of Assembly receive such service and consideration in its numerous legislative matters; and

Be It Further Resolved, That an official copy of this resolution be forwarded to Mr. James W. West, duly attested by the Speaker of the House and the Clerk of the House of Assembly in order that it may manifest to him in a small way its gratitude.

Mr. Bischoff offered the following resolution, which was read and adopted:

Resolved, That the thanks of the House be extended to the newspaper correspondents for the fairness with which they have reported the proceedings of the House to their respective newspapers.

Mr. Bischoff offered the following resolution, which was read and adopted:

Resolved, That the thanks of the House be extended to the State Service Bureau for the service rendered through the Legislative Index and the careful preparation of the information therein contained.

Mr. Bischoff offered the following resolution, which was read and adopted:

Resolved, That the thanks of the House be extended to the New Jersey Legislative News for the service rendered through the New Jersey Legislative News Service in the careful preparation of the news therein contained.

Mr. Pesin moved that a Committee be appointed to wait upon the Governor and advise the Governor that the House is ready to adjourn.

The Speaker appointed Mr. Carlin, Mr. Morrissey and Mr. Kerner as such Committee.

Mr. Pascoe presented the Speaker with a gavel as a token of the respect and esteem of the members of the House of Assembly.

The following communication was read by the Clerk and the resignation of Mr. Rooney was accepted by the following vote:

December 20, 1937.

The Honorable Fred DeVoe,
Speaker of the House of Assembly,
Trenton, New Jersey.

DEAR SIR—The undersigned hereby tenders his resignation as a member of the Assembly from Essex County, this resignation to take effect immediately.

Very truly yours,

JOHN B. ROONEY.

Upon calling the roll, the following members appeared and answered to their names:

Messrs. Ajamian, Artaserse, Bayer, Beronio, Bischoff, Bogle, Brady, Butz, Carlin, Cohen, DeVoe, Donohue, Downer, Featherer, Harrison, Johnson, Kennedy, Litvak, Lodge, Loper, Maloney, McClave, Moorehead, Pascoe, Pesin, Pilch, Pyne, Rinaldi, Roberto, Roye, Russomanno, Shatz, Shaw, Sheehan, Smith, Vogel, Watt, Wilson—38.

A message was received from the Senate by the hands of its Secretary and was read by the Clerk as follows:

STATE OF NEW JERSEY,
SENATE CHAMBER,
December 20, 1937.

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following bill:

Senate Bill No. 249, entitled "An act relating to the printing of the Revised Statutes in the pamphlet laws,"

In which the concurrence of the House of Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

The Speaker declared the reading of the message as the first reading of the Bill.

Mr. Bischoff moved that the rules be suspended and that Senate Bill No. 249 be advanced to second reading without reference and without printing.

Which motion was adopted.

Mr. Szadkowski, Chairman of the Committee on Passed Bills, reported having delivered to the Governor on December 20, 1937, Assembly Bills Nos. 554, 555 and 556 having passed both Houses, were this day delivered to the Committee on Passed Bills with the following certificate endorsed on each. "I certify this Bill originated in the House of Assembly."

The Report of the Judiciary Committee on the Report of the State Auditor was, on motion, ordered spread in full upon the Minutes, referred to the One Hundred and Sixty-Second Session of the Legislature and filed in the State Library.

Report of the Judiciary Committee on the Report of the State Auditor, December 20, 1937

ASSEMBLY REPORT

Complying with the direction of Assembly Resolution No. 6, introduced by Assemblyman DeVoe on March 8, 1937, passed in the Assembly, and delivered on March 15, 1937, to the Secretary of State.

The House of Assembly, by resolution adopted on the 8th day of March, 1937, directed the State Auditor to prepare and submit to the Speaker of the House of Assembly not later than the 1st day of September, 1937, a summary report containing full information as to the effect of the Local Budget Act if it had been applied without modification to all municipalities during the fiscal year 1937. The State Auditor has prepared and filed a report in accordance with the resolution.

The circumstances which make the report necessary are stated in the preambles of the resolution of the House of Assembly. On the 8th day of March, 1937, the Assembly concurred in the Senate bills which are now Chapters 10 and 11, P. L. 1937. The purpose of these acts was to suspend the operation of certain provisions of the Local Budget Act for the year 1937. It was claimed that the bills were necessary in order to prevent excessive and impossible tax rates in certain municipalities. As stated in the resolution, the House of Assembly concurred in the two Senate bills "with great reluctance" because it felt that it was "without adequate information to enable it to determine what legislation should be enacted to remedy the conditions in these municipalities which are unable to comply with the Local Budget Act." At the same time the House of Assembly stated that it was "unwilling to permit the return to the conditions which required the adoption of the Local Budget Act" and that it felt "that so far as possible, the safeguards requiring the proper administration of financial affairs of municipalities, particularly of the cash basis requirements, should be preserved."

The position taken by the House of Assembly in the resolution is amply justified by the State Auditor's report. It appears from the report that most New Jersey municipalities could and did comply with the provisions of the Local Budget Act as originally enacted and without taking ad-

vantage of the relief afforded by the temporary suspension of certain provisions. Of the small number who took advantage of the relief afforded by the 1937 legislation, several municipalities would not have suffered serious hardship if the relief had not been forthcoming. Only a small number of municipalities—approximately thirty—were in such circumstances as to make the relief absolutely necessary. Some of these thirty municipalities were under the control of the State Municipal Finance Commission which could, the State Auditor reports, give any necessary relief by its own action.

It may fairly be assumed from the State Auditor's report that during 1938 and perhaps during subsequent years there will be as many as twenty municipalities which cannot comply with the Local Budget Act without levying taxes at grotesque rates. If the Local Budget Act is to be applied without modification to these municipalities the almost certain result will be a total failure to collect any taxes at all in these municipalities. This would mean a practical breakdown of local government in the affected municipalities. What is the remedy?

The State Auditor's report establishes that the 1937 legislation is not the proper remedy. Chapter 10, P. L. 1937, suspends for 1937 certain salutary provisions of the Local Budget Act. The suspension operates in every municipality no matter what may be its circumstances. Such legislation puts aside the safeguards imposed by the Local Budget Act and invites the continuance, on the part of all municipalities, of the practices which brought about the conditions which made necessary the enactment of the Local Budget Act. Some method must be found to confine the remedial legislation to the municipalities which need it.

It has been suggested that the Local Budget Act should be allowed to stand as originally enacted and that the few municipalities which cannot live up to its requirements should obtain the needed relief by reorganizing their affairs under the auspices of the State Municipal Finance Commission. It seems at least doubtful that this is the proper remedy.

In the first place there is little in past experience to convince us that the State Municipal Finance Commission could successfully remedy the conditions which make it impossible for these municipalities to operate under the Local Budget Act. The State Finance Commission was

organized as long ago as 1931 and it has functioned in eleven or twelve municipalities. So far only two of these municipalities have been able to reorganize their affairs in such manner as to place them upon the same basis as other New Jersey municipalities. Most of the remaining municipalities which are functioning under the State Finance Commission present little hope of speedy improvement.

In the second place the expense of the supervisory control exercised by the State Municipal Finance Commission has proved to be quite out of proportion to the benefits achieved. It is common knowledge that control by the Commission has involved the payment of large fees to auditors and to attorneys specially employed for the purpose. Under the law these fees have to be paid not by the State Finance Commission which employed the lawyers and the auditors but by the municipalities which are supervised by the Commission. The large expenses incident to control by the State Municipal Finance Commission are particularly unfortunate since, by the very nature of things, the supervised municipality is hard put to it to meet any added expense.

Perhaps the best solution of the problem would be the creation of a new State Commission to be composed of specified State officers, with power to permit any municipality to eliminate from its budget appropriations for the payment of floating debt, including delinquent State, county and local school district taxes. Such a commission could be empowered to hold hearings and to grant the desired permission only if it were able to make certain required findings of fact to be prescribed by the Legislature. Such a commission could easily limit relief to those municipalities which actually need it.

If such a commission were created the Legislature should require any necessary auditing services to be performed by the regular personnel in the State Auditor's office. It should also require the Attorney General's office to render all necessary legal assistance. If this necessitates an increase in appropriations for the State Auditor's office and the Attorney General's office, the necessary money should be provided. The expense of administering the Commission's business should not be saddled upon the needy municipalities which ask for relief. At the same time the legislature might consider the advisability of repealing the present legislation providing for the State Municipal Finance Commission, except to the extent necessary to

enable the Commission to complete its work in those municipalities in which it is now functioning.

It is evident from the State Auditor's report that a number of the municipalities of the State are in such a financial condition that we are of the opinion that in order to satisfactorily adjust their financial affairs some time more will be required. Naturally, by reason of the fact that they are in this condition they cannot afford the large fees which seem to be required under the present method. It may well be in the case of a few that their debt will have to be adjusted in one way or another which will require many conferences and extended negotiations. This has been the history in other similar cases.

We are convinced that the Municipal Finance Commission did the best that it could, or that anyone else could have done, under existing conditions but, unfortunately, were tagged by financial circles as a Bankruptcy Commission which made their work extremely difficult and reduced the effectiveness of their efforts.

It appears that there were some groups of financial circles who set out at the very beginning to destroy the effect of the work of the Municipal Finance Commission and through propaganda and other measures were successful to a considerable degree. Nevertheless, the fact remains that some other method should be devised by the legislature to assist the twenty remaining municipalities who claim they cannot now get on a full cash basis. There are three major reasons now why the Municipal Finance Commission would have difficulty in handling these municipalities:

1. That they are vested with the power of remaining in a municipality which they have assisted to refinance for many, many years after the municipality has rehabilitated itself.
2. Credit circles object to the fact that they are prohibited from enforcing a judgment and help to retard a successful conclusion of the financial affairs of a Municipal Finance Commission Municipality.
3. Credit institutions feel that while Municipal Finance Acts remain in their present form that any municipality, in order to avoid payment of their indebtedness, may at any time apply to this Commission and preclude them of their rights.

The Legislature in giving the right to a Commission to allow any municipality to exclude any of the requirements of Chapter 211, P. L. 1936, should be required to insist upon at least a portion of the deferred items to be included in any subsequent budget. In other words, it should be made mandatory that the Commission should require as an evidence of good faith on the part of any municipality, making application to it for relief, a payment of some kind on all the deferred items and that in no case should any municipality be allowed to leave all such deferred items out of any subsequent budget. The result of this would be that there would be an attempt at some future date at least to absorb these deferred items that they claim they cannot now provide for.

After careful consideration and much deliberation this committee recommends to the Legislature that the Legislative powers of the State Municipal Finance Commission be transferred to the State Auditor's, State Tax Commissioner's, and Attorney General's offices and that a sufficient appropriation by the Legislature be made to these departments so that they can employ the necessary help to furnish free of charge the services required by the municipalities to accomplish their financial readjustment so that they can successfully operate under Chapter 211, P. L. 1936, known as the Cash Basis Budget Act, which this committee is convinced is the only sound and safe method of budget operations. The pay-as-you-go system has been successfully tested in many municipalities in this State and the record clearly indicates that every municipality should eventually be made to operate on this basis.

Messrs. Carlin, Morrissey and Kerner reported that the Governor had advised them that he had no further message to transmit to the One Hundred and Sixty-first session of the Legislature.

Mr. DeVoe offered the following resolution, which was read by the Clerk and adopted:

I move that the House do now rise and proceed to the Senate as has been the custom upon *sine die* adjournment.

The House then adjourned.

Appendix

REPORT OF STATE AUDITOR

In preparing a report on 1937 budget figures I have confined the detailed report to the several municipalities which took advantage of the provisions of Chapter 10 of the laws of 1937. This detailed report is self-explanatory and in both total and summary form shows the effect of the relief obtained by those municipalities electing to take advantage of the statute.

A summary report has also been prepared (supported by detail on file in my office) which deals with the various municipalities of the State (in addition to those appearing in the detailed report). This summary report deals with 562 taxing districts (the Town of Raritan and Town of East Millstone being eliminated as they do not levy taxes direct), and classifies these municipalities under the following groups:

I. Those operating on a cash basis as a result of Chapter 60, P. L. 1934, or section 664 of the Local Bond Act.

II. Municipalities adopting 1937 budgets under the Local Budget Act but which are required to adopt Cash Basis Budgets in 1938 and subsequent years.

III. Municipalities under the jurisdiction of the Municipal Finance Commission (Chapter 340, P. L. 1931, as amended), except for North Arlington Borough and Chester Township which have recently refunded on a cash basis.

IV. Municipalities adopting budgets in accordance with the Local Budget Act which were not affected by any of the provisions that were postponed by Chapter 10, P. L. 1937.

V. Municipalities affected by the items postponed by Chapter 10, P. L. 1937, but not taking advantage of the provisions of Chapter 10, P. L. 1937.

VI. Municipalities taking advantage of Chapter 10, P. L. 1937.

Certain pertinent facts pertaining to these groups are set forth below:

Group I—Consisting of 71 municipalities adopting cash basis budgets for 1937. These municipalities represent 51.43% of the valuations of the State and 47.05% of the population. Adding the 13 municipalities in the next group (Group II) to the above we find that 53.03% of the valuations and 49.04% of the population of the State will be on a full cash basis in 1938.

Group III—Municipalities number 11 and in almost every instance have received budgetary advantages comparable to those afforded by Chapter 10, P. L. 1937. These municipalities are in serious financial difficulties and the Commission has found it necessary to keep the tax rates in these municipalities within the ability of the taxpayers to pay.

Group IV—Municipalities number 258 and represent 29.84% of the total valuations of the State and 30.17% of the population. It can be seen therefore that more than one-half of the municipalities not on a cash basis were not affected by the Local Budget Act.

Group V—Covers 179 municipalities and embraces 9.94% of the valuations and 12.10% of the population. I have not attempted to figure the possible effect of Chapter 10 of the 1937 laws to this group as it would be a matter of estimate or "guess" as to what items could be omitted. Many items to which Chapter 10 might apply could not be omitted from the budgets for financial reasons or otherwise.

Group VI—Consists of 30 municipalities representing 5.29% of the valuation and 6.62% of the population. Detailed comments will follow later covering this group.

Taking up the summary sheets, pages S1 to S3, we find the following facts pertaining to budgets adopted under the provisions of the new Local Budget Act.

Surplus Revenue

Surplus Revenue appropriated in 1937 increased $4,731,019.45 over the amount used in 1936. This represents 44.15% increase and is somewhat surprising in view of the fact that the revised statute prohibited the use of surplus revenue unless it was free cash, or in the case of non-cash

surplus, was used with the approval of the State Auditor. The only answer is that budgets were more carefully prepared, for it is true that all budgets were carefully scrutinized by the Office of the State Auditor and the use of non-cash surplus was used only where the financial situation warranted it.

Miscellaneous Revenues

The use of miscellaneous revenues increased $3,010,336.82 in 1937 over 1936. This is an increase of 9.06% over 1936 and again is of interest, as the use of miscellaneous revenue in excess of the cash revenues of 1936 could only be with the written consent of the State Auditor.

Local Purpose Taxes

Local purpose taxes have decreased $1,139,333.99 in 1937 over the year 1936. The increases and decreases shown in the groupings which follow are of particular interest and will be followed by specific comment.

Group	1936	1937	Increase *Decrease*
I	$67,600,652 43	$64,598,563 93	*$3,002,088 50*
II	2,565,417 47	2,676,626 03	111,208 56
III	3,266,778 84	3,215,880 64	*50,898 20*
IV	27,620,612 19	27,962,290 41	341,678 22
V	9,688,052 34	10,582,624 16	894,571 82
VI	6,890,073 80	7,456,367 91	566,294 11

The fact that cash basis (Group I) municipalities are operating for the year 1937 with a local purpose levy which is approximately 5% under that of the year 1936 is a good indication that a cash basis of operating is not to be feared at the present time. As a matter of fact among those municipalities now operating on a cash basis are numerous municipalities which some two or three years ago would have been seriously affected by the provisions of the Local Budget Act deferred by Chapter 10 of the 1937 Laws. It must not be concluded from this that a cash basis of operation is a "cure all" for every financial ill, but just so long as the municipality is able to collect taxes up to or in excess of the budget estimates a cash basis can be maintained without increase in the local purpose levy, except of course in the case of increased operating costs or marked increase in county or State requirements.

Group II municipalities are those which have refinanced since the preparation of the 1937 budgets and to some extent reflect the increase in local levies shown in groups which follow. This group of municipalities had financial problems at the time of the preparation of their 1937 budgets and these problems are reflected in an increase in local purpose levies. While in this report I have refrained from dealing in forecasts, in this particular instance I would say that the 1938 budgets should reflect a better picture than that of the year 1937 (provided of course that refunding operations have been properly undertaken and completed) and other conditions are the same.

Group III municipalities are those under the supervision of the Municipal Finance Commission created by Chapter 340, P. L. 1931, as amended, and represents a group in a special class. I would respectfully refer anyone interested in the problems of these units to the report rendered by this Commission some months ago.

Group IV municipalities consist of 258 municipalities which were not affected by items stayed by the action of Chapter 10. This group in my opinion represents what might be termed the "average" municipality; and while there is an increase in the local purpose levy, this increase is only slightly over 1%. It seems safe to say therefore that in the case of a municipality conducting its affairs in a prudent and businesslike manner throughout the past several years the present Local Budget Act has caused no definite hardship. Taking into consideration the fact that there was considerable confusion existing in the distribution of franchise and gross receipts taxes for the past several years, which fact was very definitely reflected in the anticipation of revenues from this source in many instances the increase in the local purpose levy in this group is not excessive.

The 179 municipalities covered by group V show the greatest increase in the local purpose levy over that of the year 1936, yet here the increase is slightly under 9%. This is the group which has been directly affected by some of the items covered by Chapter 10, however, it is only fair to state that many (or most) of the items required to be included in the 1937 budget will not be recurring. It is therefore my conclusion that a majority of these munici-

palities need not increase their 1938 local purpose levies unless they voluntarily elect to do so.

The 30 municipalities covered by Group VI will be covered by separate comments following the detailed schedules analyzing the budgets of these units.

Appropriations

Operating and contingent appropriations increased $5,089,389.17 in 1937 over the year 1936; the increase being 5.87%. In a large measure this was accounted for by salary changes and increase of appropriations for certain services or functions which had been curtailed in previous years.

Debt service, it will be noted, has decreased $773,674.50 from the 1936 figure. This is readily accounted for by refinancing operations which have served to redistribute the debt burden in a more orderly manner. It is true that in some cases the debt burden has been pushed ahead several years in the case of refinancing, however, by and large most debt service calendars provide for a fairly even schedule of maturities and in my opinion it is safe to say that debt maturities are set up in a more orderly manner than they were in the past.

Deficits, Statutory Expenditures and Floating Debt

Appropriations for Deficits and Statutory expenditures increased $1,698,167.67 in 1937 over the year 1936, while floating debt appropriations to the extent of $106,741.06 were made in 1937. These latter appropriations were of course voluntary as they might have been omitted under the provisions of Chapter 10, P. L. 1937.

State, County and Local School Taxes

A summary of mandatory taxes set forth below is interesting as it clearly indicates the reason for the increase in the average rate for the year 1937:

	1936	1937	Increase *Decrease* of 1937 over 1936
State Taxes	$71,647,969 65	$17,292,041 91	*$355,927 74*
County Taxes	39,618,218 78	40,791,850 46	1,173,631.38
Local School Taxes	62,893,953 85	68,544,268 04	5,650,314.19

The decrease in State Taxes is accounted for by the fact that valuations have decreased. The increase in County taxes is in part accounted for by the suspension of mandatory salary reductions and by the fact that county revenues were more seriously affected by the cash limitation on miscellaneous revenues due to the fact that a large portion of county revenues are not received until the first month of the succeeding year with the result that miscellaneous revenues were materially decreased in the initial budget as will be noted from the report attached (page S4).

The County budgets of 1938 should not under normal conditions reflect the same conditions as existed in 1937, however, this is purely forecast and should operating expenses increase disproportionately, the effect of the revenue gains which should be a normal twelve months' expectancy of the year 1937 will be lost in 1938.

The thirty municipalities taking advantage of Chapter 10 of the Laws of 1937 deferred or omitted appropriations totalling $1,853,491.57. These items have not been disposed of and it is only fair to assume that this amount, with possible additions, will become a problem in connection with the budgets of the year 1938. In every instance there would have been material increases in tax rates if Chapter 10 items had not been excluded. The highest tax rate which would have been produced, except for the passage of Chapter 10, would have been $18.00 per $100.00 of assessed valuations. Seven municipalities in the group would have had tax rates in excess of $10.00; five would have had tax rates in excess of $8.00 and only four would have had rates of less than $5.00.

It is only fair to say that a good part of these thirty municipalities will be a continuous and recurring problem unless they are refinanced. However, the problem of refinancing is complicated by the fact that new money is needed and in many instances new money can not be secured as credit is lacking. It, therefore, becomes a problem of determining just what can be done to correct existing conditions in this limited group of municipalities. It is only fair to state that several of these should be able to carry on without too much difficulty if they are able to collect taxes in an efficient manner and it may be that these limited few might be eliminated in a discussion of the amount of new money required.

Operating appropriations increased in these thirty municipalities some 8%, while the debt service increased less than $3,000.00, which is not a healthy condition for municipalities of this class. Levies for deficits and other statutory expenditures increased over 100%, thus new taxes have been levied for deferred charges and other items of like nature to an extent which should result in some improvement.

A study of the tax collection history of these municipalities for the year 1936 is enlightening and gives an excellent picture as to why difficulty is being experienced in many cases. A tabulation of tax collections, gross debt, etc., is made part of this report (page S7). The amount of indebtedness shown is taken from the annual debt statement, likewise, a statement of floating debt is taken from the reports submitted in connection with the budgets. A study of these statements will give some idea of the problem confronting the State in connection with these particular municipalities. Added legislation is not the answer to the problem in all instances. Assuming that Chapter 10 should be re-enacted, the same condition would exist in connection with the *1939 budget.*

Where tax collections have not been closely enforced immediate steps must be taken in an attempt to stimulate collections. Tax sales must be held annually but there are included in this group a number of municipalities which cannot work out of their present difficulties either through holding tax sales or by adopting a strenuous collection policy. Unimproved land complicates the problem to the extent that collections will produce little added revenue and tax sales will produce only tax title liens standing in the name of the municipality. In these cases some assistance must be obtained through long term financing and a revamping of the debt structure within the ability of the taxpayers to pay. In some cases, it may be necessary to reduce operating costs based on the ability to collect taxes. The latter is a trite statement and is not always an easy problem to solve inasmuch as unimproved property and large areas sometimes create a condition making it difficult to recast operating budgets.

The problem of these thirty municipalities may be summarized as follows:

1. A determination of the amount of new money required in connection with a refinancing of the municipality.
2. A determination of the amount of annual debt service which the municipality can pay.
3. A determination of the efficiency with which taxes are collected.
4. A willingness to hold complete and annual tax sales.
5. A determination of the effect which holding of complete tax sales will have on the tax collections of the municipality.
6. The eventual valuations assuming that tax liens are foreclosed immediately when subject to foreclosure.
7. A determination of the possibility of decreasing operating expenses.

Summary

It appears that the Local Budget Act in itself did not work great hardship on the municipalities of this State in 1937. The municipalities adversely affected would have been in financial difficulties under any act, furthermore Chapter 10, P. L. 1937, did not cure the financial troubles of the municipalities taking advantage of that statute—it merely postponed the day of reckoning. Four municipalities taking advantage of Chapter 10 since preparing their 1937 budgets have refinanced, therefore they have removed themselves from any further difficulties, at least in so far as the restrictive provisions of the Local Budget Act are concerned.

The summary sheets accompanying this report indicate that the majority of the population and assessed valuations will in no way be affected by the Local Budget Act in any future year as no place operating on a "cash basis" will be adversely affected. It may be that some of these municipalities will experience future financial difficulties but these difficulties will be attributed to failure on the part of local

officials to produce results measuring up to cash basis estimates.

Taking all of the budgets collectively it can be seen that the Local Budget Act is not unduly restrictive for the following reasons:

The use of surplus revenue increased 44.15% over the amount used in 1936.

The anticipation of miscellaneous revenues increased 9.06% over 1936.

Local purposes taxes were $1,139,333.99 less than the 1936 figures.

In addition to the above the following has been accomplished:

Deficits, overexpenditures, etc., have (in a large measure) been cleared in 1937 whereas under the previous act many of these items were not budgeted until the second year following the year in which they came into existence.

The publicly operated utilities have prepared and are operating under budgets.

A start has been made on the liquidation of floating debt.

I have not attempted to analyze the possibilities of applying Chapter 10 to the 179 municipalities which might have taken advantage of its provisions. As stated elsewhere this would be a guess rather than a statement of fact as it would be impossible to make a definite calculation of the amounts which might have been omitted.

Neither have I attempted to analyze the effect of Chapter 10 on 1938 budgets. Here again I would be dealing with theoretical figures and I have therefore confined my study to the schedules attached supplementing the same as set forth above.

As a matter of general information I have attached a tabulation, by Groups I to V, inclusive, showing the Net Valuation Taxable, population, Local purpose tax for 1936 and 1937 and Tax rates for 1936 and 1937. This detailed information will assist in a study of the effect of the Local Budget Act on the 1937 levy.

Respectfully submitted,

WALTER R. DARBY,
State Auditor.
