Governor to Sign Thermal Imaging Camera Legislation; Visit Kullman Industries in Lebanon

Gov. Christie Whitman will sign legislation on Monday establishing the thermal imaging camera grant program. The Department of Community Affairs will implement the \$7.5 million program which will help fire organizations purchase the cameras. The cameras enable firefighters to see through heavy smoke and pinpoint the location of trapped fire victims.

The Governor will also visit Kullman Industries in the morning to help cut the ribbon at the opening of its new corporate offices and expanded plant facilities.
