(b) Two persons owning vessels validly licensed pursuant to N.J.S.A. 50:3-1 may exchange their vessels with the approval of the commissioner of Environmental Protection and the Delaware Bay Section of the Shellfisheries Council and be exempt from the tonnage limitation set forth in (a) above.

(c) A person transferring ownership of his licensed oyster vessel may do one of the following:

1. File a notarized Statement of Intent with the Department indicating that he has sold the vessel and wishes to replace it with another vessel within one year; or
2. File a notarized Statement of Intent with the Department indicating that he will waive all rights and conditions of that license, not apply for a replacement license, and transfer the right to a license with the vessel to its new owner who shall meet all statutory criteria for licensing.

7:25A-1.7 Leasing of Section E

The owner of an operable vessel which is licensed to dredge oysters pursuant to N.J.S.A. 50:3-1 may lease ground in Section E upon application and approval of the Delaware Bay Section of the Shellfisheries Council.

7:25A-1.8 Expiration and renewal of Section E lot leases

(a) Each Section E lot lease will expire at the end of the calendar year in which it was issued. Lease holders or their heirs and assigns will have the option to renew each year provided the leased lot to be renewed has been, in the judgment of the Delaware Bay Section of the Shellfisheries Council and the division, actively worked by the recorded lease holder, and an accurate report of the use to which the lot was put is first filed with the Division on a form provided by the Division.

(b) Nothing in this chapter shall be construed to affect the exclusive power of the Shellfisheries Council, subject to approval by the Commissioner of Environmental Protection, to lease shellfish ground as defined in N.J.S.A. 50:1-18.

7:25A-1.9 Oyster seed beds

(a) The Division with the advice of the Delaware Bay Section of the Shellfisheries Council and the Haskin Shellfish Research Laboratory of Rutgers University, shall determine the season for the taking of seed oysters from the natural seed beds above the southwest line in Delaware Bay and shall determine which of the natural seed beds above the southwest line shall be opened. Reasonable notice shall be given by the Division to all oyster dredge boat license holders of the dates of the beds to be opened and the conditions attendant on the opening. Oyster seed beds

shall be closed as determined in accordance with (i) below. Daily harvest shall be from 7:00 A.M. to 3:30 P.M. Monday through Friday.

(b) Seed oysters (seed) may be taken for the purpose of planting or replanting at the times and in the manner prescribed on leased grounds:

1. Below the southwest line; or
2. In the Atlantic Coast Section only on days and at times designated by prior written agreement with the Division; or
3. In Section E.

(c) Any vessel unable to plant in seed oysters because of mechanical problems, water conditions or other verifiable emergency must immediately contact the Shellfish Office by VHF radio, Channel 68, or by telephoning (609) 785-0730.

(d) All seed oysters shall be planted on the day taken by spreading them loosely on the bottom, not in bags, baskets, or other containers. All oysters taken from the natural beds are considered to be seed oysters until planted in the manner prescribed in this section. Seed oysters shall not be marketed or sold for any other purpose except that the Division with the advice of the Council may designate times, manner and section(s) of the natural seed beds from which seed oysters may be taken for market, barter, or other trade during any period when the natural seed beds are legally opened.

(e) Oysters taken pursuant to (d) above for market, barter or other trade shall be bagged or containerized in one bushel bags or containers on board the harvesting vessel with harvest tags furnished by the Division. Tags shall remain in place until the oysters are delivered for sale by the harvester.

1. The minimum size limit for seed oysters taken for market, barter or other trade shall be 2½ inches in height from hinge to lip.

(f) The Division with the advice of the Council may require harvesters authorized to harvest seed oysters from the natural seed beds to move specified quantities of seed oysters (other than those culled for market, barter or other trade) from one location on the natural seed beds to another during any period open for harvest from the seed beds as provided in (d) above.

(g) An Advisory Committee shall be appointed by the Commissioner and shall be composed of two members of the Council, two members of the Haskin Shellfish Research Laboratory of Rutgers University, and the Director of the Division or his or her designee.

(h) Physical tests of all areas opened pursuant to this subchapter shall be made near the end of each week by the Advisory Committee described in (g) above. These tests shall be the determining factor in the Advisory Committee's recommendation to close any or all beds opened by regulation.

(i) Based upon the data and tests referred to in (h) above and the recommendation of the Advisory Committee described in (g) above, the Council, with the approval of the Commissioner, may immediately close those beds as may be necessary for the preservation and improvement of the shellfish industry.

1. It shall be illegal to harvest seed oysters from any closed beds.

2. It shall be prima facie evidence of the violation of (i)1 above if any vessel is observed by Radar or LORAN or other reliable means to be on closed beds with dredge in water.

(j) The Bureau of Shellfisheries of the Division shall publish coordinates of any boundary line or lines established by the Delaware Section of the Shellfisheries Council, and may, as practical, place marker buoys along such line or lines.

(k) Nothing in this section shall be construed to affect any existing regulations concerning areas condemned for the taking of shellfish by the State of New Jersey.

(l) The top and sides of licensed oyster vessels shall be marked with the license number, each number at least 18 inches in size, clearly legible and in good repair, and with no obstruction to view.

(m) No vessel shall take or possess seed oysters from the natural seed beds above the southwest line on the same day such vessel works or harvests on leased shellfish grounds.

(n) During Bay Season, harvesters must notify the Bivalve Shellfish Office to give notice of intent to work any leased grounds.

(o) If a vessel works any part of the day on the seed beds, all oysters in possession shall be deemed seed oysters and must be planted as required in (c) above and in accordance with this chapter before the vessel may return to harvesting from the seed beds.

(p) The operator of, or any other person aboard, any oyster harvesting vessel subject to this chapter shall immediately comply with instructions and signals issued by an authorized law enforcement officer and comply with his or her instructions to facilitate safe boarding and inspection of the vessel, its gear, equipment, and catch, for the purpose of enforcement of this chapter.

(q) This chapter shall apply to any vessel which harvests or receives seed oysters in any manner.

(r) Any person who violates the provisions of this section shall be liable to a penalty of not less than \$100.00 or more than \$3,000 for the first offense and not less than \$200.00 or more than \$5,000 for any subsequent offense, as provided in N.J.S.A. 23:2B-14.

(s) Any oysters taken, transported, planted or otherwise handled in violation of this chapter may be seized and replanted upon the State's natural seed beds.

Public Notice: Based upon physical tests of natural oyster seed beds and the recommendation of the Bay Season Advisory Committee, the Delaware Bay Section of the Shellfisheries Council voted to close the natural seed beds below a line from Bennies Point to Buoy No. 35, effective 3:30 P.M., Friday, June 7, 1985, and to close all remaining natural seed beds, effective 3:30 P.M., Friday, June 14, 1985. 6. The fees imposed hereunder, except as may otherwise be provided by law, shall be deposited in a fund to be known as the "Oyster Cultch Fund", kept separate and apart from all other department and State receipts, and appropriated only to defray in full the oyster cultch program defined in N.J.A.C. 7:25A.
