General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Notice of Rule Proposal

Division of Fish and Wildlife Rules, N.J.A.C. 7:25-6

Public Notice

Take notice that the NJ Department of Environmental Protection is proposing amendments to N.J.A.C. 7:25-6.1 through 6.3, 6.6, 6.8, 6.10, 6.13, 6.15, 6.17, 6.19, 6.20, and 6.22. A statement of the substance of the proposal follows: The proposed amendments include updating the Fish Code to modify existing seasons, size, or creel limits for fish for several fish species, including snapping turtles, and certain frog species, and the listing of certain species as endangered, special concern, or threatened per the updated lists at N.J.A.C. 7:25-4.13 and N.J.A.C. 7:25-4.17. Specific amendments include changes to the waters managed as Lunker Bass Lakes and the warmwater Conservation Regulations, as well as modifications to the regulations on Trophy Trout Lakes. The three-week preseason closure to fishing is proposed for removal on all trout-stocked lakes and ponds, as well as the addition of twenty-three new trout-stocked waters to the spring trout stocking program, and the removal of two waters. It also adds Freshwater Drum to the definition of potentially dangerous fish and updates to the scientific and common names used throughout.

The proposal is scheduled to be published in the New Jersey Register dated August 18, 2025. A copy of the proposal is available from: <https://dep.nj.gov/rules/notice-of-rule-proposals>; by request from the Division of Fish and Wildlife via email: njfwfish@dep.nj.gov; and LexisNexis (free public access to the New Jersey Register, <https://www.lexisnexis.com/hottopics/njoal/>).

A public hearing(s) concerning the proposal is scheduled as follows:

Wednesday, September 10, 2025 at 6:30 p.m.
