Mr Oliphant offered the following resolution, which was read and adopted

Resolved, That the reading of the certificates of election of the respective members be dispensed with

Mr Oliphant offered the following resolution, which was read and adopted

Resolved, That the Hon Elmer H Geran, of Monmouth county, who is a Master in Chancery of this State and a member-elect of this House, administer the oath of office to the Hon George H Dalrymple, of Passaic county, a member-elect, by whom the oath of office shall be administered to the members-elect

Mr Oliphant offered the following resolution, which was read and adopted

Resolved, That the Hon Charles A Wolverton, of Camden county, who is a Master in Chancery of this State and a mem-

ber-elect of this House, administer the oath of office to the Speaker and other officers of this House when they are elected

The Hon Elmer H Geran administered the oath of office to the Hon George H Dalrymple, of Passaic county, who administered the oath of office to the members-elect (Mr Emmor Roberts, of Burlington county, affirmed)

All the members present then signed the roll

Mr Oliphant offered the following resolution, which was read and adopted

Resolved, That the House do now proceed with the election of Speaker

Mr Seymour P Gilbert, of Essex county, nominated the Hon Edward Schoen, of the same county, for Speaker

Mr William N Runyon, of Union county, seconded the nomination of Mr Schoen

Mr Frank A Dolan, of Hudson county, nominated the Hon Charles H Felten, of the same county, for Speaker

Mr Charles C Colgan, of Hudson county, seconded the nomination of Mr Felten

Upon the calling of the roll, Mr Schoen was elected by the following vote

For Mr Schoen—

Messrs Ackerman, Allinson, Amerman, Applegate, Badgley, Bramhall, Buehler, Dalrymple, Edgar, Felten, Gilbert, Glover, Greenwood, Hagaman, Johnson, Keating, Kellam, LeMaster, MacKinnon, Morgan, Oliphant, Pancoast, Parsons, Pierson, Press, Randall, Read, Roberts, Robinson, Runyon, Schneider, Sheppard, Tattersall, Vreeland, West, Whitman, Whitney, Wilson, Winne, Wolber, Wolverton—41

For Mr Felten—

Messrs Aaron, Borden, Colgan, Dolan, Dugan, Gallagher, Geran, Herrick, Hurley, Iobst, McGovern, Moore, Schoen, Singer, Taistra, VanNote—16

Mr Felten moved that the election of Mr Schoen be made unanimous

The motion of Mr Felten was seconded by Mr Dolan

On a *viva voce* vote being taken, the motion of Mr Felten was carried

The Clerk thereupon announced that the Hon Edward Schoen, of Essex county, was elected Speaker of the House of Assembly for the session of 1917

The Clerk requested the Hon Harry J Iobst, of Hunterdon county, the Hon William N Runyon, of Union county, and the Hon Bertram E Whitman, of Atlantic county, to act as a committee to escort the Speaker to the bar of the House, where the oath was administered to him by the Hon Charles A Wolverton

The committee then escorted the Speaker to the chair

Mr Schoen, upon taking the chair, addressed the members as follows

Fellow Members of the 141st Legislature

The honor bestowed on me to-day is most gratefully and thankfully received A grave responsibility, however, rests upon any man into whose keeping is given the guidance of the deliberations of this House of General Assembly This responsibility creates a duty which I will earnestly endeavor to perform

This is the 141st session of the Legislature of our State

New Jersey has been one of the best governed States of our great country

In the enactment of laws to promote social and industrial justice and to safeguard the prosperity and welfare of its people, it ranks among the foremost States of the Union

Law is at the foundation of organized society, and a solemn responsibility rests upon every man who is vested with the office of lawmaker for the people of a sovereign State

The security of life, liberty and property is entrusted to us

A learned writer has said "Each citizen contributes to the revenues of the State a portion of his property in order that his tenure of the rest may be secure"

From the beginning of the world we have had law Adam in the Garden of Eden was admonished as to what he could do, and what he should not do

The centuries have brought accretions to the law, until to-day we recognize that it alone keeps things in order It guards the energy of manhood and the weakness of age, the high and the low, each are within its view and beneath its ample folds It protects virtue and punishes crime and wickedness and vindicates right If industry creates, it is law which preserves

But to be effective, law must be a fixed rule of action, commanding what is right and prohibiting only what is wrong It must not be unnecessarily multiplied, nor needlessly changed merely as an experiment Imagine a yardstick made of rubber and you will appreciate the importance of having laws fixed and permanent

Yet we must be responsive to the just demands of the times We must stand for the right against wrong always But where there is no moral question involved we must not, by insisting on the unattainable, lose everything Because an act falls short of perfection and completeness, shall we therefore reject it? Let us take it rather as a first great step toward our goal

It is important that we should advance, but the vital thing is not that we should simply get somewhere quickly, but that we should arrive at a definite goal with the torch of sanity and safety still ablaze

The political history of the English-speaking race is, in truth, a history of legislative compromises When compromises have not been made with wrong, they have been the stepping stones in the great march of our civilization They mark the line between the people who are ever moving forward to higher things and those who, insisting on the highest at once, never advance

Let the work of this session be constructive, not destructive The purely critical attitude leads to nothing It may be able to destroy It can never create

This is essentially the day for men of thought There are certain political and social plagues which are propagated only in the atmosphere of thoughtlessness Men of thought must be the antidote to these dangerous influences They must bring wild theory to the test of reason and withstand rash experiments

Perpetual thoughtfulness is the price of social safety

A State cannot grow in power, in wealth and in influence, unless its laws are wise and beneficent and designed to attract industry and enterprise

Ill-considered legislation may be the rock upon which destruction lurks

Our service to the State and to the people of New Jersey will not be measured by the number of new laws written by us upon the statute books, but rather by the character of the legislation

Personally, I believe there are too many laws upon the statute books of our State now, and I trust that we shall enact into law

only such measures as are unmistakably demanded by the people, and in this work I hope there will be no partisan division in this House

While the partisan complexion of this House of Assembly is overwhelmingly Republican, I believe the moment we cross the threshold of the State House we must cease to be partisans

Our commissions read as from the whole people of the State, irrespective of political affiliation, and to perform effective work we must not think of ourselves as partisans, but as men gathered together in a common interest and for a common cause

Whatever we do for our State must be done not for partisan advantage, but for the people, and in their interest, for, after all, the people are not only the real but the acknowledged fountain of all authority

For myself, I promise to stand shoulder to shoulder and walk hand in hand with every member in this House whose purpose it is to enact into law only such measures as are demanded by the people, and I desire to emphasize that every member of this House will receive equal consideration at the hands of the Chair, and I trust that you and I at all times will be actuated by a spirit of mutual co-operation and helpfulness

This 141st Legislature is convened in the interest of and for the benefit of all the people of New Jersey, and if I sense the purpose of the members of this House, I believe we are going to strive to conduct our deliberations in their behalf—in behalf of the man upon the farm, the man in the workshop, in the factory, the man who makes up the pay roll and the man who receives the pay envelope, and also in behalf of the woman and the child in the home

New Jersey is a progressive State, a forward looking and a forward going State New Jersey is not a radical State, nor is it a reactionary State With us the trend of events is onward and upward.

We have been commissioned by the people of New Jersey to represent them in this hall They are looking to us to enact constructive legislation which has for its sole object the fulfillment of the doctrine of the founders of this Republic, of equal rights and equal opportunities without injury or wrong to anyone

---

The Speaker announced the appointment of Roger E Salmon, of Essex county, as his secretary, and W Stanley Naughright, of Essex county, as his assistant secretary

Mr Henry G Hershfield, of Passaic county, appeared at the bar of the House, and presented his certificate of election, whereupon the oath, as a member, was administered to him by the Hon George H Dalrymple, of Passaic county

Mr Oliphant offered the following resolution, which was read and adopted

Resolved, That the House now proceed with the election of Clerk of the House

Mr Garfield Pancoast, of Camden county, placed in nomination Mr Upton S Jefferys, of the same county, for Clerk of the House

The nomination was seconded by Mr Walter G Winne, of Bergen county, and Mr Seymour P Gilbert, of Essex county

Mr Joseph F Hurley, of Hudson county, placed in nomination Mr Harry Byrne, of the same county, for Clerk of the House

The nomination was seconded by Mr Jacob J Singer, of the same county

Upon the roll being called by the Assistant Clerk, Upton S Jefferys was elected by the following vote

For Mr Jefferys—

Messrs Ackerman, Allinson, Amerman, Applegate, Badgley, Bramhall, Buehler, Dalrymple, Edgar, Gilbert, Glover, Greenwood, Hagaman, Hershfield, Iobst, Johnson, Keating, Kellam, LeMaster, MacKinnon, Morgan, Oliphant, Pancoast, Parsons, Pierson, Press, Randall, Read, Roberts, Robinson, Runyon, Schneider, Schoen (Speaker), Sheppard, Tattersall, Vreeland, West, Whitman, Whitney, Wilson, Winne, Wolber, Wolverton—43

For Mr Byrne—

Messrs Aaron, Borden, Colgan, Dolan, Dugan, Felten, Gallagher, Geran, Herrick, Hurley, McGovern, Moore, Singer, Taistra, VanNote—15

The Speaker declared Upton S Jefferys, of Camden county, elected Clerk of the House of Assembly

Mr Jefferys thereupon took and subscribed to the oath of office

Mr Oliphant offered the following resolution, which was read and adopted

Resolved, That the Speaker appoint forthwith a committee of three to wait upon the Governor and inform him that the House of Assembly has organized by the election as Speaker of the Hon Edward Schoen, of Essex county, and of Upton S Jefferys, of Camden county, as Clerk, and is now ready to proceed to business and to receive any communication he may be pleased to make

In accordance with the above resolution, the Speaker appointed Messrs Whitman, Johnson and Geran as such committee

A message was received from the Senate, by the hands of its Secretary, as follows

STATE OF NEW JERSEY,
SENATE CHAMBER,
Mr Speaker January 9th, 1917

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following resolution

Resolved, That the Secretary of Senate be directed to inform the House of Assembly that the Senate has organized and elected the Hon George F Gaunt, of the county of Gloucester, President, and Francis B Davis, of the county of Gloucester, Secretary, and has proceeded to business

FRANCIS B DAVIS,
Secretary of the Senate

A message was received from the Senate, by the hands of its Secretary, as follows

STATE OF NEW JERSEY,
SENATE CHAMBER,
Mr Speaker January 9th, 1917

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following resolution

Resolved (the House of Assembly concurring), That both Houses of the Legislature take a recess on January 9th, 1917, until January 16th, 1917, 11 o'clock A M , and that on January 16th, 1917, at 11 o'clock A M , both Houses of the Legislature reassemble

In which the concurrence of the House of Assembly is requested

FRANCIS B DAVIS,
Secretary of the Senate

On motion of Mr Oliphant, the House concurred in the above resolution

A message was received from the Senate, by the hands of its Secretary, as follows

STATE OF NEW JERSEY,
SENATE CHAMBER,
Mr Speaker January 9th, 1917

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution

Be it resolved by the Senate of the State of New Jersey (the House of Assembly concurring), That the State Printer be directed to furnish to the State Library, as soon as printed, for the use of the Legislative Department of said State Library, and for exchange by said State Library with the State Libraries and Legislative Reference Libraries of other States, forty copies each of all bills and joint and concurrent resolutions introduced in the Senate and House of Assembly, as well as printed committee substitutes, also forty copies of each weekly installment of the Journal of the Senate and Minutes of the House of Assembly, and forty copies of each of the gummed slips containing synopses of Senate and Assembly bills introduced

In which the concurrence of the House of Assembly is requested

FRANCIS B DAVIS,
Secretary of the Senate

On motion of Mr Oliphant, the House concurred in the above resolution

The committee appointed to wait upon the Governor returned and reported that they had advised the Governor of the organization of the House of Assembly by the election of Hon Edward Schoen as Speaker, and Mr Upton S Jefferys as Clerk, and that he had informed the committee that he would communicate with the House later, in writing

Mr Oliphant offered the following resolution, which was read and adopted

Resolved, That the Clerk of the House is hereby directed to inform the Senate that the House of Assembly has organized by the election as Speaker of the Hon Edward Schoen, of Essex county, and of Upton S Jefferys, of Camden county, as Clerk and has proceeded to business

A message was received from the Governor, by the hands of his Secretary, as follows

GOVERNOR'S MESSAGE

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, January 9th, 1917

To the Legislature

In presenting this message, within a week of the close of my term, I consider it only courteous and fair to my successor to make no recommendations on new State policies or legislation, but rather to leave him entirely free to advise with you on such matters as he may wish to present touching the management and conduct of the State. During my term of office I have from time to time communicated to the Legislature my views concerning the condition of the State, and I have recommended the enactment of such measures as I believed expedient or proper. With some of those recommendations the Legislature has agreed. I have no wish to withdraw any of those on which no action has been taken, or even to suggest any modification therein. Rather would I refer you to them again for further consideration.

The growth of the State has been steady, and its population is now three millions. Its field of activity and operation has been greatly extended in recent years, and it did a business, with gross receipts for the year ending October 31st, 1916, of twelve million nine hundred and seventeen thousand six hundred and fifty-eight dollars and fifty-five cents. The work of its departments is conducted upon a large and continually growing scale, and the need for more department room is pressing, and must soon be met by the erection of a new building for offices, or to which the State courts can be moved and the space they now occupy in the Capitol building given over to other State departments.

We are giving more thought and attention to protection by the State of the personal rights and property interests of the individual and to his security, comfort and happiness, and to

that end we have, in the last few years, increased the scope of courts and departments already established and have added new branches of government This is shown by the enactment of laws for the regulation of public utilities, the tenement house act, the supervision of weights and measures, the children's guardian board, the widows' pension act, the pure food and health statutes, the workmen's compensation act, improved sanitary requirements for bakeshops, factories and other work places, and the safeguarding of life, limb and health of mechanics and operatives under the supervision of the Labor Department In the care of the insane and defectives, and for the restraint of the criminal, we have found it necessary to acquire more land and to enlarge the institutions devoted to them, which includes the establishment of a new colony for the feeble-minded, a new site for an insane building or buildings, a new building for the criminal insane in connection with the Trenton Hospital, and the Women's Reformatory As an illustration of the scale of State expenditures, let me instance that during the three years of my administration the Legislature has appropriated for the purchase of additional lands, for new buildings, and for remodeling of old buildings with their appurtenances, all devoted solely to the State care of mental defectives and the criminal, and exclusive of repairs and equipment, more than one million three hundred thousand dollars

To meet the legitimate demands of all State departments and institutions for larger appropriations with which to finance the great increase in the State's activities, the revenues of the State were severely taxed, and the Legislature of 1914 was called upon to provide new sources of income, if a State tax or bond issue would be avoided This was accomplished by the enactment of an inheritance tax act, imposing a reasonable and fairly graded tax on the estate of decedents, which in the first year of its operation added nearly two million dollars to the State funds The requisition act, passed the same year, also aided in relieving the financial situation, in that it helped to check improper expenditures and prevented obligations being incurred in excess of appropriations, which in previous years the Legislature had

been compelled to meet by extraordinary supplemental appropriations Solely because of these acts, our financial condition is better to-day than it has been in years, and with the elimination of extravagant expenditures, through wise legislative appropriations, all fair requirements of every branch of our government can be met

The net increase of State receipts for the year just closed over the previous year was seven hundred and forty-nine thousand five hundred and forty-eight dollars and seventy-two cents, and the balance in the Treasury October 31st, 1916, for State uses was three million nine hundred and ninety-four thousand dollars and forty-two cents, against which were outstanding requisitions and contracts amounting to two million one hundred and thirty-seven thousand six hundred and ninety-six dollars and fifty-five cents, leaving a free balance in excess of obligations of every kind and nature of one million eight hundred and fifty-six thousand three hundred and three dollars and eighty-seven cents It is a wise financial policy, and it should be the aim of the Legislature always to keep a large free balance, at least a million dollars, in the treasury as a protection against unforeseen contingencies, since the Constitution prohibits the creation of any debt or liability of the State in excess of one hundred thousand dollars except by vote of the people

Our State departments and institutions are in excellent condition, except for the need of additional room, and are well managed Indeed, the State is most fortunate in having the services on its various boards, as heads of departments and as superintendents of institutions, men and women who seem peculiarly adapted for the particular work entrusted to their charge They rank high, and among them are many who are recognized as authorities in the special field of work in which they are engaged The only criticism I have to offer is directed at our prison conditions, the blame for which can be placed on previous Legislatures, rather than on those in charge of prison management

The State Prison is old, unsanitary and ill-adapted to the care of twelve hundred prisoners there confined In fact it

should not be located in a thickly settled part of a large city, and the property should be sold and a new location secured The Rahway Reformatory might well be taken for this purpose and a new site for the Reformatory purchased A portion of the prison buildings is antiquated and unhealthy, and the use of such buildings should be abandoned The prison is poorly ventilated and the inmates get little sunlight, and there is no room in the grounds for recreation, and what room there is is insufficient for exercise If it is not considered feasible to change the location of the prison at this time, the State Arsenal, which adjoins the prison grounds, could be moved elsewhere, the arsenal building torn down and the vacant land included within the prison bounds This would be a great improvement, the expense of which would be small and the resulting benefit large

By an act of the Legislature of 1914, it was declared as the policy of the State to abandon the practice of contracting the labor of convicts, and new contracts were forbidden Although the Board of Prison Inspectors, with the consent of the Governor, was authorized to extend the contracts then in force, it was the intention of that act to lapse those contracts so soon as they terminated, and that employment should be provided by the State within the prison, or on farm, quarry or road work for all prisoners, but it has not been possible to carry out such intention, and some contracts were extended and are still in force This was necessary because subsequent Legislatures failed to provide sufficient funds to enable the Prison Inspectors to establish other industries The men should not be permitted to remain in idleness, and all those now employed under prison contracts cannot be put at farm or road work for the reason that the extent of such work is limited, and also because some prisoners are unfitted for manual labor and others cannot safely be trusted at outdoor work I am not satisfied that it is wise to discontinue the making of prison labor contracts The aim of the prison authorities is to keep the men employed, and it seems to me that they may as well be at work under prison contracts as at other employment, provided the preparation of such con-

tracts is carefully supervised, their terms made fair and equitable, and a portion of the contract price for their labor is set aside for the men Under such contracts less money is required from State funds, the contractors making the initial investment for the plant and raw material and assuming all risks of the business, such as repairs to machinery, unskilled and usually disinterested workmen, damage to goods and the marketing of the product If, however, the Legislature believes that these contracts should be terminated, it must do more than pass a law to that effect It must provide ample funds to enable the prison authorities to set up other branches of work for the prisoners

So long ago as 1911 the Legislature directed the Board of Prison Inspectors of the State Prison and the Commissioner of the Rahway Reformatory to pay the dependent families of inmates of those institutions the sum of fifty cents a day for each day such inmates were employed at productive labor, and later on, in 1914, the law was amended so as to direct the Inspectors and Commissioners to establish a wage system whereby the inmates who work would, after deducting a sum for their care and maintenance, be allowed a small wage for the support of their dependents, or for their own benefit after parole or discharge It was not, however, until this fiscal year that any money was available for such purpose, and, in my judgment, the sum is insufficient The law presents rather difficult financial problems, because the wage system applies to all persons confined in these institutions, whether they work at productive labor or are employed in clerical or domestic work, which produces no return in dollars In the State Prison about two hundred men are assigned to duties within the prison, and, while their labor is valuable and saves the State money, it produces nothing which can be sold or exchanged Seven hundred or eight hundred others are working on prison contracts, the money from which is paid directly into the State treasury and is absorbed in the State funds Of the remaining two hundred or three hundred, some are employed on road work, for which the Road Department makes compensation, others in industries established in the prison by the State, and still others at the prison farm,

the two latter classes producing goods which the State can sell A wage schedule must, however, be provided for the whole twelve hundred, and it can readily be seen that if the money earned by the work of two or three hundred is divided among the entire twelve hundred, the per capita for each must necessarily be small Another complication is presented which may be illustrated by the operation of the knitting plant established by the State at the State Prison, where about thirty men are employed In fixing the price at which the knit goods should be sold there should be reckoned, among other items, the maintenance cost of every inmate, whether within the prison, at the farm, or road camps The result is that the sale price fixed for these goods may, on the one hand, show that the knitting plant is operated at a loss, or, if a higher sale price is fixed, it may be above the general market price at which these goods sell It seems to me that since the product of prison labor (which is sold to our own State institutions and departments) must compete with outside manufacturers, the price should compare favorably with general market prices, and that until other industries are established at which the men who now work for prison contractors can be employed at productive labor, the money earned on these prison contracts should be credited to the general manufacturing account and used, first, in the reduction of maintenance cost, and the balance set aside for the benefit of all the prisoners

Chapter 270 of the laws of 1916, provided that a person convicted of murder in the first degree shall be imprisoned at hard labor for life, if the jury before whom he is tried so recommends Previous to the passage of that act, there was but one penalty fixed by law for this crime, namely, death I feel satisfied that it was the intention of the Legislature, in passing the act of 1916, that every person found guilty of murder in the first degree, if saved from execution by the recommendation of the jury, should serve the full life sentence, unless pardoned or paroled by the Court of Pardons under its constitutional power, and yet such may not be the result, because chapter 214 of the laws of 1914 provides that any person sentenced to prison for

the term of his life may be released on parole by the Board of Prison Inspectors after he has served fifteen years The apparent conflict between these two acts should be remedied, otherwise an opportunity for a miscarriage of justice is left open

The State Purchasing Department, established pursuant to an act passed last year, has not been in operation sufficiently long to justify me in expressing an opinion as to whether or not it will prove a success, but I believe it will It would have been a failure, however, because of lack of sufficient funds, had not the State House Commission taken advantage of chapter 49 of the laws of 1916 and combined the Bureau of Audit and Requisitions of the Comptroller's Department with it Naturally the first cost of establishing the Department, including the preparation and printing of its schedules, forms and contracts, will be large On November 1st, last, the sum of $10,000 00 became available for the use of the Department, and by December 1st it had incurred obligations for printing and advertising, amounting to about $6,670 00, which leaves a balance for the continuation of its work for eleven months of only $3,300 00, out of which the salary of the Purchasing Agent must be paid at the rate of $416 66 monthly To give this Department a chance to demonstrate its efficiency during the current year, it is imperative that a supplemental appropriation be allowed it It would be good business to amend the law so as to authorize the Department to make purchases for cash from time to time, in advance of requisitions, of goods in large quantities as the season or special opportunities for low prices make such purchase wise, and to provide it with a fund for such purchases The goods could be held by the seller to be delivered as required and the fund could be recouped as the goods were requisitioned by the institutions and charged for against their appropriations The act contemplates the establishment of a warehouse or warehouses for the storage of goods purchased until such time as they may be required by institutions, but no money was provided for such purpose After it has been demonstrated that the Department is practical and economical, provision should be made to make such investment possible

I direct your attention to a decree of our Court of Chancery in the case of McCarter, Attorney-General, *vs* Lehigh Valley Railroad Company (78 N J Eq 346), which decree declared void a grant made July 12th, 1889, by the Riparian Commissioners of this State conveying to the Lehigh Valley Railroad Company, for the consideration of $48,000 00, the right of reversion of the State in lands in Jersey City, known as the "Basin of 1867," adjacent to the Morris Canal property, upon condition that the State should pay to the Railroad Company on or before the first Tuesday of March, 1913, or within such further time as thereafter should be allowed by the Court, the sum of $48,000 00 with interest at 6 per cent from December 20th, 1889 The decree was affirmed by our Court of Errors and Appeals, March 8th, 1916 (96 Atl Rep 1917), whereupon the Attorney-General made application to the Court of Chancery for an order designating the time for payment of the amount mentioned in the original decree of that Court Upon such application, the Court said that the Legislature should be given a reasonable time within which to make provision for the payment, and it fixed March 1st, 1917, as the time within which the sum in question should be paid

The consideration of $48,000 00 for the grant aforesaid, was paid by the Railroad Company into the treasury of the State and was by the State Treasurer credited to the "Income of the School Fund" Our Constitution provides that money or property appropriated or received into the Treasury for the support of our public free schools shall be securely invested and shall remain a perpetual fund and "it shall not be competent for the Legislature to borrow, appropriate or use the said fund, or any part thereof, for any other purpose under any pretense whatever" The money in question was not separately invested, but went into the School Fund, and there was commingled with other money received by the same fund, and (if it has not been expended for the purposes of the fund) it has now no separate identity, and it certainly has not earned 6 per cent interest, continuously, from the date it was received by the State In view of the constitutional provision quoted, I am of the opinion that the

Legislature cannot take from the School Fund any money to apply toward the sum now necessary to be paid It surely cannot take any part of the School Fund not derived from the $48,000 00 originally paid Since it is of the utmost importance, because of the value of the land involved, that the amount due the Railroad Company shall be paid before March 1st, all question of an unconstitutional attempt to take from the School Fund any part of the sum required should be avoided, and the payment ought to be made in full from the general funds of the State available for State purposes I recommend that you pass at once a special appropriation bill providing for payment out of State funds to the Lehigh Valley Railroad Company of the sum of $48,000 00, with interest at 6 per cent, from December 20th, 1889 The amount needed will be in excess of the sum of $125,000 00

In ending my official connection with the State, I venture to hope that I have been of some service in aiding those whose endeavor it has been to so conduct our government that it should produce the greatest measure of benefit to all citizens I have genuine regret that my official relations with those with whom I have been so closely associated must soon be severed I have found them conscientious in their work, earnest and painstaking in their efforts, and rendering the State a highly intelligent and beneficial service It is not necessary to ask for my successor the cooperation, assistance and support that has so generously been given me I know he will find it ready for him, and with the experience he has had and knowledge he has gained in his long and valuable legislative service, and under his wise guidance, I feel assured that our State will go forward toward a great and glorious future

Respectfully submitted,

JAMES F FIELDER,

Governor

Mr Oliphant moved that the reading of the Minutes be dispensed with

Which motion was adopted

Mr Dolan offered the following resolution

WHEREAS, Within the past few months there have occurred in this State a series of explosions of ammunition, either in course of manufacture or shipment to foreign powers now engaged in war, viz, at Black Tom Island, in the month of July, 1916, at the works of the Canadian Car Foundry Company, Kingsland, Bergen county, in the month of January, 1917, and at the works of the Dupont Powder Company, Haskell,

Passaic county, New Jersey, in the month of January, 1917, and

WHEREAS, Such catastrophes have resulted in the loss of life and damage to property totaling in excess of twenty millions of dollars, and

WHEREAS, The subject of the manufacture, storage and transportation of such commodities seems to require more strict regulation in order to protect the lives and property of the people of this State, therefore, be it

Resolved, That a committee of five be appointed by the Speaker of the House of General Assembly for the purpose of investigating into said explosions and ascertaining, if possible, the causes thereof,

Further resolved, That said committee also examine into and report upon what law or laws are necessary or needful for the regulation of the manufacture, storage and transportation of ammunition and explosives,

Further resolved, That said committee shall have power to subpœna and examine witnesses under oath and to compel the production of all papers, documents, records and other data necessary or material to such investigation, they shall have power to appoint a counsel to assist them in their investigation,

Further resolved, That the sum of one thousand dollars is appropriated for the expenses of said committee, when included in the original or supplemental appropriation bill

This resolution shall take effect immediately

On motion of Mr Oliphant, the resolution was referred to the Committee on Judiciary

Mr Oliphant offered the following resolution

Resolved, That the following-named persons are hereby elected clerks to committees John C Feil, of Essex county, Carl J Schultz, of Essex county, Charles S Larsen, of Essex county, James E Mitchell, of Mercer county, John A Penn, of Camden county, William H Duffield, of Gloucester county, Frederick E Koester, of Bergen county, Stephen Dawson, of Passaic county

Upon the calling of the roll, the resolution was adopted by the following vote

In the affirmative were—

Messrs Aaron, Ackerman, Amerman, Applegate, Badgley, Borden, Bramhall, Buehler, Colgan, Dalrymple, Edgar, Gallagher, Geran, Gilbert, Glover, Greenwood, Hagaman, Herrick, Hershfield, Hurley, Iobst, Johnson, Keating, Kellam, LeMaster, MacKinnon, McGovern, Moore, Morgan, Oliphant, Pancoast, Pierson, Press, Randall, Read, Roberts, Robinson, Runyon, Schneider, Schoen (Speaker), Sheppard, Singer, Stille, Tattersall, VanNote, Vreeland, West, Whitman, Whitney, Wilson, Winne, Wolber, Wolverton—53

In the negative—None

The Clerk of the House announced the assignment of clerks to committees as follows

Clerk to Committee on Education—John C Fiel, of Essex county

Clerk to Committee on Game and Fisheries—Carl J Schultz, of Essex county

Clerk to Committee on Highways—Charles S Larsen, of Essex county

Clerk to Committee on Judiciary—James E Mitchell, of Mercer county

Clerk to Committee on Miscellaneous Business—John A Penn, of Camden county

Clerk to Committee on Railroads and Canals—William H Duffield, of Gloucester county

Clerk to Committee on Revision of Laws—Frederick E Koester, of Bergen county

Clerk to Committee on Municipal Corporations—Stephen Dawson, of Passaic county

Mr Oliphant offered the following concurrent resolution, which was read and adopted

WHEREAS, The State House Commission will secure a new desk and chair for the use of the incoming Governor in the Executive Chamber, and

WHEREAS, The present desk and chair have been used by the present Governor during his term of office,

Therefore be it resolved by the House of Assembly (the Senate concurring), That the State House Commission be and it is hereby authorized to present to the Hon James F Fielder the desk and chair used by him as the Chief Executive of the State during his term of office

Mr Hershfield offered the following resolution, which was read and adopted

WHEREAS, There have been within the last few days disastrous explosions in munition-making plants at Kingsland and Haskell, New Jersey, which explosions have caused lamentable loss of life and property, and

WHEREAS, In the opinion of the General Assembly of the State of New Jersey, now convened, conditions may exist in many other New Jersey munition-making plants that may lead to further destruction of life and property, therefore, be it

Resolved, That the Speaker of the House of Assembly do appoint a committee of five of its members who are to suggest ways and means of securing legislation tending to prevent or minimize the reoccurrence of further disasters, said committee to report back to the House within three weeks the result of its deliberations, together with such recommendations as in their opinion may tend to secure remedial legislation

In accordance with the above resolution the Speaker appointed the following gentlemen to act as such committee Mr Hershfield, of Passaic county, Mr Winne, of Bergen county, Mr Johnson, of Essex county, Mr Vreeland, of Morris county, Mr Dolan, of Hudson county

Mr Oliphant offered the following resolution, which was read and adopted

Resolved, That the House take a recess to meet on the stage of Taylor Opera House, at 11 45 A M, and when it then

adjourns it be to meet Friday next at 11 o'clock A M, and when it then adjourns it be to meet Monday next, at 8 P M

The Speaker declared a recess, and the members proceeded in a body to the Opera House, pursuant to the above resolution

The House, together with the Senate, participated in the inauguration of the Hon Walter E Edge as Governor of the State

Upon roll call all members of the House were present with the exception of Mr Stille

The following was the program of the inauguration

Overture by Winkler's Band, "America"

Joint session of the Senate and House of Assembly, called to order by the Hon George W F Gaunt, President of the Senate

Invocation by the Rev Charles Martin Niles, Rector of the Protestant Episcopal Church of the Ascension, of Atlantic City

Reading of the certificate of the election of Hon Walter E Edge, of Atlantic City, as Governor of the State of New Jersey, by the Hon Thomas F Martin, Secretary of State

Administration of the oath of office of Governor to the Hon Walter E Edge, by Chief Justice William S Gummere

Selection by Winkler's Band, "Hail to the Chief"

Governor Fielder then formally presented to the new executive the Great Seal of State

"Governor Edge," he said, "the hour is at hand when I must transfer to you the Great Seal of our State and pass on the authority of chief executive, which it typifies

"Stamped on its face of enduring metal are the figures of Liberty and Prosperity It has been in the hands of many

Governors, whose splendid efforts were directed, through the authority that was theirs, toward securing for and preserving to our people the greatest measure of civil liberty and in aiding them to achieve that prosperity which means happiness and contentment

"It has been a great pleasure, as well as an honor and privilege to me, to have served the State, and since that day, nearly four years ago, when this seal was first given into my keeping, I have endeavored to keep my eyes fixed steadfastly upon the high standard set by my predecessors Now, upon the completion of my period of service, I cheerfully pass on to you this symbol of authority

"Your years of experience in State affairs qualify you well to administer the duties of this great office to which you have been chosen by your fellows, and the close relations I have had with you justify me in predicting that you will so combine the ability that is yours, with the knowledge you have gained, that personal liberty and prosperity will, through your service, continue to grow and thrive in New Jersey"

Upon receiving the Seal from Governor Fielder, Governor Edge said

"Governor Fielder, I deeply appreciate your kind words and your good wishes I accept this emblem of authority thoroughly realizing the responsibility it implies We may have differed in the past on governmental policies, but we have never differed in our desire for the best interests of our State When my term is concluded, three years hence, and I hand to my successor this same emblem of power and opportunity, I can only hope that I may have the same universal commendation as have you

"May your future life, whatever may be your activities, be as useful as has your service to the State"

Introduction of Governor Walter E Edge to President of the Senate, the Hon George W F Gaunt, by the retiring Governor, James F Fielder

Introduction of Governor Walter E Edge to the members of the Senate and General Assembly by President of the Senate, the Hon George W F Gaunt

Inaugural address by Governor Walter E Edge, as follows

INAUGURAL ADDRESS

GENTLEMEN OF THE LEGISLATURE

I assume the responsibilities of this great office convinced that a Governor should not be merely an executive, concerned chiefly with constitutional functions or following conventional precedents I revere and respect the traditions of the past, but we are now concerned with the future I conceive it to be my most important duty to direct the mobilization and encourage the development of the assets and resources of the State, and to improve New Jersey's social, economic and industrial conditions Together, we will endeavor to capitalize our possibilities and put them on the market for the progress of our industrial life and the happiness of all our people

I thoroughly appreciate that the public, in the matter of demands upon and expectations concerning its officials, is far more exacting than the average private employer I realize, too, that New Jersey is accustomed to the experienced guidance and wise management of many illustrious and able men, including those who were identified with the administration immediately preceding, their work has been patriotic and painstaking In view of this situation, I presume I should be somewhat appalled at the magnitude of the undertaking Frankly, however, I am not I enter into the constructive program looking to the welding of New Jersey's government into a business organization with enthusiasm and confidence I believe it will be possible, with your earnest co-operation, to effect at least five of the big legislative accomplishments this year.

(1st) A thorough reorganization of our Road Department, including a modern State Highway System

(2d) Home Rule for our cities to that degree which is permissible under the Constitution and consistent with sound government

(3d) The increase in the franchise tax on public utilities companies, as provided in our platform

(4th) Additional consolidations of State departments or boards or other activities in the interest of greater economy and increased efficiency

(5th) A solution, officially endorsed and officially authorized, for our prison and institutional problems, so that the way may be paved absolutely for genuine penal and institutional reform through feasible development of the State-use system and colony idea

My vision is clear as to these and other tasks which must be undertaken and, in many instances, as to the method of accomplishing them At the same time, I do not propose here to arbitrarily dictate final remedies, as I do not approve generally of a policy which renders a verdict or decides an issue without a hearing or before the evidence is in However, I fully realize that the Executive must, to a great extent, be the guiding spirit, a responsibility which I readily assume I shall endeavor to encourage team work throughout as without this success is impossible To this end, and in order that our unmistakable pledges to the people, as presented in our platform, shall be carried out, I respectfully ask the hearty co-operation of the Legislature and other responsible officials

My hope as well is that a business government may become a reality and not remain a mere campaign slogan unattained We have pledged to the people of New Jersey that accepted business principles shall direct our course rather than precedent or partisanship They accepted our representations in no uncertain terms, and, gentlemen, they must not be disappointed

Little additional legislation is required at the moment in order to prove our good intentions in this particular respect

Of course, I urge the further consolidation of departments in the interest of concentrated responsibility, co-ordination of cognate functions and sound economy, and in further messages, as I deem necessary, I shall urge specifically such legislation In passing, permit me in this connection to draw your attention to the Passaic Valley Sewerage Commission I believe such of its responsibilities as are still existent could be transferred to the State Health Department or to the North Jersey Water Supply Commission, created to deal with a related subject in the same section, and the State thereby saving thousands annually in salaries and receiving the benefit of more concentration of authority The Passaic Valley Sewerage Commission was established about fifteen years ago, and by devising and furthering a practicable solution for the sewerage problem in the Passaic Valley it has served the basic purpose for which it was created Then there are the appraisers or agents employed in each county to carry out the work of taxing the transfer of decedents' property It occurs to me that the county surrogates, through whose hands all such estates must pass finally, could very easily do the work of these special agents, thus abolishing twenty-three offices, saving expense and simplifying the system of collecting our inheritance tax

But to-day we have various important consolidations which should command our immediate attention from the standpoint of careful and energetic administration and prove the possibility of a business government We also have a State Budget Law We have a Central Purchasing Bureau Act. Obviously, it is our immediate duty to go ahead and administer these laws that we already have, so that their operation will be effective and the result will be a thorough business administration, affecting as they do practically every department of the government of our State All law is valueless without enforcement

BUSINESS GOVERNMENT

The question may be asked

"What is a Business Government, as applied to a State unit? The term 'Business Government' is too general, and we should like to have the plans and specifications"

Briefly, my conception of a "Business Government" is this

I believe the Governor of the State should be the Business Manager of the State's varied interests, that the Legislature, as representing the various county units, should be the Board of Directors, that the people should realize they are the stockholders, owning collectively the business of New Jersey, and that the business of New Jersey, speaking from a material standpoint, consists of all the natural resources, such as coast lines, river lines, harbor facilities—developed and undeveloped, forests, streams, minerals, and all those assets which Nature has provided But, it may be said, they are in most part privately owned So they are But it is through wise, helpful and remedial legislation and co-operation on the part of the State Government with the Federal Government that many of these resources are brought into practical use, where men are employed, where industry is encouraged, where commerce is developed, and through all of which our State is made greater and our people of all classes happier

The State's business also includes the opportunity—nay, imposes the obligation—to provide for and alleviate the distress of unfortunates and dependents, and through wise legislation and properly conducted institutions, to correct as far as possible those evils responsible for this problem The causes must be eradicated or their effect minimized

The entire proposition, whether from the material or social side, is one requiring business judgment and business organization

I propose to bring together, as far as possible and practicable in a political government, the different boards dealing with these

various subjects in order to encourage their co-operation, each realizing that the Governor is the General Manager of all this business, reporting through him, consulting with him, planning with him for further development and further improvement The Legislature, otherwise the Board of Directors, is in session approximately only three months of the twelve It is my plan to form what might be termed an unofficial or semi-official cabinet, consisting of departmental heads and representatives of the Senate and House, to meet, consult and devise during the nine months that the Legislature is not in session I want to distribute this responsibility so that our business becomes one of twelve months, rather than one of but three months

I cannot lay out in detail in a message the many things that go to make up a business government, but, summarized, it is simply introducing into what has been an accepted political government the common-sense rules of every successful private business corporation of the day

I appreciate, gentlemen, that the millenium has not arrived Neither have I a remedy for all the ills of government But I am absolutely convinced that it is possible to transform, to a great extent, a political government into a workable business organization, and to that task we are indelibly committed

APPEAL FOR EXERCISE OF JERSEY CITIZENSHIP

If we are to transform a purely political government into a real business organization and capitalize our resources and put them on the market for the development of our industries and the benefit and comfort of our people, we should first exert every effort to interest in their investment the stockholders owning the business of New Jersey I think everyone will admit that in some parts of our State the New Jersey interests are subordinated to, or overshadowed by, the interest of the nearby metropolitan cities of adjacent States

In South Jersey many of the activities which should be robust and healthy are weak and struggling because of the competition across the Delaware Many of our people enjoy living in New Jersey, but they do business in Pennsylvania They maintain

industries in Pennsylvania They help to build up the great taxable wealth of Pennsylvania They know all about political Pennsylvania, but little or nothing about political New Jersey

In North Jersey conditions are similar In the great colony of New York commuters of this section there are many taxpaying Jerseymen—men of brains, initiative, constructive ability—who do big things to add to the wealth of ratables in New York City, yet who do little for New Jersey outside of maintaining homes here and paying their taxes They do not know our possibilities because they do not know our politics or our local problems of commerce and agriculture and manufacturing and development In the last election in New Jersey 50,000 more Jerseymen voted for the two leading presidential candidates than voted for the two leading candidates for United States Senator or Governor, and to my mind this means, to a considerable extent, that about 50,000 Jerseymen did not have sufficient interest in the internal affairs of New Jersey to take part in the State election

Is it any wonder that New York and Philadelphia have the means to finance great undertakings of commercial development, while New Jersey sometimes lags behind and hesitates at the expense? What we need is more Jersey citizenship—real citizenship, active citizenship, jealous citizenship—rather than mere "residentship" I appeal for genuine Jersey citizenship I ask the people to come to a full realization of the practically limitless possibilities of New Jersey, commercially, agriculturally and industrially In the creation of nonpolitical business boards I propose to call in men of this type to contribute their part to solving our problems They will receive no salaries, but will receive dividends in the form of an active, progressive New Jersey, thoroughly alive to its opportunities In this particular connection I am pleased to refer to three subjects of paramount importance—Roads, Waterways, and the High Cost of Living All three require the immediate consideration of the Legislature and the closest attention from the public at large

STATE HIGHWAY SYSTEM

Obviously the people appreciate the importance of good roads I need not elaborate on that after the decisive adoption of the Egan Bill They realize the revolutionary effect which the automobile has had on overland transportation, the possibilities which lie in its further development, and the imperative necessity of a great highway system which shall amount practically to a State-wide trackless trolley, used by thousands of motor car owners, not alone for pleasure, but in the transportation of farm products from farm to market, of raw material from the point of production or delivery in the State to the point of refinement and manufacture and of finished products and foods from the market to the consumer The remedial effect which the proper development of the roads must have upon the economic and industrial ailments of the day is self-evident The sole question then for the present consideration is How?

It is my conviction that we should approach the road problem as promising one of the greatest assets in return for State expenditure We already receive approximately a million and a half dollars annually from motor license fees Roads reach every corner, while only as business warrants can railroads and trolleys serve all the people at their very doors With the development of motor transportation and hard-surface highways, business interests, especially manufacturers and dealers, are finding a new method of delivery The State must meet this condition of modern demand and, in return, a rearrangement of license fees to fit the present use of the highways should be devised New Jersey wishes to encourage the use of her highways for such purposes and to co-operate with producers, but the distribution of the expense must be equitable and fair I recommend a rearrangement of motor license fees to take into contemplation these new conditions, particularly as they relate to motor trucks and vans

You are already familiar with the proposition of allowing to remain inoperative the Egan Act so that sufficient funds for constructing the State Highway System—that is, through trunk

highways, built, rebuilt, and forever maintained by the State—may be raised by a temporary road tax on the entire ratables of the State This is a pay-as-you-go plan It saves millions in interest charges necessary to financing the highway system on a bond issue basis By levying a tax of one mill on the approximately three billion ratables of New Jersey sufficient money would be raised in five years to finance the whole project, and as much per year as can be wisely expended By this plan a future generation would not be loaded down with debt I know of no plan that will oblige a closer scrutiny by the public of highways expenditures than of putting the financing on a tax rather than a bond issue basis It points the way to escape from excessive road costs and a financial burden of the future which would seriously interfere with necessary expenditures for development by the next generation Generally speaking, therefore, it is a wise example for the State to set, specifically, it offers an immediate solution of our State road problem and one that gives due consideration to other roads in the various counties by maintaining the availability of the fund from which State aid in road building and maintenance is at present provided

It has been urged that because of the adoption of the Egan Act providing for a bond issue, it does not follow that the public would endorse even a temporary road tax, and, further, that the bond issue was approved because under its provisions a State highway system would cost the taxpayers nothing I emphatically disagree with this view

If the present and future income from motor license fees should be diverted to discharging the road bonds and paying interest thereon, as contemplated under the Egan Act, it is, of course, perfectly obvious that this money would be removed from the possibility of use in repairing and building other important highways, or, in other words, State aid would practically cease When it is realized that the Egan Act contemplates taking over only about 550 miles of highway, and at present New Jersey has over 2,000 miles of improved State-aid roads, the future burden on the counties without the usual State aid for maintenance must be perfectly clear Again, the item of

interest under the Egan bill totals over $2,000,000 absolutely saved the State by the tax, future generations are not required to discharge bonds for roads which may be inadequate to meet conditions prevailing then, as our present roads are to present requirements, and more important perhaps than either of the above is the declaration by various authorities, and, so far as I have been able to ascertain, undisputed, that the $7,000,000 provided under the Egan Act would not under any conditions be sufficient to build the highways specified, and that the act is therefore impracticable, if not absolutely impossible of execution The Egan Act, however, has served a very useful purpose It has enabled you to learn that the people of New Jersey want a State highway system, and are willing to pay for it

The matter of financing is our responsibility, and must be adjusted to secure results, not certain litigation Again, if we are to have a real State highway system, the solution must be approached from the broad, unselfish point of view that it will become a State-wide asset of advantage to all classes of citizenship, cities, towns and rural districts alike In my judgment, any attempt to especially assess benefits or discriminate in cost as between sections will so confuse the issue that a speedy solution will become practically hopeless and the clear desire of the people, as expressed by their overwhelming vote, remain unsatisfied It is not an issue for narrow distinctions, but one deserving broad cooperation

What public improvement could more properly come under the heading of a State-wide accomplishment of universal benefit than a modern highway touching every county in the State? Whether highways are constructed by means of a bond issue or tax, in the final analysis the taxpayer must, of course, bear the burden

Before this present Legislature adjourns, the way must be clearly and legally provided On the question of administration of the road department, I am convinced that the State will be well served by following a similar plan to that adopted for the management and control of other consolidated departments under the economy and efficiency legislation, providing that the Governor shall appoint a highway commission of

eight citizens, at least two or three to be recognized engineers, to serve without salary and to have absolute authority in all matters, selecting their commissioner of highways, engineers and other necessary employees above the grades of civil service I have followed the patriotic work of similar Boards of Conservation and Development, of Commerce and Navigation, and of Health, and find the service they are giving the State is of the highest and most intelligent order Care, of course, must be exercised in selecting such a board, but wisely chosen from that class of men interested in road development and willing to serve their State, the taxpayers would be assured of a wise expenditure of the large sum of money contemplated This would prove another practical adoption of recognized business principles in place of political control

The dirt roads of the State, or what are known as unimproved roads, should receive more consideration In many parts of the State these are numerous The bulk of the people in rural communities live on by-ways, it is not their fault that they are not on the trunk lines If these highways were improved through the aid and supervision of the State, back farms and properties would become accessible and valuations would increase I appreciate that certain laws passed last year constituted a step in this direction But under none of these acts may the State spend more than $105,000 a year in such work on a fifty per cent basis, nor may any road be improved under this plan where the right of way is less than thirty-three feet, and in those acts where county freeholders are authorized to help, the road must be an extension of or connection with some permanently improved road My idea is that the present legislation is not sufficiently liberal to permit of desirable progress in this important direction I understand that New York State provides from a half a dollar to a dollar for every dollar that the township raises for the improvement of dirt roads Some similarly liberal plan in New Jersey would, I firmly believe, assist our aim to increase the accessibility of all New Jersey communities through good roads and thereby help solve the economic and industrial problems with which we all are familiar It does not reduce the

cost of transporting farm products where the farmer located on an inferior byway is compelled to start with a lighter load in order to navigate the poor road from his farm to the improved highway The benefit of the modern road is thus practically lost in its relation to the cost of transportation, which is but little reduced if at all

Were we to use our present road income for discharging bonds, however, our finances would, of course, not permit further road development

The question of a State patrol system, State aid for highways not included in the State system, the improvement of dirt roads in the counties, the question of proper materials, drainage and, in fact, every detail of highway construction and maintenance should be referred, without too much restriction on the part of the Legislature, to the Highway Commission

PATROL SYSTEM

Conceiving and working out a systematic, practicable patrol system should be among the very first considerations of this Highway Commission Road maintenance is quite as important as road building New Jersey has invested in many splendid roads, but it has not preserved them In this respect our highway policy has been shamefully wasteful I recommend that no road bill be passed unless it is based on the patrol system of maintenance and contains the authorization and provisions necessary thereto I recommend that you adhere to this principle even when it comes to assisting the counties, and I shall urge that hereafter no State aid be given a county until the latter has agreed and definitely arranged to meet such requirements of the State for systematic and everlasting repair

WATERWAYS

In the interests of the development of our waterways and ports, I urge the co-operation of the Legislature and the information of the public in the comprehensive plans of our Department of Commerce and Navigation

Almost entirely surrounded by water, with navigable streams running through nearly every county, located directly between two of the greatest ports in the world, New Jersey ought to be the greatest commercial State in the country It will be if only Jerseymen will speak for Jersey and represent Jersey

I bespeak every possible legislative encouragement for the great marine projects, one on the New York Bay and the other on the Delaware, now being considered by the cities of Bayonne and Camden Marine terminals, adequate docking facilities and general waterfront development are among the first essentials in the campaign for a Greater New Jersey Exporters demand adequate dockage facilities The ports of New Jersey must be accessible and inviting The cities located on the waterfront can accomplish much for the general development of New Jersey by taking the initiative in these matters, as Camden and Bayonne have done, and co-operating with the Department of Commerce and Navigation Our municipalities should not hesitate to avail themselves of the assistance of this department

Under an act passed by the Legislature last year municipalities bordering on tidal waters have the power to join hands in what may be made a co-operative plan with the State and Federal Government, whereby salt marsh and meadow lands and lands under water may be reclaimed and improved until they become valuable assessed property of the municipalities, enhancing the wealth of the State in ratables

I call attention to the great possibilities, under this plan, of developing for manufacturing purposes the hundreds of acres of useless waste land in the northern part of the State, particularly that vast section along the Hackensack River and within small gun range of our great cities of Newark and Jersey City

PUBLIC OWNERSHIP OF WATERFRONT

Another matter that should receive careful consideration in connection with the development of the waterways and ports of our State is the ownership of the accessible waterfront along the Hudson and Delaware I have the opinion of men experienced in international commerce that the business at the ports of

New Jersey suffers a severe handicap because of the private ownership of the waterfront It seems to me some public control, similar to that which New York City exercises, besides creating a source of revenue, would put into the hands of the people the power to curb waterfront monopoly It occurs to me that we want to thus encourage competition along the waterfront of our commercial cities at the same time that we are pressing, as we propose to do vigorously and relentlessly, our fight against the lighterage and rate discriminations of the railroads at the port of New York We should prosecute this fight and, at the same time, interest and bring in line with New Jersey, if possible, Chicago, Cincinnati, St Louis, Pittsburgh and other big shipping centers

TRANSPORTATION OVER OR UNDER RIVERS

A matter that is properly treated in connection with the development of waterways, because it relates thereto, is the dual project of modernizing transportation facilities across the Hudson and Delaware rivers, with a traffic tunnel for the former and a bridge for the latter These undertakings, heretofore entirely separate in their treatment and prosecution, have been considered and debated and urged for several years by public-spirited citizens, but, in my judgment, they have not received the proper sanction and co-operation The assistance of the State must be enlisted

At this stage of the proceedings, when the sails seem to be flapping and in need of some steady, dependable, directing influence, I am frank to say that I believe this administration can well serve the people by getting squarely and aggressively behind these enterprises I urge the counties most directly concerned to consider them, not as the mystic products of idealism, but as gigantic projects of major importance to New Jersey and to the country at large—as potent factors in the solution of our economic problems, desirable contributors to the comfort and convenience of our people and as invaluable facilities in the event of war I firmly believe that we may confidently depend upon New York and Pennsylvania for all necessary co-operation, for the

enterprises will be mutually beneficial Progress injures none The history of the construction of bridges across the East River, between the city of New York and Long Island, shows that the population and industries of New York were not affected by the long-apprehended trend to Long Island Nor would our neighboring States suffer in the slightest degree from the modernizing of traffic facilities across the Hudson and Delaware

SHIP CANAL DEVELOPMENT

Along with the encouragement of waterway, waterfront and general transportation development, I believe this administration should take a keen interest in the possibilities of a ship canal I thoroughly appreciate that to a certain extent this is a federal responsibility, but the federal government is waiting on us for the right of way

The thirty-two miles of river front from Camden to Trenton is now more than two-thirds occupied, either by manufacturing plants, towns, or configurations of shore that fail to be attractive spots for manufacturing establishments This stretch is of great value to the State Of how infinitely greater value, then, would be a river with both sides in New Jersey, running for 34 miles through a strip of what is now farming land, from Bordentown to Perth Amboy? Surely it would vitalize what is now back-country territory It would be the choice location for manufacturers in the eastern part of the United States For the coal, pig iron and lumber of the major part of the eastern States it would provide access to two large cities on a safe highway

I submit for your consideration the desirability of further legislation looking toward the acquisition of the right of way for such a canal or a strip of land two miles wide, so that the State may have the opportunity to recoup its outlay, perhaps many times over, by selling manufactory sites

HIGH COST OF LIVING

I believe that the extension and development of New Jersey's roads and waterways would have a remedial effect on the malady known as "the high cost of living" Undoubtedly the exorbitant

cost of transportation, of handling and rehandling products of the farm and factory, is a factor contributing to this serious condition

Of course I shall not presume to diagnose an economic disease which is baffling experts But my idea is that New Jersey might do her part in a task which is national in its scope by the authorization of an unsalaried commission of not more than three This commission, for which I am quite sure we could find well-qualified, experienced men, would co-operate with various agencies which are now considering this all-important subject and represent our State with official standing

Such a commission might serve as the agent of the State in the big task of revolutionizing the attitude of official New Jersey toward certain marketing conditions which appear to have direct bearing on the high-cost problem I have in mind particularly those marketing conditions relating to our fisheries It is difficult to control the prices of food products acquired through man's enterprise and skill—that is, planted, cultivated and harvested, or raised But New Jersey is blessed with one large source of food supply which nature alone has provided the salt-water fish Here is an inexhaustible mine with ore rich in its possibilities for economic benefit

The State to-day licenses pound fisheries in return for a small revenue Millions of pounds of fish are caught Through an investigation made by a legislative commission we learn that the pound fishermen themselves receive only from 2 to 4 cents per pound for these food fish, shipped almost exclusively to Philadelphia and New York wholesale markets, while the same fish, when retailed in our markets, bring from 15 to 20 cents per pound, or even more Then, again, the waste under the present system of shipment and storage is said to be appalling It might be feasible to have the State establish warehouses along the coast for handling this product, paying pound fishermen the market prices, from 2 to 4 cents, so that this industry would not be interfered with, but fixing the prices for sale to the wholesale markets of New Jersey just sufficiently higher to pay the actual expenses of handling Unquestionably this would reduce the price to the New Jersey consumer very materially Even now

we regulate through the Public Utilities Commission the price of the use of various utilities because they are regarded fundamentally as the people's, but given over to private control, management and development as a public privilege Our fisheries are in the same class, if not more so The price of this particular foodstuff furnished by nature is reasonably subject to regulation, if not by assertive public ownership, then by regulatory legislation

It is a truism that good roads make for better economic conditions and more producers and better transportation and easier marketing, while the continued maintenance of our inland waterway, supplemented by the establishment of landing stations where farmers could bring their produce to be shipped by boat to the large cities, would, I firmly believe, relieve the cost situation The establishment by the larger cities of free market terminals at the docks, readily accessible to the waterway boats, would prove a co-operating step calculated to encourage farming and help knock high prices The latter thrive on excessive transportation charges and the lack of a market where overhead charges are not exorbitant By way of suggestion and co-operation in all such relative subjects, a commission such as I have recommended might accomplish much for New Jersey and for the nation

ENCOURAGING AGRICULTURE

I have referred briefly to the necessity for more markets of easy accessibility, but I want to emphasize this important point The French plan of "near markets" and "sure markets" for the small producer would encourage the farmer in his enterprise, call many of our sons back to the soil and result in a reasonable readjustment of food prices

However, I believe we should go a step farther and create a great State market of our own in the combined public institutions of New Jersey Despite the efforts made at produce-raising in separate jurisdictions, it is costing the State hundreds of thousands of dollars to feed its growing number of dependents—the insane, the indigent poor, the physically-afflicted and the inmates of various charitable and correctional institutions Yet

adjacent to those institutions there are thousands of acres of land, either owned by the State or readily and cheaply available, which can be cultivated and tilled, and made to yield sufficiently to supply practically all of our dependents with food, thus reducing the tax burden of every property owner The task calls for uniformity of control, system and the application of modern methods The responsibility for properly handling this joint proposition of a State Farm and State Market should be centralized in some one body or agency, and I earnestly favor legislation designed to bring this about

Such a proposition, of course, should have the hearty co-operation of the State Board of Agriculture I trust you gentlemen will enter into the spirit of any plans which the State Board of Agriculture may have for raising the productivity of this public-owned land through intensive farming, or for encouraging the private farmer, and lessening the distance and reducing the cost between the farm and the market

CONFERRING WITH MAYORS

I have already discussed the need of co-operation between the State and the counties on the question of good roads and between the State and the cities on the question of waterway and waterfront development and the reclamation and improvement of waste lands But there is a broad field for even more extensive co-operation between the State and its municipalities

Our State, though sovereign in power, it should be remembered is a collection of such units as cities, towns, townships and other municipalities No State can be greater than its component parts. Therefore the interests of the State and of these units are common, and I believe that the mayors of these individual municipalities, as the official representatives of the people and taxpayers there, and the Governor, as the official representative or mayor, as you choose, of all of these municipalities or units taken collectively, should be brought together on a common ground occasionally to discuss the problems of the municipalities and the relation of the State government thereto Of course these conferences should be so arranged that municipalities of the same

class only would be represented and considered at any one time, as, of course, the needs of municipalities and the methods of assisting them vary according to the classification and location

I propose calling such conferences from time to time, and I hope that they may prove fruitful in effecting a closer relationship between State and municipal government for the benefit of both They ought to prove particularly helpful, it seems to me, in carrying out successfully such recommendations of our commission which was appointed to survey municipal financing as may be considered feasible and wise Incidentally, I bespeak the very earnest consideration of the Legislature of such recommendations as are made by this commission, which has made a minute investigation in all parts of the State and has made a business-like study of the municipal financial problem The suggested type of work for these conferences of State and municipalities can be taken up and considered between legislative sessions, and it will thus do much toward placing the business of New Jersey on an all-year-'round basis as a permanent business proposition rather than alone an annual subscribing to pledges by political organizations

STATE PRISON AND INSTITUTIONS

If New Jersey is to perform its duty to its criminal charges and itself the prison problem must be solved Likewise, attention must be given to overcrowded conditions and other problems at various other State institutions Here is a task for this administration upon which I cannot put too much stress, for it is urgent

Conditions in the State Prison at Trenton are admittedly unsatisfactory Overcrowding prevails The ground maintained for prison purposes is so extensively occupied with buildings that there is no opportunity for sanitation It has been suggested that the State take over the old State arsenal grounds and purchase adjoining lands for the purpose of enlarging the prison At best this is another makeshift proposition It would relieve the situation temporarily, but not effect a cure It seems to me that we are far enough advanced in our ideas on prison

reform to face this problem and solve it for all time in a big way

I believe the door of opportunity for this solution opens to penal farms and road work If these well-known ideas are put into greater practical practice in New Jersey, there will be no need for such extensive prisons Inside industries, which, of course, must be preserved for those prisoners who cannot do outside work, will be the easier regulated, because they shall need to be less extensive The State-use system as a substitute for the contract labor system, which is unlawful and ought not to be permitted under the subterfuge of the so-called piece-price plan, can be extended on such a comprehensive scale that it may be possible even to solve the prison problem without adding a foot to the grounds of the institution in Trenton

I take it that the success at Leesburg shows the possibilities of the penal farm system Reports show that over one-half of the thousand acres there is now cleared of trees, shrub and roots, and in a year or two all of this farm will be available for cultivation of food crops At this time, the reports show, the men there have constructed several temporary buildings, have cleared land, have cultivated crops of vegetables, grain and other food crops for live stock, and in general have put the former useless land into a condition of productivity Such reports suggest the idea that, without interfering with free labor, it might be possible through an arrangement between State and private owner to use the prisoners in reclaiming for farming purposes the thousands of acres of pine and shrub barrens in the southen part of the State This might be done either through greatly increasing the number of penal farms or, if legal and feasible, by merely reclaiming the land for private owners, who would never bother about the task of making it productive under other circumstances It has appealed to me that this idea may be worthy of some consideration after reading the report of an investigator to the effect that after all of the land set apart for the penal farm at Leesburg had been cleared and rendered ready for farming "comparatively few prisoners can there be employed" Evidently it is in the clearing and preparation of the land for

agricultural purposes that the most prisoners can be employed, and the imperative necessity at this time is to devise the greatest possible amount of practical, lawful, healthful, reasonable and profitable employment for the State's prisoners, so that the task of constantly increasing the size of the institutions of confinement and correction may be avoided

Of course, I am not putting this forth as a mature plan of procedure I appreciate that the subject requires expert treatment, and to this end I propose calling together in conference in the very near future representatives of the Prison Labor Commission and of the New Jersey State Charities Aid and Prison Reform Association, inspectors of the State Prison, the Commissioner of Charities and Corrections, the State Purchasing Agent, officials of the Rahway Reformatory and other allied institutions and of the Road Department, which has an interest because of proposed convict road work, and of the Department of Conservation and Development, which would supervise any extension of the penal farm idea into the broader field of reclaiming barren lands I shall want them to tell their stories individually, express their own views and submit to questions

In brief, there is necessity for harmonizing the conflicting opinions and views upon this question and obtaining speedy legislative action for the purpose not only of solving the prison reform problem, but, also, of reorganizing and placing on a sound business basis the management and care of public institutions of a charitable and correctional nature Regarding the latter, there ought to be more centralization of authority, and, in consequence, more workable and reachable concentration of responsibility

THE NATIONAL GUARD

I believe you will agree with me that the future of the National Guard of New Jersey ought to command the serious attention of this administration The relation of the National Guard of the State to the United States is going through an evolution At the present time it is the subject of much discussion by those interested in the military policy of the Nation Duality of control appears to be a failure Under the National Defense Act

the National Guard became federalized, but following the mobilization on the Mexican Border, which occurred almost simultaneously with the passage of the new Act, there seems to be a wide difference of opinion as to the feasibility of the present system, its adequacy as a means of National defense, and whether the voluntary principle of enrollment will withstand the increased demands made by the Federal Government In fact, Senator Borah has announced that he has prepared a bill to repeal the federalized militia law in favor of a more comprehensive system of military training, and it must be admitted that there is throughout the country more or less sentiment for universal military training and service The recent mobilization on the Border, with no state of hostilities existing, developed the fact that the burden of military service should be borne by all the people instead of by merely a voluntary class, who were forced to partially sacrifice their business affairs and home responsibilities for a considerable period in the interests of the whole people I believe that the time is coming when this country shall not be required to depend on the States as separate instrumentalities in the National defense, and will enact legislation that will result in a well-trained and adequate force subject to the call of the President, either by strengthening the laws governing the service of the National Guard, or by means of some other organization, whatever its name may be

We have in New Jersey a National Guard which I regard as highly efficient, and which is qualified to offer admirable service in the National defense, and even should a system of compulsory service be established, the National Guard will not be replaced by it, but rather become the nucleus of it In my judgment, it would be a grave mistake to do away with support for our National Guard to an extent which would curtail its efficiency, until a satisfactory substitute is assured, and I am not in favor of any hasty action which is not in accord with the ultimate intent of Congress But that the National Guard is a Federal force, and not essential in its entirety for the special police work of the State is evident, and as such a federalized force the question of how far the State should continue to appropriate large sums for

the training of the National Guard is a fair one for us to consider.

If special sums are to be appropriated, it might be well to consider if the State should not directly reimburse the troops who served on the Border with the difference between State pay and Federal pay to make up in part for their business sacrifice, rather than to pay for training, which, if the Federal Government is to continue to control, should be assumed by the Federal Government

What attitude should we take toward the Guard pending the solution of the problem of effective military preparedness? Might it be possible for this administration to save the State the expenditure of a considerable portion of the National Guard appropriations by carefully studying the military conditions and advocating Federal financial support more in keeping with the National aspect of the Guard? The New National Defense Act, in addition to other requirements, provides for fifteen days of field service in each year as compared with the previous six days annual training The State has in the past appropriated annually for purposes of training and instruction, including field training at annual encampment, approximately $100,000, which is in addition to expense of local administration and constructions, maintenance, and repair of armories In view of the additional Federal requirements mentioned, it seems only reasonable that Congress or the War Department should make appropriations in full of the requirements of the new Act The work of this administration may be commenced this session by carefully weighing the necessities for State appropriations requested for field training and rifle practice, bearing in mind their relations to the State service, and also by assuming a policy of opposition to the construction and maintenance of additional State armories until the Nation-wide question of a National defense is permanently settled by Congress

CORPORATION LAWS

The question of a revision of our corporation laws is already in the hands of a special commission No doubt their report will be of valuable assistance to you and to me in determining upon the best program of revision

There is no doubt that the subject needs our careful consideration because of the changed conditions brought about by the so-called "Seven Sisters" acts At a recent hearing before the commission which is studying the subject, it was the opinion of a number of speakers that this legislation was so uncertain in language as to render it almost a nullity, though the apparently drastic provisions of the laws have driven away from New Jersey many corporations formerly operating under Jersey charters and have prevented others from incorporating here

These laws have been in force five years, and that is sufficient time for a fair test I am not in favor of letting down the bars but I do want to get this revenue for New Jersey if it can be gotten without fostering monopoly Have the laws really suppressed monopoly and extortionate prices? Are the food speculators less active and the popular outcry against monopoly and extortion less vigorous after five years of the "Seven Sisters"? Has a single prosecution been instituted under these measures? Have they failed as remedial agencies, and have they succeeded as destroyers of the State's business and income? It is a well-known fact that a considerable number of the provisions of the so-called "Seven Sisters" are in conflict with the Clayton Act of the Federal government Is it not unwise that our State laws regulating business should conflict with the last word that the Federal government has said upon this important subject?

I do not ask these questions in a spirit of antagonism based on an opinion already formed, but rather in a spirit of genuine inquiry It is the duty of this administration to ascertain what the future attitude of New Jersey is going to be toward the corporations While my face is firmly set against the encouragement of unlawful combinations for purposes of manipulation and extortion or undue restraint of trade, at the same time I am not committed to an idealistic principle which costs the State a great deal in lost revenue and business prestige, if that principle is only idealistic and not practical I take the stand that while unlawful "big business" is intolerable, all "big business" is not unlawful, and business is not unlawful because it is big On the corporation question let us keep our minds open and search with fidelity and without prejudice for the facts

TAXATION REFORM

Whole volumes might be written on apparently feasible solutions of the equalization of taxation, and yet it would be necessary to come back to the basic proposition that perfect equalization depends absolutely on the determination, judgment and independence of the assessor, uninfluenced or controlled by partisanship or community selfishness I am not convinced that permanent tenure in office for local assessors would not be the wise thing Of course, the trouble with this plan is that we may give tenure to good and bad assessors alike At all events, I believe all assessors should be appointed rather than elected, and something must be done to protect the assessor against politics and powerful influence If it is not so much the system that is wrong as it is the failure of the assessor to do his duty under the system, then we go directly to the root of the matter by safeguarding the assessor in his independence and the full, free exercise of his own judgment

What I have termed "community selfishness" is a stumbling block that must be guarded against with as much care as influence on assessors through politics The duty of the county tax board is to hear appeals from municipal assessments and to equalize the assessments as between the taxing districts of the county, so that each district shall bear its fair share of the county tax burden, which is now distributed among the districts upon the basis of the local tax valuation as equalized between those districts Herein, of course, lies the temptation for each district to keep its tax assessment as low as possible for the purpose of having to pay as little as possible of the county tax rate It is just as important that valuations between counties be likewise equalized, especially in view of a State road tax, and I earnestly recommend that you give immediate consideration to this particular detail You can solve the question of equalization only by giving final power to a body with State-wide jurisdiction, working in conjunction with the county boards, and they with independent, properly protected assessors

My final thought on this much involved question is to simplify the machinery, rather than to mystify with too much detail

CIVIL SERVICE REFORM

No corporation can be conducted along successful business lines unless its employees are competent and loyal They cannot be competent if they are selected from political consideration rather than because of ability, they cannot be loyal if they are subject to outside political influence Consequently, I make an earnest plea for the strengthening and broadening of the Civil Service System, and I urge that this administration be in thorough sympathy at all times with the merit system

There ought to be a standardization of salaries for the clerks and employees, based as law now provides on "the duties, character of work, hours of service and compensation of the various grades" Not only should employees be classified so that their pay conforms with their duties, hours of employment and responsibilities, but there should be a system that offers an opportunity for advancement from time to time in the service of the State to positions of greater responsibility and more compensation

If necessary, I believe the Civil Service Commission should be given more power in order that the various positions may be justly graded and an incentive for good work provided with the promotion plan I call attention to the fact that in 1914 the Legislature authorized an act which provides that, in addition to the powers already conferred upon it, "the Civil Service Commission shall have the power, and it shall be its duty, to suggest standards of salaries to be paid those filling offices and positions in the classified service of the State" If this isn't enough law, I am ready to recommend more But I am going to insist to the limit of my power and ability that we have genuine Civil Service in New Jersey, administered by those thoroughly imbued with the spirit of Civil Service There must be no sidestepping, no evasion, no interference on the part of partisan politics to keep one man in, to get another man out, or to unfairly favor one group or set of employees as to salaries, working hours, or anything else We want the merit system carried out in the spirit of the system I call on the friends of Civil Service to

stand with me in the task of putting to flight the enemies of Civil Service and reorganizing the whole system on a business basis

ELECTION LAWS

It is our duty to give consideration during this administration to the Direct Primary Act and the Corrupt Practices Act They may be considered together for the reason that they are closely related

Most of the features of the Corrupt Practices Act are effective and ought not to be tampered with at all But the admitted weakness of the act is that there is no limit to the amount which may be expended Of course, the candidate himself is limited by law, but there is no limit to the help which he may receive from friends While this loophole may be very useful and may not be so very unfair, because any party may take advantage of the situation, at the same time it utterly destroys the idea of equality

I suggest that we consider how to strengthen the Corrupt Practices Act so as to prevent the excessive expenditure of money Apparently there are at least two remedies One is the English system of limiting the amount that can be expended by either a candidate or his friends The other remedy is to add to the things prohibited by law for which money may be spent For instance, we might prohibit the printing and posting of pictures, other than such as is necessary to announce public meetings The posting of pictures of candidates is a very large item of expense, and fails to appeal to the reason of anybody It gives an undue advantage to the man who raises the most money It is a needless expense and usually resorted to simply because the other fellow does it Moreover, posters litter the highways and mar scenery Of course, this is but one suggestion by way of illustration Undoubtedly there are other practical ways of limiting the expenditures

With regard to the Direct Primary Act, I want to reiterate at this time that any attempt to emasculate the election law in the interests of partisanship ought to be promptly and unceremoniously discouraged, wherever it is found But at the same time I

realize that the question of the practicability of certain features of the Direct Primary and Election Acts must be considered by this administration, frankly and fearlessly, without any hesitation because of insinuations that men or party are attempting to weaken the acts in their fundamentals No act is so sacred that it doesn't require improvement or alteration from time to time as people gain more experience and conditions change Any act, I take it, which so completely closes the opportunity for general competition for public office, needs at least careful review and studied consideration

Putting the matter concretely, what we need to do is to preserve inviolate all those features of our election laws which provide the obstacles to corruption and to revise and improve upon other features of the laws which have been found, through actual experience, to be faulty and impractical You realize that in a number of respects the election laws are confusing, and tend to a waste of energy and money The frequency and conflicting interpretations of recounts demand a clearer understanding Recently I read in a newspaper that Essex county will pay nearly $75,000 to election officers and owners of polling places for services and rent at the last primary and election, and "it is estimated that the entire cost to the county for this year's election will exceed $170,000" If this estimate was correct, and the other counties paid at the same rate, the total cost of the election in New Jersey must have been about $935,000 Certainly, it ought not to cost nearly a million dollars to select a comparatively few public servants Then, again, I already called your attention to the fact that at the last election over 50,000 voters failed to express their choice for other than the presidential candidates I regret to say that, to some extent, this was undoubtedly due to a lack of interest in New Jersey affairs, despite the fact that a United States Senator, Governor and other important officers were to be selected, but it cannot be gainsaid that a great deal of the discrepancy was due to the confusion created by our form of ballot Some idea of the extent to which general confusion over the ballot caused this failure to get a full expression of sentiment on the election of

State officers may be secured by considering the fact that less votes—I think about 11,000 less—were cast for the two leading candidates for United States Senator than were cast for the two leading candidates for Governor There are a number of other particulars in which our election laws fall short of meeting the popular demand You probably are already acquainted with some of them Others you may learn of by sounding the sentiment in particular communities of our State where they have had various experiences with the election laws and hold honest opinions with reference to the type of revision that is needed I believe we should attack this problem vigorously and courageously Let us proceed on the theory that all election reform should spring from a sincere desire to have a full expression of the people's choice

SCHOOL COMMUNITY CENTERS

I feel that New Jersey ought to take some effective means to make the public school buildings community centers for the benefit of the adult population Our county vocational school instructors and Federal agricultural agents in the counties might accomplish more if all of the schools were thrown open at night to the public as places of organization for this work I believe the public school of the city ought to be made a community center to instruct and aid the foreigners who are constantly settling among us through immigration, the public school of the industrial community, to educate the workers so that they may advance in their trade and better their condition, and the public school of the rural section, so that the farmer may get the full benefit of the State-wide and country-wide propaganda of education in scientific agriculture I am not convinced that it would be unwise to use our school buildings as far as is possible to conduct our elections, thus saving an enormous amount of money spent in the rental of polls That, however, may have some objectionable features But I do recommend that the Legislature consider a plan whereby the Commissioner of Education is authorized and directed to deputize one of his assistants to immediately designate and organize certain school buildings of the State into community centers.

CONCENTRATION OF EXECUTIVE RESPONSIBILITY

We should congratulate ourselves in New Jersey that we have a comparatively short ballot Most of the administrative officers are appointed by the Governor, who is elected by the people, and is very properly held directly responsible to them for the success or failure of his administration The two notable exceptions—Comptroller and Treasurer—I shall say in passing ought to be appointed by the Governor also But I regret that while the Governor has the power to appoint most of his administrative officers, he has practically no effective power to remove Undeniably, the people have come to hold the Governor personally responsible It is unfair to so hold him and yet deny him the power of exercising full control over the administrative officials of his administration I submit that there is no danger of a Governor building up a political machine through an abuse of that power, for in New Jersey there is constitutional inhibition against a Governor having successive terms, and besides the very power of appointment where there are always dozens of applicants for the same position, precludes, rather than creates, the opportunity for political machine-building

In the interests of popularly expected concentration of responsibility, I shall be glad if I live to see the day when the Governor, under an altered Constitution, shall have the power to remove as well as to appoint

Our platform covers the most important subject of an increased franchise tax on public utilities from 2 to 5 per cent , municipal home rule, which is already in the hands of a commission, and which I feel sure will be given immediate and favorable attention in order that our municipalities may be given as much liberty as possible in the matter of directing their own affairs, public schools, extending and developing the system from a practical and common-sense standpoint, social uplift education, fair alike to employer and employee, along the lines of workmen's compensation and the betterment of working conditions in factories and among labor circles generally, and like matters I will expect you to carry out these pledges fully and promptly

I have endeavored to touch, with some detail, upon a few of New Jersey's additional needs which I regard as equally interesting and important Our program is ambitious, and cannot be completed in one administration, but at least the path can be blazed and the future policy clearly outlined The propositions are so closely related that scarcely one of them could be accomplished without effecting the accomplishment of another or others Not one of them is too big for us to attempt and to accomplish if we put our shoulders to the wheel of progress and give to New Jersey the same honest service and the same persistent determination to succeed which we give to our private business

I hope that I may be worthy of your confidence and earn your hearty co-operation throughout this administration It is only through faith in the honesty of our purposes and whole-hearted sympathy and co-operation between the Legislative and Executive branches of our State that we can hope to accomplish for New Jersey the things which New Jersey needs and ought to have Let us face the task courageously and confidently, intent upon avoiding the pitfalls of political partisanship and selfish business prejudice and determine to apply to the government of New Jersey all of the business principles and progressive, enlightened ideas to which our State and our people are justly entitled New Jersey has led in many things May the instrumentalities of a business government be the lever to open the way for a still greater Commonwealth and a still happier people!

Mr Hershfield presented the following communication, which was read by the Clerk

To the Speaker and Members of the House of Assembly

Your committee appointed by virtue of a resolution introduced January 16th, 1917, by Mr Hershfield, of Passaic county, said resolution being, in brief, "To suggest remedial legislation tending to prevent further disasters in the manufacture, assembling, and transportation of explosives in New Jersey," and said committee consisting of Mr Hershfield, of Passaic county, Mr Winne, of Bergen county, Mr Johnson, of Essex county, Mr Vreeland, of Morris county, and Mr Dolan, of Hudson county, has to report as follows

We have held five public meetings in the following places

In Jersey City, January 20th,
In Trenton, January 23d,
In Jersey City, January 27th,
In Haskell, January 30th,
In Rutherford, February 3d

And likewise your committee has personally inspected the munition-making plants at Haskell and Kingsland on January 30th and on February 3d, respectively We have examined some forty witnesses, who have appeared voluntarily, and whose testimony covers some four hundred typewritten pages

As a result of these investigations your committee, believing that the time allotted to it was too short to properly cover the subject, recommends the adoption of the following resolution

HENRY R HERSHFIELD, *Chairman,*
FRANK A DOLAN,
JACOB J VREELAND,
WALTER G WINNE,
H D JOHNSON

Mr Hershfield offered the following resolution, which was read by the Clerk

Resolved, That the Committee of the House of Assembly, consisting of Messrs Hershfield, Winne, Johnson, Vreeland and Dolan, heretofore appointed by the Speaker, be continued to further investigate the causes leading to the recent disastrous explosions and to suggest remedial legislation to prevent or minimize the recurrence of further disasters through the manufacture, assembling, storage and transportation of munitions and other dangerous explosives

The said committee to have the power to subpœna and swear witnesses, to take testimony, to send for persons and papers, to employ counsel and clerical and other assistants, and to report back to this House before adjournment the result of its deliberations, together with such recommendations as in their opinion may tend to secure such remedial legislation

And be it further resolved, That the Appropriations Committee include in its supplemental appropriation bill a sum sufficient for the payment of counsel, clerical, and other assistants, and necessary expenses for the purpose of carrying out the provisions of this resolution, not to exceed the sum of three thousand dollars ($3,000)

Mr Wolverton moved that the communication and resolution be referred to the Committee on Appropriations

WHEREAS, General Mather gave long, faithful and distinguished service to the State in its National Guard, covering a period of nearly thirty-five years and rising from the ranks through the several grades until he commanded a brigade, in which was included service with the National forces during the war with Spain, therefore, be it

Resolved, That the House of Assembly deplores the death of this gallant officer and records its appreciation of his patriotic and faithful services to the State, and be it further

Resolved, That the members of the House extend to the family of the deceased their heartfelt sympathy, and be it further

Resolved, That this resolution be spread in full upon the Minutes of the House, and that the Clerk of the House forward a copy of the same to the widow of the deceased

A message was received from the Governor, by the hands of his Secretary, and was read as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature February 12th, 1917

I transmit herewith the preliminary report of the Commission appointed by me under authority of Joint Resolution No 1, P L 1917, for the purpose of investigating into the condition and management of the penal, reformatory and correctional institutions of the State

This Commission has been in existence only a few days, but the thoroughness with which it has approached its responsibilities and obligations must be most apparent to you The recommendations made by the Commission are comprehensively set forth, together with the reasons therefor, and I trust the Senate and General Assembly will co-operate by their speedy consideration

of the same and by enacting into law the necessary acts which accompany this report Likewise, it is my earnest wish that this Commission be continued, in order that after further investigation it may recommend a definite policy of administration and control and thus remove many of the causes for the condition now existing

New Jersey is to be congratulated on the prompt response of this Commission to the duty to which it has been called and I feel confident that the final result of its labors will solve the prison problem for New Jersey and furnish, as well, a modern plan and policy useful to every State in the Union

Respectfully,

Attest WALTER E EDGE,

FRANCIS E CROASDALE, *Governor*

Secretary to the Governor

On motion of Mr Oliphant, the Governor's message was received and spread in full upon the minutes

Mr McGovern offered the following resolution, which was read by the Clerk

WHEREAS, Investigations of life insurance in sister States have shown conditions of management of a most vicious and reprehensible character, and

WHEREAS, Such investigations have resulted in the enactment of just and salutary laws in the general public interest and beneficial to the policyholders of said companies, and

WHEREAS, No investigation of industrial life insurance companies and their business methods has been undertaken in this State heretofore, and

WHEREAS, The policyholders and beneficiaries of such companies are more numerous and less capable of protecting their interests than the policyholders of the class of life insurance companies already investigated in other States, and

WHEREAS, Charges of gross abuse in the management of such companies have been given wide publicity in the public press of this State, therefore, be it

Resolved, That a committee of five members of this House of Assembly be appointed by the Speaker to make a thorough investigation of the matters referred to in these preambles, and respecting the conduct and management of the business of the industrial life insurance companies doing business within this State, in all their branches, and be it

Resolved, That said committee shall have, and is hereby granted, power to sit during the session of this House and after the adjournment thereof, to compel the attendance of witnesses and the production of books, papers, documents and all other records or testimony necessary or proper for a thorough investigation, to appoint and employ counsel and other necessary assistants, and be it further

Resolved, That the said committee shall present its report and findings at the next regular session of the House of Assembly

On motion of Mr Oliphant the resolution was referred to the Committee on Banks and Insurance

Mr Pancoast, Chairman of the Committee on Miscellaneous Business, reported

Resolved, That four hundred extra copies of Assembly Bill No 281 be ordered printed

Mr Tattersall offered the following resolution which was read and adopted

Resolved, That the privileges of the floor be extended to Hon William J Barbour, a former member of this House from Passaic county

Mr Sheppard sent to the desk a copy of the following resolution

WHEREAS, The Legislature and Governor in 1913 authorized the establishment of a Normal School in some county south of Mercer, and

WHEREAS, No appropriation has been made for the said Normal School in the general appropriation bill, either of that year or those of 1914, 1915 and 1916, and

WHEREAS, More than 50 per cent of the young people of South Jersey who desire to enter such a school are unable to find accommodations in the present State institutions, and

WHEREAS, Owing to the lack of suitably trained teachers, the schools of this region are maintaining with great difficulty such a standard of excellence as is satisfactory to their constituents and attractive to possible residents, therefore, be it

Resolved, That we hereby urge the Governor and Legislature of New Jersey to remedy this injustice by making an appropriation of at least three hundred thousand dollars in the general appropriation bill for 1917 for the said Normal School, and further be it

Resolved, That copies of these resolutions be sent to the Governor of the State and also to the Senator and Assemblymen from this county for presentation to the bodies of which they are respectively members

Mr Oliphant presented the following preliminary report of the commissioners appointed under Joint Resolution No 2 to investigate the high cost of living in this State

February 14th, 1917

To the Senate and General Assembly of the State of New Jersey

In pursuance of the provisions of Joint Resolution No 2, approved January 23d, 1917, authorizing the appointment by the Governor of a commission to investigate the high cost of living in this State, the commission was appointed and begs leave to submit the following preliminary report:

Immediately upon appointment, the commission organized and elected Everett Colby, of West Orange, chairman, and at a subsequent meeting appointed C Alan Eckels secretary, conferences were held with similar commissions in New York State and others conversant with the problem involved in this investigation

As a result of these conferences, and after careful consideration, the commission has determined upon the following as the proper subject matter for investigation

One Source and distribution of food supply

Two Transportation and cartage

Three Terminal facilities

Four Cold storage and warehousing

Five Methods of retailing—markets, food department stores, chain stores—"Corner Grocery" or familiar type of retailer

Six Combinations and restraints

Seven Distribution of cost

Eight Number of turn-overs between producer and consumer

Nine Distribution of population throughout the State

Ten Undeveloped productive facilities of the State

Eleven Inter-state relations

Twelve Co-operative buying and selling

Thirteen Relations of boards of trade and chambers of commerce to their respective communities

Fourteen Effect produced by importation and exportation of food products due to abnormal conditions

Fifteen Advantages of an educational campaign among consumers, with respect to the value of foods from the nutriment standpoint

Sixteen Similar investigations conducted elsewhere

In short, it is the commission's intention to investigate the fundamental causes and conditions affecting the present high cost of living, and to lay special emphasis upon the sea-food industry of the State

The commission begs leave to suggest that an appropriation of seven thousand (7,000) dollars be made for the purpose of conducting this investigation

Respectfully submitted,
EVERETT COLBY,
WILLIAM J COURE,
FRANK S DODD,
H W TEPPERS

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, February 19th, 1917

To the Legislature

As you are undoubtedly aware, the Federal Government has made appropriations for the use of the various States in the construction of highways, known as Federal Highway Aid The appropriations extend over a period of five years In order that the State of New Jersey secure its portion of this highway fund, it must agree to appropriate a like amount, such funds to be used on highways within the State, subject to the approval of the Federal Government In order that New Jersey be assured of this appropriation annually for five years, it becomes necessary for the Legislature to at least morally obligate itself to annually appropriate a sum equal to the Federal Aid Of course, we cannot appropriate money for more than one year, therefore, the attached joint resolution is submitted to you, as it has met the approval of the Federal Government and if passed will be a moral obligation that New Jersey will continue to make the necessary appropriations in order that the State can have the advantage of this Federal Aid The amount involved in no way imposes any obligation on the State in excess of its usual annual highway appropriation

I am sure the Legislature will act upon it without delay

Very respectfully,

WALTER E EDGE
Governor

Mr Oliphant moved that the Governor's message be received, spread in full upon the Minutes, and the message and accompanying joint resolution be referred to the Committee on Appropriations

Which motion was adopted

A message was received from the Governor, by the hands of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, February 19th, 1917

To the Legislature

On July 17th, 1916, the so-called Federal Farm Loan Act was passed by Congress The purpose of the act is to provide capital for agricultural development and to create a standard form of investment based on farm mortgages, to equalize rates of interest upon farm loans In order to secure an adequate supply of money for farm loan mortgage purposes, the Federal Land Banks, as authorized under the act, will issue bonds secured by the deposit as collateral of first mortgages on farm lands

These bonds are, under the act, a lawful investment for fiduciary and trust funds under the jurisdiction and control of the Federal Government, but are not, under existing legislation, lawful investments for our savings banks, trust companies, insurance companies and other banking institutions authorized under the laws of this State

In order to permit our banking institutions and others to take advantage of this widened field of investment, if they so desire, I am transmitting herewith an act which will so amend existing legislation as to make investment in these securities lawful

The passage of this act will accomplish the double purpose of putting within the reach of trustees and others a safe and profitable investment, and will prove of benefit to our farmers by enlarging the market for farm loan bonds and mortgages, thereby assuring a larger amount of available credit for their needs

Very respectfully,
WALTER E EDGE,
Governor

Which motion was adopted

A message was received from the Governor, by the hands of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, February 19th, 1917

To the Assembly

I am transmitting herewith two suggested acts designed for the purpose of hastening the construction of the proposed ship canal across the State from Raritan bay to Bordentown These acts definitely commit New Jersey to the securing of the necessary right of way, providing the Federal Government appropriates sufficient money to dredge the lands and complete the canal

The New Jersey Department of Commerce and Navigation has been earnestly working on this project, but it is definitely established that the Federal Government will make no further move until the State is legally committed to furnishing the right of way I have conferred with the State Department of Commerce and Navigation and it is its intention to vigorously press this project, and because of the present activity in the matter of providing inland waterways, especially in view of the general international unrest, it would seem that New Jersey should cooperate in every possible way

If the attached bills meet the approval of the Legislature and become laws, the Department of Commerce and Navigation will be in a position to negotiate further with the Federal authorities, with a view of hastening the project

Of course, the ultimate benefit to New Jersey if this canal is built must be apparent to everyone It will not only furnish a safe inland passage between the two metropolitan cities of New York and Philadelphia, which of itself is of untold benefit to the nation, but it will open to manufacturing industries that will locate within our borders miles of water-bound territory, inviting millions of dollars of capital to the State It is a project that New Jersey should back with vigor and determination

Very respectfully,

WALTER E EDGE,
Governor

Mr Taistra offered the following resolution, which was read and adopted

Resolved, That the privileges of the floor be extended to the Hon Wm Kackenmester, a former member of this House

A message was received from the Governor, by the hands of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature February 26th, 1917

I deem it important that the members of the Legislature give earnest consideration to the movement, inaugurated in California and urged in New York, for a national conference to consider the subject of Federal and State sources of revenue There may be a difference of opinion as to whether, in the matter of raising revenues, the Federal government is encroaching on the rights of the State governments, or the State governments are encroaching on the Federal government There can be no question, however, about the plain fact that the line of demarcation between Federal sources of revenue and State sources of revenue is not distinct or clearly defined

One result is uncertainty, with its possibilities for confusion Another result may be the duplication of taxation through the placing of the power to levy in two jurisdictions, and the consequent hardships on the individual taxpayer

In New Jersey at the present time there are cases of double taxation. If the State desired to impose an income tax, the chief objection would be that it would cause another instance of double taxation, in view of the present Federal income tax. Of course, it may never be necessary for New Jersey to impose an income tax, but the necessity of taxation of most any kind cannot be foreseen, and it is imperative that the States not be hampered in this particular. The strong probability of it always being necessary for the State to care for its dependents must not be overlooked, and at the present time the needs of these dependents, in no way a charge against the Federal government, call for about one-third of the income of the State. Taxation, in one form or another, is practically the only means of financing a government. The trend of opinion is opposed to the proposition of a government, State or National, going into business of any kind on the basis of profit, consequently, the funds necessary for financing a government must be raised by taxation.

Concerning the power of taxation vested in the Federal government so far as it was concurrent with that of the States, it was urged during the discussion following the adoption of the proposed Federal Constitution in 1787 that "Revenue is as requisite to the purposes of the local administrations as to those of the Union, and the former are at least of equal importance with the latter, in the happiness of the people. It is, therefore, as necessary that the State governments should be able to command the means of supplying their wants as that the National government should possess the like faculty in regard to the wants of the Union. But an indefinite power of taxation in the *latter* might, and probably would in time, deprive the *former* of the means of providing for their own necessities, and would subject them entirely to the mercy of the National Legislature."

This shows that the question now involved is fundamental.

I, therefore, respectfully suggest that the Legislature of New Jersey supplement the action of the Legislature of California by adopting a joint resolution urging upon Congress and the several States the needs of holding a congress of the States, providing the President of the United States officially approves, with the object of adopting and urging upon Congress a definite policy in the segregation of State and Federal revenues, and further providing that the President and Congress be invited to appoint representatives to attend such conference, and that the Governor of New Jersey be authorized to communicate with the

Governors of other States, and arrange for such National convention

My suggestion that this movement be made conditional upon the express approval of the President of the United States is prompted by the thought that during the present international situation any such movement not so conditioned might be misconstrued as embarrassing to the Federal administration Any such misconstruction or possibility is, of course, to be scrupulously avoided

Respectfully,
WALTER E EDGE,
Governor

Attest
FRANCIS E. CROASDALE,
Secretary to the Governor

Mr Oliphant moved that the Governor's message be received, spread in full upon the Minutes, and the message and the accompanying joint resolution be referred to the Committee on Judicary

Which motion was adopted

A message was received from the Governor, by the hands of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature February 26th, 1917

On January 22d, 1917, the Honorable Senate and General Assembly of the State of New Jersey adopted Joint Resolution No 1, empowering the Governor to appoint a commission of five persons, and providing that they investigate into the conditions of the penal, reformatory and correctional institutions of this State, and also into what is known as the State Use System and the employment of prisoners on roads, prison farms or in other capacities However, it was clearly stated in the resolution empowering the appointment of this commission that the term "penal, reformatory and correctional institutions of this State" should not include any of the State hospitals, tuberculosis sanatoriums, Home for Feeble-Minded Women, or any other charitable institution of this State, and the resolution continued to say that the term should apply solely to those which are penal and correctional in their nature.

The commission appointed under and by authority of this Joint Resolution has held various meetings, made a preliminary report,

and I am confident will submit a final report which will provide for the complete reorganization of our penal and correctional institutions and the perfection of the State Use System

However, an inquiry and reorganization affecting other institutions of the State coming under the supervision of the Department of Charities and Corrections, in addition to the penal and correctional institutions, is essential I do not mean to convey the impression that the management of some of these institutions under the guidance of the trustees or other individual boards of control has not been of the highest order Some of the public-spirited citizens serving on these boards have even gone to the extent of employing special agents at their own personal expense in order to study the institution under their control and suggest ways and means of betterment These citizens, serving on these boards and giving their service to the State without any compensation, are meeting with considerable success, and I desire, at this time, to express, on behalf of the State, my appreciation of their loyal and patriotic work Therefore, the investigation which I here suggest is not to be in the nature of an inquiry into mismanagement, but rather in the nature of a survey and a general study of such State institutions for the purpose of considering whether the units are not too widely scattered and whether more concentration of authority would not make for even better service There is need, in my judgment, of a centralization of authority and control affecting all such institutions in addition to the penal and correctional institutions, so that these institutions may be properly developed to meet the needs of the State at a minimum of expense In many respects, study of these institutions with the idea of making suggestions to the Legislature for their improvement is very closely related to the inquiry which is now in process concerning the penal and correctional institutions, because of the fact that the State Use System may be extended to include practically all institutions in the State of whatever character

For instance, arrangements may be made whereby convicts may be transferred or dispatched from a penal or correctional institution to a State hospital or a soldiers' home or other like institution for the purpose of proper treatment or of caring for the grounds, working on farms owned by the institutions, making repairs, and similar employment

At the present time the jurisdiction of the State Department of Charities and Corrections over institutions of a penal and correctional character, and also not of a penal and correctional character, is somewhat uncertain Practically little authority is

centered in the department With the commission appointed to inquire into institutions of a penal and correctional nature and the proposed commission to make a study into institutions not of a penal and correctional nature, working during the interval between legislative sessions, it should be possible to arrive at a definite policy which would be of great service to the State

I would respectfully recommend, therefore, that the Legislature, at its earliest convenience, empower the Governor to appoint a commission of five persons for the purpose of, separately or in conjunction with the Governor, inquiring into the conditions of the institutions of this State other than penal, reformatory and correctional institutions, with the view of making suggestions in a report to the next Legislature for the proper centralization of control and the further application to such institutions of business principles

Respectfully,

A message was received from the Governor, by the hands of its Secretary, as follows

March 12th, 1917

To the House of Assembly

I am returning herewith Assembly Bill No 104 without my approval

This bill raises the salaries of members of the boards of freeholders in counties between one hundred thousand and two hundred thousand population

The Legislature is now considering a bill proposing greater home rule for municipalities, under which I hope it will be provided that salaries will be entirely a matter for local regulation I feel this same privilege should be extended to county governments I cannot, without individual investigation in each case, decide the merits of arbitrary salary increases and I am opposed to the general policy unless the justification for such proposed increase is more apparent than would seem indicated in this measure

Very respectfully,

WALTER E EDGE,

Governor

A message was received from the Governor, by the hands of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 14th, 1917

To the Legislature

Your attention has been called to the desirability of properly developing the water front of New Jersey, particularly at the Port of New York, in order to attract commerce carriers and cultivate and develop a valuable business asset of the State Seeking to find a practical means of initiating and furthering this development, I have conferred with Governor Charles S Whitman, of the State of New York, and we have agreed that the desired action can best be secured through the creation of an interstate commission

At the present time New Jersey has about as much to do with the Port of New York, directly at its doors, as it has with the Port of Charleston, miles away New Jersey has neglected an opportunity New Jersey should take advantage of those natural assets contained in the vast stretch of navigable water in and about the Port of New York in the same way that New York State has done, thereby becoming a part of the world's commercial center, growing as New York has grown, and expanding as a business center like New York

New Jersey, if it ever assumed the partnership in the Port which it is entitled to, never exercised that partnership to any appreciable extent The development of the Port was left to New York New Jersey has provided merely one of the boundaries of the harbor, and little else The time has come when it is incumbent upon this State to take part in the development of the harbor and share in the benefits which will accrue thereby

If the New Jersey side of the Port of New York is properly developed under the direction of a farsighted interstate commission, which is oblivious to sectional prejudices and intent upon developing an important section of the country along broad lines, the result is bound to be a tremendous increase in the business of the Port The facilities and capacity of this Port have by no means been mined to the bottom, but are admittedly limited by

the fact that New York State alone has been engaged in development work, and, of course, New York is confined by jurisdictional lines to the New York side There is a wonderful opportunity for development on the New Jersey side—a development in which the States of New Jersey and New York, and also the United States Government, can cooperate to mutual advantage

Build marine terminals, construct modern docks, acquire water front through purchase or condemnation, if necessary, and generally begin to attract the commerce carriers of the world and the result must be the establishment of manufactories, business houses and all lines of industry within a radius of scores of miles, increasing the prestige of the Port of New York, expanding business in both States, reclaiming and developing waste land and thereby adding millions of dollars, not alone to a large section of the State of New York, but also to that vast territory of New Jersey bordering on and about the Port

My idea is that such an interstate commission, composed of representative, progressive business men from the two States, could, by their joint efforts, amicably adjust any existing differences of opinion as between the rights, prerogatives and general business principles of the two States Likewise, such a commission could determine upon ways and means of relieving congestion in the Port of New York, enlist the aid of the Federal Government in the improvement and development of what is unquestionably the most important body of water, commercially, in the country, encourage commerce, and through a wise and practicable direction of the water front resources, particularly on the Jersey side, together with considering such propositions as connecting railroads for the purpose of providing additional facilities for the handling of freight, perform a splendid task in extending the commercial interests of both States very extensively Of course, the Federal Government would be an important factor in this development of the Port and the expansion of its business

In respectfully recommending to the Legislature that the Governor be given power to appoint New Jersey's representatives on such a proposed interstate commission, I also recommend that the sum of seven thousand five hundred (7,500 00) dollars be provided for and appropriated in the supplemental bill, and the sum of ten thousand (10,000 00) dollars in the annual bill, available after November first next, for the purpose of meeting the necessary expenses of this proposed commission

The water front is there for New Jersey to develop, and I take it that the Administration would not be doing its plain duty by the citizens if it did not take serious and practical steps to foster and develop such a natural asset, especially in view of New York State's willingness to enter into partnership in this great development that promises so much of practical value

I, therefore, respectfully recommend the passage of a bill giving authority to the Governor of New Jersey to appoint such a commission to act in conjunction with a similar commission to be appointed by the Governor of the State of New York

Respectfully submitted,

[L S] WALTER E EDGE,
Governor

Attest

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly March 15th, 1917

I am returning herewith, without my approval, Assembly Bill No 96, for the reason that I am informed the Legislature is about to authorize the appointment of a commission to study and investigate the whole subject of municipal and State pensions in New Jersey, and to submit their findings to the next session of the Legislature, for the purpose of guiding the State in future policy

I deem it to be unwise, therefore, to in any way broaden the pension policy at a time when comprehensive inquiry of this kind is being considered

Respectfully,

WHEREAS, The protection of the potable waters of this State from pollution is of vital interest to the people of the State, and

WHEREAS, Upon many streams forming or constituting sources of potable water supply, there are situated municipalities, sewage from which flows either in a treated or untreated condition into said streams, and

WHEREAS, By reason of their location it would be prohibitive for many of said municipalities to attempt to carry such sewage out of the watershed in which they are situated, in same instances the cost exceeding the limit of debt allowed by law for such municipalities, and

WHEREAS, The subject matter of pollution of the sources of the State's water supply and the devising of ways and means to prevent the same is of vast importance and one which requires investigation and study by persons trained in the science of protecting the potable waters, therefore, be it

Resolved, That the Governor of this State be authorized and requested to appoint a commission of at least five persons to investigate the condition herein referred to and to make a report to the Governor and to the House of Assembly at its next session upon such conditions, with whatever recommendations they shall see fit to make as to changes, if any, which should be made in the laws for the protection of the potable waters of the State, and be it further

Resolved, That the expenses of such investigation, including the services of such persons, as approved by the Governor, be paid when a sum of money sufficient therefor is appropriated and included in any annual or supplemental appropriation bill

A message was received from the Governor, by the hands of his Secretary, as follows

To the Assembly March 21st, 1917

I herewith return, without my approval, Assembly Bill number sixty-one

This bill provides that the board of chosen freeholders of any county in the State may cause their annual financial report to be published in pamphlet form This right already exists and in various counties of the State such report is now annually published in pamphlet form

The bill, therefore, would seem to be unnecessary

Respectfully,

WALTER E EDGE,
Governor

Secretary to the Governor

Mr Oliphant moved that the Governor's message be received, spread in full upon the Minutes, and the bill lie over

Which motion was adopted

A message was received from the Governor, by the hands of his Secretary, as follows

To the Assembly TRENTON, March 22d, 1917

I herewith return Assembly bill number three hundred and fifty-one without my approval

This bill provides for an additional Assistant Commissioner of Education and is evidently a companion bill to Assembly bill two hundred and eighty-one, providing for a course in physical training for our public school system I am heartily in favor of physical training, including military drill, but I do not feel it is necessary to create an additional Assistant Commissioner of Education for that purpose Assembly bill number two hundred and eighty-one provides that the course of study shall be prepared by the Department of Education in conjunction with the Adjutant General, which combination I consider very wise, but the actual carrying out of this course is necessarily in charge of the District Boards of Education and instructors in the various schools provided by them, just as they would prepare for any new courses of study adopted

I feel that the present Department of Education, with the assistance of the Adjutant General, with the additional appropriation to be made, can make the necessary investigations and effectively prepare a proper course of instruction for promulgation to the various schools of the State

Of course, physical training is not entirely an innovation in our public school system, but I heartily approve of making it a compulsory part of the educational course

Very respectfully,

WALTER E EDGE,
Governor

Attest FRANCIS E CROASDALE,
Secretary to the Governor

Mr Oliphant moved that the Governr's message be received, spread in full upon the Minutes, and the bill lie over

Which motion was adopted

A message was received from the Governor by the hands of his Secretary, as follows

To the Assembly March 22d, 1917

I return herewith Assembly bill three hundred and twenty-three without my approval

I find this bill defective in several particulars and I believe that in its present form it is impracticable The bill calls for the mandatory appointment by the Governor of a suitable person in every county of the State as an inspector of live poultry for five-year terms and further provides that the inspection charge of one dollar for each railroad car or vehicle load of live poultry shall be retained by the inspector Even if there were reasons for the appointment of live poultry inspectors in any counties where shipment is considerable, I can see absolutely no justification for the mandatory appointment of such inspectors in many of the smaller counties of the State

As a general proposition, the inspection and condemnation of live poultry unfit for food should be under the direction of the boards of health, just the same as any other matter injurious to health would naturally be This is now true of slaughter houses, etc

The bill does not require the appointee to make report and places him under absolutely no supervision or control He is a free lance and in this wise it departs from every principle of co-ordinated government

There is great question as to the legality of the title, which contains two objects which, if true, would make the bill absolutely unconstitutional

Section 10 is likewise objectionable It provides that every person who shall violate one of the provisions of the act shall be liable to a penalty of fifty dollars for the first offense and a penalty of one hundred dollars for the second and each subsequent offense and provides absolutely no provision as to how it shall be recovered and when recovered how paid

The eleventh section provides that the refusal to pay the inspectors' fees shall be construed as a violation of the act, which provides no penalty and does not even provide that the penalty should be the same as that provided in section ten I have grave doubt whether any court would assume to take cognizance of a complaint made under the provisions of this act and to impose a penalty if attention were called to the many inconsistencies referring to this principle

If the transporting of live poultry through the State has proven a menace to health, the facts should be referred to the local or State Board of Health for their action, and if additional

inspectors are needed for the purpose of more comprehensive inspection, they should, in my judgment, be under their direction

Respectfully,

WALTER E EDGE,
Governor

A message was received from the Governor, by the hands of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, March 30th, 1917

To the Legislature

Since the recess of the Legislature the First, Second and Fifth Regiments of Infantry of the National Guard have been called to the colors The response on the part of the officers and men has been inspiring and a wonderful demonstration of the loyalty of Jerseymen Included in the membership of these regiments are a number of men employed in the various departments of the State Government In view of the very nominal compensation allowed enlisted men and non-commissioned officers, I would strongly recommend that the Legislature enact a law providing a suitable remuneration while they are serving the Federal Government, for men below the rank of commissioned officer, who are employed in the State service

This is, in my judgment, not alone the right and proper action to take, but I trust it will serve as an example for the loyal and patriotic citizenship of the State to co-operate along similar lines, so that those dependent upon the income of the men thus engaged may be insured against unnecessary embarrassment and hardship

Respectfully,

[L S] WALTER E EDGE,
Governor

Attest
FRANCIS E CROASDALE,
Secretary to the Governor

Mr Oliphant moved that the Governor's message be received, spread in full upon the Minutes, and that the message be referred to the Committee on Judiciary

March 26th, 1917

To the State Librarian

I herewith file Assembly bill number twenty-six in the State Library, without my approval

This bill lowers the population within the judicial district from one hundred thousand to seventy thousand, in order to provide for the appointment of an assistant clerk I feel that the qualification of one hundred thousand population is amply small enough for the requirement of two clerks for such court

WALTER E EDGE,

Governor

Assembly Bill No 82, entitled "An act concerning the pay or salary of certain officers and employees of paid fire departments in cities of the first class in this State"

March 27th, 1917

To the State Librarian

I herewith file Assembly bill number eighty-two in the State Library, without my approval

This bill provides by referendum for the increasing of salaries of officers and employees of the fire department in first-class cities There seems to be considerable merit in this bill, but I am informed by the chairman of the commission which prepared the act providing for home rule in municipalities, which act is now chapter 152 of the laws of 1917, gives all power to the

governing body of any municipality to adjust salaries of its employees Inasmuch as this feature was one of the strong reasons for the passage of the home rule bill, necessarily this matter should be referred to the city governing bodies Under the circumstances, therefore, if this bill were approved by me, it would take away from the governing body the very essence of home rule, for which an overwhelming demand has been presented to this Legislature

Respectfully,
WALTER E EDGE,
Governor

Assembly Bill No 107, entitled "An act to amend an act entitled 'An act providing for the method of appointment and term of service of inspectors of any public works or improvements in cities of the second class in this State,' approved April seventeenth, one thousand nine hundred and fourteen"

March 29th, 1917

To the State Librarian

I herewith file Assembly bill one hundred and seven in the State Library, without my approval

I am of the opinion that the Home Rule Act, chapter 152 of the laws of 1917, gives all the powers desired to be conferred by this act, but if it does not, I would withhold my approval nevertheless, inasmuch as this bill in amending section one of the act providing for the method of appointment and term of inspectors, approved April seventeenth, 1914, eliminates that part of the section which specifies that the term of such inspectors shall cease upon the completion of the particular work for which they were employed By the elimination of this section the result would be that an inspector once employed would be retained continuously unless specifically removed by the governing body of the city employing him

Respectfully,
WALTER E EDGE,
Governor

Assembly Bill No 111, entitled "An act providing for the pensioning of county detectives employed in the office of prosecutors of the pleas in the counties of the first class of this State"

March 29th, 1917

To the State Librarian

I herewith file Assembly bill one hundred and eleven in the State Library, without my approval

This act provides for the pensioning of county detectives on the same basis as that allowed police officers The act would seem to be a just one, when viewed from that standpoint, but inasmuch as the Legislature has, at this session, passed Assembly Joint Resolution number nine, providing for a complete revision of the pension laws, and in that resolution has suggested that all pension amendments be deferred until this commission can report on the entire subject, I feel constrained to withhold my approval of this act

Respectfully,
WALTER E EDGE,
Governor

Assembly Bill No 119, entitled "An act for the compensation of the gas inspector in cities of the first class in this State"

To the State Librarian March 29th, 1917

I herewith file Assembly bill one hundred and nineteen in the State Library, without my approval

This act provides for raising the salary of gas inspectors in cities of the first class from fifteen hundred to twenty-five hundred dollars per year From information at hand, I am inclined to believe that the officer in the city of Newark, which this would affect, is entitled to an increase in salary, but I have made very plain my policy that salary increases should be, where they must be provided by the Legislature, graduated contemplating efficiency and term of service, thus giving an incentive for continued service, rather than by this method

Furthermore, I am firmly of the opinion that this power is absolutely conveyed to the municipality by the terms of the Home Rule Act, chapter 152 of the laws of 1917

Respectfully,
WALTER E EDGE,
Governor

Assembly Bill No 130, entitled "An act to amend an act entitled 'An act to amend an act entitled "An act to provide and furnish an office for the use of the county superintendent of schools, at the county seat of the several counties of this State, and to aid in maintaining the same," approved April sixteenth, one thousand nine hundred and eight,' which said amendatory act was approved April twenty-seventh, one thousand nine hundred and eleven"

March 29th, 1917

To the State Librarian

I herewith file Assembly bill number one hundred and thirty in the State Library, without my approval

I file this bill without my approval because the contemplated salary increase is provided without any regard to service or county classification Under it the clerk of the county superintendent of Sussex could receive precisely the same amount as the clerk in Essex True, the bill is permissive, but I have frequently reiterated both to members of the Legislature and in previous memoranda on bills from which I have withheld my approval, that salary increases should be made on the basis of service and then be graduated from year to year I so informed the introducer of this bill, and if it had been amended as I directed, it would have received my approval

Very sincerely,
WALTER E EDGE,
Governor

Assembly Bill No 140, entitled "An act to amend an act entitled 'An act to regulate the practice of medicine and surgery, to license physicians and surgeons, and to punish persons violating the provisions thereof,' approved May twenty-second, one thousand eight hundred and ninety-four"

March 29th, 1917

To the State Librarian

I herewith file Assembly bill one hundred and forty in the State Library, without my approval

This act purports to amend the act to regulate the practice of medicine, licensed physicians, etc, approved May 22d, 1894 There are unquestionably some very commendable features in this act, but as in the case of several other revisions and amend-

ments to the acts controlling various licensing boards, re-enacts those sections relating to the use of the income and diverting it from the State Treasury This is contrary to the policy fixed by Assembly bill four hundred and fifty-one, which provides that all such income over and above necessary expenses shall be paid into the State Treasury, and fixes a uniform policy in this connection for all such boards

Respectfully,
WALTER E EDGE,
Governor

Assembly Bill No 156, entitled "An act to authorize cities to make appropriations for the support and education of the indigent blind"

March 26th, 1917

To the State Librarian

I herewith file in the State Library Assembly bill number one hundred and fifty-six, without my approval

After a trial in the case of Home for Incurables some years ago, which permitted State help for private institutions of that character, the Legislature repealed the law, as it was deemed an unwise policy Assembly number one hundred and fifty-six proposes a return to the same policy in the case of institutions for the blind This policy, once established, there could be no reasonable excuse not to extend it to almost any class of private institutions This act appeals to me as unwise legislation

WALTER E EDGE,

Assembly Bill No 158, entitled "An act to amend an act entitled 'A supplement to an act entitled "An act to regulate the practice of midwifery in the State of New Jersey," approved March eighth, one thousand eight hundred and ninety-two,' approved April twelfth, one thousand nine hundred and ten"

March 27th, 1917

To the State Librarian

I herewith file in the State Library Assembly bill number one hundred and fifty-eight, without my approval

The title of the act proposes to be a supplement to an act approved March 8th, 1892, whereas it should be a supplement to an act approved March 28th, 1892, making the contemplated act defective and impossible of approval

Respectfully,
WALTER E EDGE,

Assembly Bill No 159, entitled "An act to amend an act entitled 'An act to regulate the practice of osteopathy in the State of New Jersey, and to license osteopathic physicians to practice in this State and punish persons violating the provisions thereof,' approved April second, one thousand nine hundred and thirteen"

March 29th, 1917

To the State Librarian

I herewith file in the State Library Assembly bill number one hundred and fifty-nine, without my approval

This is an amendment to the act to regulate the practice of osteopathy in New Jersey, approved April second, 1913 While some of the provisions of this act are unquestionably in the public interest, at the same time the act re-enacts various sections of the act of 1913, providing that the income received by the board from registrations, fees, penalties, etc, shall be retained by the board, instead of being paid into the State Treasury, which system has been provided for all such State boards by the passage of Assembly bill four hundred and fifty-one The approval of this act would be unfair to the other commissions who are likewise restrained

Assembly Bill No 169, entitled "A supplement to an act entitled (title amended by chapter 200 of the Laws of 1910, P L, page 323) 'An act to authorize two or more municipalities of this State to jointly construct and maintain outlet or trunk sewers, and to authorize every such municipality to construct local sewers within its corporate limits connecting with or discharging into such joint outlet or trunk sewers,' approved March fifteenth, one thousand eight hundred and ninety-nine"

April 6th, 1917

To the State Librarian

I am herewith filing in the State Library, Assembly bill one hundred and sixty-nine, without my approval

I am compelled to withhold my approval from this bill because of the clear defect in the title The words, "or system of sewers," have been left out of the title, thus rendering the act void

Assembly Bill No 211, entitled "An act to amend an act entitled 'An act to establish a thorough and efficient system of free public schools, and to provide for the maintenance, support and management thereof,' approved October nineteenth, one thousand nine hundred and three"

March 28th, 1917

To the State Librarian

I herewith file Assembly bill number two hundred and eleven in the State Library, without my approval

This act provides for the increase of expense allowance to county superintendents of schools from three hundred and fifty dollars to five hundred dollars per year, the explanation being that the advance is necessary because of the increased price of stationery, printing and the use of automobiles in visiting schools It is a well-known fact that there is much merited disapproval of the continued increased expense of our public school system, and if the advent of automobiles is a still further cause for increase, it might be suggested that the old-fashioned method of visiting schools be resumed I am quite sure the county superintendents can keep within the original expense allowance if required to do so

Respectfully,

WALTER E EDGE,
Governor

Assembly Bill No 229, entitled "An act to amend an act entitled 'An act defining motor vehicles and providing for the registration of the same and the licensing of the drivers thereof, fixing rules regulating the use and speed of motor vehicles, fixing the amount of license and registration fees, prescribing and regulating process and the service thereof and proceedings for the violation of the provisions of the act and penalties for said violation,' approved April twelfth, one thousand nine hundred and six"

March 26th, 1917

To the State Librarian

I herewith file in the State Library Assembly bill number two hundred and twenty-nine

This bill would increase the salary of the chief inspector, deputy chief inspector and other inspectors in the Department of Motor Vehicles and in no way provides for a graduation of such increase on a basis of service As I have frequently advised the Legislature, I am opposed to arbitrary salary increases irrespective of service There are some features of this bill which are commendable, but as it cannot be divided, and as my policy in this connection was clearly expressed during the legislative session, I am compelled to file this bill without my approval

Very sincerely,
WALTER E EDGE,
Governor

Assembly Bill No 277, entitled "An act to amend an act entitled 'A supplement to an act entitled "An act relating to courts having criminal jurisdiction and regulating proceedings in criminal cases (Revision of 1898)," approved June fourteenth, one thousand eight hundred and ninety-eight,' approved April twenty-first, one thousand nine hundred and eleven"

March 30th, 1917

To the State Librarian

I herewith file Assembly bill number two hundred and seventy-seven in the State Library, without my approval

I am strongly in favor of the purposes of this act, *i e*, to take from the Board of Prison Inspectors the right to parole pris-

oners who are serving a sentence of imprisonment for life and to leave this power in the hands of the Court of Pardons The difficulty is that this bill, however, re-enacts the act of 1913 by amending section two of the act of 1911, which permitted the board of inspectors to release any prisoner who had served one-third of his term This would be going back to a system abolished by the act of 1914, and, therefore, would defeat the very purpose of this bill and increase the confusion in the powers of parole which existed previous to the amendment of 1914

Very sincerely,

WALTER E EDGE,
Governor

Assembly Bill No 296, entitled "A further supplement to an act entitled 'An act providing for the employment of inmates of penal, correctional or reformatory institutions of this State and creating a board for the control, regulation and supervision of the labor of such institutions, and for the disposal of the products of the labor of such inmates,' approved June seventh, one thousand nine hundred and eleven"

March 27th, 1917

To the State Librarian

I herewith file in the State Library Assembly bill number two hundred and ninety-six, without my approval

I am entirely in sympathy with the object of this act, but on consideration, believe it is absolutely unnecessary, as under Senate bill three hundred and eight, now a law, the Governor has full power to do everything mentioned in this act, so far as the circumstances would seem to warrant Further, this act is rather mandatory in its provisions to the extent of stating, in line 7, that the convicts "shall be employed exclusively in the production of said materials," etc This is a matter in which there should be room for some discretion, and, as stated, under Senate bill three hundred and eight all the power given in Assembly bill two hundred and ninety-six seems to have been enacted into law

Committee Substitute for Assembly Bill No 297, entitled "An act in relation to sewers"

March 29th, 1917

To the State Librarian

I herewith file Assembly bill two hundred and ninety-seven, without my approval

I am of the opinion that all the main power sought by this act is provided under the Home Rule Act, chapter 152 of the laws of 1917

In addition to this, the bill would reverse the policy of the State as declared in the so-called Pierson finance bills, which limit the amount of money that can be expended for bonds by municipalities

The title of the act is also defective

Respectfully,

WALTER E EDGE,
Governor

Assembly Bill No 306, entitled "An act to amend an act entitled 'An act relative to the election of constables,' approved March twelfth, one thousand eight hundred and eighty"

March 29th, 1917

To the State Librarian

I herewith file Assembly bill three hundred and six in the State Library, without my approval

This act purports to amend an act which has been repealed, and is, therefore, defective The only new feature attempted by the act is to extend the terms of constables from three to five years, which is, perhaps, of doubtful wisdom, anyhow

Respectfully,

WALTER E EDGE,

Assembly Bill No 356, entitled "An act to amend an act entitled 'An act to regulate the practice of architecture,' approved March twenty-fourth, one thousand nine hundred and two"

March 27th, 1917

To the State Librarian

I herewith file in the State Library, Assembly bill number three hundred and fifty-six, without my approval

This bill is faulty in construction, as it amends the original act instead of chapter 150 of the laws of 1913, which act it should refer to In addition, the section purporting to be amended, is without number Beside this, I question the wisdom of the amendment, as perhaps confining too closely the privilege of a competent builder to make alterations or to even build a modest structure without plans having first been prepared by a licensed architect

Very respectfully,
WALTER E EDGE,

Assembly Bill No 374, entitled "An act concerning salaries of sergeants-at-arms of the Courts of Common Pleas in the various counties of the first class in this State"

March 28th, 1917

To the State Librarian

I herewith file in the State Library, without my approval, Assembly bill number three hundred and seventy-four

I withhold my approval from this act because the contemplated increases of salary are not graduated as I have determined to be the proper method Furthermore, the increase would be just as applicable to sergeants-at-arms who were just employed It is my firm conviction that in providing for salary increases they should be graduated so much per year for service and commence after an official or employee has been in the service for a reasonable length of time

Respectfully,
WALTER E EDGE,

March 30th, 1917

To the State Librarian

I herewith file Assembly bill number four hundred and thirty-three in the State Library, without my approval

I consider this act absolutely indefensible, as it provides that for all simple acts of disobedience of the rules of a department, an employee shall be committed to the common jail for a period of not exceeding ninety days Disobedience should not be classified as a misdemeanor If the disobedience or failure to obey the rules extends so far as to be an infraction of any of the criminal laws of the State, of course, the remedy already exists in law If such disobedience is not within this classification, a dismissal from the service is permissible under the present laws, which should be punishment enough

To the State Librarian

March 27th, 1917

To the State Librarian

I herewith file in the State Library Assembly bill number four hundred and sixty, without my approval

I regret very much that I am forced to withhold my approval from this bill, as its object touches the humane side of this question In other words, the bill is devised to supply a method

whereby widows' pensions shall revert to the children after the demise of the parent My only reason for not approving the bill is the broad one of policy on the question of enlarging on our pension system I heartily approve of the law providing for pensions for widows with children for which they are unable to provide, but to extend this to the children opens up an entirely new question of paternalism When the widow passes away, there are many methods provided by charity and State to take care of the children, and, as a rule, it is possible to place orphan children in good homes where it cannot be done during the life of the parent I feel that more investigation of this entire subject should be conducted by the Committee on Pensions authorized by this Legislature, before the adoption for all time to come of this additional system of pensioning

March 27th, 1917

To the State Librarian

I herewith file in the State Library Assembly bill number four hundred and seventy-two, without my approval

This act purports to increase the power of parole to separate boards in penal institutions I am opposed to the power of pardon or parole being in any other control but that of the Court of Pardons This criticism includes the present power vested in the Board of Prison Inspectors In other words, it is my conviction that this power should be in the hands of a single body While I am entirely in sympathy with the object suggested as the reason for this bill, *i e*, the temporary parole of a prisoner for humane reasons, at the same time the amendment also includes the words "which parole may be either temporary for a certain period of time, or indeterminate, for an unlimited period of time" This is clearly in conflict with the power of

the Court of Pardons I appreciate that under the act approved March 24th, 1913, certain powers have already been given in this connection to the Commissioners of the State Reformatory for Women, but as stated, I think ultimately, when this situation is entirely reviewed by the present Penal and Correctional Institution Inquiry Commission, some definite policy will be arrived at controlling this situation In the meantime I am adverse to extending the power in any manner whatsoever

March 26th, 1917

To the State Librarian

I herewith file Assembly bill number four hundred and seventy-nine in the State Library, without my approval

This act is clearly defective inasmuch as the title reads, "An act to amend an act," etc, and it should read "An act to amend an act entitled 'An act to amend an act,'" etc, in order to properly reach the act in question

March 27th, 1917

To the State Librarian

I herewith file in the State Library Assembly bill number four hundred and eighty, without my approval

This act is so filed simply because it broadens a policy with which I have frequently disagreed in connection with the dis-

approval of bills passed by this Legislature, *i e*, the policy of branches of the government conducting business for themselves, without recourse to the financial department of the State This act is particularly flagrant in this regard While I approve of the proposition of selling surplus products, I do not approve of a separate fund entirely apart from the State Treasury, as this bill provides, "for the use of the industries and entertainment or support of the direct sources from which they have been derived" This is so foreign to the policy of the State Purchasing Department, the Comptroller's Department and of all principles of the relation of business of a parent concern and its subsidiaries, that even though the principle of selling surplus articles is, in my judgment, entirely proper, the handling of the income is indefensible

March 27th, 1917

To the State Librarian

I herewith file in the State Library Assembly bill number five hundred and nine, without my approval

This act may be very meritorious, but the title is so faulty that it cannot possibly stand a test, and, therefore, cannot receive my approval The title of the act approved May 12th, 1906, which Assembly five hundred and nine purports to amend, reads as follows "An act regulating the practice of embalming, burial and disposal of dead human bodies, to license undertakers and embalmers and to punish persons violating the provisions thereof" The title of the act as set out in Assembly bill five hundred and nine reads as follows "An act to amend a supplement to an act entitled 'An act regulating the business of embalming and disposal of dead human bodies" This bill, in other words, appears to amend an act which does not exist

To the State Librarian

I herewith file in the State Library Assembly joint resolution number seven, without my approval

I heartily agree with the object of this resolution, namely, that the laws relating to the fish and game of the State should be revised and codified, but I have already pointed out that I am opposed to money being appropriated by the Legislature, without it coming through the regular budget and Appropriation Committee There is no more reason why the Department of Labor, for instance, should apply to the Governor in preparing his budget and to the Appropriation Committee in considering it, for an appropriation to print certain codifications, than the Fish and Game Commission It is simply a question of organizing the business of the State along some consistent lines Further than that, it would seem to me possible for the Attorney-General's Department, in this case, during that period of the year when the Legislature is not in session, to perform this work of codification One of the attaches of the latter department is, as I understand it, particularly engaged in the prosecution of fish

and game violations, and must be familiar with the laws governing and regulating this matter

Very respectfully,

WALTER E EDGE,
Governor
