## Highlights of Current Program Statistics

### **AFDC** (Tables 1 and 5, Graphs 1 and 4)

**119,874 eligible families in New Jersey were receiving AFDC as of the end of June 1995.**

- **107,500** single head of household families (Regular AFDC, C segment)
- Among two-parent families, **3600** Unemployed Parent families (F Segment) and **3300** State AFDC families (N Segment)
- **5400** Medicaid Only families
- The largest numbers of families by county: Essex with **30,000**, Hudson with **18,900**, and Camden County with **13,600** (52 percent of all AFDC families)
- Other counties ranged from **203** families in Hunterdon to **7,700** in Passaic County.

**There were 1000 less eligible families in June 1995 than in May, and almost 5000 less than the May/June 1994 peak of 124,600.**

- There were **800** less C segment in June 1995 than in May, and over **4000** less than the peak of **111,800** in June 1994.
- F segment families declined from over **4500** in May 1994 to about **3600** by June 1995.
- State AFDC (N segment) grew from about **2900** families in June 1993 to almost **3500** by June 1994, but has remained almost unchanged since.
- Medicaid Only families remained near **5000** over the last two years, but increased by more than **300** between February and June of 1995.

### **FOOD STAMP PROGRAM** (Tables 2 and 6, Graphs 2, 5, and 6)

**At the end of June 1995, 222,025 households were participating in the Food Stamp Program.**

- **113,000** AFDC households
- **109,000** Other Low Income households
- **48 percent** were in Essex (**55,314**), Hudson (**29,527**) and Camden (**21,988**) Counties.
- Food Stamp households included about **521,000** persons, **246,500** adults and **274,500** children.
- In seven counties (Bergen, Hunterdon, Monmouth, Morris, Somerset, Sussex, and Warren) the number of adults exceeded the number of children in Food Stamp households.

Food Stamp households in New Jersey remained close to 215,000 families between June 1993 and February 1994, jumped to over 220,000 families in March 1994, and remained above that amount every month since. The number peaked in March 1995 at almost 225,000, then levelled off at around 222,000 from April through June.

- The convergence of the numbers of AFDC(FS) households and Other Low Income households continues. There were almost 116,000 AFDC(FS) households in May 1994, and less than 113,000 in June 1995. Other Low Income households increased from an average of 100,000 for all of 1993 to 109,000 for the first six months of 1995.
- While Total Recipients declined by more than 8,000 between March and June of 1995, the average for the first half of 1995, about 524,000, remains about 8,000 higher than the 1993 average, and close to the 1994 average of 525,000.
- The number of Recipient Adults have increased, while Recipient Children have declined. Recipient adults averaged under 239,000 for 1993, 241,000 for 1994, and more than 247,000 for the first half of 1995. Recipient Children averaged 277,000 in 1993, 279,000 in 1994, and dropped below 275,000 for the first time in June 1995.

## EMERGENCY ASSISTANCE (Tables 3 and 7, Graphs 3 and 7)

At the end of June 1995 there were 5618 eligible AFDC families were receiving Emergency Assistance (EA) in New Jersey.

- 2383 families receiving Temporary Rental Assistance (TRA)
- 483 motel placements
- 445 emergency shelter placements
- All other AFDC-EA accounted for 2307 families, including either one-time benefits such as back rent, back utilities, security deposits, furnishings, and clothing and food allowance, or shared or transitional housing.
- 1283 families in Essex County received EA, including 901 provided TRA. Mercer had 823 EA recipient families, Passaic had 641 (mostly "Other EA") and Middlesex had 631. All other counties had between 15 and 429 EA recipient families with nine under 100.

[Table 7 and Graph 7 showing the EA historical series are currently under revision.]

## **JOBS/FDP PARTICIPATION RATES** (Table 8, Graph 8)

Statewide participation in JOBS/FDP, which reached a new high in May 1995 of 25.7 percent, declined by more than two percent in June to 23.3 percent. The 1995 pattern remained similar to early 1994, with little change from January to February, substantial increases through May, and a marked decline from May to June. An upward shift can be seen in the statewide rate since January 1994.

- Most counties have shown gradual upward movement, though participation rates vary widely and some fluctuate markedly. Several experienced declines from January to February 1994, moved up in March 1994, declined from May through August 1994, then turned upward in September and October 1994. Rates remained fairly stable through December 1994, and declined in January 1995. Most increased strongly from January through May 1995. All but three counties experienced declines from May to June 1995; only Essex, Morris and Warren increased.
- Participation rates for all counties except Cape May **exceeded 10 percent** in June 1995. Essex County's rate doubled between January and May of 1995, and reached a new high of **16 percent** in June. Only three other counties, Camden, Cape May, and Middlesex, were under 20 percent.

## **GENERAL ASSISTANCE** (Table 9, Graph 9)

For the period January 1993 through December 1994 (the latest available information), the number of GA recipients peaked at about 37,400 in March 1993 and at 38,100 in March 1994. The level remained around 35,000 from September through December 1994.

- The number of employable recipients also peaked in March 1993 (25,900) and March 1994 (26,400). The level remained slightly over 23,000 from September through December 1994.
- Unemployable GA recipients remained between 11,000 and 11,700 from January 1993 through April 1994, and hovered around 12,000 from May through November 1994. In December, Unemployables declined to less than 11,700 again.

## **CHILD SUPPORT AND PATERNITY COLLECTIONS** (Table 10)

Total collections of the Child Support and Paternity Program grew from about \$515 million to more than \$574 million from FY1994 to FY1995, an increase of 11.4 percent. This was on top of an increase of almost 18 percent from FY 1993 to FY 1994.

- Total AFDC/Foster Care collections increased from around \$92 million to about \$95 million, or 3.1 percent.
- Non-AFDC collections grew from \$423 million to almost \$479 million, or 13.2 percent.
