

CHAPTER 7E
COASTAL ZONE MANAGEMENT

Authority

N.J.S.A. 12:5-3, 13:1D-9 and 13:1D-29 et seq.,
13:9A-1 et seq., and 13:19-1 et seq.

Source and Effective Date

R.2003 d.60, effective January 7, 2003.
See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

Chapter Expiration Date

In accordance with N.J.S.A. 52:14B-5.1d, the expiration date of Chapter 7E, Coastal Zone Management, was extended by gubernatorial directive from January 7, 2008 to July 7, 2009. See: 40 N.J.R. 781(b).

Chapter Historical Note

Chapter 7E, Coastal Zone Management, was adopted as R.1978 d.292, effective September 28, 1978. See: 10 N.J.R. 184(a), 10 N.J.R. 384(a).

Public notice: Federal ruling on N.J.A.C. 7:7E. See: 14 N.J.R. 1467(b).

Pursuant to Executive Order No. 66(1978), Chapter 7E, Coastal Zone Management, was readopted as R.1985 d.422, effective July 24, 1985. See: 17 N.J.R. 1465(a), 17 N.J.R. 1797(c), 17 N.J.R. 2021(a).

Pursuant to Executive Order No. 66(1978), Chapter 7E, Coastal Zone Management, was readopted as R.1990 d.413, effective July 24, 1990. See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Public Notice: Notice of Routine Program Implementation. See: 25 N.J.R. 1010(a).

Subchapter 3A, Standards for Beach and Dune Activities, Subchapter 3B, Information Required in Wetland Mitigation Proposals, and Subchapter 3C, Assessing Impacts to Endangered and Threatened Wildlife Species in Environmental Impact Assessments, were adopted as New Rules by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994). See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

Appendix to Chapter 7E: Figures 1 through 16 were adopted as a part of R.1994 d.380 and form the Appendix to N.J.A.C. 7:7E. The Figures are not reproduced in this chapter, but can be reviewed by contacting the Office of Administrative Law, Rules and Publications, PO Box 301, Trenton, NJ 08625-0301, or the Department of Environmental Protection.

Pursuant to Executive Order No. 66(1978), Chapter 7E, Coastal Zone Management, was readopted as R.1995 d.405, effective June 23, 1995. See: 27 N.J.R. 417(a), 27 N.J.R. 2738(a).

Notice of Routine Program Change. See: 30 N.J.R. 2087(a), 30 N.J.R. 2780(b), 30 N.J.R. 4284(a).

Subchapter 5A, Impervious Cover Limits and Vegetative Cover Percentages in the Upland Waterfront Development Area; Subchapter 5B, Impervious Cover Limits and Vegetative Cover Percentages in the CAFTA Area, were adopted as R. 2000 d.45, effective February 7, 2000. See: 31 N.J.R. 2042(a), 32 N.J.R. 503(a).

The expiration date for Chapter 7E, Coastal Zone Management, was extended by gubernatorial directive from June 23, 2000 to March 31, 2001. See: 32 N.J.R. 2591(c).

The expiration date of Chapter 7E, Coastal Zone Management, was extended by gubernatorial directive from March 31, 2001 to March 31, 2002. See: 33 N.J.R. 1370(a).

The expiration date of Chapter 7E, Coastal Zone Management, was extended by gubernatorial directive from September 27, 2002 to January 7, 2003. See: 34 N.J.R. 3641(a).

Chapter 7E, Coastal Zone Management, was readopted as R.2003 d.60, effective January 7, 2003. As part of R.2003 d.60, Subchapter 2, Location, Use and Resource Rules, is repealed. See: Source and Effective Date. See, also, section annotations.

Public Notice: Routine Program Change for Coastal Management Program.

See: 35 N.J.R. 4917(a).

Public Notice: Routine Program Change for Coastal Management Program.

See: 36 N.J.R. 3304(b).

Public Notice: Coastal Management Office: determination on routine program change to the Coastal Management Program.

See: 38 N.J.R. 1587(a).

Subchapter 8A, Information Required to Demonstrate Compliance with the Public Trust Rights Rule, N.J.A.C. 7:7E-8.11; Conservation Restrictions and Public Access Instruments, was adopted as new rules by R.2007 d.374, effective December 17, 2007. See: 38 N.J.R. 4570(a), 39 N.J.R. 5222(a).

Case Notes

Department of Environmental Protection (DEP) must make findings under the standards in the statute governing the issuance of permits for development in coastal zones, even if DEP finds that a Coastal Area Facility Review Act (CAFRA) permit application complies with its specific regulations. In the Matter of the Protest of Coastal Permit Program Rules, 807 A.2d 198, 354 N.J.Super. 293.

Department of Environmental Protection (DEP) was required to amend its implementing rules with respect to Coastal Area Facility Review Act (CAFRA) to set forth requirement that it make findings under standards set forth in CAFRA prior to issuing permit for development thereunder. In the Matter of the Protest of Coastal Permit Program Rules, 807 A.2d 198, 354 N.J.Super. 293.

Department of Environmental Protection (DEP) did not invalidate Coastal Zone management (CZM) rules by giving regulatory effect to state development and redevelopment plan by presuming that boundaries established by state planning commission would function as boundaries pursuant to Coastal Area Facility Review Act (CAFRA), and then by using those boundaries to establish impervious cover limits in CZM rules. In the Matter of the Protest of Coastal Permit Program Rules, 807 A.2d 198, 354 N.J.Super. 293.

Coastal zone management rules preempted township ordinance governing placement and length of docks. *Tumino v. Long Beach Township*, 319 N.J.Super. 514, 725 A.2d 1173 (N.J.Super.A.D. 1999).

CHAPTER TABLE OF CONTENTS

SUBCHAPTER 1. INTRODUCTION

- 7:7E-1.1 Purpose and scope
- 7:7E-1.2 Jurisdiction
- 7:7E-1.3 Severability
- 7:7E-1.4 Review, revision, and expiration
- 7:7E-1.5 Coastal decision-making process
- 7:7E-1.6 Mitigation
- 7:7E-1.7 Correspondence with the Department
- 7:7E-1.8 Definitions

SUBCHAPTER 2. (RESERVED)

SUBCHAPTER 3. SPECIAL AREAS

- 7:7E-3.1 Purpose and scope
- 7:7E-3.2 Shellfish habitat
- 7:7E-3.3 Surf clam areas
- 7:7E-3.4 Prime fishing areas
- 7:7E-3.5 Finfish migratory pathways
- 7:7E-3.6 Submerged vegetation habitat
- 7:7E-3.7 Navigation channels
- 7:7E-3.8 Canals
- 7:7E-3.9 Inlets
- 7:7E-3.10 Marina moorings
- 7:7E-3.11 Ports
- 7:7E-3.12 Submerged infrastructure routes
- 7:7E-3.13 Shipwreck and artificial reef habitats
- 7:7E-3.14 Wet borrow pits
- 7:7E-3.15 Intertidal and subtidal shallows
- 7:7E-3.16 Dunes
- 7:7E-3.17 Overwash areas
- 7:7E-3.18 Coastal high hazard areas
- 7:7E-3.19 Erosion hazard areas
- 7:7E-3.20 Barrier island corridor
- 7:7E-3.21 Bay islands
- 7:7E-3.22 Beaches
- 7:7E-3.23 Filled water's edge
- 7:7E-3.24 Existing lagoon edges
- 7:7E-3.25 Flood hazard areas
- 7:7E-3.26 Riparian zones
- 7:7E-3.27 Wetlands
- 7:7E-3.28 Wetlands buffers
- 7:7E-3.29 through 7:7E-3.30 (Reserved)
- 7:7E-3.31 Coastal bluffs
- 7:7E-3.32 Intermittent stream corridors
- 7:7E-3.33 Farmland conservation areas
- 7:7E-3.34 Steep slopes
- 7:7E-3.35 Dry borrow pits
- 7:7E-3.36 Historic and archaeological resources
- 7:7E-3.37 Specimen trees
- 7:7E-3.38 Endangered or threatened wildlife or plant species habitats
- 7:7E-3.39 Critical wildlife habitats
- 7:7E-3.40 Public open space
- 7:7E-3.41 Special hazard areas
- 7:7E-3.42 Excluded Federal lands
- 7:7E-3.43 Special urban areas
- 7:7E-3.44 Pinelands National Reserve and Pinelands Protection Area
- 7:7E-3.45 Hackensack Meadowlands District
- 7:7E-3.46 Wild and scenic river corridors
- 7:7E-3.47 Geodetic control reference marks
- 7:7E-3.48 Hudson River Waterfront Area
- 7:7E-3.49 Atlantic City
- 7:7E-3.50 Lands and waters subject to public trust rights

SUBCHAPTER 3A. STANDARDS FOR BEACH AND DUNE ACTIVITIES

- 7:7E-3A.1 Purpose and scope
- 7:7E-3A.2 Standards applicable to routine beach maintenance
- 7:7E-3A.3 Standards applicable to emergency post-storm beach restoration
- 7:7E-3A.4 Standards applicable to dune creation and maintenance
- 7:7E-3A.5 Standards applicable to the construction of boardwalks

SUBCHAPTER 3B. INFORMATION REQUIRED IN TIDAL WETLAND AND INTERTIDAL AND SUBTIDAL SHALLOWS MITIGATION PROPOSALS

- 7:7E-3B.1 Purpose and scope
- 7:7E-3B.2 Tidal wetland and intertidal and subtidal shallows mitigation proposal requirements
- 7:7E-3B.3 Financial assurance requirements
- 7:7E-3B.4 Department review of mitigation proposal

- 7:7E-3B.5 Post-construction monitoring of the mitigation site

SUBCHAPTER 3C. STANDARDS FOR CONDUCTING AND REPORTING THE RESULTS OF AN ENDANGERED OR THREATENED WILDLIFE OR PLANT SPECIES HABITAT IMPACT ASSESSMENT AND/OR ENDANGERED OR THREATENED WILDLIFE SPECIES HABITAT EVALUATION

- 7:7E-3C.1 Purpose and scope
- 7:7E-3C.2 Standards for conducting Endangered or Threatened Wildlife or Plant Species Habitat Impact Assessments
- 7:7E-3C.3 Standards for conducting Endangered or Threatened Wildlife Species Habitat Evaluations
- 7:7E-3C.4 Standards for reporting the results of impact assessments and habitat evaluations

SUBCHAPTER 4. GENERAL WATER AREAS

- 7:7E-4.1 Purpose and scope
- 7:7E-4.2 Aquaculture
- 7:7E-4.3 Boat ramps
- 7:7E-4.4 Docks and piers for cargo and commercial fisheries
- 7:7E-4.5 Recreational docks and piers
- 7:7E-4.6 Maintenance dredging
- 7:7E-4.7 New dredging
- 7:7E-4.8 Dredged material disposal
- 7:7E-4.9 Solid waste or sludge dumping
- 7:7E-4.10 Filling
- 7:7E-4.11 Mooring
- 7:7E-4.12 Sand and gravel mining
- 7:7E-4.13 Bridges
- 7:7E-4.14 Submerged pipelines
- 7:7E-4.15 Overhead transmission lines
- 7:7E-4.16 Dams and impoundments
- 7:7E-4.17 Outfalls and intakes
- 7:7E-4.18 Realignment of water areas
- 7:7E-4.19 Breakwaters
- 7:7E-4.20 Submerged cables
- 7:7E-4.21 Artificial reefs
- 7:7E-4.22 Miscellaneous uses

SUBCHAPTER 5. REQUIREMENTS FOR IMPERVIOUS COVER AND VEGETATIVE COVER FOR GENERAL LAND AREAS AND CERTAIN SPECIAL AREAS

- 7:7E-5.1 Purpose and scope
- 7:7E-5.2 Definitions
- 7:7E-5.3 Impervious cover requirements that apply to sites in the upland waterfront development and CAFRA areas
- 7:7E-5.4 Vegetative cover requirements that apply to sites in the upland waterfront development and CAFRA areas
- 7:7E-5.5 Determining if a site is forested or unforested

SUBCHAPTER 5A. IMPERVIOUS COVER LIMITS AND VEGETATIVE COVER PERCENTAGES IN THE UPLAND WATERFRONT DEVELOPMENT AREA

- 7:7E-5A.1 Purpose and scope
- 7:7E-5A.2 Upland waterfront development area regions and growth ratings
- 7:7E-5A.3 Environmental sensitivity
- 7:7E-5A.4 Development potential
- 7:7E-5A.5 Development potential for a residential or minor commercial development site
- 7:7E-5A.6 Development potential for a major commercial or industrial development site
- 7:7E-5A.7 Development potential for a campground development site
- 7:7E-5A.8 Development intensity
- 7:7E-5A.9 Impervious cover limits for a site in the upland waterfront development area
- 7:7E-5A.10 Vegetative cover percentages for a site in the upland waterfront development area

COASTAL ZONE MANAGEMENT

SUBCHAPTER 5B. IMPERVIOUS COVER LIMITS AND VEGETATIVE COVER PERCENTAGES IN THE CAFRA AREA

7:7E-5B.1 Purpose and scope
7:7E-5B.2 Coastal Planning Areas

7:7E-5B.3 Boundaries for Coastal Planning Areas, CAFRA centers, CAFRA cores, and CAFRA nodes; Non-mainland coastal centers

- 7:7E-5B.4 Impervious cover limits for a site in the CAFRA area
- 7:7E-5B.5 Vegetative cover percentages for a site in the CAFRA area
- 7:7E-5B.6 Mainland coastal centers

SUBCHAPTER 6. GENERAL LOCATION RULES

- 7:7E-6.1 Rule on location of linear development
- 7:7E-6.2 Basic location rule
- 7:7E-6.3 Secondary impacts

SUBCHAPTER 7. USE RULES

- 7:7E-7.1 Purpose and scope
- 7:7E-7.2 Housing use rules
- 7:7E-7.3 Resort/recreational use
- 7:7E-7.3A Marina development
- 7:7E-7.4 Energy facility use rule
- 7:7E-7.5 Transportation use rule
- 7:7E-7.6 Public facility use rule
- 7:7E-7.7 Industry use rule
- 7:7E-7.8 Mining use rule
- 7:7E-7.9 Port use rule
- 7:7E-7.10 Commercial facility use rule
- 7:7E-7.11 Coastal engineering
- 7:7E-7.12 Dredged material placement on land
- 7:7E-7.13 National defense facilities use rule
- 7:7E-7.14 High-rise structures

SUBCHAPTER 8. RESOURCE RULES

- 7:7E-8.1 Purpose and scope
- 7:7E-8.2 Marine fish and fisheries
- 7:7E-8.3 (Reserved)
- 7:7E-8.4 Water Quality
- 7:7E-8.5 Surface water use
- 7:7E-8.6 Groundwater Use
- 7:7E-8.7 Stormwater management
- 7:7E-8.8 Vegetation
- 7:7E-8.9 (Reserved)
- 7:7E-8.10 Air quality
- 7:7E-8.11 Public trust rights
- 7:7E-8.12 Scenic Resources and Design
- 7:7E-8.13 Buffers and compatibility of uses
- 7:7E-8.14 Traffic
- 7:7E-8.15 through 7:7E-8.20 (Reserved)
- 7:7E-8.21 Subsurface sewage disposal systems
- 7:7E-8.22 Solid and hazardous waste

SUBCHAPTER 8A. INFORMATION REQUIRED TO DEMONSTRATE COMPLIANCE WITH THE PUBLIC TRUST RIGHTS RULE, N.J.A.C. 7:7E-8.11; CONSERVATION RESTRICTIONS AND PUBLIC ACCESS INSTRUMENTS

- 7:7E-8A.1 Purpose and scope
- 7:7E-8A.2 Information requirements for public access plans submitted by municipalities to participate in Shore Protection Program funding or be eligible for Green Acres funding
- 7:7E-8A.3 Information requirements for public access plans submitted by counties or nonprofit organizations to be eligible for Green Acres funding
- 7:7E-8A.4 Conservation restriction form and recording requirements
- 7:7E-8A.5 Public Access Instrument requirements

APPENDIX 1. DESIGN STANDARDS AND SPECIFICATIONS

APPENDIX 2. (RESERVED)

APPENDIX 3. BOUNDARIES OF NON-MAINLAND COASTAL CENTERS IN THE CAFRA AREA

APPENDIX 4. (RESERVED)

APPENDIX 5. CAFRA CENTERS

SUBCHAPTER 1. INTRODUCTION

7:7E-1.1 Purpose and scope

(a) This chapter presents the substantive rules of the Department of Environmental Protection regarding the use and development of coastal resources, to be used primarily by the Land Use Regulation Program in the Department in reviewing permit applications under the Coastal Area Facility Review Act (CAFRA), N.J.S.A. 13:19-1 et seq. (as amended to July 19, 1993), Wetlands Act of 1970, N.J.S.A. 13:9A-1 et seq., Waterfront Development Law, N.J.S.A. 12:5-3, Water Quality Certification (401 of the Federal Clean Water Act), and Federal Consistency Determinations (307 of the Federal Coastal Zone Management Act). Requests for Water Quality Certification shall also be reviewed in accordance with other applicable statutes and regulations administered by the Department including the Surface Water Quality Standards, N.J.A.C. 7:9B. The rules also provide a basis for recommendations by the Program to the Tidelands Resource Council on applications for riparian grants, leases and licenses.

(b) In 1977, the Commissioner of the Department of Environmental Protection submitted to the Governor and Legislature the Coastal Management Strategy for New Jersey CAFRA Area (September 1977), prepared by the Department as required by CAFRA, N.J.S.A. 13:19-16, and submitted for public scrutiny in late 1977. The Department revised the Coastal Management Strategy for public review as the New Jersey Coastal Management Program—Bay and Ocean Shore Segment and Final Environmental Impact Statement (EIS) for Federal approval. In August 1978, the Governor submitted the revised New Jersey Coastal Management Program—Bay and Ocean Shore Segment and Final EIS for Federal approval, which was received in September 1978. In May 1980, the Department submitted further revisions, published as the Proposed New Jersey Coastal Management Program and Draft Environmental Impact Statement for Federal approval, which was received in September 1980. The Coastal Zone Management rules constitute the substantive core of the program.

(c) By revising and readopting these policies as administrative rules, according to the Administrative Procedure Act, the Department aims to increase the predictability of the Department's coastal decision-making by limiting administrative discretion, as well as to ensure the enforceability of the Coastal Zone Management rules of the coastal management program of the State of New Jersey prepared under the Federal Coastal Zone Management Act. Further, the Department interprets the "public health, safety and welfare" clause in

CAFRA (N.J.S.A. 13:19-10f) and the Wetlands Act of 1970 (N.J.S.A. 13:19A-4d) to include a full consideration of the national interests in the wise use of coastal resources.

(d) The coastal land and water areas of New Jersey are diverse. The same development placed in different locations will have different impacts on the coastal ecosystem and built environment as well as different social and economic implications. Decisions on uses of coastal resources shall be made using the three step process consisting of the location rules (N.J.A.C. 7:7E-2 through 6), the use rules (N.J.A.C. 7:7E-7), and the resource rules (N.J.A.C. 7:7E-8) of this chapter. Depending upon the proposed use, project design, location, and surrounding region, different specific rules in each of the three steps may be applicable in the coastal decision-making process. The Coastal Zone Management rules address a wide range of land and water types (locations), present and potential land and water uses, and natural, cultural, social and economic resources in the coastal zone. The Department does not, however, expect each proposed use of coastal resources to involve all location rules, use rules, and resource rules. Rather, the applicable rules are expected to vary from proposal to proposal. Decisions on the use of coastal resources in the Hackensack Meadowlands District will be made by the New Jersey Meadowlands Commission, as lead agency, and by the Department, consistent with the Hackensack Meadowlands District Master Plan, its adopted components and management programs.

Amended by R.1985 d.715, effective February 3, 1986.

See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

Added text in (b): "The rules were ... February 7, 1983."

Amended by R.1990 d.413, effective August 20, 1990.

See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Chapter name changed to Rules on Coastal Zone Management; references to amendments updated.

Amended by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

Amended by R.2000 d.45, effective February 7, 2000.

See: 31 N.J.R. 2042(a), 32 N.J.R. 503(a).

In (b), added a reference to June 23, 1995, August 19, 1996, February 17, 1998, December 7, 1998 and February 7, 2000.

Amended by R.2003 d.60, effective February 3, 2003.

See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

Added (d).

Case Notes

Numeric limitations on impervious cover established by Department of Environmental Protection (DEP) in connection with subchapters of Coastal Zone Management (CZM) rules pertaining to development intensity were appropriately coordinated with state plan, despite differing goals of Coastal Area Facility Review Act (CAFRA) and state plan. In the Matter of the Protest of Coastal Permit Program Rules, 807 A.2d 198, 354 N.J.Super. 293.

Principle that the purpose of Department of Environmental Protection regulations is to assure predictability of its actions applied to the Department of Transportation in holding that a municipality was not entitled to any type of hearing concerning the Department's decision to place traffic control signals on a State highway. Cedar Grove Twp. v. Sheridan, 209 N.J.Super. 267, 507 A.2d 304 (App.Div.1986), certification denied 104 N.J. 464, 517 A.2d 448 (1986).

Regulation reflects Department's determination to limit its discretion and assure the greatest possible degree of predictability in its actions. Crema v. Dept. of Environmental Protection, 94 N.J. 286, 463 A.2d 910 (1983).

General discussion of regulations as policies for the use of coastal resources. Lusardi v. Curtis Point Prop. Owners Ass'n, 86 N.J. 217, 430 A.2d 881 (1981).

CAFRA regulations define standards to be used in reviewing applications for permits to construct coastal area facilities. Lusardi v. Curtis Point Property Owners Assn., 86 N.J. 217, 430 A.2d 881 (1981).

7:7E-1.2 Jurisdiction

(a) General: This chapter shall apply to six categories, as defined in N.J.A.C. 7:7E-1.2(c) through (h), of actions or decisions by the Department on uses of coastal resources within or affecting the coastal zone:

1. Coastal Permits;
2. Program Management Actions;
3. Consistency Determinations;
4. Financial assistance;
5. Department management actions affecting the coastal zone; and
6. Department planning actions affecting the coastal zone.

(b) Geographic scope of the New Jersey coastal zone: This chapter shall apply geographically to the New Jersey coastal zone, which is defined as:

1. The coastal area defined in the Coastal Area Facility Review Act (CAFRA), N.J.S.A. 13:19-1 et seq.;
2. Coastal waters, which are any tidal waters of the State and all lands lying thereunder. Coastal waters of the State of New Jersey extend from the mean high water line out to the three geographical mile limit of the New Jersey territorial sea, and elsewhere to the interstate boundaries of the States of New York, and Delaware and the Commonwealth of Pennsylvania;
3. All lands outside of the coastal area as defined by CAFRA extending from the mean high water line of a tidal water body to the first paved public road, railroad or surveyable property line existing on September 26, 1980 generally parallel to the waterway, provided that the landward boundary of the upland area shall be no less than 100 feet and no more than 500 feet from the mean high water line;
4. All areas containing tidal wetlands; and
5. The Hackensack Meadowlands District as defined by N.J.S.A. 13:17-4.

(c) Coastal Permits: This chapter shall apply to all:

1. Waterfront Development permits (N.J.S.A. 12:5-3);

2. Tidal wetlands permits (N.J.S.A. 13:9A-1 et seq.); and

3. CAFRA permits (N.J.S.A. 13:19-1 et seq.).

(d) Program management actions: This chapter shall apply to all actions of the Land Use Regulation Program within the coastal zone to the extent statutorily permissible:

1. Permits for use of a floodway (N.J.S.A. 58:16A-50 et seq.);

2. Promulgation of regulations concerning land use in flood hazard areas (N.J.S.A. 58:16A-50 et seq.);

3. Certification pursuant to Section 401 of the Federal Clean Water Act, 33 U.S.C. § 1251 et seq. (Water Quality Certification); and

4. Permits for activities regulated pursuant to the Freshwater Wetlands Protection Act (N.J.S.A. 13:9B-1 et seq.).

(e) Consistency determinations: This chapter shall apply to decisions on the consistency or compatibility of proposed actions by Federal, State, and local agencies within or affecting the coastal zone, including, but not limited to, determinations of Federal consistency under Section 307 of the Federal Coastal Zone Management Act, 16 U.S.C. §§ 1451 et seq., determinations of consistency or compatibility under the Coastal Zone Management Act, comments on Draft and Final Environmental Impact Statements prepared under the National Environmental Policy Act, 42 U.S.C. §§ 4321 et seq., and comments on other public and private plans, programs, projects and policies.

(f) Financial assistance decisions: This chapter shall apply to State aid financial assistance decisions by the Department under the Shore Protection Program and Green Acres Program within the coastal zone, to the extent permissible under existing statutes and regulations.

(g) Department management activities: In addition to the management activities noted at N.J.A.C. 7:7E-1.1, this chapter shall apply, to the extent statutorily permissible, to the following Department management actions, including permit decisions, approvals, certifications and conveyances, in or affecting the coastal zone:

1. Tidelands Resource Council: Conveyances of State owned tidelands (N.J.S.A. 12:3-1 et seq.);
2. Division of Water Quality:
 - i. Point source discharges under the New Jersey Pollutant Discharge Elimination System (N.J.S.A. 58:10A-1 et seq.);
 - ii. Wastewater treatment works sewage collection systems, and outfall sewers (N.J.S.A. 5:10A-6);
 - iii. Wastewater Treatment Construction Grants (N.J.S.A. 26:2E-1 et seq., P.L. 1985, c.329, and N.J.S.A. 58:11B-1 et seq.);
 - iv. Sewerage connection ban exemptions (N.J.S.A. 58:10A-4);
 - v. Designation of Critical Sewerage Areas (N.J.S.A. 58:11-44);
 - vi. Fifty or more sewerage (septic) facilities (N.J.S.A. 58:11-23); and
 - vii. Sewerage facilities in critical areas (N.J.S.A. 58:11-45).
3. Land Use Regulation Program:
 - i. Activities within Freshwater Wetlands (N.J.S.A. 13:9B-1 et seq.); and
 - ii. Activities under the Flood Hazard Area Control Act (N.J.S.A. 58:16A-50 et seq.);
4. Water Supply Administration:

i. Diversion of surface and/or subsurface or percolating waters for public and private water supply (N.J.S.A. 58:1A et seq.);

ii. Diversions for water supply (N.J.S.A. 58:1A et seq.);

iii. Drilling of wells (N.J.S.A. 58:4A-14);

iv. Construction of new or modified public water supply sources, treatment plants, and distribution systems (N.J.S.A. 58:12A-1 et seq.); and

v. Installation of or maintenance of a physical connection between an approved public potable water supply and an unapproved supply (N.J.S.A. 58:11-9.1 to 9.11 and 58:12A-1 et seq.);

5. Bureau of Non Point Pollution Control: Discharge of stormwater to surface waters for industrial and other facilities (N.J.S.A. 58:10A-1 et seq.);

6. Air Quality Regulation:

i. Construction, installation or alteration of control apparatus or equipment (N.J.S.A. 26:2C-9.2);

ii. Operation of control apparatus or equipment (N.J.S.A. 26:2C-9.2); and

iii. Variances to exceed air quality standards (N.J.S.A. 26:2C-9.2);

7. Division of Solid and Hazardous Waste: Management of Solid Waste facilities (N.J.S.A. 13:1E-1 et seq.);

8. Green Acres and Division of Parks and Forestry:

i. Regulations concerning use of State-owned lands (N.J.S.A. 13:1L-19);

ii. Designation of State-owned lands for inclusion in the Natural Area system (N.J.S.A. 13:1B-15.12a et seq.);

iii. Allocations of Green Acres Grants (N.J.S.A. 13:8A-19 et seq.); and

iv. Inclusion of river areas in the Wild and Scenic Rivers System (N.J.S.A. 13:8-45 et seq.);

9. Division of Fish and Wildlife: Regulations concerning use of land and water areas under the control of the Division (N.J.S.A. 13:1B-30 et seq., 23:1-1 et seq., 23:4-28);

10. Natural and Historic Resources, Engineering and Construction: Management of dams (N.J.S.A. 58:4-1); and

11. All Divisions: Management of State-owned lands by the Department.

(h) Department planning actions: This chapter shall provide the basic policy direction for the following planning actions undertaken by the Department in the coastal zone as the lead state agency for Coastal Management under Section 306 of the Federal Coastal Zone Management Act.

1. Land Use Regulation Program:
 - i. Coastal zone management;
2. Natural and Historic Resources Programs:
 - i. Navigational dredging; and
 - ii. Shore protection.
3. Division of Watershed Management:
 - i. Areawide water quality management ("208"); and
 - ii. Allocation of planning grants for the development of local stormwater management ordinances (P.L. 1981, c.32, and N.J.S.A. 40:55D-1 et seq.
4. Air Quality Regulation: Air quality planning.
5. Division of Solid and Hazardous Waste: Solid and hazardous waste management.
6. Green Acres and Division of Parks and Forestry: Planning for public acquisition of coastal lands.
7. Division of Water Quality: Issuance of environmental decision documents for environmental infrastructure facilities that receive State financial assistance (P.L. 1985, c.329, N.J.A.C. 7:22-10).
8. Office of Policy, Planning and Science: Implementation and coordination of the Federal Coastal Zone Management Program.

Amended by R.1985 d.715, effective February 3, 1986.
 See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

Deleted "Solid Waste Administration" and substituted "Division of Waste Management."

Old section 2 Authority was repealed.

Amended by R.1990 d.413, effective August 20, 1990.
 See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Responsibility for Stream Encroachment Permits, Dam Permits, Water Quality Certificates, and implementation of the Freshwater Wetlands Protection Act included in jurisdiction of the Division of Coastal Resources; administrative changes reflected.

Amended by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

Amended by R.2003 d.60, effective February 3, 2003.

See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

Rewrote the section.

Case Notes

Coastal Zone Management Act's consistency review requirements were not triggered by power authority's submission to Coast Guard of plan for barge shipments of irradiated fuel from nuclear power plant. State of N.J., Dept. of Environmental Protection and Energy v. Long Island Power Authority, C.A.3 (N.J.)1994, 30 F.3d 403.

Project's exemption from permit requirements does not prevent state from finding proposed activity inconsistent with state's coastal zone management program. Matter of Stoeco Development, Ltd., 262 N.J.Super. 326, 621 A.2d 29 (A.D.1993).

Federal court finding that land was wetland under federal definition required applicant for permit to concede that activity conflicted with state's coastal zone management program. Matter of Stoeco Development, Ltd., 262 N.J.Super. 326, 621 A.2d 29 (A.D.1993).

CAFRA regulations provide the most detailed expression of the State's policies concerning the appropriate uses of shoreline resources; local zoning ordinance invalid to the extent it prevented owners of undeveloped oceanfront lots from using dry sand beach areas of their property primarily for recreational purposes. Lusardi v. Curtis Point Property Owners Assn., 86 N.J. 217, 430 A.2d 881 (1981).

Department of Environmental Protection not empowered by Executive Order No. 53 (1979) to insist that Department of Corrections obtain Waterfront Development Permit before proceeding with waterfront construction. Concerned Citizens of North Camden v. Dept. of Corrections, 6 N.J.A.R. 140 (1983).

7:7E-1.3 Severability

If any provision of this chapter or the application of this chapter to any person or circumstances is held invalid, the remainder of the chapter and the application of such provision to persons or circumstances other than those to which it is held invalid shall not be affected thereby.

7:7E-1.4 Review, revision, and expiration

The Department shall periodically review this chapter, consider the various national, State, and local interests in coastal resources and developments seeking coastal locations, and propose and adopt appropriate revisions to this chapter. Under the requirements of the Federal Coastal Zone Management Act, the Department expects to conduct an annual review of the rules and expects to revise, amend or readopt the rules before the five-year deadline under Executive Order No. 66 of 1978 for periodic review of administrative rules.

Amended by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

7:7E-1.5 Coastal decision-making process

(a) The Coastal Zone Management rules represent the consideration of various conflicting, competing, and contradictory local, State, and national interests in diverse coastal resources and in diverse uses of coastal locations. Numerous balances have been struck among these interests in defining these rules, which reduce but do not presume to eliminate all conflicts among competing interests. One reason for this intentional balancing and conflict reducing approach is that coastal management involves explicit consideration of a broad range of concerns, in contrast to other resource management programs which have a more limited scope of concern. Decision-making on individual proposed actions using the Coastal Zone Management rules must therefore consider all three steps in the process, and weigh, evaluate, and interpret inevitably complex interests, using the framework established by the rules. In this process, interpretations of terms, such as "prudent," "feasible," "minimal," "practicable," and "maximum extent," as used in a specific rule or combinations of the rules may vary, depending upon the context of the proposed use, location, and design. Finally, these principles should not be understood as authorizing arbitrary decision-making or unrestrained administrative discretion. Rather, the limited flexibility intentionally built into the Coastal Zone Management rules provides a mechanism for incorporating professional judgment by the Department officials, as well as recommendations and comments by applicants, public agencies, specific interest groups, corporations, and citizens into the coastal decision-making process.

1. In the application of administrative discretion, the Department officials will be guided by eight basic coastal policies which summarize the direction of the specific rules.

- i. Protect and enhance the coastal ecosystem.
- ii. Concentrate rather than disperse the pattern of coastal residential, commercial, industrial, and resort development, encourage the preservation of open space, and ensure the availability of suitable waterfront areas for water dependent activities.
- iii. Employ a method for decision making which allows each coastal location to be evaluated in terms of both the advantages and the disadvantages it offers for development.
- iv. Protect the health, safety and welfare of people who reside, work and visit the coastal zone.
- v. Promote public access to the waterfront through protection and creation of meaningful access points and linear walkways and at least one waterfront park in each waterfront municipality.
- vi. Maintain active port and industrial facilities, and provide for necessary expansion in adjacent sites.
- vii. Maintain and upgrade existing energy facilities, and site additional energy facilities in a manner consistent with the rules of this Coastal Management Program.
- viii. Encourage residential, commercial, and recreational mixed-use redevelopment of the developed waterfront.

(b) The Department shall issue a permit pursuant to the Coastal Area Facility Review Act (CAFRA) only upon a finding as required by N.J.S.A. 13:19-10 that the development:

1. Conforms with all applicable air, water and radiation emission and effluent standards and all applicable water quality criteria and air quality standards;
2. Prevents air emissions and water effluents in excess of the existing dilution, assimilative and recovery capacities of the air and water environments at the site and within the surrounding region;
3. Provides for the collection and disposal of litter, recyclable and solid waste in such a manner as to minimize adverse environmental effects and the threat to the public health, safety and welfare;
4. Would result in minimal feasible impairment of the regenerative capacity of water aquifers or other ground or surface water supplies;
5. Would cause minimal feasible interference with the natural functioning of plant, animal, fish and human life processes at the site and within the surrounding region;

6. Is located or constructed so as to neither endanger human life or property nor otherwise impair the public health, safety and welfare; and

7. Would result in minimal practicable degradation of unique or irreplaceable land types, historical or archaeological areas and existing public scenic attributes at the site and within the surrounding region.

Amended by R.1985 d.715, effective February 3, 1986.

See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

Added definitions "Department" or "DEP" and "Division"; substantially amended definitions "Prohibited" and "Water dependent".

Amended by R.1990 d.413, effective August 20, 1990.

See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Use of waterfront for water-dependent activities encouraged.

Amended by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

Amended by R.2000 d.45, effective February 7, 2000.

See: 31 N.J.R. 2042(a), 32 N.J.R. 503(a).

In (b)1vii, deleted "determined to be needed by the New Jersey State Energy Master Management Plan" following "facilities"; and in (c), inserted "Coastal permit" or "permit", "Conservation restriction", "Impervious cover", "Land area" and "Linear development", and rewrote "Development", "Reconstruction" and "Site".

Amended by R.2003 d.60, effective February 3, 2003.

See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

Deleted former (a) and (c); recodified former (b) as (a).

Amended by R.2004 d.43, effective January 20, 2004.

See: 35 N.J.R. 2801(a), 36 N.J.R. 442(a).

Added (b).

Case Notes

Definition of "impervious cover" established by Department of Environmental Protection (DEP) in connection with subchapters of Coastal Zone Management (CZM) rules pertaining to development intensity was not arbitrary or otherwise impermissible, despite its inclusion in "impervious cover" of types of cover described in earlier rules as "permeable cover," where intervening rules removed distinction between impervious and permeable cover, establishing single permissible development intensity regardless of which form of cover was utilized, and where change in definition was supported by DEP's experience with permeable paving. In the Matter of the Protest of Coastal Permit Program Rules, 807 A.2d 198, 354 N.J.Super. 293.

Board's recognition of impact of zoning variance on upland property eliminated the need for reconsideration. *Anfuso v. Seeley*, 243 N.J.Super. 349, 579 A.2d 817 (A.D.1990).

Nonaggrieved third parties lack statutory right to administrative hearing to challenge coastal development. N.J.S.A. 12:5-1 et seq., 13:19-1 et seq. *Spalt v. New Jersey Dept. of Environmental Protection*, 237 N.J.Super. 206, 567 A.2d 264 (A.D.1989) certification denied 122 N.J. 140, 584 A.2d 213.

Fears of damage to generalized property rights were insufficient to entitle residents to adjudicatory hearing regarding coastal development. N.J.S.A. 12:5-1 et seq., 13:19-1 et seq., 52:14B-2(b), 52:14B-9. *Spalt v. New Jersey Dept. of Environmental Protection*, 237 N.J.Super. 206, 567 A.2d 264 (A.D.1989) certification denied 122 N.J. 140, 584 A.2d 213.

State's interest in waterfront development was rational basis for depriving fisherman of the right to work at that particular site. N.J.S.A. 12:5-1 et seq., 13:19-1 et seq., 52:14B-2(b), 52:14B-9. *Spalt v. New Jersey Dept. of Environmental Protection*, 237 N.J.Super. 206, 567 A.2d 264 (A.D.1989) certification denied 122 N.J. 140, 584 A.2d 213.

Conditional approval of construction permit for large scale development, permitting no construction until statutory standards satisfied, improper as not authorized by enabling legislation and as being a decision deficient in essential findings (citing former N.J.A.C. 7:7D-2.3). *Crema v. Dept. of Environmental Protection*, 182 N.J. Super. 445, 442 A.2d 630 (App.Div.1982), affirmed as modified 94 N.J. 286, 463 A.2d 910 (1983).

Record established that landowner was entitled to waterfront development permit to bulkhead 100 foot lot and relocate drainage pipe. *Baron v. New Jersey Department of Environmental Protection*, 92 N.J.A.R.2d (EPE) 18.

7:7E-1.6 Mitigation

(a) Mitigation shall be selectively considered on a case-by-case basis as compensation for the loss or degradation of a particular natural resource. In general, mitigation should be similar in type and location to the resource disturbed or destroyed, that is, replacement in kind within the same watershed. The Department will, however, consider proposals for mitigation that differ in type and/or location from the disturbed or destroyed resource provided the mitigation would provide a major contribution to meeting the basic coastal policies (N.J.A.C. 7:7E-1.5(a)1). Requirements for mitigation of a particular resource are addressed more specifically in each applicable Special Area Rules (N.J.A.C. 7:7E-3.1 through 3.49).

(b) Rationale: This rule is intended to conserve those physical and biological values described under applicable Special Area rules, while allowing development consistent with acceptability criteria. Use of this mitigation rule will result in real gain, or no net loss of habitat productivity or resource value.

New Rule by R.1985 d.715, effective February 3, 1986.
See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

Amended by R.1990 d.413, effective August 20, 1990.
See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Text at (a) and (b) deleted; provisions moved to 3.27 and 3.15.
Amended by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

Amended by R.2003 d.60, effective February 3, 2003.

See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

In (a), substituted "Department" for "Program" in the second sentence and substituted "3.9" for "3.48" in the third sentence.

Amended by R.2004 d.43, effective January 20, 2004.

See: 35 N.J.R. 2801(a), 36 N.J.R. 442(a).

In (a), amended N.J.A.C. references.

7:7E-1.7 Correspondence with the Department

Correspondence related to this chapter may be submitted to the Department at the following address:

Land Use Regulation Program
New Jersey Department of Environmental
Protection
501 E. State Street
PO Box 439
Trenton, New Jersey 08625-0439

New Rule, R.2000 d.45, effective February 7, 2000.
See: 31 N.J.R. 2042(a), 32 N.J.R. 503(a).

7:7E-1.8 Definitions

(a) The Coastal Zone Management rules are stated in terms of actions that are encouraged, required, acceptable, conditionally acceptable, discouraged, or prohibited. Some rules include specific conditions that must be met in order for an action to be deemed acceptable. Within the context of the Coastal Zone Management rules and the principles defined in N.J.A.C. 7:7E-1.5(a), the following words have the following meanings.

"Acceptable" means that a proposed use of coastal resources is likely to be approved.

"Action," "activity," "project," "proposal" or "use" are used interchangeably to describe the proposed use of coastal resources that is under scrutiny using the Coastal Zone Management rules.

"Area": See definition for "site" below.

"Bulkhead" means a vertical shore protection structure installed to withstand the forces of waves and currents. A bulkhead is not a "revetment" or a "gabion" as defined elsewhere in this section.

"CAFRA area" means the "coastal area" defined in the Coastal Area Facility Review Act at N.J.S.A. 13:19-4.

"Coastal Permit" or "permit" means a permit or an authorization, including a Federal Consistency Determination and Water Quality Certificate, issued by the Department under this chapter pursuant to any of the following statutes: the Coastal Area Facility Review Act (CAFRA), N.J.S.A. 13:19-1 et seq., the Wetlands Act of 1970, N.J.S.A. 13:9A-1 et seq., the Waterfront Development Law, N.J.S.A. 12:5-3; Section 307 of the Federal Coastal Zone Management Act, 16 U.S.C. §§1451 et seq.; or Section 401 of the Federal Water Pollution Control Act, 33 U.S.C. §§1251 et seq.

"Commercial development" means a development designed, constructed or intended to accommodate commercial, retail or office uses. "Commercial development" shall include, but need not be limited to, any establishment used for the wholesale or retail sale of food or other merchandise, or any establishment used for providing professional, financial or other commercial services.

"Conditionally acceptable" means that a proposed use of coastal resources is likely to be acceptable, provided that conditions specified in the rules are satisfied.

"Conservation restriction" means a restriction, easement, covenant, or condition, in any deed, will or other instrument, other than a lease, executed by or on behalf of the owner of the land, appropriate to retaining land or water areas predominantly in their natural state, scenic or open or wooded condition, or for conservation of soil or wildlife, or for outdoor recreation or park use, or for public access to tidal waterways and their shores, or as suitable habitat for fish or wildlife, to forbid or limit any or all of the following:

1. Construction or placing of buildings, roads, signs, billboards or other advertising, or other structures on or above the ground;
2. Dumping or placing of soil or other substance or material as landfill, or dumping or placing of trash, waste or unsightly or offensive materials;
3. Removal or destruction of trees, shrubs or other vegetation;
4. Excavation, dredging or removal of loam, peat, gravel, soil, rock or other mineral substance;
5. Surface use except for the purposes permitting the land or water area to remain predominantly in its natural condition;
6. Activities detrimental to drainage, flood control, water conservation, erosion control or soil conservation, or fish and wildlife habitat preservation; and
7. Other acts or uses detrimental to the retention of land or water areas according to the purposes of this chapter.

“Development” means any activity for which a Wetlands Act of 1970 Permit, Waterfront Development Permit, or Federal consistency determination is required, including site preparation and clearing. Development, for an application under the CAFRA, means the construction, relocation, or enlargement of any building or structure and all site preparation therefor, the grading, excavation or filling on beaches and dunes, and shall include residential development, commercial development, industrial development and public development. Development under CAFRA and the Waterfront Development Law does not include repairs or maintenance such as replacing siding, windows or roofs, unless such repairs or maintenance are associated with enlargements which are not exempt under CAFRA pursuant to N.J.A.C. 7:7-2.1(c)4 or the Waterfront Development Law pursuant to N.J.A.C. 7:7-2.3(d). Development under CAFRA does not include debris removal or cleanup provided such activities do not involve excavation, grading, or filling on beaches and dunes.

“Discouraged” means that a proposed use of coastal resources is likely to be rejected or denied as the Department has determined that such uses of coastal resources should be deterred. In cases where the Department considers the proposed use to be in the public interest despite its discouraged status, the Department may permit the use provided that mitigating or compensating measures can be taken so that there is a net gain in quality and quantity of the coastal resource of concern.

“Dwelling unit” means a house, townhouse, apartment, cooperative, condominium, cabana, hotel or motel room, a patient/client room in a hospital, nursing home or other residential institution, mobile home, campsite for a tent or recreational vehicle, floating home or any habitable structure of similar size and potential environmental impact, except that

dwelling unit shall not mean a vessel as defined in section 2 of P.L. 1962, c.73 (N.J.S.A. 12:7-34.37).

“11-digit hydrologic unit code area” means an area within which water drains to a particular receiving surface water body, which area is identified by an 11-digit hydrologic unit boundary designation, as shown on the map included in the United States Geological Survey, Water Resources Investigations Report 95-4134, 1995, entitled “Development of a 14-digit Hydrologic Coding Scheme and Boundary Data Set for New Jersey.” The HUC codes of New Jersey can be downloaded from www.njgeodata.state.nj.us. The HUC 11 data is entitled “subwatersheds.” Software designed for use with Geographic Information Systems (GIS) will be required to view that downloaded data.

“Encouraged” means that a proposed use of coastal resources is acceptable and is a use, by its purpose, location, design, and effect, that the Department has determined should be fostered and supported in the coastal zone.

“Gabion” means a shore protection structure that is comprised of wire mesh basket(s) or mattress(es) filled with rock and used in multiples as a structural unit installed to withstand the forces of waves and currents. A gabion is not a “bulkhead” or a “revetment” as defined elsewhere in this section.

“Habitable structure” means a structure that is able to receive a certificate of occupancy from the municipal construction code official, or can be demonstrated to have been legally occupied as a dwelling unit for the most recent five years.

“Impervious cover” means any structure, surface, or improvement that reduces and/or prevents absorption of stormwater into land. Porous paving, paver blocks, gravel, crushed stone, crushed shell, elevated structures (including boardwalks), and other similar structures, surfaces, or improvements are considered impervious cover. Grass, lawns, or any other vegetation are not considered impervious cover.

“Linear development” means a development with the basic function of connecting two points, such as a road, drive, public walkway, railroad, sewerage pipe, stormwater management pipe, gas pipeline, water pipeline, or electric, telephone or other transmission line.

“Location”: See definition for “site” below.

“Major commercial development” means a commercial development with a cumulative building area of greater than 100,000 square feet.

“Mean high water” (MHW) is a tidal datum that is the arithmetic mean of the high water heights observed over a specific 19-year Metonic cycle (the National Tidal Datum Epoch). For the New Jersey coast, the two high waters of each tidal day are included in the mean. This datum is available from the Department, Bureau of Tidelands Management.

“Mean high water line” (MHWL) is the intersection of the land with the water surface at the elevation of mean high water. The elevation of mean high water varies along the oceanfront and the tidal bays and streams in the coastal zone.

1. For practical purposes, the mean high water line is often referred to as the “ordinary” high water line, which is typically identified as the limit of wet sand or debris line on a beach, or by a stain line on a bulkhead or piling. However, for the purpose of establishing regulatory jurisdiction pursuant to the Coastal Area Facility Review Act (CAFRA) and the Waterfront Development Law, the surveyed mean high water elevation will be used.

“Minor commercial development” means a commercial development with a cumulative building area of 100,000 square feet or less.

“Navigable” means deep enough and wide enough to afford passage to watercraft, including canoes, at high tide. Navigability will also apply to areas upstream of obstructions (for example, culverts), provided that the water course is still tidally influenced in the upstream area.

“Program” means the Department of Environmental Protection’s Land Use Regulation Program.

“Prohibited” means that a proposed use of coastal resources is unacceptable and that the Department will use its legal authority to reject or deny the proposal.

“Reconstruction” means the repair or replacement of a building, structure or other parts of a development, provided that such repair or replacement does not increase or change the location of the footprint of the preexisting development, does not increase the area covered by buildings and/or asphalt or concrete pavement and does not result in a change in the use of the development. Reconstruction of docks and piers means repair or replacement in the same location and size of the preexisting structure. Reconstruction does not include repairs or maintenance, such as replacing siding, windows or roofs, unless such repairs or maintenance are associated with enlargements which are not exempt pursuant to N.J.A.C. 7:7-2.1(c)4.

“Revetment” means a sloped shore protection structure consisting of a facing made of stone, placed on a bank, bluff, or shoreline to withstand the forces of waves and currents. A revetment is not a “gabion” or “bulkhead” as defined elsewhere in this section.

“Site” means the lot or lots upon which a proposed development is to be constructed.

“Spring tide” means a tide that occurs at or near the time of new and full moon and which rises highest (spring high tide) and falls lowest (spring low tide) from the mean level.

“Spring high water line” is the intersection of the land with the water surface at the elevation of spring high tide.

“Water dependent” means development that cannot physically function without direct access to the body of water along which it is proposed. Uses, or portions of uses, that can function on sites not adjacent to the water are not considered water dependent regardless of the economic advantages that may be gained from a waterfront location. Maritime activity, commercial fishing, public waterfront recreation and marinas are examples of water dependent uses, but only the portion of the development requiring direct access to the water is water dependent. The test for water dependency shall assess both the need of the proposed use for access to the water and the capacity of the proposed water body to satisfy the requirements and absorb the impacts of the proposed use. A proposed use will not be considered water dependent if either the use can function away from the water or if the water body proposed is unsuitable for the use. For example, in a maritime operation, a dock or quay and associated unloading area would be water dependent, but an associated warehouse would not be water dependent.

1. Examples of water dependent uses include: docks, piers, marina activities requiring access to the water, such as commissioning and decommissioning new and used boats, boat repairs and short term parking for boaters, storage for boats which are too large to be feasibly transported by car trailer (generally greater than 24 feet), rack systems for boat storage, industries such as fish processing plants and other commercial fishing operations, port activities requiring the loading and unloading of vessels, and water-oriented recreation.

2. Water dependent uses exclude, for example: housing, hotels, motels, restaurants, warehouses, manufacturing facilities (except for those which receive and quickly process raw materials by ship), dry boat storage for boats that can be transported by car trailer, long-term parking, parking for persons not participating in a water-dependent activity, boat sales, automobile junk yards, and non-water oriented recreation such as roller rinks and racquetball courts.

“Water oriented” means development that serves the general public and derives economic benefit from direct access to the water body along which it is proposed. (Industrial uses need not serve the general public.) A hotel or restaurant, since it serves the public, could be water-oriented if it takes full advantage of a waterfront location. An assembly plant could be water oriented if overland transportation is possible but water-borne receipt of raw materials and shipment of finished products is economically advantageous. Housing is not water-oriented despite the economic premium placed on waterfront housing, because it only benefits those who can afford to buy or rent the housing units.

“Watershed management area” means an aggregation of the 11-digit hydrologic unit codes designated by the Department as a watershed management area and shown on the map entitled “New Jersey’s Watersheds, Watershed Management Areas, and Water Regions,” dated April 2000, as amended

and supplemented. The map of watershed management areas may be obtained from the Department's Division of Watershed Management at (609) 984-0058, or may be viewed on the internet at www.state.nj.us/dep/gis.

New Rule, R.2003 d.60, effective February 3, 2003.
See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).
Amended by R.2007 d.374, effective December 17, 2007.
See: 38 N.J.R. 4570(a), 39 N.J.R. 5222(a).

Rewrote definition "Coastal Permit"; and in the introductory paragraph of definition "Conservation restriction"; inserted "or for public access to tidal waterways and their shores".

SUBCHAPTER 2. (RESERVED)

SUBCHAPTER 3. SPECIAL AREAS

OFFICE OF ADMINISTRATIVE LAW NOTE: Rationale statements were filed as a part of these rules, but have not been

reproduced in this subchapter. The rationale statements can be reviewed at the following office:

Office of Administrative Law
Quakerbridge Plaza
Bldg. No. 9
PO Box 049
Trenton, New Jersey 08625-0049

7:7E-3.1 Purpose and scope

(a) Special Areas are areas that are so naturally valuable, important for human use, hazardous, sensitive to impact, or particular in their planning requirements, as to merit focused attention and special management rules. This subchapter divides Special Areas into four categories:

1. Special Water Areas, N.J.A.C. 7:7E-3.2 through 3.15, extend landward to the spring high water line or the level of normal flow in non-tidal waters;

(g) New dredging adjacent to shellfish habitat is discouraged in general, but may be conditionally acceptable if it can be demonstrated that the proposed dredging activities will not adversely affect shellfish habitat, population or harvest. If the Department determines dredging to be acceptable, dredging shall be managed pursuant to N.J.A.C. 7:7E-4.7 so as not to cause significant mortality of the shellfish due to increased turbidity and sedimentation, resuspension of toxic chemicals, or any other occurrence which will interfere with the natural functioning of the shellfish habitat.

(h) For the purpose of this rule all docks and piers, except public fishing piers defined in (d)1 above, are considered boat mooring facilities.

(i) Development required for national security for which there exists no other prudent and feasible alternative site is acceptable under this rule, provided that the shellfish resource is salvaged and mitigated pursuant to a plan approved in writing by the Department. The applicant is responsible for all the expenses of resource salvaging and mitigation. All such programs shall be coordinated with the appropriate shellfish management agency.

(j) N.J.A.C. 7:7E-7.3(d)10 shall also apply to development of boat mooring facilities of five or more slips on the Navesink, Shrewsbury, and Manasquan Rivers and St. George's Thoroughfare.

(k) Rationale: See the OAL Note at the beginning of this subchapter.

Amended by R.1985 d.715, effective February 3, 1986.

See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

Substantially amended.

Amended by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

Petition for Rulemaking.

See: 26 N.J.R. 4450(a), 27 N.J.R. 244(d), 27 N.J.R. 2629(b).

Public Notice: Petition for Rulemaking.

See: 27 N.J.R. 3634(c).

Public Notice: Shellfish habitat proposed interim policy; additional public meeting and extension of comment period.

See: 27 N.J.R. 4011(b).

Petition for Rulemaking.

See: 31 N.J.R. 4341(a), 32 N.J.R. 604(a).

Amended by R.2000 d.154, effective April 17, 2000.

See: 31 N.J.R. 749(a), 32 N.J.R. 1382(a).

In (c), added ", unless the proposed development is a dock, pier, or boat mooring constructed in accordance with (d)3 below" at the end of the introductory paragraph; and in (d), inserted a reference to piers in the introductory paragraph, and added 3.

Amended by R.2001 d.153, effective May 21, 2001.

See: 32 N.J.R. 1274(a), 33 N.J.R. 1581(a).

Rewrote (d).

Amended by R.2002 d.32, effective January 22, 2002.

See: 33 N.J.R. 1524(a), 34 N.J.R. 535(a).

In (d)3, rewrote (i)1 and (2), inserted "in order to ensure that the requirements of this chapter are met" following "appropriate" in the introductory paragraph of ii, and added vi.

Amended by R.2003 d.60, effective February 3, 2003.

See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

In (d)3, substituted "recreational docks and piers rule at N.J.A.C. 7:7E-4.5" for "standards relevant to recreational docks at N.J.A.C. 7:7E-4.2(e)"; in (e), (f) and (g), amended the N.J.A.C. references.

Law Review and Journal Commentaries

Court Says Riparian Rules Don't Warrant Compensation. Matt Ackermann, 151 N.J.L.J. 792 (1998).

Case Notes

Riparian grant from state to original owners of upland property did not create absolute and perpetual right to construct dock, free from all regulatory intervention, and thus subsequent owners did not have reasonable, investment-backed expectation that was destroyed by denial of permit to build dock, sufficient to effect regulatory taking. *Karam v. State Dept. of Environmental Protection*, 705 A.2d 1221, 308 N.J.Super. 225 (A.D. 1998).

Office of Administrative Law lacked jurisdiction over property owners' constitutional challenge to denial of waterfront development permit on grounds that proposed construction would conflict with shellfish habitat regulation. *Rivkin v. Department of Environmental Protection*, 96 N.J.A.R.2d (EPE) 353.

Waterfront development permit to construct dock was properly denied where proposed construction was to be located in shellfish habitat. *Hedrick v. Department of Environmental Protection*, 96 N.J.A.R.2d (EPE) 329.

Department of Environmental Protection must complete toxin study before permit for new waterfront development on Manasquan River may be issued. *Nordell v. Department of Environmental Protection*, 96 N.J.A.R.2d (EPE) 296.

Boat dock development in area where there existed no presently productive shellfish beds would be allowed. *Carozza v. DEPE*, 96 N.J.A.R.2d (EPE) 109.

Denial of application to construct dock and boat anchorages on shellfish habitat was not improper. *Fahey v. Department of Environmental Protection*, 95 N.J.A.R.2d (EPE) 148.

Application for permit to construct dock was properly denied given adverse impact on shallow aquatic environment. *Mangel v. Njdepe/LUR*, 95 N.J.A.R.2d (EPE) 133.

Waterfront development permits were not issuable due to shellfish habitat regulations. *Addiego v. Department of Environmental Energy and Protection*, 95 N.J.A.R.2d (EPE) 112.

Construction of dock was not violative of regulations as amounting to a condemnation of currently productive shellfish beds. *McCullough v. Njdepe/LUR*, 95 N.J.A.R.2d (EPE) 101.

Denial of petitioners' application for a waterfront development permit for the construction of a fixed pier and floating platform was appropriate. *Caruso v. Department of Environmental Protection*, 94 N.J.A.R.2d (EPE) 204.

Destruction of oyster beds precluded issuance of permit to rebuild dock on river. *Brennenstuhl v. Department of Environmental Protection*, 93 N.J.A.R.2d (EPE) 125.

7:7E-3.3 Surf clam areas

(a) Surf clam areas are coastal waters which can be demonstrated to support significant commercially harvestable quantities of surf clams (*Spisula solidissima*), or areas important for recruitment of surf clam stocks. This includes areas where fishing is prohibited for research sanctuary or conservation purposes by N.J.A.C. 7:2512.1(d)4. Surf clams are a marine fish and therefore are also subject to the marine fish and fisheries rule, N.J.A.C. 7:7E-8.2.

(b) Development which would result in the destruction, condemnation, or contamination of surf clam areas is prohibited except for the following:

1. Development that is of national interest provided:

i. There are no prudent and feasible alternative sites; and

- ii. Impacts to the surf clam area are minimized.
2. Sand and gravel mining to obtain material for beach nourishment provided:
- i. The beach nourishment project is in the public interest;
 - ii. There are no prudent and feasible alternative offshore borrow site that would result in less impact to marine fish and fisheries;
 - iii. The impacts to surf clam areas are minimized through the following:
 - (1) The beach nourishment project is designed to minimize the volume of sand borrowed from the surf clam area;
 - (2) The borrow cut is designed to minimize the area disturbed, for example, by designing a deeper cut;
 - (3) The borrow site is located to avoid those more productive surf clam areas; and
 - (4) When appropriate, notice shall be provided to clambers in advance of the mining operation to allow for surf clam harvest; and
 - iv. The sand mining is not located within a surf clam conservation area as defined at N.J.A.C. 7:25-12.

(c) Rationale: See the OAL Note at the beginning of this subchapter.

Amended by R.2003 d.60, effective February 3, 2003.
See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).
Rewrote the section.

7:7E-3.4 Prime fishing areas

(a) Prime fishing areas include tidal water areas and water's edge areas which have a demonstrable history of supporting a significant local quantity of recreational or commercial fishing activity. The area includes all coastal jetties and groins, public fishing piers or docks and artificial reefs. Prime fishing areas also include all red line delineated features within the coastal waters illustrated in: B.L. Freeman and L.A. Walford (1974) *Angler's Guide to the United States Atlantic Coast Fish; Fishing Grounds and Fishing Facilities*, Section III and IV or as indicated on New Jersey's Specific Sport and Commercial Fishing Grounds Chart (page 14) contained in "New Jersey's Recreational and Commercial Ocean Fishing Grounds." Long and Figley (1984); recently developed artificial reefs off the New Jersey coast as identified in Figley (1989) "A Guide to Fishing and Diving New Jersey's Artificial Reefs," and The Fishing Grounds of Raritan, Sandy Hook and Delaware Bays as determined in Figley and McCloy (1988) "New Jersey's Recreational and Commercial Fishing Grounds of Raritan Bay, Sandy Hook Bay and Delaware Bay and The Shellfish Resources of Raritan Bay and Sandy Hook Bay." While this information source applies only to the Delaware and Raritan Bay and Atlantic Ocean shorefronts, Prime Fishing Areas do occur throughout the coastal zone.

(b) Standards relevant to prime fishing areas are as follows:

1. Permissible uses of prime fishing areas include recreational and commercial finfishing and shellfishing, as presently regulated by the Department's Division of Fish and Wildlife, scuba diving and other water related recreational activities.
2. Prohibited uses include sand or gravel submarine mining which would alter existing bathymetry to a significant degree so as to reduce the high fishery productivity of these areas. Disposal of domestic or industrial wastes must meet applicable State and Federal effluent limitations and water quality standards.

(c) Rationale: See the OAL Note at the beginning of this subchapter.

Amended by R.1985 d.715, effective February 3, 1986.
See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

Subsection (a) substantially amended by incorporating (a)1 and (a)2 in (a) and adding text "or as indicated . . . Long and Figley (1984)".
Amended by R.1990 d.413, effective August 20, 1990.

See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).
Added source material for Raritan Bay.

Amended by R.2003 d.60, effective February 3, 2003.
See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

In (a), inserted "and artificial reefs" following "piers or docks" and substituted "coastal waters" for "State of New Jersey's three-mile territorial sea"; in (b), rewrote the introductory paragraph and substituted "the Department's Division of Fish and Wildlife" for "NJDEP Division of Fish, Game, and Wildlife".

7:7E-3.5 Finfish migratory pathways

(a) Finfish migratory pathways are waterways (rivers, streams, creeks, bays and inlets) which can be determined to serve as passageways for diadromous fish to or from seasonal spawning areas, including juvenile anadromous fish which migrate in autumn and those listed by H.E. Zich (1977) "New Jersey Anadromous Fish Inventory" NJDEP Miscellaneous Report No. 41, and including those portions of the Hudson and Delaware Rivers within the coastal zone boundary.

1. Species of concern include: alewife or river herring (*Alosa pseudoharengus*), blueback herring (*Alosa sapidissima*), American shad (*Alosa aspidissima*), striped bass (*Monroe saxatilis*), Atlantic sturgeon (*Acipenser oxyrinchus*), Shortnose sturgeon (*Acipenser brevirostrum*) and American eel (*Anguilla rostrata*).

(b) Development, such as dams, dikes, spillways, channelization, tide gates and intake pipes, which creates a physical barrier to the movement of fish along finfish migratory pathways is prohibited, unless acceptable mitigating measures such as fish ladders, erosion control, or oxygenation are used.

(c) Development which lowers water quality to such an extent as to interfere with the movement of fish along finfish migratory pathways or to violate State and Delaware River Basin Commission water quality standards is prohibited.

Case Notes

Need to preserve undeveloped beach area administratively recognized by former N.J.A.C. 7:7E-3.10. *Lusardi v. Curtis Point Property Owners Assn.*, 86 N.J. 217, 430 A.2d 881 (1981).

7:7E-3.21 Bay islands

(a) Bay islands are islands or filled areas surrounded by tidal waters, wetlands, beaches or dunes, lying between the mainland and barrier island. Such islands may be connected to the mainland or barrier island by elevated or fill supported roads (see Appendix, Figure 3, incorporated herein by reference). Existing lagoon edges (N.J.A.C. 7:7E-3.24) are not bay islands.

1. In cases where a bay island is also a Filled Water's Edge (N.J.A.C. 7:7E-3.23), the more restrictive provisions of the two rules shall apply.

2. For the purposes of this chapter, the areas listed below are not considered bay islands. The impervious cover limits for these areas are determined under the Special Area rules at N.J.A.C. 7:7E-3 where applicable, and/or under N.J.A.C. 7:7E-5B.

OCEAN COUNTY

- Bonnett Island, Stafford Township
- Chadwick Island, Dover Township
- Channel Island, Mantoloking Borough
- Osborne Island, Little Egg Harbor Township
- Pelican Island, Dover/Berkeley Townships
- West Point Island, Lavallette Borough

ATLANTIC COUNTY

- Chelsea Heights, Atlantic City
- Venice Heights, Atlantic City
- Ventnor Heights, Ventnor City

CAPE MAY COUNTY

- Princeton Harbor, Avalon Borough
- West Wildwood, Wildwood City
- West 17th Street, Ocean City

(b) On bay islands which abut either a paved public road or a conveyance component of an offsite treatment, conveyance and disposal system with adequate capacity to convey, treat and dispose of the sewage generated from the proposed development, or which abut neither a paved public road nor such a conveyance, non-water dependent development is prohibited unless it meets the standards of (d) below and water dependent development is discouraged. Water dependent development is conditionally acceptable provided that:

1. Impervious cover does not exceed three percent of the bay island portion of the site (except pursuant to (d) below);

2. For a bay island portion of a site that is forested as determined at N.J.A.C. 7:7E-5.5, at least 30 percent of the existing forest shall be preserved in accordance with N.J.A.C. 7:7E-5.4(d), and the remainder shall be planted with herb/shrub vegetation that is adapted to the substrate and other environmental conditions of the site; and

3. For a bay island portion of a site that is unforested as determined at N.J.A.C. 7:7E-5.5, at least five percent of the bay island portion shall be planted with trees in accordance with N.J.A.C. 7:7E-5.4(d) and (e), and the remainder shall be planted with herb/shrub vegetation that is adapted to the substrate and other environmental conditions of the site.

(c) On bay islands which abut a paved public road and abut the conveyance component of an offsite treatment, conveyance and disposal system with adequate capacity to convey, treat and dispose of the sewage generated from the proposed development, development is conditionally acceptable as follows:

1. Water dependent development is conditionally acceptable, provided that:

i. Impervious cover does not exceed 30 percent of the bay island portion of the site (except pursuant to (d) below);

ii. For a bay island portion of a site that is forested as determined at N.J.A.C. 7:7E-5.5, at least 30 percent of the existing forest shall be preserved in accordance with N.J.A.C. 7:7E-5.4(d), and the remainder shall be planted with herb/shrub vegetation that is adapted to the substrate and other environmental conditions of the site; and

iii. For a bay island portion of a site that is unforested as determined at N.J.A.C. 7:7E-5.5, at least five percent of the bay island portion shall be planted with trees in accordance with N.J.A.C. 7:7E-5.4(d) and (e), and the remainder shall be planted with herb/shrub vegetation that is adapted to the substrate and other environmental conditions of the site; and

2. Non-water dependent development is conditionally acceptable provided that:

i. Impervious cover does not exceed three percent of the bay island portion of the site (except pursuant to (d) below);

ii. For a bay island portion of a site that is forested as determined at N.J.A.C. 7:7E-5.5, at least 30 percent of the existing forest shall be preserved in accordance with N.J.A.C. 7:7E-5.4(d), and the remainder shall be planted with herb/shrub vegetation that is adapted to the substrate and other environmental conditions of the site; and

iii. For a bay island portion of a site that is unfor-
 ested as determined at N.J.A.C. 7:7E-5.5, at least five
 percent of the bay island portion shall be planted with
 trees in accordance with N.J.A.C. 7:7E-5.4(d) and (e),
 and the remainder shall be planted with herb/shrub
 vegetation that is adapted to the substrate and other
 environmental conditions of the site.

3. Impervious cover shall not exceed three percent of
 the bay island portion of the site unless the development
 is entirely water dependent and meets (d)1 above, in
 which case the impervious cover limit shall not exceed 30
 percent.

(d) Redevelopment or modification within an existing
 development on a bay island is conditionally acceptable
 provided that;

1. The construction of buildings and/or concrete as-
 phalt pavement is located on the area covered by build-
 ings and/or asphalt or concrete pavement legally existing
 on the site at the time the application is submitted to the
 Department and does not exceed the existing develop-
 ment as to any one of the following:

- i. Number of units; or
- ii. Square footage of interior floor space; and

2. Trees shall be planted and/or preserved on at least
 five percent of the bay island portion of the site in
 accordance with N.J.A.C. 7:7E-5.4(d) and (e).

Amended by R.1985 d.715, effective February 3, 1986.
 See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R.
 314(a).

Added text to (a): "or man-made"; "as well as man-made dikes."
 Repeal and New Rule, R.1990 d.413, effective August 20, 1990.
 See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Text on dunes deleted.

Amended by R.1994 d.380, effective July 18, 1994 (operative July 19,
 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

Amended by R.2000 d.45, effective February 7, 2000.

See: 31 N.J.R. 2042(a), 32 N.J.R. 503(a).

Rewrote the section.

Amended by R.2003 d.60, effective February 3, 2003.

See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

In (a), substituted "island" for "islands" following "barrier" in the
 first sentence.

Case Notes

Department of Environmental Protection did not abuse its discretion
 in considering only modifications in its review of developer's application
 for major-modification permit, and thus, appeal from grant of applica-
 tion did not revive appellant's expired right to challenge Department's
 prior waiver of island corridor preservation policy; modified project
 generally fit within "footprint" of original proposal. In re CAFRA
 Permit No. 87-0959-5 Issued to Gateway Associates, 704 A.2d 1261,
 152 N.J. 287 (N.J. 1997).

Regulation authorizing relaxation of application of rules when neces-
 sary and in public interest allowed only waiver of procedural rules for
 Coastal Area Facility Review Act development permits and did not
 authorize Department of Environmental Protection to waive bay island
 corridor preservation policy incorporated into separate chapter. In re
 CAFRA Permit No. 87-0959-5 Issued to Gateway Associates, 290
 N.J.Super. 498, 676 A.2d 161 (A.D.1996).

Requirements of Coastal Area Facilities Review Act for coastal area
 development; waiver. SMB Associates (Anchoring Point) v. New
 Jersey Dept. of Environmental Protection, 137 N.J. 58, 644 A.2d 558
 (1994).

Public interest group; standing to challenge coastal area review
 board's decision to grant permit. SMB Associates (Anchoring Point) v.
 New Jersey Dept. of Environmental Protection, 137 N.J. 58, 644 A.2d
 558 (1994).

Absent regulations authorizing them to grant waivers, the Commis-
 sioner of Department of Environmental Protection and the Coastal
 Area Review Board had no authority to grant a waiver from compliance
 with regulations. SMB Associates v. New Jersey Dept. of Environmen-
 tal Protection, 246 N.J.Super. 38, 624 A.2d 14 (A.D.1993) certification
 granted 134 N.J. 562, 636 A.2d 520, affirmed 137 N.J. 58, 644 A.2d 558.

Property between two barrier islands was subject to classification and
 more restrictive regulation as a bay island. Estate of Sims v. Depart-
 ment of Environmental Protection, 95 N.J.A.R.2d (EPE) 6.

Bay island was dependent upon location coupled with geological
 characteristics. Sims v. DEPE, 95 N.J.A.R.2d (EPE) 6.

7:7E-3.22 Beaches

(a) Beaches are gently sloping areas of sand or other
 unconsolidated material, found on all tidal shorelines, in-
 cluding ocean, bay and river shorelines (see Appendix,
 Figure 1), that extend landward from the mean high water
 line to either:

1. A man-made feature generally parallel to the
 ocean, inlet, or bay waters such as a retaining structure,
 seawall, bulkhead, road or boardwalk, except the sandy
 areas that extend fully under and landward of an elevated
 boardwalk are considered beach areas; or
2. The seaward or bayward foot of dunes, whichever is
 closest to the bay, inlet or ocean waters.

(b) Development is prohibited on beaches, except for
 development that has no prudent or feasible alternative in
 an area other than a beach, and that will not cause signifi-
 cant adverse long-term impacts to the natural functioning of
 the beach and dune system, either individually or in combi-
 nation with other existing or proposed structures, land dis-
 turbances or activities. Examples of acceptable activities are:

1. Demolition and removal of paving and structures;
2. Dune creation and related sand fencing and plant-
 ing of vegetation for dune stabilization, in accordance
 with N.J.A.C. 7:7E-3A;
3. The reconstruction of existing amusement and fish-
 ing piers and boardwalks;
4. Temporary recreation structures for public safety
 such as first aid and lifeguard stations;
5. Shore protection structures which meet the use
 conditions of N.J.A.C. 7:7E-7.11(e);
6. Linear development which meets the Rule on Loca-
 tion of Linear Development (N.J.A.C. 7:7E-6.1);

7:7E-3.27 Wetlands

(a) Wetlands or wetland means an area that is inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support, and that under normal circumstances does support, a prevalence of vegetation typically adapted for life in saturated soil conditions, commonly known as hydrophytic vegetation.

1. Wetlands areas are identified and mapped on the following:

- i. National Wetlands Inventory Maps produced by the U.S. Fish and Wildlife Service at a scale of 1:24,000 (generalized locations only);
- ii. Coastal wetland maps, pursuant to the Wetlands Act of 1970 (N.J.S.A. 13:9A-1 et seq.) prepared by the DEP at a scale of 1:2,400; and
- iii. Freshwater wetland maps prepared by DEP at a scale of 1:12,000 (generalized locations only).

Note: Maps referenced in (a)ii and iii above are available from the DEP Map and Publications sales office (609) 777-1038.

2. Generalized locations of some wetland types can be found in county soil surveys prepared by the U.S. Department of Agriculture, Soil Conservation Service.

3. The maps referenced under (a)li, iii, and 2 above shall be useful as an indicator to assist in the preliminary determination of the presence or absence of wetlands only. They have been determined to be unreliable for the purposes of locating the actual wetlands boundary on a specific site.

4. All tidal and inland wetlands, excluding the delineated tidal wetlands defined pursuant to N.J.A.C. 7:7-2.2, shall be identified and delineated in accordance with the USEPA three-parameter approach (that is, hydrology, soils and vegetation) specified under N.J.A.C. 7:7A-1.4 of the Freshwater Wetlands Protection Act Rules.

(b) Development in wetlands defined under the Freshwater Wetlands Protection Act of 1987 is prohibited unless the development is found to be acceptable under the Freshwater Wetlands Protection Act Rules (N.J.A.C. 7:7A).

(c) Development of all kinds in all other wetlands not defined in (b) above is prohibited unless the Department can find that the proposed development meets the following four conditions:

1. Requires water access or is water oriented as a central purpose of the basic function of the activity (this

rule applies only to development proposed on or adjacent to waterways). This means that the use must be water dependent as defined in N.J.A.C. 7:7E-1.8;

2. Has no prudent or feasible alternative on a non-wetland site;

3. Will result in minimum feasible alteration or impairment of natural tidal circulation (or natural circulation in the case of non-tidal wetlands); and

4. Will result in minimum feasible alteration or impairment of natural contour or the natural vegetation of the wetlands.

(d) In particular, dumping solid or liquid wastes and applying or storing certain pesticides on wetlands are prohibited.

(e) No action by the Commissioner shall prohibit, restrict or impair the exercise or performance of the powers and duties conferred or imposed by law on the Department of Environmental Protection, the Natural Resource Council and the State Mosquito Control Commission in said Department, the Department of Health, or any mosquito control or other project or activity operating under or authorized by the provisions of chapter 9 of Title 26 of Revised Statutes. This rule does not supersede the authority of the State Mosquito Commission to undertake mosquito control projects authorized by chapter 9 of Title 26 of the Revised Statutes.

(f) Development that adversely affects white cedar stands such as water table drawdown, surface and groundwater quality changes and the introduction of non-native plant species is prohibited.

(g) For projects which require a Waterfront Development permit, the reuse of former dredged material disposal sites for continued dredged material disposal is conditionally acceptable provided the following criteria are met:

1. The site has been used for dredged material disposal within the past 10 years;

2. The site has existing dikes or berms in sound condition, and/or has sufficient area of previously disposed material within the previously disturbed disposal area to allow the construction of structurally sound dikes and berms;

3. There are no anticipated adverse effects on threatened or endangered species;

4. There are no colonial nesting birds present on site which would be adversely affected (seasonal restrictions may be required);

5. No wetlands regulated pursuant to the Wetlands Act of 1970 would be adversely affected;

See: 32 N.J.R. 864(a), 32 N.J.R. 3784(b).

In (h)6, substituted "approved by the Department" for "memorialized in a deed restriction meeting the Department's requirements" in the third sentence; and in (h)6 and (h)8, inserted references to conservation restrictions for references to conservation easements and substituted "recorded" for "registered" throughout.

Amended by R.2003 d.60, effective February 3, 2003.

See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

In (c)1, amended the N.J.A.C. reference; rewrote (h)3.

Case Notes

Federal court finding that land was wetland under federal definition required applicant for permit to concede that activity conflicted with state's coastal zone management program. Matter of Stoeco Development, Ltd., 262 N.J.Super. 326, 621 A.2d 29 (A.D.1993).

Project's exemption from permit requirements does not prevent state from finding proposed activity inconsistent with state's coastal zone management program. Matter of Stoeco Development, Ltd., 262 N.J.Super. 326, 621 A.2d 29 (A.D.1993).

Permit to fill wetlands granted by Army Corps of Engineers was not subject to state regulation. Matter of Waterfront Development Permit No. 87-1235-1 by Dept. of Environmental Protection to Union County Utilities Authority, 257 N.J.Super. 524, 608 A.2d 973 (A.D.1992).

Exclusive state regulation of isolated wetlands was provided by Freshwater Wetland Protection Act. Matter of Waterfront Development Permit No. 87-1235-1 by Dept. of Environmental Protection to Union County Utilities Authority, 257 N.J.Super. 524, 608 A.2d 973 (A.D.1992).

State regulation of upland development which had no direct effect on navigable waterways was not authorized by Waterfront Development Act. Matter of Waterfront Development Permit No. 87-1235-1 by Dept. of Environmental Protection to Union County Utilities Authority, 257 N.J.Super. 524, 608 A.2d 973 (A.D.1992).

Department of Environmental Protection was not required, in contested permit proceeding, to give notice that condition of mitigation might be imposed. Baron v. New Jersey Department of Environmental Protection, 93 N.J.A.R.2d (EPE) 75.

7:7E-3.28 Wetlands buffers

(a) Wetlands buffer or transition area means an area of land adjacent to a wetland which minimizes adverse impacts on the wetlands or serves as an integral component of the wetlands ecosystem (see Appendix, Figure 7). Wider buffers than those noted below may be required to establish conformance with other Coastal Rules, including, but not limited to, 7:7E-3.38 and 3.39.

1. A wetlands buffer or transition area of up to 150 feet in width shall be established adjacent to all wetlands defined and regulated under the Freshwater Wetlands Protection Act. (Refer to the Freshwater Wetland Protection Act Rules, N.J.A.C. 7:7A, for further guidance).

2. For all other wetlands, including wetlands regulated under the Coastal Wetlands Act of 1970, a wetlands buffer of up to 300 feet shall be established.

(b) Subject to (a) above, all wetlands buffers (that is, transition area) associated with wetlands subject to the Freshwater Wetlands Protection Act shall be regulated in accordance with the Freshwater Wetlands Protection Act Rules, N.J.A.C. 7:7A.

(c) Development is prohibited in a wetlands buffer around all other wetlands, unless it can be demonstrated that the proposed development will not have a significant adverse impact and will cause minimum feasible adverse impact, through the use of mitigation where appropriate on the wetlands, and on the natural ecotone between the wetlands and surrounding upland. The precise geographic extent of the actual wetlands buffer required on a specific site shall be determined on a case-by-case basis using these standards.

(d) In areas of the coastal zone which are within the Hackensack Meadowlands District, the appropriate buffer width shall be determined in accordance with the requirements set forth in the Hackensack Meadowlands District Zoning Regulations.

(e) Rationale: See the OAL Note at the beginning of this subchapter.

Section was "Wet Borrow Pit Margins".

7:7E-3.31 Coastal bluffs

(a) A coastal bluff is a steep slope (greater than 15 percent) of consolidated (rock) or unconsolidated (sand, gravel) sediment which is adjacent to the shoreline or which is demonstrably associated with shoreline processes.

1. The waterward limit of a coastal bluff is a point 25 feet waterward of the toe of the bluff face, or the mean high water line, whichever is nearest the toe of the bluff.

2. The landward limit of a coastal bluff is the landward limit of the area likely to be eroded within 50 years, or a point 25 feet landward of the crest of the bluff, whichever is farthest inland (see Appendix, Figures 7 and 8, incorporated herein by reference).

3. Steep slopes (N.J.A.C. 7:7E-3.34) are isolated inland areas with slopes greater than 15 percent. All steep slopes associated with shoreline processes or adjacent to the shoreline and associated wetlands, or contributing sediment to the system, will be considered coastal bluffs.

(b) Development is prohibited on coastal bluffs, except for linear development which meets the rule on the Location of Linear Development (N.J.A.C. 7:7E-6.1), shore protection activities which meet the appropriate Coastal Engineering Use rules (N.J.A.C. 7:7E-7.11), and single family homes and duplexes which are not located along the shorelines of the Atlantic Ocean, Delaware Bay, Raritan Bay or Sandy Hook Bay and comply with N.J.A.C. 7:7E-7.2(e) or (f).

(c) The stabilization of coastal bluffs with vegetation is encouraged.

(d) Rationale: See the OAL Note at the beginning of this subchapter.

Amended by R.1985 d.715, effective February 3, 1986.
See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

(b) and (b)2 deleted; section recodified to reflect deletions.
Amended by R.1990 d.413, effective August 20, 1990.

Rewrote (b).

7:7E-3.32 Intermittent stream corridors

(a) Intermittent stream corridors are areas including and surrounding surface water drainage channels in which there is not a permanent flow of water and which contain an area or areas with a seasonal high water table equal to or less than one foot. The inland extent of these corridors is either the inland limit of soils with a seasonal high water table depth equal to, or less than one foot, or a disturbance of 25 feet measured from the top of the channel banks, whichever is greater (see Appendix, Figures 7 and 9, incorporated herein by reference).

1. Where an intermittent stream corridor is also a wetland, the Wetlands rule (N.J.A.C. 7:7E-3.27) shall apply.

(b) Uses that promote undisturbed growth of native vegetation and wildlife habitat value are encouraged.

(c) Cutting, filling, damming, detention basins for runoff recharge, paving, structures or any other activities that would directly degrade the function of intermittent stream corridors, except for linear infrastructure for which there is no feasible alternate route, is prohibited.

(d) Intermittent streams not subject to the ebb and flow of the tide shall also comply with the Freshwater Wetlands Protection Act Rules (N.J.A.C. 7:7A).

(e) Rationale: See the OAL Note at the beginning of this subchapter.

(Agency note: N.J.A.C. 7:7E-3.33 through 3.35 are Special Land Areas)

Text on steep slopes recodified to 3.34; text on intermittent stream corridors recodified from 3.30; intermittent stream corridors are considered State open waters.

Amended by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).
See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

7:7E-3.33 Farmland conservation areas

(a) Farmland conservation areas are defined as any contiguous area of 20 acres or more (in single or multiple tracts of single or multiple ownership) with soils in the Capability Classes I, II and III or special soils for blueberries and cranberries as mapped by the United States Department of Agriculture, Soil Conservation Service, in National Cooperative Soil Surveys, which are actively farmed, or suitable for farming, unless it can be demonstrated by the applicant that new or continued use of the site for farming or farm dependent purposes is not economically feasible. Farming or farm-dependent purposes include nurseries, orchards, vegetable and fruit farming, raising grains and seed crops, silviculture (such as Christmas tree farming), floriculture (including greenhouses), dairying, grazing, livestock raising, and wholesale and retail marketing of crops, plants, animals and other related commodities.

(b) Farmland conservation areas shall be maintained and protected for open space or farming purposes. Farming or farm-dependent uses are permitted uses in farmland conservation areas. Housing is permitted only if it is an accessory use to farming. Mining is permitted only in accordance with a reclamation plan which meets the requirements of the Mining Use rule (N.J.A.C. 7:7E-7.8).

November, 1980. Within the Pinelands Area, the law delineates a Preservation Area, where the plan shall “preserve an extensive and contiguous area of land in its natural state, thereby insuring the continuation of a Pinelands environment....” (Section 8c).

1. Under the authority of the Department’s Surface Water Quality Standards (N.J.A.C. 7:9B), all surface waters within the boundaries of the Pinelands Area, except those waters designated as FWI, are designated “Pinelands Waters” which have special antidegradation policies, designated uses and water quality criteria (see N.J.A.C. 7:9B1-4, 1.5(d)6ii, 1.12(b), and 1.14(b)). The Department’s present Groundwater Quality Standards (N.J.A.C. 7:9C), which were adopted on March 3, 1981, and revised on February 1, 1993, identify the “Central Pine Barrens Area” as the only part of the Pinelands distinguished from the rest of the State (N.J.A.C. 7:9-6.7(c)).

2. The coastal municipalities wholly or partly within the Pinelands National Reserve Area include:

Atlantic County

Brigantine City	Hamilton Township
Corbin City	Mullica Township
Egg Harbor City	Port Republic
Egg Harbor Township	Somers Point City
Estell Manor Township	Weymouth Township
Galloway Township	

Burlington County

Bass River Township	Washington Township
---------------------	---------------------

Cape May County

Dennis Township	Upper Township
Middle Township	Woodbine Borough

Cumberland County

Maurice River Township	
------------------------	--

Ocean County

Barnegat Township	Lakehurst Borough
Beachwood Borough	Little Egg Harbor Township
Berkeley Township	Manchester Township
Dover Township	Ocean Township
Eagleswood Township	South Toms River Borough
Lacey Township	Stafford Township
	Tuckerton Borough

(b) Coastal development shall be consistent with the intent, policies and objectives of the National Parks and Recreation Act of 1978, P.L. 95-625, Section 502, creating the Pinelands National Reserve, and the State Pinelands Protection Act of 1979 (N.J.S.A. 13:18A1 et seq.).

1. Within the Pinelands National Reserve, the Pinelands Commission will serve as a reviewing agency for coastal construction permit applications.

2. The Department’s Land Use Regulation Program and the Pinelands Commission will coordinate the permit review process through the procedure outlined in the

February 8, 1988 Memorandum of Agreement between the two agencies and any subsequent amendments to that agreement. Copies are available from the Department’s Land Use Regulation Program, PO Box 439, Trenton, New Jersey 08625-0439, (609) 292-0060.

(c) Coastal activities in areas under the jurisdiction of the Pinelands Commission shall not require a freshwater wetlands permit, or be subject to transition area requirements of the Freshwater Wetlands Protection Act, except that discharge of dredged or fill materials in freshwater wetlands and/or State open waters shall require a State permit issued under the provisions of Section 404 of the Federal Water Pollution Control Act of 1972 as amended by the Clean Water Act of 1977, or under an individual or statewide general permit program administered by the State under the provisions of 33 USC 1344 and N.J.S.A. 13:9B-6(b).

(d) Rationale: See the OAL Note at the beginning of this subchapter.

Amended by R.1985 d.715, effective February 3, 1986.

See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

Section substantially amended.

Amended by R.1990 d.413, effective August 20, 1990.

See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Text on wild and scenic river corridors recodified to 3.46; text on Pinelands National Reserve and Pinelands Protection Area recodified from 3.42; exception to Freshwater Wetlands Protection Act added. Amended by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

Amended by R.2003 d.60, effective February 3, 2003.

See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

Administrative correction.

See: 37 N.J.R. 4245(a).

7:7E-3.45 Hackensack Meadowlands District

(a) The “Hackensack Meadowlands District” is a 19,730 acre area of water, coastal wetlands and associated uplands designated for management by a State-level agency known as the New Jersey Meadowlands Commission, by the Hackensack Meadowlands Reclamation and Development Act of 1968 (N.J.S.A. 13:17-1 et seq.). See Figure 20.

(b) The New Jersey Meadowlands Commission will act as the lead coastal planning and management agency within this Special Area. The New Jersey Meadowlands Commission Master Plan Zoning Rules (N.J.A.C. 19:4) are adopted as part of the Coastal Management Program (see Appendix I) and the Hackensack Meadowlands District is designated a Geographic Area of Particular Concern (see the New Jersey Coastal Management Program, Final Environmental Impact Statement, August 1980, page 263). The Department will periodically review Commission actions and will consider incorporating any proposed changes in New Jersey Meadowlands Commission plans or policies into the Coastal Management Program with particular attention to continued protection of wetlands and other environmental resources.

(c) Coastal activities under the jurisdiction of the New Jersey Meadowlands Commission shall not require a Freshwater Wetlands permit, or be subject to transition area requirements of the Freshwater Wetlands Protection Act, except that discharge of dredged or fill materials may require a permit issued under the provisions of Section 404 of the Federal Water Pollution Control Act of 1972 as amended by the Federal Clean Water Act of 1977, or under an individual or general permit program administered by the State under the provisions of the Federal Act and applicable State laws.

(d) Rationale: See the OAL Note at the beginning of this subchapter.

Amended by R.1985 d.715, effective February 3, 1986.
See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

Added text in (b), "The Division will ... other environmental resources."

Amended by R.1990 d.413, effective August 20, 1990.
See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Text on geodetic control reference marks recodified to 3.47; text on Hackensack Meadowlands District recodified from 3.43.

Amended by R.2003 d.60, effective February 3, 2003.
See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

In (b), substituted "the New Jersey Coastal Management Program, Final Environmental Impact Statement, August 1980, page 263" for "section on GAPS in Chapter 4" and substituted "Department" for "Division" preceding "will periodically review"; codified formerly uncodified Rationale paragraph as (d).

7:7E-3.46 Wild and scenic river corridors

(a) Wild and scenic river corridors are all rivers designated into the National Wild and Scenic Rivers System and any rivers or segments thereof being studied for possible designation into that system pursuant to the National Wild and Scenic Rivers Act (16 U.S.C. §§ 1271-1278). For rivers designated into the national system, the wild and scenic river corridor shall include the river and adjacent areas located within one-quarter mile from the mean high water line on each side of the river until a Federal River Management Plan has been adopted, after which time the wild and scenic corridor shall be the area defined in the adopted plan. For rivers under study for possible designation into the national system, the wild and scenic river corridor shall include the river and adjacent areas extending one-quarter mile from the mean high water line on each side of the river.

(b) Development in wild and scenic river corridors shall comply with (b)1 and 2 below, and the standards for the specific type of development at (c), (d), (f), (g) and (h) below. The standards for linear development are found at (e) below.

1. Development that would have a direct and adverse effect on any "outstandingly remarkable resource value" for which the river was designated or is being studied for possible designation into the National Wild and Scenic Rivers System is prohibited. For the purposes of this rule, "outstandingly remarkable resource values" means any of those extraordinary scenic, recreational, cultural, historical, or fish and wildlife attributes of a river corridor which, under the National Wild and Scenic Rivers Act, are

required to be preserved and protected for the benefit and enjoyment of future generations.

2. The development shall comply with the standards set forth in the Federal River Management Plan adopted pursuant to the National Wild and Scenic Rivers Act for the wild and scenic river corridor if a plan exists.

(c) Development of docks, piers, and moorings on the Great Egg Harbor River and Maurice River and their tributaries shall comply with the following:

1. A dock, pier or mooring shall not extend to a depth greater than two feet at mean high water or further than 20 percent of the river width, as measured from mean high water line on one side of the river to the mean high water line on the opposite side of the river, whichever is less.

2. On the Great Egg Harbor River and Maurice River, development of a dock, pier or mooring within 75 feet of the edge of a navigation channel, as defined at N.J.A.C. 7:7E-3.7, is prohibited.

3. On the tributaries to the Great Egg Harbor River and Maurice River, development of a dock, pier or mooring within 25 feet of the edge of a navigation channel, as defined at N.J.A.C. 7:7E-3.7, is prohibited.

(d) Where the need for shoreline stabilization has been demonstrated, biostabilization of eroding shorelines shall be used where feasible. These systems include live branch cuttings, live facings, live stakes, vegetative cuttings, vegetated earth buttresses, choir fiber products, fiber plugs, plants, fiber pallets, fiber carpet, and wood stake anchor systems. These materials shall be installed in accordance with the construction guidelines of Chapter 16 "Streambank and Shoreline Stabilization Protection," of the National Resources Conservation Service Engineering Handbook, National Engineering Handbook (NEH) Part 650, 1996, published by the United States Department of Agriculture, herein incorporated by reference as amended and supplemented. This document is available on the web at www.NTIS.gov for a fee (order number PB98114358). Standards for structural shore protection are found at N.J.A.C. 7:7E-7.11.

(e) Linear development shall be located within the right of way of an existing linear development route or outside of the wild and scenic river corridor where feasible. Where an analysis of alternatives demonstrates that proposed development which is in the public interest can not be so located, the linear development shall be located and designed to minimize adverse effect on outstandingly remarkable resource values and the width of the clearing for the linear development shall be minimized.

(f) Communication and cellular towers are prohibited in a wild and scenic river corridor.

(g) Development of bridges is conditionally acceptable provided it complies with the following:

(b) General Land Areas are all land areas, as defined at N.J.A.C. 7:7E-1.8, that are subject to this chapter and that are located outside of Special Water's Edge Areas. Special Water's Edge Areas are identified at N.J.A.C. 7:7E-3.16 through 3.32.

(c) This subchapter and N.J.A.C. 7:7E-5A and/or 5B apply to development in General Land Areas, Special Land Areas, and the following seven Special Water's Edge Areas:

1. N.J.A.C. 7:7E-3.17, Overwash areas;
2. N.J.A.C. 7:7E-3.18, Coastal high hazard areas;
3. N.J.A.C. 7:7E-3.19, Erosion hazard areas;
4. N.J.A.C. 7:7E-3.20, Barrier island corridor;
5. N.J.A.C. 7:7E-3.23, Filled water's edges;
6. N.J.A.C. 7:7E-3.24, Existing lagoon edges; and
7. N.J.A.C. 7:7E-3.25, Flood hazard areas.

(d) This subchapter and N.J.A.C. 7:7E-5A and 5B do not apply to:

1. The development of a single family home or duplex dwelling unless such development results in development of more than one single family home or duplex dwelling either solely or in conjunction with a previous development as defined at N.J.A.C. 7:7-2.1(b)8;
2. A linear development, as defined in N.J.A.C. 7:7E-1.8, except that this subchapter and N.J.A.C. 7:7E-5A and 5B shall apply if the linear development is wholly within a development and/or serves the development;
3. A mining operation, under N.J.A.C. 7:7E-7.8;
4. A public park which is publicly owned, or publicly controlled for the purposes of public access;
5. Aquaculture, as defined at N.J.S.A. 58:1A-3;
6. Sanitary landfills;
7. Wastewater treatment plants; or
8. Water treatment plants.

(e) If a site is located in the Hackensack Meadowlands District, as defined under N.J.S.A. 13:17-1 et seq., the Department shall not apply the requirements in N.J.A.C. 7:7E-5 and 5A, but shall apply the requirements for that area set forth at N.J.A.C. 7:7E-3.45.

(f) A site may include land both within the upland waterfront development area and within the CAFRA area. Where this occurs each portion of the site is treated separately and the impervious cover limits and vegetative cover percentages for the different portions of the site are determined under N.J.A.C. 7:7E-5A or 5B as appropriate.

(g) The rules in this subchapter and N.J.A.C. 7:7E-5A and 5B do not preempt the application of any municipal ordinance

that would result in more restrictive impervious cover requirements or more extensive vegetative cover requirements than would otherwise be applicable to a development site under this subchapter and N.J.A.C. 7:7E-5A and 5B.

Amended by R.2000 d.428, effective October 16, 2000.

See: 32 N.J.R. 864(a), 32 N.J.R. 3784(b).

In (d)1, amended N.J.A.C. reference.

Amended by R.2001 d.81, effective March 5, 2001.

See: 32 N.J.R. 352(a), 32 N.J.R. 682(a), 33 N.J.R. 843(a).

Added (g).

Amended by R.2003 d.60, effective February 3, 2003.

See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

Substituted "7:7E-1.8" for "7:7E-1.5" in (b), (d)2; added 7, 8 in (d).

7:7E-5.2 Definitions

In addition to the terms defined at N.J.A.C. 7:7E-1.8, the following words and terms are defined for purposes of this subchapter and N.J.A.C. 7:7E-5A and 5B:

"100 percent affordable housing development" means a development in which all dwelling units are available at a sales price or rent within the means of a low or moderate income household as defined by the Council on Affordable Housing pursuant to N.J.A.C. 5:94.

"CAFRA center" means a center with a boundary incorporated by reference or revised in accordance with N.J.A.C. 7:7E-5B.3.

"CAFRA core" means a core with a boundary incorporated by reference or revised in accordance with N.J.A.C. 7:7E-5B.3.

"CAFRA node" means a node with a boundary incorporated by reference or revised in accordance with N.J.A.C. 7:7E-5B.3.

"CAFRA Planning Map" means the map used by the Department to identify the location of Coastal Planning Areas, CAFRA centers, CAFRA cores and CAFRA nodes. The CAFRA Planning Map is available on the Department's Geographic Information System (GIS).

"Center" means a compact form of development which may have one or more cores and residential neighborhoods. A center may be an urban center, regional center, town, village, or hamlet, based on factors such as comparative size, population density, total population, transportation access, infrastructure, and employment base.

"Coastal center" means a center in the CAFRA area with a boundary delineated by the Department for the purpose of applying the requirements for impervious cover and vegetative cover at N.J.A.C. 7:7E-5 and 5B until such time as, in accordance with N.J.A.C. 7:7E-5B.6, the coastal center expires or, in accordance with N.J.A.C. 7:7E-5B.3, the coastal center is superseded by a CAFRA center. There are two categories of coastal centers, mainland coastal centers and non-mainland coastal centers. Each of these centers may be

further categorized as a coastal regional center, coastal town, coastal village or coastal hamlet.

“Coastal Critical Environmental Site” means a Critical Environmental Site in the CAFRA area with a boundary incorporated by reference in accordance with N.J.A.C. 7:7E-5B.6(h).

“Coastal Planning Area” means a planning area in the CAFRA area with a boundary incorporated by reference in accordance with N.J.A.C. 7:7E-5B.3.

“Community development boundary” means the line delineating a center from the environs of the center. The boundary is defined by physical features such as rivers, roads, or changes in the pattern of development, or by open space or farmland.

“Core” means a pedestrian-oriented area of commercial and civic uses serving the surrounding municipality or center, generally including some housing and access to public transportation.

“Critical Environmental Site” means an area generally less than a square mile which includes one or more environmentally sensitive features located either outside of a planning area classified as environmentally sensitive or within centers located within such planning areas.

“95-97 imagery” means the 1995-1997 National Aerial Photographic Program, New Jersey color infra-red imagery.

“Node” means a concentration of facilities and activities which are not organized in a compact form.

“Planning area” means an area of greater than one square mile that shares a common set of conditions such as population density, infrastructure systems, level of development, or environmental sensitivity. The five types of planning areas are Metropolitan Planning Area, Suburban Planning Area, Fringe Planning Area, Rural Planning Area, and Environmentally Sensitive Planning Area.

“Stormwater management facility” means a facility which receives, stores, conveys, or discharges stormwater runoff and is designed in accordance with all applicable local, county, and State regulations. A stormwater management facility may be a retention or detention basin; infiltration structure; grassed swale; filter fabric; rip-rap channel; and/or stormwater outfall.

“Tidelands Map” means the Tidelands Base Photo Map, adopted by the Department’s Tidelands Resource Council under N.J.S.A. 13:1B-13.1 et seq.

“Upland waterfront development area” means all lands outside of the CAFRA area extending from the mean high water line of a tidal water body to the first paved public road, railroad or surveyable property line existing on September 26, 1980 generally parallel to the waterway, provided that the landward boundary of the upland area shall be no less than

100 feet and no more than 500 feet from the mean high water line.

Amended by R.2001 d.81, effective March 5, 2001.

See: 32 N.J.R. 352(a), 32 N.J.R. 682(a), 33 N.J.R. 843(a).

In “CAFRA center”, “CAFRA core”, “CAFRA node”, “Coastal center” and “Coastal Planning Area”, amended the N.J.A.C. references.

Amended by R.2003 d.60, effective February 3, 2003.

See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

In the introductory paragraph, substituted “7:7E-1.8” for “7:7E-1.5” and deleted “CAFRA area”.

Amended by R.2006 d.46, effective February 6, 2006.

See: 37 N.J.R. 2351(a), 2985(a), 38 N.J.R. 928(c).

Rewrote definition “Coastal center”; added definitions “Coastal Critical Environmental Site” and “Critical Environmental Site.”

Amended by R.2006 d.363, effective October 2, 2006.

See: 38 N.J.R. 1921(a), 38 N.J.R. 4214(a).

Added definition “100 percent affordable housing development”.

7:7E-5.3 Impervious cover requirements that apply to sites in the upland waterfront development and CAFRA areas

(a) This section sets forth impervious cover requirements that apply to sites in the upland waterfront development and CAFRA areas. Impervious cover limits, specific to each of these areas, are found at N.J.A.C. 7:7E-5A and 5B.

(b) A stormwater management facility is not counted toward the impervious cover limit for a site.

(c) The impervious cover allowed on a site shall be placed on the net land area on the site, as determined at (d) below, and in addition, for an unforested site under N.J.A.C. 7:7E-5A.9(b)3 or 5B.4(e)2, the impervious cover shall be placed on the area covered by buildings and/or asphalt or pavement legally existing on the site at the time the application is submitted to the Department. If the amount of impervious cover calculated under N.J.A.C. 7:7E-5, 5A, and/or 5B is greater than the net land area of the site, the acreage of the impervious cover allowed on the site shall be the acreage of the net land area. The placement of impervious cover may be further restricted by other provisions in this chapter. For example, placement of impervious cover would be discouraged in critical wildlife habitat under N.J.A.C. 7:7E-3.39.

(d) To determine the acreage of the net land area on a site:

1. Determine the acreage of the total land area on the site;
2. Identify all areas on the site that are classified as one of the following Special Water’s Edge Areas:
 - i. Dunes (N.J.A.C. 7:7E-3.16);
 - ii. Bay islands (N.J.A.C. 7:7E-3.21);
 - iii. Beaches (N.J.A.C. 7:7E-3.22);
 - iv. Wetlands (N.J.A.C. 7:7E-3.27);
 - v. Wetland buffers (N.J.A.C. 7:7E-3.28);
 - vi. Coastal bluffs (N.J.A.C. 7:7E-3.31); and

- vii. Intermittent stream corridors (N.J.A.C. 7:7E-3.32);
3. Sum the acreage of the land areas identified in (d)2 above;
4. Subtract (d)3 above from (d)1 above; and
5. The result is the net land area to be used in calculating the impervious cover limits in N.J.A.C. 7:7E-5A and 5B.

(e) If a site or a portion of a site is a contaminated site, as defined at N.J.A.C. 7:26E-1.8 in the Department's Technical Requirements for the Remediation of Contaminated Sites, the impervious cover limit for the site may be increased if required under the Technical Requirements for the Remediation of Contaminated Sites at N.J.A.C. 7:26E in order to properly remediate the contaminated portion of the site.

Amended by R.2001 d.81, effective March 5, 2001.

See: 32 N.J.R. 352(a), 32 N.J.R. 682(a), 33 N.J.R. 843(a).

In (c), amended the N.J.A.C. reference in the first sentence.

Instrument, including paths, trails, dune walkovers/walkways, and piers and public accessways pursuant to 8 above; and

iii. All parking areas identified in (q)11 below;

11. Within 10 days of completion of a Green Acres funded development for a Green Acres project site or within 180 days of disbursement of Green Acres funding for acquisition for a Green Acres project site, provide public restrooms and parking for the project site as directed by the Department based on the proposed use of the project site and the nature and extent of public demand; and

12. Any Green Acres funding recipient for a Green Acres project site that, after December 17, 2007, undertakes any action that is determined by the Department to be in conflict with the Public Trust Doctrine, will be required to take corrective action within 30 days of notification by the Department of the conflict with the Public Trust Doctrine. If the Green Acres funding recipient for a Green Acres project site does not take corrective action, or if the corrective action taken is not adequate, then the Department may:

- i. Withhold Green Acres funding;
- ii. Terminate the Green Acres Project Agreement executed pursuant to N.J.A.C. 7:36; and/or
- iii. Demand immediate repayment of all Green Acres funding that has been disbursed to funding recipient.

(r) Rationale: See the OAL Note at the beginning of this subchapter.

Amended by R.1985 d.715, effective February 3, 1986.
See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).
(b)3-7 added.
Amended by R.1988 d.338, effective August 15, 1988.
See: 20 N.J.R. 139(a), 20 N.J.R. 2058(b).
Deleted (b)7 and substituted new.
Amended by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).
See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).
Amended by R.2000 d.45, effective February 7, 2000.
See: 31 N.J.R. 2042(a), 32 N.J.R. 503(a).
In (b), inserted a new 9, and recodified former 9 through 13 as 10 through 14.
Amended by R.2000 d.428, effective October 16, 2000.
See: 32 N.J.R. 864(a), 32 N.J.R. 3784(b).
In (b)11, substituted "restriction" for "easements".
Amended by R.2003 d.60, effective February 3, 2003.
See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).
Rewrote the section.
Repeal and New Rule, R.2007 d.374, effective December 17, 2007.
See: 38 N.J.R. 4570(a), 39 N.J.R. 5222(a).
Section was "Public access to the waterfront".

Law Review and Journal Commentaries

Resolving State Title Claims to Tidelands: Practice and Procedure. William E. Andersen, 168 N.J.Law. 8 (Mag.) (April 1995).

Case Notes

Department of Environmental Protection (DEP) had jurisdiction under the Coastal Area Facility Review Act (CAFRA) to determine the appropriate fee that beach club could charge the public for use of its private beach; boardwalk extension over the dune leading to the beach and waterfront that was maintained by club qualified as development and triggered the DEP's jurisdiction over all related issues of use and public access. Raleigh Ave. Beach Ass'n. v. Atlantis Beach Club, Inc., 851 A.2d 19.

Beach club's minimum fee for access to private beach, which required the minimum seasonal payment of \$700 for up to eight household members, discriminated against individuals and small families by forcing them to pay an amount bearing no rational relationship to the cost associated with individual use of the property, and thus, the fee was exclusionary and undermined the objectives of the public trust doctrine by limiting public access to the beach; fee should be limited to expenses actually incurred by the club for reasonable management services in addition to reimbursement for other costs incurred for the services provided. Raleigh Ave. Beach Ass'n. v. Atlantis Beach Club, Inc., 851 A.2d 19.

Regulation requiring coastal development to permit access to the waterfront to the maximum extent practicable, including both visual and physical access, did not impose absolute prohibition against oceanfront development which interferes with the view of inland property owners. Bubi v. Kassin, 323 N.J.Super. 601, 733 A.2d 1232 (N.J.Super.A.D. 1999).

Project promoting public access and water dependent uses of waterfront property complied with Waterfront Development Act. Matter of Waterfront Development Permit No. 87-1235-1 by Dept. of Environmental Protection to Union County Utilities Authority, 257 N.J.Super. 524, 608 A.2d 973 (A.D.1992)

Shoreline development that limits public access and the diversity of shorefront experiences is discouraged (citing former N.J.A.C. 7:7E-9.12). Lusardi v. Curtis Point Property Owners Assn., 86 N.J. 217, 430 A.2d 881 (1981).

7:7E-8.12 Scenic Resources and Design

(a) Scenic resources include the views of the natural and/or built landscape.

(b) Large-scale elements of building and site design are defined as the elements that compose the developed landscape such as size, geometry, massing, height and bulk structures.

(c) New coastal development that is visually compatible with its surroundings in terms of building and site design, and enhances scenic resources is encouraged. New coastal development that is not visually compatible with existing scenic resources in terms of large-scale elements of building and site design is discouraged.

(d) In all areas, except the Northern Waterfront region, the Delaware River Region and Atlantic City, new coastal development adjacent to a bay or ocean or bayfront or oceanfront, beach, dune or boardwalk and higher than 15 feet in height measured from the existing grade of the site or boardwalk shall:

1. Provide an open view corridor perpendicular to the water's edge in the amount of 30 percent of the frontage

along the waterfront where an open view currently exists; and

2. Be separated from either the beach, dune, boardwalk, or waterfront, whichever is further inland, by a distance of equal to two times the height of the structure. However, exceptions may be made for infill sites within existing commercial areas along a public boardwalk where the proposed use is commercial and where the set-back requirement is visually incompatible with the existing character of the area.

(e) Rationale: See the OAL Note at the beginning of this subchapter.

Amended by R.1985 d.715, effective February 3, 1986.
See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

Original 8.12 "Public services" was repealed. This new section was recodified from 8.14 and old text was deleted and new text substituted.

Amended by R.1990 d.413, effective August 20, 1990.

See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Enhancement of scenic resources required at (d).

Amended by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

7:7E-8.13 Buffers and compatibility of uses

(a) Buffers are natural or man-made areas, structures, or objects that serve to separate distinct uses or areas. Compatibility of uses is the ability for uses to exist together without aesthetic or functional conflicts.

(b) Development shall be compatible with adjacent land uses to the maximum extent practicable.

1. Development that is likely to adversely affect adjacent areas, particularly Special Areas N.J.A.C. 7:7E-3, or residential or recreation uses, is prohibited unless the impact is mitigated by an adequate buffer. The purpose, width and type of the required buffer shall vary depending upon the type and degree of impact and the type of adjacent area to be affected by the development, and shall be determined on a case by case basis.

2. The standards for wetland buffers are found at N.J.A.C. 7:7E-3.28.

3. The following apply to buffer treatment:

i. All buffer areas shall be planted with appropriate vegetative species, either through primary planting or supplemental planting. This landscaping shall include use of mixed, native vegetative species, with sufficient size and density to create a solid visual screen within five years from the date of planting.

ii. Buffer areas which are forested may require supplemental vegetative plantings to ensure that acceptable visual and physical separation is achieved.

iii. Buffer areas which are non-forested will require dense vegetative plantings with mixed evergreen and deciduous trees and shrubs. Evergreens must be at least eight feet tall at time of planting; deciduous trees must be at least three inches caliper, balled and burlapped; shrubs must be at least three to four feet in height.

(c) Rationale: See the OAL Note at the beginning of this subchapter.

Amended by R.1985 d.715, effective February 3, 1986.
See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

Deleted "policy" from (b).

Amended by R.1990 d.413, effective August 20, 1990.

See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Stylistic changes.

Administrative change to (b)1.

See: 23 N.J.R. 1662(b).

Amended by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

Amended by R.2003 d.60, effective February 3, 2003.

See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

In (b)1, amended N.J.A.C. reference; in (b)2, substituted "standards for" "rule regarding" and "is" for "are".

Case Notes

Record established that it was proper to deny permits to allow construction of new bulk materials handling port, particularly in view of availability of suitable land and water area at at least one existing port. In Matter of Bridgeton Bulk Materials Handling Facility. 93 N.J.A.R.2d (EPE) 203.

7:7E-8.14 Traffic

(a) Traffic is the movement of vehicles, pedestrians or ships along a route.

(b) Coastal development shall be designed, located and operated in a manner to cause the least possible disturbance to traffic systems.

1. Alternative means of transportation, that is, public and private mass transportation facilities and services, shall be considered and, wherever feasible, incorporated into the design and management of a proposed development, to reduce the number of individual vehicle trips generated as a result of the facility. Examples of alternative means of

transportation include: van pooling, staggered working hours and installation of ancillary public transportation facilities such as bus shelters.

(c) When the level of service of traffic systems is disturbed by approved development, the necessary design modifications or funding contribution toward an area wide traffic improvement shall be prepared and implemented in conjunction with the coastal development, the satisfaction of the New Jersey Department of Transportation and any regional agencies.

(d) Any development that causes a location on a roadway to operate in excess of capacity Level D is discouraged. A developer shall undertake mitigation or other corrective measures as may be necessary so that the traffic levels at any affected intersection remain at capacity Level D or better. A developer may, by incorporating design modification or by contributing to the cost of traffic improvements, be able to address traffic problems resulting from the development, in which case development would be conditionally acceptable. Determinations of traffic levels which will be generated will be made by the New Jersey Department of Transportation.

(e) Coastal development located in municipalities which border the Atlantic Ocean, except as excluded under (e)1, 2 or 3 below, shall provide sufficient on-site and/or off-site parking for its own use at a ratio of two spaces per residential unit. In general, on street parking spaces along public roads cannot be credited as part of off-site parking provided for a project. All off-site parking facilities must be located either in areas within reasonable walking distance to the development or areas identified by any local or regional transportation plans as suitable locations. All off-site parking facilities must also comply with N.J.A.C. 7:7E-7.5(d), the parking facility rule, where applicable.

1. The non-oceanfront portions of the following municipalities which border the Atlantic Ocean are excluded from the parking requirement at (e) above:

i. Neptune Township, Monmouth County: Those portions of this municipality which are west of State Highway 71;

ii. Brick, Dover and Berkeley Townships, Ocean County: Those portions of these municipalities which are not located between Barnegat Bay and the Atlantic Ocean;

iii. Upper Township, Cape May County: Those portions of this municipality which are not located between Whale Creek and the Atlantic Ocean and/or Strathmere Bay and the Atlantic Ocean; and

iv. Lower Township, Cape May County: Those portions of this municipality which are not between Lower Thorofare and the Atlantic Ocean and/or Jarvis Sound and the Atlantic Ocean;

2. The Department shall reduce the parking requirement for developments restricted to senior citizen housing that is, restricted to persons at least 62 years of age or those persons meeting the definition of "senior citizen tenant" pursuant to the Senior Citizens and Disabled Protected Tenancy Act, N.J.S.A. 2A:18-61, upon documentation that the parking needs of the development are less than two spaces per unit; or

3. Nursing homes and assisted living facilities are excluded from the parking requirement at (e) above.

(f) Rationale: See the OAL Note at the beginning of this subchapter.

Amended by R.1990 d.413, effective August 20, 1990.
See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Old 8.14 Solid Waste was repealed and section 8.16 was recodified here. Amendments to old 8.14 listed below.

Amended by R.1985 d.715, effective February 3, 1986.

See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

(c) added.

Amended by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

Amended by R.2000 d.428, effective October 16, 2000.

See: 32 N.J.R. 864(a), 32 N.J.R. 3784(b).

Rewrote (b).

7:7E-8.15 (Reserved)

Amended by R.1985 d.715, effective February 3, 1986.

See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

Original 8.18 was "Neighborhoods and special communities", which was repealed.

Amended by R.1990 d.413, effective August 20, 1990.

See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Old section 8:15 on energy conservation repealed; text on fertile soils recodified from 8.18.

Repealed by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

Section was "Fertile Soils".

7:7E-8.16 (Reserved)

Amended by R.1985 d.715, effective February 3, 1986.

See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

(b): "policy" deleted; "shall" substituted for "must".

Amended by R.1990 d.413, effective August 20, 1990.

See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Section recodified from 8.20. Old section 8.16 Traffic recodified to 8.14.

Repealed by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

Section was "Noise Abatement".

7:7E-8.17 (Reserved)

Amended by R.1985 d.715, effective February 3, 1986.

See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

Substantially amended.

Repealed by R.1990 d.413, effective August 20, 1990.

See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Text on wet soils and high permeability moist soils deleted.

7:7E-8.18 (Reserved)

Repealed by R.1990 d.413, effective August 20, 1990.

See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Old section Fertile soils recodified to 8.15.

7:7E-8.19 (Reserved)

Amended by R.1985 d.715, effective February 3, 1986.

See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

Old (b)2.-5. deleted and (c)-(e) added; old (c) now (f).

Repealed by R.1990 d.413, effective August 20, 1990.

See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Old section was Flood prone areas.

7:7E-8.20 (Reserved)

Repealed by R.1990 d.413, effective August 20, 1990.

See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Text on noise abatement recodified to 8.16.

7:7E-8.21 Subsurface sewage disposal systems

(a) Subsurface sewage disposal system means a system for disposal of sanitary sewage into the ground which is designed and constructed to treat sanitary sewage in a manner that will retain most of the settleable solids in a septic tank and to discharge the liquid effluent to a disposal field.

(b) Acceptability conditions for subsurface sewage disposal systems are as follows:

1. Construction of the subsurface sewage disposal system is acceptable provided it meets all the provisions of the standards for Individual Subsurface Sewage Disposal Systems (N.J.A.C. 7:9A) and receives approval from the appropriate administrative authority;

2. For areas subject to tidal flooding, the bottom elevation of the disposal bed must be at or above the 10 year flood elevation as determined by the Federal Emergency Management Agency Flood Insurance Study Reports;

3. Construction of subsurface sewage disposal systems must comply with the requirements of the flood hazard areas rule at N.J.A.C. 7:7E-3.25.

(c) Rationale: The subsurface sewage disposal system regulations provide standards for the proper location, design, construction, installation, alteration, operation and maintenance of individual subsurface disposal systems. These regulations serve to protect public health and safety and environment, potable water supplies, and safeguard fish and aquatic life while preserving their ecological values. In areas subject to tidal flooding subsurface sewage disposal systems constructed below the 10-year flood elevation are susceptible to failure during flooding events. Furthermore, construction of subsurface sewage disposal systems within coastal high hazard areas (V-zones) is prohibited in accordance with the National Flood Insurance Program Regulations.

New Rule, R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

1. A site plan of the Green Acres project site identifying:

- i. All tidal waterways and their shores located on or adjacent to the Green Acres project site;
- ii. All existing and proposed public accessways to tidal waterways and their shores including streets, paths, trails, easements, paper streets, dune walkovers/walkways, piers and other dedicated public rights-of-way located on the Green Acres project site;
- iii. All existing and proposed restrooms and parking for the public to access tidal waterways and their shores on the Green Acres project site;

2. Copies of all existing and proposed conservation restrictions required pursuant to N.J.A.C. 7:7E-8.11(q)10;

3. For an applicant that is a county, a draft ordinance required pursuant to N.J.A.C. 7:7E-8.11(q)1; and

4. A compliance statement demonstrating how the county or nonprofit organization and the proposed project comply with N.J.A.C. 7:7E-8.11(q).

7:7E-8A.4 Conservation restriction form and recording requirements

(a) A conservation restriction required at N.J.A.C. 7:7E-8.11(n), (p) or (q) shall be recorded in the chain of title for all properties affected by the restriction.

(b) A conservation restriction shall:

1. Be in the appropriate form and terms as specified and approved by the Department and in accordance with the New Jersey Conservation Restriction and Historic Preservation Restriction Act, N.J.S.A. 13:8B-1 et seq.;

2. Be recorded in accordance with the New Jersey Recording Act, N.J.S.A. 46:15-1.1 et seq.; and

3. Run with the property and be binding upon the property owner and the successors in interest in the property or in any part thereof.

(c) A conservation restriction required pursuant to N.J.A.C. 7:7E-8.11(n), (p) and (q) shall be recorded within the time frames specified therein and prior to any Department permit becoming effective.

(d) Proof that a conservation restriction required in (c) above has been recorded in the office of the clerk of the county or the registrar of deeds and mortgages of the county in which the development, project, or project site is located shall be submitted to the Department prior to the commencement of site preparation or construction, or permit effectiveness except as provided at (d)1 and 2 below:

1. For developments receiving Green Acres funding that do not require a coastal permit, proof that the conservation restriction has been recorded shall be submitted within 90 days of the disbursement of Green Acres funding; and

2. For acquisitions receiving Green Acres funding, proof that the conservation restriction has been recorded shall be submitted within 90 days of the disbursement of Green Acres funding.

(e) Authorizations and approvals issued by the Department shall not be valid authority to begin site preparation or construction until the Department approved conservation restriction is recorded, except as provided at (d)1 above.

7:7E-8A.5 Public Access Instrument requirements

(a) A Public Access Instrument required pursuant to N.J.A.C. 7:7E-8.11(p)1i and (q)5i is a conservation restriction recorded by a municipality that transfers to the Department the municipality's right to vacate, dispose of, or divert the lands listed and identified in (b) below to a use that precludes public access to tidal waterways and their shores at those lands.

(b) The Public Access Instrument shall list and identify by name all streets, roads, paper streets, easements, or other dedicated public rights-of-way held by the municipality that lead to tidal waterways and their shores. These shall be listed by block, lot and property owner on which the street, road, paper street, easement, or other dedicated public right-of-way is located and the lot, block and property owner of the lots that abut the street, road, paper street, easement, or other dedicated public right-of-way.

1. The portion of the street, road, paper street, easement, or other dedicated public right-of-way subject to the Public Access Instrument is:

i. Where a beach or dune is present:

(1) The portion of a street, road, paper street, easement, or other dedicated public right-of-way located on the beach or dune; and

(2) The portion of a street, road, paper street, easement, or other dedicated public right-of-way extending landward of the beach or dune to the first cross street or for a distance of one-quarter mile whichever is less; or

ii. Where no beach or dune is present:

(1) The portion of a street, road, paper street, easement, or other dedicated public right-of-way extending landward of the mean high water line to the first cross street or for a distance of one-quarter mile whichever is less.

2. To be eligible for Green Acres funding, all lands held by a municipality for recreation and conservation purposes also must be listed on the Recreation and Open Space Inventory required by Green Acres as a condition of funding pursuant to N.J.A.C. 7:36.

(c) The Public Access Instrument is a conservation restriction and shall comply with N.J.A.C. 7:7E-8A.4.

APPENDIX 3

BOUNDARIES OF NON-MAINLAND COASTAL CENTERS IN THE CAFRA AREA

For purposes of N.J.A.C. 7:7E-5 and 5B, this appendix sets forth the boundaries of the non-mainland coastal centers in the CAFRA area.

In accordance with N.J.A.C. 7:7E-5.3(c), the impervious cover allowed on a site within a Department-delineated coastal center must be placed on the net land area of the site, as determined under N.J.A.C. 7:7E-5.3(d). The placement of impervious cover on a site in a coastal center may be further restricted by other provisions of this chapter, including the Special Area rules at N.J.A.C. 7:7E-3.

The appendix is organized as follows: Counties are listed alphabetically. Within each county, the municipalities are listed alphabetically. Within each municipality, the non-mainland coastal centers are listed alphabetically.

I. Atlantic County coastal centers on barrier islands, spits, and peninsulas

A. Brigantine coastal town

1. The coastal town boundary follows the municipal boundary of the City of Brigantine, but does not include any bay islands or the Absecon Wildlife Management Area.

II. Cape May County coastal centers on barrier islands, spits and peninsulas

A. Lower Township coastal centers

1. Diamond Beach coastal town

a. The coastal town boundary extends from the intersection of the Wildwood Crest/Lower Township municipal boundary and Park Boulevard thence southwest on Park Boulevard to North Station Avenue, thence southeast on North Station Avenue to Ocean Drive (County route 621), thence southwest on Ocean Drive (County route 621) to Madison Avenue, thence southeast on Madison Avenue to its end, thence southeast on the same bearing to the water's edge, thence northeast along the water's edge to the municipal boundary, and thence northwest along the municipal boundary to Park Boulevard.

B. Ocean City coastal regional center

1. The coastal regional center boundary follows the municipal boundary of Ocean City, but does not include any bay islands or Corson's Inlet State Park.

C. Sea Isle City coastal town
