He is also the first non-commissioner to be elected to the Association of Racing Commissioners International Board of Directors. In addition to this honor, Mr. Zanzuccki was subsequently elected as an officer of this international organization and served as its chairman from April 2004 through April 2005.

## MISSION STATEMENT

The New Jersey Racing Commission ("NJRC") governs, directs and regulates horse racing and pari-mutuel wagering. The NJRC is a member of the Department of Law and Public Safety and is responsible for regulating the horse racing industry in the State through vigilant oversight of all racing and wagering related activities to ensure the integrity of the sport and the safety of its participants.

### Commission Structure

Horse racing in New Jersey is regulated by nine Commissioners who, by law, are appointed by the Governor, with the advice and consent of the Senate. They set policy and rule on all matters affecting racing such as issuing permits to conduct horse racing meets, approving expenditures and adjudicating licensing matters. They also consider the issuance of licenses for off-track wagering sites, are responsible for the oversight and regulation of account wagering which includes telephone and internet wagering in New Jersey. This year, the following individuals served as Commissioners: John J. Tucker, Chair, James G. Aaron, Anthony T. Abbatiello, Anthony R. Caputo, Peter J. Cofrancesco, III, Noel Love Gross, Francis X. Keegan, Jr., Edward R. McGlynn, Daniel A. Monaco, and Joseph C. Spicuzzo.

The NJRC employs staff to effect policy, including an Executive Director who is responsible for overseeing the day-to-day operations of the Commission in accordance with accepted business and financial practices. Francesco Zanzuccki serves as the Executive Director.

NJRC has a staff of 63 full-time employees who conduct the daily functions of regulating horse racing. It also maintains a pool of 11 part-time workers to supplement staff as needed. Activities are divided and budgeted into four functional areas:

Administrative/Financial		\$2,127,895
Racing Operations		\$6,616,770
Licensing	\$ 860,885	
Veterinarians	\$1,000,815	
Chemical Testing	\$3,749,625	
Officials	\$1,005,445	
Pari-Mutuels		\$ 416,108
Investigations		<u>\$ 486,716</u>
Total Operating Budget		\$9,647,489

### Administrative/Financial

Much of the general administrative functions are performed by the Department of Law & Public Safety's Consolidated Administrative and Support Services unit specifically organized to streamline the personnel, budget and logistics functions of several State agencies.

Commission personnel perform administrative functions specific to racing matters including rule and regulation composition, staffing and scheduling, communications with and oversight of industry-related organizations, adjudication support, and report writing. Commission staff maintains a horse racing financial system that records and calculates all receipts and payments of funds from pari-mutuel wagering. In addition, it monitors the finances of certain industry organizations as required or requested.

### **Racing Operations**

All matters related to the regulation of the actual "running of the races" are the responsibility of the employees in this functional area.

Each individual and entity associated with horse racing must be licensed by Commission personnel. All participants must also be fingerprinted. A state-of-the-art computer system networks the Trenton office with all satellite racetrack locations. The Commission has a very successful mail-out program and participates in the Association of Racing Commissioners International multi-jurisdictional licensing program for owners, and is a member of the National Racing Compact.

The Commission employs racing officials who are present at each racetrack to monitor the running of every race in New Jersey. They issue penalties for rule infractions and rule on matters affecting the integrity of racing, including licensing concerns.

Veterinarians are also present at every live race meet to ensure the safety of the animals and to verify that each horse is fit to race.

Race horse samples are tested for the presence of illegal drugs after each race, and on occasion, before a race and in out-of-competition settings. These randomly selected samples undergo a complete chemical analysis at a State Police Forensic Laboratory at the Meadowlands Racetrack.

### **Pari-Mutuels**

Every wager made on every live and simulcast race is recorded and checked for accuracy and compliance with Commission rules and regulations. Commission staff calculate financial information from these wagers for proper distribution of funds. Racing Commission staff oversee all aspects of pari-mutuel operations to ensure they are conducted with integrity.

### **Investigations**

The investigative staff is responsible for monitoring activities at all New Jersey racetracks, off-track wagering facilities, participating casinos, and off-track stabling facilities.

An in-house investigative unit provides the Commission with the ability to oversee the integrity of racing by conducting investigations into alleged rule violations, performing inspections to determine compliance with regulations, monitoring activity on racetracks and off-track stabling facilities, providing testimony at administrative hearings and much more.

## HIGHLIGHTS AND 2008 KEY ISSUES

The Commission continues to be very active in the oversight and expansion of the Racing Industry. In April 2008, New Jersey's third OTW facility opened in Toms River. Pursuant to law, the Commission must provide adequate notice and conduct a public hearing in the municipality where an OTW will be situated. The Commission must then render decision no sooner than 30 days or longer than 60 days following the close of the hearing record. Once a decision is rendered by the Commission, the Attorney General must rule on the decision within a specified period of time. Approval of the Commission and the Attorney General was obtained by Freehold Raceway leading to the opening of the Toms River facility.

The state of the art Quantum Data Center East, operated by Scientific Games Racing, Inc. now processes all wagers made at New Jersey Racetracks, Casino Race Books in Atlantic City, as well as the three operational OTW facilities located in Vineland, Woodbridge and Toms River. In addition, the Quantum Data Center East is a regional hub servicing pari-mutuel wagering from out-of state locations and is proving to be a cost effective way of doing business. The Racing Commission maintains a staff at this hub during all hours when wagers are placed and ensures that such activities are conducted properly.

Racing Commission staff monitors all aspects of pari-mutuel wagering to ensure compliance with rules and regulations governing betting. On-site supervisors of mutuels check for accuracy of system configuration relative to wagering options, proper transmission of wagers and television signals, and accuracy of pay-outs.

Recording and reporting of all wagers occurs at the Quantum Data Center East and are reviewed by Commission staff. These reports are subsequently forwarded to the Commission audit section for further compilation to effectuate the distribution of funds from wagers pursuant to law.

The Commission promulgates rules and regulations to support and enforce its regulatory functions. During 2008 the following rules were either proposed or adopted:

N.J.A.C. 13:70-1.32 and 13:71-5.21 **DOUBLE HEADERS** - Approved for advertisement, this rule would permit double headers to count as two race dates and also defines a race card.

N.J.A.C. 13:70-6.53 **ELIGIBILITY** - Approved for advertisement, this amendment would change the deadline to register mares for state bred purposes to November 1 from September 1.

N.J.A.C. 13:70-9.18 **JOCKEY FEES** - Approved for advertisement the amendment would increase per mount fees for jockeys.

N.J.A.C. 13:70-12.1 and 13:71-14.1 **CLAIMING PRIVILEGES** - Approved for advertisement, this broadens privileges to allow owners to claim a horse without starting a horse at that race meet.

N.J.A.C. 13:70-12.38 **CLAIMING OPTION ENTRY** - Approved for advertisement, this rule would allow a horse to be entered to race with a declaration that it could not be claimed for at least 180 days

after returning from a layoff.

N.J.A.C. 13:70-14A.9 and 13:71-23.8 MEDICATION & TESTING PROCEDURES- Approved for adoption by the Commission but it did not become effective. Governor's counsel refused to authorize for adoption due to lack of scientific evidence supporting the use of Amicar as an effective medication. This amendment would have permitted the use of Amicar as an adjunct race day medication beyond December 31, 2007. As a result of this action, Amicar is no longer permitted for use on race day.

N.J.A.C. 13:70-14A.17 and N.J.A.C. 13:71-23.16 ANABOLIC STEROIDS - The proposed rules regarding the use of anabolic steroids in New Jersey racing were initially approved for advertisement by the Commission in the New Jersey Register at the February 6, 2008 meeting. The New Jersey Register is the official publication, authorized by state law, in which all proposed regulations must be advertised for a specified period of time, for the purpose of providing notice and obtaining written public comment. On March 13, 2008, the New Jersey Thoroughbred Horsemen's Association (NJTHA) filed litigation in the Mercer County Chancery Division seeking to enjoin the Commission from proposing these rules. Although the chancery court issued an order enjoining the proposal of these rules, the Appellate Division struck down the lower court's order on appeal. In doing so, the appellate court explained that the chancery court where the NJTHA filed this action did not have jurisdiction to review or interfere in the rule-making process and authorized the Commission to proceed with the promulgation of the rules. Consistent with the appellate court's decision, the Commission has moved forward with the rule-making process and is hopeful that a regulation will be in place by 2010.

The delay caused by the chancery court's decision to grant the NJTHA's request to enjoin promulgation of these rules has placed New Jersey racing in the disadvantageous position of being the only mid-Atlantic neighboring jurisdiction which has not adopted rules that regulate the use of steroids in 2009. Although the Commission's authority to promulgate these rules was ultimately upheld by the Appellate Division, the impact of the lower court's erroneous decision on New Jersey racing, although currently unknown, raises concerns that include the health of the horses which race, the safety of the participants and the competitiveness of racing in this State.

N.J.A.C. 13:70-19.15 SHODDING OF HORSES - Approved for advertisement, this rule would limit the toe grab size to no more than 2 millimeters as per the model rule.

N.J.A.C. 13:70-29 and 13:71-27 MUTUELS - Approved for advertisement, this would permit racetracks to place a \$10,000 maximum bet limit on place and show wagers.

N.J.A.C. 13:71.1 and 13:70.1 RULES OF PRACTICE AND PROCEDURES - Adopted by the Commission, these new rules establish administrative procedures for: casino simulcast special fund distribution; allocation of race dates, modification of penalties; waiver of rules; and representation by attorneys before the Commission.

N.J.A.C. 13:71-20.17 BREAKING - Approved for advertisement, this rule addresses hubless rail pylons when a driver can take a horse inside pylons to get proper gait.

N.J.A.C. 13:72 RE-ADOPTION OF CASINO SIMULCASTING RULES - Adopted by the Commission, this re-adopts all casino simulcast rules that had sunshine clauses.

The regulations authorizing out-of-competition testing for blood doping agents such as Erythropoietin (Epogen, EPO) and Darb EPO became effective on October 15, 2007. Prior to the adoption of these regulations, the Commission's authority to acquire fluid samples from racehorses for the purpose of testing them for numerous prohibited substances was limited to the day of the race. The Commission believed that this restriction severely limited its ability to detect the presence of such blood doping agents which are believed to be administered to a limited number of racehorses prior to the date such horses are scheduled to compete. The Commission also believed that these blood doping agents are administered well in advance of race day, to enhance their race day performance and avoid detection through conventional race day testing methodology. The Commission further believed that such administrations may be adverse to the welfare of the animal.

As a result of these beliefs, the Commission approved for advertisement in the New Jersey Register, N.J.A.C. 13:70-14A.13 and N.J.A.C. 13:71-23.15, known as the out-of-competition testing regulations. All written comment received was considered by the Commission and at its meeting on September 17, 2007, the regulations were approved for adoption.

Out-of-competition testing began with the acquisition of fluid samples from racehorses scheduled to compete in the 2007 Breeders Cup races hosted by Monmouth Park. None of the horses entered to compete in the Breeders Cup races tested positive for any prohibited substance, including blood doping agents. However, during 2008, six standardbred horses trained by Ernest Adam and owned by Stephen Slender tested positive for blood doping agents. Hearings were conducted by the Board of Judges assigned to Freehold Racetrack resulting in significant penalties being imposed against both the trainer and owner as authorized by the regulations. The parties involved filed appeals with the Office of Administrative Law where de novo hearings are pending.

The 2004 purse supplement agreement between the casino and the racing industries provided a total of 86 million dollars to the purse structure over a four year period which ended in 2007. A new three year agreement, which became effective in 2008, will provide an additional 30 million dollars per year for purses through 2010. It is believed this money will allow racetracks to offer a purse structure that is competitive with neighboring states where video lottery and slot machines generate significant revenue to their respective racing industries. However, a long term solution is considered necessary so that stability is restored to New Jersey's racing industry. The New Jersey horse industry is a significant ingredient to the State's economy by providing jobs for thousands of residents. The industry also contributes greatly to the quality of life by maintaining thousands of acres of "open space" provided by the many horse farms located in the Garden State. Farm owners, horse breeders, service providers and the thousands of other people who depend on racing for their livelihoods need to be assured that racing will continue as a viable business in future years. Failure to provide this assurance will continue to undermine New Jersey racing as more and more industry stakeholders relocate to states that have generated confidence in the future of racing by solving their industries' long term funding issues.

## NEW JERSEY EQUINE TESTING LABORATORY

NJRC's Equine Drug Testing Program is administered at the New Jersey State Police Forensic Science Laboratory located at the Meadowlands racetrack. A staff of 14 chemists use modern testing equipment and methods to detect the presence of illegal substances in horses. In 2008, 39,760 blood/urine samples were tested resulting in 56 violations of the Commission's medication rules.

Total Samples Tested	39,760
Positives by Type	
EPO (Out-of Competition Testing)	6
Flunixin	11
Iptratropium	1
Lasix	31
Lidocaine	1
Phenylbutazone	5
Ractopamine	<u>1</u>
Total Positives	56

The Commission also randomly tests jockeys and drivers for the presence of illegal drugs. It also tests for alcohol abuse by race participants and officials. In 2008, 6 positives were detected from 814 samples tested.

## NEW JERSEY HORSE RACING INJURY COMPENSATION RACING BOARD

The Commission encouraged the creation of this Board that provides low cost group workers' compensation insurance for the horse racing industry. The Board consists of representatives of the public and private sector including members of horse race organizations, insurance providers, state insurance departments, and the NJRC. The program covers employees of the Board, namely drivers, jockeys and exercise riders with 2008 premiums established at \$1,957,365.

## **THOROUGHBRED ORGANIZATIONS**

*Thoroughbred Horsemen's Association of New Jersey*, a not-for-profit corporation which advocates thoroughbred racing in the State. It provides general administrative services to its members including a group health benefits program.

*Thoroughbred Breeders Association of New Jersey* is an organization devoted to promoting and enhancing the breeding of New Jersey thoroughbreds. The Racing Commission administers the Breeders Award Program that provides monetary incentives to owners and breeders by offering purse enhancements for races for New Jersey bred.

## **STANDARD BRED ORGANIZATIONS**

*Standardbred Breeders and Owners Association of New Jersey* is a not-for-profit organization dedicated to advancing the cause of standardbred racing in the State. It provides general administrative services to its members including a group health benefits program.

*New Jersey Sires Stakes*, an agency within the State Department of Agriculture, promotes the owning and breeding of New Jersey standardbreds. Nearly \$11 million in purse money is devoted to Sires Stake races restricted to horses sired by stallions resident in New Jersey. The program is funded by distributions from pari-mutuel handle at harness tracks and from nominating and sustaining payments by horse owners.
