Journal of the Senate.

STATE OF NEW JERSEY,
SENATE CHAMBER, TRENTON,
TUESDAY, January 13th, 1925.

At 12 o'clock M., this being the time and place appointed by the Constitution for the assembling of the Legislature, the Senate was called to order by the Hon. Firman M. Reeves, the Senator from Cumberland county, who read the following statement:

STATE OF NEW JERSEY,
DEPARTMENT OF STATE.

I Thomas F. Martin, Secretary of State of the State of New Jersey, do hereby certify that the following members of the Senate have been duly qualified:

Emerson L. Richards, for Atlantic County.
William B. Mackay, Jr., for Bergen County.
Albert S. Woodruff, for Camden County.
Firman M. Reeves, for Cumberland County.
James Henry Harrison, for Essex County.
Francis B. Davis, for Gloucester County.
Alexander Simpson, for Hudson County.
William H. Blackwell, for Mercer County.
William A. Stevens, for Monmouth County.
Arthur Whitney, for Morris County.
Thomas A. Mathis, for Ocean County.
J. Gilbert Borton, for Salem County.
Clarence E. Case, for Somerset County.
Arthur N. Pierson, for Union County.

And it further appears that at the General Election held on the fourth day of November, A. D. 1924, members of the Senate were duly elected as follows:

Emmor Roberts, of Burlington County.
William H. Bright, of Cape May County.
David H. Agans, of Hunterdon County.
Morgan F. Larson, of Middlesex County.
Henry A. Williams, of Passaic County.
Blase Cole, of Sussex County.
Robert B. Groat, of Warren County.

In testimony whereof, I have hereunto set my hand and affixed my official seal, at Trenton, this thirteenth day of January, A. D. 1925.

[SEAL] (Signed) THOMAS F. MARTIN,
Secretary of State.

Mr. Larson moved that the Hon. Alexander Simpson, of Hudson county, be appointed President *pro tempore.*

Which was agreed to.

Mr. Reeves appointed Senators Borton, Harrison and Cole to conduct the President *pro tempore.*

Mr. Larson moved that Robert M. Johnston, of Atlantic, be appointed temporary Secretary.

Which was agreed to.

Mr. Mackay moved that Mr. Williams, of Passaic, having been duly elected to the Senate in the last election, be seated and sworn in.

Which was agreed to.

The credentials of the Senators-elect were presented as follows:

Emmor Roberts, of Burlington County.
William H. Bright, of Cape May County.
David H. Agans, of Hunterdon County.
Morgan F. Larson, of Middlesex County.
Henry A. Williams, of Passaic County.
Blase Cole, of Sussex County.
Robert B. Groat, of Warren County.

And the oath of office was administered by the President *pro tempore.*

Under the direction of the President *pro tempore,* the Secretary called the Senate when the following Senators appeared and answered the call:

Messrs. Agans, Blackwell, Borton, Bright, Case, Cole, Davis, Groat, Harrison, Larson, Mackay, Mathis, Pierson, Reeves, Richards, Roberts, Simpson, Stevens, Whitney, Williams, Woodruff—21.

On motion of Mr. Larson, the Senate proceeded to the election of a President.

Mr. Larson nominated the Hon. William H. Bright, of Cape May county.

Mr. Cole nominated the Hon. David H. Agans, of Hunterdon county.

Under the direction of the President *pro tempore,* the Secretary called the Senate with the following result:

The Senators voting for the Hon. William H. Bright were:

Messrs. Agans, Blackwell, Borton, Case, Davis, Groat, Harrison, Larson, Mackay, Mathis, Pierson, Reeves, Richards, Roberts, Stevens, Whitney, Williams, Woodruff—18.

The Senators voting for the Hon. David H. Agans were:

Messrs. Bright, Cole, Simpson—3.

Mr. Bright having a majority of all the votes cast was declared by the President *pro tempore* duly elected President of the Senate for the ensuing year, and was conducted to the chair by Senators Case, Agans and Richards.

The oath of office was administered by the President *pro tempore.*

The President, on taking the chair, addressed the Senators as follows:

Surely, I do not misinterpret the spirit of the occasion when I assume that, when the people of this great State, after deliberation, returned the Republican party to power by amazing majorities, they place the responsibilities of the government—that is, the law-making branch—upon our shoulders. With what grace we meet these obligations and discharge these responsibilities, will depend the attitude of the people toward the Republican party during the coming year.

I am confident in the belief that every platform pledge that was a definite promise will be translated into law, and a thorough consideration will be given to every debatable question contained in that platform, such as the Youth Labor Amendment and other issues.

We legislators of the State of New Jersey are pledged to cooperate with and to follow the National government and the President along lines of economy. This is not a fad, but was the keynote of the successful campaign on which a President was overwhelmingly elected. Our platform pledged our earnest support to that end. There is no short cut to thrift. We must begin at once.

It is the duty of each Senator, who is now in possession of a copy of the budget, to study and criticize this very thoroughly. We must not throw the entire responsibility upon the members of the Appropriations Committee, whose main efforts are spent in

hearing those interested in the budget, and in visiting the various institutions. I feel that the members of this committee are entitled to and should receive the sympathetic co-operation of every member of the Senate in this great work.

Let us consider, briefly, a few items of this budget. Despite the fact that we are at peace with the whole world and our government is under an agreement basis to reduce armament, we find under the title "Military," requests for $1,066,339.88 have been made for the fiscal year July 1, 1925, to June 30, 1926. This is for a peace-time schedule. Surely, if we are to lighten the burden of taxation by practicing economy, drastic cuts must be made here.

The Public Record office should be abolished, because the work for which it was established in 1920 has been completed. At the time of its establishment, the salary was placed at $7,500 a year, and each year agitation is made to raise this to $10,000.

The Budget Commission, which in 1924 had an appropriation of $10,000 and spent $7,205, now asks $25,000, and this is recommended in the present budget. This position of Budget Commissioner is a lucrative one, and the work has not increased. It does not, and never did, take the whole of any person's time.

Then, finally, the State of New Jersey, with receipts of $16,675,635, is confronted with requests for over $8,000,000 for its institutions and agencies for the coming fiscal year and $6,500,000 has been recommended in the budget. This request, gentlemen, is one-half of the whole income of the State, and they ask us to set this amount aside for the care of the sub-normal, epileptics, feeble-minded, criminal and other wards of the State.

I speak for the normal of the State. What part is left for the care of the normal? What portion left for progress? And in addition to the amount recommended, the State has already engaged in an intensive building program for these institutions and agencies. When this building program is completed, which it may never be, in view of the present requests, it will be necessary for the State, not only to provide furnishings and equipment, but also a retinue of experts, specialists and attendants. These items, along with the upkeep will run into millions of dollars annually, in addition to what we are already giving.

The question now arises, have we not reached the peak? Are we not over-doing? How long can this continue before the whole income of the State will be engulfed by this one phase of governmental activity? We must exercise judgment. The day is at hand for action. The Appropriations Committee cannot alone solve this problem; the Legislature, sitting as a committee of the whole, cannot do it. I believe that the great business concerns of the State, who feel this tax burden most heavily, will gladly

furnish from their staffs a sufficient number of trained experts who will study and help us solve this problem.

There are many questions which will need our earnest and close attention, which I cannot even mention, but which will be taken up during the session. I am particularly anxious to make this a business-like session. At the same time, I want to mention my desire to have more daylight sessions. We are enjoying whatever honors that come from the Senatorship, and I think we should be willing to give our time during the session to the business at hand, in order to accomplish it as expeditiously and well as possible.

We, the members of the New Jersey Senate, have to-day taken a solemn oath to uphold both the Federal and State Constitutions. For the last four or five years there has been a growing laxity toward law on the part of many of our people and the courts have seemed to temporize in this vital matter. This substitution of private will for public law is only another name for anarchy and mob rule.

The name of our State has been dragged into the mire by violators and violations of all kinds, until the public conscience has been aroused. We have recently had an example of a man dedicated to the ministry, whose life has been consecrated to the service of righteousness, take a bold stand as a loyal American citizen and demand a stricter and better enforcement of the law, as it now exists.

Cannot we, as legislators as well as men, inspired by some of that faith which is our heritage from the framers of the Constitution, and by our own example, demand a stricter and better observance of all laws until we can again make our State and our country a safe home for all of the inhabitants.

Mr. Larson offered the following resolution, which was read and adopted:

Resolved, That the privilege of the floor be granted to Rev. James H. Clark.

The Reverend Clark made an appropriate address, at the conclusion of which the President, William H. Bright, was presented with an oaken gavel and block.

Prayer was then offered by the Rev. R. J. Beazley, of Jobstown, Chaplain of the Senate.

On motion of Mr. Larson, the Senate then proceeded to the election of a Secretary.

Mr. Larson nominated Mr. Robert M. Johnston, of Atlantic county.

Mr. Simpson seconded the nomination.

Mr. Johnston was elected Secretary by the following vote:

Messrs. Agans, Blackwell, Borton, Bright (President), Case, Cole, Davis, Groat, Harrison, Larson, Mackay, Mathis, Pierson, Reeves, Richards, Roberts, Simpson, Stevens, Whitney, Williams, Woodruff—21.

Mr. Johnston, being declared elected Secretary of the Senate, took the oath as prescribed by law.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Agans, Blackwell, Borton, Bright (President), Case, Cole, Davis, Groat, Harrison, Larson, Mackay, Mathis, Pierson, Reeves, Richards, Roberts, Simpson, Stevens, Whitney, Williams, Woodruff—21.

Mr. Larson offered the following resolution, which was read and adopted:

Resolved, That a committee of three be appointed to wait upon His Excellency, the Governor, and inform him that the Senate has organized and elected Hon. William H. Bright, of the county of Cape May, President, and Robert M. Johnston, of the county of Atlantic, Secretary, and is now ready to proceed to business and also to receive any communication that he may make.

The President appointed Senators Mackay, Case and Simpson.

Mr. Larson offered the following resolution, which was read and adopted:

Resolved, That the Secretary of the Senate be directed to inform the House of Assembly that the Senate has organized and elected the Hon. William H. Bright, of the county of Cape May, President, and Robert M. Johnston, of the county of Atlantic, Secretary, and proceeded to business.

The following committee was appointed by the President: Senators Davis, Stevens and Agans.

Mr. Larson offered the following resolution, which was read and adopted:

WHEREAS, Chapter 158, Pamphlet Laws of 1914, requires that a requisition officer be appointed, and the acts regulating receipts and disbursements require the designation of approving officers for the payment of the necessary expenses of all divisions of the government; be it

Resolved (the House of Assembly concurring), That the Secretary of the Senate and the Clerk of the House of Assembly be designated as requisition officers for the Legislature, their compensation to be three hundred dollars each; and be it further

Resolved, That all statements of expenses of the Legislature be referred to the Committee on Incidental Expenses of the Senate and House of Assembly, respectively, and when approved by said committee said approval shall be indicated by the signature of the chairman of the Senate Committee on Incidental Expenses for expenses of the Senate, and by the chairman of the House Committee on Incidental Expenses for expenses of the House of Assembly, together with the signature of the Secretary of the Senate or the Clerk of the House of Assembly, respectively, and said bills, when approved, shall be forwarded to the Comptroller of the Treasury for payment.

Mr. Larson offered the following resolution, which was read and adopted:

Resolved, That, unless otherwise ordered, the daily sessions of the Senate shall begin at eleven o'clock in the forenoon and at half-past two o'clock in the afternooon.

Mr. Larson offered the following resolution, which was read and adopted:

Resolved by the Senate (the House of Assembly concurring), That no bills or joint resolutions (excepting the usual appropriation bills and bills submitted by special investigating committees), be offered in either House of the Legislature after the legislative week commencing February 9th, 1925, unless by the unanimous consent of the members of the body wherein such bills or joint resolutions are proposed for introduction.

Mr. Larson offered the following resolution, which was read and adopted:

Resolved, That the number of copies of the Legislative Manual apportioned by law to the State Senate be distributed on the same basis as the session of 1924.

Mr. Larson offered the following resolution, which was read and adopted:

Resolved, That seven clerks be appointed by the President of the Senate, without compensation.

Mr. Larson offered the following resolution, which was read and adopted:

Resolved, That 1,000 copies of each bill, joint resolution and concurrent resolution and daily memorandums be printed for the use of the Senate.

Mr. Larson offered the following resolution, which was read and adopted:

Resolved, That the Committee on Stationery and Incidental Expenses be authorized to procure bill files and the necessary stationery and supplies for the use of the members and officers of the Senate.

The following communication was read:

STATE OF NEW JERSEY,
STATE PURCHASING AGENT, TRENTON.

Hon. William H. Bright, President, State Senate, State House, Trenton, N. J.:

DEAR SIR—Kindly be advised that the contract for Legislative printing for the session of 1925 has been awarded to the firm of MacCrellish & Quigley Co., of Trenton, N. J.

Yours very truly,
(Signed), EDWARD E. GROSSCUP,
January 10, 1925. *State Purchasing Agent.*

Mr. Larson offered the following resolution, which was read and adopted:

Resolved, That the President of the Senate is hereby directed to instruct the State Printer to mail to each member of the Senate at his residence and business address, at least one copy of each bill and resolution, both Senate and House, as soon as the same is printed.

Mr. Larson offered the following resolution, which was read and adopted:

Resolved, That the Sergeant-at-Arms be instructed to report daily to the Secretary the absence, without leave, of any of the officers and attaches of the Senate; the complete report of such absentees and the time lost to be furnished to the Committee on Appropriations at the closing of the session, and that a pro rata reduction be made by such committee, and a copy of their report be furnished to the Comptroller.

A message was received from the Governor, by the hands of Frederic M. P. Pearse, his Secretary, indosed "Annual Message" and one indorsed "Nominations."

Mr. Larson moved that same be referred to the Judiciary Committee.

Which was agreed to.

Mr. Larson offered the following resolution, which was read and adopted:

Resolved, That 800 copies of the Weekly Senate Journal be printed, and the State Printer be directed to mail copies to each member of the Senate and House and to the clerical officers of each body.

Mr. Larson offered the following resolution, which was read and adopted:

Resolved, That the rules of the Senate for the session of 1924 be adopted as the rules of the Senate for the session of 1925, and copies be procured for the use of the members.

Mr. Larson offered the following resolution, which was read and adopted:

Be it resolved by the Senate of the State of New Jersey (the House of Assembly concurring), That the State Printer be directed to furnish to the State Library, as soon as printed, for the use of the Legislative Department of said State Library, and for exchange by said State Library with the State Libraries and Legislative Reference Libraries of other States, thirty copies each of all bills and joint and concurrent resolutions introduced in the Senate and House of Assembly, as well as printed committee substitutes; also, twenty copies of each weekly installment of the Journal of the Senate and Minutes of the House of Assembly, and thirty copies each of the gummed slips containing synopses of Senate and Assembly bills introduced; also, one copy of each official copy reprint of all bills and joint and concurrent resolutions.

Mr. Larson offered the following resolution, which was read and adopted:

Be it resolved by the Senate of the State of New Jersey, That the President of the Senate shall refer all bills concerning pensions or increases of salaries to the Judiciary Committee; and further be it

Resolved, That said committee in reporting favorably upon bills carrying increases of salaries shall include in such report information concerning the following:

First. Whether the position requires the person's full time to the exclusion of other remunerative employment;

Second. Whether, at the present salary, it is difficult to secure applicants for the position.

Mr. Larson offered the following resolution, which was read and adopted:

Be it resolved by the Senate of the State of New Jersey (the House of Assembly of the State of New Jersey concurring):

1. That the Legislative Index be purchased for the use of the officers and members of the Senate and House of Assembly from year to year, at each session thereof as soon as possible after adjournment is taken for the week and before the session convenes the following week; one copy of each issue to be mailed to the local address of each officer and member of the Senate and House of Assembly immediately upon publication, the names and addresses of whom shall be furnished by the Speaker of the House of Assembly and the President of the Senate, and one copy of each issue to be delivered at the State House for each officer and member of the Senate and House of Assembly, at the rate of five ($5.00) for each subscription, and that statements of expenses for the Legislative Index be referred to the Committee on Incidental Expenses of the Senate and House of Assembly, respectively, and when approved by said Committee said approval shall be indicated by the signature of the Chairman of the Senate Committee on Incidental Expenses for an expense of the Senate and by the Chairman of the House Committee on Incidental Expenses for an expense of the House of Assembly, together with the signature of the Secretary of the Senate and the Clerk of the House of Assembly, respectively, and said bills, when approved, shall be forwarded to the Comptroller of the Treasury for payment.

2. This resolution shall take effect immediately.

The following message was received from the House of Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
January 19th, 1925.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has passed the following Concurrent Resolution:

Be it resolved by the House of Assembly of the State of New Jersey (the Senate of New Jersey concurring):

1. That in addition to the copies of the Legislative Index provided for members of the Senate and House, under concurrent resolution adopted January 13, 1925, twenty-five copies be purchased for the regular accredited newspaper correspondents at the same price as those provided for the members of the Legislature.

In which the concurrence of the Senate is requested.

FREDERICK A. BRODESSER,

The following message, which was received from the Governor, at the hands of his Secretary, Mr. Frederic M. P. Pearse, was read and referred to the Judiciary Committee:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 19th, 1925.

To the Legislature:

I am in receipt of a communication from the Prosecutor of Union County, enclosing a true copy of the Presentment returned by the Grand Jury at the October term, 1924, on the subject of

Vice and Immorality, especially referring to the opening of Moving Picture houses on Sunday.

In accordance with their request, I am forwarding a copy, attached hereto, of the communication to you for your consideration. Respectfully submitted,

(Signed) GEORGE S. SILZER,
Governor.

(SEAL)

Attest:

(Signed) FREDERIC M. P. PEARSE,
Secretary to the Governor.

UNION OYER AND TERMINER.

October Term, A. D. nineteen hundred and twenty-four.
Union County, to-wit:

The Grand Inquest for the State of New Jersey, and for the body of the County of Union, upon their oath

Present, That this Grand Jury has had called to its attention the fact that moving picture houses, as well as other places of business, are open for the transaction of business on Sunday. We have also had called to our attention the presentment filed by the Grand Jury of the May term, 1924, of Union county covering this subject-matter and which presentment recommended to the law-making body of this State a change in the law to meet present day conditions. We approve and endorse the presentment filed by the Grand Jury of the May term and again call the attention of the law-making body of this State to the conditions which obtain with reference to Sunday opening and request that a change be made in the law to meet present-day conditions in that regard.

We annex hereto a copy of the presentment filed by the Grand Jury of the May term, 1924, and direct the prosecutor to forward copies of his presentment to his Excellency Honorable George S. Silzer, Governor of the State, and to each branch of the State Legislaure.

We further recommend to the Legislature that any legislation passed on this subject include a referendum thereon to the voters of the several communities of this State.

(Signed) ALEXANDER KAUFMAN,
Foreman of Grand Jury.

ABE J. DAVID,
Prosecutor of the Pleas.

UNION OYER AND TERMINER.

May Term, A. D. nineteen hundred and twenty-four.
Union County, to-wit:

The Grand Inquest for the State of New Jersey, and for the body of the County of Union, upon their oath

Present, That following the charge of Justice Samuel Kalisch, the prosecutor brought to our attention, and this body fully discussed and considered, the conditions in this county with reference to the non-observance of the Sabbath law, known as the Vice and Immorality act.

We do not believe this condition is due to any desire on the part of our people to violate the law, but rather to a change in conditions and customs in many, and especially the larger, communities, which make the present law governing the mode of life on the Sabbath more or less obsolete.

These places of business, amusement and recreation could not be operated on Sunday unless there was a demand for and patronage of them that invited and warranted their operation, and we believe, therefore, that the present condition of the manner of Sunday observance is due to the wishes and demands of a large proportion of our people.

Under these conditions we do not deem it wise, or proper, to hand in indictments against thousands of our citizens, nor to discriminate against some in favor of others, but rather deem it our duty to present this matter to the court, to the public, and especially to the law-making body of this State.

We, therefore, direct the prosecutor of the Pleas of this county to call these conditions to the attention of the Legislature at its next session, and to forward a copy of this presentment to his Excellency Honorable George S. Silzer, Governor of the State, and to each branch of the Legislature when it convenes, with a view that the statute law of this State governing the observance of the Sabbath, may be amended to meet present-day conditions and customs, so that all of our people may obey the law in a reasonable mode of living rather than violate the law.

(Signed) GEORGE H. JOHNSON,
Foreman.

(Signed) ABE J. DAVID,
Prosecutor of the Pleas.

A veto message was received from the Governor by the hands of Mr. Pearse, his secretary, which was read as follows and the bill laid over under the rules.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Senate: February 16th, 1925.

SENATE, No. 29.

This bill has for its purpose the giving to savings banks the right to conduct the business of renting safe deposit boxes for the deposit and safe-keeping of securities, valuables, evidences of ownership, and other personal property.

Our savings institutions make a very strong appeal to a class of our citizens who could probably not be reached in any other way to make deposits of their savings. One reason for this is that they are known to be institutions for savings, and nothing else.

Whenever these institutions embark on other enterprises, they will lose their character as savings banks, and with it lose their appeal to that great class who now have confidence in them as institutions of savings.

For this reason I am led to believe that it would be bad policy on the part of the State to encourage these institutions to change their character.

They are distinctly savings institutions, and are mutual organizations not designed for profit on the part of anyone. There seems to be a growing tendency on the part of these institutions to break away from their traditions because of the competition which is offered by other banking institutions. There may be real peril in the effort to meet this competition, especially in its effect on the confidence of those who are now its depositors.

The tendency to change is evidenced by Chapter 6 of the Laws of 1924, wherein savings banks are authorized to loan money on collateral security.

This bill would permit them to go into the safe deposit business, and Senate Bill No. 144, now pending before the Legislature, would permit savings banks to open branches. All of this

seems to me to be evidence of a tendency that should be discouraged, in the interest of the savings banks themselves.

There are other objections to Senate Bill No. 29. At the present time the surplus is pledged as a security to those who deposit their money in savings banks. This money is set aside to protect them when they need protection. If a savings bank goes into the safe deposit business it assumes additional obligations. If it does not exercise that care which it should, and the safe deposit boxes are robbed, the bank assumes the responsibility of reimbursing those who have lost their money thereby, and such reimbursement can come only from the surplus fund now set aside for the protection of the depositors.

In such a case, if a depositor left fifty thousand dollars worth of securities in a safe deposit box, and it was lost through negligence of the bank, that fifty thousand dollars would have to be paid, and would decrease the protection of the depositors to that extent. That surplus is at this very moment pledged to every person who has a deposit in the bank, and we have no right to take it away from them to insure those who may hereafter deposit and secure safe deposit boxes.

No bank can tell, at any time, how much responsibility it is assuming in safe deposits, because it does not know what amount is being kept in them.

Practically every financial institution in the State has invested in safe deposit facilities, upon the belief that there would be free and fair competition.

If the privilege is granted to savings banks there can be no such competition.

Savings banks do not operate for profit; they put their earnings into surplus, and when that surplus is adequate they are not called upon to earn more. In that case, they can well afford to underbid all competitors, especially competitors who pay National, State, county and local taxes.

Since there is not equality of opportunity and fair competition, this privilege should not be granted.

I have interviewed officers of savings banks, and found many of them who agree with the views stated herein.

For the reasons stated, I am compelled to return this bill without my approval.

Respectfully submitted,

[SEAL] (Signed) GEORGE S. SILZER,
Governor.

The veto message on Senate Joint Resolution No. 2 was taken up and read as follows and the Bill laid over under the rules.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
February 23d, 1925.

SENATE JOINT RESOLUTION NO. 2.

To the Senate:

There has been much talk in New Jersey lately about economy in public expenditures. If we really mean to economize, we must do more than talk about it; we must act economically. We cannot preach economy and then waste $20,000 on a useless commission.

Senate Joint Resolution No. 2 has for its purpose the creating of a commission of six persons, two to be appointed by the President of the Senate, two by the Speaker of the House, and two by the Governor.

This commission is to revise and codify the election laws, is given power to employ legal and clerical assistance, and to hold hearings. It is given an appropriation of $20,000.

I believe this commission to be unnecessary, and the expenditure of $20,000 a waste.

The law now upon the statute books is a revision made not longer than four years ago, and known as Chapter 349 of the Laws of 1920. This revision was made at the instigation of the State Chamber of Commerce, who drew to them all parties interested in the election laws, with the result that we have the Law of 1920. Why this disinterested effort on the part of the State Chamber of Commerce should now be overthrown and destroyed I cannot understand. Many of those who have voted

for Senate Joint Resolution No. 2 also voted to put upon the statute books the Revision of 1920.

This revision by the State Chamber of Commerce did not cost the taxpayers of New Jersey a cent.

In 1898, the Election Law was thoroughly revised during the term of Governor Voorhees. This Revision cost this State practically nothing. During the term of Governor Murphy, in 1903, the Direct Primary Law was passed at a cost to the State of $600.00. During the term of Governor Wilson, in 1911, the Geran Election Law was passed. This change was made without expense to the State, the act being prepared by citizens interested in good government. Then, during the term of Governor Edge, the act to prevent corrupt practices in our elections was prepared and passed without cost to the State.

For some unexplained reason, the Election Law is being constantly changed and interfered with.

If any changes are necessary, it will be quite simple to go back to the fundamental principles outlined in the Geran Act, and then leave the law alone. This any good lawyer could do in a short time.

If circumstances arise which show us that there should be an amendment to the law, it can easily be made, and no one ought to be more familiar with the election laws than those who sit in the legislative halls and participate actively in election affairs.

These constant changes are confusing not only to the election boards, but also to the voters. There is no public demand for any radical change. The present system, with a few minor changes, will work very well. The voters are not deprived of a reasonable opportunity to vote, and there is ample machinery to conduct honest elections and to punish those who may be guilty of fraud and corrupt practices.

Since this resolution is useless and wasteful of the taxpayers' money, it is, therefore, disapproved.

Respectfully Submitted,

GEORGE S. SILZER,
Governor.

FREDERIC M. P. PEARSE,
Secretary to the Governor.

The veto message on Senate Bill No. 163 was taken up and read as follows and the bill laid over under the rules.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT
February 23d, 1925.

SENATE NO. 163.

To the Senate:

Senate Bills Nos. 163 and 164 are companion bills. Senate No. 164 repeals numerous sections of the Election Law in order that Senate No. 163 may provide for Spring primaries.

I can see no reason whatever for the enactment of these bills into law. I have not had a single request from an independent source for their approval, and have seen little or no editorial comment favoring them.

Legislation should be in the interest of the people of New Jersey and not in the interest of particular individuals. I do not see, and have not been able to learn, of any good that this will accomplish for the people at large.

The only effect that I can see from the enactment of this bill is to disgust the people of the State generally with elections. After every Presidential campaign, running, as it does, from June until November, the people give a sigh of relief when they know that election is over and politics is to be forgotten, and that business is no longer to be interfered with.

Under these bills the State will be kept in a constant state of turmoil and unrest from political agitation. To illustrate:

In the city af Newark petitions for mayor and members of the city government must be filed on April 4th. About the first of March the agitation will start. On April 14th will be Primary Day in Newark. On May 12th will be Election Day. The people of Newark will just about settle down to peace of mind when, on June 2d, will come the first registration day for State elections; on June 16th will come the Primary Day, and then the agitation will continue until Election Day, on November 3d.

I do not believe it to be the desire of the people of New Jersey to keep up this political agitation during all of this time. I can readily understand that with a law of this kind upon the books, and an active campaign taking place, running from June until November, the people of the State may well be in a frame of mind of wishing that they might get rid of both candidates who have been agitating for five months, and might have the opportunity of voting for some man who has not been electioneering during that time.

From my own personal experience I am sure that after the first test the successful candidate and the unsuccessful one will both join in the heartfelt request that the law be repealed.

I do not believe it to be to the best interest of the State to have the primary election in June, when the actual election is not to take place until November. Many things may happen from June until November. Conditions may change; the desires of the people may change; the necessities of the State may change, and many other things may happen which would make it advisable, not only for the parties, but for the people, to select candidates which might not be those selected in June. It might, by reason of illness, absence, or for other reasons, bar certain men from the possibility of becoming candidates. It is much safer for the State to bring the time for the selection of candidates within a reasonable period of the election than to take it back several months.

Another serious objection to the bill lies in the provision permitting an independent candidate to file a petition. At the present time such a petition could be filed as late as September 19th of this year. Under Senate Bill No. 163 the independent petition must be filed on June 11th.

It is quite evident that one of the purposes of this legislation is to discourage independent voters and independent candidates, and to keep the choice of candidates within the control of the political parties. I do not believe that this is a healthy condition, and do not believe that it leads to the best government. Independent voters should have an opportunity to have a candidate if they want one, and independence of thought and action should be encouraged, if for no other reason, at least for the purpose of keeping the parties in check and in fear. Senate Bill No. 163 is the strongest kind of encouragement to machine politics and machine methods.

Since I am willing to inflict upon the people of New Jersey the inconvenience and annoyances provided for in these bills, and since I do not see that they accomplish anything of value to the people generally, and because they have the objectionable features above set forth, I must return this bill without my approval.

Respectfully submitted,

GEORGE S. SILZER,

Governor.

A veto message to Committee Substitute for Senate Bill No. 7 was received from the Governor at the hands of his secretary, Mr. Pearse, which was taken up and read as follows, and the bill laid over under the rules:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 2d, 1925.

COMMITTEE SUBSTITUTE FOR SENATE NO. 7.

To the Senate:

This bill attempts to give to municipalities lying adjacent to the Palisades Interstate Park the right to cross, occupy and use park lands for the purpose of constructing, operating and maintaining pipe lines and outlets for public sewage to empty into the Hudson river.

Under this bill the Palisades Interstate Park Commission is given no right to any such location, nor to impose terms. All the concessions to the Commission are that it is to be given notice of a hearing before the State Board of Health on the question of the location of said pipe lines.

The Palisades Interstate Park Commission is made up of representatives from the State of New Jersey and the State of New York. It is given the title in fee to the lands which it controls. I do not believe that in these circumstances, especially with another State involved, the Legislature has the right to enter upon these lands without the consent of the Commission. If the Legislature can give the right to lay a pipe line across these lands, it could, if it so decided, strip the Commission of the title to the entire park. It is obvious that after an agreement with the other State, and the appointment of joint commissioners from the two States, no such thing can be done.

Since this park is also maintained by bequests and contributions made to a maintenance fund, the Legislature has no power to impair the obligations created thereby.

Even in the absence of the objections just stated I can see no reason for trespassing upon this property without first securing the consent of the Commission which the State of New Jersey has set up to take care of it.

Furthermore, the location of the pipe line or sewer outlet is left to the State Department of Health. That department, being interested only in the sanitary side of the matter, would only consider that feature, and since there are many other things to be taken into consideration, certainly those in charge of the park

for the public welfare should be consulted and their consent required.

In addition to this, there is provision that the land crossed by the sewer "shall be replaced in a condition satisfactory to the Commissioners of the Palisades Interstate Park, and maintained in a condition satisfactory to the Commissioners."

I see no provision, however, for enforcing the rights of the Commissioners of the Interstate Park. If the sewers were replaced in an unsatisfactory condition, or maintained in the same way, there would be no way of enforcing the remedy.

It would seem to be quite as easy to bring all these instrumentalities, so interested in the welfare of the State, together, to accomplish what may be necessary, without attempting to deprive the Commissioners of the Interstate Park of all control over their own land when municipalities lying adjacent desire to use them for sewage purposes.

For the reasons stated, I disapprove this bill.

Respectfully submitted,
(Signed) GEORGE S. SILZER.
Governor.

A veto message to Senate Bill No. 68 was received from the Governor at the hands of his secretary, Mr. Pearse, which was taken up and read as follows, and the bill laid over under the rules:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 2d, 1925.

SENATE No. 68.

To the Senate:

I regret that I am forced to veto this measure, but I cannot see the withering hand of politics laid upon this worthy enterprise without recording my protest.

In my annual message I strongly advocated the development of the Port of Camden and of the Delaware river from Camden to Cape May, because I believe this section has a great future.

The Chamber of Commerce of Camden had a bill drawn to carry out that purpose. Realizing that the success of the movement depended upon the personnel of the commission, and its

freedom from politics, they provided that the commissioners be appointed by the Governor, subject to confirmation by the Senate.

When the bill was introduced in the Senate, however, all this was changed, and it provided for appointment of the commissioners by the Legislature. This was the result of a political caucus.

Thus this worthy cause was at the very start thrown into the field of partisan politics, with all its blighting influence.

It is most unfortunate that politics has fastened itself upon this great enterprise, even before it is born, and so threatens to destroy it at the very start. The history of this legislation compels this conclusion to be drawn.

The appropriation of $25,000 made in this bill, and all subsequent appropriations, must come from the taxpayers of the entire State, most of them remote from and not benefited by this port development. They are not going to be very enthusiastic about it, nor anxious to go down into their pockets to help it, when they realize that instead of being a great public enterprise it is a mere adjunct to a political party and machine. The people of North Jersey and other remote parts are going to resent the making of appropriations under such conditions, and rightly so.

Why start with such a handicap? Nothing could kill an enterprise more quickly.

I return this bill without my approval, but with the hope that it may be corrected so that the development of the Delaware river and of the Port of Camden may get off to a favorable start and be sure of success. Let us have a non-partisan commission, composed of the four best qualified men in South Jersey.

Respectfully submitted,

(Signed) GEORGE S. SILZER,
Governor.

The following message was received from the House of Assembly by the hands of its clerk.

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
March 9th, 1925.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has passed the following bill:

Assembly Bill No. 171, entitled "A supplement to an act entitled 'An act to establish a thorough and efficient system of free public schools, and to provide for the maintenance, support and management thereof,' approved October nineteenth, one thousand nine hundred and three,"

The Governor's objections thereto notwithstanding.

In which the concurrence of the Senate is requested.

FREDERICK A. BRODESSER,
Clerk of the House of Assembly.

A message was received from the Governor, by the hands of his secretary, as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 3d, 1925.

ASSEMBLY NO. 171.

To the House of Assembly:

This bill is a mandatory one, fastening upon the board of education of every school district a continued yearly expense.

I am opposed to further mandatory legislation, the effect of which is to add to the cost of education.

This bill compels the Board of Education in each school district to have printed and suitably bound copies of the Declaration of Independence, the Constitution of the United States and amendments, and the Constitution of the State of New Jersey and amendments, and to distribute them to each pupil upon his graduation from the grammar schools.

This year, it is estimated, forty-five thousand pupils will graduate from the grammar schools of the State.

If there is any demand or need to be met in the matter of the distribution of these documents, it seems to me it would be much more sensible to give the State Board of Education the power to prepare these books and pamphlets and distribute them, upon request. Then they could be given to those who desire to have them,

instead of giving them to everybody,—a large portion of whom would probably throw them in the waste basket.

I understand, however, that the State Board of Education now has power to do this, but up to this time has not been confronted with any great demand for the distribution of these documents.

This same bill came before me last year, and was vetoed by me, and the veto sustained by the Legislature. I therefore disapprove this bill.

Respectfully submitted,
GEORGE S. SILZER,
Governor.

Attest:
FREDERIC M. P. PEARSE,
Secretary to the Governor.

Mr. Mathis moved that Assembly Bill No. 171 be passed, the Governor's objections thereto notwithstanding, which was decided as follows:

In the affirmative were—

Messrs. Blackwell, Borton, Bright (President), Davis, Groat, Harrison, Mathis, Pierson, Reeves, Richards, Roberts, Stevens, Whitney, Williams—14.

In the negative were—

Messrs. Agans, Cole—2.

The Secretary was directed by the President to carry said bill to the House of Assembly and inform that body that the Senate has passed the same, without amendment.

The following message was received from the House of Assembly, by the hands of its Clerk:

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
March 9th, 1925.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has passed the following bill:

Assembly Bill No. 126, entitled "An act to amend 'An act to amend an act entitled "An act concerning counties," approved March fourth, one thousand nine hundred and eighteen,' which amendment was approved March eleventh, one thousand nine hundred twenty-four,"

The Governor's objections thereto notwithstanding.

In which the concurrence of the Senate is requested.

FREDERICK A. BRODESSER,
Clerk of the House of Assembly.

A message was received from the Governor, by the hands of his secretary, as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 2d, 1925.

To the House of Assembly:

It is now the law of the State that public officers expending sums in excess of one thousand dollars are required to publicly advertise for bids therefor, and to award the contract to the lowest responsible bidder.

The purpose of this bill is to make an exception of county clerks so as to permit them to have the ballots and other election printing done without advertising for bids or awarding the contract to the lowest responsible bidder.

I do not believe that this is in the public interest. County clerks know approximately what will be required, and can readily secure bids on that basis in ample time to carry out the provisions of the Election Law. If any further legislation were needed to make it more convenient it would be much better to make such amendment to the law than to make an exception in the doing of this public work.

This bill, as passed, will permit county clerks to give all election printing to favored printers, at such prices as might be agreed upon. It could be used for personal and political advantage, and be made exceedingly expensive to the taxpayers. The policy that there should be public bidding and advertising for all work in excess of one thousand dollars is too well settled to change at this time. If we do it in this case, others will ask the same privilege, and in a short time we will be back to the old vicious system, when favoritism and corruption were the order of the day.

I therefore disapprove the bill.

Respectfully submitted,

GEORGE S. SILZER,
Governor.

Attest:

FREDERIC M. P. PEARSE,
Secretary to the Governor.

On motion of Mr. Larson, the bond of the State Treasurer, William T. Read, for $100,000, was approved.

Communications marked "Vetoes" were received from the Governor, at the hands of his secretary, Mr. Pearse.

The veto message on Senate Bill No. 86 was taken up and read, as follows, and the bill laid over under the rules:

SENATE BILL NO. 86.

This bill seeks to amend the act providing for the taxation of the franchises of public utility corporations. Those corporations, under the present law and practice, pay a franchise tax on the basis of the gross receipts of the utility. This is not a property tax, but is a tax upon the right of the utility to do business. At the present time all such companies must pay a tax for the right to do business.

The statement attached to the bill as introduced says that its purpose is to avoid double taxation. I do not believe that this is what it does. On the contrary, I think it relieves such corporations of just taxation.

The amendment to the bill provides that "There shall be deducted from such proportion of gross receipts, however, before the computation of any such tax, the sum or sums received from any person, co-partnership, association or corporation being a public utility and paying a franchise tax based upon its gross receipts, for sales for use by it or for distribution over, in and on the lines, wires or mains of such person, co-partnership, association or corporation in the business thereof."

This would relieve one of two public utilities of the payment of a part of the franchise tax which it should pay upon its gross receipts.

Perhaps the best way would be to illustrate what would happen.

Company A operates in a section not touched by the Public Service Corporation. A does not manufacture its own current, it buys its current from the Public Service and sells it at a profit to the people of its district. A is taxed upon its gross receipts for its franchise. At the present time the Public Service must report, as part of its gross receipts, the sum received from A and must pay a tax on it.

Under this bill, the Public Service would be allowed to deduct from its gross receipts the amount received from A.

It will be observed that both companies make a profit upon the current furnished; the Public Service in furnishing it to A and A in furnishing it to the public.

This is not a property tax, but a tax for the right to do business, and since it is a franchase tax, both the Public Service Corporation, selling the current to A at a profit under its right to do business, and A, selling the current to the people under its right to do business, should pay a franchise tax.

I can see no reason for relieving either company of the payment of this tax. The present law is in no way whatever double taxation, since both companies, under their right to do business, make a profit on the current so sold. It seems to me that this is another effort to relieve utility companies and throw an additional burden upon the taxpayers.

The bill is therefore disapproved.

The veto message on Senate Bill No. 130 was taken up and read, as follows, and the bill laid over under the rules:

SENATE BILL NO. 130.

"This bill extends the present law for the granting of permits for carrying concealed weapons to officers of industrial, commercial and utility concerns, who, after application to the chief of police, may issue such permits in blank, to be used by the members, clerks, paymasters and other employees of such concerns.

The very purpose of the concealed weapons act is to limit the number of those who may carry concealed weapons and to require all those who desire that privilege to apply to the court (except financial institutions).

I do not believe that we should issue permits to carry concealed weapons in blank, to be given in unlimited numbers to all in-

dustrial, commercial and utility concerns in the State. The very effect of granting this privilege is to destroy, in large part, the effectiveness of the concealed weapons act. The chief of police in issuing permits, is given no choice or discretion. This bill provides only that application shall be made to the chief, and for furnishing to him a list, in detail, of the persons to whom issued —nothing more. He could not legally refuse any request, because this bill does not give him such power.

There is also great danger that if this bill becomes a law this provision might be used in labor disputes and so lead to bloodshed, instead of having the enforcement of the law left to the constituted authorities, in which case there would be less chance of bloodshed.

I therefore disapprove the bill.

The veto message on Senate Bill No. 159 was taken up and read, as follows, and the bill laid over under the rules:

SENATE BILL NO. 159.

Under the law as it stands at the present time, if cities bordering on the Atlantic ocean desire to grant concessions like those for bathing houses, they must do so in public manner, advertise the same, and award the privilege to the highest bidder. This is all provided for in the Home Rule Act of 1917.

This bill has for its purpose the granting of these privileges to favored persons, without advertising.

It has too long been a settled policy of the State to require public advertising and competition in all matters of a public nature to change it now and make a special procedure so that favored persons may be given this privilege.

Another objection to this bill is that it may have for its purpose the affecting of litigation now pending in the courts.

In the city of Asbury Park a bathing concession for a five-year period was awarded for $85,000 a year, without advertising. Another man offered $100,000 for the same concession. This award for the lower sum and without advertising is now before our courts for review.

If Senate Bill No. 159 becomes a law, if the court gives an adverse decision, the municipal body could nullify that decision by immediately reawarding the privilege to the favored bidder.

I do not think that our cases pending before the court should be interfered with in this way, neither do I believe that municipal officials should be given the privilege of selecting favored persons to whom to award concessions, and so waste the public money, instead of giving them to the highest bidder.

The suggestion has been made that in a case of this kind care must be exercised in selecting the person to whom the privilege is granted.

All of that can be provided for, also, in calling for bids. Those successful can be forced to conduct the business in a manner satisfactory to the municipality.

The bill is therefore disapproved.

The veto message on Senate Bill No. 175 was taken up and read, as follows, and the bill laid over under the rules:

SENATE NO. 175.

To the Senate:

The law which this bill seeks to amend provides that "any member of such board of assessors may be removed by a majority vote of the improvement commission, after a hearing upon written charges."

This seems to be a provision which is fair, not only to the assessors, but necessary in the interest of good government.

Under this bill this helpful clause is entirely omitted, so that there would be no provision for removing an assessor, even after a hearing and upon written charges, no matter how necessary it might be to remove such assessor. In place thereof this bill substitutes a provision that after an assessor has served for two years or more he shall not be removed except upon hearing and charges. This, of course, leaves no provision in the bill for the removal of those who have served less than two years, and it only applies to those who have served over two years.

If, as this bill provides, it is proper to remove an assessor upon charges after he has served two years, and that is in the interest of good government, then it is equally true that the same power should exist for the removal of those who have been in the service less than two years.

Because this bill weakens government and the power of governing authorities to remove incompetent or corrupt assessors, this bill is disapproved.

Respectfully submitted,

(Signed) GEORGE S. SILZER,

Governor.

(SEAL)

Attest:

FREDERIC M. P. PEARSE,

Secretary to the Governor.

The veto message on Senate Bill No. 181 was taken up and read as follows and the bill laid over under the rules:

SENATE NO. 181.

This bill provides that whenever a director of the department of revenue and finance in a municipality governed by a commission declines or does not desire to serve as a member *ex officio* of the sinking fund commission, such municipality is authorized to appoint the treasurer in his place.

This bill should not become a law, because no man who is selected to perform public service has a right to decline or to express a desire not to serve upon those bodies of which he is *ex officio* a member. It is his duty to do that which the law casts upon him, if he accepts the position, and he has no right to decline to perform a public duty. This bill would encourage just that sort of thing.

If the purpose of this bill is to substitute the treasurer for the director, it should be so drawn. I am unwilling, however, to let it be written upon the statute books that any man may decline to perform his duty.

The bill is therefore disapproved.

The veto message on Senate Bill No. 191 was taken up and read as follows and the bill laid over under the rules:

SENATE NO. 191.

This bill amends section 60 of the Tenement House law.

Section 60 now provides that:

"Every tenement house hereafter erected, six stories or more in height, shall be made fireproof throughout."

This is a definite and fixed provision in the present law, and is very plain.

It is the evident purpose that these buildings, under Senate No. 191, shall not be fireproof. If they were to remain fireproof, there would be no necessity of changing the statute. The very idea of changing the statute carries with it the implication that some leeways shall be given, so that these buildings will not be fireproof. The fact that so plain a statute is to be changed is evidence that it is to be weakened.

I am unwilling to be a party to changing the present law, requiring tenement houses of six stories and over to be fireproof. If the Legislature wishes to have upon its head the blood and lives of those who may be sacrificed by fires in tenement houses that are not fireproof, they may assume that responsibility by passing this bill over my veto.

Some selfish interests seem also to be served by this bill.

The bill, evidently, is also drawn in the interest of some private concerns, because it is in the nature of a closed specification bill.

In line 7, it requires that "solid" approved fireproof material shall be used. This would eliminate hollow tile, terra cotta, cement block and, perhaps, other similar materials all recognized as fireproof. This, evidently, is in the interest of those who manufacture a solid fireproof material, and would be an injury to one of the largest industries in our State.

Another objection, which seems to indicate that private interests are at work, is the provision requiring that lathing material shall conform to certain fire tests. These fire tests seem to apply to a particular patented material, and although some other material might be devised to meet this fire test, there are none such upon the market at this time. The purpose, evidently, being by this bill to give this one particular company, manufacturing the material that comes within these specifications, a monopoly of this work.

In view of the fact that section 158 of the present Tenement House Act gives ample authority for testing new fireproofing material, there is no necessity for the provision, unless its purpose is to serve some special interest.

The proponents seem to be very insistent in changing the present law, since I vetoed a somewhat similar bill last year, and known then as Senate No. 250.

The bill is disapproved.

The veto message on Senate Bill No. 92 was taken up and read as follows, and the bill laid over under the rules:

SENATE NO. 92.

This bill adds to the State Highway System a road from Far Hills to the New York State line, through Chester, Flanders, Netcong, Andover, Newton, Rosses Corner, Branchville and Hainesville, a distance of about forty-five miles.

The bill also provides that it shall be a part of the highway system, but not laid out until the Highway Commission may deem it advisable.

This road would cost several million dollars, and I am advised by the State Highway Commission that there are no funds for it. I do not believe there is any possibility of the building of the road for many years to come, but if this bill is signed it takes its place in the State Highway System, and will eventually have to be built.

My insistment has always been that routes should be designated by the State Highway Commission, and I had hoped that the Legislature would give that commission such power. I do not believe that routes should be added to the State Highway System by Legislative enactment, but only after recommendation from the State Highway Commission, so that there may be continuity of routes and the greatest convenience to the State.

I have signed some bills designating highway routes, but only in order to carry out the plans of the Highway Commission, either already under way or soon to be carried out. If the Legislature does not grant the right to the Highway Commission to designate routes, then the route set out in Senate 92 may be designated later, and at a time when there is a probability of its being built. It would do the people of this section no good merely to designate this as a part of the Highway System unless there is also a probability that the road will be constructed.

The bill is therefore disapproved.

The veto message on Senate Bill No. 144 was taken up and read, as follows, and the bill laid over under the rules:

SENATE NO. 144.

This bill provides that any savings bank, with the approval of the Commissioner of Banking and Insurance, may maintain branch offices or agencies for the transaction of business under certain restrictions. The bill is objectionable for a number of reasons.

These savings banks are not required to pay an income tax or a local tax, and, if permitted to establish branches, unfair competition will be created between them and national banks and trust companies. Savings banks were created and authorized when there was a necessity for them and when no other similar facilities were proposed, but experience has shown that with other and different banking facilities, savings banks are no longer so much in demand. There are, at present, twenty-eight savings banks doing business in this State, and only one new charter has been granted in the past fifteen years. If there is no necessity for establishing new savings banks, there is certainly no necessity for extending the powers of those already in existence. These banks, under recent legislation, are already changing their original character. Over the Executive veto, they are now allowed to maintain safe deposit boxes, and, last year, power was granted to them to loan money on collateral. Now, they ask for power to establish branch banks and agencies.

They are mutual concerns not operating for profit, and, if they continue in existence, should continue only for the purpose for which they were originally intended with no further extension of power.

The State has always been opposed to the policy of branch banks. We have, however, been forced into the position of granting this power to trust companies, because of Federal legislation, but no such necessity exists so far as savings banks are concerned.

For these reasons, the bill is disapproved.

The veto message on Senate Joint Resolution No. 6 was taken up and read, as follows, and the bill laid over under the rules:

SENATE JOINT RESOLUTION NO. 6.

Senate Joint Resolution No. 6 creates a commission consisting of the President of the Senate, the Speaker of the House, and four other members "for the purpose of making a study of questions of public interest, to present violations of law, and the conduct of any State official, State department, board, commission or other agency of the State government."

It further provides for the employment of necessary legal and other assistants, and appropriates the sum of $10,000.

This commission seems to be wholly useless and unnecessary, and the expenditure of $10,000 a public waste. If there had been a condition known to the public calling for any investigation, there might have been some excuse for this commission. At the present time, however, not a single suggestion has been made of anything wrong anywhere in any department of the State, or elsewhere, justifying the organization of this commission.

Let us examine the expressed purpose for which this commission was organized. First, it is to make a "study of questions of public interest." Every legislator is elected by the people in the belief that he has already made a study of questions of public interest, and has qualified himself to deal with them. The taxpayers, I am sure, are not impressed with the idea that they are to spend $10,000 of the State's money for the purpose of educating a selected legislative group in questions of public interest.

The Constitution provides that "the Executive shall communicate, by message, to the Legislature, at the opening of each session, and at such other times as he may deem necessary, the condition of the State, and recommend such measures as he may deem expedient."

Under this provision, communications have been sent to the Legislature on the following subjects of public interest—each of great importance:

Reduction of taxation.

A self-sustaining Tenement House Commission, with power to supervise theatres and public places in all municipalities.

A survey of the public school system.

Payment of funds collected by State agencies into the State treasury.

Regulation of the distribution, quality and price of coal.

Protecting the depositors in private banks.

Providing for the care and cure of narcotic users convicted of crime.

Empowering the Governor to remove statutory officers for cause, and power of temporary appointment in cases of emergency caused by death, etc.

Repealing the useless bureau of elections in counties of the first class.

Repealing the Blackwell divorce law.

Adequate laws to prevent pollution of our waterways.

Amendment to statutes relating to crime, to aid in suppressing the crime wave.

Improving conditions at grade crossings, and the elimination of sign boards.

Definite action establishing a State policy for supplying the people with potable water.

Amendment to the laws relating to the zoning system, and a constitutional amendment, if necessary, granting the power.

Confirming the Tri-State treaty relating to the Delaware river.

Repealing the law which now permits fire insurance monopoly and unjust rates.

Appointing a commission to make a treaty with adjoining States, and regulating the distribution of electric power between the States.

Power in the Highway Commission to select routes for the highway system, and to regulate and protect, by additional powers, the highways.

Curing the defect in the No-Night-Work Bill for women in factories, by providing a penalty for violation of the law.

Upon none of these recommendations in the public interest has any action been taken. If, instead of having the commission spend $10,000 in studying "those questions of public interest," the Legislature would act upon those already recommended, not

only would the $10,000 be saved, but much would be accomplished for the people of the State.

The next thing which the commission is to do is to "present violations of Law." That is now the province of twenty-one prosecutors, as well as of every police officer of the State, and of every citizen who knows of any violation of the law. It has never been the function, so far as I know, of the Legislative branch of the government to present violations of law. Under the Constitution, it is their duty to enact laws and submit them to the Executive for approval.

The third avowed purpose is to look into the conduct of State departments.

If the real purpose is to see whether State departments can be made more efficient, or whether they are functioning properly, this cannot be done by a legislative commission. In order to reorganize a State department it is necessary that a thorough examination be made of it—an examination that will take much time and close attention. The Budget Commission has been established for this very purpose, and after having passed through its formative period, is gradually undertaking this work. Much has already been done in this direction, and with a sufficient appropriation more could be done during the coming year. The request for an appropriation large enough to cover this work for the coming year, to be done by the bi-partisan Budget Commission was denied by the Legislature.

Another objection to this resolution is that it is so strongly partisan. I do not believe that the people of New Jersey are altogether pleased with the expenditure of $10,000 of the taxpayers' money for the gratification of partisan desires and political commissions. There does not seem to be, from any point of view, any justification for the creation or existence of the commission, except upon the ground that it may serve some political advantage.

The press has been informed that one of the purposes is to examine the Department of Institutions and Agencies. There is no indication in this resolution that such is the case. There is no evidence whatever before anyone that that department is not conducted as it ought to be. The Board of Control of that department is non-partisan, and composed of members of the highest type, who are doing a fine work in the care of our dependents.

If there had been disclosed, in any department, a single act of wrong-doing, there might be some excuse for the creation of this commission, but such has not been the case.

For the reasons stated, this resolution is disapproved.

Mr. Larson moved that the Senate take a recess of 30 minutes.

Which was agreed to.

Upon the conclusion of which, and, under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Agans, Borton, Bright (President), Case, Davis, Groat, Larson, Mackay, Mathis, Roberts, Simpson, Woodruff —12.

Mr. Larson offered the following resolution, which was read and adopted:

Resolved, That when the Senate adjourn it be to meet again at 3 P. M. Thursday, March 19th, 1925.

On motion of Mr. Larson, the Senate then adjourned.

THURSDAY, March 19th, 1925.

At 3 o'clock P. M. the Senate met.

The session was opened with prayer by the Rev. R. J. Beazley.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered to their names:

Messrs. Agans, Blackwell, Borton, Bright (President), Case, Cole, Davis, Groat, Harrison, Larson, Mackay, Mathis, Pierson, Reeves, Richards, Roberts, Simpson, Stevens, Whitney, Williams, Woodruff—21.

Communications marked "Vetoes" were received from the Governor, at the hands of his secretary, Mr. Pearse.

The following veto messages were taken up and read, and the bills laid over under the rules:

SENATE JOINT RESOLUTION NO. 11.

The members of the Legislative and Executive departments are, theoretically at least, chosen upon the understanding that they are familiar with State problems, capable of dealing with them and willing to do so. If this be not true, then we are guilty of deceiving the people, and should surrender the task to someone who is capable and willing.

The water problem has been one of many years standing, having been called to public attention so long ago as 1910 by Governor Fort. It has become more and more acute.

Public attention has been focused upon it by the pressing needs of twenty-nine municipalities in Union county, as well as by those of other counties. Bills have been presented to Legislatures for several years past dealing with one or another phase of the question.

A year ago, I called attention to the whole subject in a public address before the State Chamber of Commerce.

That body has during the year made a study of the question. The press of the State for several years has discussed the problem.

As time has gone on, the needs have become more and more pressing and each day's delay adds to the inconvenience, the cost and the difficulties.

In January, I called the attention of the Legislature to this question and recommended that action be taken thereon. Three months have passed with no effort even to study the question, much less to take action.

Now, it is proposed that a commission be appointed to study the question and report in another year.

It is our duty to study the question, not to ask someone else to look into it, it is our duty to solve it, not postpone it.

We cannot substitute someone else's study for our duty to dispose of it.

There is no reason for the Legislature to adjourn without solving this question, unless we are to admit that we are unwilling or incapable of doing so. If we make that admission we should resign and let someone else undertake the job—someone who is capable and willing.

With a question of such magnitude and such pressing importance, it is our duty not to adjourn the Legislative Session, but to remain here upon the job until we have done our full duty by the people of the State who selected us for that purpose.

Studies and Reports. I can see no necessity for another commission to study this question. It has been studied for years.

The following reports and studies are available to anyone who is not already familiar with the question:

Report on Water Supply, C. C. Vermeule, 1894, Vol. III—Final Reports State Geologist;

Report of the Commissioners to Investigate the Practicability and probable cost of the Acquisition by the State of the Title to the Potable Waters of the State—1906;

Report on the Water Resources of the State and their Development. Hazen, Whipple and Fuller—1922;

Water Commission offers a Program for Development—Chimney Rock Project outlined by Mr. Sherrard—Newark Evening News—January 31, 1925;

Report on the floods of February 28 to March 5, 1902—C. C. Vermeule, Annual Report of the State Geologist, 1902;

Floods of October, 1903—Passaic Floods and their Control, C. C. Vermuele Annual Report—State Geologist—1903;

Lake Passaic considered as a Storage Reservoir—C. C. Vermeule Annual Report—State Geologist—1905.

Report on the Development of the Passaic Watershed by Small Storage Reservoirs—C. C. Vermeule—Annual Report State Geologist, 1909;

Report of Committee to Investigate the Water Situation, City of Elizabeth—December 27, 1923;

Report of Water Survey Commission Westfield, N. J., including Report of Thomas F. Bowe, Consulting Engineer on Water Supply for the Town of Westfield—1924;

Report on Water Supply City of Bayonne—Western & Sampson; also Report of Citizens' Committee of Twenty and Report of its Consulting Engineer, Weston E. Fuller, 1924;

Compact as to the Water Resources of the Delaware River Tri-State Treaty—1925.

A mere casual look at this list will demonstrate that eminent men have given of their time, and that much money has already been spent on the subject.

For instance, Mr. Alan Hazen, perhaps the most eminent engineer on this subject, has given us the benefit of his study and expert knowledge.

I have serious doubts that any study made by the men named in this resolution would be of special value. And I am sure none of them would set his opinion upon against that of this eminent and other eminent engineers.

If the Legislature would study these various reports, it would have all the information available. This new commission has no other sources available. We are just asking this commission to do what it is our duty to do ourselves.

The only result of this action is that we will delay the solution at least a year, and perhaps more; we continue the inconvenience of these municipalities now suffering; we continue the profits of private companies serving water; and we add heavily to the cost to the State, because property is becoming increasingly valuable; and prevention from pollution is becoming more difficult.

If there is any virtue in the study of these questions by commissions I beg to call your attention to the fact that a committee of the State Chamber of Commerce has been studying this question for a year. Why not take the benefit of their study? It, certainly, should be as valuable as that of a new commission. No one can say that it is not a non-partisan, disinterested body.

Personnel.—A number of men have been chosen as members of this commission by this resolution. I note that two of them, Messrs. Hamilton and Parker, were members of the Chamber of Commerce Committee. Why ask them to study it again since they have already done so once? Why not listen to them and the rest of their committee on what they already know?

In a matter of such importance to all the people of New Jersey there should not enter the spectre of partisan politics. Yet, in this resolution there is not named a single Democrat, or, at best, only one, it being the evident purpose that this shall be purely and distinctly a partisan commission, to serve party advantage, instead of public advantage. Democrats and independent voters, all of whom share in the payment of the tax burden, and who will be affected by whatever action is taken, have no right to be ignored. At least, they do not feel that this matter should be projected into partisan politics.

Tri-State Treaty.—Included in the work of the proposed commission is a study of the Tri-State Treaty with New York and Pennsylvania, concerning the waters of the Delaware river.

Why another commission? One commission appointed under legislative sanction has already studied and reported after a year's work, and the other two States have accepted the treaty.

The men composing that commission were of the highest type, above suspicion, and, by my appointment, both Republicans. They did a fine piece of work in a large and patriotic way.

I can see no reason for a duplication of their work, and no one has yet pointed out a reason why this treaty should not be ratified.

There have been some who, through ignorance, timidity or design, have found fault, but not one has given a substantial reason for not accepting this treaty.

There is nothing so timid as ignorance or anything so designing as self-interest.

I am unwilling to be a party to this unnecessary delay. If the other States withdraw their consent, we are left high and dry, and may be seriously embarrassed. We will then have before us the difficult task of getting our share of the Delaware river water. If New York and Pennsylvania develop the wa-

tersheds within these States, we will have a long and difficult journey through the courts to recover our rights—if we ever recover them at all. No one can guarantee that we will.

Besides this, the delay will put a heavy burden upon us; and, besides that, the development of a comprehensive water plan must wait until we have been able to recover our rights and establish them.

Those who have selfish interests are, no doubt, happy in the thought that we are playing into their hands by this delay, and so continuing them in an advantageous position.

Those who are simply timid because ignorant, unconsciously do what leads to the same result.

Cost.—The Commission is to spend $20,000. This will go to engineers and lawyers to tell us what we already know or ought to know.

They will read the reports we already have and tell us what is in them. They will write a report. And, for all this, we are to pay $20,000.

Because I believe that we are wasting valuable time and much money; because I believe that this delay is unwarranted, and because I believe it is our duty to stay right here on the job and do this work for which the people of New Jersey selected us, and which it is our clear duty to do, I disapprove this resolution.

SENATE BILLS NO. 38, 186, 262, and ASSEMBLY BILLS NOS. 107, 464, and COMMITTEE SUBSTITUTE FOR SENATE 38.

I have before me a number of bills adding to the routes of the Highway System, and some giving the State Highway Commission the right to lay out certain routes when they believe it to be practical. If the Legislature would give the State Highway Commission the power to designate such routes as they think advisable, the State Highway System could be developed by the adding of such routes as would best serve the people of the State, and, at the same time, keep down the expense.

Instead of doing this, I have had presented to me Senate No. 92, Senate No. 38, Assembly No. 107, Assembly 464, Senate No. 262 and Senate No. 186.

Each one of these bills attempts to add a particular route to the State Highway System. These particular routes are designated because their sponsors are able to get the votes for them. These routes have not been designated because of any State-wide policy for the betterment of the roads or the saving of cost. They do not fit into any plan of the State Highway Commission.

So long as designation of routes depends upon the ability to get a particular bill through the Legislature just so long will it be necessary to reject them.

If the Legislature passed a bill, declaring all roads of the State eligible for inclusion in the State Highway System, these special bills would not be necessary. Then such roads could be improved as would do the greatest good for the greatest number.

I cannot understand why the Legislature is unwilling to have the body which is constituted for this purpose, and which has the confidence of the entire people of the State, undertake this work.

There are no funds available at this time for the numerous highways mentioned in the bills before me, and since no funds are available, the designation of these routes will have no practical value now, nor for some time to come. When the funds are available, and the State Highway Commission believes that they should, in the interest of convenience and economy, be built, the State Highway Commission may designate them for such purpose.

I have signed some bills adding to the Highway System, but only those which the State Highway Commission has requested that I should sign, in order that they may fit them into their plans.

For the reasons stated, these bills are disapproved.

SENATE NO. 119 and SENATE NO. 120.

This bill gives to electric light, heat and power companies the right of Eminent Domain, a right which they do not now possess.

There is no general act for the incorporation of these companies, and they are now compelled to incorporate under the General Corporation Act.

If this bill becomes a law and these companies are given the right of Eminent Domain, then no new companies for the furnishing of electric light, heat and power can be organized, because (a) there is no special act under which to incorporate them; (b) because the General Corporation Act, in section 6, forbids the organization of companies which shall need to possess the right of taking and condemning lands in this State.

It follows, therefore, that, if this bill becomes a law, only those companies which now are in the business could function in the future, as no new companies could be organized. This would be an unfortunate condition, in that it would prevent new companies and new competition.

Under section 28 of the Corporation Act, none of these companies may increase or decrease their capital stock, because they possess the right of taking and condemning lands.

An effort is made by Senate No. 119 to eliminate this difficulty by amending section 6 of the Corporation Act, by making it lawful to form a company "for the purpose of constructing, maintaining and operating works for the supply and distribution of electricity for electric light, heat or power in or outside of this State."

I do not believe that we should authorize our electric companies to do business outside of the State or to carry electric power from this State to another State or from another State to New Jersey until we have made some provision for the regulation thereof. The moment this current flows over the State lines, it may become subject to Federal regulation, and we will have lost our entire control over it.

To lose control of the regulation of these companies would be an unfortunate thing for the State. It might well be said that the moment the State had consented to their crossing State lines, that not only these lines, but the companies, themselves, and everything connected with them immediately fall under Federal jurisdiction. If this be true, then we would lose entirely our power to control these corporations dealing in electric light, heat and power.

The bill should at least have had a provision that any company exercising privileges under this bill should waive any claim or right to fall under Federal jurisdiction, and should consent to regulation by the State commission.

This, of course, presents difficulties of conflict between State and Federal regulation.

I have called the attention of the Legislature to the necessity of providing for this regulation through a compact between this State and the adjoining States to which and from which this power will be carried.

Until that is accomplished and a treaty in force, power should not be given to these companies to go beyond State lines for the distribution of electricity, or for other companies from without the State to connect with them for a like purpose.

Since Senate No. 119 and No. 120 are so closely related, and since each would have its effect upon the other, both, must fall if one is vetoed.

I, therefore, disapprove of both bills.

SENATE NO. 199.

This bill has for its purpose the acquiring and preserving of the Barnegat Lighthouse, and appropriates $75,000 for its acquisition and preservation.

The preservation of this lighthouse serves no practical purpose, but is purely a matter of sentiment. I am thoroughly in accord with the sentimental views of the proponents of this bill, but there are practical difficulties in the way of carrying it out.

This lighthouse, which some years ago stood well inland, is now within fifty feet of the shore, due to the encroachments of the sea. The United States Government refuses to do anything more toward its preservation, although it has spent many thousands of dollars in an attempt. The estimates made by army engineers are that it will cost from $214,000 to over $400,000 to preserve it.

I do not believe that the State of New Jersey ought to undertake the expenditure of that sum of money for the purpose of preserving this lighthouse as a matter of sentiment, especially since there is even then no certainty that that sum of money will save it.

I therefore disapprove this bill.

SENATE NO. 237.

This bill provides for the expenditure of $160,000 out of the State Fund for deepening the inland waterway from Atlantic City, through Great Bay to Grassy Channel, and to install range lights and lighted buoys throughout. The bill, therefore, not only causes the expenditure of $160,000 for deepening the channel, but also puts upon the State the maintenance charge, as it will have to keep up this channel; and also fastens upon the State a permanent charge for maintaining and keeping lighted the range lights and lighted buoys.

In view of the fact that the Appropriation Bill carries an appropriation of over a million dollars more than that submitted by the Budget Commission, I feel that expenditures of this kind should be curtailed.

I also have in mind the fact that the State Board of Education has recommended the building of a normal school in Hudson county, for the accommodation of the children of Hudson, Bergen and other adjoining counties; and that the Budget Commission recommended $800,000 for this purpose in the budget message. This sum was entirely eliminated from the Appropriation Bill, and the children of those communities are to be left without the educational advantages to which they are entitled, and of which they are so sorely in need.

Until we can supply these children with these educational facilities, I see no reason for taking from them $160,000 to deepen an inland waterway channel. The educational of our children is much more important than the digging of waterways. This

$160,000 would go a long way toward the erection of the necessary school buildings. Notwithstanding the fact that this $800,000 was eliminated, the Appropriation Bill is still one million dollars over that recommended by the Budget Commission. This makes $1,800.000 diverted to other purposes, one of which was the expenditure of this $160,000 for dredging this channel.

For the reasons stated, this bill is disapproved.

Respectfully submitted,

[SEAL] (Signed) GEORGE S. SILZER,
Governor.

Attest:
FREDERICK M. P. PEARSE,
Secretary to the Governor.

Mr. Larson moved that the Senate take a recess of 30 minutes.

Which was agreed to.

Upon the conclusion of which, and, under the direction of the President, the secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Agans, Blackwell, Borton, Bright (President), Case, Cole, Davis, Groat, Harrison, Larson, Mackay, Mathis, Pierson, Reeves, Richards, Roberts, Simpson, Stevens, Whitney, Williams, Woodruff—21.

Five communications were received from the Governor, at the hands of his secretary, Mr. Pearse, four endorsed "Nominations" and one "Special Message."

Mr. Larson offered the following resolution, which was read and adopted:

Resolved by the Senate (the House of Assembly concurring), That the concurrent resolution adopted March 12th, 1925, as to the date of adjournment, be rescinded, and that the 149th Legislature of the State of New Jersey adjourn sine die at twelve o'clock noon, March 21st, 1925.

Mr. Larson moved that the Senate take a recess until 8 P. M.

Communications marked "Vetoes" were received from the Governor, at the hands of his Secretary, Mr. Pearse.

The following veto messages were taken up and read and the bills laid over under the rules:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 19th, 1925.

COMMITTEE SUBSTITUTE FOR SENATE BILL NO. 28.

To the Senate:

This bill provides that all mutual insurance companies organized by special act of the Legislature prior to 1875 shall have

power, among other things, to accept cash payments for premiums; in other words, to change themselves from mutual companies taking notes to ordinary companies doing a general business.

This act applies, by its terms, only to companies organized by special acts prior to 1875. It fails to include those organized under such special acts during the year 1875, of which there were at least two.

Since this does not include all insurance companies organized under special acts, it is unconstitutional. The Constitution prohibits the granting of corporate powers, in the following language: "The Legislature shall not pass any special act conferring corporate powers, but shall pass general laws under which corporations may be organized, and corporate powers of every nature obtained."

I am advised by the Attorney-General's office that this act is in contravention to the Constitution, and that the case of *Perrine* v. *The Traction Company, 70 Law, p.* 168, and other decisions, have decided the matter.

The bill is, therefore, disapproved.

Respectfully submitted,

(Signed) GEORGE S. SILZER,

[SEAL.] *Governor.*

Attest:

Secretary to the Governor.

STATE OF NEW JERSEY,

SENATE NO. 172.

To the Senate:

Senate No. 172 has for its purposes the extending of the incorporation of the Shrewsbury Mutual Fire Insurance Company until March, 1980.

Under the Constitution, Art. 4, section 7, paragraph 11, it is provided that

"The Legislature shall pass no special act conferring corporate powers, but they shall pass general laws under which corporations may be organized and corporate powers of every nature obtained, subject, nevertheless, to repeal or alteration at the will of the Legislature."

This bill, if it became a law, would confer corporate powers upon this company for the extended period of time, namely,

until 1980, and it is, therefore, in contravention of the Constitution.

In addition to this, it is quite clear that if this company desires to continue its operations, it can readily do so under present existing laws.

The usual reason why this is not done is because there are some privileges in the old grants, which cannot now be obtained under the general laws.

The bill is, therefore, disapproved.

Respectfully submitted,
(Signed) GEORGE S. SILZER,
Governor.

EXECUTIVE DEPARTMENT,

SENATE NO. 46.

To the Senate:

This bill authorizes the Board of Commerce and Navigation to construct a bridge or bridges over the inland waterway canal at Pine Bluff, in the borough of Point Pleasant, Ocean county. An appropriation of $100,000 is made for the purpose.

I appreciate thoroughly the desire of those living in this section to have this additional bridge, but there is already a State highway bridge of substantial construction about four hundred yards from the place where this new bridge is to be erected. That bridge is near enough and convenient enough to provide for all present demands.

The thought in the minds of the proposers of the new bridge is that the State highway bridge may, at some time, be out of order, in which event the residents of the neighborhood would be put to some inconvenience, and the new bridge is for the purpose of preventing this.

In such an event, the residents of that section could use the bridge over the Manasquan river into Brielle, which is about a mile and a quarter away. It must also be remembered that if this new bridge, which has just been constructed by the Highway Commission, is out of order, that that condition would merely be temporary; that it cannot be for a very long period and that the people of the neighborhood will, necessarily, be inconvenienced for a very short time.

The demands of the State and the State funds are so insistent that the State cannot go into these new matters thoughtlessly.

If Ocean county or the borough of Point Pleasant desire this additional convenience and feel that it will increase the local ratables, there is no reason why they should not build the bridge, but, in the circumstances, I do not see why we should further burden the State treasury.

The bill is, therefore, disapproved.

Respectfully submitted,
GEORGE S. SILZER,
Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 19th, 1925.

SENATE NO. 212.

To the Senate:

This bill provides for the removal of snow on township roads in counties of the third and fourth class, and to provide State aid therefor. It sets aside $50,000 from the motor vehicle funds, to be distributed to the townships who shall apply for the same. The State Highway Commission determines the amounts to be allotted to each township, and the State's share is not to exceed seventy-five per cent of the cost.

In the fifth clause, it is provided that any amount unused in the hands of the State Highway Commission after July 1st of each year shall be distributed to the several boards of chosen freeholders of the counties, to be used by the freeholders for the removal of snow on county roads.

This bill is unconstitutional, because the body of the act does not comply with the title. The title deals only with township roads, while section 5 distributes the money to county roads, or to boards of chosen freeholders, to be used for county roads, neither of which is mentioned in the title. This is clearly contrary to the constitutional prohibition.

Even if the bill were not unconstitutional, there is grave question as to whether we should distribute State moneys upon anything but State roads, namely, those that are taken over by the State. Roads other than State roads are within the jurisdiction

of local authorities, whose duty it is to maintain them, and to keep them open for the convenience of those who use them.

Under this bill, the State would be obliged to spend money to go into the most remote corners of the State, and spend money for clearing of snow from roads which may have few inhabitants and little use. That is distinctly a local function.

The bill is disapproved.

Respectfully submitted,

[SEAL.] GEORGE S. SILZER,
Attest: *Governor.*

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 19th, 1925.

SENATE NO. 274.

To the Senate:

At the present time, the Board of School Estimate fixes the amount necessary to be appropriated for the public schools in a district. Thereupon, the common council or body finance must appropriate the amount so certified, provided it is not in excess of three-fourths of one per centum of the assessed ratables of the city. This bill would make the amount double, or one and one-half per centum of the ratables.

The present law is mandatory upon the financial officers of the city when a demand is made up to three-fourths of one per centum of the ratables. Over that, they have the right to exercise their discretion. This bill attempts to make it mandatory that they shall raise twice that much upon request, or one and one-half per centum of the ratables. It gives the financial officers no discretion, except for sums over one and one-half per centum.

I do not believe that this mandatory legislation should be put upon the books. Any board of school estimates ought to be able to convince the financial officers of a city that so large a proportion is necessary. If they do not, then the discretion ought to be left in the hands of those whose duty it is to place the additional burden upon the taxpayers.

For this reason, this bill is disapproved.

Respectfully submitted,

[SEAL.] GEORGE S. SILZER,
Attest: *Governor.*

STATE OF NEW JERSEY,

SENATE NO. 265.

To the Senate:

The present statute prohibits the operation of motor vehicles of more than an outside width of ninety-six inches. This bill, Senate No. 265, does the same thing, but in addition to the present law adds a penalty for its violation. The act goes into effect immediately.

I am informed that there are at the present time many motor busses running under municipal permit which are wider than ninety-six inches. This would immediately put them out of business.

I should like very much to sign this bill if it furnished this protection, because the Highway Commission has requested it in the interest of safety on the highways, and because there are many large trucks, so large that they obstruct travel, and upon which there should be a limitation.

I am disapproving this bill with the hope that it may be amended, excepting from its provision "such motor busses as are now in operation and licensed to operate by municipal or State authority," and with a further provision that when those licenses expire they cannot be renewed if they violate this statute.

The bill, therefore, is disapproved.

Respectfully submitted,

[SEAL.] GEORGE S. SILZER,
Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 20th, 1925.

SENATE NO. 277.

To the Senate:

This is the Appropriation Bill.

The Comptroller of the State recommended to the Governor (as Budget Officer), that there would be available from general State funds the sum of $14,320,191.70.

This sum (less $2,000) was recommended by the Governor and his budget assistants.

This bill appropriates from general State funds $533,960.02 over and above the amount which the Comptroller advised the Governor would be available.

The Budget Act requires that the Governor shall balance his budget. This is a wise provision and recognized by every good business man as economically sound. The same principle should apply to appropriations by the Legislature, and the Legislature, too, should balance its budget. We have no right to make State appropriations in excess of State revenues. We have no right to spend more money than we have available.

This bill increased the appropriations made by the Budget Commission by $1,564,549.90.

It eliminated from the Budget Commission recommendations, among others, the following:

State Normal School,	$860,154.67
State Employees' Retirement Fund,	38,360.00
Industrial Education—Manual Training,	20,970.00
Special Investigation—Public Utilities,	10,000.00
Food for Feeble-Minded—Vineland,	10,000.00

My study of this bill convinces me that it is defective, not only in increasing the budget recommendations, but also in the elimination of items.

INCREASES.

The following are some of the increases made over and above the recommendations of the Budget Commission:

Commerce and Navigation.	Increase.
Lights Cold Spring to Otten's Harbor,	$3,000.00
Beach Protection Plans,	7,500.00

Deepening Inland Waterway from Atlantic City, to Grassy Channel (Sen. 237),	150,000.00
Dredging channel between Inland Waterway in Great bay (A. 95),	15,000.00
N. J. ship canal,	150,000.00
State House Commission.	
Permanent State building at Sesqui Centennial,	100,000.00
Purchase West State street property,	5,000.00
Purchase lands and buildings adjoining Stacy Park,	60,000.00
Erection building at Trenton Fair Grounds,	10,000.00
Legislative,	15,000.00
Shell Fisheries.	
Shelling beds, Maurice river cove,	15,000.00
Shelling beds, Atlantic Coast Dept.,	8,000.00
Maintenance patrol boat,	3,000.00
Equipment for new guard boat,	2,500.00
Commerce and Navigation.	
Inlet from Sandy Hook to Manasquan,	90,000.00

SALARIES.

This bill increases the salaries in the State $82,000, notwithstanding the fact that the Budget Commission recommended all salaries mandatory by ruling of the Civil Service Commission, such as annual increases to employees. These salaries are increased in spite of civil service rulings. This is a method of increasing salaries under cover, without passing legislative bills for the purpose.

It will also be observed that many departments are denied the funds with which to properly conduct those departments.

It will also be noted that criticism has been made of the Department of Banking and Insurance for not making a more rigid examination of building loans. The Commissioner of Banking and Insurance requested additional funds of about $18,000 for new Building Loan examiners and traveling expenses, in order that such examinations might be made. These requests are denied in this bill, notwithstanding the fact that most of this money would be returned to the State by the Building Loans so examined.

The Pension and Retirement Fund of State Employees, to which they are contributing, has never been criticised as being upon an unscientific basis. Notwithstanding this fact, fifty per centum of the reserve appropriation has been eliminated; a decrease of $38,360.

The Budget Commission, desiring to survey certain State departments, in order to reorganize them and produce greater economy, asked for increased funds for that purpose. Their efficiency, during the coming year, was impaired by a decrease of $10,000 from the sum requested, and certain investigations and studies cannot be made.

$10,000 was deducted from the fund which Public Utility Commission requires for special investigations, to keep down rates fixed by Utility corporations.

Industrial education was attacked by deducting $20,970 from the Manual Training schools; schools to which men go at night after a day of work, in order that they may secure manual training and education.

The State Board of Education has recommended that a Normal school be erected in Jersey City for the education of the children of Hudson, Bergen, Monmouth and other counties.

The Governor recommended from the general State fund the sum of $860,154.67. This sum has been entirely eliminated from the Appropriation Bill, and the children of that part of the State and of those counties are to be deprived of the opportunities which children in other parts of the State now have for Normal School education.

The statement has been made, that this money is being used to make up an alleged shortage in the Teachers' Pension Fund. This is plainly not the fact, because the $860,000 for building this school was to come from general State funds, while the Teachers' Pension Fund comes from educational funds, such as railroad taxes, etc. The amount required for the Teachers' Pension Fund was not included in Budget recommendations, be-

cause it does not come from the general State funds, and the Attorney-General advised the Pension Commission that they need not apply to the Budget Officer, and they did not so apply.

The Appropriation Bill includes the sum of $42,000, appropriated this year, and $58,000 reappropriated from last year, for the acquisition of piers, abutments and other property of the Stockton-Center Bridge Company, and for the construction of a bridge thereon.

There is no commission in existence at the present time authorized to build such a bridge. The Appropriation Bill puts it under the head of the "Commission for the Elimination of Toll Bridges," but an examination of the law under which they operate discloses that they have no power whatever to acquire what is left of a burned down bridge and construct a new one on what is left.

This is the same view, I understand, that has been taken by the Attorney-General of Pennsylvania. I am further informed that members of the Commission have the same view; and, furthermore, some of them say that they have not requested, and do not desire, to build such a bridge.

Another item included is, Maintenance, Red Bank Battle Monument. As stated in my veto of last year, there is no authority in law for this item. The act authorized an appropriation for the erection of the monument, on condition that Gloucester county maintain it. That county now seeks to be relieved of that obligation through this appropriation. It should keep its agreement.

This bill contains an item for $65,000 to purchase the Dayton property adjoining those already bought next to the State House.

The Budget Commission included an item of $60,000—which left a margin of $5,000 over the amount the property could be bought for.

Now, another $5,000 has been added—it seems to me, needlessly. The Vroom property, nearer the State House, only cost us $60,000, and we were informed and had a gentlemen's agreement for $55,000 on the Dayton property. The extra $5,000 should be eliminated.

The bill contains an item of $50,000 for an armory at Burlington.

I had occasion to veto this last year, because an examination showed that the Burlington Militia Company had had a most unsatisfactory record; at times the average attendance being eighteen.

Until the present company is on probation for a longer time and shows the necessity for the armory, it should not be built. The State is not under any duty to provide town-halls for municipalities.

The supplemental bill carries an item of $526 for additional Legislative manuals, authorized by resolution of the House of Assembly.

The distribution of manuals is regulated by statute, and such distribution and such payment is illegal, unless authorized by legislative act. If this is permitted to continue, there will be no limit to such action.

I have pointed out some of the additions and some of the omissions, but, in the limited time at my command, have not been able to point out all of them.

The Governor, under the Constitution, has but two courses to pursue; one to veto the bill in its entirety, the other to "object to one or more of the items in the bill while approving of the other portions."

I do not see how I can pursue the latter course in justice to the people of the State.

This Appropriation Bill carries with it the expenditure from State funds of over $15,000,000, and a gross expenditure of over nineteen and a quarter millions. In the expenditure of so large a sum of money, it is the duty of the Governor and of every legislator to know the provisions of this bill, what the expenditures are, and to see that they are made to the best advantage.

In order to accomplish this purpose, the Senate Rules, in Rule 37, provide "the annual, supplemental and incidental appropriation bills shall not be considered until at least one week has elapsed after they shal lhave been introduced, printed and placed upon the desks of the members."

This rule was not complied with, and, although the Legislature had been in session since January, the Appropriation Bill was placed upon the desks of the members of the Legislature at the exact hour fixed for final adjournment on the last night of the session, and a copy handed to the Governor at the same time. That is a time of confusion and excitement when numberless bills are being hurried through the legislative mill, and then delivered to the Governor to dispose of in five days.

The members of the Appropriation Committee were, probably, familiar with the contents of this bill, but it is not possible to believe that every one of the other seventy-two members could have known or have had any appreciation whatever of how this bill was made up, what it included, or what it eliminated.

Appropriations which it took the Budget Commission several months to prepare, and a bill which was in the hands of the Appropriation Committee for three months, certainly could not be understood by the members of the Legislature when it first made its appearance at ten o'clock on the night of the adjournment.

Such a gross neglect to study, consider and understand the expenditure of over $19,000,000 is a little short of a betrayal of the interest of the taxpayers of the State. Hours are spent in the Legislature in the discussion of whether the game season shall be extended a week, or whether perch shall be caught at certain times, but a bill spending $15,000,000 of the people's money is presented at the last moment and rushed through.

I am sure that every sensible and honest legislator will agree with me that the procedure is ridiculous, and, to every such member, it must be most unsatisfactory. I am sure all such will welcome an opportunity to do their full duty.

I am vetoing this entire bill, because to veto certain items would not correct its deficiencies. There are not only items which are erroneously included in the bill, but many have been deliberately or carelessly omitted.

I am vetoing the bill in the belief that thoughtful members of the Legislature will welcome an opportunity to study and consider this bill, add those items which should be added, and reject those which should be rejected, and so correct the mistakes in the present one.

I would, therefore, recommend that this veto be sustained, and that the Legislature set itself to the task of writing a new bill, having in mind the suggestions herein made, and that it give itself time to understand and consider it.

As members of the legislative and executive departments of the State, we are selected to do the State's work, and there is no reason why we should adjourn at this time and leave that work undone or carelessly done.

Respectfully submitted,
(Signed) GEORGE S. SILZER,
Governor.

Said nominations were referred to the Committee on Judiciary.

Mr. Larson, Chairman of the Committee on Judiciary, to whom were referred the nominations made by Hon. George S. Silzer, Governor of the State of New Jersey, in his communication of January nineteenth, one thousand nine hundred and twenty-five.

S. Neilson Rice, of New Brunswick, to be a Commissioner to the Port Authority, for the term prescribed by law.

Frank Ferguson, of East Orange, to be a Commissioner to the Port Authority, for the term prescribed by law, to fill the vacancy caused by the resignation of Frank Ford.

Frank Ferguson, of East Orange, to be a Commissioner to the Port Authority, to succeed himself from July 1, 1925, for the term prescribed by law.

William T. Kirk of Beverly, to be a member of the Board of Commerce and Navigation, for the term prescribed by law.

Charles C. Hommann, of Perth Amboy, to be a judge of the District Court of the city of Perth Amboy, to succeed himself, for the term prescribed by law.

Archibald C. Hart, of Hackensack, to be Prosecutor of the Pleas of Bergen county, to succeed himself, for the term prescribed by law.

Hugh L. Scott, of Princeton, to be a member of the State Highway Commission, to succeed himself, for the term prescribed by law.

Percy H. Stewart, of Plainfield, to be a member of the State Highway Commission, to succeed himself, for the term prescribed by law.

Reported favorably upon said nominations.

Mr. Mackay asked unanimous consent that the nomination of

Archibald C. Hart, of Hackensack, to be Prosecutor of the Pleas of Bergen county, to succeed himself, for the term prescribed by law.

Be taken up for confirmation.

Consent was granted.

Upon the question, "Will the Senate advise and consent to the said nomination?" it was decided as follows:

In the affirmative were—

Messrs. Agans, Blackwell, Borton, Bright (President), Cole, Davis, Groat, Harrison, Larson, Mackay, Pierson, Richards, Simpson, Stevens, Whitney, Williams, Woodruff —17.

In the negative—None.

So the said nomination was declared unanimously confirmed.

The following resolution was presented by Mr. Case.

For the President.

WHEREAS, By the Statute and the Constitution, the Senate is under the duty of advising with the Governor, as well as giving its consent in the appointment of public officers; and,

WHEREAS, The term of the Honorable Harry V. Osborne as a member of the Board of Public Utility Commissioners is expiring and the appointment of a successor is in hand, and the character of service rendered by Mr. Osborne not only has been beyond reproach, but because of his courage, intelligence, integrity and experience, is of such signal value to the State that the failure to re-appoint him will not only result in great loss to the State but will likewise be attributed by the public to personal, partisan motives at the expense of the public welfare; and,

WHEREAS, The duties and responsibilities of that position require a person of the ability, judgment and experience of the present incumbent:

Now, therefore, be it resolved, That the Senate in executive session, does respectfully advise His Excellency, the Governor, that in the judgment of the Senate, the public welfare requires the appointment of Mr. Osborne to succeed himself, as member of the Board of Public Utility Commissioners, and respectfully advises deliberate reconsideration of this important appointment.

Upon motion of Mr. Case, the resolution was adopted and the Secretary ordered to deliver a copy of the same to the Governor.

On motion of Mr. Larson, the Executive Session then arose.

That the President of the Senate shall refer all bills concerning pensions or increases of salaries to the Judiciary Committee; and

that said committee in reporting favorably upon bills carrying increases of salaries shall include in such report information concerning the following: First, whether the position requires the person's full time to the exclusion of other remunerative employment; second, whether, at the present salary, it is difficult to secure applicants for the position—9.

Resolution—That a Clerk to the Majority Leader be appointed at a salary of $350 for the legislative session of 1925—12.

That the Senate of New Jersey learns with extreme regret of the death at Jersey City, this morning, of Monsignor John Augustus Sheppard, Vicar General of the Roman Catholic diocese of North Jersey. He leaves the State bereaved; but mindful of his great service to any movement helpful to the commonwealth and beneficial to all, irrespective of creed or color. He died full of years and honors. His passing from the scenes of his labors leaves New Jersey with a deep sense of loss. His pen and heart were always at the service of men; and the poor and lowly found in him a brave and strong champion. A "great prince in Israel is fallen today." That this resolution be spread in full on the minutes of the Senate—37.

That the Senate appreciates the presence of ex-Senator now Judge Henry Kays. This proof that he has not in his present high position forgotten his old friends is cheering. Judge Kays be given the privilege of the floor—43.

That rule 38 be suspended for the remainder of the session, and that Senate and House bills, when passed by the Senate, be signed by the President and delivered forthwith by the Secretary to the House of Assembly—268.

That the privileges of the floor be granted to the Hon. James A. C. Johnson, a former member of this body—273.

That the privileges of the floor be extended to Hon. C. Asa Francis, former member and President of the body—278.

WHEREAS, Chapter 141, of the Laws of 1924, authorized the Governor of this State to appoint a commission to be known as the Commission of the 150th Anniversary of American Independence; AND WHEREAS, the year 1926 is the date of said anniversary and it appears that no commission has been appointed; therefore Be it resolved, That the attention of the Governor be called to the importance of the State of New Jersey having a suitable program in commemoration of this great event and that he be respectfully urged to appoint the members of this commission without further delay and that a copy of this resolution be forwarded to him forthwith—369.

That 1,000 additional copies of Senate Bill No. 163 be printed and delivered to the office of the Secretary of the Senate for distribution—394.

Resolution—That all bills in committee or that have not been passed be delivered to the Secretary to be filed in the State Library—551.

That when the Senate adjourns it be to meet at 7 o'clock A. M. Saturday morning, and that when it then adjourns it be to meet on Monday evening at 8 o'clock, and when it then adjourns it be to meet on Wednesday afternoon at 2 o'clock—553.

That the Secretary of the Senate be authorized to prepare indices of the Senate Journal and Minutes of the Executive Sessions in the same general manner as the indices of the session of 1924, and that he be paid four hundred dollars ($400.00) as compensation for preparing same—603.

That the members of the Senate hereby express their thanks and appreciation to all officers and the stenographic force of the Senate for the faithful and courteous manner in which they have performed their respective duties—603.

That the thanks of the Senate be and they are hereby extended to Mr. John Smith, custodian, John Multop, Janitor-foreman, and Harvey Rohrbach, postmaster, for the efficient and courteous manner in which they attended to the wants of the Senate during the session—603.

That the Senate record its approval and appreciation of the efficient manner in which the business of the session has been administered by the presiding officer, Honorable William H. Bright, the faithful and impartial nature of his ruling and the ready courtesy which he has uniformly accorded and extended to each member of this body—603.

That the Senate appreciates the many courtesies extended every member by Leader of the Majority, Honorable Morgan F. Larson, of the county of Middlesex; that the earnestness, fidelity and honesty of the Majority Leader is hereby acknowledged, and that the people of the State are indebted to him for his untiring efforts to promote legislation in the interests of all the people—604.

That the Minority Leader, Honorable Alexander Simpson, of the county of Hudson, has been at all times a courteous, capable and earnest legislator, and the Senate extends its congratulations to him upon the faithful and fearless manner in which he has performed the exacting duties of his position and its appreciation of his many courtesies—604.

That a committee of three be appointed by the President to wait upon His Excellency, the Governor, and inform him that the Senate has completed its labors and is about to adjourn *sine die*, and to inquire if the Executive has any further communications to make to this body—604.

That the hour of adjournment having arrived, the Secretary inform the House of Assembly that the Senate is now ready to adjourn *sine die* and awaits the presence of the House of Assembly in the Senate Chamber—620.
