Statement of Gov. Christie Whitman on Departure of NJT Director DeLibero, Appointment of Rosenblum as NJT Deputy Director

"I offer my best wishes to Shirley DeLibero as she embarks on a new career in Houston. I am pleased that the NJ TRANSIT Board of Directors has moved quickly to appoint New Jersey Department of Transportation Deputy Commissioner Stanley Rosenblum as the agency's Deputy Executive Director."

"The growth of public transportation is critical to our transportation vision for the next century. Public transportation moves more than 300,000 people each day, takes pressure off our highway infrastructure and is essential to enhancing air quality."

"It is imperative that we have in place a transit management team that will advance a 21st Century transportation strategy that meets the needs of transit users. Stan has an extensive background in public transit and will be an important part of that team. "

"I am confident that our actions today will ensure that NJ TRANSIT continues to provide the quality services that its customers have come to expect."
