(b) Bag limit: The bag limit for the spring turkey hunting season is one male wild turkey with each special wild turkey hunting permit and with each special farmer turkey permit. Only one turkey may be taken in a given day. The bag limit for the fall season is one wild turkey of either-sex.

(c) The hunting hours for wild turkey gobblers in the spring season shall be ½ hour before sunrise to noon daily. Hunting hours for the fall either sex turkey season shall be ½ hour before sunrise to ½ hour after sunset daily.

(d) Special wild turkey hunting permits are valid only during the hunting period designated and only in the designated turkey hunting area. Permits are not transferable.

(e) Hunting methods shall be restricted to calling or stand-hunting during the spring gobbler season. No person shall stalk or attempt to approach a wild turkey for the purpose of taking or attempting to take the bird. All persons must have a turkey calling device in their possession while turkey hunting. No person shall use an electronic calling device for calling turkeys at any time during the open season. Persons may not drive or chase wild turkeys for the purpose of putting them in range of hunters, except that fall hunters may rush turkeys for the purpose of causing the flock to scatter. No group of hunters larger than five individuals may hunt turkeys at any time. The use of dogs is prohibited in the spring gobbler season. No live decoys may be used. Fluorescent hunters orange is not required on outer clothing for turkey hunting. No shot size larger than No. 4 fine shot or smaller than No. 7½ fine shot may be used for turkey hunting. No shotgun larger than 10 gauge or smaller than 20 gauge may be used for turkey hunting. A person hunting turkeys shall not have in possession or control, a firearm or other weapon within 300 feet of a baited area during the turkey hunting seasons. A baited area is defined as the collection, deposit, concentration or unnatural gathering of feed including, but not limited to, corn, wheat, oats or other substance that may constitute a lure or enticement to turkeys.

(f) Method: The taking of one male wild turkey in the spring gobbler season or one wild turkey of either sex during the fall turkey season per special turkey permit with firearm or bow and arrow is permitted in any designated turkey hunting areas by holders of a special wild turkey permit.

1. Special wild turkey permits will be issued on an individual basis to holders of valid and current firearm or archery hunting licenses. Only one application per person may be submitted for the spring wild turkey season and only one application per person may be submitted for the fall turkey season during the initial application period. Only one application per person may be submitted for a left over permit during the initial application period. All persons, while their hunting licenses are void under authority of N.J.S.A. 23:3-22, are prohibited from making application for, or otherwise procuring a turkey hunting permit.

(g) Special permits consist of a back display which includes a wild turkey transportation tag. The back portion of the permit will be conspicuously displayed on the outer clothing in addition to the valid firearm or archery license. Any wild turkey killed must be tagged immediately with the completed wild turkey transportation tag. This completely filled in wild turkey transportation tag allows legal transportation of the wild turkey to an authorized checking station only. Personnel at the checking station will issue a "possession tag". Any permit holder killing a wild turkey must transport this wild turkey to an authorized checking station by 3:00 P.M. on the day killed during the spring gobbler hunting season or by 7:00 P.M. on the day killed during the fall turkey season to secure the legal "possession tag." The possession of a wild turkey after 3:00 P.M. on the date killed during the spring gobbler season or 7:00 P.M. on the date killed during the fall season without a legal "possession tag" shall be deemed illegal possession.

(h) Wild Turkey Hunting Permits shall be applied for as follows:

1. Only holders of valid and current firearm or archery hunting licenses, including juvenile licenses, may apply by detaching from the hunting license the stub marked "Special Turkey", signing as provided on the back, and sending the stub together with an application form which has been properly completed in accordance with instructions. Application forms may be obtained from:

- i. License issuing agents;
- ii. Division of Fish, Game and Wildlife, CN 400, Trenton, NJ 08625;
- iii. Wildlife Management Area Offices; or
- iv. District Law Enforcement Headquarters.

2. Only one application for an initial permit and only one application for a leftover permit may be submitted by any one individual during the prescribed application period. Duplicate applications will cause all applications by an individual to be void.

3. The application form shall be filled in to include: Name, address, 1997 firearm or archery hunting license number, turkey hunting areas applied for, hunting periods

applied for, and any other information requested. Only those applications will be accepted for participation in random selection which are received in the Trenton office during the period of February 1-22, 1997, inclusive. Applications received after February 22 will not be considered for the initial drawing. Selection of permits will be by random drawing.

i. Application for the fall hunting season shall be made in conjunction with the spring season application procedures in a form as prescribed by the Division.

4. Unless otherwise indicated, the permit fee in the form of a check or money order made payable to "Division of Fish, Game and Wildlife," must accompany the completed application form.

5. Unsuccessful applicants will be notified by return of permit fees, less an application fee per permit applied for. Any permit obtained by fraud is void.

6. Nothing contained herein shall preclude the Division from issuing unfilled permits on a first come-first served basis to any properly licensed bow and arrow hunter, firearm hunter or qualified farmer after the permit selection process.

(i) Special Farmer Turkey Permits shall be applied for as follows:

1. Only the owner or lessee of a farm, who resides thereon, or immediate members of his family 10 years of age or older who also reside thereon, may apply on forms provided for a special farmer turkey permit for the spring season and the fall season. Under this section a farm is an area of five acres or more and producing a gross income in excess of \$500.00 and is tax assessed as farmland. Special farmer spring turkey permits will be issued only in those Turkey Hunting Areas where a spring gobbler season is prescribed. Special farmer fall turkey permits will be issued only in those Turkey Hunting Areas where a fall turkey season is prescribed.

2. Application forms may be obtained from the Division of Fish, Game and Wildlife, CN 400, Trenton, N.J. 08625, or from Conservation Officers.

3. The application form shall be filled in to include: Name, age, address and any other information requested thereon. Properly completed application forms will be accepted in the Trenton office only during the period of February 1-22, 1997. There is no fee required and all qualified applicants will receive a Special Farmer Spring Turkey Permit or Special Farmer Fall Turkey Permit delivered by mail.

4. Only one farmer application may be submitted per individual during the initial application period. Application for a farmer turkey permit shall not preclude a farmer from applying for and the Division's issuing one regular turkey season permit as a holder of a valid hunting license.

(j) Turkey Hunting Permits and Special Farmer Turkey Permits shall be used as follows:

1. The turkey hunting permit is valid only in the turkey hunting area (THA) designated and during the time period designated and is not transferable. The floor of the mews shall permit easy cleaning and shall be well drained. Adequate perches shall be provided.

(2) Outdoor facilities (weathering area) shall be fenced and covered with netting or wire, or roofed to protect the birds from disturbance and attack by predators. The enclosed area shall be large enough to insure the birds cannot strike the fence when flying from the perch. These raptors may not be used for falconry.

ix. A person who lawfully possesses raptors before the enactment of these regulations, in excess of the number allowed under his class permit, shall be allowed to retain the extra raptors provided facility requirements are met and the birds are included on the falconry permit. x. Species of raptors not native to the state of New Jersey or otherwise covered by the regulations shall be allowed for the purpose of falconry provided they are legally acquired and are in compliance with all applicable Federal and State regulations. Only one muzzleloader rifle or smoothbore muzzleloader may be possessed while deer hunting.

3. Properly licensed persons 14 years of age and older engaged in hunting with a muzzleloader rifle must have in possession a proper and valid rifle permit. Properly licensed persons 14 years of age or older, hunting during the muzzleloader rifle permit deer season with a smoothbore muzzleloader must also have in possession a proper and valid rifle permit. Rifle permits for 14 to 17-year olds will be valid for muzzleloader deer hunting, muzzleloader squirrel hunting and woodchuck hunting.

4. A muzzleloader is considered unloaded when, in the case of a percussion cap rifle or shotgun, the percussion cap has been removed from the nipple; in the case of a flintlock, when the powder is removed from the pan and a boot or cover made of a nonmetallic material is placed over the frizzen.

5. Whenever a firearm is in a motor vehicle, in addition to the requirements found in N.J.A.C. 7:25-5.23(f)4 (unloaded), it shall be enclosed in a securely fastened case.

(g) No person shall hunt, hunt for, or attempt to capture, kill, take, injure or destroy game birds or animals except at

(m) The Division may issue special permits without fee, to shoot or hunt from a standing vehicle that is parked off the road, to licensed hunters who, after investigations, are found to be paraplegics. Permittees are subject to all applicable New Jersey Fish and Game laws and regulations.

(n) No person shall have both a firearm and a bow and arrow in his possession or under his control in the woods or fields or on the water while hunting any wild bird or mammal. This does not preclude a person from carrying both a firearm and bow and arrow in a motor vehicle. This does not apply to duly constituted law enforcement officers.

For the purposes of this permit, a visually handicapped individual is defined as one who is incapable of achieving proper sight alignment/sight picture using a muzzleloader rifle equipped with open sights or peep sights due to a permanent vision disability which cannot be adequately addressed through the use of corrective lenses. The rifle scopes permitted under a Special Muzzleloader Rifle Scope Permit shall be non-magnifying or fixed power of not more than 1.5x.

Applicants must demonstrate in writing the nature of the disability and the need for an exemption and must provide supportive medical documentation from a physician licensed to practice medicine in New Jersey. The Director or his or her representative(s) will review each request and schedule personal interviews to verify the circumstances and determine the specific requirements of each applicant, and assess the ability of each applicant to safely and effectively use alternative equipment or methods. Additional medical information and/or evaluation may be required. Each permit shall designate the specific alternative methods of take including equipment permitted for each individual determined to be qualified. Applications will be accepted during the period January 1 through August 31 of each year. Within 60 calendar days from the issuance of denial by the Division, the applicant may appeal to the Fish and Game Council. Any further right of appeal shall be determined and handled in accordance with the Administrative Procedures Act, N.J.S.A. 52:14B-1 et seq., and the Uniform Administrative Procedure Rules, N.J.A.C. 1:1. Except as provided in N.J.A.C. 7:25-5.24(e) all draw locking and draw holding devices are prohibited and all crossbows or variations thereof are prohibited. Hand-held releasing devices are permitted.

(b) No person shall use a bow and arrow for deer hunting, during the six-day firearm, permit muzzleloader or permit shotgun seasons. Nothing in this section shall preclude a properly licensed person from hunting with a bow and arrow when other seasons run concurrent and in the same deer management zones as the six-day firearm, permit muzzleloader or permit shotgun seasons or on any additional days if declared open. Bow and arrow hunting is not permitted between $\frac{1}{2}$ hour after sunset and $\frac{1}{2}$ hour before sunrise during other seasons except during the coyote calling season when hunting hours are one hour before sunrise and one hour after sunset. Deer shall not be hunted for or taken on Sunday except on wholly enclosed preserves that are properly licensed for the propagation thereof.

4. Arrows fitted with heads other than specified for deer may be carried in the woods and fields during the Upland Game Season or other seasons which overlap with the Bow and Arrow Deer Season, in addition to arrows specified for deer. It is unlawful to hunt with any device propelled by any means that is used for the purpose of injecting or delivering any type of drug into an animal.
5. All bows, except compounds, must have a minimum draw pull weight of 35 pounds at the archers' draw length. Compound bows must have a minimum peak weight of 35 pounds.

(d) No person shall hunt deer with the aid of a deer decoy except during the fall bow, winter bow and special bow seasons. No person shall hunt for deer with an electronic calling device, or any other device which projects a beam of light upon the target.

(e) The Division may issue a Special Bow Use Permit to certain physically handicapped individuals which would allow these individuals as specified below in this subsection to hunt with a longbow, recurved bow or compound bow that has been modified such that it has a mechanical device built into or attached to, that will enable the archer to draw and lock the bow at full or partial draw. Crossbows are prohibited. Special Bow Use Permit applications will require certification by a physician licensed to practice medicine in the State of New Jersey and be subject to Division's review and ratification. For the purposes of this permit, a handicapped individual is defined as one who is incapable of using a bow due to a permanent disability resulting from the loss of, or loss of use of, one or both arms as a result of birth defect, injury or disease.

Except as noted in (b)1 below, upon completion of registration of first deer, one valid and proper "New Jersey Supplemental Deer Permit and Transportation Tag" (supplemental tag) will be issued which will allow this person to continue hunting and take one additional deer of either sex during the current fall bow deer season. The supplemental tag shall not be valid on the day of issuance and all registration requirements apply.

A multiple bonus tag may be used to take a deer of either sex and any age, subject to the above provisions and is only valid in the multiple bonus tag zones listed above. If the season has concluded, said deer must be taken to a regular deer checking station on the following weekday to receive a legal possession tag.

(c) This season shall be open only to holders of a valid and current bow and arrow hunting license which contains an attached fall bow and arrow deer "transportation tag" or a proper and valid supplemental tag or a proper and valid bonus tag. If the anticipated harvest of deer has not been accomplished during this season, additional days of bow and arrow deer hunting may be authorized by the Director.

This shall not preclude a properly licensed hunter from taking one antlerless deer per permit and per day on these dates, or from taking the regular bag limit of two deer of either sex and any age per permit in the remainder of the regular season as noted in (d) below. The bag limit in Zone 66 will be three deer of either sex and any age.

(d) Duration of the muzzleloader rifle permit season is as set forth in (d)1 through 8 below. There is no season in the following Zones: 38, 40, 56, 59, 60, 62 and 64. Legal hunting hours shall be sunrise to ½ hour after sunset E.S.T.

6. December 2, 3, 16-24 and 26-31, 1996 in Zone 54;

7. December 2-7, 1996 in Zone 66; and

8. At other times as determined by the Director.

(e) Permits for muzzleloader rifle permit season are valid only in the designated deer management zones or other designated areas and are not transferrable.

(f) Method: The taking of two deer of either sex and any age except as noted in (c)1 above or the taking of deer as designated for special hunts is authorized to holders of valid permits for muzzleloader rifle permit season in designated deer management zones. Only one deer may be taken in a given day per permit. The taking of two deer of either sex

and any age or the taking of deer as designated for special hunts is authorized to holders of valid farmer permits for muzzleloader rifle permit season only on the farm occupied and designated on the permit application. Only one deer may be taken in a given day per permit.

1. Permits for muzzleloader rifle permit season will be issued on an individual basis to holders of valid and current firearm licenses and qualified farmers. Only one application per regular firearm license holder may be submitted, whether for muzzleloader rifle or shotgun permit seasons, during the initial application period. During the initial application period, regular firearm license holders may also submit one application for either a left-over shotgun or muzzleloader deer permit in the event such permits are available following the initial drawing. Duplicate or multiple applications will cause all applications to be void. All persons, while their hunting licenses are void under the authority of N.J.S.A. 23:3-22, are prohibited from making application for, or otherwise procuring a muzzleloader deer permit.

(g) Permits for muzzleloader rifle permit season consist of back display which includes a "deer transportation tag" or proper and valid supplemental tag. The back display portion of the permit will be conspicuously displayed on the outer clothing in addition to the valid firearm license. The "deer transportation tag" portion of the permit must be completely filled out, and affixed to the deer immediately upon killing. This completely filled in "deer transportation tag" allows legal transportation of the deer of either sex to an authorized checking station only. Personnel at the checking station will issue a "possession tag". Any permit holder killing a deer must transport the deer to an authorized checking station by 7:00 P.M. E.S.T. on the day killed to secure the legal "possession tag". The possession of a deer of either sex after 7:00 P.M. E.S.T. on the day killed without a legal "possession tag" shall be deemed illegal possession. Any legally killed deer which is recovered too late to be brought to the check station by closing time must be immediately reported by telephone to the nearest Division of Fish, Game and Wildlife law enforcement regional headquarters. Said deer must be brought to a checking station on the next open day to receive a legal "possession tag". If the season has concluded said deer must be taken to a regular deer check station on the following weekday to receive a legal possession tag.

(h) Muzzleloader Rifle Permit Season Permits shall be applied for as follows:

1. Only holders of valid and current firearm hunting licenses may apply by detaching from their hunting license the stub marked "Special Deer Season 1996" signing as provided on the back, and sending the stub, together with the permit fee and an application form which has been properly completed in accordance with instructions. Application forms may be obtained from:

i. Division of Fish, Game and Wildlife, CN400 Trenton, New Jersey 08625.

ii. License issuing agents.

iii. Conservation Officers.

iv. Other Division officers.

v. Other Division field offices.

2. No juvenile license holders are eligible.

3. Only one application whether for muzzleloader rifle or shotgun permit season, accompanied by the hunting license stub, may be submitted by any regular firearm license holder during the initial permit application period. During the initial application period, regular firearm license holders may also submit one application for either a left-over shotgun or muzzleloader deer permit in the event such permits are available following the initial drawing. Applications for more than the allowable number of permits during the initial application period will cause all applications by an individual to be void.

4. The application form shall be filled in to include: Name, address, current firearm license number, deer management zone applied for, and any other information requested. Only those applications will be accepted for participation in random selection which are received in the Trenton office during the period of August 15-September 10, inclusive. Applications postmarked after the September 10 will not be considered for the initial drawing. Selection of permittees will be made by random selection.

5. Unsuccessful applicants will be notified by return of permit fees, less application fee per permit applied for. Any permit obtained by fraud shall be void.

6. Successful applicants will receive their permits by mail. Unless otherwise indicated the permit fee in the form of a check or money order, made payable to "Division of Fish, Game and Wildlife," must accompany the completed application form.

7. Nothing contained herein shall preclude the Division from issuing unfilled permits on a first come-first served basis to any properly licensed hunter or qualified farmer after the permit selection process.

(i) Farmer Muzzleloader Rifle Permit Season Permits shall be applied for as follows:

1. Only the owner or lessee of a farm, who resides thereon, or the immediate members of his family 14 years of age or older who also reside thereon, may apply on forms provided for a farmer muzzleloader rifle permit season permit. Under this subsection a farm is an area of five acres or more and producing a gross income in excess of \$500.00 and is tax assessed as farmland. Farmer muzzleloader rifle permit season permits will be issued only in those deer management zones where a muzzleloader rifle permit season is prescribed.

2. Application forms may be obtained from the County Agricultural Agent, the Division of Fish, Game and Wildlife, CN 400, Trenton, N.J. 08625, conservation officers, or other Division offices.

3. The application form shall be filled in to include: Name, age, size of farm, address, and any other information requested thereon. Properly completed application forms will be accepted in the Trenton office during the period of August 1 to 15. There is no fee required, and all qualified applicants will receive a farmer muzzleloader rifle permit season permit, delivered by mail.

4. Qualified farmers may apply for one shotgun permit season permit in any management zone in addition to one muzzleloader rifle permit season permit in any management zone where a muzzleloader rifle permit season is prescribed. Qualified farmers may also apply for either the muzzleloader rifle permit season permit or shotgun permit season permit as a regular firearm hunting license applicant. Application for more than the allowable number of permits during the initial application period will cause all applications by an individual to be void.

5. Nothing contained herein shall preclude the Division from issuing unfilled or unclaimed permits on a first

come-first served basis to any qualified farmer or properly licensed hunter after the permit selection process.

(j) Muzzleloader Rifle Season Permits and Farmer Muzzleloader Rifle Season Permits shall be used as follows:

1. The muzzleloader rifle permit season permit is valid only in the deer management zone (DMZ) designated and is not transferrable. The farmer muzzleloader rifle permit season permit is valid only on the farm occupied and designated in the application and is not transferrable. The DMZ quota and DMZ map follow. The permit hunter is responsible for hunting in the correct DMZ or farm as indicated and in ascertaining the boundaries.

2. Neither the muzzleloader rifle permit season permit nor the farmer muzzleloader rifle permit season permit is transferrable from deer management zone to deer management zone, from farm to farm, or from individual to individual. The permit must be used on the farm, in the management zone, and by the individual to whom it was issued.

(k) The Deer Management Zone Map is on file at the Office of Administrative Law and is available from that agency or the Division. The 1996 Muzzleloader Rifle Deer Season Permit Quotas (either sex) are as follows:

17. At other times as determined by the Director.

18. The permit shotgun season for persons possessing farmer shotgun permit season permits includes the six-day firearm season in addition to the day or days the season is open for applicable zones by qualified farmers on the farm occupied and designated in the application. All other regulations applicable to the zone and farmer shotgun permits shall apply.

(e) Shotgun permit season permits are valid only in the designated deer management zones or other designated areas and are not transferrable.

(f) Method: The taking of deer of either sex and any age with a shotgun under a shotgun permit season permit or a farmer shotgun permit season permit is permitted in designated deer management zones by holders of a shotgun permit season permit and, on their own property, by holders of a farmer shotgun permit season permit.

1. Shotgun permits for shotgun permit season will be issued on an individual basis to holders of valid and current firearm licenses and qualified farmers. Only one application, whether for shotgun or muzzleloader permit season, accompanied by the hunting license stub, may be submitted by regular firearm license holders for the initial permit drawing. During the initial application period, regular firearm license holders may also submit one application for either a leftover shotgun or muzzleloader permit in the event such permits are available following the initial drawing. Applications for more than the allowable number of permits during the initial application period will cause all applications by an individual to be void. All persons, while their hunting licenses are void under the authority of N.J.S.A. 23:3-22, are prohibited from making application for, or otherwise procuring, a shotgun deer permit.

(g) Permits for shotgun permit season consist of back display which includes a "deer transportation tag" or proper and valid supplemental tag. The back display portion of the permit will be conspicuously displayed on the outer clothing in addition to the valid firearm license in the case of a shotgun permit season permit, and without the license in the case of the farmer shotgun permit season permit. The "deer transportation tag" portion of the permit must be completely filled out, and affixed to the deer immediately upon killing. This completely filled in "deer transportation tag" allows legal transportation of the deer of either sex to an authorized checking station only. Personnel at the checking station will issue a "possession tag." Any permit holder killing a deer of either sex during this season must transport this deer to an authorized checking station by 7:00 P.M. E.S.T. on date killed to secure the legal "possession tag." The possession of a deer of either sex after 7:00 P.M.

E.S.T. on the date killed without a legal "possession tag" shall be deemed illegal possession. Any legally killed deer which is recovered too late to be brought to the check station by closing time must be immediately reported by telephone to the nearest Division of Fish, Game and Wildlife law enforcement regional headquarters. Said deer must be brought to a checking station on the next open day to receive a legal "possession tag." If the season has been concluded said deer must be taken to a regular deer checking station on the following weekday to receive a legal "possession tag." For deer management zones where the shotgun permit season is more than one day and the bag limit is two deer, a second valid and proper "New Jersey Supplemental Deer Permit and Transportation Tag" will be issued upon registration of the first deer. This permit will allow this person to continue hunting and take one additional legal deer during the shotgun permit season, provided the season is open the following day(s) or on any additional days that shotgun permit season hunting is authorized. For deer management zones where the shotgun permit season is three days or more and the bag limit is three deer or more additional "New Jersey Permit and Transportation Tags" will be issued upon registration of the second, third or applicable deer until the bag limit is reached. This permit will allow this hunter to continue hunting and take one additional legal deer during the shotgun permit season, provided the season is open or on any additional days that shotgun permit season hunting is authorized. Permittees will be able to continue hunting on the following designated season dates after registration of deer and issuance of appropriate tags. For deer management Zones 38, 56, 59, 64 and 66 where two deer may be taken per permit per day, an additional valid and proper "New Jersey Permit and Transportation Tag" will be issued to the permittee, directly from the Division.

(h) Shotgun Permit Season Permits shall be applied for as follows:

1. Only holders of valid and current firearm hunting licenses including juvenile firearm license holders may apply by detaching from their hunting license the stub marked Special Deer Season for the current year, signing as provided on the back, and sending the stub, together with the permit applied for and an application form properly completed in accordance with instructions. Application forms may be obtained from:

- i. Division of Fish, Game and Wildlife, CN 400, Trenton, New Jersey 08625.
- ii. License issuing agents.
- iii. Conservation Officers.
- iv. Other division offices.

2. Permits for shotgun permit season will be issued on an individual basis to holders of valid and current firearm licenses. Only one application, whether for shotgun or muzzleloader permit season, accompanied by the hunting license stub, may be submitted by any one individual during the initial application period and only one application, whether for a leftover shotgun or leftover muzzleloader permit, may be submitted by any one individual during the initial application period. Applications for more than the allowable number of permits during the initial application period will cause all applications to be void.

3. The application form shall be filled in to include: Name, address, current firearm hunting license number, deer management zone applied for, and any other information requested. Only those applications will be accepted for participation in random selection which are received in the Trenton office during the period of August 15—September 10. Applications postmarked after September 10 will not be considered for the initial drawing. Selection of permittees will be made by random selection.

4. Unsuccessful applicants will be notified by return of permit fees less the application fee per permit applied for. Any permit obtained by fraud is void.

5. Successful applicants will receive their permits by mail. Unless otherwise indicated, the permit fee in the form of a check or money order made payable to "The Division of Fish, Game and Wildlife" shall accompany the completed application form.

6. Nothing herein contained shall preclude the Division from issuing unfilled and unclaimed permits on a first come-first served basis to any properly licensed hunter after the permit selection process.

(i) Farmer Shotgun Permit Season Permits shall be applied or as follows:

1. Only the owner or lessee of a farm, who resides thereon, or the immediate members of his family 10 years of age or older who also reside thereon, may apply on forms provided for a farmer shotgun permit season permit. Under this section, a farm is an area of five acres or more and producing a gross income in excess of \$500.00 and is tax assessed as farmland. The Farmer Shotgun Permit Season Permit will be issued in all deer management zones.

2. Applications forms may be obtained from the County Agricultural Agent, the Division of Fish, Game and Wildlife, CN 400, Trenton, N.J. 08625, or the conservation officers.

3. The application form shall be filled in to include: Name, age, size of farm, address, and any other information requested thereon. Properly completed application forms will be accepted in the Trenton office during the period of August 1 to 15. There is no fee required, and all qualified applicants will receive a farmer shotgun permit season permit, delivered by mail.

4. Qualified farmers may apply for one shotgun permit season permit in any management zone in addition to one muzzleloader rifle permit season permit in any management zone where a muzzleloader rifle permit season is prescribed. Qualified farmers may also apply for either the permit shotgun or permit muzzleloader season permit as a regular firearm hunting license applicant. Application for more than the allowable number of permits during the initial application period will cause all applications by an individual to be void.

5. In deer management zones where no regular permit shotgun season has been authorized, the season for qualified and permitted farmers will be the Wednesday following the six-day firearm season and as provided for in (d)18 above, and the bag limit will be one deer of either sex and any age per permit.

(j) Shotgun and Farmer Shotgun Permit Season Permits shall be used as follows:

1. The shotgun permit season permit is valid only in the deer management zone (DMZ) designated and is not transferable. The farmer shotgun permit season permit is valid only on the farm occupied and designated in the application and is not transferable. The DMZ quota and DMZ map follow. The shotgun permit season permit hunter is responsible for hunting in the correct DMZ or farm as indicated and in ascertaining the boundaries.

2. Neither the shotgun permit season permit nor the farmer shotgun permit season permit is transferable from deer management zone to deer management zone, or from farm to farm, or from individual to individual. The permit must be used on the farm, in the deer management zone, and by the individual to whom it was issued.

7:25-5.30 White-tailed deer bow permit season (either sex)

(a) The Director with the approval of the Council may authorize the issuance of bow permit season permits for the taking of deer anywhere within this State or at any State or Federal installation.

(b) If the anticipated harvest of deer has not been accomplished during this season, one additional day of bow permit deer hunting may be authorized by the Director. Such authorization and date thereof shall be announced by press and radio.

(c) Bag Limit: Two deer of either sex and any age per permit except as indicated in 1 below. Only one deer may be taken in a given day per permit. Deer shall be tagged immediately with the bow and arrow, permit "transportation tag", completely filled in, and shall be transported to a checking station before 7:00 P.M. E.S.T. on the day killed. Upon completion of the registration of the first deer, one valid and proper "New Jersey Supplemental Deer Permit and Transportation Tag" will be issued which will allow the person to continue hunting and take one additional deer of either sex during bow permit season, provided the season is open on the following day. The supplemental tag shall not be valid on the day of issuance and all registration requirements apply.

1. In deer management Zones 39, 40, 59 and 61, one additional deer of either sex and any age may be taken by any properly licensed hunters who harvests an antlerless deer first in these zones, exclusively. A "New Jersey Bonus Deer Permit and Transportation Tag" will be issued in addition to the New Jersey Supplemental Deer Permit and Transportation Tag at designated check sta-

tions. The bonus deer tag is not valid on the day of issuance and shall only be valid in the applicable permit bow season zone. Bonus tags are not transferable. Only one deer may be taken per day. All deer tagging and registration requirements apply.

(d) Duration of the bow permit season is from November 2-30, 1996 in Zones 1-12, 14-20, 22, 23, 25-35, 37, 41-53, 55, 57, 58, 59, 61, 63 and 65; and November 2-December 31, 1996 in Zones 13, 36, 39, 40 and 54; and November 2-30 and December 9-31, 1996 in Zone 66 or any time as determined by the Director. Deer Management Zones 21, 24, 38, 56, 60, 62 and 64 are not open for this season. Legal hunting hours shall be $\frac{1}{2}$ hour before sunrise to $\frac{1}{2}$ hour after sunset.

(e) Bow permit season permits are valid only in the designated deer management zones or other designated areas and are not transferable.

(f) Method: The taking of two deer of either sex and any age with a bow under a bow permit season permit or a farmer bow permit season permit, is permitted in designated deer management zones by holders of a bow permit season permit and on the farm occupied and designated in the application by holders of a farmer bow permit season permit.

1. Bow permit season permits will be issued on an individual basis to holders of valid and current bow licenses and qualified farmers.

(g) Permits consist of back display which includes a deer transportation tag or proper and valid "supplemental tag". The back display portion of the permit will be conspicuously displayed on the outer clothing in addition to the valid bow license, and without the license in the case of the farmer bow and arrow permit season permit. The "deer transportation tag" portion of the permit must be completely filled out and affixed to the deer immediately upon killing. This completely filled in deer transportation tag allows legal transportation of the deer of either sex to an authorized checking station only. Personnel at the checking station will issue a "possession tag." Any permit holder killing a deer of either sex during this season must transport this deer to an authorized checking station by 7:00 P.M. E.S.T. on date killed to secure the legal "possession tag." The possession of a deer of either sex after 7:00 P.M. E.S.T. on date killed without a legal "possession tag" shall be deemed illegal possession. Any legally killed deer which is recovered too late to be brought to the check station by closing time must be immediately reported by telephone to the nearest Division of Fish, Game and Wildlife law enforcement regional headquarters. Such deer must be brought to a checking station on the next open day to receive a legal "possession tag". If the season has been concluded such deer must be taken to a regular deer checking station on the following weekday to receive a legal "possession tag".

(h) Bow Permit Season Permits shall be applied for as follows:

1. Only holders of valid bow and arrow licenses including juvenile bow license holders may apply by detaching from their bow hunting license the stub marked special deer season for the current year license, signing as provided on the back, and sending the stub together with the permit fee and an application form which has been properly completed in accordance with instructions. Application forms may be obtained from:

- i. Division of Fish, Game and Wildlife, CN 400, Trenton, NJ 08625;
- ii. License Issuing Agents; and
- iii. Conservation Officers.
- iv. Division Field Offices.

2. Application for a bow permit season permit shall not preclude an individual from applying for either the muzzleloader rifle or shotgun season permits.

3. Only one application may be submitted per regular bow license holder during the initial application period and only one application for a left-over permit may be submitted by any one individual during the initial application period. Application for more than the allowable number of permits during the initial application period will cause all applications by an individual to be void. All persons, while their hunting licenses are void under the authority of N.J.S.A. 23:3-22, are prohibited from making application for or otherwise procuring a bow deer permit.

4. The application form shall be filled in to include: Name, address, current bow and arrow hunting license number, deer management zone applied for, and any other information requested. Only those applications will be accepted for participation in random selection which are received in the Trenton office during the period of August 15-September 10. Applications postmarked after September 10 will not be considered for the initial drawing. Selection of permittees will be made by random selection.

5. Unsuccessful applicants will be notified only by return of permit fees, less the application fee. Any permit obtained by fraud is void.

6. Unless otherwise indicated, the permit fee in the form of a check or money order made payable to "Division of Fish, Game and Wildlife" must accompany the completed application form.

7. Successful applicants will receive their permit by mail.

8. Nothing herein contained shall preclude the Division from issuing unfilled or unclaimed permits on a first-come, first-served basis to any properly licensed hunter or qualified farmer after the permit selection process.

(i) Farmer Bow Permit Season Permits shall be applied for as follows:

1. Only the owner or lessee of a farm, who resides thereon, or the immediate members of his family 10 years of age or older who also reside thereon, may apply on forms provided for a farmer bow permit season permit. Under this section a farm is an area of five acres or more and producing a gross income in excess of \$500.00 and is tax assessed as farmland. Farmer bow permit season permits will be issued only in those deer management zones where a bow permit season is prescribed.

2. Application forms may be obtained from:

- i. County Agricultural Agent;
- ii. Division of Fish, Game and Wildlife, CN 400, Trenton, NJ 08625; and
- iii. Conservation Officers.
- iv. Division field offices.

3. The application form shall be filled in to include: Name, age, size of farm, address, and any other information requested thereon. Properly completed application forms will be accepted in the Trenton office during the period of August 1 to 15. There is no fee required, and all qualified applications will receive a farmer permit bow season permit, delivered by mail.

4. Only one farmer application may be submitted per individual. Application for a farmer bow permit season permit shall not preclude an individual from applying for either the farmer muzzleloader rifle or shotgun permit seasons permits, or from applying for one regular bow permit season permit as a bow hunting license applicant. Application for more than the allowable number of permits during the initial application period will cause all applications by the individual to be void.

(j) Bow and Farmer Bow Permit Season Permits shall be used as follows:

1. The bow permit season permit is valid only in the deer management zone (DMZ) designated and is not transferable. The farmer bow permit season permit is valid only on the farm occupied and designated in the application and is not transferable. The DMZ quota follows below at (k). The DMZ map is on file at the Office of Administrative Law. The bow and arrow permit season permit hunter is responsible for hunting in the correct DMZ or farm as indicated and in ascertaining the boundaries.

2. Neither the bow permit season permit nor the farmer bow permit season permit is transferable from DMZ to DMZ, or from farm to farm, or from individual to individual. The permit must be used on the farm, in the DMZ, and by the individual to whom it was issued.

(k) The Deer Management Zone Map is on file at the Office of Administrative Law and is available from that agency or the Division. The 1996 Bow Permit Season Quotas (Either Sex) are as follows:
