TOO MANY ALREADY? I'M YOUR MAN!

Yes, sir, I don't know how many hundred thousand people I have cured of that complaint, but it is quite a few. It's common. It's more common than cold in the head. It's the first thing a man says to me when I tackle him to take the Farm Journal.

"Another farm paper?" says he. "I guess not; I have too many already."

Then I say, "Well, why on earth don't you stop about six of them and take one real GOOD paper? A paper that is practical, concise, boiled-down; cream, not skim-milk. In short, the Farm Journal. You really need ONLY ONE farm paper, if that one is THE BEST ONE."

"How do I know yours is the best?" says he.

"You don't," I reply. "You have got to try it and see. That is just what I want you to do."

And then I go ahead and give him some of these facts:

The Farm Journal was first issued by me in March, 1877, and has been published continuously to the present time. It contains from 32 to 80 pages, according to the month. It is printed on good white paper, in large, clear type, and is fully illustrated.

It is cut to fit the farmers and villagers of America and will fit every one that is the right shape.

It knows what to put in, better still, it knows what to leave out.

It prints no tiresome, long-winded essays, and is no good for insomnia.

It is seasonable, treating topics in season only.

It contains no guessing swindles, no get-rich-quick concerns, no medical advertising, no land shark schemes, no nasty or unclean advertising of any sort whatever.

It has no political ax to grind, and demands only that farmers shall have seats at the First Table. It calls for fair play for every one that works and means well.

It looks on the bright side of things, turning the dark side to the wall; likes a grin better than a groan.

It pleases the women folks all to pieces.

Boys and girls cry for it.

DON'T LET THEM CRY! Send a dollar to-day, and you get this great little paper for FIVE YEARS.

BURLINGTON COUNTY

ITS FARMS AND FARMERS

THE publishers of the FARM JOURNAL maintain that we all need to know more of our own home counties and the neighbors who are right around us.

Did you ever have the experience of going to a great city like Philadelphia or New York and hearing from people there something about the importance of your own county that you never knew before?

This FARM DIRECTORY is published for the people of Burlington county in the belief that it will reveal to them many things of great interest and value about the farms and farming interests of their own county.

Burlington county has a total area of 869 square miles, and a population according to the last census, of 66,565, which gives 76.6 persons to the square mile. Gloucester county has 115 persons to the mile, and Monmouth 198.

Of the total land area of about 521,600 acres in the county, 287,816 acres, about 55 per cent., is in farms.

There are in the county 2389 farms, the average size being 120 acres.

According to the census of 1910, the value of all farm property in the county, including land, buildings, implements, domestic animals, poultry, etc., is $18,946,545. This gives an average of $7931 per farm.

Of the men operating these 2389 farms, 2142, or 90 per cent., are

native Americans, and 203, or 9 per cent., are foreign-born; 44 are colored.

Of the 2389 farms in the county 1551, or 65 per cent., are operated by their owners, and 729, or 30 per cent., by tenants. Of the tenant farmers, 51 per cent. pay cash rent and 38 per cent. work on shares.

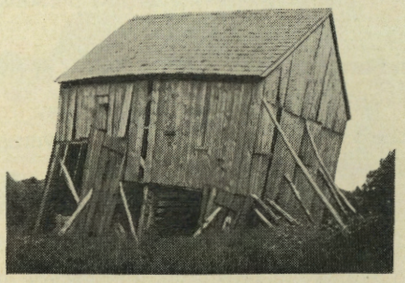

Of the 1551 farms operated by their owners, 629, or 40 per cent., are reported as free from mortgage debt, and 889, or 51 per cent., bearing mortgages.

The largest crops of Burlington county are corn and potatoes. The latest census report gives the crop of corn for one year as 1,208,591 bushels, of white potatoes as 1,073,371 bushels.

Burlington county stands quite high in the value of farms and farm products, is progressive in farming methods, and as a natural result is one of the prosperous farming counties of New Jersey. One evidence of this is the fact that the FARM JOURNAL has a circulation in the county of over 2,500, which is nearly one subscriber to every farm in the county. This we believe exceeds the circulation here of any other paper published.

There is no better index of the intelligence of farmers than the extent to which the standard agricultural papers are read by them.

The prosperity of Burlington county farmers is further shown by the character of their houses, buildings and farm equipment. The pictures in this book show this in a very graphic way, and will be found of deep interest to readers both within and without the county.

Peter Tumbledown's Barn. This is situated in another county.

OLDEST BRAND IN AMERICA

IRON AGE

FARM, GARDEN and ORCHARD TOOLS

have been made in Gloucester Co., New Jersey, for more than three-fourths of a century, by men who have also been practical farmers and gardeners. At the present time, the Vice-President and the General Manager each own large farms on which they use modern machinery of all kinds, including Iron Age tools, many of which are developed in that way. They are trade-marked tools and widely advertised in all parts of the world—they are known as "standard" in their line—to be depended on for the work claimed for them. Are not these the kind that you aim to use? Don't go away from home to buy good machines—the makers are handy to get at when you want a new machine quick or some needed repairs and they are always here.

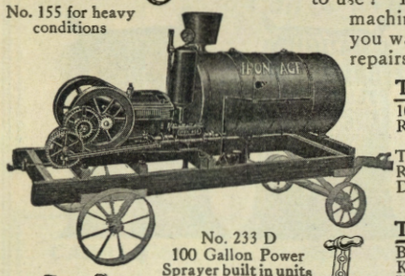

One seed piece in every hill and one only.

100 per cent. Potato Planter

One of 4 styles

10 MILES for 1 CENT

WHY waste valuable time in the more expensive way of traveling—with horses.

THE HARLEY-DAVIDSON

motorcycle makes the trip in one-fifth the time, never tires, is always ready and costs nothing when not in use. It will save you its cost many times over. Let us show you what a Motorcycle would do for you.

RIDGWAY D. NIPPINS

Route No. 2 Burlington, N. J.

BURLINGTON TOWNSHIP

ABBREVIATIONS.—a, means acres; bds., boards; B. tel., Bell telephone; 4 ch., 4 children; col., colored; H&L, house and lot; H19, Highway or Road No. 19 (see map); O, owns; R1, Rural Route No. 1; ret., retired; T, tenant; WOS, works on shares.

Names in CAPITALS are those of FARM JOURNAL subscribers—always the most intelligent and progressive people in this or any county. No Tumbledowns, for no farmer can keep on reading the F. J. and being a Tumbledown too. Many have tried, but all have to quit one or the other.

A Burlington County market train.

CHESTER TOWNSHIP

(See also Moorestown)

ABBREVIATIONS.—a, means acres; bds., boards; B. tel., Bell telephone; 4 ch., 4 children; col., colored; H&L, house and lot; H19, Highway or Road No. 19 (see map); O, owns; R1, Rural Route No. 1; ret., retired; T, tenant; WOS, works on shares.

Names in CAPITALS are those of FARM JOURNAL subscribers—always the most intelligent and progressive people in this or any county. No Tumbledowns, for no farmer can keep on reading the F. J. and being a Tumbledown too. Many have tried, but all have to quit one or the other.

Woodside Poultry Farms

W. Wyandottes, R. I. Reds and W. Leghorns. 6000 Egg Incubator. Custom Hatching, Day-Old Chicks, Fresh Eggs, Chickens, Squab Ducks and Squab Pigeons killed to order.

WOODSIDE POULTRY FARMS

A paying orchard in the upper part of the county.

CHESTERFIELD TOWNSHIP

ABBREVIATIONS.—a, means acres; bds., boards; B. tel., Bell telephone; 4 ch., 4 children; col., colored; H&L, house and lot; H19, Highway or Road No. 19 (see map); O, owns; R1, Rural Route No. 1; ret., retired; T, tenant; WOS, works on shares.

Names in CAPITALS are those of FARM JOURNAL subscribers—always the most intelligent and progressive people in this or any county. No Tumbledowns, for no farmer can keep on reading the F. J. and being a Tumbledown too. Many have tried, but all have to quit one or the other.

Stokes' Seed Store

The Home of Twenty Thousand American Gardens

THIS sign hung in front of our Market Street Store for several weeks during the Spring Season. Perhaps you saw it—lots of New Jersey folks did. We have some very good friends over the River. It is an interesting fact that the business from our New Jersey trade this past season was fifty per cent. ahead of the average volume of business for the preceding six years; and in this, Burlington County did its full share. Such an increase is due to the confidence which the large growers have come to place in the house. Careful judgment and long experience is the strength behind the Stokes reputation.

Are you one of the twenty thousand?

WALTER P. STOKES

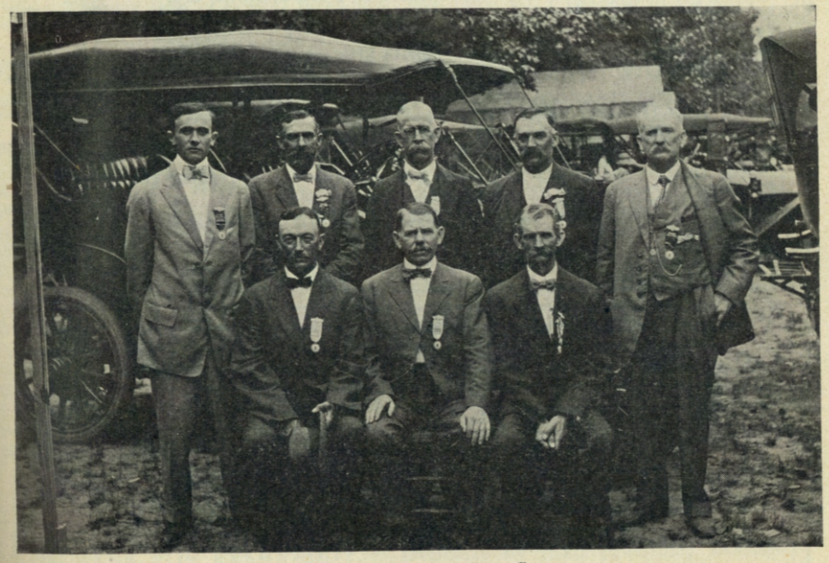

SEEDSMAN

219 Market Street **Philadelphia**

House Paints, Barn Paints and Shingle Stains

Beautifies and Protects Property

TO OUR FARMER FRIENDS: We have a special proposition to make you. It will mean money in your pocket. Write today. A postal will do.

WE SELL AT ROCK BOTTOM PRICES

Dry Venetian and Indian Reds, Yellow Ochres, Linseed Oil and Dryer

THE FOLLOWING TESTIMONIALS ARE FROM TWO OF OUR CUSTOMERS. READ WHAT THEY SAY.

Cranbury Turnpike, N. J., Sept. 10, 1913.

Messrs. J. D. Watson & Co.
New Brunswick, N. J.

Gentlemen:

I take great pleasure in advising you that 8 years ago I painted my house and barns with one coat of your NB ready mixed paint. At the present time they are in first-class condition.

From past experience, I believe there is not another ready mixed paint which will give the same satisfaction as does yours.

You need have no hesitancy in referring any of your prospective customers to me.

(Signed) Henry J. Tice.

Franklin Park, N. J., Aug. 14, 1913.

J. D. Watson & Co., New Brunswick, N. J.

Dear Sirs:

Answering your letter asking my opinion of your ready mixed house paint, would say that I am more than satisfied with the wearing qualities of same. Some four years ago I made my first purchase from you and since then as the occasion arose have made further purchases, in fact have my houses and barns painted with your NB Brand.

I can truthfully say that I never used any paint that was superior in quality, and consider it the best on the market. Yours truly,

P. O. Box 27 *(Signed) Robert Collum.*

Moorestown : : N. J.

Harvesting wheat.

LUMBERTON TOWNSHIP

ABBREVIATIONS.—a, means acres; bds., boards; B. tel., Bell telephone; 4 ch., 4 children; col., colored; H&L, house and lot; H19, Highway or Road No. 19 (see map); O, owns; R1, Rural Route No. 1; ret., retired; T, tenant; WOS, works on shares.

Names in CAPITALS are those of FARM JOURNAL subscribers—always the most intelligent and progressive people in this or any county. No Tumbledowns, for no farmer can keep on reading the F. J. and being a Tumbledown too. Many have tried, but all have to quit one or the other.

MANSFIELD TOWNSHIP

ABBREVIATIONS.—a, means acres; bds., boards; B. tel., Bell telephone; 4 ch., 4 children; col., colored; H&L, house and lot; H19, Highway or Road No. 19 (see map); O, owns; R1, Rural Route No. 1; ret., retired; T, tenant; WOS, works on shares.

Names in CAPITALS are those of FARM JOURNAL subscribers—always the most intelligent and progressive people in this or any county. No Tumbledowns, for no farmer can keep on reading the F. J. and being a Tumbledown too. Many have tried, but all have to quit one or the other.

MEDFORD TOWNSHIP

ABBREVIATIONS.—a, means acres; bds., boards; B. tel., Bell telephone; 4 ch., 4 children; col., colored; H&L, house and lot; H19, Highway or Road No. 19 (see map); O, owns; R1, Rural Route No. 1; ret., retired; T, tenant; WOS, works on shares.

Names in CAPITALS are those of FARM JOURNAL subscribers—always the most intelligent and progressive people in this or any county. No Tumbledowns, for no farmer can keep on reading the F. J. and being a Tumbledown too. Many have tried, but all have to quit one or the other.

"THE BANK FOR EVERYBODY." Deposits by mail promptly acknowledged. SECURITY TRUST CO., Camden, N. J.

The BURLINGTON COUNTY SAFE DEPOSIT & TRUST COMPANY MOORESTOWN NEW JERSEY

A "Roll of Honor Trust Company"

What does it mean to be known as a "Roll of Honor" Trust Company?

It means that before any Bank or Trust Company can claim this distinction, it must have Surplus and Profits in excess of its Capital Stock.

"The New York Financier" has prepared a table from the latest obtainable statement made by the Trust Companies, which shows that there are about 1600 Trust Companies in the United States, and only 290 of these are entitled to position on the Roll of Honor. It further shows that The Burlington County Safe Deposit & Trust Company, Moorestown, N. J., STANDS

FIRST in MOORESTOWN.
FIRST in the COUNTY of BURLINGTON.
FIRST in the STATE of NEW JERSEY.
TWENTY-FIFTH in the UNITED STATES.

We point with pride to this distinction, because it is a POSITION THAT CANNOT BE BOUGHT.

For an Executor you can't get an individual who has all the qualifications which The Burlington County Safe Deposit and Trust Company, Moorestown, N. J., possesses—viz.:

Large experience.
Permanent—don't die.
Absolutely confidential.
No prejudices or politics.
Keeps down cost.
Trust not imperiled by possible failure or dishonesty.

Capital (subscribed) - -	$ 200,000.00
Capital (paid in) - - -	100,000.00
Surplus and Undivided Profits (earned) - - - - -	325,000.00
Resources - - - - - -	2,022,233.00

Receives Special Deposits of $1.00 and upward, allowing interest at the rate of 3 per cent. per annum from the date of deposit until due date of withdrawal. Interest compounded semi-annually. Write for signature card, which contains full instructions for banking by mail.
AUTHORIZED BY LAW to act as Executor, Trustee, Administrator, Guardian, Assignee, Receiver, and in all fiduciary capacities, both under court and personal appointment.
All Trust Investments are kept separate and apart from the Company's assets.
TRUST FUND, not included above, $1,528,496.00.

WILLIAM W. STOKES, *President and Trust Officer*
JOHN C. HOPKINS, *Vice-President*
WILLIAM R. LIPPINCOTT, *Treasurer*
WILLIAM D. LIPPINCOTT, *Solicitor*

Moorestown, N. J., June 20, 1913.

Picking cherries from their own tree.

MOORESTOWN

(See also Chester Township)

ABBREVIATIONS.—a, means acres; bds., boards; B. tel., Bell telephone; 4 ch., 4 children; col., colored; H&L, house and lot; H19, Highway or Road No. 19 (see map); O, owns; R1, Rural Route No. 1; ret., retired; T, tenant; WOS, works on shares.

Names in CAPITALS are those of FARM JOURNAL subscribers—always the most intelligent and progressive people in this or any county. No Tumbledowns, for no farmer can keep on reading the F. J. and being a Tumbledown too. Many have tried, but all have to quit one or the other.

THE HOME OF GOOD FOOTWEAR

SHOE VALUE

Boots, Shoes and Rubbers
Men's, Women's and Children's

We know Leather and can make the Shoe, therefore, are able to show you what others can only tell you.

We specialize on goods made of "SOLID LEATHER," and sell them at prices as low as is consistent with good shoemaking.

If you want cheaper goods, "not all leather" we will show you what they're made of and charge accordingly.

Buy Your Footwear Here and Get What You Pay For

Farm of Horace Roberts (The Ranch)

MT. LAUREL TOWNSHIP

ABBREVIATIONS.—a, means acres; bds., boards; B. tel., Bell telephone; 4 ch., 4 children; col., colored; H&L, house and lot; H19, Highway or Road No. 19 (see map); O, owns; R1, Rural Route No. 1; ret., retired; T, tenant; WOS, works on shares.

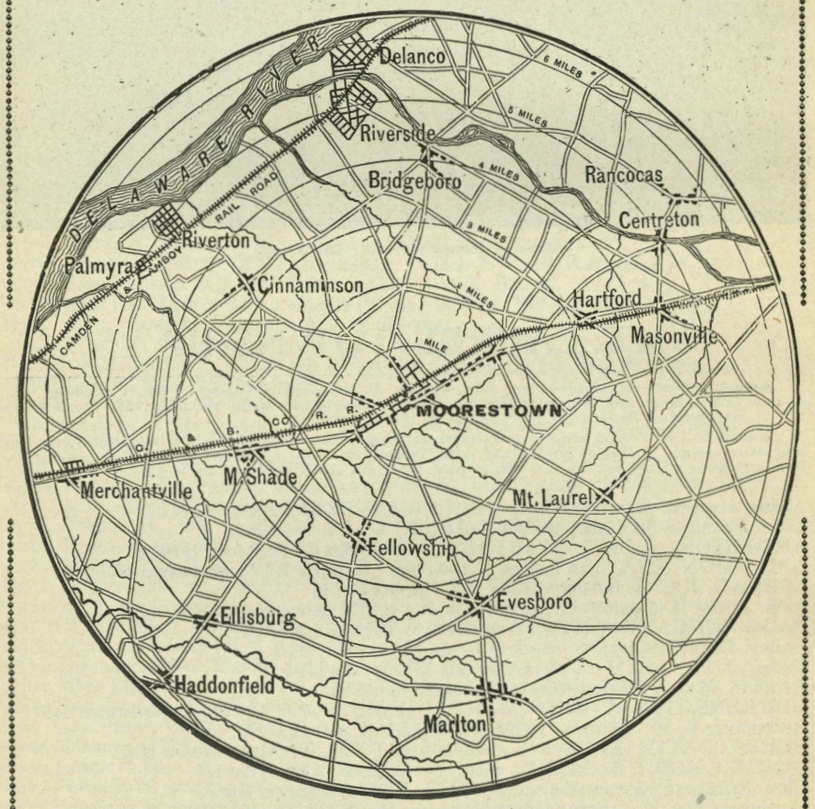

Names in CAPITALS are those of FARM JOURNAL subscribers—always the most intelligent and progressive people in this or any county. No Tumbledowns, for no farmer can keep on reading the F. J. and being a Tumbledown too. Many have tried, but all have to quit one or the other.

Alcott, Herbert (Ella) 3 ch farmer O 80a Ind tel R2 Moorestown H47.

A GOOD ADVERTISING FIELD

With purchasing power far beyond the average, is shown in the map below, WITH MOORESTOWN AS ITS CENTER. Ten miles from Philadelphia, in the richest suburban and agricultural district of Burlington County, New Jersey.

Our people are cash customers for the best obtainable in all lines, and considerably over ninety per cent of them read every issue of the *Chronicle*.

This community pays more taxes per head than any other in the county, and contributes more to county and state taxes than other communities of double its population. The

Moorestown Chronicle

is the only paper here, and is read in this territory by more people than any or all other papers of its kind.

For rates and other information address CHRONICLE OFFICE, Moorestown, N. J.

NORTHAMPTON TOWNSHIP

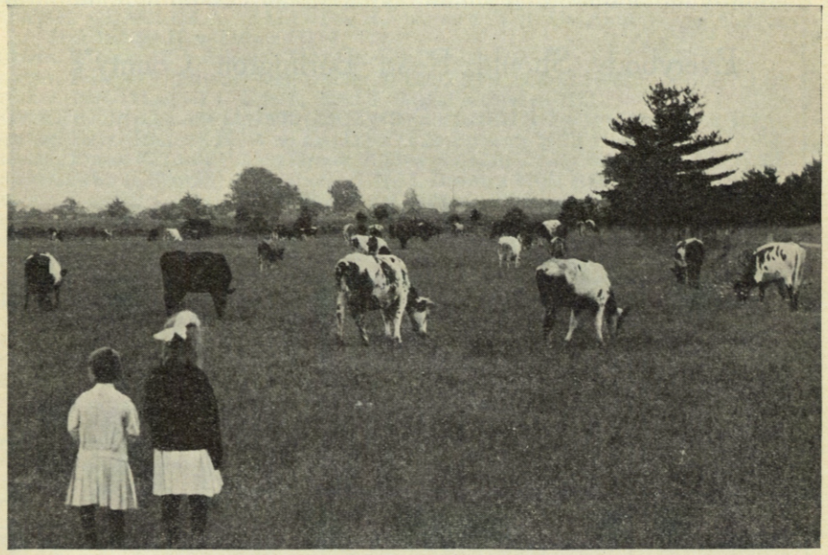

(See Mt. Holly)

PALMYRA TOWNSHIP

Owing to recent changes in Township lines the names of Farmers or Subscribers in Palmyra Township are printed under the heading of Cinnaminson Township.

PEMBERTON

The names of Farmers or Subscribers located in Pemberton are printed under the heading of Pemberton Township.

A South Jersey dairy farm.

PEMBERTON TOWNSHIP

ABBREVIATIONS.—a, means acres; bds., boards; B. tel., Bell telephone; 4 ch., 4 children; col., colored; H&L, house and lot; H19, Highway or Road No. 19 (see map); O, owns; R1, Rural Route No. 1; ret., retired; T, tenant; WOS, works on shares.

Names in CAPITALS are those of FARM JOURNAL subscribers—always the most intelligent and progressive people in this or any county. No Tumbledowns, for no farmer can keep on reading the F. J. and being a Tumbledown too. Many have tried, but all have to quit one or the other.

RIVERSIDE

The names of Farmers or Subscribers located in Riverside are printed under the heading of Delran Township.

RIVERTON

The names of Farmers or Subscribers located in Riverton are printed under the heading of Cinnaminson Township.

ART PRINTING

The Distance

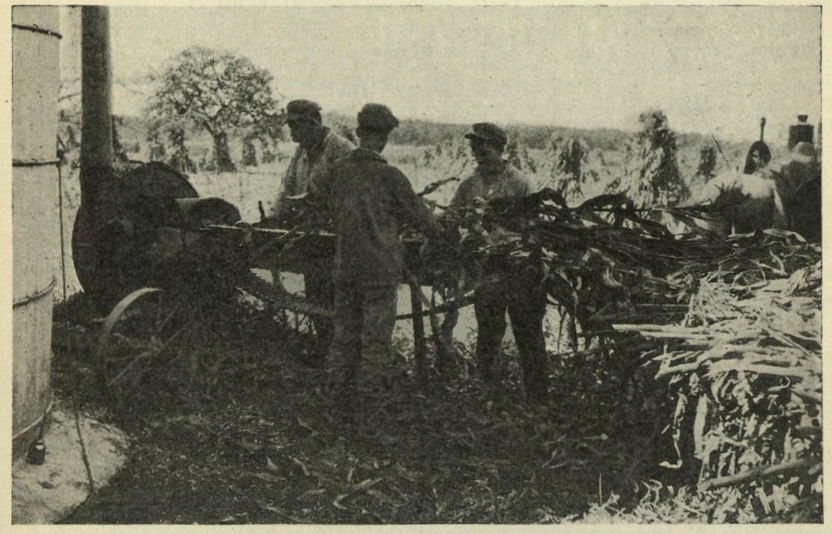

from the top of the desk to the waste-basket is about thirty-six inches. If your printed matter fails to make good you pay "ocean-front rates" for these three feet.

"Art Printing" stays on top of the desk.

The New Era

We make a specialty of
Blotters in two or more colors,
Booklets, and
Distinctive Stationery

Filling a silo with a modern cutter.

SPRINGFIELD TOWNSHIP

ABBREVIATIONS.—a, means acres; bds., boards; B. tel., Bell telephone; 4 ch., 4 children; col., colored; H&L, house and lot; H19, Highway or Road No. 19 (see map); O, owns; R1, Rural Route No. 1; ret., retired; T, tenant; WOS, works on shares.

Names in CAPITALS are those of FARM JOURNAL subscribers—always the most intelligent and progressive people in this or any county. No Tumbledowns, for no farmer can keep on reading the F. J. and being a Tumbledown too. Many have tried, but all have to quit one or the other.

Akins, Jennie E. (widow of Walter H.) bds R1 Jobstown H34.
Allen, Fredrick J. farm hand bds Jobstown H31.

SPRAYING FORMULAS

FUNGICIDES.—Bordeaux mixture is made by taking three pounds of sulphate of copper, four pounds of quicklime, fifty gallons of water. To dissolve the copper sulphate, put it into a coarse cloth bag and suspend the bag in a receptacle partly filled with water. Next, slake the lime in a tub, and strain the milk of lime thus obtained into another receptacle. Now get some one to help you, and with buckets, *simultaneously* pour the two liquids into the spraying barrel or tank. Lastly, add sufficient water to make fifty gallons. It is safe to use this full-strength Bordeaux on almost all foliage—except, perhaps, on extra tender things, such as watermelon vines, peach trees, etc. For these it is wiser to use a half-strength mixture.

FORMALIN.—This is also called formaldehyde, and may be purchased at drug stores. Its principal use is to treat seed potatoes to prevent "scab." Soak the whole seed for two hours in a mixture of one-half pint formalin and fifteen gallons of cold water; dry the seed, cut, and plant in ground that has not recently grown potatoes.

BORDEAUX COMBINED WITH INSECT POISON.—By adding one-quarter pound of Paris green to each fifty gallons of Bordeaux, the mixture becomes a combined fungicide and insecticide. Or, instead of Paris green, add about two pounds of arsenate of lead. The advantages of arsenate of lead over Paris green are, first, it is not apt to burn foliage even if used in rather excessive quantities; and, second, it "sticks" to the foliage, etc., better and longer.

INSECTICIDES.—ARSENATE OF LEAD.—This is the best insecticide for chewing insects, and is for sale by seedsmen. Use about two pounds in fifty gallons of water.

WHITE HELLEBORE.—This, if fresh, may be used instead of Paris green in some cases—worms on currant and gooseberry bushes, for instance. (It is not such a powerful poison as the arsenites, and would not do so well for tough insects such as potato-bugs.) Steep two ounces in one gallon of hot water, and use as a spray.

FOR SUCKING INSECTS.—Now we come to another class of insecticides, suited to insects which suck a plant's juice but do not chew. Arsenic will not kill such pests; therefore we must resort to solutions which kill by *contact*.

KEROSENE EMULSION.—One-half pound of hard or one quart of soft soap; kerosene, two gallons; boiling soft water, one gallon. If hard soap is used, slice it fine and dissolve it in water by boiling; add the boiling solution (away from the fire) to the kerosene, and stir or violently churn for from five to eight minutes, until the mixture assumes a creamy consistency. If a spray pump is at hand, pump the mixture back upon itself with considerable force for about five minutes. Keep this as a stock. *It must be further diluted with water before using.* One part of emulsion to fifteen parts of water, is about right for lice.

CARBOLIC ACID EMULSION.—Made by dissolving one pound of hard soap or one quart of soft soap in a gallon of boiling water, to which one pint of *crude* carbolic acid is added, the whole being stirred into an emulsion. One part of this is added to about thirty-five parts of water and poured around the bases of the plants, about four ounces per plant at each application, beginning when the plants are set out and repeated every week or ten days until the last of May. Used to fight maggots.

WHALE-OIL SOAP SOLUTION.—Dissolve one pound of whale-oil soap in a gallon

(Continued on page 216)

SPRAYING CALENDAR

Plant	First Application	Second Application
APPLE ..... *(Scab, rot, rust, codling moth, bud moth, tent caterpillar, canker worm, curculio, etc.)*	When buds are swelling, but before they open, Bordeaux.	If canker worms are abundant just before blossoms open, Bordeaux-arsenical mixture.
ASPARAGUS ..... *(Rust, beetles.)*	Cut off all shoots below surface regularly until about July 1st.	After cutting ceases, let the shoots grow and spray them with Bordeaux-arsenical mixture.
BEAN ..... *(Anthracnose, leaf blight, weevil, etc.)*	Treat the seed before planting with bisulphide of carbon. (See remarks.) When third leaf expands, Bordeaux.	10 days later, Bordeaux.
CABBAGE ..... *(Worms, lice, maggots, etc.)*	Pyrethrum or insect powder.	7-10 days later, repeat.
CELERY ..... *(Blight, rot, leaf spot, rust, caterpillars.)*	Half strength Bordeaux on young plants in hotbed or seedbed.	Bordeaux, after plants are transplanted to field. (Pyrethrum for caterpillars if necessary.)
CHERRY ..... *(Rot, aphis, slug, curculio, black knot, leaf blight, or spot, etc.)*	As buds are breaking, Bordeaux; when aphis appear, tobacco solution or kerosene emulsion.	When blossoms drop, Bordeaux-arsenical mixture.
CURRANT ..... GOOSEBERRY ..... *(Worms, leaf blight.)*	At first appearance of worms, hellebore.	10 days later, hellebore. Bordeaux if leaf blight is feared.
GRAPE ..... *(Fungous diseases, Rose bugs, lice, flea, beetle, leaf hopper, etc.)*	In spring, when buds swell, Bordeaux.	Just before flowers unfold, Bordeaux-arsenical mixture.
MELONS ..... CUCUMBERS ..... *(Mildew, rot, blight, striped bugs, lice, flea beetle, etc.)*	Bordeaux, when vines begin to run.	10-14 days repeat. (Note: Always use half strength Bordeaux on watermelon vines.)
PEACH ..... *(Rot, mildew, leaf curl, curculio, etc.)*	As the buds swell, Bordeaux.	When fruit has set, repeat. Jar trees for curculio.
PEAR AND QUINCE .... *(Leaf blight, scab, psylla, codling moth, blister mite, slugs, etc.)*	As buds are swelling, Bordeaux.	Just before blossoms open, Bordeaux. Kerosene emulsion when leaves open for psylla, if needed.
PLUM ..... *(Curculio, black knot, leaf blight, brown rot, etc.)*	When buds are swelling, Bordeaux.	When blossoms have fallen, Bordeaux-arsenical mixture. Begin to jar trees for curculio.
POTATO ..... *(Flea beetle, Colorado beetle, blight rot, etc.)*	Spray with Paris green and Bordeaux when about 4 in. high.	Repeat before insects become numerous.
TOMATO ..... *(Rot, blight, etc.)*	When plants are 6 in. high, Bordeaux.	Repeat in 10-14 days. (Fruit can be wiped if disfigured by Bordeaux.)

Note.—For San Jose scale on trees and shrubs, spray with the lime-sulphur mixture in autumn after leaves fall, or (preferably) in early spring, before buds start. The lime-sulphur

SPRAYING CALENDAR

Third Application.	Fourth Application.	Remarks.
When blossoms have fallen. Bordeaux-arsenical mixture.	8-12 days later, Bordeaux - arsenical mixture.	For aphis (lice) use one of the lice remedies mentioned elsewhere. Dig out borers from tree trunks with knife and wire. For oyster-shell scale, use whale-oil soap spray in June.
2-3 weeks later, Bordeaux-arsenical mixture.	Repeat in 2-3 weeks.	Mow vines close to ground when they are killed by frost, burn them, and apply a mulch of stable manure.
14 days later, Bordeaux.	14 days later, Bordeaux.	For weevils: Put seed in tight box, put a cloth over seed, pour bisulphide of carbon on it, put lid on and keep closed for 48 hours Use 1 oz. to 4 bus. of seed.
7-10 days later, repeat.	Repeat every 10-14 days until crop is gathered.	Root maggots: Pour carbolic acid emulsion around stem of plants. Club root: Rotate crops; apply lime to soil; burn refuse; treat seed with formalin before planting.
14 days later, repeat.	14 days later, repeat.	Rot or rust is often caused by hilling up with earth in hot weather. Use boards for summer crop. Pithy stalks are due to poor seed; or lack of moisture.
10-14 days, Bordeaux.	Hellebore, if a second brood of slugs appear.	Black knot: Dark fungous-looking bunches or knots on limbs. Cut off and burn whenever seen.
10-14 days, repeat, if necessary.	2 to 4 weeks later, repeat.	Cane-borers may be kept in check by cutting out and burning infested canes.
When fruit has set, Bordeaux - arsenical mixture.	2 to 4 weeks later, Bordeaux.	For lice, use any of the lice remedies. For rose bugs, use 10 pounds of arsenate of lead and one gallon of molasses in 50 gallons of water, as a spray. Or knock the bugs into pans of kerosene every day.
10-14 days, repeat.	10-14 days, repeat.	Use lice remedies for lice. For striped bugs, protect young plants with a cover of mosquito netting over each hill. Or keep vines well dusted with a mixture of air-slaked lime, tobacco dust and a little Paris green.
When fruit is one-half grown, Bordeaux.	Note:—It is safer always to use half-strength Bordeaux on peach foliage.	Dig out borers. Cut down and burn trees affected with "yellows."
After blossoms have fallen. Bordeaux-arsenical mixture.	8-12 days later, repeat.	Look out for "fire blight." Cut out and burn blighted branches whenever seen.
10-14 days later, repeat.	10-20 days later, Bordeaux.	Cut out black knot whenever seen.
Repeat for blight, rot and insects.	Repeat.	To prevent scabby tubers, treat the seed with formalin before planting.
Repeat in 10-14 days.		Hand-pick tomato worms.

mixture is a fungicide as well as a scale cure, and if it is used the *first* early Bordeaux spray may be omitted.

(Continued from page 213)

of hot water, and dilute with about six gallons of cold water. This is a good application for aphis (lice) on trees or plants. For oyster-shell or scurvy scale use this spray in May or June or when the tiny scale lice are moving about on the bark.

TOBACCO TEA.—Piace five pounds of tobacco stems in a water-tight vessel, and cover them with three gallons of hot water. Allow to stand several hours; dilute the liquor by adding about seven gallons of water. Strain and apply. Good for lice.

LIME-SULPHUR MIXTURE.—Slake twenty-two pounds of fresh lump lime in the vessel in which the mixture is to be boiled, using only enough water to cover the lime. Add seventeen pounds of sulphur (flowers or powdered), having previously mixed it in a paste with water. Then boil the mixture for about an hour in about ten gallons of water, using an iron but not a copper vessel. Next add enough more water to make, in all, fifty gallons. Strain through wire sieve or netting, and apply while mixture is still warm. A good, high-pressure pump is essential to satisfactory work. Coat every particle of the tree. This is the standard San Jose scale remedy, although some orchardists prefer to use the soluble oil sprays now on the market.

PYRETHRUM, OR PERSIAN INSECT POWDER.—It may be dusted on with a powder bellows when the plants are wet; or one ounce of it may be steeped in one gallon of hot water, and sprayed on the plants at any time. It is often used on flowers, in greenhouses, on vegetables, etc.

BISULPHIDE OF CARBON.—This is used to kill weevils in beans and peas, etc. It comes in liquid form and may be had of druggists. When exposed to the air it quickly vaporizes into a poisonous and explosive gas which is heavier than air and which will destroy all insect life. (Caution.—Do not inhale the vapor, and allow no lights near.)

Tobacco stems, tobacco dust, kainit, soot, freshly-slaked lime, dust, etc., are often used as insect *preventives*—in the soil around plants to keep away grubs, worms and maggots, or dusted on to discourage the visits of cucumber bugs, etc. (Note.—The first four are excellent fertilizers as well as insect preventives.)

Crows and blackbirds frequently pull up planted corn. The best preventive is to tar the seed, as follows: Put the seed into a pail and pour on enough warm water to cover it. Add a teaspoonful of coal-tar to a peck, and stir well. Throw the seed out on a sieve or in a basket to drain, and then stir in a few handfuls of land plaster (gypsum), or air-slaked lime.

A NEW FUNGICIDE.—Some orchardists are now using the following self-boiled lime-sulphur spray, instead of Bordeaux, claiming that it is less liable to spot or burn fruit and foliage: Put eight pounds of unslaked lump lime in a barrel; add enough water to cover. When the lime begins to heat, throw in eight pounds of flowers of sulphur. Constantly stir and gradually pour on more water until the lime is all slaked; then add the rest of the water to cool the mixture. About fifty gallons of water, in all, are required. Strain. Two pounds of arsenate of lead may be added, if desired, to the finished mixture, which then becomes a combined fungicide *and* insecticide, and may be used in the same manner as advised for Bordeaux-arsenate of lead. (Special note.—The self-boiled mixture is *not* the same as the lime-sulphur advised for San Jose scale, which is too strong for trees in foliage.)

If you do not care to bother with making spraying mixtures at home, they can be purchased, already prepared, of seedsmen. For only a few trees or plants, the extra cost of these factory mixtures is not great.

Three Good Ideas to Every Ten Words

I BEGAN editing the Farm Journal 36 years ago on the theory that time was almighty scarce. That what people needed was a paper that told when they needed to know, and was quick about it.

That's the kind of paper I edited then, and I edit it now the same way, only more so.

Honestly, you have no idea what can be done in the way of boiling down, shortening, condensing, and getting to the heart of the matter, if you have not read my Farm Journal; 35 years of it have taught me something. My smallest issue, 32 pages, has a lot more in than 132 pages of some papers I have read. Why, I believe some editors will not average more than one idea to 1,000 words (and not much of an idea at that sometimes.) My aim is three good ideas to every 10 words, and four if I can make it! We don't hit it always, but—well, the average is pretty fair; pretty fair.

I do not know how many read my paper, but I have to fight to keep it until I read it myself. I have seen the Farm Journal in eight or ten more houses in my neighborhood, with my name on the title page. One family numbers fifteen and they all read the Farm Journal. C. W. H. Cedro, Wash.

We think your little paper is all right, because it has no tobacco, liquor or quack medicine advertisements in its columns. Its pages are so clean that we are not afraid to let the children read them, and wish all papers were as clean.
(I receive thousands of such letters) Mrs. G. H. Becket, Ridgeway, Wis.

YOU ARE MISSING SOMETHING

if you are not reading the Farm Journal. You can live without it, of course, but you can't live so MUCH; you can make nearly as much money, perhaps, but YOU WON'T BE SO HAPPY.

WILMER ATKINSON, Editor Farm Journal
WASHINGTON SQUARE, PHILADELPHIA

Peter is no joke

Many a prosperous farmer has laughed at Peter Tumbledown, when it was really Peter that had made him prosperous.

"You give me some pretty hard whacks over Peter's shoulders," writes a Western subscriber to the FARM JOURNAL, "but my wife says that we never would have had the fine farm and home and the bank account that we have today, if it had not been for Peter Tumbledown."

It seems as if Peter himself could never be reformed, but he has reformed lots of other farmers, and made them successful and prosperous.

Get the FARM JOURNAL habit, and you will soon drop the Tumbledown habit. *You can't stick to both.*

FARM JOURNAL ("cream, not skim-milk") is 36 years old, and has over 750,000 paid subscribers, more than any other farm paper. Its four million readers (known as "Our Folks") are the most intelligent and prosperous country people in the world, and are always saying that FARM JOURNAL helped to make them so. It is clean, practical, brief, "boiled down," full of gumption, fun and sunshine. It preaches kindness, order, thrift, comfort and happiness. "Our Folks" have tight roofs and fences, gates that swing free, sound horses, big apples, well dressed wives and children, and money in bank. Their potatoes are the largest, their milk tests the highest, their hogs weigh the most, their fruit brings the best prices. Farmers everywhere are finding this out, and naturally want the FARM JOURNAL.

Send a dollar to-day, and you get this great little paper for FIVE YEARS
