## General Application Milestone Codes

Application Approved	F = Complete for Filing	P = Permit Decision Date
Application Denied	H = Public Hearing Date	R = Complete for Review
Application Withdrawal	I = Additional Information Requested	T = Additional Information Received
A= Approved	IS = Issued	W= Withdrawn
C = Cancelled	L = Legal Appeal of Permit Decision	
D= Denied	M = Permit Modification	

## Specific Decision Application Codes

O = Other

REG = HMDC/Pinelands Exemption

## Permit Descriptions

CAFRA – A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Coastal Permit: A permit or an authorization issued under this chapter pursuant to CAFRA, the Wetlands Act of 1970, N.J.S.A. 13:9A-1 et seq., or the Waterfront Development Law, N.J.S.A. 12:5-3.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway, floodplain or riparian zone in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

## Appeals on Applications

---

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs  
Attn: Adjudicatory Hearing Requests  
Department of Environmental Protection  
PO Box 402

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
BUREAU OF RELEASE PREVENTION**

**NOTICE OF DRAFT PERMIT TO CONSTRUCT TWO NEW UNDERGROUND STORAGE CAVERN  
SYSTEMS INCLUDING A CENTRAL COMPLEX AND OPPORTUNITY FOR PUBLIC COMMENT**

Delaware River Partners LLC  
Program Interest (PI) 1032630, Permit Application No. CAV230001

**TAKE NOTICE** that pursuant to N.J.S.A. 58:10-35.1 et seq. (“Act”), N.J.S.A. 13:1D-1 et seq., N.J.S.A. 13:1K-et seq., N.J.S.A. 58:10-35.1 et seq., and N.J.A.C. 7:1F, Underground storage caverns, the New Jersey Department of Environmental Protection (Department) is proposing to approve a permit to construct two new underground storage cavern systems, including a central complex, based on an application submitted by Delaware River Partners (DRP) LLC. DRP is the owner and operator of the proposed underground storage cavern systems located at 200 N. Repauno Ave, Gibbstown, Gloucester County, NJ 08027. DRP submitted its initial application on December 14, 2023, which supersedes its June 2, 2023, permit application. An electronic version of the initial application was submitted on January 3, 2024. DRP submitted the following supplemental and supporting documents, which the Department determined to be administratively complete on April 3, 2024, and technically complete on February 3, 2025. DRP’s initial application and supplemental information as identified below comprise DRP’s complete application that the Department proposes to approve.

- December 14, 2023 (applicant’s initial application; electronic version submitted January 3, 2024)
- March 13, 2024 (applicant’s response to the Department’s Notice of Administrative Deficiency dated February 12, 2024, with Exhibits 1 through 10)
- March 22, 2024 (applicant’s supplemented response to Notice of Administrative Deficiency - Item No.1 with Qualifications, Conflict of Interest Statements, and Certification pages)
- April 24, 2024 (final report for the Slaking Test performed on various rock types in response to Item #3 of the Department’s Notice of Administrative Deficiency dated February 12, 2024)
- May 31, 2024 (third-party evaluation report “Repauno Port and Rail Terminal Proposed Gas Cavern Storage Facility Delaware River Partners, LLC Gibbstown, New Jersey,” Schnabel Reference 24720019.000)
- June 14, 2024 (email correspondence from DRP to Schnabel including a clarification document to the May 31, 2024, third-party evaluation report (DRP-Cavern 6.7.24 DRAFT E-mail to Schnabel re\_ TPE Report (10786354.7) and two attachments)
- June 25, 2024 (revised third-party evaluation report “Repauno Port and Rail Terminal Proposed Gas Cavern Storage Facility Delaware River Partners, LLC Gibbstown, New Jersey,” Schnabel Reference 24720019.000)
- September 19, 2024 (applicant’s Radiation Monitoring Plan (RMP) with procedures for supplemental core drilling, Supplemental Core Drilling Plan revised to refer to the RMP and procedures, and logging tool specification)
- October 22, 2024 (applicant’s response to Department’s Notification of Technical Deficiencies dated September 24, 2024, with Exhibits A through C)
- November 19, 2024 (applicant’s response to Department’s Notification of Technical Deficiencies dated November 1, 2024, including a copy of the Front-End Engineering Design (FEED) Report, revision 13)
- November 20, 2024 (applicant’s Technical Memorandum: “DRP – Repauno: Bulkhead Design”)
- January 10, 2025 (applicant’s response to the Department’s December 24, 2024, memorandum concerning Delaware River Partners LLC’s October 22, 2024, and November 19, 2024, responses, including Exhibit A)

The Department initially proposed to approve the permit to construct by notice in the March 5, 2025, DEP Bulletin. By notification on the Department's website on March 24, 2025, and notice in the April 2, 2025, DEP Bulletin, the Department withdrew its proposed approval of the permit. The Department is now re-proposing to approve the draft permit to construct. As explained below, all written comments received on the initially proposed draft permit will be included in the administrative record for the re-proposed draft permit; therefore, there is no need to resubmit written comments that were already submitted.

### **Project description**

The draft permit to construct authorizes DRP to construct two new 640,000-barrel hard rock underground storage cavern systems, including a central complex consisting of a combination of underground tunnels and production, service, and ventilation shafts that connect to each underground storage cavern for their construction. The purpose of the two underground storage cavern systems is to store liquefied petroleum gas, as identified in the permit application, at ambient rock or chilled temperatures. This draft permit authorizes the construction of the two underground storage cavern systems to store only liquefied petroleum gas, of the mixtures and grades specified in the permit application, particularly Section C of the permit application which includes the Cavern System Data. The storage of liquefied natural gas is prohibited. The proposed two new underground storage systems will be constructed at DRP's Gibbstown Logistics Center, also known as the Repauno Port and Rail Terminal.

Each of the two underground storage cavern systems that the draft permit proposes to approve for construction will be constructed as a series of intersecting galleries and crosscuts, leaving large pillars of intact rock to support the ground. The galleries and crosscuts are 20 feet in width and 35 to 40 feet in height, with rectangular pillars of 55-foot width and 90-foot (edge-to-edge) length between the galleries and crosscuts. The target depth horizon is 680 to 780 feet below ground surface with the complex vertically centered within this zone. The crown level of the 40-foot high cavern galleries is nominally 710 feet below ground surface.

The proposed draft permit does not cover or in any way authorize the operation, as defined at N.J.A.C. 7:1F-1.6, of the underground storage cavern systems.

### **Public hearing and public comment period**

A copy of the proposed draft permit to construct is available at <https://dep.nj.gov/brp/caverns/usc-public-notice/>. Any person who cannot obtain a copy of the proposed draft permit documents from the website can call (609) 633-0610 or email [Rhiannon.Kook@dep.nj.gov](mailto:Rhiannon.Kook@dep.nj.gov) for further assistance.

The application materials are available for inspection at New Jersey Department of Environmental Protection, Bureau of Release Prevention, 401 East State St., 4<sup>th</sup> Floor, Trenton, NJ 08625-0420.

In accordance with N.J.A.C. 7:1F-4.2(f), the Department will hold a public hearing on this draft permit on May 14, 2025, at St. Michael's Mutual Club Event Hall, 406 Memorial Ave., Gibbstown, NJ 08027. The public hearing will start at 6:00 PM and end by 9:00 PM. The public hearing will include a virtual component. The hearing will be recorded. Anyone interested in speaking at the public hearing or attending virtually is strongly recommended to register with the Department. Registration information and information to access the hearing virtually will be provided on the Department's website at <https://dep.nj.gov/brp/caverns/usc-public-notice/>. Anyone who is unable to access the Department's website may call (609) 633-0610 for further assistance.

As necessary, the meeting will be extended until all persons who are present have had the opportunity to present their comments. The Department will accept written and oral comments at the public hearing. This hearing is not intended to be a question-and-answer session, but rather an opportunity for interested individuals to comment on the draft permit. Therefore, Department representatives will not respond to technical questions at the public hearing, but instead, will listen intently and take notes on the oral comments to address each issue raised in a

Response to Comment document. Each commenter will have at least three minutes to speak. The exact amount of time each speaker will be provided will be announced at the hearing.

The Department will consider and respond to all written and timely submitted comments. All persons, including the applicant, who believe that any condition of the draft permit to construct or the Department's tentative decision to approve this permit to construct is inappropriate, must raise all reasonable issues of concern and submit all arguments and factual grounds or materials supporting their position during the public comment period.

As noted above, all comments submitted to the Department following the initially proposed draft permit, as noticed in the March 5, 2025, DEP Bulletin, will be included in the administrative record for the re-proposed draft permit and responded to after the close of the comment period.

Any comments on this draft permit must be received by June 16, 2025. Written comments may be submitted by email to [tcpa@dep.nj.gov](mailto:tcpa@dep.nj.gov), with "Underground Storage Cavern draft permit to construct comments" as the subject line of the email. In the alternative, comments may be submitted on paper to:

Comments regarding this settlement or requests for a copy of the settlement should be sent to: Michelle Agnoli, NJDEP Bureau of Coastal and Land Use Compliance and Enforcement, 100 North Road, Chester, New Jersey 07930 or via email at [Michelle.Agnoli@dep.nj.gov](mailto:Michelle.Agnoli@dep.nj.gov) . Comments must be received by NJDEP within 30 days of this publication to be considered.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
NOTICE OF PUBLIC COMMENT PERIOD  
REGARDING THE MODIFICATION OF A NJPDES-DGW PERMIT FOR A SANITARY LANDFILL**

Notice is hereby given that the Division of Sustainable Waste Management of the New Jersey Department of Environmental Protection (Department) proposes to modify New Jersey Pollutant Discharge Elimination System-Discharge to Groundwater (NJPDES-DGW) Permit NJ0054381 issued to Robert Winzinger, Inc for the groundwater monitoring wells at the Winzinger Landfill in Egg Harbor Township, Atlantic County, New Jersey. This notice is being given in accordance with the provisions of the New Jersey Water Pollution Control Act (N.J.S.A. 58:10A-1 *et seq.*) and its implementing regulations (N.J.A.C. 7:14A-1 *et seq.*). The permit modification would reduce the frequency of groundwater monitoring from quarterly to annual and modify the required analytical parameters.

The Permit modification is based on the administrative record which is on file at the offices of the Department's Division of Sustainable Waste Management located at 401 East State Street, Trenton, Mercer County, New Jersey. It is available for inspection between 8:30 a.m. and 4:30 p.m., Monday through Friday.

Interested persons may submit written comments on the proposed permit modification to:

Michael R. Gerchman, Section Chief  
Bureau of Solid Waste Permitting  
NJ Department of Environmental Protection  
Mail Code 401-02C  
P.O. Box 420  
Trenton, New Jersey 08625-0420

All comments must be submitted within 30 days of the date of this public notice. The Department shall make a final decision after the close of the public comment period. Prior to the issuance of a final decision, the Department shall consider all comments submitted by interested persons in response to this notice within the public comment period. The Department will respond to all significant and timely comments when a final decision is made. The owner or operator and each person who has submitted written comments will receive notice of the final decision.

Any person may request in writing that the Department conduct a non-adversarial public hearing on the proposed action. Said request shall state the nature of the issues to be raised at the hearing and shall be submitted to the above address within 30 days of the date of this public notice. A public hearing shall be conducted whenever the Department determines that there is a significant degree of public interest in the permit action. If a public hearing is held, the public comment period shall automatically be extended until the close of the hearing.

Additional information, as well as a fact sheet concerning the proposed permit modification, may be obtained by contacting Victoria Goldman of the Bureau of Solid Waste Permitting at the above address or at (609) 940-5826.

<u>Permit:</u>	<u>Facility Location:</u>	<u>NJDEP</u>	<u>Receiving Discharge:</u>	<u>Executive Summary</u>
Name NJPDES No. Type	Address County	Case Manager Bureau Phone No	Stream or GW Formation or POTW Stream or GW Classification Watershed	
NJ AMERICAN WATER COMPANY NJ0024465 DSW Major	1227 VALLEY RD Long Hill Twp, NJ 07980  Morris County	Josie Castaldo  Bureau of Surface Water and Pretreatment Permitting  (609) 292-4860	Passaic River  FW2-NT(C2)  Passaic River Upr (above Pine Bk br)	Surface Water Renewal Permit Action - This permit action is to renew a NJPDES permit with a NJPDES permitted flow value of 1.25 million gallons per day (MGD). The permittee discharges treated and disinfected domestic wastewater to Passaic River classified as FW2-NT (C2) waters. Sanitary wastewater is processed through static screens, oxidation ditches, clarifiers, filters, a post-aeration tank, and ultraviolet disinfection channels.
B & B POULTRY CO INC NJ0061841 SIU	110 ALMOND RD Pittsgrove Twp, NJ 08347  Salem County	Femi Ibitolu  Bureau of Surface Water and Pretreatment Permitting  (609) 292-4860	LANDIS SEWER AUTH WWTP & PUMP STATION	Significant Indirect User (SIU) Renewal Permit Action - The applicant operates a poultry slaughterhouse and preparation facility that processes over 300,000 fowls per week. Based upon the monitoring period December 2019 through November 2024, this facility discharged an average of 0.18 million gallons per day of pretreated wastewater from its process related operations to the Landis Sewerage Authority. The pretreatment process consists of screening, flow equalization, dissolved air flotation and skimming. The facility has a SIC Code of 2015 (Poultry Slaughtering and Processing) and a NAICS Code of 311615 (Poultry Processing).
SENECA HIGH SCHOOL NJ0136239 DGW	110 CARRANZA RD Tabernacle, NJ 08088  Burlington County	Joshua Stocker  Bureau of Ground Water, Residuals, and Permit Administration  (609) 984-4428	Cohansey  I-PL	Ground Water Renewal Permit Action - This NJPDES-DGW renewal permit action is for the Seneca High School which consists of classrooms, office buildings, a gymnasium, and a cafeteria with a maximum occupancy of 2,000 students and staff. This facility is located in the Pineland Protection Area; therefore, treated effluent must meet I-PL standards for nitrate (2 mg/L) prior to discharge. Sanitary wastewater is treated by an onsite treatment system with UV disinfection. Treated effluent is discharged to two subsurface disposal beds with a total wastewater design flow of 30,000 gallons per day.
