## ABRAHAM LINCOLN SCHOOL \#6 <br> 111 PALISADE AVE <br> GARFIELD, NEW JERSEY 07026

This school's academic performance significantly lags in comparison to schools across the state. Additionally, its academic performance is about average when compared to its peers. This school's college and career readiness significantly lags in comparison to schools across the state. Additionally, its college and career readiness is about average when compared to its peers. This school's student growth performance significantly lags in comparison to schools across the state. Additionally, its student growth performance lags in comparison to its peers.

$\left.$| Performance Areas | Peer Percentile | Statewide Percentile |  |
| :--- | :---: | :---: | :---: | | Percent of |
| :---: |
| Targets Met | \right\rvert\,

Improvement Status
N/A

## Rationale

N/A

Very High Performance is defined as being equal to or above the 80th percentile. High Performance is defined as being between the 60th and 79.9th percentiles.
Average Performance is defined as being between the 40th and 59.9th percentiles.
Lagging Performance is defined as being between the 20th and 39.9th percentiles.
Significantly Lagging Performance is defined as being equal to or below the 19.9th percentile.
Peer Schools are schools that have similar grade levels and students with similar demographic characteristics, such as the percentage of students qualifying for Free/Reduced Lunch, Limited English Proficiency programs or Special Education programs.

## Academic Achievement

This school outperforms $\mathbf{1 5 \%}$ of schools statewide as noted by its statewide percentile and $\mathbf{5 4 \%}$ of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Academic Achievement. Additionally, this school is meeting $\mathbf{0 \%}$ of its performance targets in the area of Academic Achievement.

Academic Achievement measures the content knowledge students have in language arts literacy and math. For elementary and middle schools, this includes measures of the school's proficiency rate on both the Language Arts Literacy and Math sections of the New Jersey Assessment of Skills and Knowledge (NJASK). A proficiency rate is calculated by summing the count of students who scored either proficient or advanced proficient on the assessment and dividing by the count of valid test scores.

## College and Career Readiness

This school outperforms $\mathbf{1 5 \%}$ of schools statewide as noted by its statewide percentile and $\mathbf{5 2 \%}$ of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of College and Career Readiness. Additionally, this school is meeting $\mathbf{0 \%}$ of its performance targets in the area of College and Career Readiness.

College and Career readiness measures the degree to which students are demonstrating behaviors that are indicative of future attendance and/or success in college and careers. For all elementary and middle schools, this includes a measurement of how many students are chronically absent. For schools with middle school grades, it also includes a measurement of how many students take Algebra I in eighth grade.

## Student Growth

This school outperforms $\mathbf{1 5} \%$ of schools statewide as noted by its statewide percentile and $\mathbf{3 4 \%}$ of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Student Growth. Additionally, this school is meeting $\mathbf{1 0 0 \%}$ percentage of its performance targets in the area of Student Growth.

Student Growth measures the performance of students from one year to the next on the New Jersey Assessment of Skills and Knowledge (NJASK) in Language Arts Literacy and Math when compared to students with a similar history of performance on NJASK.

## Enrollment by Grade, in Full Time Equivalent

This graph presents the count of students who were 'on roll' by grade in October of each school year.

Note: "UG" represents the count of students who are 'on roll' in this school but who are educated in ungraded classrooms, meaning that the classrooms may contain students from multiple grade levels.

## Total School Enrollment in Full Time Equivalent

| 2011-12 | 332 |

GRADE SPAN KG-05

ABRAHAM LINCOLN SCHOOL \#6
111 PALISADE AVE GARFIELD, NEW JERSEY 07026

Academic Achievement measures the content knowledge students have in language arts literacy and math. In elementary and middle school, this includes the outcomes of the New Jersey Assessment of Skills and Knowledge (NJASK). The first column Schoolwide Performance - in the table below includes measures of the total schoolwide proficiency rate in both language arts literacy and math. The second column - Peer School Percentile - indicates where the school's proficiency rate compares to its group of peer schools. For example, a school that has a peer school percentile of 65 has a proficiency rate that is higher than $65 \%$ of its peer schools. The third column - Statewide Percentile - indicates where the school's proficiency rate compares to schools across the state. For example, a school that has a statewide percentile of 30 has a proficiency rate that is higher than $30 \%$ of all schools with NJASK scores statewide. The last column - Percent of Targets Met - presents the percentage of progress targets met as defined by the NJDOE's NCLB waiver.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.

| Academic Achievement Indicators | Schoolwide <br> Performance | Peer <br> Percentile | State <br> Percentile | Percent of Targets <br> Met |
| :--- | :--- | :--- | :--- | :---: |

## 2013 National Assessment Educational Progress (NAEP)

The National Assessment of Educational Progress (NAEP) is the largest national assessment of what our nation's students know and can do. NAEP assesses fourth-, eighth-, and twelfth-grade students in subjects such as reading, mathematics, science, and writing. The reporting of NAEP scores on state report cards is a federal mandate. The results of NAEP are also published as the Nation's Report Card, and are available for the nation, states, and, in some cases, urban districts. The NAEP scores on the report card include grades four and eight 2013 reading and math scores for New Jersey which are the last scores published. For subgroup outcomes, visit :
http://www.nj.gov/education/pr/1213/naep/naep4read.html For more information, visit $\leq$ http://nces.ed.gov/nationsreportcard/>

## State of New Jersey

Students in both elementary and middles schools begin to demonstrate college readiness behaviors long before they even enter high school. Among the behaviors that research has shown to be indicative of success and college and career readiness are regularly attending school and challenging themselves with rigorous course work. The table presents the percentage of students who were chronically absent during the prior school year. A chronically absent student is a student who was not present for any reason for more than $10 \%$ of the total days possible for that individual student.

The first column - Schoolwide Performance - represents the outcomes for these particular indicators in this school. The second column - Peer School Percentile - indicates how the school's performance compares to its group of peer schools. For example, a school whose peer school percentile is 65 in Chronic Absenteeism has a lower Chronic Absenteeism than $65 \%$ of its peer group. The third column - Statewide Percentile - indicates how the school's performance compares to schools across the state. The fourth column Statewide Target - provides the statewide targets for each of these indicators. The last column - Met Target? - indicates whether the School Performance met or exceeded the statewide target.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.

| College and Career Readiness <br> Indicators | School <br> Performance | Peer Rank <br> (Percentile) | Statewide Rank <br> (Percentile) | Statewide <br> Target | Met Target? |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Chronic Absenteeism (\%) | $\mathbf{1 4 \%}$ | 52 | $\mathbf{1 5}$ | $\mathbf{6 \%}$ | NO |
| Summary |  |  |  |  | 0 |

Chronic Absenteeism - Number of students in the most recent school year that missed 10\% or more of the instructional days in the school year divided by the total number of students enrolled.

## Absentecism

The chart below presents the percentage of students who were absent in each category of absence: 0 absences, $1-5$ absences, 6 10 absences, $11-15$ absences, and more than 15 absences. An absence is defined as being 'not present' and includes the days missed regardless of whether they were determined to be excused or unexcused by the school.

## State of New Jersey

```
STUDENT GROWTH
BERGEN
GARFIELD CITY

This section of the performance report presents data about student growth, utilizing the Student Growth Percentile Methodology (SGP). SGP creates a measure of how students progressed in grades 4 through 8 in NJ ASK Language Arts Literacy and Math when compared to other students with a similar NJ ASK test score history. A short video explaining the methodology can be found here: http://www.state.nj.us/education/njsmart/performance/

The first column - Schoolwide Performance - presents the schoolwide median growth score in either Language Arts Literacy or Math for all students in the school. The second column - Peer Percentile - indicates how the school's growth performance compares to its group of peer schools. The third column - Statewide Percentile - indicates how a school compares to schools across the state. The last column - Met Target? - indicates whether the school's performance met or exceeded the target.

The summary row presents the averages of the peer school percentiles, the averages of statewide percentiles, the percentage of statewide targets met.
\begin{tabular}{|l|l|l|l|l|c|}

Target
\end{tabular} & Met Target? \\
\hline Student Growth on Language Arts & 41 & 49 & 19 & 35 & YES \\
\hline Student Growth on Math & 35 & 18 & 10 & 35 & YES \\
\hline & 34 & 15 & & \(100 \%\) \\
\hline
\end{tabular}

Student Growth

This table presents for all students with growth scores the interaction between their proficiency level on NJASK and their growth scores. For example, in the top left cell the percentage of students who are both partially proficient AND also demonstrating low growth is displayed.
\begin{tabular}{|c|c|c|c|c|c|c|c|}
\hline \multicolumn{4}{|c|}{Language Arts} & \multicolumn{4}{|c|}{Math} \\
\hline & \multicolumn{3}{|c|}{GROWTH} & & \multicolumn{3}{|c|}{GROWTH} \\
\hline & Low & Typical & High & & Low & Typical & High \\
\hline \begin{tabular}{l}
Partially \\
Proficient
\end{tabular} & 31\% & 17\% & 4\% & \begin{tabular}{l}
Partially \\
Proficient
\end{tabular} & 19\% & 7\% & 0\% \\
\hline Proficient & 10\% & 16\% & 16\% & Proficient & 25\% & 20\% & 10\% \\
\hline Advanced Proficient & 0\% & 0\% & 6\% & Advanced Proficient & 6\% & 9\% & 4\% \\
\hline
\end{tabular}

Low Growth is defined as an Student Growth Percentile score less than 35.
Typical Growth is defined as an Student Growth Percentile score between 35 and 65.
High Growth is defined as a Student Growth Percentile score higher than 65.

\section*{WITHIN SCHOOL ACHIEVEMENT GAP \\ BERGEN \\ GARFIELD CITY}

03-1700-080
ABRAHAM LINCOLN SCHOOL \#6
111 PALISADE AVE
GARFIELD, NEW JERSEY 07026

This section of the performance report presents data about the achievement gap that exists within a school - as measured by the difference between the students' scale scores at the 25 th and 75 th percentile in the school, the so-called Interquartile Range (IQR). Taken together with an understanding of the overall and average achievement levels in the school, the IQR furthers an understanding of the range of student outcomes that exist in a school. A school gap smaller than the state gap indicates that the school's range of student outcomes is narrower than the state's while a school gap larger than the state gap indicates that the school's range of student outcomes is larger than the state's.

\section*{OVERVIEW}

BERGEN
GARFIELD CITY
GRADE SPAN KG-05
GARFIELD, NEW JERSEY 07026
This school's academic performance lags in comparison to schools across the state. Additionally, its academic performance is about average when compared to its peers. This school's college and career readiness lags in comparison to schools across the state. Additionally, its college and career readiness is about average when compared to its peers. This school's student growth performance significantly lags in comparison to schools across the state. Additionally, its student growth performance significantly lags in comparison to its peers.
\begin{tabular}{|l|c|c|c|c|c|}
\hline \multicolumn{1}{|c|}{ Performance Areas } & \multicolumn{2}{c|}{ Peer Percentile } & \multicolumn{2}{c|}{ Statewide Percentile } & \multicolumn{1}{c|}{\begin{tabular}{c} 
Percent of \\
Targets Met
\end{tabular}} \\
\hline Improvement Status \\
\hline Academic Achievement & 53 & 27 & \(60 \%\) & N/A \\
\hline College and Career Readiness & 45 & 20 & & Rationale \\
\hline Student Growth & 6 & 2 & \(0 \%\) & N/A \\
\hline
\end{tabular}

Very High Performance is defined as being equal to or above the 80th percentile. High Performance is defined as being between the 60th and 79.9th percentiles.
Average Performance is defined as being between the 40th and 59.9th percentiles.
Lagging Performance is defined as being between the 20th and 39.9th percentiles.
Significantly Lagging Performance is defined as being equal to or below the 19.9th percentile.
Peer Schools are schools that have similar grade levels and students with similar demographic characteristics, such as the percentage of students qualifying for Free/Reduced Lunch, Limited English Proficiency programs or Special Education programs.

\section*{Academic Achievement}

This school outperforms \(\mathbf{2 7 \%}\) of schools statewide as noted by its statewide percentile and \(\mathbf{5 3 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Academic Achievement. Additionally, this school is meeting \(\mathbf{6 0 \%}\) of its performance targets in the area of Academic Achievement.

Academic Achievement measures the content knowledge students have in language arts literacy and math. For elementary and middle schools, this includes measures of the school's proficiency rate on both the Language Arts Literacy and Math sections of the New Jersey Assessment of Skills and Knowledge (NJASK). A proficiency rate is calculated by summing the count of students who scored either proficient or advanced proficient on the assessment and dividing by the count of valid test scores.

\section*{College and Career Readiness}

This school outperforms \(\mathbf{2 0 \%}\) of schools statewide as noted by its statewide percentile and \(\mathbf{4 5 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of College and Career Readiness. Additionally, this school is meeting \(\mathbf{0 \%}\) of its performance targets in the area of College and Career Readiness.

College and Career readiness measures the degree to which students are demonstrating behaviors that are indicative of future attendance and/or success in college and careers. For all elementary and middle schools, this includes a measurement of how many students are chronically absent. For schools with middle school grades, it also includes a measurement of how many students take Algebra I in eighth grade.

\section*{Student Growth}

This school outperforms \(\mathbf{2} \%\) of schools statewide as noted by its statewide percentile and \(\mathbf{6 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Student Growth. Additionally, this school is meeting \(\mathbf{0 \%}\) percentage of its performance targets in the area of Student Growth.

Student Growth measures the performance of students from one year to the next on the New Jersey Assessment of Skills and Knowledge (NJASK) in Language Arts Literacy and Math when compared to students with a similar history of performance on NJASK.

\end{tabular}

\section*{State of New Jersey}

Academic Achievement measures the content knowledge students have in language arts literacy and math. In elementary and middle school, this includes the outcomes of the New Jersey Assessment of Skills and Knowledge (NJASK). The first column Schoolwide Performance - in the table below includes measures of the total schoolwide proficiency rate in both language arts literacy and math. The second column - Peer School Percentile - indicates where the school's proficiency rate compares to its group of peer schools. For example, a school that has a peer school percentile of 65 has a proficiency rate that is higher than \(65 \%\) of its peer schools. The third column - Statewide Percentile - indicates where the school's proficiency rate compares to schools across the state. For example, a school that has a statewide percentile of 30 has a proficiency rate that is higher than \(30 \%\) of all schools with NJASK scores statewide. The last column - Percent of Targets Met - presents the percentage of progress targets met as defined by the NJDOE's NCLB waiver.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.

\section*{2013 National Assessment Educational Progress (NAEP)}

The National Assessment of Educational Progress (NAEP) is the largest national assessment of what our nation's students know and can do. NAEP assesses fourth-, eighth-, and twelfth-grade students in subjects such as reading, mathematics, science, and writing. The reporting of NAEP scores on state report cards is a federal mandate. The results of NAEP are also published as the Nation's Report Card, and are available for the nation, states, and, in some cases, urban districts. The NAEP scores on the report card include grades four and eight 2013 reading and math scores for New Jersey which are the last scores published. For subgroup outcomes, visit :
http://www.nj.gov/education/pr/1213/naep/naep4read.html For more information, visit <http://nces.ed.gov/nationsreportcard/>

\section*{NJASK Proficiency Trends - Science - Grade Level - 04}

This graph presents the grade level outcomes in the categories of Advanced Proficient, Proficient, and Partially Proficient over the last four years.

```

Advanced Proficient Proficient
Partially Proficient

```

Students in both elementary and middles schools begin to demonstrate college readiness behaviors long before they even enter high school. Among the behaviors that research has shown to be indicative of success and college and career readiness are regularly attending school and challenging themselves with rigorous course work. The table presents the percentage of students who were chronically absent during the prior school year. A chronically absent student is a student who was not present for any reason for more than \(10 \%\) of the total days possible for that individual student.

The first column - Schoolwide Performance - represents the outcomes for these particular indicators in this school. The second column - Peer School Percentile - indicates how the school's performance compares to its group of peer schools. For example, a school whose peer school percentile is 65 in Chronic Absenteeism has a lower Chronic Absenteeism than \(65 \%\) of its peer group. The third column - Statewide Percentile - indicates how the school's performance compares to schools across the state. The fourth column Statewide Target - provides the statewide targets for each of these indicators. The last column - Met Target? - indicates whether the School Performance met or exceeded the statewide target.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.
\begin{tabular}{|l|c|c|c|c|c|}
\hline \begin{tabular}{l}

\end{tabular} & Met Target? \\
\hline Chronic Absenteeism (\%) & \(\mathbf{1 2 \%}\) & \(\mathbf{4 5}\) & \(\mathbf{2 0}\) & \(\mathbf{6 \%}\) & NO \\
\hline Summary & & & & & \\
\hline
\end{tabular}

Chronic Absenteeism - Number of students in the most recent school year that missed \(10 \%\) or more of the instructional days in the school year divided by the total number of students enrolled.

\section*{Absentecism}

The chart below presents the percentage of students who were absent in each category of absence: 0 absences, \(1-5\) absences, 6 10 absences, \(11-15\) absences, and more than 15 absences. An absence is defined as being 'not present' and includes the days missed regardless of whether they were determined to be excused or unexcused by the school.

\section*{State of New Jersey}

2012-13

\section*{STUDENT GROWTH \\ BERGEN \\ GARFIELD CITY \\ GRADE SPAN KG-05}

This section of the performance report presents data about student growth, utilizing the Student Growth Percentile Methodology (SGP). SGP creates a measure of how students progressed in grades 4 through 8 in NJ ASK Language Arts Literacy and Math when compared to other students with a similar NJ ASK test score history. A short video explaining the methodology can be found here: http://www.state.nj.us/education/njsmart/performance/

The first column - Schoolwide Performance - presents the schoolwide median growth score in either Language Arts Literacy or Math for all students in the school. The second column - Peer Percentile - indicates how the school's growth performance compares to its group of peer schools. The third column - Statewide Percentile - indicates how a school compares to schools across the state. The last column - Met Target? - indicates whether the school's performance met or exceeded the target.

The summary row presents the averages of the peer school percentiles, the averages of statewide percentiles, the percentage of statewide targets met.
\(\left.\begin{array}{|l|l|l|l|l|c|}\hline \text { Student Growth Indicators } & \begin{array}{l}\text { Schoolwide } \\ \text { Performance }\end{array} & \begin{array}{l}\text { Peer } \\ \text { Percentile }\end{array} & \begin{array}{l}\text { Statewide } \\ \text { Percentile }\end{array} & \begin{array}{l}\text { Statewide } \\ \text { Target }\end{array} & \text { Met Target? } \\ \hline \text { Student Growth on Language Arts } & 22 & 4 & & 1 & 35\end{array}\right]\) NO

Student Growth

This table presents for all students with growth scores the interaction between their proficiency level on NJASK and their growth scores. For example, in the top left cell the percentage of students who are both partially proficient AND also demonstrating low growth is displayed.
\begin{tabular}{|c|c|c|c|c|c|c|c|}
\hline \multicolumn{4}{|c|}{Language Arts} & \multicolumn{4}{|c|}{Math} \\
\hline & \multicolumn{3}{|c|}{GROWTH} & & \multicolumn{3}{|c|}{GROWTH} \\
\hline & Low & Typical & High & & Low & Typical & High \\
\hline Partially Proficient & 43\% & 5\% & 3\% & Partially Proficient & 21\% & 4\% & 2\% \\
\hline Proficient & 26\% & 13\% & 9\% & Proficient & 33\% & 14\% & 9\% \\
\hline Advanced Proficient & 0\% & 0\% & 1\% & Advanced Proficient & 6\% & 4\% & 7\% \\
\hline
\end{tabular}

Low Growth is defined as an Student Growth Percentile score less than 35.
Typical Growth is defined as an Student Growth Percentile score between 35 and 65.
High Growth is defined as a Student Growth Percentile score higher than 65.

2012-13

\section*{WITHIN SCHOOL ACHIEVEMENT GAP \\ BERGEN \\ GARFIELD CITY}

03-1700-060
CHRISTOPHER COLUMBUS SCHOOL \#8
147 CEDAR STREET
GARFIELD, NEW JERSEY 07026

This section of the performance report presents data about the achievement gap that exists within a school - as measured by the difference between the students' scale scores at the 25 th and 75 th percentile in the school, the so-called Interquartile Range (IQR). Taken together with an understanding of the overall and average achievement levels in the school, the IQR furthers an understanding of the range of student outcomes that exist in a school. A school gap smaller than the state gap indicates that the school's range of student outcomes is narrower than the state's while a school gap larger than the state gap indicates that the school's range of student outcomes is larger than the state's.

State of New Jersey
2012-13

This school's academic performance lags in comparison to schools across the state. Additionally, its academic performance is about average when compared to its peers. This school's college and career readiness is about average when compared to schools across the state. Additionally, its college and career readiness is about average when compared to its peers. This school's graduation and post-secondary performance lags in comparison to schools across the state. Additionally, its graduation and postsecondary readiness is about average when compared to its peers.
\begin{tabular}{|l|c|c|c|c|c|}
\hline \multicolumn{1}{|c|}{ Performance Areas } & Peer Percentile & \multicolumn{1}{c|}{ Statewide Percentile } & \begin{tabular}{c} 
Percent of \\
Targets Met
\end{tabular} & Improvement Status \\
\hline Academic Achievement & 57 & 26 & \(\mathbf{1 0 0 \%}\) & N/A \\
\hline College \& Career Readiness & 51 & & & Rationale \\
\hline Graduation and Post-Secondary & & 40 & \(20 \%\) & N/A \\
\hline
\end{tabular}

Very High Performance is defined as being equal to or above the 80th percentile.
High Performance is defined as being between the 60th and 79.9th percentiles.
Average Performance is defined as being between the 40th and 59.9th percentiles.
Lagging Performance is defined as being between the 20th and 39.9th percentiles.
Significantly Lagging Performance is defined as being equal to or below the 19.9th percentile.
Peer Schools are schools that have similar grade levels and students with similar demographic characteristics, such as the percentage of students qualifying for Free/Reduced Lunch, Limited English Proficiency programs or Special Education programs.

\section*{Academic Achievement}

This school outperforms \(\mathbf{2 6 \%}\) of schools statewide as noted by its statewide percentile and \(\mathbf{5 7 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Academic Achievement.Additionally, this school is meeting \(\mathbf{1 0 0 \%}\) of its performance targets in the area of Academic Achievement.

Academic Achievement measures the content knowledge students have in language arts literacy and math. For high schools, this includes measures of the school's proficiency rate on both the Language Arts Literacy and Math sections of the New Jersey High School Proficiency Assessment (HSPA). A proficiency rate is calculated by summing the count of students who scored either proficient or advanced proficient on the assessment and dividing by the count of valid test scores.

\section*{College and Career Readiness}

This school outperforms \(\mathbf{4 0 \%}\) of schools statewide as noted by its statewide percentile and \(\mathbf{5 1 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of College and Career Readiness. Additionally, this school is meeting \(\mathbf{2 0 \%}\) of its performance targets in the area of College and Career Readiness.

College and Career Readiness measures the degree to which students are demonstrating behaviors that are indicative of future attendance and/or success in college and careers. For high schools, this includes measures of participation in college readiness tests such as the SAT, ACT or PSAT and in rigorous coursework as defined by participation in AP or IB courses in English, math, social studies and science.

\section*{Graduation and Post-Secondary}

This school outperforms \(\mathbf{2 5} \%\) of schools statewide as noted by its statewide percentile and \(\mathbf{4 3 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Graduation and Post-Secondary. Additionally, this school is meeting \(\mathbf{1 0 0 \%}\) of its performance targets in the area of Graduation and Post-Secondary.

Graduation and Postsecondary measures the rate at which students who begin high school four years earlier graduate within four years. Also included is a measure of the rate at which students in a particular school drop out of school.

\section*{State of New Jersey}

\section*{GARFIELD CITY}

GRADE SPAN 09-12
Academic Achievement measures the content knowledge students have in Language Arts Literacy and Math. In high schools, this includes the outcomes of the New Jersey High School Proficiency Assessment (HSPA). The first column - Schoolwide Performance - in the table below includes measures of the total schoolwide proficiency rate in both Language Arts Literacy and Math across multiple administrations of the assessment. The second column - Peer School Percentile - indicates where the school's proficiency rate compares to its group of peer schools. For example, a school that has a peer school percentile of 65 has a proficiency rate that is higher than \(65 \%\) of its peer schools. The third column - Statewide Percentile - indicates where the school's proficiency rate compares to schools across the state. For example, a school that has a statewide percentile of 30 has a proficiency rate that is higher than \(30 \%\) of all schools with HSPA scores statewide. The last column - Percent of Targets Met - presents the percentage of progress targets met as defined by the NJDOE's NCLB waiver.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.

\end{tabular}

Data is presented for subgroups when the count is high enough under NCLB suppression rules.

This graph presents the percentage of students who scored in the Advanced Proficient, Proficient and Partially Proficient categories of the statewide Math assessment over the prior four years.

\section*{Proficiency Trends - Biology}

This graph presents the percentage of students who scored in the Advanced Proficient, Proficient, and Partially Proficient categories of the Biology Competency Test over the last two years.

\section*{State of New Jersey}

\section*{COLLEGE AND CAREER READINESS \\ BERGEN \\ GARFIELD CITY}

GRADE SPAN 09-12
GARFIELD, NEW JERSEY 07026-2637
Students in high schools begin to demonstrate college readiness behaviors long before they actually graduate from high school. Among those behaviors are taking college entrance exams and challenging themselves with rigorous course work. The table below presents five such indicators: the percentage of students enrolled in the 12th grade who took the SAT or ACT, the percentage of 10th and 11th graders who took the PSAT, the percentage of students who scored above the SAT benchmark of 1550, the percentage of 11th and 12th graders who took at least one AP or IB test in English, math, social studies or science, and the percentage of those AP or IB tests that were scored a 3 or higher.

The first column - Schoolwide Performance - represents the outcomes for these particular inidcators in the school. The second column - Peer School Percentile - indicates how the school's performance compares to its group of peer schools. For example, a school whose peer school percentile is 65 in SAT participation has a higher SAT Participation than \(65 \%\) of its peer group. The third column Statewide Percentile - indicates how the school's performance compares to schools across the state. The fourth column - Statewide Target - provides the statewide targets for each of these indicators. The last column - Met Target? - indicates whether the School Performance met or exceeded the statewide target.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.
\begin{tabular}{|c|c|c|c|c|c|}
\hline College and Career Readiness Indicators & Schoolwide Performance & Peer Percentile & Statewide Percentile & Statewide Target & \begin{tabular}{l}
Met \\
Target?
\end{tabular} \\
\hline Percent of Students Participating in SAT or ACT & 70\% & 71 & 31 & 80\% & NO \\
\hline Percent of Students Participating in PSAT & 100\% & 100 & 100 & 60\% & YES \\
\hline Percent of Students Scoring Above 1550 on SAT & 13\% & 23 & 22 & 40\% & NO \\
\hline Percent of Students Taking at least one AP Test or IB Test in English, Math, Social Studies or Science & 8\% & 42 & 20 & 35\% & NO \\
\hline Percent of AP Tests \(>=3\) or IB Test \(>=4\) in English, Math, Social Studies or Science & 28\% & 20 & 26 & 75\% & NO \\
\hline Summary & & 51 & 40 & & 20\% \\
\hline \multicolumn{2}{|l|}{College Readiness Test Participation} & \multicolumn{4}{|l|}{AP/IB Participation - 'Unique' Students} \\
\hline
\end{tabular}

The first column of the table below presents the percentage of students enrolled in the 12th grade who took the SAT or ACT and the percentage of students enrolled in 10th and 11th grade who took the PSAT. The second column provides the average across the school's peer group for these two metrics.
\begin{tabular}{|l|c|c|r|}
\hline 2012-13 Percent of Students & School & Peer Avg. & State Avg \\
\hline Participating in SAT & \(69.9 \%\) & \(58.8 \%\) & \(75.3 \%\) \\
\hline Participating in ACT & \(1.5 \%\) & & \(20.6 \%\) \\
\hline Participating in PSAT & \(100.0 \%\) & \(44.7 \%\) & \(52.5 \%\) \\
\hline
\end{tabular}

Participation Trends - SAT Testing
This graph presents the participation rate in the SAT over the last four years.

The table below presents the proportion of 'unique' students enrolled in at least 11th and 12th grade i.e, each student is counted once regardless of how many AP or IB courses he/she may take. The table also presents the proportion of how many 'unique' students took at least one AP or IB test to the school's enrollment in 11th and 12th grade.
\begin{tabular}{|l|c|c|c|}

\hline
\end{tabular}

N/R - Data Not Reported

\section*{State of New Jersey}

\section*{GRADUATION AND POSTSECONDARY}

GARFIELD CITY

This section of the performance report presents data about graduation, dropout and post-secondary attendance. The graduation rate is calculated according to the NCLB Cohort methodology as required by the United States Department of Education. Dropout rates are calculated from student-level data submitted by districts for students officially classified as dropouts. The dropout rate is the count of students who dropout in an academic year divided by the school's total enrollment.

The first column - Schoolwide Performance - represents the outcomes for these particular indicators in this school. The second column - Peer School Percentile - indicates how the school's performance compares to its group of peer schools. For example, a school whose peer percentile is 65 in Graduation Rate has a higher Graduation Rate than \(65 \%\) of its peer group. The third column - Statewide Percentile - indicates how the school's performance compares to schools across the state. The fourth column - Statewide Target - provides the statewide targets for each of these indicators. The Statewide Target for Graduation Rate was established pursuant to NJDOE’s NCLB Accountability Workbook. The last column - Met Target - indicates whether the School Performance met or exceeded the statewide target.

The Summary row presents the averages of the peer school percentile, the average of statewide percentile and the percentage of statewide targets met.
\begin{tabular}{|l|c|c|c|c|c|}

\hline Dropout Rate & \(\mathbf{0 . 8 \%}\) & 68 & & YES \\
\hline SUMMARY - Graduation \& Post-Secondary & \(\mathbf{3 n}\) & \(\mathbf{2 \%}\) & YES \\
\hline
\end{tabular}

\section*{Graduation Rate by Subgroup}

This table presents for all NCLB-identified subgroups the "4year Adjusted Graduation Rate." This rate calculates the percentage of students who are awarded a regular, high school diploma within four years of becoming a first-time ninth grader. The rate is adjusted to account for students who 'transfer-in' and for students who are verified as 'transfers-out'.
\begin{tabular}{|l|r|c|}
\hline & School & State Target \\
\hline Schoolwide & \(78 \%\) & \(75 \%\) \\
\hline White & \(81 \%\) & \\
\hline Black & - & \\
\hline Hispanic & \(77 \%\) & \\
\hline American Indian & - \\

\hline Economically Disadvantaged Students & \(1.1 \%\) \\
\hline
\end{tabular}

\section*{Graduation Pathway Rates}

This chart presents the percentage of high school graduates who graduated by passing both sections of the HSPA, who were exempt from passing the HSPA, or who demonstrated proficiency through an alternative pathway such as through the Alternative High School Assessment, achievement of the 'Just Proficient Mean' or an appeal process.

\section*{Extended Year Graduation Rate}

The chart below presents the 4 -year and 5-year graduation rate for the prior school year's cohort in addition to the 4-year graduation rate for last year's cohort.
\begin{tabular}{|l|c|c|}
\hline Class of & 4-year Rate & 5-year Rate \\
\hline 2011 & \(79 \%\) & \(85 \%\) \\
\hline 2012 & \(79 \%\) & \(83 \%\) \\
\hline 2013 & \(78 \%\) & \\
\hline
\end{tabular}

\section*{Postsecondary Enrollment Rates}

This chart presents the enrollment rates of this school's high school graduates, 16-months after high school graduation. The data is from the National Student Clearinghouse which reports that it collects student-level enrollment data from 95\% of Institutions of Higher Education nationwide.

The last columns indicate, for the schoolwide total and each subgroup, the percentage of postsecondary enrollees that were enrolled in either a 2 year or a 4 year institution.
\begin{tabular}{|l|c|c|c|}

\hline Economically Disadvantaged Students & \(67.1 \%\) & \(64.3 \%\) & - \\
\hline
\end{tabular}

This section of the performance report presents data about the achievement gap that exists within a school - as measured by the difference between the students' scale scores at the 25 th and 75 th percentile in the school, the so-called Interquartile Range (IQR). Taken together with an understanding of the overall and average achievement levels in the school, the IQR furthers an understanding of the range of student outcomes that exist in a school. A school gap smaller than the state gap indicates that the school's range of student outcomes is narrower than the state's while a school gap larger than the state gap indicates that the school's range of student outcomes is larger than the state's.

\section*{High School}

HSPA Language Arts 25th \%ile vs 75th\%ile

\hline Faculty & 11 \\
\hline Administrators & 180 \\
\hline
\end{tabular}

This table presents the list of peer schools in alphabetical order by county name that was created specifically for this school (highlighted in yellow). Peer schools are drawn from across the state and represent schools that have similar grade configurations and that are educating students of similar demographic characteristics, as measured by enrollment in Free/Reduced Lunch Programs, Limited English Proficiency or Special Education Programs.

\section*{State of New Jersey}

\section*{OVERVIEW \\ BERGEN GARFIELD CITY}

\author{
GRADE SPAN 06-08
}

This school's academic performance is about average when compared to schools across the state. Additionally, its academic performance is high when compared to its peers. This school's college and career readiness significantly lags in comparison to schools across the state. Additionally, its college and career readiness significantly lags in comparison to its peers. This school's student growth performance is high when compared to schools across the state. Additionally, its student growth performance is very high when compared to its peers.
\(\left.\)\begin{tabular}{||c|c|c|c|}
\hline \multicolumn{1}{|c|}{ Performance Areas } & Peer Percentile & \multicolumn{2}{c|}{ Statewide Percentile }
\end{tabular} \begin{tabular}{c} 
Percent of \\
Targets Met
\end{tabular} \right\rvert\,

Improvement Status N/A Rationale N/A

Very High Performance is defined as being equal to or above the 80th percentile. High Performance is defined as being between the 60th and 79.9th percentiles. Average Performance is defined as being between the 40th and 59.9th percentiles. Lagging Performance is defined as being between the 20th and 39.9th percentiles. Significantly Lagging Performance is defined as being equal to or below the 19.9th percentile.
Peer Schools are schools that have similar grade levels and students with similar demographic characteristics, such as the percentage of students qualifying for Free/Reduced Lunch, Limited English Proficiency programs or Special Education programs.

\section*{Academic Achievement}

This school outperforms \(\mathbf{4 3 \%}\) of schools statewide as noted by its statewide percentile and \(\mathbf{6 9 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Academic Achievement. Additionally, this school is meeting \(\mathbf{6 7 \%}\) of its performance targets in the area of Academic Achievement.

\section*{College and Career Readiness}

This school outperforms \(\mathbf{1 0 \%}\) of schools statewide as noted by its statewide percentile and \(\mathbf{1 3 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of College and Career Readiness. Additionally, this school is meeting \(\mathbf{0 \%}\) of its performance targets in the area of College and Career Readiness.

Academic Achievement measures the content knowledge students have in language arts literacy and math. For elementary and middle schools, this includes measures of the school's proficiency rate on both the Language Arts Literacy and Math sections of the New Jersey Assessment of Skills and Knowledge (NJ ASK). A proficiency rate is calculated by summing the count of students who scored either proficient or advanced proficient on the assessment and dividing by the count of valid test scores.

ACADEMIC ACHIEVEMIENT
BERGEN
GARFIELD CITY

GRADE SPAN 06-08
Academic Achievement measures the content knowledge students have in language arts literacy and math. In elementary and middle school, this includes the outcomes of the New Jersey Assessment of Skills and Knowledge (NJASK). The first column Schoolwide Performance - in the table below includes measures of the total schoolwide proficiency rate in both language arts literacy and math. The second column - Peer School Percentile - indicates where the school's proficiency rate compares to its group of peer schools. For example, a school that has a peer school percentile rank of 65 has a proficiency rate that is higher than \(65 \%\) of its peer schools. The third column - Statewide Percentile - indicates where the school's proficiency rate compares to schools across the state. For example, a school that has a statewide percentile of 30 has a proficiency rate that is higher than \(30 \%\) of all schools with NJASK scores statewide. The last column - Percent of Targets Met - presents the percentage of progress targets met as defined by the NJDOE's NCLB waiver.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.

\section*{2013 National Assessment Educational Progress (NAEP)}

The National Assessment of Educational Progress (NAEP) is the largest national assessment of what our nation's students know and can do. NAEP assesses fourth-, eighth-, and twelfth-grade students in subjects such as reading, mathematics, science, and writing. The reporting of NAEP scores on state report cards is a federal mandate. The results of NAEP are also published as the Nation's Report Card, and are available for the nation, states, and, in some cases, urban districts. The NAEP scores on the report card include grades four and eight 2013 reading and math scores for New Jersey which are the last scores published. For subgroup outcomes, visit : http://www.nj.gov/education/pr/1213/naep/naep4read.html For more information, visit \(<\) http://nces.ed.gov/nationsreportcard/ \(>\)

\section*{COLLEGE AND CAREER READINESS \\ BERGEN \\ GARFIELD CITY}

\author{
GRADE SPAN 06-08
}

\section*{GARFIELD MIDDLE SCHOOL \\ 175 LANZA AVE \\ GARFIELD, NEW JERSEY 07026}

Students in both elementary and middles schools begin to demonstrate college readiness behaviors long before they even enter high school. Among the behaviors that research has shown to be indicative of success and college and career readiness are regularly attending school and challenging themselves with rigorous course work. First, the table presents the percentage of students, as measured against the school's enrollment in eighth grade, who were reported via NJSMART as being enrolled in Algebra I. The table also presents the percentage of students who were chronically absent during the prior school year. A chronically absent student is a student who was not present for any reason for more than \(10 \%\) of the total days possible for that individual student.

The first column - Schoolwide Performance - represents the outcomes for these particular indicators in this school. The second column - Peer School Percentile - indicates how the school's performance compares to its group of peer schools. For example, a school whose peer school is 65 in Algebra I Enrollment has a higher Algebra I Enrollment than \(65 \%\) of its peer group. The third column Statewide Percentile - indicates how the school's performance compares to schools across the state. The fourth column - Statewide Target - provides the statewide targets for each of these indicators. The last column - Met Target? - indicates whether the School Performance met or exceeded the statewide target.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.
\begin{tabular}{|c|c|c|c|c|c|}
\hline College and Career Readiness Indicators & \begin{tabular}{l}
School \\
Performance
\end{tabular} & \begin{tabular}{l}
Peer \\
Percentile
\end{tabular} & Statewide Percentile & Statewide Target & Met Target? \\
\hline Students taking Algebra (\%) & 0\% & 0 & 0 & 20\% & NO \\
\hline Chronic Absenteeism (\%) & 15\% & 26 & 20 & 6\% & NO \\
\hline Summary & & 13 & 10 & & 0\% \\
\hline
\end{tabular}

\section*{Algebra I}

This table presents the percentage of eighth graders who were reported in the Algebra I course code in NJSMART and the percentage of those students who earned a C or higher in the course.
\begin{tabular}{|c|c|}
\hline 2012-13 & School \\
\hline Students taking Algebra I & \\
\hline Algebra grade (C or better) & \(0 \%\) \\
\hline
\end{tabular}

\section*{Absentecism}

The chart below presents the percentage of students who were absent in each category of absence: 0 absences, 1-5 absences, 6-10 absences, 11-15 absences, and more than 15 absences. An absence is defined as being 'not present' and includes the days missed regardless of whether they were determined to be excused or unexcused by the school.

\section*{State of New Jersey}

\section*{STUDENT GROWTH}

\section*{GARFIELD MIDDLE SCHOOL}

175 LANZA AVE
BERGEN
GARFIELD CITY

\section*{GRADE SPAN 06-08}

GARFIELD, NEW JERSEY 07026
This section of the performance report presents data about student growth, utilizing the Student Growth Percentile Methodology (SGP). SGP creates a measure of how students progressed in grades 4 through 8 in NJ ASK Language Arts Literacy and Math when compared to other students with a similar NJ ASK test score history. A short video explaining the methodology can be found here: http://www.state.nj.us/education/njsmart/performance/

The first column - Schoolwide Performance - presents the schoolwide median growth score in either Language Arts Literacy or Math for all students in the school. The second column - Peer Percentile - indicates how the school's growth performance compares to its group of peer schools. The third column - Statewide Percentile - indicates how a school compares to schools across the state. The last column - Met Target? - indicates whether the school's performance met or exceeded the target.

The summary row presents the averages of the peer school percentiles, the averages of statewide percentiles, the percentage of statewide targets met.
\begin{tabular}{|l|l|l|l|l|c|}
\hline Student Growth Indicators & \begin{tabular}{l} 
Schoolwide \\
Performance
\end{tabular} & \begin{tabular}{l} 
Peer \\
Percentile
\end{tabular} & \begin{tabular}{l} 
Statewide \\
Percentile
\end{tabular} & \begin{tabular}{l} 
Statewide \\
Target
\end{tabular} & Met Target? \\
\hline Student Growth on Language Arts & 47 & 59 & 43 & 35 & YES \\
\hline Student Growth on Math & 63 & 100 & 92 & 35 & YES \\
\hline & 60 & 68 & & \(100 \%\) \\
\hline
\end{tabular}

\section*{Student Growth}

This table presents for all students with growth scores the interaction between their proficiency level on NJASK and their growth scores. For example, in the top left cell the percentage of students who are both partially proficient AND also demonstrating low growth is displayed.
\begin{tabular}{|c|c|c|c|c|c|c|c|}
\hline \multicolumn{4}{|c|}{Language Arts} & \multicolumn{4}{|c|}{Math} \\
\hline & \multicolumn{3}{|c|}{GROWTH} & & \multicolumn{3}{|c|}{GROWTH} \\
\hline & Low & Typical & High & & Low & Typical & High \\
\hline Partially Proficient & 20\% & 9\% & 5\% & Partially Proficient & 14\% & 6\% & 7\% \\
\hline Proficient & 18\% & 23\% & 22\% & Proficient & 11\% & 14\% & 23\% \\
\hline Advanced Proficient & 0\% & 1\% & 3\% & Advanced Proficient & 2\% & 4\% & 18\% \\
\hline
\end{tabular}

Low Growth is defined as an Student Growth Percentile score less than 35.
Typical Growth is defined as an Student Growth Percentile score between 35 and 65.
High Growth is defined as a Student Growth Percentile score higher than 65.

State of New Jersey
}

\section*{WITHIN SCHOOL ACHIEVEMENT GAP}

BERGEN
GARFIELD CITY

This section of the performance report presents data about the achievement gap that exists within a school - as measured by the difference between the students' scale scores at the 25 th and 75 th percentile in the school, the so-called Interquartile Range (IQR). Taken together with an understanding of the overall and average achievement levels in the school, the IQR furthers an understanding of the range of student outcomes that exist in a school. A school gap smaller than the state gap indicates that the school's range of student outcomes is narrower than the state's while a school gap larger than the state gap indicates that the school's range of student outcomes is larger than the state's.

OVERVIEW
JAMES MADISON SCHOOL \#10
BERGEN
GARFIELD CITY
GRADE SPAN KG-05
GARFIELD, NEW JERSEY 07026
This school's academic performance is about average when compared to schools across the state. Additionally, its academic performance is high when compared to its peers. This school's college and career readiness significantly lags in comparison to schools across the state. Additionally, its college and career readiness lags in comparison to its peers. This school's student growth performance lags in comparison to schools across the state. Additionally, its student growth performance is about average when compared to its peers.
\(\left.\)\begin{tabular}{|l|c|c|c|}
\hline \multicolumn{1}{|c|}{ Performance Areas } & Peer Percentile & \multicolumn{2}{c|}{ Statewide Percentile }
\end{tabular} \begin{tabular}{c} 
Percent of \\
Targets Met
\end{tabular} \right\rvert\,

Improvement Status
N/A

\section*{Rationale}

N/A

Very High Performance is defined as being equal to or above the 80th percentile. High Performance is defined as being between the 60th and 79.9th percentiles.
Average Performance is defined as being between the 40th and 59.9th percentiles.
Lagging Performance is defined as being between the 20th and 39.9th percentiles.
Significantly Lagging Performance is defined as being equal to or below the 19.9th percentile.
Peer Schools are schools that have similar grade levels and students with similar demographic characteristics, such as the percentage of students qualifying for Free/Reduced Lunch, Limited English Proficiency programs or Special Education programs.

\section*{Academic Achievement}

This school outperforms \(\mathbf{4 6 \%}\) of schools statewide as noted by its statewide percentile and \(\mathbf{7 2 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Academic Achievement. Additionally, this school is meeting \(\mathbf{1 0 0 \%}\) of its performance targets in the area of Academic Achievement.

Academic Achievement measures the content knowledge students have in language arts literacy and math. For elementary and middle schools, this includes measures of the school's proficiency rate on both the Language Arts Literacy and Math sections of the New Jersey Assessment of Skills and Knowledge (NJASK). A proficiency rate is calculated by summing the count of students who scored either proficient or advanced proficient on the assessment and dividing by the count of valid test scores.

\section*{College and Career Readiness}

This school outperforms \(\mathbf{1 8 \%}\) of schools statewide as noted by its statewide percentile and \(\mathbf{2 3 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of College and Career Readiness. Additionally, this school is meeting \(\mathbf{0 \%}\) of its performance targets in the area of College and Career Readiness.

College and Career readiness measures the degree to which students are demonstrating behaviors that are indicative of future attendance and/or success in college and careers. For all elementary and middle schools, this includes a measurement of how many students are chronically absent. For schools with middle school grades, it also includes a measurement of how many students take Algebra I in eighth grade.

\section*{Student Growth}

This school outperforms \(\mathbf{3 7} \%\) of schools statewide as noted by its statewide percentile and \(\mathbf{4 3 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Student Growth. Additionally, this school is meeting \(\mathbf{1 0 0 \%}\) percentage of its performance targets in the area of Student Growth.

Student Growth measures the performance of students from one year to the next on the New Jersey Assessment of Skills and Knowledge (NJASK) in Language Arts Literacy and Math when compared to students with a similar history of performance on NJASK.

\section*{State of New Jersey}

DEMOGRAPHIC INFORMATION

\section*{Enrollment by Grade, in Full Time Equivalent}

This graph presents the count of students who were 'on roll' by grade in October of each school year.

Note: "UG" represents the count of students who are 'on roll' in this school but who are educated in ungraded classrooms, meaning that the classrooms may contain students from multiple grade levels.

\section*{State of New Jersey}

Academic Achievement measures the content knowledge students have in language arts literacy and math. In elementary and middle school, this includes the outcomes of the New Jersey Assessment of Skills and Knowledge (NJASK). The first column Schoolwide Performance - in the table below includes measures of the total schoolwide proficiency rate in both language arts literacy and math. The second column - Peer School Percentile - indicates where the school's proficiency rate compares to its group of peer schools. For example, a school that has a peer school percentile of 65 has a proficiency rate that is higher than \(65 \%\) of its peer schools. The third column - Statewide Percentile - indicates where the school's proficiency rate compares to schools across the state. For example, a school that has a statewide percentile of 30 has a proficiency rate that is higher than \(30 \%\) of all schools with NJASK scores statewide. The last column - Percent of Targets Met - presents the percentage of progress targets met as defined by the NJDOE's NCLB waiver.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.

\hline
\end{tabular}

\section*{NCLB Progress Targets - Language Arts Literacy}

This table presents the Progress Targets as uniquely calculated for each subgroup in each school under NJDOE's NCLB waiver. The methodology - as defined by the United States Department of Education - is calculated so that each subgroup will halve the gap between their 2011 proficiency rate and \(100 \%\) proficiency by 2017.

\section*{2013 National Assessment Educational Progress (NAEP)}

The National Assessment of Educational Progress (NAEP) is the largest national assessment of what our nation's students know and can do. NAEP assesses fourth-, eighth-, and twelfth-grade students in subjects such as reading, mathematics, science, and writing. The reporting of NAEP scores on state report cards is a federal mandate. The results of NAEP are also published as the Nation's Report Card, and are available for the nation, states, and, in some cases, urban districts. The NAEP scores on the report card include grades four and eight 2013 reading and math scores for New Jersey which are the last scores published. For subgroup outcomes, visit :
http://www.nj.gov/education/pr/1213/naep/naep4read.html For more information, visit \(\leq\) http://nces.ed.gov/nationsreportcard/>

The National Assessment of Educational Progress (NAEP) is the largest national assessment of what our nation's students know and can do. NAEP assesses fourth-, eighth-, and twelfth-grade students in subjects such as reading, mathematics, science, and writing. The reporting of NAEP scores on state report cards is a federal mandate. The results of NAEP are also published as the Nation's Report Card, and are available for the nation, states, and, in some cases, urban districts. The NAEP scores on the report card include grades four and eight 2013 reading and math scores for New Jersey which are the last scores published. For subgroup outcomes, visit :
http://www.nj.gov/education/pr/1213/naep/naep4math.html For more information, visit <http://nces.ed.gov/nationsreportcard/>

\end{tabular}

Data is presented for subgroups when the count is high enough under NCLB suppression rules.

\section*{NJASK Proficiency Trends - Science - Grade Level - 04}

This graph presents the grade level outcomes in the categories of Advanced Proficient, Proficient, and Partially Proficient over the last four years.

Advanced Proficient Proficient
Partially Proficient

\section*{State of New Jersey}

COLLEGE AND CAREER READINESS

Students in both elementary and middles schools begin to demonstrate college readiness behaviors long before they even enter high school. Among the behaviors that research has shown to be indicative of success and college and career readiness are regularly attending school and challenging themselves with rigorous course work. The table presents the percentage of students who were chronically absent during the prior school year. A chronically absent student is a student who was not present for any reason for more than \(10 \%\) of the total days possible for that individual student.

The first column - Schoolwide Performance - represents the outcomes for these particular indicators in this school. The second column - Peer School Percentile - indicates how the school's performance compares to its group of peer schools. For example, a school whose peer school percentile is 65 in Chronic Absenteeism has a lower Chronic Absenteeism than \(65 \%\) of its peer group. The third column - Statewide Percentile - indicates how the school's performance compares to schools across the state. The fourth column Statewide Target - provides the statewide targets for each of these indicators. The last column - Met Target? - indicates whether the School Performance met or exceeded the statewide target.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.
\begin{tabular}{|l|c|c|c|c|c|}
\hline \begin{tabular}{l} 
College and Career Readiness \\
Indicators
\end{tabular} & \begin{tabular}{l} 
School \\
Performance
\end{tabular} & \begin{tabular}{l} 
Peer Rank \\
(Percentile)
\end{tabular} & \begin{tabular}{l} 
Statewide Rank \\
(Percentile)
\end{tabular} & \begin{tabular}{l} 
Statewide \\
Target
\end{tabular} & Met Target? \\
\hline Chronic Absenteeism (\%) & \(\mathbf{1 3 \%}\) & 23 & \(\mathbf{1 8}\) & \(\mathbf{6 \%}\) & NO \\
\hline Summary & & & & & 0 \\
\hline
\end{tabular}

Chronic Absenteeism - Number of students in the most recent school year that missed \(10 \%\) or more of the instructional days in the school year divided by the total number of students enrolled.

\section*{Absentecism}

The chart below presents the percentage of students who were absent in each category of absence: 0 absences, \(1-5\) absences, 6 10 absences, \(11-15\) absences, and more than 15 absences. An absence is defined as being 'not present' and includes the days missed regardless of whether they were determined to be excused or unexcused by the school.

\section*{State of New Jersey}

2012-13

\section*{STUDENT GROWTH}

This section of the performance report presents data about student growth, utilizing the Student Growth Percentile Methodology (SGP). SGP creates a measure of how students progressed in grades 4 through 8 in NJ ASK Language Arts Literacy and Math when compared to other students with a similar NJ ASK test score history. A short video explaining the methodology can be found here: http://www.state.nj.us/education/njsmart/performance/

The first column - Schoolwide Performance - presents the schoolwide median growth score in either Language Arts Literacy or Math for all students in the school. The second column - Peer Percentile - indicates how the school's growth performance compares to its group of peer schools. The third column - Statewide Percentile - indicates how a school compares to schools across the state. The last column - Met Target? - indicates whether the school's performance met or exceeded the target.

The summary row presents the averages of the peer school percentiles, the averages of statewide percentiles, the percentage of statewide targets met.
\begin{tabular}{|l|l|l|l|l|c|}
\hline Student Growth Indicators & \begin{tabular}{l} 
Schoolwide \\
Performance
\end{tabular} & \begin{tabular}{l} 
Peer \\
Percentile
\end{tabular} & \begin{tabular}{l} 
Statewide \\
Percentile
\end{tabular} & \begin{tabular}{l} 
Statewide \\
Target
\end{tabular} & Met Target? \\
\hline Student Growth on Language Arts & 47 & 41 & 33 & 35 & YES \\
\hline Student Growth on Math & 49 & 45 & 41 & 35 & YES \\
\hline & 43 & 37 & & \(100 \%\) \\
\hline
\end{tabular}

Student Growth

This table presents for all students with growth scores the interaction between their proficiency level on NJASK and their growth scores. For example, in the top left cell the percentage of students who are both partially proficient AND also demonstrating low growth is displayed.
\begin{tabular}{|c|c|c|c|c|c|c|c|}
\hline \multicolumn{4}{|c|}{Language Arts} & \multicolumn{4}{|c|}{Math} \\
\hline & \multicolumn{3}{|c|}{GROWTH} & & \multicolumn{3}{|c|}{GROWTH} \\
\hline & Low & Typical & High & & Low & Typical & High \\
\hline \begin{tabular}{l}
Partially \\
Proficient
\end{tabular} & 22\% & 9\% & 7\% & \begin{tabular}{l}
Partially \\
Proficient
\end{tabular} & 8\% & 3\% & 3\% \\
\hline Proficient & 18\% & 16\% & 28\% & Proficient & 20\% & 21\% & 17\% \\
\hline Advanced Proficient & 0\% & 0\% & 0\% & Advanced Proficient & 11\% & 4\% & 14\% \\
\hline
\end{tabular}

Low Growth is defined as an Student Growth Percentile score less than 35.
Typical Growth is defined as an Student Growth Percentile score between 35 and 65.
High Growth is defined as a Student Growth Percentile score higher than 65.

\section*{State of New Jersey}

This section of the performance report presents data about the achievement gap that exists within a school - as measured by the difference between the students' scale scores at the 25 th and 75 th percentile in the school, the so-called Interquartile Range (IQR). Taken together with an understanding of the overall and average achievement levels in the school, the IQR furthers an understanding of the range of student outcomes that exist in a school. A school gap smaller than the state gap indicates that the school's range of student outcomes is narrower than the state's while a school gap larger than the state gap indicates that the school's range of student outcomes is larger than the state's.

\section*{OVERVIEW \\ BERGEN \\ GARFIELD CITY}

GRADE SPAN KG-05
This school's academic performance is about average when compared to schools across the state. Additionally, its academic performance is very high when compared to its peers. This school's college and career readiness lags in comparison to schools across the state. Additionally, its college and career readiness is high when compared to its peers. This school's student growth performance is about average when compared to schools across the state. Additionally, its student growth performance is high when compared to its peers.
\(\left.\)\begin{tabular}{|l|c|c|c|}

\end{tabular} \begin{tabular}{c} 
Percent of \\
Targets Met
\end{tabular} \right\rvert\,

Improvement Status
N/A

\section*{Rationale}

N/A

Very High Performance is defined as being equal to or above the 80th percentile. High Performance is defined as being between the 60th and 79.9th percentiles.
Average Performance is defined as being between the 40th and 59.9th percentiles.
Lagging Performance is defined as being between the 20th and 39.9th percentiles.
Significantly Lagging Performance is defined as being equal to or below the 19.9th percentile.
Peer Schools are schools that have similar grade levels and students with similar demographic characteristics, such as the percentage of students qualifying for Free/Reduced Lunch, Limited English Proficiency programs or Special Education programs.

\section*{Academic Achievement}

This school outperforms \(\mathbf{4 5 \%}\) of schools statewide as noted by its statewide percentile and \(\mathbf{9 6 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Academic Achievement. Additionally, this school is meeting \(\mathbf{8 0 \%}\) of its performance targets in the area of Academic Achievement.

Academic Achievement measures the content knowledge students have in language arts literacy and math. For elementary and middle schools, this includes measures of the school's proficiency rate on both the Language Arts Literacy and Math sections of the New Jersey Assessment of Skills and Knowledge (NJASK). A proficiency rate is calculated by summing the count of students who scored either proficient or advanced proficient on the assessment and dividing by the count of valid test scores.

\section*{College and Career Readiness}

This school outperforms \(\mathbf{2 1 \%}\) of schools statewide as noted by its statewide percentile and \(\mathbf{6 1 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of College and Career Readiness. Additionally, this school is meeting \(\mathbf{0 \%}\) of its performance targets in the area of College and Career Readiness.

College and Career readiness measures the degree to which students are demonstrating behaviors that are indicative of future attendance and/or success in college and careers. For all elementary and middle schools, this includes a measurement of how many students are chronically absent. For schools with middle school grades, it also includes a measurement of how many students take Algebra I in eighth grade.

\section*{Student Growth}

This school outperforms \(\mathbf{5 2} \%\) of schools statewide as noted by its statewide percentile and \(\mathbf{7 4 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Student Growth. Additionally, this school is meeting \(\mathbf{1 0 0 \%}\) percentage of its performance targets in the area of Student Growth.

Student Growth measures the performance of students from one year to the next on the New Jersey Assessment of Skills and Knowledge (NJASK) in Language Arts Literacy and Math when compared to students with a similar history of performance on NJASK.

\section*{State of New Jersey}

\section*{Enrollment by Grade, in Full Time Equivalent}

This graph presents the count of students who were 'on roll' by grade in October of each school year.

Note: "UG" represents the count of students who are 'on roll' in this school but who are educated in ungraded classrooms, meaning that the classrooms may contain students from multiple grade levels.

Total School Enrollment in Full Time Equivalent
\begin{tabular}{|l|c|}
\hline \(2011-12\) & 366 \\
\hline \(2012-13\) & 372 \\
\hline
\end{tabular}

\section*{State of New Jersey}

\section*{GARFIELD CITY}

GRADE SPAN KG-05

\section*{GARFIELD, NEW JERSEY 07026}

Academic Achievement measures the content knowledge students have in language arts literacy and math. In elementary and middle school, this includes the outcomes of the New Jersey Assessment of Skills and Knowledge (NJASK). The first column Schoolwide Performance - in the table below includes measures of the total schoolwide proficiency rate in both language arts literacy and math. The second column - Peer School Percentile - indicates where the school's proficiency rate compares to its group of peer schools. For example, a school that has a peer school percentile of 65 has a proficiency rate that is higher than \(65 \%\) of its peer schools. The third column - Statewide Percentile - indicates where the school's proficiency rate compares to schools across the state. For example, a school that has a statewide percentile of 30 has a proficiency rate that is higher than \(30 \%\) of all schools with NJASK scores statewide. The last column - Percent of Targets Met - presents the percentage of progress targets met as defined by the NJDOE's NCLB waiver.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.

\section*{2013 National Assessment Educational Progress (NAEP)}

The National Assessment of Educational Progress (NAEP) is the largest national assessment of what our nation's students know and can do. NAEP assesses fourth-, eighth-, and twelfth-grade students in subjects such as reading, mathematics, science, and writing. The reporting of NAEP scores on state report cards is a federal mandate. The results of NAEP are also published as the Nation's Report Card, and are available for the nation, states, and, in some cases, urban districts. The NAEP scores on the report card include grades four and eight 2013 reading and math scores for New Jersey which are the last scores published. For subgroup outcomes, visit :

\section*{State of New Jersey}

\section*{COLLEGE AND CAREER READINESS}

Students in both elementary and middles schools begin to demonstrate college readiness behaviors long before they even enter high school. Among the behaviors that research has shown to be indicative of success and college and career readiness are regularly attending school and challenging themselves with rigorous course work. The table presents the percentage of students who were chronically absent during the prior school year. A chronically absent student is a student who was not present for any reason for more than \(10 \%\) of the total days possible for that individual student.

The first column - Schoolwide Performance - represents the outcomes for these particular indicators in this school. The second column - Peer School Percentile - indicates how the school's performance compares to its group of peer schools. For example, a school whose peer school percentile is 65 in Chronic Absenteeism has a lower Chronic Absenteeism than \(65 \%\) of its peer group. The third column - Statewide Percentile - indicates how the school's performance compares to schools across the state. The fourth column Statewide Target - provides the statewide targets for each of these indicators. The last column - Met Target? - indicates whether the School Performance met or exceeded the statewide target.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.
\begin{tabular}{|l|c|c|c|c|c|}

\hline Summary & & & & & 0 \\
\hline
\end{tabular}

Chronic Absenteeism - Number of students in the most recent school year that missed \(10 \%\) or more of the instructional days in the school year divided by the total number of students enrolled.

\section*{Absentecism}

The chart below presents the percentage of students who were absent in each category of absence: 0 absences, \(1-5\) absences, 6 10 absences, \(11-15\) absences, and more than 15 absences. An absence is defined as being 'not present' and includes the days missed regardless of whether they were determined to be excused or unexcused by the school.

\section*{State of New Jersey}

2012-13

\section*{STUDENT GROWTH \\ BERGEN \\ GARFIELD CITY \\ GRADE SPAN KG-05}

This section of the performance report presents data about student growth, utilizing the Student Growth Percentile Methodology (SGP). SGP creates a measure of how students progressed in grades 4 through 8 in NJ ASK Language Arts Literacy and Math when compared to other students with a similar NJ ASK test score history. A short video explaining the methodology can be found here: http://www.state.nj.us/education/njsmart/performance/

The first column - Schoolwide Performance - presents the schoolwide median growth score in either Language Arts Literacy or Math for all students in the school. The second column - Peer Percentile - indicates how the school's growth performance compares to its group of peer schools. The third column - Statewide Percentile - indicates how a school compares to schools across the state. The last column - Met Target? - indicates whether the school's performance met or exceeded the target.

The summary row presents the averages of the peer school percentiles, the averages of statewide percentiles, the percentage of statewide targets met.

2012-13

\section*{WITHIN SCHOOL ACHIEVEMENT GAP \\ BERGEN \\ GARFIELD CITY}

03-1700-100
ROOSEVELT SCHOOL \#7
225 LINCOLN PL
GARFIELD, NEW JERSEY 07026

This section of the performance report presents data about the achievement gap that exists within a school - as measured by the difference between the students' scale scores at the 25 th and 75 th percentile in the school, the so-called Interquartile Range (IQR). Taken together with an understanding of the overall and average achievement levels in the school, the IQR furthers an understanding of the range of student outcomes that exist in a school. A school gap smaller than the state gap indicates that the school's range of student outcomes is narrower than the state's while a school gap larger than the state gap indicates that the school's range of student outcomes is larger than the state's.

\section*{OVERVIEW}

BERGEN
GARFIELD CITY
GRADE SPAN KG-05
03-1700-120
WASHINGTON IRVING SCHOOL \#4
12 MADONNA PLACE
GARFIELD, NEW JERSEY 07026
This school's academic performance lags in comparison to schools across the state. Additionally, its academic performance is about average when compared to its peers. This school's college and career readiness significantly lags in comparison to schools across the state. Additionally, its college and career readiness lags in comparison to its peers. This school's student growth performance lags in comparison to schools across the state. Additionally, its student growth performance is about average when compared to its peers.
\(\left.\)\begin{tabular}{|l|c|c|c|}
\hline \multicolumn{1}{|c|}{ Performance Areas } & Peer Percentile & \multicolumn{2}{c|}{ Statewide Percentile }
\end{tabular} \begin{tabular}{c} 
Percent of \\
Targets Met
\end{tabular} \right\rvert\,

Improvement Status
N/A

\section*{Rationale}

N/A

Very High Performance is defined as being equal to or above the 80th percentile. High Performance is defined as being between the 60th and 79.9th percentiles.
Average Performance is defined as being between the 40th and 59.9th percentiles.
Lagging Performance is defined as being between the 20th and 39.9th percentiles.
Significantly Lagging Performance is defined as being equal to or below the 19.9th percentile.
Peer Schools are schools that have similar grade levels and students with similar demographic characteristics, such as the percentage of students qualifying for Free/Reduced Lunch, Limited English Proficiency programs or Special Education programs.

\section*{Academic Achievement}

This school outperforms \(\mathbf{3 1 \%}\) of schools statewide as noted by its statewide percentile and \(\mathbf{5 7 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Academic Achievement. Additionally, this school is meeting \(\mathbf{1 3 \%}\) of its performance targets in the area of Academic Achievement.

Academic Achievement measures the content knowledge students have in language arts literacy and math. For elementary and middle schools, this includes measures of the school's proficiency rate on both the Language Arts Literacy and Math sections of the New Jersey Assessment of Skills and Knowledge (NJASK). A proficiency rate is calculated by summing the count of students who scored either proficient or advanced proficient on the assessment and dividing by the count of valid test scores.

\section*{College and Career Readiness}

This school outperforms \(\mathbf{1 6 \%}\) of schools statewide as noted by its statewide percentile and \(\mathbf{3 5 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of College and Career Readiness. Additionally, this school is meeting \(\mathbf{0 \%}\) of its performance targets in the area of College and Career Readiness.

College and Career readiness measures the degree to which students are demonstrating behaviors that are indicative of future attendance and/or success in college and careers. For all elementary and middle schools, this includes a measurement of how many students are chronically absent. For schools with middle school grades, it also includes a measurement of how many students take Algebra I in eighth grade.

\section*{Student Growth}

This school outperforms \(\mathbf{3 8} \%\) of schools statewide as noted by its statewide percentile and \(49 \%\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Student Growth. Additionally, this school is meeting \(\mathbf{1 0 0 \%}\) percentage of its performance targets in the area of Student Growth.

Student Growth measures the performance of students from one year to the next on the New Jersey Assessment of Skills and Knowledge (NJASK) in Language Arts Literacy and Math when compared to students with a similar history of performance on NJASK.

\section*{State of New Jersey}

Academic Achievement measures the content knowledge students have in language arts literacy and math. In elementary and middle school, this includes the outcomes of the New Jersey Assessment of Skills and Knowledge (NJASK). The first column Schoolwide Performance - in the table below includes measures of the total schoolwide proficiency rate in both language arts literacy and math. The second column - Peer School Percentile - indicates where the school's proficiency rate compares to its group of peer schools. For example, a school that has a peer school percentile of 65 has a proficiency rate that is higher than \(65 \%\) of its peer schools. The third column - Statewide Percentile - indicates where the school's proficiency rate compares to schools across the state. For example, a school that has a statewide percentile of 30 has a proficiency rate that is higher than \(30 \%\) of all schools with NJASK scores statewide. The last column - Percent of Targets Met - presents the percentage of progress targets met as defined by the NJDOE's NCLB waiver.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.

\section*{NCLB Progress Targets - Language Arts Literacy}

This table presents the Progress Targets as uniquely calculated for each subgroup in each school under NJDOE's NCLB waiver. The methodology - as defined by the United States Department of Education - is calculated so that each subgroup will halve the gap between their 2011 proficiency rate and \(100 \%\) proficiency by 2017.

\section*{2013 National Assessment Educational Progress (NAEP)}

The National Assessment of Educational Progress (NAEP) is the largest national assessment of what our nation's students know and can do. NAEP assesses fourth-, eighth-, and twelfth-grade students in subjects such as reading, mathematics, science, and writing. The reporting of NAEP scores on state report cards is a federal mandate. The results of NAEP are also published as the Nation's Report Card, and are available for the nation, states, and, in some cases, urban districts. The NAEP scores on the report card include grades four and eight 2013 reading and math scores for New Jersey which are the last scores published. For subgroup outcomes, visit :

This graph presents the grade level outcomes in the categories of Advanced Proficient, Proficient, and Partially Proficient over the last four years.

Advanced Proficient Proficient
Partially Proficient

Students in both elementary and middles schools begin to demonstrate college readiness behaviors long before they even enter high school. Among the behaviors that research has shown to be indicative of success and college and career readiness are regularly attending school and challenging themselves with rigorous course work. The table presents the percentage of students who were chronically absent during the prior school year. A chronically absent student is a student who was not present for any reason for more than \(10 \%\) of the total days possible for that individual student.

The first column - Schoolwide Performance - represents the outcomes for these particular indicators in this school. The second column - Peer School Percentile - indicates how the school's performance compares to its group of peer schools. For example, a school whose peer school percentile is 65 in Chronic Absenteeism has a lower Chronic Absenteeism than \(65 \%\) of its peer group. The third column - Statewide Percentile - indicates how the school's performance compares to schools across the state. The fourth column Statewide Target - provides the statewide targets for each of these indicators. The last column - Met Target? - indicates whether the School Performance met or exceeded the statewide target.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.
\begin{tabular}{|l|c|c|c|c|c|}

\hline Summary & & & & & \\
\hline
\end{tabular}

Chronic Absenteeism - Number of students in the most recent school year that missed \(10 \%\) or more of the instructional days in the school year divided by the total number of students enrolled.

\section*{Absentecism}

The chart below presents the percentage of students who were absent in each category of absence: 0 absences, \(1-5\) absences, 6 10 absences, \(11-15\) absences, and more than 15 absences. An absence is defined as being 'not present' and includes the days missed regardless of whether they were determined to be excused or unexcused by the school.

\section*{State of New Jersey}

2012-13

\section*{STUDENT GROWTH \\ BERGEN \\ GARFIELD CITY \\ GRADE SPAN KG-05}

This section of the performance report presents data about student growth, utilizing the Student Growth Percentile Methodology (SGP). SGP creates a measure of how students progressed in grades 4 through 8 in NJ ASK Language Arts Literacy and Math when compared to other students with a similar NJ ASK test score history. A short video explaining the methodology can be found here: http://www.state.nj.us/education/njsmart/performance/

The first column - Schoolwide Performance - presents the schoolwide median growth score in either Language Arts Literacy or Math for all students in the school. The second column - Peer Percentile - indicates how the school's growth performance compares to its group of peer schools. The third column - Statewide Percentile - indicates how a school compares to schools across the state. The last column - Met Target? - indicates whether the school's performance met or exceeded the target.

The summary row presents the averages of the peer school percentiles, the averages of statewide percentiles, the percentage of statewide targets met.
\(\left.\begin{array}{|l|l|l|l|l|c|}\hline \text { Student Growth Indicators } & \begin{array}{l}\text { Schoolwide } \\
\text { Performance }\end{array} & \begin{array}{l}\text { Peer } \\
\text { Percentile }\end{array} & \begin{array}{l}\text { Statewide } \\
\text { Percentile }\end{array} & \begin{array}{l}\text { Statewide } \\
\text { Target }\end{array} & \text { Met Target? } \\
\hline \text { Student Growth on Language Arts } & 43 & 43 & & 24 & 35\end{array}\right]\) YES \begin{tabular}{l} 
Student Growth on Math
\end{tabular}

Student Growth

This table presents for all students with growth scores the interaction between their proficiency level on NJASK and their growth scores. For example, in the top left cell the percentage of students who are both partially proficient AND also demonstrating low growth is displayed.
\begin{tabular}{|c|c|c|c|c|c|c|c|}
\hline \multicolumn{4}{|c|}{Language Arts} & \multicolumn{4}{|c|}{Math} \\
\hline & \multicolumn{3}{|c|}{GROWTH} & & \multicolumn{3}{|c|}{GROWTH} \\
\hline & Low & Typical & High & & Low & Typical & High \\
\hline Partially Proficient & 27\% & 11\% & 5\% & Partially Proficient & 14\% & 5\% & 0\% \\
\hline Proficient & 13\% & 22\% & 19\% & Proficient & 14\% & 27\% & 11\% \\
\hline Advanced Proficient & 0\% & 0\% & 3\% & Advanced Proficient & 4\% & 9\% & 15\% \\
\hline
\end{tabular}

Low Growth is defined as an Student Growth Percentile score less than 35.
Typical Growth is defined as an Student Growth Percentile score between 35 and 65.
High Growth is defined as a Student Growth Percentile score higher than 65.

\section*{State of New Jersey}

\section*{WITHIN SCHOOL ACHIEVEMENT GAP \\ BERGEN \\ GARFIELD CITY}

03-1700-120
WASHINGTON IRVING SCHOOL \#4
12 MADONNA PLACE
GARFIELD, NEW JERSEY 07026

This section of the performance report presents data about the achievement gap that exists within a school - as measured by the difference between the students' scale scores at the 25 th and 75 th percentile in the school, the so-called Interquartile Range (IQR). Taken together with an understanding of the overall and average achievement levels in the school, the IQR furthers an understanding of the range of student outcomes that exist in a school. A school gap smaller than the state gap indicates that the school's range of student outcomes is narrower than the state's while a school gap larger than the state gap indicates that the school's range of student outcomes is larger than the state's.

\section*{Grade Level - 03}

State of New Jersey
2012-13

\section*{OVERVIEW \\ BERGEN \\ GARFIELD CITY}

GRADE SPAN KG-05
This school's academic performance significantly lags in comparison to schools across the state. Additionally, its academic performance is about average when compared to its peers. This school's college and career readiness lags in comparison to schools across the state. Additionally, its college and career readiness is about average when compared to its peers. This school's student growth performance significantly lags in comparison to schools across the state. Additionally, its student growth performance significantly lags in comparison to its peers.
\begin{tabular}{||c|c|c|c|c|c|}
\hline \multicolumn{1}{|c|}{ Performance Areas } & \multicolumn{2}{c|}{ Peer Percentile } & \multicolumn{2}{c|}{ Statewide Percentile } & \begin{tabular}{c} 
Percent of \\
Targets Met
\end{tabular} \\
\hline Academic Achievement & 40 & 16 & \(0 \%\) & Improvement Status \\
\hline College and Career Readiness & 55 & & & N/A \\
\hline Student Growth & 17 & 28 & \(0 \%\) & Rationale \\
\hline
\end{tabular}

Very High Performance is defined as being equal to or above the 80th percentile. High Performance is defined as being between the 60th and 79.9th percentiles.
Average Performance is defined as being between the 40th and 59.9th percentiles.
Lagging Performance is defined as being between the 20th and 39.9th percentiles.
Significantly Lagging Performance is defined as being equal to or below the 19.9th percentile.
Peer Schools are schools that have similar grade levels and students with similar demographic characteristics, such as the percentage of students qualifying for Free/Reduced Lunch, Limited English Proficiency programs or Special Education programs.

\section*{Academic Achievement}

This school outperforms \(\mathbf{1 6 \%}\) of schools statewide as noted by its statewide percentile and \(\mathbf{4 0 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Academic Achievement. Additionally, this school is meeting \(\mathbf{0 \%}\) of its performance targets in the area of Academic Achievement.

Academic Achievement measures the content knowledge students have in language arts literacy and math. For elementary and middle schools, this includes measures of the school's proficiency rate on both the Language Arts Literacy and Math sections of the New Jersey Assessment of Skills and Knowledge (NJASK). A proficiency rate is calculated by summing the count of students who scored either proficient or advanced proficient on the assessment and dividing by the count of valid test scores.

\section*{College and Career Readiness}

This school outperforms \(\mathbf{2 8 \%}\) of schools statewide as noted by its statewide percentile and \(\mathbf{5 5 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of College and Career Readiness. Additionally, this school is meeting \(\mathbf{0 \%}\) of its performance targets in the area of College and Career Readiness.

College and Career readiness measures the degree to which students are demonstrating behaviors that are indicative of future attendance and/or success in college and careers. For all elementary and middle schools, this includes a measurement of how many students are chronically absent. For schools with middle school grades, it also includes a measurement of how many students take Algebra I in eighth grade.

\section*{Student Growth}

This school outperforms \(\mathbf{1 3} \%\) of schools statewide as noted by its statewide percentile and \(\mathbf{1 7 \%}\) of schools educating students with similar demographic characteristics as noted in its peer school percentile in the performance area of Student Growth. Additionally, this school is meeting \(\mathbf{1 0 0 \%}\) percentage of its performance targets in the area of Student Growth.

Student Growth measures the performance of students from one year to the next on the New Jersey Assessment of Skills and Knowledge (NJASK) in Language Arts Literacy and Math when compared to students with a similar history of performance on NJASK.

\section*{State of New Jersey}

\section*{Enrollment by Grade, in Full Time Equivalent}

This graph presents the count of students who were 'on roll' by grade in October of each school year.

Note: "UG" represents the count of students who are 'on roll' in this school but who are educated in ungraded classrooms, meaning that the classrooms may contain students from multiple grade levels.

\hline
\end{tabular}

\section*{State of New Jersey}

Academic Achievement measures the content knowledge students have in language arts literacy and math. In elementary and middle school, this includes the outcomes of the New Jersey Assessment of Skills and Knowledge (NJASK). The first column Schoolwide Performance - in the table below includes measures of the total schoolwide proficiency rate in both language arts literacy and math. The second column - Peer School Percentile - indicates where the school's proficiency rate compares to its group of peer schools. For example, a school that has a peer school percentile of 65 has a proficiency rate that is higher than \(65 \%\) of its peer schools. The third column - Statewide Percentile - indicates where the school's proficiency rate compares to schools across the state. For example, a school that has a statewide percentile of 30 has a proficiency rate that is higher than \(30 \%\) of all schools with NJASK scores statewide. The last column - Percent of Targets Met - presents the percentage of progress targets met as defined by the NJDOE's NCLB waiver.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.

\section*{2013 National Assessment Educational Progress (NAEP)}

The National Assessment of Educational Progress (NAEP) is the largest national assessment of what our nation's students know and can do. NAEP assesses fourth-, eighth-, and twelfth-grade students in subjects such as reading, mathematics, science, and writing. The reporting of NAEP scores on state report cards is a federal mandate. The results of NAEP are also published as the Nation's Report Card, and are available for the nation, states, and, in some cases, urban districts. The NAEP scores on the report card include grades four and eight 2013 reading and math scores for New Jersey which are the last scores published. For subgroup outcomes, visit :

COLLEGE AND CAREER READINESS

Students in both elementary and middles schools begin to demonstrate college readiness behaviors long before they even enter high school. Among the behaviors that research has shown to be indicative of success and college and career readiness are regularly attending school and challenging themselves with rigorous course work. The table presents the percentage of students who were chronically absent during the prior school year. A chronically absent student is a student who was not present for any reason for more than \(10 \%\) of the total days possible for that individual student.

The first column - Schoolwide Performance - represents the outcomes for these particular indicators in this school. The second column - Peer School Percentile - indicates how the school's performance compares to its group of peer schools. For example, a school whose peer school percentile is 65 in Chronic Absenteeism has a lower Chronic Absenteeism than \(65 \%\) of its peer group. The third column - Statewide Percentile - indicates how the school's performance compares to schools across the state. The fourth column Statewide Target - provides the statewide targets for each of these indicators. The last column - Met Target? - indicates whether the School Performance met or exceeded the statewide target.

The Summary row presents the averages of the peer school percentiles, the average of statewide percentiles and the percentage of statewide targets met.
\begin{tabular}{|l|l|l|l|c|c|}
\hline \begin{tabular}{l} 
College and Career Readiness \\
Indicators
\end{tabular} & \begin{tabular}{l} 
School \\
Performance
\end{tabular} & \begin{tabular}{l} 
Peer Rank \\
(Percentile)
\end{tabular} & \begin{tabular}{l} 
Statewide Rank \\
(Percentile)
\end{tabular} & \begin{tabular}{l} 
Statewide \\
Target
\end{tabular} & Met Target? \\
\hline Chronic Absenteeism (\%) & \(\mathbf{1 0 \%}\) & \(\mathbf{5 5}\) & \(\mathbf{2 8}\) & \(\mathbf{6 \%}\) & NO \\
\hline Summary & & & & & \(\mathbf{0 \%}\) \\
\hline
\end{tabular}

Chronic Absenteeism - Number of students in the most recent school year that missed 10\% or more of the instructional days in the school year divided by the total number of students enrolled.

\section*{Absentecism}

The chart below presents the percentage of students who were absent in each category of absence: 0 absences, \(1-5\) absences, 6 10 absences, 11 - 15 absences, and more than 15 absences. An absence is defined as being 'not present' and includes the days missed regardless of whether they were determined to be excused or unexcused by the school.

\section*{State of New Jersey}

2012-13

\section*{STUDENT GROWTH \\ BERGEN \\ GARFIELD CITY \\ GRADE SPAN KG-05}

This section of the performance report presents data about student growth, utilizing the Student Growth Percentile Methodology (SGP). SGP creates a measure of how students progressed in grades 4 through 8 in NJ ASK Language Arts Literacy and Math when compared to other students with a similar NJ ASK test score history. A short video explaining the methodology can be found here: http://www.state.nj.us/education/njsmart/performance/

The first column - Schoolwide Performance - presents the schoolwide median growth score in either Language Arts Literacy or Math for all students in the school. The second column - Peer Percentile - indicates how the school's growth performance compares to its group of peer schools. The third column - Statewide Percentile - indicates how a school compares to schools across the state. The last column - Met Target? - indicates whether the school's performance met or exceeded the target.

The summary row presents the averages of the peer school percentiles, the averages of statewide percentiles, the percentage of statewide targets met.
\begin{tabular}{|l|l|l|l|l|c|}
\hline Student Growth Indicators & \begin{tabular}{l} 
Schoolwide \\
Performance
\end{tabular} & \begin{tabular}{l} 
Peer \\
Percentile
\end{tabular} & \begin{tabular}{l} 
Statewide \\
Percentile
\end{tabular} & \begin{tabular}{l} 
Statewide \\
Target
\end{tabular} & Met Target? \\
\hline Student Growth on Language Arts & 39 & 22 & 15 & 35 & YES \\
\hline Student Growth on Math & 36 & 11 & 11 & 35 & YES \\
\hline & 17 & 13 & & \(100 \%\) \\
\hline
\end{tabular}

Student Growth

This table presents for all students with growth scores the interaction between their proficiency level on NJASK and their growth scores. For example, in the top left cell the percentage of students who are both partially proficient AND also demonstrating low growth is displayed.
\begin{tabular}{|c|c|c|c|c|c|c|c|}
\hline \multicolumn{4}{|c|}{Language Arts} & \multicolumn{4}{|c|}{Math} \\
\hline & \multicolumn{3}{|c|}{GROWTH} & & \multicolumn{3}{|c|}{GROWTH} \\
\hline & Low & Typical & High & & Low & Typical & High \\
\hline Partially Proficient & 31\% & 17\% & 4\% & Partially Proficient & 22\% & 7\% & 0\% \\
\hline Proficient & 13\% & 16\% & 17\% & Proficient & 23\% & 22\% & 12\% \\
\hline Advanced Proficient & 1\% & 0\% & 0\% & Advanced Proficient & 3\% & 3\% & 8\% \\
\hline
\end{tabular}

Low Growth is defined as an Student Growth Percentile score less than 35.
Typical Growth is defined as an Student Growth Percentile score between 35 and 65.
High Growth is defined as a Student Growth Percentile score higher than 65.

\section*{WITHIN SCHOOL ACHIEVEMENT GAP BERGEN \\ GARFIELD CITY}

03-1700-130
WOODROW WILSON SCHOOL \#5
205 OUTWATER LANE
GARFIELD, NEW JERSEY 07026-2635

This section of the performance report presents data about the achievement gap that exists within a school - as measured by the difference between the students' scale scores at the 25 th and 75 th percentile in the school, the so-called Interquartile Range (IQR). Taken together with an understanding of the overall and average achievement levels in the school, the IQR furthers an understanding of the range of student outcomes that exist in a school. A school gap smaller than the state gap indicates that the school's range of student outcomes is narrower than the state's while a school gap larger than the state gap indicates that the school's range of student outcomes is larger than the state's.
