improve lives.

## **What We Do**

### **Solutions for next generation government.**

RIPL is a tech-for-social-impact nonprofit that works with governments to help them use data, science, and technology to improve policy and lives. We equip our policy leaders to create policy that works; delivering measurable improvement per dollar spent for Americans in need.

Our scientists and policy experts partner with government leaders to frame their challenges, and develop and deliver the best science approach to solve them. Our technologists design databases, applications, and user experiences that make policy delivery effective and engaging. We partner with policymakers so that they can use data, science, and technology to positively impact lives, solve pressing social

## Data-Driven Improvement

We work with our partners to identify their biggest policy challenges and deliver immediate solutions while building capacity for lasting change.

First, we deploy a RIPL-developed Research Data Lake of joined administrative data, which accelerates the delivery and reliability of insights, and supports broad-based partnerships to improve policy.

**RIPL**

# Turn Research Into Impact

We design and launch scalable, data-driven applications that deliver effective policy to improve lives. Our solutions are driving measurable impact in unemployment insurance support, workforce development, education opportunity, and more. RIPL solutions are science-designed by leading researchers to meet beneficiaries where they are with effective, inspiring solutions that work for them.

## RIPL

proactive in government to support our communities and families to the best of our ability. Our partnership with RIPL helps us use objective research and data at high speed so we can do just that. RIPL's approach to data and science for social good could benefit local and state government throughout the country."

### **Eric Beane**

Former Secretary, Rhode Island Executive Office of Health & Human Services

RIPL is a Technical Assistance Partner to the National Governors Association Workforce Innovation Network, a collaborative effort to help governors and states facilitate innovative, state-level policy solutions that improve employment and workforce outcomes.
