

Commissioner's Monthly Report June 2020

Christine Beyer
Commissioner

The COVID-19 pandemic has significantly impacted all aspects of life and work in New Jersey. Statewide efforts to prevent and mitigate community spread have been all-encompassing. Through Executive Orders, Governor Phil Murphy directed all New Jersey residents to stay home, closing schools and non-essential businesses and cancelling all gatherings.¹ As more has become known about COVID-19's methods of transmission, a clearer picture has emerged about crucial precautionary measures, including social distancing, the use of personal protective equipment and cleaning regimens.

Like all other aspects of life in New Jersey, the child welfare system has been significantly impacted by the public health crisis. The extraordinary circumstances of the present emergency have required DCF's operations to be responsive and evolutionary. We have changed the way that we conduct our work while remaining dutiful to our critical mission of service to New Jersey's children and their families.

In the early weeks of the pandemic, DCF closed 46 local offices, restricted access to 9 area offices, and moved 16 regional schools and 2 DCF-operated, hospital-based satellite schools to remote learning. DCF's Office of Information and Technology converted the majority of our 6,700 staff members to remote work. DCF altered practices and policies that guide our daily interactions with children, families, our own staff and partner providers: DCF set up COVID-19 response teams to respond to child protective service investigations and complete home visits on select cases; requirements for in-person visits between parents and children, children and their siblings and caseworkers and families were temporarily suspended in favor of telephonic and video conferencing communication; timeframes for critical practices, such as case plans and family team meetings, were similarly temporarily suspended.² After the enactment of new legislation permitting telemedicine and telehealth services, DCF authorized the provision of many outpatient, in-home and community-based services via remote technology.³ DCF learned to operate in a court system that was transitioning from in-person hearings to virtual proceedings.⁴

The data contained in this report shows marked shifts in measures of performance in certain areas of casework, most notably measurements related to in-person visitation and family team meetings. When reviewing this data, it is important to recognize: **while the operating rules and expectations have undergone swift and significant changes, the metrics included in this report have not yet been altered to measure the new, revised practice expectations.** In other words, DCF is sharing "post-COVID-19" data using "pre-COVID-19" performance metrics. For some measures, the underlying processes have been temporarily suspended, i.e., in-person visitation between caseworkers, parents, and children. While the data shows the declines in in-person visits, it may not account for supplemental virtual visits via video conferencing or for phone communications, which DCF's electronic case management system is being updated to capture. For other measures, the rapid conversion to remote work resulted in data entry issues related to connectivity. While this has improved with time, documentation for completed work is still being entered in DCF's case management system. Additionally, we know that not all families possess the technology required to participate in remote visits, teleconferences, and electronic hearings. As DCF and the Administrative Office of the Courts provide greater access to families, their ability to participate in these types of activities will increase.

As the needs of children and families in New Jersey change in light of the health and economic impacts of the COVID-19 pandemic, DCF's operations, practice standards, policies, and resources will continue to evolve responsively and reflectively. DCF will not, however, change our commitment to continued monitoring of performance and transparent dissemination of data to the public.

 The blue bar indicates DCF performance in the current month.  The red bar indicates the difference between the current performance and the Exit Plan target.					

¹ Reported performance understates actual performance in some measures because data does not exclude all instances where an event could not occur.

² Compliance for Parent-Child Weekly Visits is measured by percent of children with weekly visits averaged over the number of weeks in the month.

³ Caseworker visits with Children in Placement (all locations) April 2020: 87 %.

¹ Some children may be served by both CP&P and CSOC and are over-represented in the final count of children served in the month.

² The definition for "Youth Open with CSOC" reflects youth who are involved and eligible to receive services through CSOC.

³ FCP measures clients served in SBYSP and DV Services. Since Family Success Centers and Home Visitation programs report data in terms of families served, each family is assumed to have at least one client.

⁴ Families served by DCF includes CP&P families and FCP families. FCP families served data has a one month lag.

⁵ CSOC Children may receive multiple services and are counted multiple times.

⁶ FCP quick facts are based on new families for FSCs, but both new and ongoing clients for Home Visiting and SBYSP. DoW quick facts are based on new clients for DV Services, but both new and ongoing clients served for SAARC, Displaced Homemakers and Rape Prevention Education.

⁷ The cumulative number of human trafficking referrals between **November 2013 and March 2020 was 977**. This figure could change depending on when the data is extracted.

⁸ Appropriate use of shelters include 1) alternative to detention 2) short term placement of an adolescent in crisis not to extend beyond 30 days 3) a basic center for homeless youth.

OOH Behavioral Health Settings: Children Served - Excludes Youth in Detention Alternatives and Diagnostic Settings.

Effective June 2017, All DoW data is reported Monthly except for Residential DV shelters and Unmet Needs Data.

⁹ Due to system upgrades within DCF, FCP and DOW data will not be available beginning May 2019. DCF will resume reporting on these data after the new systems have been updated with these data.

OAS Quick Facts (April 2020)
Youth 18-21

Youth 18-21 years old served by CP&P ⁴			1,615
Youth served "In Home" living with a parent/relative or living independently ⁵			1,328
Youth served "Out-of-Home"			287
Resource Family (non-Kin)	(40.1%)	115	
Resource Family Kinship	(12.5%)	36	
Congregate Care Setting	(23.3%)	67	
Independent Living	(24.0%)	69	
Youth Receiving Adoption or KLG Subsidy			1,095

⁴ The data includes all 18-21 year olds who are active participants in an open CP&P case as of the end of the month.

⁵ The terms "out-of-home" and "in-home" may not be appropriate for all 18-21 year olds. Youth identified as "in-home" can either be residing with a parent/relative, or living independently. Any of these youth may be receiving services. These definitions are currently being reviewed to better understand how we capture DCF's work with this population. The goal of this ongoing work is to create three meaningful categories for 18-21 year olds 1) Youth in a formal out-of-home placement setting, 2) Youth that achieved permanency, and 3) Youth that never achieved permanency.
