### Transcript

**Governor Christie:** There are thousands of people out there who believe in you too. Who don't even know you, but believe in the idea of second chances and who believe in the idea that every life is redeemable. And believe in the idea that every life is precious. And they might not know your name, and they may never meet you but as they believe in those principles and are willing to support them financially, spiritually, they believe in you. And so you should know that not only the people who work with you every day who are most important because they can touch you and look you in the eye and tell you that you have a life of value. And that you bring joy to your own life, and can bring joy to other peoples' lives, not only those people but lots of other people that I represent believe in you too. And that's why I'm here, that's why we support this, that's why we're going to support this in every county in the state because I believe in second chances and I believe that your life is not disposable. It's just not. So thanks for sharing that with me, it's really important.
