The **2016-17 School Performance Reports** are designed to share school and district information collected by the New Jersey Department of Education directly with parents, educators, and communities. The Department believes that the greatest potential to improve school performance and student outcomes is through parents, educators, and community members working together. These reports seek to make that process easier by providing information that can help people to:

- **Learn more:** The School Performance Reports contain a wealth of data, going far beyond a school's test scores to include information about the staff working in a school, student discipline rates, and the sports and clubs offered.
- **Ask questions:** These reports can help start a conversation, but they cannot answer all the questions you might have about schools in your community. Use the contact information provided to engage with faculty and administrators at your schools to ask about the data you see in these reports.
- **Get involved:** Schools need help from parents and communities to help students succeed. Contact your school to find out about school board meetings or parent and community groups.

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act (ESSA)* accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

### Mathematics Assessment - Participation and Performance

This table shows information about the Mathematics section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act* (ESSA) accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

This section of the performance report shows information on student growth which measures how much students are learning each year. Each student receives a **Student Growth Percentile (SGP)** for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in the prior year.

A student's **SGP** falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the **median student growth percentile (mSGP)** is the percentile in the middle of that list. Watch a short video that explains how **median Student Growth Percentile (mSGP)** is calculated here:

Student Growth

This table shows the **median Student Growth Percentile (mSGP)** for both English Language Arts/Literacy (ELA) and Mathematics for the school and each student group with comparisons to the district and the state. This section shows information about student absences which provides important information about a school's culture and climate. In addition, research shows that student absences impact a child's ability to succeed in school. The New Jersey Department of Education selected chronic absenteeism as its measure of school quality and student success for the *ESSA* accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, excused, unexcused or for disciplinary action, is considered absent unless permitted by statute or regulation.

### Chronic Absenteeism

This table shows the percentage of students in grades K-12 in the school and each student group who were chronically absent. This table also shows whether the school and each student group met the *ESSA* accountability targets for 2016-17.

Student Group	% Chronically Absent	2016-17 Target	Met 2016-17 Target

### Technology Readiness

This table shows information that was collected through the optional NJTRAx survey to determine a school's technology readiness. The student to device ratio shows the number of students for every computer or tablet in the school. The internet speed is the internet bandwidth per 1000 students enrolled in the district measured in megabits per second. The connectivity between schools is a school's LAN network architecture. The NJTRAx survey is optional for schools, so data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device (BYOD) policy may have appear to have a very low Student to Device ratio due to this policy decision.

School Year	Student to Device Ratio	Internet Speed	Recommended Internet Speed	Met Recommended Speed?	Connectivity between Schools	Recommended Connectivity	Met Recommended Connectivity?

### Per-Pupil Expenditures (District Level)

This section contains information about staff that are assigned to the school and district. Here is an explanation of some of the **key terms used in the staff section**:

**Faculty**: All classroom teachers and educational support services personnel (such as Librarians, Nurses, Counselors, and Child Study Team members)

**Teachers**: All classroom teachers

**Administrators**: Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

**Full-Time Equivalent**: In calculations, staff members are weighted based on the percentage of their time that they are assigned to a school or district. For example – a teacher assigned to a school half time would be weighted 50% in calculations, but a teacher assigned to a school full time would be weighted 100% in calculations.

Accountability Indicator Scores and Summative Rating

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of comprehensive support. This table shows the indicator scores for each indicator included in the accountability system and the weights that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative rating below the 5th percentile or high schools with a 4-year graduation rate that is less than or equal to 67% are identified for Comprehensive Support. For more information about New Jersey’s accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Mathematics Proficiency	44.5	17.5%
English Language Arts Growth	5.3	25.0%

Accountability Summary by Student Group

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of Targeted Support. Any student group where the summative score would be in the bottom 5% of schools (see previous page) is identified for Targeted Support for a Low-Performing Student Group. If any student group is identified for Targeted Support, this will be noted in the Schoolwide row in the table. Schools in which one or more student groups miss annual targets for all indicators two years in a row are identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups miss annual targets for all indicators are noted to be At Risk for being identified for Targeted Support for the 2017-18 school year. Annual targets for proficiency and graduation rate are set based on a school or student group’s performance in 2015-16. The target for chronic absenteeism is the statewide average for all students. For more details on accountability targets, see these [accountability resources](#).

 <b>Staff and Professional Learning:</b>	<p>Philip's Academy makes every effort to ensure all faculty and staff have the professional development opportunities needed to improve our practice and better serve students. Professional learning begins in the summer, where faculty and support staff participate in training, including offerings focused on classroom management, effective instruction, and differentiation. This learning continues during the school year with weekly cluster meetings, bi-weekly training sessions and online trainings.</p>
 <b>Postsecondary Information:</b>	<p>At Philip's Academy, students meet alumni, hear about the process and visit schools even before they reach eighth grade. In that final year our students are well informed and ready to begin applying to schools. As part of the placement process students participate in school visits, information sessions, placement fairs, mock interviews and writing workshops. 95% of our alumni have been accepted into 4-year colleges.</p>
 <b>Student Supports and Services:</b>	<p>At Philip's Academy our goal is to provide all students with quality instruction that meets their needs and helps them make academic gain. We work hard to ensure that our students are provided with the appropriate supports they need to grow academically, socially and emotionally. We offer an array of supports which include student pull outs for individualized and/or small group academic, counseling support, push in parallel teach, and working with teachers to ensure IEPs/or 504s goals are met.</p>
 <b>Student Health and Wellness:</b>	<p>Philip's Academy provides an environment full of physical activity. Besides weekly Physical Education classes, students are granted daily recess periods. This affords them opportunity to gain exercise and express themselves physically. Seed-to-Table Program is a comprehensive food program, which teaches the cycle of our food and its affect on our bodies. EcoSPACES is a multidimensional program which gives students the tools to lead healthy and environmentally productive lives.</p>
 <b>Parent and Community Involvement:</b>	<p>PACS PTO: helps support all aspects of school operation through educating families, raising funds to support a variety of programs and initiatives, and serving as a forum for family feedback and input. Events include Family Math Night, Multicultural Night, Book Fairs, Thanksgiving Feast and Family Fun Day. PACS provides families information through our parent portal, the PACS Site Hub, as well as through our PowerSchool Student Information System.</p>

Climate Surveys:

Is a Climate Survey Used: Yes; Who is surveyed: Students, Parents, Administrators, Teachers

PACS Newark uses Panorama Online Surveys to help us evaluate our school climate. These surveys are completed by faculty, support staff, families and students annually. These findings are reviewed by our faculty grade-level cohorts, school administration and leadership, including the school's board. The findings help guide our decision makers as they seek to improve our instructional, administrative and logistical practices in an effort to better serve all members of our community.

Facilities:

The design from its inception, intended Philip's Academy to be, a learning tool for all the academic disciplines. It has a vibrant and rich physical space conducive to all the sensitivities creating powerful learning environments. Classrooms are spacious and vibrantly colored with maximum natural light. Silver LEED certification. Reduce water usage by 20% with low-flow toilets, faucets, etc. Energy-efficient building that operate at least 20% above baseline. Daylight in 90% of learning spaces.

Other Information:

Philip's Academy Charter School goals and dreams for our students are ambitious. We believe education requires a complex and harmonious blending of a vast array of academic, social and emotional skills with particular attention to building a strong ethical framework. We believe children should have a moral component to their education. In this way, students are encouraged to develop their judgment, reasoning and even wisdom. This process also aides the development of their analytical abilities and enables them to grow as creative, collaborative problem solvers. Philip's Academy students are challenged to figure out how to integrate and use technology in imaginative ways to improve instruction. Student schedules provide them with the opportunity to imagine, wonder, and determine authenticity and freedom. Philip's Academy will continue to demonstrate through its curriculum and educational environment how students learn and develop into leaders of purposeful and constructive lives that benefit society. Please join us in our belief that despite the challenges, we can deliver this rich and comprehensive education to any population. Philip's Academy is a participant of Newark's Universal Enrollment System, which allows families to access great schools for their children, regardless of the school's status as a district or charter. Universal Enrollment is a convenient way of applying to schools and is available to anyone who lives in Newark, East Orange, or Irvington. Individuals may select up to eight schools in order of preference on a single application. They will then receive a single offer to attend the best possible school given their selections.
