7:25-18.2 Pound nets

(a) The following words and terms shall have the following meanings unless the context clearly indicates otherwise.

"Department" means the New Jersey Department of Environmental Protection.

"Heart" means an upright fence of netting forming a heart-shaped (round or square) compartment located between the leader and the pocket. It is designed to cause fish to circle in front of and eventually enter the pocket of a pound net.

"Leader" means an upright fence of netting that acts as a barrier to fish and guides them toward a trap; the netting is made of heavy twine, not designed to catch fish by the gills.

"Navigable channel" means a channel marked with navigational markers including poles, piling or buoys, by the Coast Guard or the State.

"Pocket" means an upright fence of netting forming the final compartment of a pound net in which trapped fish accumulate.

"Pound net" means a large fish trap, consisting of a leader, pocket and one or more hearts, held in place with poles, the netting of which reaches from the bottom to above the surface of the water.

"Staked or anchored gill net" means an upright fence of monofilament or nylon netting, held in place at each end by stakes or anchors, that catches fish by snagging their gill covers as they try to pass through the mesh of the net.

"Submarine pound net" means a pound net that is totally submerged beneath the water and held in place by anchors.

(b) General requirements for all pound net users are as follows:

1. No person may install, operate or maintain a pound net in the marine waters of the State without having first obtained a license from the Department.

2. The Department may establish limits on the number of licenses to be issued for pound nets in Raritan Bay and Sandy Hook Bay and in the Atlantic Ocean within three nautical miles of the coastline.

3. Licenses must be renewed annually.

4. Holders of pound net licenses from the previous year shall have first priority in obtaining a new license, provided they apply before March 1 of the current year.

5. Any person operating any fish pound net in the marine waters of New Jersey, must, at the time of emptying the net, return to the waters wherein the net is located all species less than the minimum size limits specified pursuant to N.J.A.C. 7:25-18.1.

6. No person may, by boat, anchor, dredge or otherwise, willfully and without reasonable cause, interfere with, break, damage or destroy any fish net or associated equipment being lawfully used by a license holder.

7. The Department may require any licensee to submit a money surety bond to insure removal of pound net poles and apparatus as required by these rules.

8. Violation of the rules in this section will subject the violator to money penalties, loss of license and/or injunctive relief under N.J.S.A. 23:2B-14.

(c) Specific requirements for pound net users in Raritan, Sandy Hook and Delaware Bays are as follows:

1. Any person applying for a pound net license must indicate the specific proposed site for the net, as designated by a chart developed by the Department. Sites which have not previously been located on the approved chart must be approved by the Department prior to issuance of a license.

2. New pound net sites must be at least 3,000 feet from a previously located pound net site, when measured parallel to the shoreline, and must be at least 1,000 feet from any navigable channel.

3. Any pound net license holder has priority in retaining a pound net site previously licensed by him or her, provided that he or she has actively and lawfully fished that site during the previous year and has submitted a license application prior to March 1 of the current year. After March 1, any citizen may apply for any available site on a first-come basis.

4. No staked or anchored shad net may be placed within 3,000 feet of an operating pound net. However, shad nets may be set on licensed pound net sites by the license holder or on unoccupied, approved pound net sites, provided the shad nets are set end-to-end with and in line with any existing pound nets.

5. Pound nets must be placed end-to-end so as to form a straight line, perpendicular to the shoreline.

6. The maximum allowable length of a pound net, including leader and hearts, is 750 feet.

7. A minimum distance of 50 feet must be maintained between any two pound nets, shad nets or combination thereof, when measured perpendicular to the shoreline.

9. A flashing, amber light must be displayed between sunset and sunrise on each of the two end poles of a pound net or a continuous row of pound nets. These lights must be placed at least 10 feet above the mean high water level and must be of sufficient brightness to be visible for at least three miles in all directions (360 degrees) at such times and under such weather conditions as would allow visibility of 10 miles.

10. Within 30 days of the termination of fishing activities for that year, all poles and stakes must be removed by the pound net license holder.

11. The pound net license holder will be responsible for the cost of pole and/or stake removal where the Department accepts responsibility for such removal, due to the licensee's failure to comply with 10 above.

(d) Specific requirements for pound net users in the Atlantic Ocean are as follows:

1. When submitting a request for an ocean or submarine pound net license, the applicant must specify the specific proposed site-location for placement of each net. Upon site approval, the Department may issue the license. (Note: Permission for location of ocean pound nets is also required from the United States Army Corps of Engineers.)

3. No row of pound nets may be erected or operated within one and one-half miles of any other row of pound nets, when measured parallel with the coastline.

4. No more than two pound nets may be joined together.

5. A minimum distance of 1,000 feet, when measured perpendicular to the coastline, must be maintained between individual or paired pound nets set in a row.

6. A row of ocean or submarine pound nets must form a straight line with the nets placed end-to-end.

7. The maximum allowable length of an ocean or submarine pound net, including leader and pocket, is 1,100 feet.

8. The minimum mesh size for ocean or submarine pound nets is two inches, stretched.

9. Ocean pound nets shall be maintained in compliance with the following additional requirements:

i. White reflectors must be placed around the top of each pole so as to reflect in all directions;

ii. Flashing amber lights must be displayed on the inshore and offshore poles of nets or rows of nets, between sunset and sunrise; these lights must be placed at least 10 feet above the mean high water level and must be of sufficient brightness to be visible for at least three miles in all directions (360 degrees) at such times and under such weather conditions as would allow visibility of 10 miles.

10. Submarine pound nets shall be maintained in compliance with the following additional requirements:

i. At least eight fluorescent orange floats, at least 12 inches in diameter, shall be maintained along the length of each net, including the inshore and offshore ends.

ii. The pound net license holder shall maintain a nameplate, not less than 12 inches square, on which shall be legibly marked the identification number of the pound, as assigned by the Department.

11. The license holder must completely remove all pound net poles and stakes, within ten months of the termination of fishing activities.

12. The pound net license holder will be responsible for the cost of pole and/or stake removal, where the Department accepts responsibility for such removal, due to the licensee's failure to comply with 11 above.

ii. Ten percent of the New Jersey annual black sea bass quota shall be allocated each year for by-catch landings when any of the seasons for the directed commercial fishery defined in (h)8iii below are closed. The by-catch landings shall be divided between seasons as identified in (h)8iii below at the same percentage apportioned to each season specified at (h)8iii below.

(1) Any by-catch not landed during the season allocated shall be added to the directed fisheries quota of the following season except during the last season.

(2) If any of the by-catch allowance has not been landed by December 1 in any calendar year the remaining amount shall be added to the directed black sea bass fishery quota.

iii. The balance of the New Jersey annual quota for the black sea bass fishery remaining after deducting the by-catch allowance specified in (h)8ii above shall be divided into seasons, percentage of the annual quota apportioned to each season, daily trip limits and number of allowable landing days in each week (Sunday through Saturday) as follows:

(1) January 1 April 15: 38.8 percent, 2,500 pound trip limit.

(2) April 16-June 30: 20.6 percent, 1,500 pound trip limit and a maximum of three days per week that a vessel may land black sea bass;

(3) July 1-September 30: 13.5 percent, 1,000 pound trip limit and a maximum of three days per week that a vessel may land black sea bass;

(4) October 1-December 31: 27.1 percent, 1,500 pound trip limit and a maximum of three days per week that a vessel may land black sea bass.

Public notice shall include letters by first class mail to all New Jersey Black Sea Bass Permit holders.

vi. Once the season has been closed for the directed commercial black sea bass fishery, no vessel or person shall land or sell any black sea bass and no dealer or person shall accept or purchase any black sea bass landed in New Jersey in excess of the by-catch allowances specified in (h)1 and 7 above and provided the amount of black sea bass landed from any vessel shall not exceed 10 percent, by weight of all species landed and sold. If the entire season and/or annual quota including the by-catch allowance has been landed, then no vessel or person shall land or sell any black sea bass and no dealer or person shall accept or buy any black sea bass landed in New Jersey.

vii. If the Commissioner, or his or her designee, closes the season prematurely because of unanticipated events resulting in the quota not being landed by the projected date, then the Commissioner, or his or her designee, may reopen the season for a specified period of time upon two days public notice. Public notice shall be made as specified in (h)7v above.

(1) The Commissioner or his or her designee may set daily trip limits when reopening a prematurely closed season.

viii. If the quota for a particular season is not taken, the balance shall be reallocated for the following season, except that any balance existing as of December 31 of any year shall not be reallocated.

ix. If the quota for any season is exceeded, the amount overharvested shall be deducted from the following season. The amount overharvested shall also be deducted from the following years seasonal quota in pounds and reallocated to the season from which it was deducted the previous year.

x. Any vessel participating in the black sea bass fishery shall notify the Department of the time and place of unloading of the vessel at least two hours in advance of such unloading. Such unloading shall not occur except between the hours of 6:00 A.M. and 6:00 P.M. from November 1 through April 30 and 6:00 A.M. and 8:00 P.M. from May 1 through October 31. For example, "This will be my third landing this week." Notification shall include a phone call to (609) 748-2050 unless changed by notice to permit holders via first class mail.

9. After December 31, 2002, no dealer shall accept or purchase any black sea bass from any vessel or harvester unless such dealer is in possession of a valid New Jersey Black Sea Bass Dealers Permit. A New Jersey Black Sea Bass Dealers Permit may be obtained by completing an application supplied by the Department and submitting it to:

10. After December 31, 2002, no dealer shall accept or purchase from any one vessel more than the amounts of black sea bass specified at (h)1 above unless said vessel is in possession of its valid New Jersey Black Sea Bass Permit.

11. After December 31, 2002, any harvester or vessel landing black sea bass in New Jersey for the purpose of sale shall sell all black sea bass to a permitted New Jersey Black Sea Bass Dealer.

12. All permitted New Jersey Black Sea Bass Dealers shall provide daily reports during the period January 1 through April 15 and weekly reports during the period April 16 through December 31 to the Division listing the amount of black sea bass landed on a daily basis and any other information that may be required by the Commissioner. If no black sea bass were landed, a report to that effect shall be required. Such report shall be faxed to the Division at the number listed on the reporting form no later than 10:00 A.M. on the following day for daily reports and 12:01 P.M. on Monday following the week's end for weekly reports or sent by any other method approved by the Department. i. Failure to submit the required documentation to an application shall result in the denial of the permit.

ii. Falsification or misrepresentation of any information on an application including documentation provided to verify the amount of black sea bass landed as specified in (h)1ii(3) above shall result in the denial or revocation of the permit in addition to any civil or criminal penalties prescribed by law.

iii. Failure to comply with the provisions of (h)6 above, criteria under which a vessel may harvest black sea bass by angling or hook and line, (h)8 above, exceeding daily trip limits and landing black sea bass after the season has been closed, (h)9 above, accepting or purchasing black sea bass without a New Jersey Black Sea Bass Dealers Permit, (h)10 above, accepting or purchasing from any non-permitted vessel more than the amount of black sea bass stipulated pursuant to (h)1 and 7 above, and (h)11 above, selling black sea bass to a non-permitted dealer shall result in the suspension during open season(s) or revocation of the vessel's and/or dealer's Black Sea Bass Permit according to the following schedule:

- (1) First offense: 60 days suspension;
- (2) Second offense: 120 days suspension;
- (3) Third offense: permanent revocation;

iv. Any person who has had his or her New Jersey Black Sea Bass Dealers Permit suspended or revoked shall not land or permit the landing of any black sea bass at his or her facility during the suspension or revocation under the provisions of another permittee's New Jersey Black Sea Bass Dealers Permit.

v. Prior to revocation of the permit, the permittee shall have the opportunity to request a hearing pursuant to the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq. and 52:14F-1 et seq., and the Uniform Administrative Procedure Rules, N.J.A.C. 1:1.

(i) The following provisions are applicable to the commercial harvest of summer flounder:

1. A vessel shall not land more than 100 pounds of summer flounder during the period of May 1 through October 31 or more than 200 pounds of summer flounder during the period of November 1 through April 30 in New Jersey on any one trip unless said vessel is in possession of a valid New Jersey Summer Flounder Permit to participate in the directed fishery for summer flounder. Vessels fishing under the special terms of a quota transfer or combination program as provided in (i)3 below may be exempt from this requirement if such terms specify that a New Jersey Summer Flounder Permit is not necessary to land summer flounder in New Jersey. The permit shall be issued in the name of the vessel and the owner and for the specific gear type(s) used to qualify for the permit.

i. Applicants for a New Jersey Summer Flounder Permit shall complete an application provided by the Department. Applicants applying to use hook and line shall submit their applications no later than May 31, 1994. Applicants applying for a New Jersey Summer Flounder permit for any other gear type shall submit their applications no later than January 1, 2000. Applications for a New Jersey Summer Flounder Permit received after the above dates shall be denied.

ii. To be eligible for a New Jersey Summer Flounder Permit the vessel's owner shall meet the following criteria:

(1) The vessel shall have landed and sold at least 1,000 pounds of summer flounder in New Jersey in each of two years during the period of 1985-1992;

(2) The vessel shall have possessed a valid New Jersey otter trawl, pound net, or gill net license or a valid Federal summer flounder permit during each of the two years it qualified based upon the pounds of summer flounder landed and sold in (i)1ii(1) above. Vessels providing documentation regarding the amount of summer flounder landed for two years between January 1, 1985 to November 2, 1988 or vessels providing documentation of harvest by hook and line are exempt from this requirement; and

(3) Applicants shall provide weigh out slips to document the amount of summer flounder landed and copies of their New Jersey otter trawl, pound net or gill net license or Federal summer flounder permit for the respective years.

iii. The New Jersey Summer Flounder Permit shall be on board the vessel to which it is issued at all times. The permit is valid from the date of issuance and for any subsequent years unless revoked as part of a penalty action. The vessel, when engaged in the directed summer flounder fishery, may only have on board the gear type(s) listed on the New Jersey Summer Flounder Permit.

(1) The owner of a permitted vessel pursuant to this subsection not pending revocation or court action may transfer his or her New Jersey Summer Flounder Permit, upon application to the Department, as follows:

(A) To his or her replacement vessel, provided the replacement vessel is not greater than 10 percent larger in vessel length, gross registered tonnage and net tonnage and not more than 20 percent greater in horsepower than the originally permitted vessel. The vessel being replaced shall no longer be eligible for a New Jersey Summer Flounder Permit; or

Flounder Permit based on the harvesting history of the vessel being sold.

(2) Transfer of a permit to a new vessel shall be limited to the same gear type(s) of the originally permitted vessel.

(3) Applicants for permit transfer shall complete an application provided by the Department, and no permit may be transferred without the prior approval of the Department.

(1) Crew size shall be limited to no more than five persons, including the captain; and

(2) The vessel shall not carry any passengers for hire. When carrying passengers for hire the New Jersey Summer Flounder Permit is not valid and the recreational possession limits and seasonal restrictions as specified in N.J.A.C. 7:25-18.1 apply.

v. A vessel that does not possess a New Jersey Summer Flounder Permit shall be permitted to land not more than 100 pounds of summer flounder during the period of May 1 through October 31, or not more than 200 pounds of summer flounder during the period of November 1 through April 30 on any trip provided the amount of summer flounder landed from any vessel shall not exceed 10 percent, by weight, of the total weight of all species landed and sold, except that vessels taking summer flounder by angling or hook and line shall be subject to the possession limits established in N.J.A.C. 7:25-18.1.

2. The annual summer flounder harvest quota for New Jersey shall be determined by the Mid Atlantic Fishery Management Council as implemented by the National Marine Fisheries Service. All landings of summer flounder in New Jersey shall be applied to the New Jersey annual summer flounder quota unless New Jersey enters into an agreement with another state(s) to transfer or combine summer flounder commercial quotas, as provided for pursuant to (i)3 below and such agreement indicated otherwise.

i. Ten percent, but not more than 200,000 pounds of the New Jersey annual summer flounder quota, shall be allocated each year for by-catch landings when any of the six seasons for the directed commercial fishery are closed. The by-catch landings shall be divided between the six seasons as identified at (i)2ii below at the same percentage as for the directed fishery specified at (i)2ii below or as modified by the Commissioner.

(1) Any by-catch not landed during the season allocated shall be added to the directed fishery of the following season except during the last season.

(2) If any of the by-catch allowance has not been landed by December 1 in any calendar year, the remaining amount shall be added to the directed summer flounder fishery quota.

(3) For the purpose of this section, all directed fishery seasons identified at (i)2ii below shall start on the first Sunday of the applicable month.

ii. The balance of the New Jersey annual quota for the summer flounder fishery remaining after deducting the by-catch allowance specified in (i)2i above shall be divided into seasons, percentage of the annual quota apportioned to each season, daily trip limits and number of allowable landing days in each week (Sunday through Saturday) as follows:

(1) January-February: 28 percent, 7,500 pound trip limit and a maximum of two days a week that a vessel may land summer flounder;

(2) March-April: 11 percent, 1,000 pound trip limit and a maximum of five days per week that a vessel may land summer flounder;

(3) May-June: 10.5 percent, 500 pound trip limit and a maximum of five days per week that a vessel may land summer flounder;

(4) July-August: 10.5 percent, 500 pound trip limit and a maximum of five days per week that a vessel may land summer flounder;

(5) September-October: 29 percent, 1,000 pound trip limit and a maximum of four days that a vessel may land summer flounder, except as follows:

(A) A vessel may elect to land summer flounder only one day per week. If such an election is made, the trip limit shall be 4,000 pounds;

(6) November-December: 11 percent, 1,000 pound trip limit and a maximum of five days per week that a vessel may land summer flounder; and

(7) Any daily landing of summer flounder not exceeding 100 pounds during the period of May 1 through October 31 or 200 pounds during the period November 1 through April 30 shall not be applied to maximum weekly landing days during any season as specified in (i)2ii(1) through (6) above, provided the amount of summer flounder landed from any vessel shall not exceed 10 percent, by weight, of the total weight of all species landed and sold.

iii. No vessel shall have in possession or land and no dealer shall accept from any one vessel more than the daily trip limit of summer flounder in any one calendar day.

iv. Any vessel participating in a directed summer flounder fishery shall notify the Department of the time and place of unloading of the vessel at least two hours in advance of such unloading. Such unloading shall not occur except between the hours of 6:00 A.M. and 6:00 P.M. from November 1 through April 30 and 6:00 A.M. and 8:00 P.M. from May 1 through October 31. The vessel shall also report how many times that week (Sunday through Saturday) the vessel will have landed, including the trip being called in. For example, "This will be my third landing this week." Notification shall include a phone call to (609) 748-2050 unless changed by notice to permit holders via first class mail.

v. If a minimum of 100,000 pounds of the New Jersey summer flounder quota remains unlanded as of December 1 in any calendar year, the Commissioner, or his or her designee, may set a daily trip limit for the remainder of that calendar year or until the quota specified in (i)2 above is landed, whichever occurs first.

vi. The Commissioner, or his or her designee, shall close the season for the directed and/or by-catch commercial summer flounder fishing season upon two days public notice of the projected date the seasonal percentage of the annual quota shall be caught. Public notice shall include letters by first class mail to all permitted New Jersey Summer Flounder Dealers and New Jersey Summer Flounder Permit holders.

vii. Once the season has been closed for the directed commercial summer flounder fishery, no vessel shall land any summer flounder and no dealer shall accept any summer flounder landed in New Jersey in excess of the by-catch allowances specified in (i)1 above and provided the amount of summer flounder landed from any vessel shall not exceed 10 percent by weight of the total weight of all species landed and sold. If the entire season and/or annual quota including the by-catch allowance has been landed, then no vessel or person shall land or sell any summer flounder and no dealer or person shall accept or buy any summer flounder landed in New Jersey.

viii. If the Commissioner, or his or her designee, closes the season prematurely because of unanticipated environmental events resulting in the quota not being landed by the projected date and at least one month remains in the current season, then the Commissioner, or his or her designee, may reopen the season for a specified period of time upon two days public notice. Public notice shall be made as specified in (i)2vi above.

(1) The Commissioner, or his or her designee, may set daily trip limits when reopening a prematurely closed season.

ix. If the quota for a particular season is not taken, the balance shall be reallocated for the following season, except that any balance existing as of December 31 of any year shall not be reallocated.

x. If the quota for any of the first five seasons is exceeded, the amount overharvested shall be deducted from the following season.

xi. If the quota for any year is exceeded, the amount overharvested will be deducted from the following year's annual quota. The remaining annual quota will then be allocated as defined in (i)2i and ii above.

xii. Beginning in 1994, the Department shall notify the holders of New Jersey Summer Flounder Permits of the season allocations no later than January 31 of the year to which the allocation applies. Notification shall be accomplished by first class mail to permit holders.

xiii. All New Jersey Summer Flounder Permit holders shall be required to complete monthly reports supplied by the Department. The monthly report shall be signed by the permittee attesting to the validity of the information and be submitted so it is received by the Department no later than 15 working days following the end of the reported month at the following address:

New Jersey Summer Flounder Program

PO Box 418
Port Republic, NJ 08241-0418

(1) The monthly report shall include, but not be limited to, the following information: name, New Jersey Summer Flounder Permit number of the vessel, total amount (in pounds) of each species taken, dates caught, time at sea, duration of fishing time, gear type used to harvest, number of tows, area fished, crew size, landing port, date sold and buyer. This information shall be provided for any trip in which summer flounder are landed. New Jersey Summer Flounder Permit holders who also possess a Federal summer flounder permit and are required to report monthly to the Federal government may submit the "STATE" copy of their Federal log book in satisfaction of the New Jersey reporting requirements.

(2) If no trips for summer flounder were taken and no summer flounder were landed during the month, a report to that effect shall be required.

3. Pursuant to Amendment 5 of the Mid-Atlantic Fishery Management Council's Summer Flounder Management Plan, the Commissioner may enter into agreements with other states to transfer or combine summer flounder commercial quotas. Such agreements shall specify the terms and conditions under which vessels not in possession of a New Jersey Summer Flounder Permit may land summer flounder in New Jersey, as well as how the landings will be applied to the quota. Any agreement developed by the Commissioner and any other state is not valid until such time as it has been reviewed and approved by the Northeast Regional Director of the National Marine Fisheries Service.

4. No fish dealer shall accept any summer flounder from any vessel or harvester unless such dealer is in possession of a valid New Jersey Summer Flounder Dealers Permit. A New Jersey Summer Flounder Dealers Permit may be obtained by completing an application supplied by the Department and submitting it to:

Nacote Creek Research Station
PO Box 418
Port Republic, NJ 08241-0418

5. No dealer shall accept from any vessel more than the amounts of summer flounder specified at (i)1 above unless said vessel is in possession of its valid New Jersey Summer Flounder Permit.

6. No vessel shall land and no dealer shall accept any summer flounder which have been frozen, filleted or processed in any way. Only whole, fresh summer flounder may be landed, except that by-catch amounts of summer flounder as specified in (i)1 above may be landed frozen provided that each fish is individually frozen whole and can be individually weighed and measured without thawing.
