The **2016-17 School Performance Reports** are designed to share school and district information collected by the New Jersey Department of Education directly with parents, educators, and communities. The Department believes that the greatest potential to improve school performance and student outcomes is through parents, educators, and community members working together. These reports seek to make that process easier by providing information that can help people to:

- **Learn more:** The School Performance Reports contain a wealth of data, going far beyond a school's test scores to include information about the staff working in a school, student discipline rates, and the sports and clubs offered.
- **Ask questions:** These reports can help start a conversation, but they cannot answer all the questions you might have about schools in your community. Use the contact information provided to engage with faculty and administrators at your schools to ask about the data you see in these reports.
- **Get involved:** Schools need help from parents and communities to help students succeed. Contact your school to find out about school board meetings or parent and community groups.

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act (ESSA)* accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

This section of the performance report shows information on student growth which measures how much students are learning each year. Each student receives a **Student Growth Percentile (SGP)** for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in the prior year.

A student's **SGP** falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the **median student growth percentile (mSGP)** is the percentile in the middle of that list. Watch a short video that explains how **median Student Growth Percentile (mSGP)** is calculated here:

Student Growth

This table shows the **median Student Growth Percentile (mSGP)** for both English Language Arts/Literacy (ELA) and Mathematics for the school and each student group with comparisons to the district and the state. This section shows information about student absences which provides important information about a school's culture and climate. In addition, research shows that student absences impact a child's ability to succeed in school. The New Jersey Department of Education selected chronic absenteeism as its measure of school quality and student success for the *ESSA* accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, excused, unexcused or for disciplinary action, is considered absent unless permitted by statute or regulation.

### Chronic Absenteeism

This table shows the percentage of students in grades K-12 in the school and each student group who were chronically absent. This table also shows whether the school and each student group met the *ESSA* accountability targets for 2016-17.

Technology Readiness

This table shows information that was collected through the optional NJTRAx survey to determine a school’s technology readiness. The student to device ratio shows the number of students for every computer or tablet in the school. The internet speed is the internet bandwidth per 1000 students enrolled in the district measured in megabits per second. The connectivity between schools is a school’s LAN network architecture. The NJTRAx survey is optional for schools, so data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device (BYOD) policy may have appear to have a very low Student to Device ratio due to this policy decision.

This section contains information about staff that are assigned to the school and district. Here is an explanation of some of the **key terms used in the staff section**:

**Faculty:** All classroom teachers and educational support services personnel (such as Librarians, Nurses, Counselors, and Child Study Team members)

**Teachers:** All classroom teachers

**Administrators:** Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

**Full-Time Equivalent:** In calculations, staff members are weighted based on the percentage of their time that they are assigned to a school or district. For example – a teacher assigned to a school half time would be weighted 50% in calculations, but a teacher assigned to a school full time would be weighted 100% in calculations.

Accountability Indicator Scores and Summative Rating

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of comprehensive support. This table shows the indicator scores for each indicator included in the accountability system and the weights that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative rating below the 5th percentile or high schools with a 4-year graduation rate that is less than or equal to 67% are identified for Comprehensive Support. For more information about New Jersey’s accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Indicator	Indicator Score	Indicator Weight
English Language Arts Proficiency	67.5	17.5%
Mathematics Proficiency	50.8	17.5%
English Language Arts Growth	53.9	25.0%
Mathematics Growth	73.9	25.0%

Accountability Summary by Student Group

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of Targeted Support. Any student group where the summative score would be in the bottom 5% of schools (see previous page) is identified for Targeted Support for a Low-Performing Student Group. If any student group is identified for Targeted Support, this will be noted in the Schoolwide row in the table. Schools in which one or more student groups miss annual targets for all indicators two years in a row are identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups miss annual targets for all indicators are noted to be At Risk for being identified for Targeted Support for the 2017-18 school year. Annual targets for proficiency and graduation rate are set based on a school or student group’s performance in 2015-16. The target for chronic absenteeism is the statewide average for all students. For more details on accountability targets, see these [accountability resources](#).

 <b>Courses, Curriculum, Instruction:</b>	<p>Eisenhower's staff is committed to educating the whole child. Our core academic classes are driven by state standards, emphasize 21st century skills, and are interrelated in a collaborative effort amongst the faculty. Cycle and Elective classes support core subjects and encompass the visual/performing arts, technology, and health. Throughout all of their coursework, students are encouraged to be independent thinkers, self-advocates, members of a team, and responsible, civic-minded citizens.</p>
 <b>Sports and Athletics:</b>	<p>Sports Offered: Basketball (Boys &amp; Girls), Cross-Country (Boys &amp; Girls), Field Hockey (Girls), Track and Field - Spring (Boys &amp; Girls), Wrestling (Boys)</p> <p>A key aspect of educating the whole child is in the ability to provide students with a variety of opportunities outside of the classroom. In addition to interscholastic sports Eisenhower offers, intramural sports are also an option. Intramural Sports is available for students who wish to play team sports but not at the competitive level.</p>
 <b>Clubs and Activities:</b>	<p>Our school offers over 20 different clubs for students to participate; Student Council, Academic Bowl, Yearbook and Strategic Gaming to name a few. Eisenhower also offers two extra-curricular vocal music choirs and two extra-curricular instrumental music bands. A grassroots STEAM initiative in the classroom further supports our Robotics and Technology teams. Students also take an active role in our School Safety and Character Ed. committees.</p>
 <b>Before and After School Programs:</b>	<p>In an effort to support being a school of choice for Visual and Performing Arts, EMS implemented an Art Enrichment class that allows 8th grade students to satisfy a Visual Arts requirement at Roxbury High School. This allows students to experience Visual Art electives as 9th graders, providing students with greater opportunities as they matriculate at Roxbury High School.</p>

 <b>Staff and Professional Learning:</b>	<p>The process for reviewing our curriculum and for developing new programs is attentive to the New Jersey Student Learning Standards and to the needs of the school and community. Supervisors dedicated to subjects specific to Grades 6 through 12 engage in a variety of tasks that help to guide the direction of our curricular programs. Our block scheduling also provides time for Professional Learning Communities among staff.</p>
 <b>Student Supports and Services:</b>	<p>The Special Education Department provides an excellent program for students in the least restrictive environment. In addition to resource and supplemental programs to meet the individual needs of our students who are classified, a class for students with autism Grades 6-8 is offered and supports exist for English as a Second Language learners at Eisenhower. A comprehensive I&amp;RS committee provides support to struggling learners.</p>
 <b>Student Health and Wellness:</b>	<p>Eisenhower's health and physical education curriculum imparts students with the skills necessary to develop a lifestyle that fosters their well-being. A full functioning fitness/wellness center exists too for students as well as staff in order to promote healthy living and offer programs for all fitness/interest abilities.</p>
 <b>Parent and Community Involvement:</b>	<p>Eisenhower Middle School's PTO is hands-on and supportive of new initiatives and ideas. The group promotes school climate by sponsoring school murals. They also host a variety of fun nights designed to encourage student-student relationships. The PTO also supports all programs and curricular activities.</p>

Climate Surveys:

Is a Climate Survey Used: Yes; Who is surveyed: Administrators, Teachers

At the end of the school year, the faculty and staff at EMS complete a survey on the academics, programs, and climate at EMS. Overall, the climate is very positive at EMS. The teachers feel vested in the decision making process, supported in initiatives, and encouraged personally and professionally.

Facilities:

Eisenhower is a place where all individuals take a proactive role in the learning environment. During the summer of 2017, the school competed a renovation of three science labs in grade 7 to meet 21st century standards, a new gymnasium floor for athletic and PR use and as part of a district initiative, a revamped main office with a soon to be completed security vestibule.

The **2016-17 School Performance Reports** are designed to share school and district information collected by the New Jersey Department of Education directly with parents, educators, and communities. The Department believes that the greatest potential to improve school performance and student outcomes is through parents, educators, and community members working together. These reports seek to make that process easier by providing information that can help people to:

- **Learn more:** The School Performance Reports contain a wealth of data, going far beyond a school’s test scores to include information about the staff working in a school, student discipline rates, and the sports and clubs offered.
- **Ask questions:** These reports can help start a conversation, but they cannot answer all the questions you might have about schools in your community. Use the contact information provided to engage with faculty and administrators at your schools to ask about the data you see in these reports.
- **Get involved:** Schools need help from parents and communities to help students succeed. Contact your school to find out about school board meetings or parent and community groups.

Navigating through the reports:

- Download this report to a PDF by clicking the  icon at the top of the page.
- Search for specific text or words in these reports by using the search box at the top of the page.
- The menu bar at the top of the page or the table of contents at the left of the screen can be used to move between sections of the report.
- The arrow buttons at the top left of the screen can be used to move between pages of the report.

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act* (ESSA) accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

This section of the performance report shows information on student growth which measures how much students are learning each year. Each student receives a **Student Growth Percentile (SGP)** for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in the prior year.

A student's **SGP** falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the **median student growth percentile (mSGP)** is the percentile in the middle of that list. Watch a short video that explains how **median Student Growth Percentile (mSGP)** is calculated here:

### Student Growth

This table shows the **median Student Growth Percentile (mSGP)** for both English Language Arts/Literacy (ELA) and Mathematics for the school and each student group with comparisons to the district and the state. This section shows information about student absences which provides important information about a school's culture and climate. In addition, research shows that student absences impact a child's ability to succeed in school. The New Jersey Department of Education selected chronic absenteeism as its measure of school quality and student success for the *ESSA* accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, excused, unexcused or for disciplinary action, is considered absent unless permitted by statute or regulation.

### Chronic Absenteeism

This table shows the percentage of students in grades K-12 in the school and each student group who were chronically absent. This table also shows whether the school and each student group met the *ESSA* accountability targets for 2016-17.

Student Group	% Chronically Absent	2016-17 Target	Met 2016-17 Target

### Technology Readiness

This table shows information that was collected through the optional NJTRAx survey to determine a school's technology readiness. The student to device ratio shows the number of students for every computer or tablet in the school. The internet speed is the internet bandwidth per 1000 students enrolled in the district measured in megabits per second. The connectivity between schools is a school's LAN network architecture. The NJTRAx survey is optional for schools, so data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device (BYOD) policy may have appear to have a very low Student to Device ratio due to this policy decision.

School Year	Student to Device Ratio	Internet Speed	Recommended Internet Speed	Met Recommended Speed?	Connectivity between Schools	Recommended Connectivity	Met Recommended Connectivity?

### Per-Pupil Expenditures (District Level)

This section contains information about staff that are assigned to the school and district. Here is an explanation of some of the **key terms used in the staff section**:

**Faculty:** All classroom teachers and educational support services personnel (such as Librarians, Nurses, Counselors, and Child Study Team members)

**Teachers:** All classroom teachers

**Administrators:** Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

**Full-Time Equivalent:** In calculations, staff members are weighted based on the percentage of their time that they are assigned to a school or district. For example – a teacher assigned to a school half time would be weighted 50% in calculations, but a teacher assigned to a school full time would be weighted 100% in calculations.

Teachers – Experience

Accountability Indicator Scores and Summative Rating

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of comprehensive support. This table shows the indicator scores for each indicator included in the accountability system and the weights that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative rating below the 5th percentile or high schools with a 4-year graduation rate that is less than or equal to 67% are identified for Comprehensive Support. For more information about New Jersey’s accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Indicator	Indicator Score	Indicator Weight
English Language Arts Proficiency	23.3	17.5%
Mathematics Proficiency	27.8	17.5%
English Language Arts Growth	5.7	25.0%
Mathematics Growth	37.5	25.0%
Chronic Absenteeism	84.3	15.0%
Progress Towards English Language Proficiency (coming 2018)	N/A	N/A
Summative Score: Sum of all indicator scores multiplied by indicator weights		32.3
Summative Rating: Percentile rank of Summative Score		22.3

### Accountability Summary by Student Group

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of Targeted Support. Any student group where the summative score would be in the bottom 5% of schools (see previous page) is identified for Targeted Support for a Low-Performing Student Group. If any student group is identified for Targeted Support, this will be noted in the Schoolwide row in the table. Schools in which one or more student groups miss annual targets for all indicators two years in a row are identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups miss annual targets for all indicators are noted to be At Risk for being identified for Targeted Support for the 2017-18 school year. Annual targets for proficiency and graduation rate are set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the statewide average for all students. For more details on accountability targets, see these [accountability resources](#).

 <b>Mission, Vision, Theme:</b>	<p>Franklin School has a student population of about 320 students in grades kindergarten through four. The students, staff and parents work together as a school community to enable each child to reach his or her full potential. The goal is to create a warm, safe environment that fosters the development of the whole child, socially, emotionally, and cognitively. The staff of dedicated teachers utilize best practices to differentiate instruction for students.</p>
 <b>Awards, Recognition, Accomplishments:</b>	<p>For the second year in a row, The Arc of New Jersey awarded Franklin School first place in the "Developmental Disabilities Awareness" contest for March. The theme this year was, "It Matters To Me." We are very proud of the third and fourth grade students who continue to recognize student differences and practice inclusive behaviors with all students.</p>

Additionally, the school staff includes specialists in Speech &amp; Language, English as a Second Language, Hearing Impairment, Guidance, Occupational Therapy, and Physical Therapy.</p>
 <b>Student Health and Wellness:</b>	<p>Students receive direct instruction in physical education 3 times each week which is designed to foster a lifelong healthy life style. This is supplemented with a daily recess period. Additionally, Franklin students are encouraged to advocate for themselves and others and taught to develop strategies to solve problems. The guidance counselor conducts regular classroom lessons to this end.</p>
 <b>Parent and Community Involvement:</b>	<p>Parents &amp; guardians at Franklin School are supportive and involved in the education of their children. The Parent Teacher Association keeps parents informed &amp; provides a number of enriching activities for students. The Cultural Arts Committee brings exciting assemblies to students throughout the school year, &amp; parent volunteers help students learn the game of chess during their lunch periods. The PTA also sponsors family activity nights, assists with Field Day, &amp; runs the Wee Deliver Program.</p>

<div>Other Information:</div>	<p>Franklin School was first identified as a Title 1 school during the 2016-2017 school year. The Title 1 funds we receive allow us to run various programs to provide assistance for students who are struggling academically. The S.A.I.L. Summer Program operates during the month of July and serves students in grades K-4 who are in need of extra academic support. Additionally, Title 1 funds were used to develop and implement an early intervention program for kindergarten students called Kinder S.T.A.R.S. which targets kindergarten students who are in need of additional support. The Title 1 funds are also used to support a Parent Academy that operates four times a year and offers parents various opportunities to receive guidance in assisting their children as they develop at home. In order to meet the needs of all levels of learners, all students in kindergarten through fourth grade are provided with enrichment experiences that incorporate a STEAM component each week. In addition, select students in grades three and four are offered supplemental Gifted and Talented instruction throughout the year as part of the district wide P.E.A.K. Program.</p>

The **2016-17 School Performance Reports** are designed to share school and district information collected by the New Jersey Department of Education directly with parents, educators, and communities. The Department believes that the greatest potential to improve school performance and student outcomes is through parents, educators, and community members working together. These reports seek to make that process easier by providing information that can help people to:

- **Learn more:** The School Performance Reports contain a wealth of data, going far beyond a school’s test scores to include information about the staff working in a school, student discipline rates, and the sports and clubs offered.
- **Ask questions:** These reports can help start a conversation, but they cannot answer all the questions you might have about schools in your community. Use the contact information provided to engage with faculty and administrators at your schools to ask about the data you see in these reports.
- **Get involved:** Schools need help from parents and communities to help students succeed. Contact your school to find out about school board meetings or parent and community groups.

Navigating through the reports:

- Download this report to a PDF by clicking the  icon at the top of the page.
- Search for specific text or words in these reports by using the search box at the top of the page.
- The menu bar at the top of the page or the table of contents at the left of the screen can be used to move between sections of the report.
- The arrow buttons at the top left of the screen can be used to move between pages of the report.

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act* (ESSA) accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

This section of the performance report shows information on student growth which measures how much students are learning each year. Each student receives a **Student Growth Percentile (SGP)** for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in the prior year.

A student's **SGP** falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the **median student growth percentile (mSGP)** is the percentile in the middle of that list. Watch a short video that explains how **median Student Growth Percentile (mSGP)** is calculated here:

### Student Growth

This table shows the **median Student Growth Percentile (mSGP)** for both English Language Arts/Literacy (ELA) and Mathematics for the school and each student group with comparisons to the district and the state. This table also shows whether the school and each student group met the *ESSA* accountability target of 40 for the 2016-17 school year.

This section shows information about student absences which provides important information about a school's culture and climate. In addition, research shows that student absences impact a child's ability to succeed in school. The New Jersey Department of Education selected chronic absenteeism as its measure of school quality and student success for the *ESSA* accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, excused, unexcused or for disciplinary action, is considered absent unless permitted by statute or regulation.

### Chronic Absenteeism

This table shows the percentage of students in grades K-12 in the school and each student group who were chronically absent. This table also shows whether the school and each student group met the *ESSA* accountability targets for 2016-17.

Student Group	% Chronically Absent	2016-17 Target	Met 2016-17 Target

Students receiving both in-school and out-of-school suspensions will be counted in all rows of the table. Students who received more than one suspension are counted only one time in each category below.

Suspension Types	% of Students
In-School Suspensions	0.3%
Out-of-School Suspensions	0.0%
Any Suspension	0.3%

### Student Expulsions

### Technology Readiness

This table shows information that was collected through the optional NJTRAx survey to determine a school's technology readiness. The student to device ratio shows the number of students for every computer or tablet in the school. The internet speed is the internet bandwidth per 1000 students enrolled in the district measured in megabits per second. The connectivity between schools is a school's LAN network architecture. The NJTRAx survey is optional for schools, so data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device (BYOD) policy may have appear to have a very low Student to Device ratio due to this policy decision.

School Year	Student to Device Ratio	Internet Speed	Recommended Internet Speed	Met Recommended Speed?	Connectivity between Schools	Recommended Connectivity	Met Recommended Connectivity?

This section contains information about staff that are assigned to the school and district. Here is an explanation of some of the **key terms used in the staff section**:

**Faculty:** All classroom teachers and educational support services personnel (such as Librarians, Nurses, Counselors, and Child Study Team members)

**Teachers:** All classroom teachers

**Administrators:** Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

**Full-Time Equivalent:** In calculations, staff members are weighted based on the percentage of their time that they are assigned to a school or district. For example – a teacher assigned to a school half time would be weighted 50% in calculations, but a teacher assigned to a school full time would be weighted 100% in calculations.

### Teachers – Experience

## Accountability Indicator Scores and Summative Rating

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of comprehensive support. This table shows the indicator scores for each indicator included in the accountability system and the weights that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative rating below the 5th percentile or high schools with a 4-year graduation rate that is less than or equal to 67% are identified for Comprehensive Support. For more information about New Jersey’s accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Indicator	Indicator Score	Indicator Weight
English Language Arts Proficiency	71.6	17.5%
Mathematics Proficiency	90.7	17.5%
English Language Arts Growth	98.9	25.0%
Mathematics Growth	99.9	25.0%
Chronic Absenteeism	72.8	15.0%
Progress Towards English Language Proficiency (coming 2018)	N/A	N/A
<b>Summative Score:</b> Sum of all indicator scores multiplied by indicator weights		89.0
<b>Summative Rating:</b> Percentile rank of Summative Score		98.3
<b>Requires Comprehensive Support:</b> Summative Rating is less than or equal to 5th percentile		No

### Accountability Summary by Student Group

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of Targeted Support. Any student group where the summative score would be in the bottom 5% of schools (see previous page) is identified for Targeted Support for a Low-Performing Student Group. If any student group is identified for Targeted Support, this will be noted in the Schoolwide row in the table. Schools in which one or more student groups miss annual targets for all indicators two years in a row are identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups miss annual targets for all indicators are noted to be At Risk for being identified for Targeted Support for the 2017-18 school year. Annual targets for proficiency and graduation rate are set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the statewide average for all students. For more details on accountability targets, see these [accountability resources](#).

 <div> Courses, Curriculum,  Instruction: </div>	<p>At Jefferson, we strive to challenge students at their optimal learning level, through differentiated instruction. Students engage in small group learning and individualized instruction a majority of the day in ELA and Mathematics. We also have a full "In Support of Learning" program for students below benchmark progress and a selective Gifted and Talented program, entitles PEAK, focused on STEAM, in Gr. 3 &amp; 4, for those that excel academically.</p>
 <div> Clubs and Activities: </div>	<p>Early Act is a school-wide service club for students in grades 3 and 4. It is offered at our school and is sponsored by the local Roxbury Rotary Club. Early Act provides young students the opportunity for gaining an increased awareness and knowledge of their community and the world. The club engages students in character-building activities and prepares them for leadership roles to identify and carry out projects which benefit their school, local and global communities.</p>
 <div> Before and After  School Programs: </div>	<p>Our school welcomes scouting, art &amp; dance classes, STEAM classes, coding and many other community programs for after school enrichment through the Roxbury Community School portal.  <p><b>Staff and Professional Learning:</b></p>	<p>Each faculty member is committed to effectively implementing the district curriculum by ensuring their own deep understanding of the pedagogy that supports it. This is evident by the professional learning communities that all instructional and support staff take part in to enhance instruction in a collaborative manner. Our teachers also regularly participate in professional development to continue learning about Google Classroom and other formats to embed technology into instruction.</p>
 <p><b>Student Supports and Services:</b></p>	<p>Jefferson School embraces utilizing the least restrictive environment to educate all students. We are proud to offer an inclusive classroom at each grade level, where co-teaching occurs. We also house the district's preschool disabled program. We have approximately 350 students and 55 faculty members working together towards student achievement. We also facilitate opportunities for student teachers and interns to gain experience. Jefferson supports life-long learning for all.</p>
 <p><b>Student Health and Wellness:</b></p>	<p>Jefferson School's Health and Wellness program offer physical education three days a week and certified recess five days a week. Jefferson also invites in nutritionists, dental specialists and provides embedded social-emotional learning. The common understanding that emotions and learning are inseparable, and that each child must feel safe, valued, and cared for before he or she is receptive to challenges of a rigorous curriculum.</p>
 <p><b>Parent and Community Involvement:</b></p>	<p>The PTA is incredibly active at Jefferson School. The PTA volunteers enhance the elementary school experience by providing Cultural Arts programming, Family Fun Nights, sponsorship of Field Trips and many other opportunities for families to come together and celebrate the community. Jefferson has an updated calendar on the website that ties all school, PTA, and community events together. These programs, events, and activities are advertised weekly in our "Week at a Glance."</p>

### Climate Surveys:

Is a Climate Survey Used: Yes; Who is surveyed: Parents, Administrators, Teachers

Every year we survey the school staff and the parents/guardians using the school climate survey. This survey has been made into a Google form to easily access the information from the various stakeholders. Students are surveyed every three years. The data is shared at the School Safety and Climate Team meetings, Staff Meetings, and Back to School Nights. Last year's data led to the development of our school theme, "Jefferson School ROCKS!"

### Facilities:

Jefferson has not had any major building upgrades lately. However, we have made some technology upgrades. We have a full technology laboratory that is utilized throughout the day. We have two full Chromebook carts and an iPad cart that is housed in our "Learning Lounge." All first and second grade rooms have iPad docking stations with seven iPads. Our media center is currently building up materials to become a makerspace for students.

### Other Information:

Jefferson School has made progressive strides in instruction over the past three years. English Language Arts is taught through balanced literacy. Teachers utilize the model of Reading and Writing workshop and creatively integrate authentic learning experiences for children. At the lower levels (PK-2), the program of Foundations is utilized to assure strong foundational reading skills are mastered. Mathematics instruction includes real-world problem solving and rigorous math practices embedded throughout the curriculum. Jefferson School uses Math in Focus as our primary resource in this area. Students also participate in Science and Social Studies, where our school strives to focus on inquiry based learning, including projects and problems. Curriculum in Science was rewritten recently to align to the Next Generation Science Standards. Jefferson utilizes FOSS kits in Science to promote investigations at all levels. Students participate in Art, Music, Physical Education, Media Center, Technology, Enrichment, Guidance and Spanish throughout their educational program. All programs are fully supported through professional development, coaching through supervisors and consultants, and full administrative support. Due to Jefferson's dedicated teaching staff, support team, parent involvement and student engagement, the children have made significant growth in all academic areas. Students achieved academic success while continuing to facilitate community caring projects and innovative practices. Jefferson School displays Koala Pride in all aspects of education!

The **2016-17 School Performance Reports** are designed to share school and district information collected by the New Jersey Department of Education directly with parents, educators, and communities. The Department believes that the greatest potential to improve school performance and student outcomes is through parents, educators, and community members working together. These reports seek to make that process easier by providing information that can help people to:

- **Learn more:** The School Performance Reports contain a wealth of data, going far beyond a school’s test scores to include information about the staff working in a school, student discipline rates, and the sports and clubs offered.
- **Ask questions:** These reports can help start a conversation, but they cannot answer all the questions you might have about schools in your community. Use the contact information provided to engage with faculty and administrators at your schools to ask about the data you see in these reports.
- **Get involved:** Schools need help from parents and communities to help students succeed. Contact your school to find out about school board meetings or parent and community groups.

Navigating through the reports:

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act* (ESSA) accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

This section shows performance on the NJASK science test which measures students' ability to recall information and to solve problems by applying science concepts. The assessment is given to students in grades 4 and 8 and has three proficiency categories. Students performing at "Proficient" and "Advanced Proficient" have demonstrated readiness for the next grade-level/course.

This section of the performance report shows information on student growth which measures how much students are learning each year. Each student receives a **Student Growth Percentile (SGP)** for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in the prior year.

A student's **SGP** falls between 1 and 99 and can be grouped into three levels:

**Low Growth: Less than 35**

**Typical Growth: Between 35 and 65**

**High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the **median student growth percentile (mSGP)** is the percentile in the middle of that list. Watch a short video that explains how **median Student Growth Percentile (mSGP)** is calculated here:

## Student Growth

This table shows the **median Student Growth Percentile (mSGP)** for both English Language Arts/Literacy (ELA) and Mathematics for the school and each student group with comparisons to the district and the state. This table also shows whether the school and each student group met the *ESSA* accountability target of 40 for the 2016-17 school year.

Each student receives a **Student Growth Percentile (SGP)** for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in the prior year.

A student's **SGP** falls between 1 and 99 and can be grouped into three levels:

- Low Growth: Less than 35
- Typical Growth: Between 35 and 65
- High Growth: Greater than 65

This section shows information about student absences which provides important information about a school's culture and climate. In addition, research shows that student absences impact a child's ability to succeed in school. The New Jersey Department of Education selected chronic absenteeism as its measure of school quality and student success for the *ESSA* accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, excused, unexcused or for disciplinary action, is considered absent unless permitted by statute or regulation.

### Chronic Absenteeism

This table shows the percentage of students in grades K-12 in the school and each student group who were chronically absent. This table also shows whether the school and each student group met the *ESSA* accountability targets for 2016-17.

Student Group	% Chronically Absent	2016-17 Target	Met 2016-17 Target
Schoolwide	3.10	8.70	Met Target
White	3.10	8.70	Met Target
Hispanic	N	**	**
Black or African American	N	**	**
Asian, Native Hawaiian, or Pacific Islander	N	**	**
American Indian or Alaska Native	N	**	**
Two or More Races	N	**	**
Economically Disadvantaged Students	N	**	**
Students with Disabilities	13.30	8.70	Not Met
English Learners	N	**	**

\*\* ESSA accountability targets are only included if data is available for at least 20 students.

### Days Absent

The graph displays the percentage of K-12 students schoolwide by the number of days they were absent during the school year. An absence is defined as being 'not present' and includes both excused and unexcused absences.

### Chronic Absenteeism by Grade

This graph shows the percentage of students in the school and across the state who were chronically absent for each grade level. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, excused, unexcused or for disciplinary action, is considered absent unless permitted by statute or regulation.

Typical End Time	3:20PM
Length of School Day	6 Hrs 30 Mins
Full Time - Instructional Time	5 Hrs. 40 Mins.
Shared Time - Instructional Time	*

### Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents provides a non-duplicated count of incidents. The final row shows a rate of incidents for every 100 students enrolled in the school.

Incident Type	Number of Incidents
Violence	1
Vandalism	0
Weapons	1
Substances	0
Harassment, Intimidation, Bullying (HIB)	0
Total Unique Incidents	1
Incidents Per 100 Students Enrolled	0.44

### Student Suspension Rate

This table shows the percentage of students who received one or more in-school suspensions, one or more out-of-school suspensions, and one or more suspensions of any type during the school year. Students receiving both in-school and out-of-school suspensions will be counted in all rows of the table. Students who received more than one suspension are counted only one time in each category below.

Suspension Types	% of Students
In-School Suspensions	0.0%
Out-of-School Suspensions	0.0%
Any Suspension	0.0%

### Student Expulsions

This table shows the number of students who were expelled from the school during the school year. An expulsion is when a student is removed from a school and does not receive any further educational services during the school year.

Technology Readiness

This table shows information that was collected through the optional NJTRAx survey to determine a school's technology readiness. The student to device ratio shows the number of students for every computer or tablet in the school. The internet speed is the internet bandwidth per 1000 students enrolled in the district measured in megabits per second. The connectivity between schools is a school's LAN network architecture. The NJTRAx survey is optional for schools, so data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device (BYOD) policy may have appear to have a very low Student to Device ratio due to this policy decision.

School Year	Student to Device Ratio	Internet Speed	Recommended Internet Speed	Met Recommended Speed?	Connectivity between Schools	Recommended Connectivity	Met Recommended Connectivity?

Per-Pupil Expenditures (District Level)

This table shows the total current expenses for regular and special education students taught within the district's schools. It includes expenditures for instruction, support services, administration, operations and maintenance, extra-curricular activities, and community service. More information about district and charter school spending can be found using districts' [User Friendly Budgets](#), or the NJDOE Finance [District Report Search](#) of the Comprehensive Annual Financial Reports (CAFRs) and Auditor's Management Reports (AMRs).

This section contains information about staff that are assigned to the school and district. Here is an explanation of some of the **key terms used in the staff section**:

**Faculty:** All classroom teachers and educational support services personnel (such as Librarians, Nurses, Counselors, and Child Study Team members)

**Teachers:** All classroom teachers

**Administrators:** Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

**Full-Time Equivalent:** In calculations, staff members are weighted based on the percentage of their time that they are assigned to a school or district. For example – a teacher assigned to a school half time would be weighted 50% in calculations, but a teacher assigned to a school full time would be weighted 100% in calculations.

Teachers – Experience

This table shows information about experience for teachers assigned to this school and across the state.

Category	Teachers in School	Teachers in State
Total Number of teachers	17	120,724
Average years experience in public schools	13.5	11.8
Average years experience in district	12.2	10.5
Teachers in district for 4 or more years	88%	74%

Administrators – Experience (District Level)

This table shows information about experience for administrators assigned to this district and across the state.

Category	Admin. in District	Admin. in State
Total Number of administrators	29	9,506
Average years experience in public schools	18.8	15.9
Average years experience in district	8.5	11.6
Administrators in district for 4 or more years	62%	74%

Student to Staff Ratios

This table shows the number of students per staff member in the school and district. Ratios for librarians, nurses, counselors, and child study team members are only reported at the district level because many staff in these jobs are assigned only to the district and not to individual schools.

Accountability Indicator Scores and Summative Rating

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of comprehensive support. This table shows the indicator scores for each indicator included in the accountability system and the weights that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative rating below the 5th percentile or high schools with a 4-year graduation rate that is less than or equal to 67% are identified for Comprehensive Support. For more information about New Jersey’s accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Indicator	Indicator Score	Indicator Weight
English Language Arts Proficiency	43.5	17.5%
Mathematics Proficiency	60.2	17.5%
English Language Arts Growth	31.2	25.0%
Mathematics Growth	78.8	25.0%
Chronic Absenteeism	75.8	15.0%
Progress Towards English Language Proficiency (coming 2018)	N/A	N/A
Summative Score: Sum of all indicator scores multiplied by indicator weights		57.0
Summative Rating: Percentile rank of Summative Score		60.9
Requires Comprehensive Support: Summative Rating is less than or equal to 5th percentile		No

\*\* Indicator scores are only calculated for inclusion in ESSA accountability if data is available for at least 20 students.

### Accountability Summary by Student Group

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of Targeted Support. Any student group where the summative score would be in the bottom 5% of schools (see previous page) is identified for Targeted Support for a Low-Performing Student Group. If any student group is identified for Targeted Support, this will be noted in the Schoolwide row in the table. Schools in which one or more student groups miss annual targets for all indicators two years in a row are identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups miss annual targets for all indicators are noted to be At Risk for being identified for Targeted Support for the 2017-18 school year. Annual targets for proficiency and graduation rate are set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the statewide average for all students. For more details on accountability targets, see these [accountability resources](#).

Student Group	Summative Score	Cut-off Score for Targeted Support and Improvement	Requires Targeted Support and Improvement for 2016-17	English Language Arts Proficiency	Mathematics Proficiency	Chronic Absenteeism	English Language Arts Student Growth	Mathematics Student Growth	At Risk for Consistently Underperforming Student Group

 <b>Highlights:</b>	<ul style="list-style-type: none"> <li>• Kennedy School staff makes extensive use of technology.</li> <li>• Curriculum includes Balanced Literacy, Next Gen Science and Singapore based math instruction.</li> <li>• Through St. Baldrick's, Kennedy School has raised nearly \$50,000 in the past three years for pediatric cancer research.</li> </ul>
 <b>Mission, Vision, Theme:</b>	<p>Kennedy Elementary School strives to provide students with a challenging and rigorous academic program that prepares them to reach their full potential. We support our district's vision of "Preparing the children of today for tomorrow" by teaching our young people to be lifelong learners with skills to think creatively and work as part of a team toward a greater good.</p>
 <b>Awards, Recognition, Accomplishments:</b>	<p>Over the last several years, Kennedy School students have a high rate of participation in the PTA reflections program. Our students consistently have one of the highest participation rates in the county and have earned numerous county and state awards, as well as a national award.</p>

 <div> <div>Courses, Curriculum, Instruction:</div> </div>	<p>Our faculty is committed to motivating students to think creatively, solve problems, and encourage curiosity for independent learning. The delivery of curriculum is differentiated to meet the needs of varied learners. We emphasize a thematic and integrated approach within our classrooms. Art, music, physical education, media instruction, technology, enrichment activities, and guidance services are provided. Additional details are provided below.</p>
 <div> <div>Clubs and Activities:</div> </div>	<p>Early Act is a school-wide service club for students from ages 5 to 13. It is offered at our school and is sponsored by the local Roxbury Rotary Club. Early Act provides young students the opportunity for gaining an increased awareness and knowledge of their community and the world. The club engages students in character-building activities and prepares them for leadership roles to identify and carry out projects which benefit their school, local and global communities.</p>
 <div> <div>Before and After School Programs:</div> </div>	<p>Our school welcomes scouting, art classes, STEAM classes, coding and many other community programs for after school enrichment through the Roxbury Community School portal.  <b>Staff and Professional Learning:</b>	<p>Every staff member has been provided an iPad and a Chromebook to use in their class. On top of this, two iPad carts and two Chromebook carts are available, for student use. In third and fourth grades especially technology is used extensively in innovative ways to enhance student learning. Staff members take charge of their own professional learning and participate in trainings that help them to better meet the individual learning needs of their students.</p>
 <b>Student Supports and Services:</b>	<p>Special Education supports available at Kennedy School include two Language Learning Disability (LLD) classrooms (one K-2 and one 2-4). We also have an Out of Class Resource (OCR) teacher on staff for students who need that level of support. We offer Speech, OT, and PT services as well as Guidance Services for students who demonstrate a need.</p>
 <b>Student Health and Wellness:</b>	<p>Our staff fosters a safe, respectful, healthy environment by empowering students and supporting ethical decision-making. Students are taught to stand up for themselves and others in a peaceful manner. This year, we are continuing to take a proactive approach to the state's "Harassment, Intimidation, and Bullying" initiative, with the aim of reducing HIB. Emotional, social, and intellectual development is factored into the academic process and our aim is to teach the whole child.</p>
 <b>Parent and Community Involvement:</b>	<p>The PTA at Kennedy brings our community together in productive and entertaining ways. Teachers are inspired through the PTA's grant program; and the Cultural Arts Committee brings us enriching presentations and interactive learning experiences throughout the school year. In addition to family fun events, volunteers organize the PTA Reflections Program that allows students to demonstrate their creativity in the areas of photography, visual arts, literature, film, video production, and dance.</p>

<div>Other Information:</div>	<p>Our English Language Arts and Math programs are recently revised to better reflect the New Jersey Student Learning Standards. We are teaching the Readers' and Writers' Workshop models in ELA with the recent addition of Wilson's Foundations in kindergarten, first, and second grades. In mathematics we continue to transition to the Singapore-based philosophy of the Math in Focus program in all grades. Classes are increasingly differentiated in both ELA and math as teachers continue to introduce more centers in their classrooms and conference individually and in small groups in order to focus on specific areas of growth for each student. Our Science instruction is now aligned with the Next Generation Science Standards (NGSS), with all grades teaching the FOSS science program this year. Kennedy School does offer a preschool class which is run through the Roxbury Community School.</p>

The **2016-17 School Performance Reports** are designed to share school and district information collected by the New Jersey Department of Education directly with parents, educators, and communities. The Department believes that the greatest potential to improve school performance and student outcomes is through parents, educators, and community members working together. These reports seek to make that process easier by providing information that can help people to:

- **Learn more:** The School Performance Reports contain a wealth of data, going far beyond a school’s test scores to include information about the staff working in a school, student discipline rates, and the sports and clubs offered.
- **Ask questions:** These reports can help start a conversation, but they cannot answer all the questions you might have about schools in your community. Use the contact information provided to engage with faculty and administrators at your schools to ask about the data you see in these reports.
- **Get involved:** Schools need help from parents and communities to help students succeed. Contact your school to find out about school board meetings or parent and community groups.

Navigating through the reports:

- Download this report to a PDF by clicking the  icon at the top of the page.
- Search for specific text or words in these reports by using the search box at the top of the page.
- The menu bar at the top of the page or the table of contents at the left of the screen can be used to move between sections of the report.
- The arrow buttons at the top left of the screen can be used to move between pages of the report.

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act* (ESSA) accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

This section of the performance report shows information on student growth which measures how much students are learning each year. Each student receives a **Student Growth Percentile (SGP)** for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in the prior year.

A student's **SGP** falls between 1 and 99 and can be grouped into three levels:

Low Growth: Less than 35

Typical Growth: Between 35 and 65

High Growth: Greater than 65

If the student growth percentiles for all students in the school are ordered from smallest to largest, the **median student growth percentile (mSGP)** is the percentile in the middle of that list. Watch a short video that explains how **median Student Growth Percentile (mSGP)** is calculated here:

<http://www.state.nj.us/education/njsmart/performance/>

## Student Growth

This table shows the **median Student Growth Percentile (mSGP)** for both English Language Arts/Literacy (ELA) and Mathematics for the school and each student group with comparisons to the district and the state. This section shows information about student absences which provides important information about a school's culture and climate. In addition, research shows that student absences impact a child's ability to succeed in school. The New Jersey Department of Education selected chronic absenteeism as its measure of school quality and student success for the *ESSA* accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, excused, unexcused or for disciplinary action, is considered absent unless permitted by statute or regulation.

### Chronic Absenteeism

This table shows the percentage of students in grades K-12 in the school and each student group who were chronically absent. This table also shows whether the school and each student group met the *ESSA* accountability targets for 2016-17.

Student Group	% Chronically Absent	2016-17 Target	Met 2016-17 Target
Schoolwide	6.00	7.50	Met Target
White	6.00	7.50	Met Target
Hispanic	4.50	7.50	Met Target
Black or African American	N	**	**
Asian, Native Hawaiian, or Pacific Islander	8.70	7.50	Not Met
American Indian or Alaska Native	N	**	**
Two or More Races	N	**	**
Economically Disadvantaged Students	11.80	7.50	Not Met
Students with Disabilities	8.90	7.50	Not Met
English Learners	N	**	**

\*\* ESSA accountability targets are only included if data is available for at least 20 students.

### Days Absent

The graph displays the percentage of K-12 students schoolwide by the number of days they were absent during the school year. An absence is defined as being 'not present' and includes both excused and unexcused absences.

### Chronic Absenteeism by Grade

This graph shows the percentage of students in the school and across the state who were chronically absent for each grade level. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, excused, unexcused or for disciplinary action, is considered absent unless permitted by statute or regulation.

### School Day

This table shows the start and end times and length of school day for a typical student at this school. **Instructional time** is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher.

Category	School
Typical Start Time	8:20AM
Typical End Time	3:10PM
Length of School Day	6 Hrs 50 Mins
Full Time - Instructional Time	5 Hrs. 31 Mins.
Shared Time - Instructional Time	*

### Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents provides a non-duplicated count of incidents. The final row shows a rate of incidents for every 100 students enrolled in the school.

Incident Type	Number of Incidents
Violence	0
Vandalism	0
Weapons	0
Substances	0
Harassment, Intimidation, Bullying (HIB)	3
Total Unique Incidents	3
Incidents Per 100 Students Enrolled	0.61

### Student Suspension Rate

This table shows the percentage of students who received one or more in-school suspensions, one or more out-of-school suspensions, and one or more suspensions of any type during the school year. Students receiving both in-school and out-of-school suspensions will be counted in all rows of the table. Students who received more than one suspension are counted only one time in each category below.

Suspension Types	% of Students
In-School Suspensions	0.0%
Out-of-School Suspensions	0.0%
Any Suspension	0.0%

### Student Expulsions

This table shows the number of students who were expelled from the school during the school year. An expulsion is when a student is removed from a school and does not receive any further educational services during the school year.

### Technology Readiness

This table shows information that was collected through the optional NJTRAx survey to determine a school's technology readiness. The student to device ratio shows the number of students for every computer or tablet in the school. The internet speed is the internet bandwidth per 1000 students enrolled in the district measured in megabits per second. The connectivity between schools is a school's LAN network architecture. The NJTRAx survey is optional for schools, so data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device (BYOD) policy may have appear to have a very low Student to Device ratio due to this policy decision.

School Year	Student to Device Ratio	Internet Speed	Recommended Internet Speed	Met Recommended Speed?	Connectivity between Schools	Recommended Connectivity	Met Recommended Connectivity?
2016-17	1:1	278.7 kbps	100 kbps	Yes	N	Fiber	N

### Per-Pupil Expenditures (District Level)

This table shows the total current expenses for regular and special education students taught within the district's schools. It includes expenditures for instruction, support services, administration, operations and maintenance, extra-curricular activities, and community service. More information about district and charter school spending can be found using districts' [User Friendly Budgets](#), or the NJDOE Finance [District Report Search](#) of the Comprehensive Annual Financial Reports (CAFRs) and Auditor's Management Reports (AMRs).

This section contains information about staff that are assigned to the school and district. Here is an explanation of some of the **key terms used in the staff section**:

**Faculty:** All classroom teachers and educational support services personnel (such as Librarians, Nurses, Counselors, and Child Study Team members)

**Teachers:** All classroom teachers

**Administrators:** Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

**Full-Time Equivalent:** In calculations, staff members are weighted based on the percentage of their time that they are assigned to a school or district. For example – a teacher assigned to a school half time would be weighted 50% in calculations, but a teacher assigned to a school full time would be weighted 100% in calculations.

Teachers – Experience

This table shows information about experience for teachers assigned to this school and across the state.

Category	Teachers in School	Teachers in State
Total Number of teachers	46	120,724
Average years experience in public schools	13.5	11.8
Average years experience in district	11.2	10.5
Teachers in district for 4 or more years	78%	74%

Administrators – Experience (District Level)

This table shows information about experience for administrators assigned to this district and across the state.

Category	Admin. in District	Admin. in State
Total Number of administrators	29	9,506
Average years experience in public schools	18.8	15.9
Average years experience in district	8.5	11.6
Administrators in district for 4 or more years	62%	74%

Student to Staff Ratios

This table shows the number of students per staff member in the school and district. Ratios for librarians, nurses, counselors, and child study team members are only reported at the district level because many staff in these jobs are assigned only to the district and not to individual schools.

Staff Type	School Students: Staff	District Students: Staff

Accountability Indicator Scores and Summative Rating

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of comprehensive support. This table shows the indicator scores for each indicator included in the accountability system and the weights that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative rating below the 5th percentile or high schools with a 4-year graduation rate that is less than or equal to 67% are identified for Comprehensive Support. For more information about New Jersey’s accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Indicator	Indicator Score	Indicator Weight
English Language Arts Proficiency	43.2	17.5%
Mathematics Proficiency	56.1	17.5%
English Language Arts Growth	38.1	25.0%
Mathematics Growth	94.1	25.0%
Chronic Absenteeism	49.2	15.0%
Progress Towards English Language Proficiency (coming 2018)	N/A	N/A
<b>Summative Score:</b> Sum of all indicator scores multiplied by indicator weights		57.8
<b>Summative Rating:</b> Percentile rank of Summative Score		62.5
<b>Requires Comprehensive Support:</b> Summative Rating is less than or equal to 5th percentile		No

\*\* Indicator scores are only calculated for inclusion in ESSA accountability if data is available for at least 20 students.

### Accountability Summary by Student Group

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of Targeted Support. Any student group where the summative score would be in the bottom 5% of schools (see previous page) is identified for Targeted Support for a Low-Performing Student Group. If any student group is identified for Targeted Support, this will be noted in the Schoolwide row in the table. Schools in which one or more student groups miss annual targets for all indicators two years in a row are identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups miss annual targets for all indicators are noted to be At Risk for being identified for Targeted Support for the 2017-18 school year. Annual targets for proficiency and graduation rate are set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the statewide average for all students. For more details on accountability targets, see these [accountability resources](#).

 Courses, Curriculum, Instruction:	Lincoln Roosevelt's focus is to provide students with a well-rounded education. LRS's curriculums are aligned to state standards that promote 21st century learning skills. Students participate in cycle classes that emphasize art, music, foreign language and technology. Students may participate in enrichment opportunities such as band, orchestra or choir. Each day students have a designated time (LAP) where they may receive extra help from teachers or participate in the G&T program.
 Clubs and Activities:	Clubs and other after-school activities complement our curricular offerings and allow our students yet another venue to explore a wide range of interests. Currently students have the opportunity to participate in the following extracurriculars: Art Club, Computer Club, Forensics, Student Council, Honors Choir, and our community-service club K-Kids.

 <div>Staff and Professional Learning:</div>	<p>A great deal of collaboration occurs among the teachers at each grade level, using a learning community format to provide interdisciplinary experiences when possible. To support these collaborative efforts, a large classroom has been dedicated for teachers to combine their classes for related activities. Furthermore, supervisors dedicated to subjects specific to Grades K through 5 and 6 through 12 engage in a variety of tasks that help guide the direction of our curricular programs.</p>
 <div>Student Supports and Services:</div>	<p>The Special Education Department provides an excellent program for students in the least restrictive environment with programming designed to meet specific needs. In addition, Lincoln Roosevelt offers support for English Language Learners as well as an I&amp;RS committee designed to help struggling learners.</p>
 <div>Student Health and Wellness:</div>	<p>The goal of our health and physical education program is to help students establish habits, attitudes and skills that will help them understand and appreciate physical activity and its contribution to a healthy lifestyle.</p>

The **2016-17 School Performance Reports** are designed to share school and district information collected by the New Jersey Department of Education directly with parents, educators, and communities. The Department believes that the greatest potential to improve school performance and student outcomes is through parents, educators, and community members working together. These reports seek to make that process easier by providing information that can help people to:

- **Learn more:** The School Performance Reports contain a wealth of data, going far beyond a school’s test scores to include information about the staff working in a school, student discipline rates, and the sports and clubs offered.
- **Ask questions:** These reports can help start a conversation, but they cannot answer all the questions you might have about schools in your community. Use the contact information provided to engage with faculty and administrators at your schools to ask about the data you see in these reports.
- **Get involved:** Schools need help from parents and communities to help students succeed. Contact your school to find out about school board meetings or parent and community groups.

Navigating through the reports:

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act* (ESSA) accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

Mathematics Assessment - Participation and Performance

This table shows information about the Mathematics section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act* (ESSA) accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

This section of the performance report shows information on student growth which measures how much students are learning each year. Each student receives a **Student Growth Percentile (SGP)** for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in the prior year.

A student's **SGP** falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the **median student growth percentile (mSGP)** is the percentile in the middle of that list. Watch a short video that explains how **median Student Growth Percentile (mSGP)** is calculated here:

This section shows information about student absences which provides important information about a school's culture and climate. In addition, research shows that student absences impact a child's ability to succeed in school. The New Jersey Department of Education selected chronic absenteeism as its measure of school quality and student success for the *ESSA* accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, excused, unexcused or for disciplinary action, is considered absent unless permitted by statute or regulation.

### Chronic Absenteeism

This table shows the percentage of students in grades K-12 in the school and each student group who were chronically absent. This table also shows whether the school and each student group met the *ESSA* accountability targets for 2016-17.

Student Group	% Chronically Absent	2016-17 Target	Met 2016-17 Target

### Days Absent

The graph displays the percentage of K-12 students schoolwide by the number of days they were absent during the school year. An absence is defined as being 'not present' and includes both excused and unexcused absences.

## Chronic Absenteeism by Grade

This graph shows the percentage of students in the school and across the state who were chronically absent for each grade level. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, excused, unexcused or for disciplinary action, is considered absent unless permitted by statute or regulation.

### Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents provides a non-duplicated count of incidents. The final row shows a rate of incidents for every 100 students enrolled in the school.

Incident Type	Number of Incidents
Violence	11
Vandalism	0

### Student Suspension Rate

This table shows the percentage of students who received one or more in-school suspensions, one or more out-of-school suspensions, and one or more suspensions of any type during the school year. Students receiving both in-school and out-of-school suspensions will be counted in all rows of the table. Students who received more than one suspension are counted only one time in each category below.

Suspension Types	% of Students
In-School Suspensions	1.9%
Out-of-School Suspensions	1.1%
Any Suspension	2.6%

### Student Expulsions

### Technology Readiness

This table shows information that was collected through the optional NJTRAx survey to determine a school's technology readiness. The student to device ratio shows the number of students for every computer or tablet in the school. The internet speed is the internet bandwidth per 1000 students enrolled in the district measured in megabits per second. The connectivity between schools is a school's LAN network architecture. The NJTRAx survey is optional for schools, so data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device (BYOD) policy may have appear to have a very low Student to Device ratio due to this policy decision.

This table shows the total current expenses for regular and special education students taught within the district's schools. It includes expenditures for instruction, support services, administration, operations and maintenance, extra-curricular activities, and community service. More information about district and charter school spending can be found using districts' [User Friendly Budgets](#), or the NJDOE Finance [District Report Search](#) of the Comprehensive Annual Financial Reports (CAFRs) and Auditor's Management Reports (AMRs).

This section contains information about staff that are assigned to the school and district. Here is an explanation of some of the **key terms used in the staff section**:

**Faculty:** All classroom teachers and educational support services personnel (such as Librarians, Nurses, Counselors, and Child Study Team members)

**Teachers:** All classroom teachers

**Administrators:** Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

**Full-Time Equivalent:** In calculations, staff members are weighted based on the percentage of their time that they are assigned to a school or district. For example – a teacher assigned to a school half time would be weighted 50% in calculations, but a teacher assigned to a school full time would be weighted 100% in calculations.

### Teachers – Experience

This table shows information about experience for teachers assigned to this school and across the state.

Category	Teachers in School	Teachers in State
Total Number of teachers	27	120,724
Average years experience in public schools	10.4	11.8
Average years experience in district	8.9	10.5
Teachers in district for 4 or more years	67%	74%

### Administrators – Experience (District Level)

This table shows information about experience for administrators assigned to this district and across the state.

Category	Admin. in District	Admin. in State
Total Number of administrators	29	9,506
Average years experience in public schools	18.8	15.9
Average years experience in district	8.5	11.6
Administrators in district for 4 or more years	62%	74%

### Student to Staff Ratios

This table shows the number of students per staff member in the school and district. Ratios for librarians, nurses, counselors, and child study team members are only reported at the district level because many staff in these jobs are assigned only to the district and not to individual schools.

Staff Type	School Students: Staff	District Students: Staff
Teachers	10:1	11:1
Administrators	268:1	124:1
Librarian/Media Specialists		718:1
Nurses		513:1
Counselors		276:1

### Teachers and Administrators - Level of Education

This chart shows the highest level of education attained by the teachers and administrators at this school. The Bachelor's category may include other degrees/certificates such as a Specialist's degree. Administrators are required to have a Master's degree or higher.

#### Bachelor's Degree

#### Master's Degree

#### Doctoral Degree

### Teachers and Administrators - One-Year Retention (District Level)

This table shows the percentage of teachers and administrators assigned to the district in 2015-16 that were still assigned to the district in 2016-17. Staff who are not retained may have changed districts or no longer work for the state (including retirements).

Job Type	District	State
2015-16 Teachers: Same district 2016-17	90%	89%
2015-16 Administrators: Same district 2016-17	81%	88%

### Faculty Attendance

This table shows the percentage of days that school faculty members were present during the school year. Approved professional days, personal days, staff training days, bereavement days, jury duty, and absences due to extended illness are not counted against days present, and faculty members on long-term leave or disability are excluded from this calculation.

### Accountability Indicator Scores and Summative Rating

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of comprehensive support. This table shows the indicator scores for each indicator included in the accountability system and the weights that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative rating below the 5th percentile or high schools with a 4-year graduation rate that is less than or equal to 67% are identified for Comprehensive Support. For more information about New Jersey's accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Indicator	Indicator Score	Indicator Weight
English Language Arts Proficiency	71.5	17.5%
Mathematics Proficiency	88.8	17.5%
English Language Arts Growth	15.7	25.0%
Mathematics Growth	62.4	25.0%
Chronic Absenteeism	82.0	15.0%
Progress Towards English Language Proficiency (coming 2018)	N/A	N/A
<b>Summative Score:</b> Sum of all indicator scores multiplied by indicator weights		59.8
<b>Summative Rating:</b> Percentile rank of Summative Score		65.3
<b>Requires Comprehensive Support:</b> Summative Rating is less than or equal to 5th percentile		No

\*\* Indicator scores are only calculated for inclusion in ESSA accountability if data is available for at least 20 students.

### Accountability Summary by Student Group

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of Targeted Support. Any student group where the summative score would be in the bottom 5% of schools (see previous page) is identified for Targeted Support for a Low-Performing Student Group. If any student group is identified for Targeted Support, this will be noted in the Schoolwide row in the table. Schools in which one or more student groups miss annual targets for all indicators two years in a row are identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups miss annual targets for all indicators are noted to be At Risk for being identified for Targeted Support for the 2017-18 school year. Annual targets for proficiency and graduation rate are set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the statewide average for all students. For more details on accountability targets, see these [accountability resources](#).

 <p>Courses, Curriculum, Instruction:</p>	<p>Nixon School's instruction and assessment are guided by our district's focus on the NJ Student Learning Standards. Efforts are concentrated on meeting the needs of all students through Differentiated Instruction. This philosophy guides the delivery of our curriculum so that students can achieve their fullest potential. A tremendous focus is also placed on infusing technology into our curriculum, so that our students are equipped with 21st century skills and experiences.</p>
 <p>Clubs and Activities:</p>	<p>Early Act is a school-wide service club for students from ages 5 to 13. It is offered at Nixon School and is sponsored by the local Roxbury Rotary Club. Early Act provides young students the opportunity for gaining an increased awareness and knowledge of their community and the world. Additionally, students at Nixon School have an opportunity to represent their peers on the Culture and Climate Committee, as well as on the school's Green Team.</p>
 <p>Before and After School Programs:</p>	<p>Our school welcomes scouting, art classes, STEAM classes, coding and many other community programs for after school enrichment through the Roxbury Community School portal. Additionally, Nixon School partners with the Big Brother, Big Sister organization to offer a school based, after school program entitled, Bigs and Littles.</p>

 <b>Staff and Professional Learning:</b>	<p>Nixon School's staff works to cultivate an environment for teaching and learning that is positive, productive, and collaborative. Professional Learning Communities provide a forum for us to focus our collaborative efforts on student achievement. Our school is filled with caring, compassionate staff members committed to providing a quality education for all students.</p>
 <b>Student Supports and Services:</b>	<p>Nixon School prides itself on the inclusion of various Special Education programs, inclusive of our TIDES program which spans PreK – Grade 5 for students that have varied disabilities, including but not limited to autism; and our REACH program, which serves with students who have emotional disabilities;. We continue to embrace all students and work to provide constant and consistent growth in an inclusive school setting.</p>
 <b>Student Health and Wellness:</b>	<p>At Nixon School, the focus is on the whole-child; we strive to address the health, social, emotional, and behavioral needs of our students. As we do this, our goal is to empower our students to become effective self-advocates, while providing them with the tools and guidance to achieve this. Through the support of our full-time School Nurse, our School Counselor, and our staff, our students have the benefit of experiencing a host of opportunities that support this development.</p>
 <b>Parent and Community Involvement:</b>	<p>The Nixon School Parent Teacher Association is an integral part of our school. In addition to supplying us with high quality assemblies and Cultural Arts programs, their fundraising efforts permit us to enhance our program with an array of exciting materials and experiences. These very dedicated parents also help to provide volunteer programs, and funds needed for many teacher grants that promote our educational philosophy.</p>

Other Information:

Nixon School is identified as a Title 1 School with a Targeted Assistance Program. Title 1 funds provided for the 16/17 school year were used to launch various programs to help children who were academically struggling to receive supplemental educational assistance. The first of which was S.A.I.L., a summer program serving students who were academically at-risk in K-4, as well as incoming Kindergarteners who demonstrated a need for Kindergarten readiness skills via our administration of the Brigance Early Childhood Screen. Title 1 funds also allow us to begin an early-intervention program entitled, Kinder S.T.A.R.S., for our academically at-risk Kindergarten students, as well as an academic needs based program entitled, Pathways to Learning, for our academically at-risk students in Grade 1. Title 1 funding also made it possible to offer a Parent Academy four times over the course of the 16/17 school year. Through this Academy, parents/guardians were supported in their efforts to aide their child's development at home. In line with offering programming to meet the needs of all of our learners, Nixon is proud to provide a Gifted & Talented program (P.E.A.K.) for qualifying students in Gr. 3 & 4. In our efforts to develop the whole child, our school has adopted the OLWEUS Bullying Prevention Program, as well as the Bucket Fillers philosophy as the basis for our character education initiatives. The children's book, Have you Filled a Bucket Today: A Guide to Daily Happiness for Kids has become a central text at Nixon. Through a variety of means, inclusive of our Promoting Social Successes Morning Meeting schedule, Peaceful School Bus meetings, Peaceful Cafeteria initiative, whole school assemblies, daily Morning Announcements conducted by students, classroom initiatives, and lessons based upon core character traits, Nixon School strives to make bucket filling a way of life for students, staff, families, and our community.

The **2016-17 School Performance Reports** are designed to share school and district information collected by the New Jersey Department of Education directly with parents, educators, and communities. The Department believes that the greatest potential to improve school performance and student outcomes is through parents, educators, and community members working together. These reports seek to make that process easier by providing information that can help people to:

- **Learn more:** The School Performance Reports contain a wealth of data, going far beyond a school's test scores to include information about the staff working in a school, student discipline rates, and the sports and clubs offered.
- **Ask questions:** These reports can help start a conversation, but they cannot answer all the questions you might have about schools in your community. Use the contact information provided to engage with faculty and administrators at your schools to ask about the data you see in these reports.
- **Get involved:** Schools need help from parents and communities to help students succeed. Contact your school to find out about school board meetings or parent and community groups.

**English Language Arts/Literacy Assessment - Participation and Performance**

This table shows information about the English Language Arts/Literacy section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act (ESSA)* accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

**Mathematics Assessment - Participation and Performance**

This table shows information about the Mathematics section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act* (ESSA) accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

This section shows whether students have gained the knowledge and skills identified in the Biology section of the Science Core Curriculum Standards as measured by the End of Course Biology test. The assessment has three proficiency categories. Students performing at "Proficient" and "Advanced Proficient" have demonstrated readiness for the next grade-level/course.

This section contains information about participation and performance on college entrance examinations. For more information about how participation and performance on the PSAT, SAT, and ACT tests are calculated and how these calculations account for recent changes to the SAT test, please see our [Reference Guide](#).

PSAT/SAT/ACT - Participation

This table shows the percentage of 10th and 11th graders that took the PSAT 10 or PSAT NMSQT exams in 2016-17. This table also shows the percentage of 12th graders that have taken the SAT or ACT this year or in prior years.

Students in high schools begin to demonstrate college readiness behaviors long before they actually graduate from high school. Among those behaviors are participating in advanced course work such as **Advanced Placement (AP)** or **International Baccalaureate (IB)** courses and exams and **dual enrollment** courses where high school students can enroll in college courses for credit.

AP/IB Coursework – Participation and Performance

This chart shows the percentage of students out of all 11th and 12th grade students in the school and across the state, who enrolled in one or more AP or IB course, the percentage that took one or more AP or IB exam, and the percentage of students taking one or more exams who received at least one score of at least 3 on AP exams or 4 on IB exams.

Dual Enrollment Coursework - Participation

This graph shows the percentage students enrolled in at least one **dual enrollment** course in the school and across the state. **Dual enrollment** courses allow high school students to enroll in college courses for credit prior to their high school graduation.

AP/ IB Courses Offered

This table shows the students enrolled in AP/IB courses and the corresponding exams that were taken. Students do not need to take a course to take the exam and not all students enrolled in a course take the exam. The last two rows show the total number of exams taken and the number of exams with scores of at least 3 on AP exams or 4 on IB exams. In the last two rows, students taking multiple exams are counted more than once.

This section contains information about participation in approved **Career and Technical Education (CTE)** programs and **Structured Learning Experiences**. For more information about CTE in New Jersey, please visit <http://www.nj.gov/education/cte/>.

### Career and Technical Education Participation

The chart below shows the percentage of students within the school and state who were enrolled in courses in approved Career and Technical Education (CTE) programs. Students enrolled in shared-time CTE programs in a county vocational school district are included in both the county vocational school and their sending school.

**CTE Participants**  
(completed only one course in an approved CTE program)

**CTE Concentrators**  
(completed two or more courses in a single approved CTE program and/or completed the entire CTE program)

### Structured Learning Experiences Participation

The graph below displays the percentage of students within the school and state who participated in Structured Learning Experiences (SLEs). SLEs can include work-based learning programs, internships, apprenticeships, and service learning experiences and can be paid or unpaid.

### Industry-Valued Credentials Earned

This table shows the number of students that earned at least one industry-valued credential and the number of credentials earned in each Career Cluster® and overall for the 2016-17 school year. Students earning credentials in more than one Career Cluster are counted in multiple rows. Students earning multiple credentials in one Career Cluster are counted more than once in the Industry credentials total.

This section shows information about student absences which provides important information about a school’s culture and climate. In addition, research shows that student absences impact a child’s ability to succeed in school. The New Jersey Department of Education selected chronic absenteeism as its measure of school quality and student success for the *ESSA* accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, excused, unexcused or for disciplinary action, is considered absent unless permitted by statute or regulation.

Chronic Absenteeism

This table shows the percentage of students in grades K-12 in the school and each student group who were chronically absent. This table also shows whether the school and each student group met the *ESSA* accountability targets for 2016-17.

Student Group	% Chronically Absent	2016-17 Target	Met 2016-17 Target

Days Absent

The graph displays the percentage of K-12 students schoolwide by the number of days they were absent during the school year. An absence is defined as being 'not present' and includes both excused and unexcused absences.

### Chronic Absenteeism by Grade

This graph shows the percentage of students in the school and across the state who were chronically absent for each grade level. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. Technology Readiness

This table shows information that was collected through the optional NJTRAx survey to determine a school’s technology readiness. The student to device ratio shows the number of students for every computer or tablet in the school. The internet speed is the internet bandwidth per 1000 students enrolled in the district measured in megabits per second. The connectivity between schools is a school’s LAN network architecture. The NJTRAx survey is optional for schools, so data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device (BYOD) policy may have appear to have a very low Student to Device ratio due to this policy decision.

This section contains information about staff that are assigned to the school and district. Here is an explanation of some of the **key terms used in the staff section**:

**Faculty:** All classroom teachers and educational support services personnel (such as Librarians, Nurses, Counselors, and Child Study Team members)

**Teachers:** All classroom teachers

**Administrators:** Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

**Full-Time Equivalent:** In calculations, staff members are weighted based on the percentage of their time that they are assigned to a school or district. For example – a teacher assigned to a school half time would be weighted 50% in calculations, but a teacher assigned to a school full time would be weighted 100% in calculations.

Accountability Indicator Scores and Summative Rating

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of comprehensive support. This table shows the indicator scores for each indicator included in the accountability system and the weights that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative rating below the 5th percentile or high schools with a 4-year graduation rate that is less than or equal to 67% are identified for Comprehensive Support. For more information about New Jersey’s accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Indicator	Indicator Score	Indicator Weight
English Language Arts Proficiency	38.2	17.5%
Mathematics Proficiency	68.2	17.5%
Graduation - 4-Year	38.6	25.0%
Graduation - 5-Year	68.4	25.0%
Chronic Absenteeism	87.6	15.0%
Progress Towards English Language Proficiency (coming 2018)	N/A	N/A
Summative Score: Sum of all indicator scores multiplied by indicator weights		58.5
Summative Rating: Percentile rank of Summative Score		60.6
Requires Comprehensive Support: Summative Rating is less than or equal to 5th percentile		No
Requires Comprehensive Support: 4-year Graduation Rate less than or equal to 67%		No

\*\* Indicator scores are only calculated for inclusion in ESSA accountability if data is available for at least 20 students.

† Indicator weights for this school were adjusted due to data availability.

### Accountability Summary by Student Group

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of Targeted Support. Any student group where the summative score would be in the bottom 5% of schools (see previous page) is identified for Targeted Support for a Low-Performing Student Group. If any student group is identified for Targeted Support, this will be noted in the Schoolwide row in the table. Schools in which one or more student groups miss annual targets for all indicators two years in a row are identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups miss annual targets for all indicators are noted to be At Risk for being identified for Targeted Support for the 2017-18 school year. Annual targets for proficiency and graduation rate are set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the statewide average for all students. For more details on accountability targets, see these [accountability resources](#).

 <b>Highlights:</b>	<ul style="list-style-type: none"> <li>• Recognized as one of the top 50 high schools in the state by N.J. Monthly Magazine</li> <li>• Adopted a 1:1 technology program 5 years ago, named a Google Model School, and a Future Ready School by NJIT</li> <li>• A School of Choice for the Visual and Performing Arts-outstanding visual arts and nationally recognized performing arts</li> </ul>
 <b>Mission, Vision, Theme:</b>	<p>Established in 1903, Roxbury High School is a four-year comprehensive high school that places emphasis on the academic, personal, social, and physical growth of our students. Our teachers and administrators strive to provide meaningful student learning in the cognitive and the affective domain and to foster the pursuit of excellence by students in all they do. Our strength lies in the breadth of our curriculum and in the dedicated professional staff that facilitates the educational process.</p>
 <b>Awards, Recognition, Accomplishments:</b>	<p>Striving for high standards of excellence, all of our 12th grade students attained the state levels of proficiency required for graduation in 2017. Of that grade, 246 students participated in the S.A.T., earning a mean combined score of 1103. 132 students took the ACT with a combined mean score of 23.6. Last year, 87% of our students earned a grade of 3 or better on their Advanced Placement exams. Additionally, 92% of our students continue their formal education after graduation.</p>

 <b>Courses, Curriculum, Instruction:</b>	<p>Roxbury High School operates on a modified block schedule that offers students a rigorous comprehensive curriculum in a challenging academic environment. The instructional program provides a wide variety of academic opportunities, including Advanced Placement and Honors courses; and innovative opportunities for pupil study outside of the high school curriculum such as Senior Option, College Option, and Independent Study. For a complete listing of our courses, visit <a href="http://roxbury.org/Page/744">roxbury.org/Page/744</a></p>
 <b>Sports and Athletics:</b>	<p>Sports Offered: Baseball (Boys), Basketball (Boys &amp; Girls), Cross-Country (Boys &amp; Girls), Field Hockey (Girls), Football (Boys), Golf (Boys &amp; Girls), Ice Hockey (Boys), Lacrosse (Boys &amp; Girls), Soccer (Boys &amp; Girls), Softball (Girls), Swimming (Boys &amp; Girls), Tennis (Boys &amp; Girls), Track and Field - Spring (Boys &amp; Girls), Track and Field - Winter (Boys &amp; Girls), Volleyball (Girls), Wrestling (Boys)</p> <p>Roxbury has a long-standing reputation of athletic excellence. Our more than 60 teams, at all levels, regularly post conference, county and state championships. Tradition, coaching excellence, athletic talent, and strong school spirit all contribute to this success. Importantly, our program places a higher priority on the growth of the student athlete as a person above our win/loss record.</p>
 <b>Clubs and Activities:</b>	<p>With over 30 extracurricular clubs, students have the chance to engage in a variety of academic, service, and social activities. Opportunities in the performing arts include a unique dance program, excellent drama productions, and nationally recognized vocal and instrumental music groups. The student yearbook has been acknowledged for its excellence. All of our programs place a priority on community service and we are proud of our student involvement in various humanitarian endeavors.</p>
 <b>Before and After School Programs:</b>	<p>Informal programming for students seeking extra help in coursework, opportunities for using technology, and quiet study time both before and after school hours is provided in the media center, and in certain classrooms. Peer tutoring is often a component of this program.</p>

 <b>Staff and Professional Learning:</b>	<p>Roxbury High School's staff pursues professional development opportunities through in-district attendance at teacher developed professional programs, through online coursework, through graduate studies, and through attendance at professional conferences. Time has been built into the alternating day block schedule for Professional Learning Communities to meet, and for staff to participate in teaching rounds, visiting the classrooms of colleagues to promote their own professional growth.</p>
 <b>Postsecondary Information:</b>	<p>We are proud of the efforts of our Guidance Department to help students forge a Four-Year Plan for Career and College. We sponsor numerous College Fairs to initiate the college search process. Counselors work closely with students and their families throughout the college search and application process; researching schools, testing students, submitting applications, and exploring funding options for college. In 2017, 92% of our students continued their formal education after graduation.</p>
 <b>Student Supports and Services:</b>	<p>We provide outstanding services for students with IEPs in the least restrictive environment. A wide range of special programs, integrated with regular education classes affords all of our students a positive learning experience. In-Class Resource, Academic Centers, and ESL classes meet specific educational needs. The service learning and student empowerment programs teach pupils to advocate for themselves. A transition coordinator supports the transition to post-graduation experiences.</p>
 <b>Student Health and Wellness:</b>	<p>RHS's Health and Physical Education curriculum emphasizes lifetime fitness, proper nutrition, mindfulness, and positive social interaction. Students may choose High Performance, Wellness, or Traditional PE classes depending on their preference. A High Elements course promotes team building and cooperative learning. Electives provide the opportunity to understand the physiology and psychology of exercise science. The state has recognized our Physical Education program as a model for others.</p>
 <b>Parent and Community Involvement:</b>	<p>While RHS does not have a formal PTA, well-organized parent booster clubs are involved with and support the mission of their respective programs and, by proxy, the school program. The Guidance Department presents and sponsors numerous parent programs. All of our co-curricular programs conduct community service programs in conjunction with parent groups. Significant community involvement contributes to the success of unique programs like Every 15 Minutes, Alive at 25, and Project Graduation.</p>

<div>Climate Surveys:</div>	<p>Is a Climate Survey Used: Yes; Who is surveyed: Administrators, Teachers</p> <p>Each year, at the conclusion of the school year, a school climate survey is administered to the high school staff. The results of the survey are analyzed by the administrative team, concerns are identified and responses are prepared. The survey results are shared with the staff prior to the start of school. An action plan is presented to the staff at the opening of school meeting. All of this information is provided to the Central Office Administration.</p>
<div>Facilities:</div>	<p>The facility at RHS supports the curricular and co-curricular programs offered. New Science labs, CAD and Graphics labs, state-of-the-art music and dance facilities, a television studio, fitness and weight rooms, a turf field, and a modern Media Center are some facility features. A new security vestibule provides greater levels of safety for students and staff. We are in the process of planning for the repurpose of a 2500 sq. ft. space for programs that support school to work opportunities.</p>
