The Speaker announced:

Notice of and the calendar for this session of the General Assembly having been sent to the members of the General Assembly, the Secretary of the State and the State House Press and posted in accordance with the Open Public Meetings Law, I declare the General Assembly to be in session.

The Clerk began to read the minutes of the previous meeting. Mr. Bryant moved that the reading of the minutes be dispensed with, which motion was adopted.

The Clerk read the following message from the Senate:

Be It Resolved by the Senate (the General Assembly concurring):

That on January 8, 1991, at 6:30 P.M., both houses of the Legislature meet in Joint Session in the War Memorial Building for the

purpose of receiving His Excellency James J. Florio's First Annual Message to the Joint Session of the 204th Legislature.

A motion was made by Mr. Bryant, to concur in the Senate Message.

Which motion was adopted by Voice Vote.

The Clerk started to read the following 1991 Organizational Resolutions, when a motion was made by Mr. Bryant for the adoption of the resolutions and that the reading of the resolutions be waived.

Which motion was adopted by Voice Vote.

NEW JERSEY STATE LEGISLATURE

GENERAL ASSEMBLY
1991 ORGANIZATIONAL RESOLUTION

Be It Resolved:

1. That the Clerk of the General Assembly be directed to inform the Senate that the General Assembly has organized, its Speaker being the Honorable Joseph V. Doria, Jr. of Hudson County, and its Clerk, Gail Marsh Saxer of Ocean County, for the Second Annual Session of the Two Hundred-Fourth Session of the General Assembly, and has proceeded to business.

2. That the Speaker be and is hereby authorized to appoint such assistants as he may deem necessary.

3. That the working staff of the General Assembly shall be at all times subject to the direction of the Speaker and the Clerk, who shall have authority to designate to any member of the staff such duties as may be required.

4. That unless otherwise ordered the regular hours of meetings of the General Assembly will be on days and at times to be announced to the members, the news media and the public by the Speaker.

5. That no floor passes be issued by any officer or member of the General Assembly other than the Speaker, with the further provision that the privilege of the floor may be extended by a resolution duly adopted.

6. That in the absence of the Clerk, such other officers or employees as directed by the Speaker shall perform all duties imposed by law and the rules of the General Assembly upon the Clerk.

7. That the Bill Drafting Manual prepared and revised from time to time by the Office of Legislative Services, be adopted as the official manual of practice and procedure of the General Assembly governing the form of bills to be introduced in the General Assembly and governing the conduct of the preliminary examination of bills proposed for introduction in the General Assembly required by the Rules of the General Assembly.

That in order to carry out the aforementioned practice and procedure, Albert Porroni, Legislative Counsel and such deputies and assistants as he shall assign be designated as counsel to conduct said preliminary examination of bills proposed for introduction and amendments adopted in the General Assembly under the general supervision of the Legislative Counsel.

8. That each member of the General Assembly be authorized to retain up to six aides at a total compensation per member as authorized by law, except the Speaker may authorize more than six aides.

9. That the permanent Rules of the 1990 General Assembly, adopted by resolution passed on June 14, 1990, be adopted as the Rules for the 1991 General Assembly.

10. That His Excellency the Governor be informed that the General Assembly has organized for 1991, its Speaker being the Honorable Joseph V. Doria, Jr. of Hudson County, and its Clerk, Gail Marsh Saxer of Ocean County, and is now ready to proceed to business and to receive any communications he may forward.

Which motion was adopted.

ASSEMBLY BILL NO. 346
(FIRST REPRINT)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 346(1R) with my objections for reconsideration.

This bill would create a new State Board of Respiratory Care within the Division of Consumer Affairs in the Department of Law and Public Safety. This new Board would regulate the practice of respiratory care, and would require that all respiratory therapists be licensed according to uniform State standards.

The two thousand respiratory therapists currently practicing in the State are a valuable component of our health care system. They perform a number of physically invasive procedures which, if not handled with the utmost care, can jeopardize health and life. As such, I recognize the need to insure that these health professionals deliver the quality of care we all expect from our health care providers. The vast majority of these practitioners are voluntarily licensed by the national board, which is a testament to their professionalism and commitment to insuring quality of care. However, I am concerned that a voluntary system of regulation may not be adequate to protect the public health and safety in this health care field.

While I support the idea of licensing respiratory care practitioners, there are technical problems in this bill that may impair the full and efficient operation of a State Board of Respiratory Care.

Therefore, I herewith return Assembly Bill No. 346(1R) and recommend that it be amended as follows:

Page 1, Section 3, after Line 20:

Insert new subsection as follows:

“b. “Director”

means the Director of the
Division of Consumer Affairs.”

Page 1, Section 3, Line 21: Delete “b” insert “c”

Page 1, Section 3, Line 38: Delete “c” insert “d”

Page 2, Section 4, Line 21: After “Statutes.” insert new
sentence as follows: “The

six respiratory care
practitioners initially
appointed need not
be licensed in this State.”

Page 2, Section 6, Line 39: Delete “chairmen,” insert

“chairman and a”; delete “and a secretary”

Page 3, Section 7, Line 7: After “license;” delete “and”

Page 3, Section 7, Lines 8-9: Delete “necessary for the performance of its duties and the implementation of this act” insert “pursuant to the “Administrative Procedure Act”, P.L. 1968, c.410 (C.52:14B-1 et seq.), to carry out the provisions of this act, except that the initial rules and regulations shall be promulgated by the director; and”

Page 3, Section 7, after Line 9: Insert new subsection as follows: “g. Establish fees for applications for licensure, examinations, initial licensure, renewals, late renewals, temporary licenses and for duplication of lost licenses, pursuant to section 2 of P.L. 1974, c.46 (C.45:1-3.2).”

Page 3, Section 8, after Line 9: Insert new section as follows: “8. The Executive Director of the Board shall be appointed by the director and shall serve at the director’s pleasure. The salary of the Executive Director shall be determined by the director within the limits of available funds. The director shall be empowered within the limits of available funds to hire

any assistants as are
necessary to administer this
act.”

6, 7f and 8 shall take
effect immediately.”

Mr. Bryant offered the following resolution, which was read by
the Clerk and adopted:

Resolved, That pursuant to Rule 158, the following Assembly
bill, conditionally vetoed by the Governor, be and is hereby given
first reading for the purpose of reenactment:

Assembly No. 346

Further Resolved, That it be amended in accordance with the
Governor’s recommendations and advanced to second reading by
special order.

Which was read by the Clerk and adopted.

ASSEMBLY BILL NO. 3459

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 3459 with my objections for reconsideration.

The purpose of the bill is to exempt certain prepaid funeral trusts from revocability requirements. The exception applies to persons who want to set aside funds for funeral and burial expenses who are applicants for, or recipients of, Supplemental Security Income and certain Medicaid Programs as well as for persons who reasonably expect to be applicants for, or recipients of, benefits under these Programs within six months. Other than this limited exception, this bill maintains the revocability of prepaid funeral trusts as a public policy which is intended to ensure long term consumer protection in the area of prepaid funerals.

While senior citizens need to feel that they have provided for a dignified burial without burdening their families, it is also important for the integrity of the Medicaid Program that a balance be

maintained between the ability to set aside prepaid funeral funds and the ability to pay for medical expenses. If an increased set-aside is to be considered, the amount of the increase should be limited and maintained by a cap.

Therefore, I herewith return Assembly Bill No. 3459 and recommend that it be amended as follows:

Page 1, Section 1, Line 9:

After "Provided that" delete "the trust" and insert "a trust not in excess of 200% of the federal burial set-aside allowance for the SSI Program"

Respectfully,

James J. Florio

Governor

Mr. Bryant offered the following resolution, which was read by the Clerk and adopted:

Resolved, That pursuant to Rule 158, the following Assembly bill, conditionally vetoed by the Governor, be and is hereby given first reading for the purpose of reenactment:

Assembly No. 3459

Further Resolved, That it be amended in accordance with the Governor's recommendations and advanced to second reading by special order.

Which was read by the Clerk and adopted.

The following bill, as amended pursuant to the Governor's recommendations, was given second reading by special order:

ASSEMBLY BILL NO. 3309

(SECOND REPRINT)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 3309 (Second Reprint) with my objections for reconsideration.

This bill would amend State law to enable all municipalities to form solid waste collection districts within their boundaries. This concept was a previously permitted activity that has been eliminated over the last four years by the Legislature based on recommendations of the County and Municipal Government Study Commission.

In its present form, A-3309 (Second Reprint) would re-authorize the districts, and in doing so would create a sizable loophole in the Local Government Budget Cap Law for costs associated with solid waste collection and disposal. Under this legislation, the creation of a solid waste collection district and transfer of the attendant costs to this district effectively eliminates solid waste collection and disposal costs from the intended effect of the Budget Cap Law.

Under the original municipal cap law, all expenses associated with both recycling and solid waste management were specifically exempted. Recent amendments to the Cap Law repealed this waiver, and brought solid waste and recycling costs back under the cap. These recent amendments reflected the strong belief that additional classes of municipal expenditures should be subjected to the fiscal restraints provided by the Budget Cap Law. While I am mindful of the challenge faced by municipalities to control solid waste disposal costs, there a number of options, including expanded recycling efforts, that can be used to bring costs under control. I do not think that expanding exemptions to the cap law, directly or indirectly, is the answer to the problem of escalating solid waste costs.

However, I am aware that this legislation may affect approximately 24 municipalities that have existing municipal solid waste districts. I believe that these municipal solid waste districts should be allowed to continue operating, subject to the approval of the Local Finance Board of the Department of Community Affairs. An additional check on costs of solid waste districts is provided by existing law which permits these districts to meet the requirements of the cap law by seeking, from the Local Finance Board, a one-time adjustment of their cap base to reflect their prevailing expenditure levels for services that were provided by their solid waste districts.

Therefore, I herewith return Assembly Bill No. 3309 (Second Reprint) and recommend that it be amended as follows:

Page 1, Section 1, Line 7: After “municipality” insert “which operated a solid waste collection district as of December 31, 1989,”

Which motion was adopted.

ASSEMBLY COMMITTEE SUBSTITUTE FOR
ASSEMBLY BILL NO. 1808
(FIRST REPRINT)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Committee Substitute for Assembly Bill No. 1808 (First Reprint) with my objections for reconsideration.

This bill would amend State law to require municipalities lacking curbside garbage collection systems to adopt "proof-of-service" ordinances requiring solid waste generators—residences or businesses—to contract for individual trash collection. This legislation seeks to curb illegal dumping and other improper waste handling (e.g., disposal in

public containers) by some waste generators who are attempting to avoid the payment of private hauling costs for waste disposal.

To ensure compliance with these municipal ordinances, the bill establishes certain notification and paperwork requirements applying to municipalities and waste generators. Most significantly, the municipalities must notify generators of ordinance requirements at least once every six months by including the written notice with other official notifications, such as tax bills, mailed to generators. Waste generators, in turn, must furnish written proof of trash collection service at least once every 12 months. Municipalities would then presumably use this information to identify possible violators.

In essence, the bill sets up a monitoring system consisting of a two-way paperwork flow that would accompany other official correspondence between a municipality and its residences and businesses.

While I recognize that this legislation takes important steps to improve our statewide solid waste management system, I am concerned that the incremental planning benefits provided by this bill do not warrant the complex paperwork requirements that would be imposed on municipalities and waste generators. I am therefore proposing changes that would streamline the notification and paperwork requirements in the bill, and provide greater flexibility to municipalities in choosing effective, economical methods to ensure compliance with new ordinance requirements.

With the amendments I am proposing, municipalities would still have to provide notice every six months, but could choose from a variety of methods, such as advertisements in newspapers, mailings or notices in public locales, to meet this requirement. The generator proof-of-service requirement, which currently applies to all residents and businesses that have their trash privately hauled, would be restricted to a very small class of residents who currently take their own garbage directly to landfills or other disposal facilities.

I am also proposing one other change to this bill. Presently, the bill contains a provision that requires owners or operators of certain solid waste facilities to establish weekly hours to allow individuals to transport solid waste directly from their residences for disposal at the facility. This could cause disruption to existing solid waste collection and disposal systems. The proposed changes would instead provide the facility owner or operator with the discretion to set aside weekly hours for the acceptance of trash transported directly to the facility by residents of a municipality, but would not require that the facility maintain certain schedules.

Therefore, I herewith return Assembly Committee Substitute for Assembly Bill No. 1808 (First Reprint) and recommend that it be amended as follows:

Page 2, Section 1, Line 13: Before "A requirement" insert "In the case of a responsible solid waste generator, within the municipality, who is transporting the solid waste which is generated at his residential premises directly to the solid waste facility utilized by the municipality for disposal,"

Page 2, Section 1, Line 13: After "every" insert "such"

Page 2, Section 1, Line 14: After "proof" delete "of collection service or proof"

Page 2, Section 1, Line 27: After "ordinance." delete "In order to fulfill the notification requirements of this subsection, the governing body of a municipality shall include the notice with any other official notifications periodically mailed to residential taxpayers."

Page 2, Section 1, Line 27: After "ordinance." insert "In order to fulfill the notification requirements of this subsection, the governing body of a municipality may, in its discretion, place an advertisement in a newspaper circulating in the municipality, post a notice in public places where public notices are customarily posted, include a notice with other official notifications periodically mailed to taxpayers, or any combination thereof, as the municipality deems necessary and appropriate."

Page 3, Section 3, Line 21: After "operator of" delete "every"

Page 3, Section 3, Line 21: After "operator of" insert "a"

Page 3, Section 3, Line 24: After "as this bill)," delete "shall"

Page 3, Section 3, Line 24: After "as this bill)," insert "may"

Page 3, Section 3, Line 27: After "operator of" delete "the"

Page 3, Section 3, Line 27: After "operator of" insert "such"

Respectfully,

Governor

ASSEMBLY RESOLUTION

By Assemblymen Bryant, Brown, Doyle, Marsella and Smith

Whereas, The General Assembly Rules and Order Committee has conducted a review of the Rules of the General Assembly; and

Whereas, The Committee conducted its business during a committee meeting held on April 8, 1991; and

Whereas, The General Assembly Rules and Order Committee recommends adoption of the following revisions to the rules in order to provide for more efficient, effective and orderly management of the operations of the General Assembly and conduct of the public's business; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey that the Rules of the 1990 General Assembly be amended as follows:

1. Rule 71 is amended to read as follows:

71. Each standing reference committee, within its subject area, is authorized to:

a. review any bills or resolutions referred to it and report to the General Assembly for its consideration any such bills or resolutions with or without amendments, or by committee substitute;

b. review and study, on a continuous basis, the application, administration and execution of State laws and programs, and the organization, operations, and rules and regulations of agencies and entities of the executive and judicial branches of State government,

including state and interstate authorities, and of political subdivisions including regional authorities, which have responsibilities for the application, administration and execution of State laws and programs, to ascertain whether the laws and programs are effective, implemented in accordance with the intent of the Legislature, or require modification or elimination. To this end, the committee may conduct such investigations or studies, meet with such public officials or private citizens, inspect such books, papers, documents, records or other data, visit such facilities, hold such hearings, issue such reports, or make such recommendations on legislative or administrative actions, as the committee may deem appropriate or as the Speaker or the General Assembly may direct. Each standing reference committee shall hold not less than one public hearing in each annual session in areas set forth in this subsection;

c. perform such other duties as may be necessary in the exercise of its responsibilities as the Speaker or the General Assembly may direct.

2. Rule 74 is amended to read as follows:

74. Each standing reference committee shall meet at such time and place as its chair shall designate; provided, however, that no meeting shall be scheduled by the chair in conflict with the schedule established by the Speaker for a day when the General Assembly is in session.

The chair shall cause to be communicated to the majority staff and the Office of Legislative Services such information as may be necessary for the Office to give five days notice to the public and the members of the General Assembly of the time, place, and agenda for each committee meeting. Upon special order of the Speaker, the five day notice may be waived. No more than seven bills or resolutions may be considered at a committee meeting, other than an Appropriations Committee meeting, on a day when the General Assembly is in session except upon special order of the Speaker. No more than 12 bills or resolutions may be considered by the Appropriations Committee at a meeting on a day when the General Assembly is in session except upon special order of the Speaker.

All meetings at which official committee action is to be taken shall be open to the general public. A committee may, upon the affirmative vote of a majority of its authorized membership at an open meeting, convene in closed or executive session for the purpose of discussing any matter before the committee, or for meeting with or taking testimony from any person; provided, however, that full discussion and consideration of any bills or resolutions and all motions and action thereon shall be made in public session.

3. Rule 85 is amended to read as follows:

85. Any motion or resolution which will result in relieving a reference committee of a bill or resolution referred to it shall only be made by the prime sponsor of the bill or resolution or in the case of a Senate bill or resolution, a member acting on behalf of the prime sponsor of the bill or resolution and shall not be entertained unless twenty-four hours' notice shall be given the General Assembly of the introduction of such motion or resolution and the reference committee has met at least three times since the bill or resolution has been referred to that committee. When such a motion or resolution is entertained, debate shall be limited to whether or not the reference committee has given the bill or resolution in question fair and reasonable consideration. The prime sponsor, in the case of an Assembly bill or resolution, or a member acting on behalf of the prime sponsor of a Senate bill or resolution, shall be entitled to speak first on the motion or resolution. The chair of the reference committee or another committee member designated by the chair or the committee if the chair is absent, shall be entitled to speak next in response. A motion to lay on the table shall not be in order until such parties have been afforded the opportunity to so comment or respond, as the case may be. Such motion or resolution shall not prevail unless it shall receive an affirmative vote of the majority of all the members of the General Assembly. No such motion or resolution which will result in relieving a reference committee of a bill or resolution referred to it may be offered on more than two occasions for any such bill or resolution during any annual session.

4. (New Section) The Legislative Counsel is authorized to correct in the text of the Rules of the General Assembly any error or omission in legal reference, text, punctuation, spelling, grammar and form, the correction of which will not affect the substance of the text.

5. (New Section) The Office of Legislative Services shall provide for the publication and distribution of the Rules of the General Assembly in such form and manner as the Speaker shall direct.

6. This resolution shall take effect immediately.

STATEMENT

This resolution offers the following changes by the Rules and Order Committee:

1. The amendment to Rule 71 provides that each standing reference committee shall hold not less than one public hearing in each annual session in the subject matter of the committee in the following areas as outlined in Rule 71: the application, administration and execution of State laws and programs, and the organization, operations, and rules and regulations of agencies and entities of the executive and judicial branches of State government, including state and interstate authorities, which have responsibilities for the applica-

tion, administration and execution of State laws and programs, to ascertain whether the laws and programs are effective, implemented in accordance with the intent of the Legislature, or require modification or elimination.

2. The amendment to Rule 74 clarifies that the Speaker may waive the five day notice provision for committee agendas.

3. The amendment to Rule 85 provides that a motion to relieve a committee of a bill may only be made by the prime sponsor of the bill or resolution, or in the case of a Senate bill or resolution, a member acting on behalf of the prime sponsor of the bill or resolution and is only in order if the reference committee has met at least three times since the bill or resolution has been referred to the committee.

ASSEMBLY BILL NO. 3374

(FIRST REPRINT)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the Constitution, I am returning Assembly Bill No. 3374 with my objections for reconsideration.

This bill would amend several sections of the Local Public Contracts Law for the purpose of allowing municipally-owned electrical generating facilities additional flexibility in the acquisition of electricity, material, and services necessary for the conduct of its operations. However, in doing so it creates the potential to undermine the integrity of the Local Public Contracts Law as it applies not only to such facilities, but to all other applicable contracting units.

While I am committed to assist local governments to fulfill their obligations, I am hesitant to endorse this bill in its current form. The amendments I propose provide the proper mechanism to enable municipalities to fulfill their legal and contractual obligations and provide electricity for their residents. These amendments ensure that the operating flexibility intended by the original legislation is achieved and that the integrity of the Local Public Contracts Law is not compromised.

The amendments allow generators to contract for the purchase of energy from cogeneration or other similarly-regulated power suppliers under contracts up to 40 years in length without the need for public bidding, and be exempt from the "annual appropriation of sufficient funds" clause. This allows for long-term commitments and more flexible contracting arrangements to meet the economic requirements of such expensive private sector undertakings. Contracts for fuel for municipally-owned generators are also permitted to be up to 8 years in length.

The changes permit generators to purchase electricity from regional power "pools" and to incur the related transmission charges without the need for bidding as well. Finally, the few municipally-

owned electrical utilities engaged in the distribution of electricity to retail customers are permitted to take advantage of joint and co-operative purchasing opportunities for materials and services related to the distribution of electricity to their customers.

Therefore, I herewith return Assembly Bill No. 3374 (First Reprint) and recommend that it be amended as follows.

Page 1, Section 1, Line 28: After “year” delete “, or may be awarded for a longer period if provided by chapter 62 of Title 40 of the Revised Statutes”

"7. Section 2 of P.L. 1971, c.199 (C.40A:11-2) is amended to read as follows:

As used herein the following words have the following definitions, unless the context otherwise indicates:

(1) "Contracting unit" means

(a) Any county; or

(b) Any municipality; or

(c) Any board, commission, committee, authority or agency, which is not a State board, commission, committee, authority or agency, and which has administrative jurisdiction over any district other than a school district, project, or facility, included or operating in whole or in part, within the territorial boundaries of any county or municipality which exercises functions which are appropriate for the exercise by one or more units of local government, and which has statutory power to make purchases and enter into contracts or agreements for the performance of any work or the furnishing or hiring of any materials or supplies usually required, the cost or contract price of which is to be paid with or out of public funds.

(2) "Governing body" means:

(a) The governing body of the county, when the purchase is to be made or the contract or agreement is to be entered into by, or in behalf of, a county; or

(b) The governing body of the municipality, when the purchase is to be made or the contract or agreement is to be entered into by, or on behalf of, a municipality; or

(c) Any board, commission, committee, authority or agency of the character described in subsection (1) (c) of this section.

(3) "Contracting agent" means the governing body of a contracting unit, or any board, commission, committee, officer, department, branch or agency which has the power to prepare the advertisements, to advertise for and receive bids and, as permitted by this act, to make awards for the contracting unit in connection with purchases, contracts or agreements.

(4) "Purchase" is a transaction, for a valuable consideration, creating or acquiring an interest in goods, services and property, except real property or any interest therein.

(5) "Materials" includes goods and property subject to Chapter 2 of Title 12A of the New Jersey Statutes, apparatus, or any other tangible thing, except real property or any interest therein.

(6) "Professional services" means services rendered or performed by a person authorized by law to practice a recognized profession, whose practice is regulated by law, and the performance of which services requires knowledge of an advanced type in a field of learning acquired by a prolonged formal course of specialized instruction and study as distinguished from general academic instruction or apprenticeship and training. Professional services may also mean services rendered in the performance of work that is original and creative in character in a recognized field of artistic endeavor.

(7) "Extraordinary unspecifiable services" means services which are specialized and qualitative in nature requiring expertise, extensive training and proven reputation in the field of endeavor.

(8) "Project" means any work, undertaking, program, activity, development, redevelopment, construction or reconstruction of any area or areas.

(9) "Work" includes services and any other activity of a tangible or intangible nature performed or assumed pursuant to a contract or agreement with a contracting unit.

(10) "Homemaker—home health services" means at home personal care and home management provided to an individual or members of his family who reside with him, or both, necessitated by the individual's illness or incapacity. "Homemaker—home health services" includes, but is not limited to, the services of a trained homemaker.

(11)“Recyclable material” means those materials which would otherwise become municipal solid waste, and which may be collected, separated or processed and returned to the economic mainstream in the form of raw materials or products.

(12)“Recycling” means any process by which materials which would otherwise become solid waste are collected, separated or processed and returned to the economic mainstream in the form of raw materials or products.

(13)“Marketing” means the marketing of designated recyclable materials source separated in a municipality which entails a marketing cost less than the cost of transporting the recyclable material to solid waste facilities and disposing of the materials as municipal solid waste at the facility utilized by the municipality.

(14)“Municipal solid waste” means all residential, commercial and institutional solid waste generated within the boundaries of a municipality.

(15)“Distribution” (when used in relation to electricity) means the process of conveying electricity from a contracting unit who is a generator of electricity or a wholesale purchaser of electricity to retail customers or other end users of electricity.”

(16)“Transmission” (when used in relation to electricity) means the conveyance of electricity from its point of generation to a contracting unit who purchases it on a wholesale basis for resale.”

Respectfully,

Governor

The following filing was sent to the General Assembly from the Office of the Governor on April 25, 1991:

REORGANIZATION PLAN NO. 001 (1991)

Transfer of Functions
to the Department of Environmental Protection
from the Board of Public Utilities.

A plan for the Reorganization and Integration of responsibility for energy and certain public utility matters within the Department of Environmental Protection and the redesignation of that department as the Department of Environmental Protection and Energy.

Take Notice that on April 25, 1991, Governor James J. Florio hereby issues the following Reorganization Plan (No. 001-1991) to provide for the increased coordination and integration of the State's utility, environmental and energy policies by the transfer of functions from the Board of Public Utilities now allocated in but not of the Department of Treasury to in but not of the Department of Environmental Protection.

GENERAL STATEMENT OF PURPOSE

Pursuant to its present statutory authority, it is the duty of the Board of Public Utilities to regulate the public utilities of the State for the provision of safe, adequate and proper service including electric, gas, solid waste, water and sewers, telecommunications and cable television. In this role, the Board regularly considers environmental matters in consultation with the Department of Environmental Protection. Additionally, the Board is charged with evaluation of the State's energy needs to ensure the continued supply of energy at reasonable prices and to avoid the potential adverse effects of an insufficient energy supply on the economy and to the State's quality of life and its environment.

The purpose of this Reorganization Plan is to create a governmental structure that will promote the statutory aims of the Board and ensure that public utilities provide safe, adequate and proper service in conjunction with the complementary directives of doing so consistent with the statutory goals of environmental protection and energy management and conservation. In transferring existing functions of the Board of Public Utilities to in but not of the Department of Environmental Protection, this Plan recognizes the interrelationship of energy management planning and environmental protection on the one hand and the provision of safe, adequate and proper utility service by the electric, gas, water, sewerage, and solid waste utilities on the other. This Plan will foster the efficient implementation of a coherent public policy which advances a coordinated and integrated energy conservation and planning policy.

This Plan proposes that the Commissioner and the DEP assume certain administrative responsibilities of the Board. Another

significant aspect of this Plan is the merger of the solid waste regulation responsibilities of the DEP and the Board. These actions will promote the policy, regulatory and administrative integration of these two bodies, and thereby advance a coordinated approach to environmental and utility regulation and energy planning, and be more economical. This Plan also proposes that the DEP be renamed the Department of Environmental Protection and Energy to better reflect its new role, and that the Board be renamed the Board of Regulatory Commissioners.

Therefore, in accordance with the provisions of the "Executive Reorganization Act of 1969," L. 1969, c. 203 (C. 52:14C-1 et seq.), I find with respect to each reorganization included in this Plan that each is necessary to accomplish the purposes set forth in Section 2 of that Act and will do the following:

1. It will promote more effective management of the Executive Branch and its departments because it will group similar functions within already existing agencies;
2. It will promote the better and more efficient execution of the law by integrating the State's utility, environmental and energy public policies;
3. It will group, coordinate and consolidate functions in a more consistent and practical way according to major purposes;
4. It will reduce expenditures by more closely aligning similar functions; and
5. It will eliminate duplication and overlapping of effort by consolidating certain functions and result in a savings of State funds.

THE PROVISIONS OF THE REORGANIZATION PLAN ARE AS FOLLOWS:

1.a. The Board of Public Utilities, including the functions, powers and duties assigned to it pursuant to Reorganization Plan No. 002 (1989) (C. 21 N.J.R. 1937, July 17, 1989), created pursuant to L. 1911, c. 195 as amended (C. 48:2-1), and allocated in but not of the Department of Treasury pursuant to L. 1987, c. 365, §9 (C. 52:18A-2.1), together with all of its functions, powers and duties, is continued and is transferred to and constituted as the Board of Public Utilities in but not of the Department of Environmental Protection, except as hereinafter provided.

b. The Board of Public Utilities shall remain constituted as a three-member board as now provided by law (C. 48:2-1), whose final agency decisions, consistent with other applicable principles, continue to be appealed to the Appellate Division of the Superior Court, except that pursuant to the authority conferred by N.J.S.A. 52:14C-5 (i) the President of the Board shall be redennominated as Chairperson; and (ii) in the case of a vacancy on the Board, the

Governor may appoint an acting member from among the employees of the DEP or the Board by filing a letter evidencing the appointment with the Secretary of State, which appointment shall be effective for no more than 120 days and which shall then expire, or until such time as a member is nominated, confirmed, appointed and qualified to serve, whichever is sooner.

I find this reorganization is necessary to accomplish the purposes set forth in Section 2 of L. 1969, c. 203. Specifically, this reorganization will promote a closer cooperation with the Department of Environmental Protection and further the important goals of coordinating and integrating the State's utility, environmental and energy policies to ensure the provision of safe, adequate and proper service from utilities consistent with the achievement of and energy conservation goals. Also, vesting the Governor with a limited authority to name an acting member to the Board of Public Utilities, a power which already exists with respect to the Commissioner of Environmental Protection, will ensure the Board's ability to carry out its important regulatory functions without delay.

2.a. The Division of Energy Planning and Conservation in the Board of Public Utilities, Reorganization Plan No. 002 (1989), I(1)(a), created pursuant to L. 1977, c. 146 as amended (C. 52:27F-7), together with all of its functions, powers and duties, is abolished and all of its functions, powers and duties are transferred to and vested in the Department of Environmental Protection and the Commissioner thereof.

b. There shall be created in the DEP an Office of Energy Planning which shall be assigned those responsibilities the DEP Commissioner deems appropriate, and which may include any functions, powers or duties formerly assigned to the Division of Energy Planning and Conservation.

c. Whenever in any law, rule, regulation, order, contract, document, judicial or administrative proceeding or otherwise, reference is made to the Division of Energy Planning and Conservation in the Board of Public Utilities, the same shall mean and refer to the Department of Environmental Protection and the Commissioner thereof.

I find this reorganization is necessary to accomplish the purposes set forth in Section 2 of L. 1969, c. 203. Specifically, this reorganization will confer on the Department of Environmental Protection and its Commissioner the necessary authority to implement the important goals of coordinating and integrating the State's environmental, utility and energy policies. This reorganization will also promote and assist the development and utilization of cogeneration of energy and programs of energy conservation for both residential and commercial users. This Plan will provide for the collection and dissemination of energy data for the benefit of promoting the economy.

3.a. The Advisory Council on Energy Planning and Conservation in the Division of Energy Planning and Conservation in the Board of Public Utilities, Reorganization Plan No. 002 (1989), I(1)(a), created by L. 1977, c. 146, §10 (C. 52:27F-12), together with all its functions, powers and duties as set forth in L. 1977, c. 146, §11 (C. 52:27F-13), is continued and transferred to and constituted the Advisory Council on Energy Planning and Conservation in the Department of Environmental Protection.

b. Whenever, in any law, rule, regulation, order, contract, document, judicial or administrative proceeding or otherwise, reference is made to the Advisory Council on Energy Planning and Conservation in the Division of Energy Planning and Conservation in the Board of Public Utilities, the same shall mean and refer to the Advisory Council on Energy Planning and Conservation in the Department of Environmental Protection.

I find that this reorganization is necessary to accomplish the purposes set forth in Section 2 of L. 1969, c. 203. Specifically, this reorganization will provide the Commissioner of the Department of Environmental Protection with a body that can advise him regarding the relationship between the State's economic, environmental and energy policies.

4. The responsibility and authority vested in the President of the Board of Public Utilities to act as chairperson of the Energy Master Plan Committee, established by L. 1987, c. 365, §14 (C. 52:27F-14), pursuant to Reorganization Plan No. 002 (1989), III.1., is hereby vested in the Commissioner of the Department of Environmental Protection; the responsibility and authority of the President of the Board of Public Utilities to serve as a member of the Energy Master Plan Committee is continued.

I find that this reorganization is necessary to accomplish the purposes set forth in Section 2 of L. 1969, c. 203. Specifically, this reorganization will help ensure close coordination and integration of the State's environmental and energy policies.

5. The responsibility and authority for requiring the periodic reporting by energy industries of energy information, and the analysis and reporting of same, set forth in L. 1977, c. 146, §16 (C. 52:27F-18), is transferred to the Department of Environmental Protection and the Commissioner thereof.

I find that this reorganization is necessary to accomplish the purposes set forth in Section 2 of L. 1969, c. 203. Specifically, this transfer is consistent with the centralization of energy data collection and dissemination responsibilities within the Department of Environmental Protection as an aid to integrating energy, environmental and economic policy.

6. All responsibility and authority now vested in the Board of Public Utilities for the regulation of solid waste under L. 1985, c. 38 (C. 13:1E-136 et seq.), as amended, or under any other law or regulation, including, but not limited to rate-setting, is hereby continued and transferred to the Commissioner of the DEP.

I find that this reorganization is necessary to accomplish the purposes set forth in Section 2 of L. 1969, c. 203. Specifically, this reorganization will help ensure the close coordination and integration of the State's environmental and public utility policies.

7. All responsibility for budget, fiscal and personnel matters (including adoption of a Code of Ethics as required by the State Conflicts of Interests Law (C. 52:13D-23) and acting as appointing authority with all of the rights thereunder) and day-to-day administration, including contracting and rulemaking authority in these areas, including such authority specifically conferred on the Board by N.J.S.A. 48:2-2, 3 and 7, is hereby transferred from the Board of Public Utilities to the Commissioner of the Department of Environmental Protection; except (i) that the Board shall make annual budget recommendations to the DEP Commissioner for inclusion in the DEP's annual budget request to the Governor and Treasurer, subject to the review of the Commissioner, after due consideration by the DEP Commissioner of the resources needed by the Board to ensure its ability to carry out its assigned functions under law; and (ii) that the Board will adopt and recommend a Code of Ethics required by the Conflicts Law to the Commissioner for his consideration and approval and transmittal to the Executive Commission on Ethical Standards with such modifications, if any, as the Commissioner deems appropriate; (iii) that the Board will be responsible for the allocation of its budget and the assignment of Board personnel; and (iv) that BPU employees for payroll, administrative and other personnel related practices shall remain and continue to be categorized as BPU employees. Upon the request of the Board, the DEP Commissioner shall make available Department resources to the Board to carry out its responsibilities.

I find this reorganization is necessary to accomplish the purposes set forth in Section 2 of L. 1969, c. 203. Specifically, this consolidation of budget and administrative authority in the DEP Commissioner, to be exercised in consultation with the Board as set forth above, will result in increased and more effective management of the Board's operations in light of the transfer of the Board to the DEP. The shifting of administrative functions from the Board will also permit the Board to focus on its policy and regulatory responsibilities.

8. a. The Board of Public Utilities is denominated the Board of Regulatory Commissioners. I find that this name change, authorized by N.J.S.A. 52:14C-5, will better reflect the responsibilities of the Board and its allocation within a renamed Department of Environmental Protection and Energy, infra, 9.

b. Whenever in any law, rule, regulation, order, contract, tariff, document, judicial or administrative proceeding or otherwise, reference is made to the entities recited in paragraphs 1 to 7 above to the Board of Public Utilities and the President thereof, the same shall mean and refer to the Board of Regulatory Commissioners and the Chairperson thereof.

9. a. The name of the Department of Environmental Protection is denominated the Department of Environmental Protection and Energy. I find this name change, authorized by N.J.S.A. 52:14C-5, will better reflect the Department's responsibilities for energy and public utility matters and better inform the public of the Department's role.

b. Whenever in any law, rule, regulation, order, contract, tariff, document, judicial or administrative proceeding or otherwise, reference is made to the entities recited in paragraphs 1 to 7 above to the Department of Environmental Protection or the Commissioner thereof, the same shall mean and refer to the Department of Environmental Protection and Energy or the Commissioner thereof.

10. All transfers directed by this Plan shall be made in accordance with the "State Agency Transfer Act," L. 1971, c. 375 (C. 52:14D-1 et seq.).

11. All acts and parts of acts inconsistent with any of the provisions of this Reorganization Plan are superseded to the extent of such inconsistencies. A copy of this Reorganization Plan was filed on April 25, 1991 with the Secretary of State and the Office of Administrative Law (for publication in the *New Jersey Register*). This Plan shall become effective in 60 days on June 24, 1991 unless disapproved by each House of the Legislature by the passage of a concurrent resolution stating in substance that the Legislature does not favor this Reorganization Plan, or at a date later than June 24, 1991, should the Governor establish such a later date for the effective date of the Plan, or any part thereof, by Executive Order.

Take Notice that this Reorganization Plan, if not disapproved, has the force and effect of law and will be printed and published in the annual edition of the public laws and in the *New Jersey Register* under a heading of "Reorganization Plans."

ASSEMBLY BILL NO. 3011

(THIRD REPRINT)

To the General Assembly:

Pursuant to Article 5, Section 1, Paragraph 14, of the Constitution, I am returning Assembly Bill No. 3011 (3R) with my objections for reconsideration.

This bill would amend the Local Public Contracts Law to allow municipalities and counties additional flexibility in the manner in which they award towing contracts. However, amendments to this bill during the legislative process undermine an important aspect of the original legislation and I am hesitant to endorse this bill in its current form.

The amendments I propose would permit municipalities and counties which have found the bidding process inadequate in their attempt to fulfill their statutory obligations with respect to towing services to utilize a reasonable non-exclusionary and non-discriminatory process which may include the use of a rotating list as an option. I am confident that this option will ensure that the underlying goals of the Local Public Contracts Law are met and will ensure competition in the marketplace.

The amendments would provide the proper mechanism to enable local and county governing bodies, by ordinance or resolution, to choose the method that best meets their individual circumstances. Any non-bid alternative can only be utilized when a system is developed to guarantee a reasonable non-exclusionary and non-discriminatory process. I have also proposed amendments to the bill to ensure that rates charged to the consumer will be at the lower of the rates and charges set by a local government entity pursuant to ordinance or set by the Commissioner of Insurance pursuant to Section 60 of P.L.1990, c.8 (C.17:33B-47).

Therefore, I herewith return Assembly Bill No. 3011 (Third Reprint) and recommend that it be amended as follows:

Page 3, Section 1, Line 37: After "conditions," insert "which may include the provision of such services on a rotating basis,"

Page 3, Section 1, Line 49: After "therefor.," insert "Each of the aforementioned means of contracting shall be subject to any regulations adopted by the Commissioner of Insurance pursuant to section 60 of P.L.1990, c.8(C.17:33B-47)."

Respectfully,

Governor

The Clerk read the following message from the Secretary of the Senate:

Mr. Speaker, I am directed by the Senate to inform the General Assembly that the Senate has recalled Senate Nos. 2230, 2655 and 2936 which had been previously sent to the General Assembly.

A message was received from the Secretary of the Senate and was read by the Clerk as follows:

Mr. Speaker:

I am directed by the Senate to forward herewith to the General Assembly the enclosed 80 copies of Senate Concurrent Resolution No. 129 entitled "A Concurrent Resolution proposing to amend Article VII, Section I, paragraph 6 of the Constitution of the State of New Jersey," with the request that they be placed upon the desks of the members of the General Assembly in open meeting forthwith.

Mr. Bryant moved that the message be spread in full upon the minutes. Which motion was adopted.

Mr. Bryant offered the following resolution which was read by the Clerk and adopted.

Resolved,

1. That printed copies of Senate Concurrent Resolution No. 129, be placed upon the desks of the members of the General Assembly forthwith; and

2. A record of the placing thereof be made in the Minutes of the General Assembly and the Clerk certify such placing and the date thereof to the Secretary of the Senate.

The Clerk then caused to be placed upon the desks of each member a copy of Senate Concurrent Resolution No. 129, and the placing thereof is hereby noted in the Minutes.

The Clerk read the following message from the Governor (conditional veto of Assembly No. 2870):

Mr. Bryant moved that the message be spread in full upon the minutes.

Which motion was adopted.

ASSEMBLY BILL No. 2870
(FIRST REPRINT)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 2870 (First Reprint) with my objections for reconsideration.

This bill would help ensure the safety of our citizens by requiring the development of rules concerning the design and operation of storm water detention facilities. The rules would be promulgated by the Commissioner of Environmental Protection.

Specifically, the rules would: (1) promote site-specific solutions to public safety hazards at these facilities; (2) deter persons, especially children, from entering areas where these facilities are located; (3) provide guidelines for designing escape aids for persons who may become trapped in a storm water detention facility; (4) provide that the declivity of a storm water detention basin be as gradual as possible within the limits of existing water quality regulations; and (5) eliminate, where possible, public safety hazards associated with storm water detention facilities.

The bill would also require that each municipality in the State include public safety provisions and considerations regarding storm water detention facilities in the municipality's storm water management plan, storm water management ordinances, and general zoning ordinance. These provisions and considerations would be based on the State rules. As a result, no subdivision or site plan approval could be granted unless all storm water detention facilities to be built at the site conform with the appropriate public safety provisions and considerations.

To assist the Commissioner of Environmental Protection in developing these safety rules, the bill would establish a Storm Water Detention Facility Advisory Council. The council would consist of a professional engineer licensed by the State, a representative of the commercial construction industry, a representative of the residential construction industry, a private citizen, and three professional engineers employed as county or municipal engineers. The council would be a permanent entity within the Department of Environmental Protection.

I strongly support the basic goal of this legislation because I recognize the need for rules to protect the public from safety hazards associated with storm water detention facilities. I also believe that the advisory council is needed to assist the Commissioner of Environmental Protection in developing the rules called for in the bill. However, I do not believe the State needs another permanent advisory council.

As part of my administration's effort to trim and make more efficient all State government operations, I have directed that particular attention be focused on the dozens of councils, boards, and other entities that have been established over the years. The purpose was to see whether the function performed by these entities was still needed and, if so, whether that function could be performed more efficiently than through a separate entity.

While continuing with this effort to trim State government, I cannot support the creation of a permanent advisory council when a temporary council is all that is needed. The council's role would be to advise the Commissioner concerning the rules to be adopted pursuant to the bill. Once those rules have been adopted, the need for a formal advisory council would no longer exist.

Making the advisory council a temporary body will neither prevent the Commissioner from seeking advice in the future from the groups represented on the council nor prevent those groups from providing input to the Commissioner. The administrative procedures currently in place governing agency rule-making will allow ample opportunity for the exchange of views and information between the Commissioner, the groups represented on the council, and any other interested parties.

For these reasons, I herewith return Assembly Bill No. 2870 (First Reprint) and recommend that it be amended as follows:

Page 5, Section 6, Lines 21-23: delete "Of the members first appointed, two shall serve for a term of one year, two for a term of two years, and three for a term of three years. Thereafter, all terms shall be for three years."

Page 5, Section 6, Lines 24-25: delete "term of appointment and until a successor shall have been appointed and qualified" insert "duration of the council"

Page 5, Section 6, Lines 26-27: delete "for the unexpired term only"

Page 6, Section 6, After Line 1: insert new subsection as follows: "g. The council shall expire upon the adoption by the Commissioner of Environmental Protection of the rules required to be promulgated pursuant to section 5 of P.L., c. (C.) (now before the Legislature as this bill)."

Page 6, Section 8, Line 22: delete "Imposes safety requirements for storm water detention facilities."

Respectfully,

Governor

ASSEMBLY BILL NO. 1817

(FIRST REPRINT)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 1817 (First Reprint) with my objections for reconsideration.

This bill would protect the citizens of New Jersey by curbing so-called "backhauling" practices, where the same trucks are used to haul both garbage and fresh food products, such as poultry or vegetables. These questionable practices have emerged in recent years as haulers transporting garbage to distant landfills have sometimes turned to the backhauling of various food commodities to utilize excess capacity on their return trips.

As a result, I fully support this timely legislation as a means to halt these dangerous practices and safeguard the quality and purity of New Jersey food supplies.

After careful review of this bill, however, I believe that the key backhauling prohibitions contained in this bill can be further clarified and strengthened to ensure their enforceability by State law enforcement officials. The need for clarity in defining this new form of criminal conduct is critical since this bill would classify illegal backhauling as a third degree crime in New Jersey, and could subject a convicted offender to as many as three to five years of imprisonment.

With the inclusion of the amendments I am recommending, the bill would initially establish a broad prohibition on backhauling practices by solid waste transporters. This modified provision would clearly define a backhauling violation to include any case

where a vehicle is first utilized to haul solid waste and subsequently utilized to transport fresh food.

Also, the exemptions to this ban would be more narrowly defined to ensure that any permissible usage of a vehicle to haul both solid waste and food would be subject to closer scrutiny and tighter control by our State agencies.

Accordingly, a registered solid waste vehicle would not be allowed to transport food products unless the vehicle is first cleaned and sanitized in accordance with regulations adopted by the Department of Environmental Protection, in close consultation with the Department of Health. To monitor any backhauling activities that may occur, the Department of Environmental Protection would be authorized to require notification, recordkeeping and reporting by solid waste transporters.

I am also recommending amendments that would remove the statutory exemption for regulated medical waste. I believe that the sensible health protections afforded by this bill should apply equally to these additional waste materials, which may contain high concentrations of dangerous infectious agents.

To ensure that medical waste transporters carrying refrigeration equipment are not mistaken for food trucks, I am also proposing the modification of a statutory provision which defines the presence of refrigeration equipment in a vehicle as prima facie evidence that the vehicle is used for food transport. Based on my recommended amendments, this provision would not apply to vehicles that are properly registered, equipped and operated for the transportation of regulated medical waste.

For these reasons, I herewith return Assembly Bill No. 1817 (First Reprint) and recommend that it be amended as follows:

Page 1, Section 1, Line 6: Before "No vehicle" insert "Except as provided in subsections b., c. or d.,"

Page 1, Section 1, Lines 7-8: Delete "owned or operated by any person engaging in" insert "utilized for the transportation of solid waste in this State shall be subsequently utilized for"

ASSEMBLY BILL NO. 2870

(FIRST REPRINT)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 2870 (First Reprint) with my objections for reconsideration.

This bill would help ensure the safety of our citizens by requiring the development of rules concerning the design and operation of storm water detention facilities. The rules would be promulgated by the Commissioner of Environmental Protection.

Specifically, the rules would: (1) promote site-specific solutions to public safety hazards at these facilities; (2) deter persons, especially children, from entering areas where these facilities are located; (3) provide guidelines for designing escape aids for persons who may become trapped in a storm water detention facility; (4) provide that the declivity of a storm water detention basin be as gradual as possible within the limits of existing water quality regulations; and (5) eliminate, where possible, public safety hazards associated with storm water detention facilities.

The bill would also require that each municipality in the State include public safety provisions and considerations regarding storm water detention facilities in the municipality's storm water management plan, storm water management ordinances, and general zoning ordinance. These provisions and considerations would be based on the State rules. As a result, no subdivision or site plan approval could be granted unless all storm water detention facilities to be built at the site conform with the appropriate public safety provisions and considerations.

To assist the Commissioner of Environmental Protection in developing these safety rules, the bill would establish a Storm Water Detention Facility Advisory Council. The council would consist of a professional engineer licensed by the State, a representative of the commercial construction industry, a representative of the residential construction industry, a private citizen, and three professional engineers employed as county or municipal engineers. The council would be a permanent entity within the Department of Environmental Protection.

I strongly support the basic goal of this legislation because I recognize the need for rules to protect the public from safety hazards associated with storm water detention facilities. I also believe that the advisory council is needed to assist the Commissioner of Environmental Protection in developing the rules called for in the bill. However, I do not believe the State needs another permanent advisory council.

As part of my administration's effort to trim and make more efficient all State government operations, I have directed that particular attention be focused on the dozens of councils, boards, and other entities that have been established over the years. The purpose was to see whether the function performed by these entities was still needed and, if so, whether that function could be performed more efficiently than through a separate entity.

While continuing with this effort to trim State government, I cannot support the creation of a permanent advisory council when a temporary council is all that is needed. The council's role would be to advise the Commissioner concerning the rules to be adopted pursuant to the bill. Once those rules have been adopted, the need for a formal advisory council would no longer exist.

Making the advisory council a temporary body will neither prevent the Commissioner from seeking advice in the future from the groups represented on the council nor prevent those groups from providing input to the Commissioner. The administrative procedures currently in place governing agency rule-making will allow ample opportunity for the exchange of views and information between the Commissioner, the groups represented on the council, and any other interested parties.

For these reasons, I herewith return Assembly Bill No. 2870 (First Reprint) and recommend that it be amended as follows:

Page 5, Section 6, Lines 21-23: Delete "Of the members first appointed, two shall serve for a term of one year, two for a term of two years, and three for a term of three years. Thereafter, all terms shall be for three years."

Page 5, Section 6, Lines 24-25: Delete "term of appointment and until a successor shall have been appointed and qualified" insert "duration of the council"

Page 5, Section 6, Lines 26-27: Delete "for the unexpired term only"

Page 6, Section 6, After Line 1: insert new subsection as follows: "g. The council shall expire upon the adoption by the Commissioner of Environmental Protection of the rules required to be promulgated pursuant to section 5 of P.L. , c. (C.) (now before the Legislature as this bill)."

Page 6, Section 8, Line 22: Delete "Imposes safety requirements for storm water detention facilities."

Respectfully,

Governor

ASSEMBLY COMMITTEE SUBSTITUTE FOR
ASSEMBLY BILL NOS. 3222, 1202 AND 2000

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I am returning Assembly Committee Substitute for Assembly Bill No. 3222 with my objections for reconsideration.

Under the committee substitute, any member of the New Jersey National Guard who is accepted to pursue an undergraduate course of study in any public institution in the State, while enrolled and in good standing as an undergraduate at the institution and who continues to be a member of the New Jersey National Guard in good standing, shall receive up to 12 credits per semester, tuition-free.

In addition, any surviving spouse or child of a member of the New Jersey National Guard who is killed in the performance of his/her duties while on active duty with the New Jersey National Guard shall receive up to 12 credits per semester tuition-free, provided the surviving spouse or child has been accepted to pursue an undergraduate course of study at a public institution or is enrolled as an undergraduate student in good standing at the institution.

It is important to encourage young men and women to enlist in the National Guard and continue in the Guard. This legislation provides an important incentive, and I believe, provides proper encouragement for enlistment in the National Guard and education while in the Guard.

To take advantage of available financial assistance, I am recommending that Guardsmen first apply for all available federal or state grants or scholarships for which they may be eligible. This will allow Guardsmen, or eligible surviving spouse or child, to first determine if they are eligible for State, federal funds, or merit scholarships before gaining tuition free enrollment.

Therefore, I herewith return Assembly Bill Nos. 3222, 1202, 2000 ACS and recommend that it be amended as follows:

Page 1, Section 2, Line 24: After "institution" delete "and"

Page 1, Section 2, Line 24: Insert new subsection as follows:

"c.the member has applied for all available state student grants and scholarships and all available federal student grants and scholarships for which the member is eligible; and"

Page 1, Section 2, Line 25: Delete “c” insert “d”

Page 1, Section 3, Line 39: After “institution” delete “and”

Page 1, Section 3, Line 40: Insert new subsection as follows:

“b. the child or spouse has applied for all available state student grants and scholarships and all available federal student grants and scholarships for which the child or spouse is eligible; and”

Page 1, Section 3, Line 40: Delete “b” insert “c”

Page 2, Section 4, Line 1: Insert new section 4 as follows:

“The financial aid office of the public institution shall advise the member, or surviving spouse or child of a member, of any available State and federal student grants and scholarships for which the member, or surviving spouse or child of a member, may be eligible.”

ASSEMBLY BILL NO. 5051
(FIRST REPRINT)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 5051 (First Reprint) with my objections for reconsideration.

This bill establishes a guaranty fund to pay off policyholders in the event that an insurance company becomes insolvent. I commend

the Legislature for the timely passage of this bill and I wholeheartedly support the need for a guaranty fund in New Jersey.

New Jersey is one of the last states without a guaranty fund. Insurance policyholders in New Jersey are in financial danger in the event of an insolvency because their policies may not be worth what they thought. In virtually every other state policyholders are protected by a guaranty fund.

This is a truly important reform and I support most of the provisions in the bill. I believe that, with a few alterations, the bill will vastly improve the climate for life and health insurance in New Jersey.

The improvements I recommend are in two areas. First, I believe the coverage available to policyholders should be increased. Health insurance coverage is limited in the bill to \$100,000. I believe health insurance is such a critical necessity in today's society that there should be no artificial limit on what is covered by the guaranty fund. The bill currently provides \$300,000 in coverage to life insurance policyholders. I believe that the coverage for life insurance should be increased to \$500,000. I also believe individuals who benefit from unallocated annuities, including many who depend on these annuities for their retirement, should be covered.

Second, I believe the creation of a guaranty fund should have minimal impact on taxpayers. The bill currently allows contributing insurance companies to deduct from their premium taxes fifty percent of any assessment over five years. I recommend that contributing insurance companies be allowed to deduct no more than 20% of their tax liability in any year, and that no deduction will be allowed until an additional year after the assessment is made.

With these changes New Jersey will have a guaranty fund which will protect policyholders. Unfortunately, we are now faced with an unprecedented number of insurance insolvencies, and it is critical that we act to institute a guaranty fund.

Therefore, I herewith return Assembly Bill No. 5051 (First Reprint) and recommend that it be amended as follows:

Page 7, Section 3, Line 38: After "those policies or contracts" insert ", or in the case of unallocated annuity contracts, to the persons who are the contract holders"

Page 8, Section 3, Line 5: After "health, annuity and supplemental policies and contracts," delete "and"

Page 8, Section 3, Line 7: After "contracts" insert ", and for unallocated annuity contracts,"

Page 9, Section 3, Line 10: After "State;" delete "and"

Page 9, Section 3, Line 11: After "(7) any unallocated annuity contract" delete "." insert "issued to an employee benefit plan cov-

ered by the Pension Benefit Guaranty Corporation and whose benefits will be paid under such system; and”

Page 9, Section 3, After Line 11: Insert new subsection c. (8) as follows:

“(8) any portion of any unallocated annuity contract which is not issued to or in connection with a specific plan providing benefits to employees or an association of natural persons.”

Page 9, Section 3, Line 19: After “(a)” delete “\$300,000” insert “\$500,000”

ASSEMBLY BILL NO. 3115

(SECOND REPRINT)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I am herewith returning Assembly Bill No. 3115 (Second Reprint) with my objections for reconsideration.

This bill establishes State ownership of certain types of shipwrecks that are located in the waters of New Jersey, in accordance with the "Abandoned Shipwreck Act of 1987," and reserves the salvage and excavation of such shipwrecks exclusively to the State and to persons who have obtained permission from the State. The bill also provides the procedure for obtaining a permit for excavation or salvage of a shipwreck and subjects violators of the provisions to civil penalties.

The bill also establishes, in the Department of Environmental Protection, an eleven-member Shipwreck Management Board consisting of the Director of the Division of Coastal Resources in the Department of Environmental Protection; the Marine Fisheries Administrator in the Department of Environmental Protection; the State Archaeologist of the New Jersey State Museum; the State Historic Preservation Officer or his designee; and seven private citizens, to be appointed by the Governor with the advice and consent of the Senate, whom shall be sport divers, archaeologists, fishermen and salvors.

The board is responsible for advising the commissioner on developing, updating and publishing a list of known shipwrecks, recommending shipwrecks for inclusion in the State or National Register of Historic Places, evaluating and classifying shipwrecks, approving salvage or archaeological evaluation permits, promoting the exploration and utilization of shipwrecks, and developing guidelines and standards for rules and regulations concerning the conservation, excavation and salvage of shipwrecks. A "Shipwreck

Management Fund" is created by this bill, into which all penalties assessed, and all proceeds obtained by the State from the recovery and disposition of shipwrecks and shipwreck artifacts are to be deposited. Monies in this fund which do not exceed \$95,000 annually are to be dedicated toward the purposes of this act

I strongly support the basic goal of this legislation, which is to establish a shipwreck management program in New Jersey. Shipwrecks are an important multi-use public resource and I recognize the need for the State's ownership of them to be exercised in a manner that protects their historical value and provides recreational and educational opportunities to interested groups. I also believe in the concept of fostering a partnership among sport divers, fishermen, archaeologists, salvors and other interested groups to ensure their reasonable access to and utilization of shipwrecks and to guarantee their involvement in shipwreck management. However, I do not believe the State is in need of another permanent board.

As part of my administration's effort to trim and make more efficient all State government operations, I have directed that particular attention be focused on the dozens of councils, boards and other entities that have been established over the years. We are in the process of eliminating boards and other entities that are unnecessary.

I cannot support the creation of the Shipwreck Management Board at this time. Of course, the Commissioner of the Department of Environmental Protection shall seek advice from the groups which would have been represented on the board, and I encourage those groups to provide input to the commissioner. The administrative procedures currently in place governing agency rulemaking will allow ample opportunity for the exchange of views and information among the commissioner, the groups which would have been represented on the board, and any other interested parties.

Therefore, I herewith return Assembly Bill No. 3115 (Second Reprint) and recommend that it be amended as follows:

ASSEMBLY BILL NO. 3434

(FIRST REPRINT)

To the Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 3434 (First Reprint) without my approval.

This bill creates a new seven-member licensing board under the Division of Consumer Affairs in the Department of Law and Public Safety. This board will serve to advise the Director of the Division in matters relating to regulation of occupational therapy. Occupational therapists are not currently licensed by the State of New Jersey, although a great number of the occupational therapists practicing in New Jersey are certified by the national occupational therapy organization.

The bill defines occupational therapy as "the evaluation, planning and implementation of a program of purposeful activities to develop or maintain functional skills necessary to achieve the maximal physical or mental functioning, or both, of the individual in his daily occupation performance." Occupational therapy generally consists of task-oriented therapy designed to improve or maintain an individual's ability to function and work. Occupational therapists practice in a variety of settings, including hospitals and clinics, rehabilitation facilities, schools, sheltered workshops and public health services agencies.

There are numerous public policy issues surrounding State regulation of occupations and professions. Currently, there is a patchwork of licensing boards and professional regulation. Clear standards of consumer protection and competition are needed to guide decisions about whether certain occupations and professions should be regulated by the State and, if so, how that regulation should be structured. To accomplish this goal, I have asked the Attorney General to conduct a comprehensive review of professional and occupational regulation. Until that review is complete, I believe it would be unwise to further expand professional or occupational regulation or to create any new boards.

Occupational therapists perform a vital service and perhaps should be licensed by the State at some time in the future. However, it does not make sense to undertake licensure at this time until the issues surrounding State regulation of all occupations and professions have been resolved.

Accordingly, I herewith return Assembly Bill No. 3434 (First Reprint) without my approval.

Respectfully,
Governor

ASSEMBLY BILL No. 4932

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am herewith returning Assembly Bill No. 4932 without my approval.

This bill provides penalties for the transfer of gasoline to a vessel from a facility that is not equipped with a vapor recovery system. Vapor recovery systems are designed to contain the vapors which arise during transfers of gasoline because the vapors contribute to ozone pollution.

As a result of the court decision in *American Lung Association v. Kean*, 871 F.2d 319 (3rd Cir. 1989), the Department of Environmental Protection is requiring all marine terminal facilities which transfer gasoline to use vapor recovery systems. Facilities which fail to install appropriate equipment will be subject to fines and penalties.

This bill sets up the specific penalty schedule that the Department of Environmental Protection should use for facilities that have failed to install vapor recovery systems, defining a set of penalties for major facilities and a separate set of penalties for public storage terminals.

The intent of this legislation is to ensure that there is an appropriate balance between the economic productivity of the facilities and the important environmental benefits of the installation of the vapor recovery systems. While I share that goal, I believe that the assessment of penalties is the responsibility of the Department of Environmental Protection and of the Attorney General.

The normal process for imposing penalties provides sufficient flexibility to take into account the individual circumstances of affected parties. In fact, in this case, the normal process for imposing penalties has worked. As a result of negotiations, all of the affected facilities have entered into Administrative Consent Orders with the Department of Environmental Protection setting a schedule for installation of the equipment and payment of any fines and penalties.

Accordingly, I herewith return Assembly Bill No. 4932 without my approval.

Respectfully,
Governor

ASSEMBLY COMMITTEE SUBSTITUTE FOR
ASSEMBLY BILL NO. 3098 AND ASSEMBLY BILL NO. 416

(SECOND REPRINT)

To the Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I am returning Assembly Committee Substitute for Assembly Bill No. 3098 and Assembly Bill No. 416 (Second Reprint) with my objections for reconsideration.

This bill provides for the creation of a Site Improvement Advisory Board, in but not of the Department of Community Affairs, to recommend statewide site improvement standards. The Board would be composed of planners, developers, engineers and academics. The Board would base its recommendations on the "Model Subdivision and Site Plan Ordinance" prepared by the Center for Urban Policy Research at Rutgers University. The Board would be authorized to make recommendations that differ from the model ordinance, based on a similarly authoritative source. The Commissioner of the Department of Community Affairs must promulgate regulations in accordance with the recommendations of the Board. The regulations would supersede any site improvement standards incorporated within the development ordinances of any municipality.

The Commissioner of the Department of Community Affairs may, prior to promulgating regulations, veto any of the Board's recommendations if it would: (1) place an unfair economic burden on some municipalities or developers relative to others; or (2) result in a danger to the public health or safety. The bill also establishes a waiver process for municipalities to follow if the adopted standard is deemed to be inappropriate in a specific circumstance.

This implementation of uniform site improvement standards makes sense. Uniform standards can be helpful to ensure the health, safety and welfare of our citizens and can also provide consistency for developers. However, because these standards will serve as the basis for development statewide, they must be established with the highest level of technical expertise and public participation. Adding a member to the Board with an environmental and land use planning background and one from the Council on Affordable Housing will both broaden the perspective of the Board and ensure that all the recommended standards maintain the highest level of environmental protection and allow for the implementation of affordable housing. In addition, providing for public hearings before the adoption of the standards by the Board will ensure that all interested parties have input into the standards.

It needs to be made clear that the standards should provide the greatest amount of flexibility to allow municipalities to preserve

the unique local character that gives New Jersey the diversity and beauty which we value so highly. The Commissioner should have the authority to adopt, reject or return the standards recommended by the Board. The Commissioner was granted this authority in the Uniform Construction Code enabling legislation and he should be given the authority with respect to statewide site improvement standards. Also, the criteria for the Commissioner to reject or return a standard should clearly emphasize that the health, safety and welfare of the State are the determinant factors, not the economic burdens of the developers. Finally, the Board should not have override authority over the decision of the Commissioner.

Therefore, I herewith return Assembly Committee Substitute for Assembly Bill No. 3098 and Assembly Bill No. 416 and recommend that it be amended as follows:

Page 2, Section 3, Line 13: After "and" delete "10" insert "12"

ASSEMBLY COMMITTEE SUBSTITUTE FOR
ASSEMBLY BILL NOS. 3136 AND 312 ACS

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Committee Substitute for Assembly Bill Nos. 3136 and 312 with my objections for reconsideration.

Under existing State solid waste laws, the Board of Public Utilities (BPU) has broad authority to regulate the rates charged by private haulers for trash collection services provided in the State.

This committee substitute generally provides a strong framework for proceeding with the gradual deregulation of the solid waste collection industry in New Jersey.

Under the provisions of the committee substitute, the gradual phaseout of BPU ratesetting authority would be implemented through a four-year series of widening rate bands governing solid waste collector tariffs. After filing baseline tariffs with the BPU, trash haulers would then be free to vary their charges within these rate bands without being required to refile their tariffs with the Board. Based on a formula prescribed in the committee substitute, the rate band schedule would allow for sizable, cumulative downward or upward adjustments by the end of the four-year transition period.

At the same time, the BPU would retain certain administrative powers needed to police the solid waste marketplace after the deregulation process is completed. For example, the Board would still be empowered to review and block business mergers that could erode industry competition in specific geographic regions or service markets. Also, the BPU could impose temporary rate caps for trash collection services upon making a finding that the lack of effective competition in a region or market has resulted in excessive charges to customers.

These permanent safeguards will help ensure that trash haulers will never be allowed to engage in "price-gouging" actions at the expense of New Jersey households and businesses.

While I am enthusiastic about moving forward with deregulation of the solid waste collection industry and I strongly support most of the provisions of this committee substitute, I nonetheless believe this

legislation has several technical problems that must be resolved to ensure the effective implementation of the deregulation process.

Generally, the committee substitute lays out clear economic guidelines for deregulation of the collection industry. During the four-year transition period, hauler charging practices would be governed principally by the statutory rate bands. Following the transition period, the BPU could utilize a newly-defined "effective competition" standard to check any anti-competitive practices that have resulted in excessive charges to customers.

Within this framework, however, one provision of the committee substitute, section 6, represents a potential regulatory anomaly that could undermine the clarity, administrability and enforceability of the planned deregulation process. This section effectively creates a second, overlapping economic standard by authorizing the Board to order rate adjustments and even refunds in cases where solid waste collectors impose charges that exceed those rates that would result from "effective competition."

Unfortunately, the section 6 "effective competition" standard is not adequately defined in the bill. While the BPU is required under section 19 of this legislation to adopt rules defining a new "effective competition" standard, this rulemaking is not due to be completed until six months following enactment of the committee substitute. Also, other provisions of the committee substitute expressly limit the applicability of this standard to the post-transition period.

To address this key technical concern, I am proposing amendments that would clarify the "effective competition" standard to be employed by the BPU during the transition period. This standard would be identical to the "effective competition" standard that would apply during the post-transition period once deregulation of the collection industry has been completed.

Under this approach, the BPU would receive the clearcut authority to enforce this economic standard during the transition period, but this standard would be carefully defined by rulemaking to provide the regulated community with appropriate notice of the criteria and procedures to be employed by the Board in implementing the standard.

In a closely related provision, I am recommending a technical amendment to ensure that the BPU will apply consistent economic standards in reviewing initial uniform tariffs filed by new solid waste collectors and existing haulers seeking to expand their collection territories.

Another provision of the committee substitute, section 10, provides the BPU with the authority to review collector tariffs and rates and require refunds in cases where the rates charges are found to be "excessive." As this provision is currently worded, however, the scope of the Boards's authority to order collector refunds remains uncertain and subject to varying interpretation.

Accordingly, I am proposing a technical amendment to clarify that the BPU could order refunds in instances where customers have been charged rates that would not otherwise have been authorized by the rate band schedule contained in the committee substitute. This proposed amendment would protect New Jersey citizens from overcharging by trash haulers, while providing collectors with ample flexibility to make legitimate rate adjustments within the prescribed rate bands.

I am also recommending amendments to strengthen the committee substitute provision that authorizes the BPU to impose temporary rate caps under certain circumstances during the post-transition period.

Under current wording in the provision, the Board, after issuing a notice of its intent to review hauler rates, would have only 45 days to gather necessary information from haulers, conduct its technical review, and issue an order imposing temporary rate caps. I believe this time period is too restrictive and could hinder the Board's ability to make a careful, thorough determination on whether rate controls are needed to address marketplace aberrations in specific regions or service markets. As a reasonable alternative, I would recommend that the Board be given 60 days following the receipt of any requested information to make a final determination and issue any necessary rate control orders.

Also, I would propose a further modification to this provision to expand the range of technical factors the BPU could consider in making a rate control determination. I believe that some of the technical factors cited in the provision as extraneous considerations could potentially be germane to a Board determination assessing competition in a region or market. For example, hauler access to material recovery facilities, which can operate to cut trash disposal costs, could be a key determinant of competition within a particular geographic region.

Finally, I am recommending the modification of the current wording that provides for the automatic expiration of Board orders after a time period of six months. This amendment will help to ensure that temporary rate controls imposed by a Board order to protect New Jersey consumers from excessive charges may remain in effect in certain instances where the order is being adjudicated in a contested case.

For these reasons, I herewith return the Assembly Committee Substitute for Assembly Bill Nos. 3136 and 312 and recommend that it be amended as follows:

ASSEMBLY BILL NO. 3879 (SECOND REPRINT)

To the Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 3879 (Second Reprint) with my objections for reconsideration.

This bill amends various provisions under the State Banking Act which concern bank authority and operations. It permits banks to purchase, sell, underwrite, and otherwise deal in debt and equity securities to the extent allowed by any federal law or regulation. This parity provision applies not only to national banks, but also to banks chartered and doing business in other states. The bill also allows banks to establish and invest in subsidiaries which deal in debt and equity securities. A related provision would allow banks to deal with their affiliated investment companies in their fiduciary capacities without this being considered self-dealing. In addition, the bill permits bank employees to be liable to the bank for overdrafts against deposit accounts, removes the cap on the aggregate amount of educational loans that can be made to a bank officer, and permits banks to use new copying technology in reproducing its official documents.

While I support many of the provisions in this bill, I am concerned with provisions which would permit banks to purchase, sell, underwrite, and otherwise deal in debt and equity securities to the extent allowed by any federal law or regulation. These provisions represent a significant change in banking policy in this state, since they would allow banks to engage in securities transactions which can involve considerably more risk than is normally associated with banking operations. I am concerned that this bill will significantly change the banking climate in this State and may subject banking consumers to a higher degree of risk than they currently expect to encounter. In light of recent problems involving the banking industry, I believe that caution must be taken before significant changes in State banking regulation take place. If federal law is changed, we should then examine how to conform State banking law to the revised federal law.

I am also concerned with the provision which would allow banks to deal with their affiliated investment companies in their fiduciary capacities without this being considered self-dealing, particularly where funds invested may be below investment grade. In current practice, this problem may be avoided by obtaining consent, and I see no reason to alter this practice.

Therefore, I herewith return Assembly Bill No. 3879 (Second Reprint) and recommend that it be amended as follows:

Page 1, Section 1, Lines 7-39, Delete Section 1 in its entirety.

Assembly No. 5120, Assemblyman ROBERTS, Financial Institutions—Provides that TRAC leases be considered as true leases.

Assembly No. 5121, Assemblyman ROBERTS, Financial Institutions—Permits out-of-State depository institutions to purchase and operate in-State branches of financially distressed institutions.

Assembly No. 5122, Assemblyman ROMA, Labor—Increases emergency extended unemployment benefit period to 13 weeks.

Assembly No. 5123, Assemblyman DOYLE and Assemblywoman FORD, Judiciary, Law and Public Safety—Permits motor vehicle lessees to obtain certain special license plates.

Assembly No. 5124, Assemblyman ROMANO and Assemblywoman BUSH, Education—Provides corporation business tax credit for certain scientific equipment donations to local school districts in this State.

Assembly No. 5125, Assemblymen HAYTAIAN and DORIA, State Operations and Personnel—Supplemental appropriation of \$306,468 to the Apportionment Commission for outstanding obligations.

Assembly No. 5126, Assemblyman GARRETT, State Government—Establishes exemption from financial disclosure requirement of "Local Government Ethics Law" for small municipalities.

Assembly No. 5127, Assemblymen ROMANO, CHARLES, Doria, Kenny, Kronick and Imprevuduto, Appropriations—Appropriates \$11 million to the Department of Education for the State-operated Jersey City School District.

Assembly No. 5160, Assemblywoman MULLEN and Assemblyman BRYANT, Health and Human Services—Requires DOH to provide for audits of hospital financial reports.

Assembly No. 5161, Assemblymen OTLOWSKI and BRYANT, Health and Human Services—Requires hospitals to disclose financial relationships with for-profit subsidiaries.

Assembly No. 5162, Assemblymen DORIA and BRYANT, Health and Human Services—Requires hospitals to report annually to Commissioner of Health on monies received from private non-profit entities.

Assembly No. 5182, Assemblymen DORIA, ROCCO, Pascrell and Romano, Higher Education—Specifies criteria for tenure decisions made by public and independent colleges.

Assembly No. 5190, Assemblymen MC GREEVEY, SCHWARTZ, Doria, Mecca, Watson, Baker, Villapiano, Jacobson, Doyle, Kavanaugh, Spadoro, Cohen, Marsella, Assemblywoman Mullen, Assemblymen Roberts, Cimino, Assemblywoman Ford, Assemblymen Penn, Russo and Arnone, Housing—Authorizes tax exemptions on home improvements in any municipality where governing body, by ordinance, determines necessity thereof.

Assembly No. 5191, Assemblymen PASCRELL and MC GREEVEY, Education—Requires high school students to complete a program of community service as a condition of graduation.

Assembly No. 5196, Assemblymen KRONICK, IMPREVEDUTO, Romano, Charles, Doria and Kenny, without reference—Requires that AFDC recipients receiving emergency shelter assistance be housed in counties in which they reside.

Assembly No. 5209, Assemblymen BROWN, CHARLES, Pascrell, Impreveduto, Mattison, Assemblywoman Bush, Assemblymen Mazur, Baer, Bryant, McEnroe, Villapiano, Jacobson, Adubato, Watson, Assemblywoman Kalik, Assemblymen Doria and Kronick, State Government—Provides for registration of voters at the polls on days of municipal, primary and general elections and authorizes voters so registered to vote in the election.

Assembly No. 5211, Assemblymen BAKER, COHEN, Schwartz, Jacobson, Mazur, Baer, Solomon and Smith, Housing—Temporarily exempts landlords who offer reduced rentals to qualified refugees from certain landlord-tenant laws.

Assembly No. 5212, Assemblymen DORIA and ADUBATO, Insurance—Excludes certain medical malpractice premiums from formula for determining JUA debt assessment.

Assembly Resolution No. 322, Assemblyman BROWN, State Government—Memorializes Congress to reimpose economic sanctions on South Africa.

Assembly Resolution No. 323, Assemblymen PASCRELL and KENNY, Education—Urges Commissioner to assist local boards of education in further development of voluntary fingerprinting program.

Assembly Resolution No. 324, Assemblymen DORIA and HAY-TAIAN, without reference—Expresses opinion of the General Assembly that "State House/Annex Project" plans should include a cafeteria operated by individual selected by the N. J. Commission for the Blind and Visually Impaired.

Assembly Resolution No. 325, Assemblymen DORIA and HAY-TAIAN, without reference—Establishes Assembly Special Life and Health Insurance Investigation Committee.

Assembly Resolution No. 326, Assemblyman DOYLE, Assemblywoman FORD, Assemblymen Connors, Moran, Jacobson, Villapiano and Scerni, without reference—Memorializes Congress to approve legislation to repeal the luxury excise tax on boats.

Assembly Resolution No. 327, Assemblymen GILL, CASEY and Scerni, without reference—Memorializes President to sign emergency designation to provide funds for additional unemployment benefits.

On the motion of Mr. Bryant and adopted, the following bills and resolutions were given second reading by special order:

Assembly No. 5196 and Assembly Resolution Nos. 324, 325, 326 and 327.

Mr. Bryant moved that the General Assembly recess until 2:30 P.M.

Which motion was adopted.

The General Assembly reconvened at 3:38 P.M and upon calling the roll the following members answered the call and the Clerk declared a quorum present:

Aubato, Albohn, Arnone, Baer, Baker, Batten, Brown, Bryant, Bush, Casey, Catania, Charles, Cimino, Cohen, Colburn, Collins, Connors, Crecco, DeCroce, Deverin, Doria, Doyle, Duch, Farragher, Felice, Ford, Frelinghuysen, Garrett, Gill, Haytaian, Heck, Hudak, Impreveduto, Jacobson, Kalik, Kamin, Kavanaugh, Kelly, Kenny, Kronick, Kyrillos, Lance, LoBiondo, Marsella, Martin, Mattison, Mazur, McEnroe, McGreevey, Moran, Mullen, Naples, Ogden, Otlowski, Pascrell, Patero, Penn, Roberts, Rocco, Roma, Romano, Russo, Scerni, Schwartz, Shinn, Smith, J., Smith, R., Solomon, Spodoro, Stuhltrager, Vandervalk, Villapiano, Watson, Zecker—74

Mr. Albohn offered the following resolution:

Be It Resolved, That the General Assembly concur in the Senate amendments to Assembly No. 114.

Which was read by the Clerk and adopted by the following vote:

72 YEAS 0 NAYS

In the affirmative were:

Aubato, Albohn, Arnone, Baer, Baker, Batten, Brown, Bryant, Bush, Casey, Catania, Charles, Cimino, Cohen, Colburn, Collins, Connors, Crecco, DeCroce, Deverin, Doria, Doyle, Duch, Farragher, Felice, Ford, Frelinghuysen, Garrett, Gill, Haytaian, Heck, Hudak, Impreveduto, Jacobson, Kamin, Kavanaugh, Kelly, Kenny, Kronick, Kyrillos, Lance, LoBiondo, Marsella, Martin, Mattison, Mazur, McEnroe, McGreevey, Moran, Mullen, Naples, Ogden, Otlowski, Pascrell, Patero, Penn, Roberts, Rocco, Roma, Romano, Scerni, Schwartz, Shinn, Smith, J., Smith, R., Solomon, Spodoro, Stuhltrager, Vandervalk, Villapiano, Watson, Zecker—72

In the negative were:—0

Mr. DeCroce offered the following resolution:

Be It Resolved, That the General Assembly concur in the Senate amendments to Assembly No. 182.

Which was read by the Clerk and adopted by the following vote:

On the motion of Mr. Bryant and adopted, the following bills were given second reading by special order:

Senate Nos. 3671, 3672 and Senate Concurrent Resolution No. 142.

The Clerk read the following message from the Governor: (Assembly No. 2804 C/V)

Mr. Bryant moved that the message be spread in full upon the minutes.

Which motion was adopted.

To the Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 2804 with my objections for reconsideration.

This bill would grant immunity from a civil suit or an action brought under the Noise Control Act of 1971 to an owner of a handgun, rifle, shotgun, skeet shooting, or trapshooting range where the liability is based on noise resulting from the normal operation of the range. The immunity would not be available to any person causing damage by a willful, wanton, or grossly negligent act of commission or omission. Also, the immunity would apply only to the owner of a range that is located in this State and that has been maintained in the same location since December 31, 1983.

I understand the concerns behind this legislation. Firing ranges by necessity produce noise. Owners of those ranges therefore face potential liability from a civil suit alleging that the noise from the range is a nuisance. This liability can be imposed even if the plaintiff moved near the range years after the range opened and with full knowledge of the range's existence. Owners may also face enforcement action under the Noise Control Act.

The concerns that prompted this bill are legitimate. But I cannot sign the bill in its current form because it is written too broadly. The bill would apply to any range operated on the same site since December 31, 1983. This durational period should be lengthened so that the bill will only apply to ranges that have been operated continuously in the same place for a significant period of time. The more appropriate date is January 24, 1972, the date on which the Noise Control Act took effect.

For these reasons, I herewith return Assembly Bill No. 2804 and recommend that it be amended as follows:

Page One, Section 2, Line 30: Delete "subsection" insert "section"

Page One, Section 3, Line 33: After "apply" insert "only"

Page One, Section 3, Line 33: Delete "any" insert "a"

Page One, Section 3, Line 35: After "maintained" insert "continuously"

Page One, Section 3, Line 35: Delete "December 31, 1983" insert "January 24, 1972"

Respectfully,
Governor

Mr. Bryant offered the following resolution, which was read by the Clerk and adopted:

Resolved, That pursuant to Rule 158, the following Assembly bills, conditionally vetoed by the Governor, be and are hereby given first reading for the purpose of reenactment:

The Clerk read the following letter:

January 10, 1992

Gail Marsh Saxer

Clerk of the General Assembly

Dear Ms. Saxer:

Please be advised that, per Rule 2:9 of the Ethics Code, I will not participate in the vote on Assembly No. 5309 if it is considered by the General Assembly.

Among other things, that bill provides a sum of money to the staff of the Legislative Apportionment Commission. I am employed by one of the law firms which served as staff to the Commission. Although I did not participate in the Commission's work and although I am not a principal in the law firm, I wish to avoid even the appearance of a personal interest in this legislation.

Thank you,

Very truly yours,

Christopher J. Connors

Assemblyman, (D-9)

Pursuant to Rule 12, Mr. Bryant moved to recess from the regular session to convene in Special Session to consider the Governor's Conditional Vetos.

Which motion was adopted.

The Clerk read the following messages from the Governor:

Mr. Bryant moved that these messages be spread in full upon the minutes.

Which motion was adopted.

ASSEMBLY BILL NO. 684

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am herewith returning Assembly Bill No. 684 with my objections for reconsideration.

This bill requires the Chancellor of Higher Education to regulate the activities of campus organizations, such as fraternities and sororities, toward students in order to prevent injury and the potential abuse of students by these same organizations and their members. The legislation requires that each public and independent institution of higher education in the State ensure that any student who participates in pledging activities with a fraternity or sorority receives and signs a copy of the "Pledge's Bill of Rights" to be developed by the Chancellor.

The intent of this legislation is to eliminate dangerous hazing practices frequently engaged in by college fraternities and sororities by informing students of acceptable and unacceptable pledging activities. While I share that goal, I am concerned that this bill may be interpreted to limit the liability of fraternities and sororities, if students engage in potentially harmful pledge activities with the knowledge that they are prohibited. In addition, a signed pledge kept on file with a college or university may increase that institution's liability through its responsibility to act *in loco parentis*.

A preferable approach to accomplish the same important task of eliminating hazing and other dangerous practices is for the Chancellor of Higher Education to develop a "Pledges' Bill of Rights," outlining acceptable and unacceptable behavior by fraternities and sororities. The Chancellor should then make this code available to students and campus organizations.

Therefore, I herewith return Assembly Bill No. 684 and recommend that it be amended as follows:

Page 1, Section 4, Line 32: Delete "and signs"

Page 1, Section 4, Lines 33-34: Delete "The signed copy shall be kept on file by the institution in the Office of the Dean of Students."

Page 1, Section 6, Line 39: Delete "6." insert "5."

Jim Florio

ASSEMBLY COMMITTEE SUBSTITUTE FOR

ASSEMBLY BILL NOS. 3753 AND 1958

(First Reprint)

To the Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I am returning Assembly Committee Substitute for Assembly Bill Nos. 3753 and 1958 (First Reprint) with my objections for reconsideration.

This bill would increase the pension paid to the widow or widower of a member of the Police and Firemen's Retirement System (PFRS) who dies after retirement. The rate would increase from 35 percent of average final compensation to the rate of 50 percent of average final compensation. The bill would also increase the minimum annual pension currently payable to the widow or widower of all retired members of PFRS from \$1,600 to \$4,500 if the member retired on an accidental disability retirement allowance or died in active service as the result of an accident. In addition, the bill would extend this minimum annual pension to all widows and widowers of retirees of PFRS.

I am supportive of the purpose of this legislation, which is to ensure that widows and widowers of PFRS retirees receive adequate benefits and that the minimum amount received each year is sufficient. However, I am concerned that the cost of the enhanced benefits provided in this legislation be funded in a manner which both maintains the fiscal integrity of the pension fund and comports with prudent financial planning on behalf of the State. Accordingly, I am returning the bill with a recommendation that it be amended to allow the cost of this legislation to be funded as a part of the accrued liability of PFRS, rather than on an annual basis. This will allow the State to provide these needed and humane benefits to the deserving spouses of the deceased retirees of PFRS, while still managing the pension system according to accepted actuarial principles.

Therefore, I herewith return Assembly Committee Substitute for Assembly Bill Nos. 3753 and 1958 (First Reprint) and recommend that it be amended as follows:

Page 2, Section 2, After Line 20: Insert new section 3 as follows:

“3. The actuary for the Police and Firemen’s Retirement System shall determine for the valuation period of the retirement system in which this act takes effect the liability of the retirement system for the increased pension and pension adjustment benefits provided under this act for all participants of the retirement system as of the last day of the valuation period. This liability shall be added to the unfunded accrued liability of the retirement system and shall be paid by the State in the same manner and over the remaining time period provided for the State’s unfunded accrued liability under section 15 of P.L.1944, c.255 (C.43:16A-15). The actuary shall determine annually thereafter the liability of the retirement system for the increased pension and pension adjustment benefits provided under this act for new participants which shall be included in the normal contribution paid by the State. The State shall pay the cost of the actuarial work to determine the additional liabilities of the retirement system for the benefits under this act.”

GENERAL ASSEMBLY
REORGANIZATION MESSAGE

January 9, 1990

By Assembly Speaker Joseph V. Doria, Jr.

On behalf of my father, my wife and all of my family, I thank my Assembly colleagues for the trust and confidence they have bestowed upon me by electing me to lead them as Speaker of the New Jersey General Assembly. I am deeply touched, greatly honored, and more than a little awed by the responsibilities that go with this job.

As Chuck Hardwick, Alan Karcher, Chris Jackman and other speakers who proceeded me can surely attest, the gavel being passed on to me today not only represents responsibility—it represents opportunity.

The opportunity to help the people of New Jersey.

The opportunity to meet the challenges of the last decade of the 20th century.

The opportunity to guarantee that New Jersey and its people will grow and prosper in the 21st century.

When you grow up in a home of immigrant parents, you learn quite a bit about opportunity and responsibility. Sixty years ago, my father emigrated from Italy to this wonderful country—this land of opportunity—and took on the responsibility of earning a living and raising a family.

It's a special honor to have my father here with me today. You see, my father and my mother, who is the daughter of Italian immigrants, passed on to me their belief in the American dream. A dream that is symbolized by the Statue of Liberty and Ellis Island.

A dream shared by millions of other immigrants who made the difficult journey to America from so many other foreign lands.

These courageous and freedom-seeking people believed that America was the new Jerusalem. It was as our founding Pilgrim father William Bradford said, "A city upon a hill. A city where there is no injustice. A city where all men are equal and free to achieve the ultimate good."

These immigrants believed that the common man could be chosen to represent them as an elected official who would work for the common good.

They believed that the common man could be given the unique opportunity to fight for prejudice and intolerance and to establish, as Lincoln said, a "government of the people, by the people, and for the people."

I humbly stand before you today as a common man who is poised to make the dreams of my mother and father and their fellow immigrants a reality.

I take my title quite literally. As Speaker, I want to speak for the people, especially those whose voice it is difficult to hear—the poor, the hungry, the homeless—and others who have been disenfranchised by this society.

I want this House to truly be the House of the people.

We are Democrats and Republicans. We are often on opposite sides of an argument. We represent different constituencies. We hold different philosophies and we approach problems in different ways.

We are not always a harmonious lot..but there's nothing really wrong with that. It's healthy.

What matters is that we never forget that we are instruments of the people—chosen to do the people's business. We are the mirror of the aspirations and concerns of seven and a half million people of this proud and diverse state.

I look back on the past year and the past decade and marvel. Our world, in just a short time, has made magnificent progress.

In just one year, we saw the Berlin Wall come tumbling down. The changes have come so swiftly, it seems as though oppression and tyranny came crashing down like a misguided missile.

We've kept humans alive with mechanical hearts. We've used lasers to preform delicate surgery. We've wondered how it was possible to survive without fax machines an mobile phones.

As we enter a new decade and stand on the threshold of a new century, our world has become more advanced. Unfortunately, our problems have also become more complex.

The New Jersey General Assembly, working together with the Senate and with our new Governor, Jim Florio, will deal with these problems and, hopefully, solve them.

Astronomical auto insurance costs are making it impossible for many New Jerseyans to make ends meet.

We must solve this problem!

Our air, our water and other precious natural resources remained threatened by the garbage and toxic waste that we generate.

We must solve this problem!

Drugs have infiltrated our classrooms, as well as our boardrooms and back alleys.

We must solve this problem!

There are no safe havens from crime—it strikes without warning in our suburbs and in urban New Jersey.

We must solve this problem!

Soaring property taxes have stretched hard-earned income to the limit.

We must solve this problem!

Without quality education, there is no tomorrow. The leaders of the future are sitting in our classrooms. We must continue to do all that is necessary to provide every child in this state with the type of education he or she needs in order to become a leader in the 21st century.

This task is not easy; it is not cheap; but it is one we must dedicate ourselves to.

As a House of the people, we can make the changes necessary to solve these complex problems. As a House of the people, we can make laws that will help all of the citizens of this state.

As a House of the people, this Assembly will not be an arena of rancor and division.

Fairness is going to be the watchword of this house.

Fairness in that all members will be treated with courtesy and respect. Fairness in that all points of view will be heard and considered. Fairness in that we believe that no person or political party has a monopoly on good ideas. Fairness in that our objective is to do the people's business, and do it to the best of our ability.

This will not be an easy term, because these are not easy times. But, we cannot, for one moment, entertain any temptation to shrink from our obligations. Rather, we should welcome the opportunities and challenges stretching before us.

The true test of our success in serving all the people of New Jersey will be, as Hubert Humphrey so well pointed out, a test to determine how government treats those who are in the dawn of life, the children, and those who are in the shadow, the sick, the needy and the disabled."

These are the people who don't have a voice, who don't have lobbyists, whose only hope is that those who act on their behalf in Trenton care more about the people than they care about themselves.

As legislators, the people judge us not only by how we apply our wisdom and wield our power. They look inside to measure the tried and tested values—compassion, consideration and fairness.

As common people, let's embrace the dreams and ideals held by our ancestors who immigrated to this country, and held today by the people of Germany, Poland, Czechoslovakia, Romania..and China.

As common people, let us be true to ourselves and our ideals.

Let us follow the advice of Polonius to his son Laertes, "To thine own self be true, and it shall follow the day into night that thouast cannot be false to any other man."

If we are true to ourselves, we are true to the people.

Let's make government work for the people from Bayonne, to Blairstown, from Chatham to Camden, from Newark to Newton and from Jersey City to Jamesburgh.

Let's show that there are no limits to what we can do for the people who entrusted us with this responsibility and opportunity called the Assembly.

Thank you.
