11. Completion Status of Program (e.g. planning phase, application review, post-payment):

The NJEDA Board approved ACFSGPP and has committed \$5.12 million. During a six-week application period, a total of 20 applications were submitted. These applications were evaluated for completeness and eligibility, with 17 of them proceeding to the scoring phase. The scoring was based on criteria such as project description, work plan, organizational capacity, community engagement, and budget. Out of these, 15 applications met the minimum score requirement of 50 out of 100 points. Ultimately, 11 applications were approved for funding, totaling \$5.12 million. 10 grant agreements have been fully executed with the grantees receiving 50% of their total award amount.

Approval for the 11th application was terminated on February 12, 2026 due to the awardee no longer having site control. This project involved construction, and awardees with projects involving construction were required to provide evidence of site control for the duration of the grant

term. No grant agreement was executed and no funds were ever disbursed.

The program is now focused on the implementation and monitoring of the funded projects to ensure compliance and successful completion. The program's 10 grantees have met all quarterly progress and expenditure reporting requirements thus far. The grant term for the program is divided into seven reporting periods ("quarters"). The grantees have successfully submitted reports for five of those seven periods that reflect both the programmatic achievements to date as well as expenditures aligned with their respective grants.
