**NEW JERSEY STATISTICS OF INCOME**  
**2007 Income Tax Returns: Tax Filing Date April 15, 2008**

**INTRODUCTION**

This report contains individual gross income tax data for Tax Year 2007, complete through February, 2009. The statistics were based on the New Jersey Division of Taxation's Gross Income Tax file for Tax Year 2007, which contains records of the tax transactions in more than 4.46 Million individual gross income tax accounts.

The report includes data on resident and non-resident taxpayers. For Tax Year 2007 the total number of individual tax returns increased by 18,300 or 0.4%. Total gross income increased \$68.3 Billion, or 14.9%, from \$457.1 Billion to \$525.4 Billion. Total tax liability increased \$1.41Billion, or 13.4% from \$10.540 Billion to \$11.955 Billion.

In tax year 2007 the minimum filing threshold for married filing jointly, household heads and surviving spouses was \$20,000. It was \$10,000 for married filing separately and single filers. The amount of retirement income that can be excluded from gross income was \$20,000 for joint filers, \$10,000 for married filing separately filers, and \$15,000 for individual filers. The Property Tax Deduction/Credit program allowed eligible homeowners and tenants to deduct 100% of their property tax up to a limit of \$10,000 (minimum benefit \$50.00). For tenants 18% of rent due and paid during the year is deemed to be property taxes paid. For tax year 2007, this program resulted in a tax decrease of \$506.1 Million, down \$5.9 Million or 1.15% from Tax Year 2006. An Earned Income Tax Credit based on a percentage of the Federal credit went into effect in Tax Year 2000 for taxpayers with an eligible dependent and gross income under \$20,000. For Tax Year 2007, it was 20% of the Federal credit. Over 462,500 households claimed the credit for a total of \$186.5 million.

**Full Year Resident Filers**

In order to provide consistency across years for the maximum amount of data, most of the information in this report deals with tax returns filed by those who were residents of New Jersey for all of 2007. The number of these taxpayers increased by 111,421 (2.9%), from 2006 levels.

Both income and tax liability are highly concentrated. In Tax Year 2007, 82.5% of the tax payment came from 20.3% of the returns that reported at least \$100,000 in gross income. These returns accounted for 66.6% percent of all income reported. The 1.3% of taxpayers in the highest bracket with incomes over \$500,000 reported 24.9% of the income and paid 46.1% of the total tax. This group of 51,187 taxpayers (2007) had the strongest growth in filers (12.4%) and reported income (19.0%).

Total gross income increased by 8.0% to \$314.2 Billion, while total tax liability increased by 12.0% to \$10.2 Billion. Total taxes paid by taxpayers with incomes under \$100,000 increased by 2.2%. Total taxes paid by taxpayers with incomes between \$100,000 and \$500,000 increased by 9.3%. Total taxes paid by taxpayers reporting at least \$500,000 increased by 20.2%.

Wage income increased by 6.5% between 2006 and 2007. Net profits from business and distributive shares of partnership income increased by 3.1% and 20.1%, respectively. Income from Subchapter-S Corporations increased 2.2% and net capital gains income grew 21.0%. Interest income increased by 19.5% and dividend income increased by 14.9%.

This report is divided into 3 sections. Section 1 concerns itself with overall summary information. Section 2 is divided into 6 chapters that contain summary tables as well as tables of detailed aggregate statistics by size of income on full year resident income tax returns for the entire state. Chapter 5 breaks out the data by county. The state wide totals are slightly higher than those in chapters 1-4 because the data includes some returns that were not available when these earlier chapters were analyzed. Data from non-resident returns are presented in Chapter 6. Section 3 (Appendix) provides an explanation of the terms used in the tables, explains the filing requirements, and details the sources and limitations of the data. Internet links to the 2007 tax forms and instruction packets on the Division of Taxation website are included

### EXPLANATION OF TERMS, DATA SOURCES & LIMITATIONS

New Jersey Resident Return is a return filed by a resident of New Jersey, defined in the New Jersey Gross Income Tax Act as:

Resident Taxpayer means an individual:

1. Who is domiciled in this State, unless he maintains no permanent place of abode in this State; maintains a permanent place of abode elsewhere, and spends in the aggregate no more than 30 days of the taxable year in this State; or
2. Who is not domiciled in this State but maintains a permanent place of abode in this State and spends more than 183 days of the taxable year in this State, unless such individual is in the Armed Forces of the United States.

Full-year Return is a return covering the applicable tax year. All returns in this report, outside the summaries, are full year New Jersey Resident returns.

Part-Year Resident Return is a resident return other than full year.

New Jersey Total Income is the sum of the following four income types:

Employee Compensation is salaries, wages, tips, fees, commissions, bonuses and other remunerations received for services rendered whether in cash or in property.

Interest is all interest received except that on obligations issued by New Jersey or any political subdivision or instrumentality thereof, or obligations which are free from State or local taxation under New Jersey law or Federal law.

Dividends mean any distribution of earnings or profits by a business.

Other Income is income of the following types:

- (1) Net Profits from business.
- (2) Income from distribution of property (except as exempted).
- (3) Pension and annuity income except as exempted, to the extent proceeds exceed taxpayer contributions.
- (4) Income from rents, royalties, patents, and copyrights.
- (5) Gambling winnings.

- (6) Income from estates or trusts.
- (7) Income in respect of a decedent.
- (8) Distributive share of partnership income.
- (9) Alimony and separate maintenance (for the payee) but no child support payments.
- (10) Rental value of a residence furnished by an employer or rental allowance paid by an employer to provide a home.
- (11) Prizes and awards, except: scholarship and fellowship grants and New Jersey Lottery winnings.

Retirement Exclusion is allowed to taxpayers having at most \$100,000 gross income who are eligible for Social Security by reason of age (62 or more) or disability. It is of the following types.

- (1) Pension exclusion - eligible taxpayers are entitled to exclude the following amounts of pension from New Jersey Gross Income:
  - (a) Up to \$20,000 on a joint return
  - (b) Up to \$10,000 if married filing separately
  - (c) Up to \$15,000 if single, head of household, or qualifying widow(er).
- (2) An additional exclusion - eligible taxpayers having less than \$3,000 income from employee compensation, net profit from business and distributive share of partnership income are entitled to exempt additional income. The total exemption for (1) and (2) can be no more than the maximum amount mentioned in (1) for the appropriate filing status.
- (3) Extra exclusions - eligible taxpayers not receiving Social Security or Railroad Retirement benefits who would be receiving such if they were enrolled in the system and were the proper age are allowed an extra \$3,000 exemption from New Jersey Gross Income. (\$6,000 if married filing jointly.)

Excess Retirement Exclusion is the amount by which retirement exclusion exceeds Total Income. It is a balancing entry.

New Jersey Gross Income is New Jersey Total Income minus Retirement Exclusion, but not less than zero.

Exemptions Allowed are:

- (1) Regular Exemption for each taxpayer and one for the taxpayer's spouse who does not file separately.
- (2) Age Exemption for a taxpayer who is 65 years old or older and/or one for taxpayer's spouse who is 65 years old or older and who does not file separately.

- (4) Excess exempt deduct is the amount by which a taxpayer's exemption allowances and deductions exceed that taxpayer's gross income. It is a balancing entry generated only in this report. Taxable returns with excess exempt deduct had entered liability less than rounded tolerance.

## **DATA SOURCES**

Data in this report were based on the Division of Taxation Gross Income Tax File for return year 2005, which contained records of the tax transactions of individual income taxpayers. This Individual Master File reflected any correction made during revenue processing or any taxpayer or Division of Taxation initiated changes made prior to March 1, 2007 when the computer tape file used for this report was created.

## **DATA LIMITATIONS**

The accuracy of the data was affected by any taxpayer reporting errors, as well as any errors introduced in processing the data even though efforts were made throughout the revenue processing system to eliminate such errors.

A preliminary check of the tax return data was performed by tax examiners prior to transcribing the return to computer tape. For instance, if the taxpayer forgot to enter on the return total wages shown on Form W-2, the tax examiner entered this figure onto the return.

After a return record was first transcribed and entered onto tape, but before it was posted to the Individual Master File (IMF), it was subjected to validity and mathematical verification tests. The validity tests were a series of checks on the internal consistency of the return records. As examples, if an amount was shown for refund, but none for withholding; if tax withholding was greater than total wages; or if the number of exemptions claimed was inconsistent with the marital status or number of taxpayer names shown--then the return record was considered invalid and was read out for comparison with the return and correction.

If it could not be corrected, correspondence with the taxpayer was initiated. Once the discrepancy was resolved, the corrected data was entered onto the IMF.

Mathematical verification involved a recomputation of tax liability in order to verify balance due or refund requested on the basis of the income, marital status, deduction, and exemption data given by the taxpayer. If the recomputed tax liability differed from that indicated on the return record, the record was also read out for correction or for correspondence with the taxpayer. Corrections made by the tax examiners during examination of the return or as a result of the validity or mathematical verification test are reflected in the tabulations.
