SUBCHAPTER 1. DESIGNATED ROUTES FOR  
DOUBLE-TRAILER TRUCK  
COMBINATIONS AND 102-INCH  
STANDARD TRUCKS

## 16:32-1.1 Definitions

The following words and terms, when used in this subchapter, shall have the following meanings, unless the context clearly indicates otherwise.

“Double-trailer truck combination” means a truck tractor-semitrailer-trailer combination, and which meets the equipment length requirement as set forth in N.J.S.A. 39:3-84 and 23 CFR 658.13.

“Household goods carrier” means a vehicle being used to transport household goods and effects to or from a private residence or to or from a place of storage.

“102-inch standard truck” means a truck greater than 96 inches but not greater than 102 inches in width, exclusive of mirrors and other safety devices, and which meets the equipment length requirements as set forth in N.J.S.A. 39:3-84(3) and (4), as amended.

“Terminal” means any location where freight originates, terminates, or is handled in the transportation process and, when serviced by twin trailers, includes sufficient off-street area for ingress, egress, drop off or pick up and maneuvering of twin trailer combinations. Additionally, a motor carrier operating facility, a distribution center, or a rail, waterborne, or air terminal shall be considered the same as a terminal.

## 16:32-1.2 General provisions

(a) Double-trailer truck combinations and 102-inch standard trucks are permitted to operate in New Jersey only to the extent and under the conditions authorized by the rules in this chapter.

(b) For purposes of clarity, these rules do not supersede other State regulations, municipal ordinances and county resolutions which may otherwise restrict or control the movements of trucks or other vehicles. An example of such a restriction is a maximum weight posting.

(c) The maximum width permitted on the routes designated in N.J.A.C. 16:32-1.3 and N.J.A.C. 16:32-1.5(c) is 102 inches, exclusive of mirrors and other safety devices.

16:32-1.3 Designated routes for double-trailer truck  
combinations

(a) Except as provided in N.J.A.C. 16:32-1.5, Reasonable access to terminals and other facilities, double-trailer truck combinations may be operated in New Jersey only on the following routes;

1. Interstate highways;
2. New Jersey Turnpike;
3. Atlantic City Expressway;
4. Route 42, from Interstate Route 295 to the Atlantic City Expressway;
5. Route 81;
6. Route 130, from Route 322 at Bridgeport to Interstate Route 295;
7. Route 322, from the Commodore Barry Bridge to Route 130; and
8. Route 440, from the New Jersey Turnpike to Outerbridge Crossing.

(b) Double-trailer truck combinations operating on the New Jersey Turnpike and the Atlantic City Expressway are subject to the regulations of the New Jersey Turnpike Authority and the South Jersey Transportation Authority, respectively.

(c) Notwithstanding any other provisions of this chapter, double-trailer truck combinations shall enter and exit this State only on those specific routes designated for double-trailer truck combinations as authorized in this section.

#### 16:32-1.4 Designated through routes for 102-inch standard trucks

(a) The following routes are designated as through routes for 102-inch standard trucks. 102-inch standard trucks may travel freely for all purposes on these routes:

1. All State and Interstate highway routes with the exception of those listed under Appendix A, incorporated herein by reference;
2. All county "500" series roads with the exception of those listed under Appendix B, incorporated herein by reference;
3. Those county "600" series roads listed under Appendix C, incorporated herein by reference; and
4. The New Jersey Turnpike, the Atlantic City Expressway and the Garden State Parkway south of Exit 105. Use of these routes is subject to the regulation of the New Jersey Turnpike Authority, the South Jersey Transportation Authority and the New Jersey Highway Authority, respectively.

(b) The routes as outlined in (a) above were selected on the basis of the following criteria:

1. They are State and Interstate highways, county "500" series roads or, in limited cases, county "600" series roads;

2. They connect at both ends with other through routes (although spur routes are possible for geographic or other reasons);

3. They have travel lane widths of 11 feet or greater for 90 percent or more of the segment length. For purposes of this rule, lanes which are only 10 feet wide are counted as 11 feet wide when located on four-lane divided highways with shoulders;

4. Within rural areas, as established by the Federal Highway Administration under the Federal-Aid Highway Program Manual, Volume 4, Chapter 6, Section 3, they may have 10-foot lane widths with an 8-foot shoulder for 90 percent or more of the segment length; and

5. The general criteria within this subsection may be superseded in particular instances by determinations made on the basis of engineering judgment.

(c) Designation of any route in this chapter as a through route for 102-inch standard trucks is a designation which pertains to permissible widths only. Such designation does not always guarantee free movement of all 102-inch standard vehicles. Some 102-inch standard vehicle movements may be restricted on a route because of route or bridge weight restrictions and/or vertical clearance restrictions.

(d) 102-inch standard trucks may be permitted to detour off the authorized routes only to the extent necessary to bypass road closings, and route restrictions such as weight or vertical clearance limits. 102-inch standard trucks shall return to the designated network as soon as practicable during a detour movement.

(e) Notwithstanding any other provisions of this chapter, 102-inch standard trucks shall enter and exit the State only on those specific routes designated for 102-inch standard trucks as authorized in this section.

#### 16:32-1.5 Reasonable access to terminals and other facilities

(a) Any person or terminal operator seeking reasonable access for double-trailer truck combinations, or other STAA authorized vehicles as defined in 23 CFR Part 658.5 and 658.13, or trucks wider than 96 inches but not more than 102 inches in width, from the system designated in N.J.A.C. 16:32-1.3, may do so by utilizing the route system as designated in N.J.A.C. 16:32-1.4, excluding the Garden State Parkway.

(b) Access from a designated route to a terminal should avoid areas considered residential as defined in N.J.S.A. 39:1-1 et seq.

(c) A double-trailer truck combination is permitted access from the system designated in N.J.A.C. 16:32-1.3 to facilities providing food, fuel, repairs and rest, within one mile roadway distance from the designated system except upon those roads, highways, streets, public alleys or other thoroughfares which cannot safely accommodate a double-trailer truck combination and are so designated by the Department.

(d) Unless otherwise prohibited, 102-inch standard trucks are permitted to travel up to two roadway miles from any through route designated in N.J.A.C. 16:32-1.4 for purposes of pickup and delivery and for access to facilities providing food, fuel, repairs and rest, except upon those roads, highways, streets, public alleys or other public thoroughfares which cannot safely accommodate a truck wider than 96 inches and are so designated by the Department. Truck movements which are made under the authority of this subsection must conform to all other State regulations and to any local "truck route" restrictions which have been adopted and posted as provided in N.J.S.A. 40:67-16.1 et seq.

(e) Unless otherwise prohibited as provided in (d) above, 102-inch standard trucks in the following categories are permitted free access to points of loading and unloading:

1. Household goods carriers; and
2. Truck tractor-semitrailer combinations in which the semitrailer has a length not to exceed 28½ feet and which generally operates as part of a double-trailer truck combination.

#### 16:32-1.6 Reasonable access system review process

(a) The Department anticipates that from time to time requests for additions to the reasonable access system will be made. These requests will be investigated by taking into consideration items including, but not limited to:

1. Sight distance at intersections;
2. Traffic volumes;
3. Roadway geometrics;
4. Roadside development or environment;
5. Accident records;
6. The use of the route by other trucks to date; and
7. Alternate routings.

(b) Approval or denial of such requests will be issued based upon those criteria contained in N.J.A.C. 16:32-1.7.

(c) The Department will respond to requests for additions to the reasonable access system within 90 days of receipt of same. If the Department fails to respond to a request within the aforementioned 90 day period, approval for such request shall be deemed automatic.

(d) Requests should be sent to the Manager, Bureau of Traffic Engineering and Safety Programs New Jersey Department of Transportation, CN 613, 1035 Parkway Avenue, Trenton, New Jersey 08625. They should be specific as to the exact route or routes of access being requested.

#### 16:32-1.7 Addition and deletion of through routes

(a) The Department anticipates that from time to time routes will be added to and deleted from the system of authorized routes set forth in N.J.A.C. 16:32-1.4. Additions and deletions will be proposed by the Department as amendments to these rules and will be based on:

1. Revised information on the geometric characteristics of specific roadways;
2. Roadway improvements;
3. Engineering investigations;
4. The need for suitable and adequate routes for through movements and access to points of loading and unloading;
5. Demonstrated safety problems;
6. Public comment;
7. The operating characteristics of 102-inch standard trucks; and
8. Any other factors the Department feels are relevant.

(b) The Department encourages interested parties to submit proposals for additions and deletions to the system. Submissions should be made in writing to the Manager, Bureau of Transportation Data Development, New Jersey Department of Transportation, 1035 Parkway Avenue, CN 600, Trenton, New Jersey 08625. Submissions should be as specific as possible in regard to:

1. Identification of routes proposed for addition or deletion;
2. Information bearing on the criteria for review set forth in (a) above; and
3. Any other information that the party making the submission believes will be helpful to the Department in reviewing the proposed addition or deletion.

(c) Routes may be proposed for addition or deletion regardless of whether the roadway is under the jurisdiction of the State, a county, a municipality or an independent authority. The Department will review every submission made under this subsection and will determine whether or not to propose any amendment to the rules based on that submission. The Department will notify the party making the submission of its determination. The Department's determination will be made on the written record only and will be final.

(d) This section is in addition to the provisions of N.J.S.A. 52:14B-4(f) and N.J.A.C. 1:30-3.6, which entitle an interested person to petition the agency for a rule.

16:32-1.8 Maps

(a) The Department may, from time to time, prepare and distribute maps and graphic depictions of the designated through truck network. Any map or graphic depiction so prepared shall not be considered a regulatory description of the designated through truck network superseding or in lieu of the textual descriptions adopted in this chapter.

(b) Subject to their availability, maps and graphic depictions of the 102-inch standard truck designated through network may be obtained for a charge of \$5.00 each from the Department. Requests should be submitted to the Manager, Bureau of Transportation Data Development, 1035 Parkway Avenue, CN 600, Trenton, New Jersey 08625. Payments should be made to the New Jersey Department of Transportation.
