Aviation Department - Traffic Statistics

Doug Wilson
John Cuneo

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily)" refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Despite 1 less day this February than last, regional passenger traffic rose 5.4, led by JFK at +10.6% growth. Freight dropped (1.7%), but adjusting for leap year, one can say that freight more than held its own.
