WELCOMING REMARKS OF CHAIRMAN

Chairman Lavery welcomed those persons whose identities are set forth hereinabove under "Appearances".

INTRODUCE ANY COMMENTS FROM THE PUBLIC

Chairman Lavery addressed the meeting and invited any comments from the public on items pertaining to today's Agenda. No questions were presented.

EXECUTIVE DIRECTORS REPORT

Joseph Resta, Executive Director, addressed the meeting and said;

"Thank you, Mr. Chairman, my comments today involve resolutions on today's agenda.

"The year-end Delaware River Joint Toll Bridge Commission Meeting has traditionally been the month in which Commissioners establish an operating budget for the coming year and a capital plan for the coming two years. Although there have been times in the past where the respective budgets have not been in place at the start of the fiscal year in January, 2019 will not be one of those years;

"Despite the turmoil and polarization of many areas of government at the federal, state, and local levels, our Bridge Commissioners seem to find a way, when others cannot, to thoroughly review lengthy and sometimes complex material to reach

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

Meeting of December 17, 2018

consensus and craft both an operating budget and capital plan that can be passed in time for the New Year. This process is a testament to Commissioner's dedication to public service and an acknowledgement that even though we can have our differences, we put aside those differences to fulfill our mission to the traveling public;

"The DRJTBC's Operating Budget for 2019 of over \$72 million dollars supports all of our operational activities such as: clearing our roadways and bridges of snow and ice in winter, maintaining our sections of highway, providing security monitoring at all of our locations, landscaping our properties along the 140 mile of Commission jurisdiction along the Delaware River, training and providing wages and benefits for all employees, and countless other tasks to facilitate safe and efficient crossing for cars, truck, motorcycles, bicycles, and pedestrians across our 20 main river bridges;

"The two-year 2019-2020 Capital Plan provides over \$362 million dollars to support the Commission's capital projects to keep all of our facilities in a good state of repair, provide renewal of our antique stock of bridges, and in the case of the Scudder Falls Bridge, provide replacement as that bridge is reaching the end of its useful life. 2019 will be an extremely busy year as the Scudder Falls Bridge Replacement Project reaches the completion of Phase 1 activities and the commencement of all-electronic tolling; the administration building, adaptive re-use of the 1799 house and Park & Ride facility open for operation, and the Southern Operations and Maintenance Facilities projects get underway at our Morrisville and Langhorne site, supported by a resolution for the real estate acquisition on today's agenda;

"So to the Commissioners from all staff at the DRJTBC, we say a heartfelt thank you, Happy Holidays, and Happy New Year. And to our motoring public, we say please drive safely, we'll always keep the bridges clear, and you'll always be able to get to where you're going;

"Mr. Chairman, this concludes my report".

INVITE ANY COMMENTS FROM THE PUBLIC

Chairman Lavery invited any Comments from the public.

Kathleen Dieal, Mill Hill Resident from Trenton NJ, addressed the meeting and said;

“Good morning. My name is Kathleen Dieal. I live at 19 Greenwood Avenue in the Mill Hill section of Trenton. I appreciate you hearing from me today. I have started a petition in Mill Hill to do a noise study and remediation plan for the traffic that comes across your property adjacent to the Mill Hill section of Trenton. My back door is 30 feet from your highway. So I have downloaded an app on my phone from OSHA. I know it is not scientific to the Nth degree, but I regularly get decibel levels over a hundred inside my house on a daily basis and I'm asking permission to do a noise and air pollution study of that section of Mill Hill. I have 46 signatures from other residents that I collected in the past 24 hours and I will be continuing to circulate the petition from Mill Hill to see if I can get additional support for that.”

Commissioner Janvey addressed the meeting and asked Ms Dieal Where Mill Hill is located

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

Meeting of December 17, 2018

Ms. Dieal then said:

"Mill Hill is between the Trenton Route One Bridge and Market Street. It is adjacent to your property and then it moves all the way to Mill Hill Park which is at Front Street and then it also borders Broad Street and Stockton, so it is a ten-block community in a historic district. The majority of the households were built before 1900 and it has historical significance is where George Washington defeated the Hessians. I don't know if anybody is planning to attend Patriots Week that's in the city, but it's a significant neighborhood."

Chairman Lavery addressed the meeting and asked if she has noticed an increase in traffic or noise?

Ms. Dieal then said:

"I have. According to your own engineer's report that I've checked out on-line, there is an additional two million cars per year traversing that area since I bought my home in 2013."

Vice Chairman Ahmad then asked if when she bought the property in 2013, what was it like for you then?

Ms. Dieal then said:

"Obviously, when I had my home -- my open house that I attended, it was on a Sunday, so the traffic pattern was different on the weekend when I did my walk through and things like that. But after I moved in, there was definitely a notice of noise, but it has increased. There is a significant amount of large trucks that use Jake brakes on that section of the highway. When the Jake brakes occur, the house shakes tremendously. And I know that's been a complaint of several members of our community I repair cracks in the walls in the seams in my house regularly. I have spoken to Mr. Little previously who was able to fix a guardrail that was on Converse Alley which is adjacent to my house and he was very helpful in getting that repaired. I also have a retaining wall behind my house that is I believe on the Bridge Commission's property and he has shored up the retention wall because of the fact it is starting to buckle from the vibrations and from the higher end. So there has been communication with Mr. Little and the engineering team here, so I'm just asking for additional study and remediation plan from the Commission."

Chairman Lavery then invited any further comments from the public.

The Delaware River Joint Toll Bridge Commission (Commission) established an IBE Program (MBE/WBE/SBE/DBE/DsBE/VBE) with a target of 25% for all Professional Services and Construction contracts awarded by the Commission effective July 1, 2014. To date, the Commission has awarded forty-nine (49) contracts, with the IBE Program requirements. Currently, there are 31 active contracts and 17 contracts that have been completed and archived.

Elation Systems

The Commission began using Elation Systems effective January 2017, as the online system for Payment Verification and Certified Payroll Reporting (CPR). All contracts awarded by the Commission to a Prime Consultant/Prime Contractor and their Subconsultants and Subcontractors use this service free of charge. Online training is available to vendors on how to use Elation Systems. The Contract Compliance Department and Elation Support Staff are available to assist all users.

The Contract Compliance Department (CCD) monitors, posts and reports data in regards to all payments. The CCD also reviews all Certified Payrolls submitted into Elation Systems.

The following are all mandatory requirements:

Company On-Line Registration:

- i. All Primes must register their company and activate an account in Elation Systems; *and*
- ii. All Primes must also ensure that all Subconsultants and Subcontractors register their company and activate an account in Elation Systems.

Payment Verification:

- i. Prime Contractors must post all payments to their Subconsultants and/or Subcontractors in Elation Systems; *and*
- ii. Prime Contractors and their Subconsultants and/or Subcontractors must confirm all payments received in Elation Systems.

Certified Payroll Reporting:

- i. All Prime Contractors are responsible for assigning someone from their staff with the responsibility to review, approve, and upload their CPR(s) on a weekly basis into Elation Systems; *and*
- ii. All Prime Contractors must also ensure that their Subcontractors upload their CPR(s) on a weekly basis into Elation Systems.

Prime Consultants / Contractors IBE Target performance will be displayed / available on the Commission's public website.

Elation Produced Reports

The following documents present a set of charts that depict a summary of payments for active and completed contracts since the inception of the IBE program. These charts are followed by pie charts that show the distribution of payments by their IBE certification type.

The following spreadsheets include payment data for both Professional and Construction Contracts that are active and/or completed.

The Workforce Utilization pie charts illustrate the hours worked and ethnicity. The attached Workforce Utilization spreadsheet provides detailed data on the trade, ethnicity, and gender of each construction project.

Lastly, the Minority, Women, and Small Business Enterprise charts show the progress of all Professional and Construction Contracts relevant to the MWSBE Program.

MINORITY, WOMEN AND SMALL BUSINESS ENTERPRISE PROGRAM OVERVIEW

The Delaware River Joint Toll Bridge Commission implemented a one-year Minority Business Enterprise (MBE) pilot program, with a 7% participation goal, and the Women Business Enterprise (WBE) pilot program with a 3% goal. These goals applied to consultants and contractors' participating in the Commission's Capital Program and were effective on September 1, 2008.

At its December 2008 Commission Meeting, the Commission revised the pilot program to specify a 25% Small Business Enterprise (SBE) goal to New Jersey assigned consultant contracts in lieu of the previously specified 7% MBE and 3% WBE goals.

At its December 2010 Commission Meeting, due to the success of the Commission's MWSBE Pilot Program, the Delaware River Joint Toll Bridge Commission adopted a resolution for permanent status of the Minority Business Enterprise (MBE) program, with a 7% participation goal, and the Women Business Enterprise (WBE) program with a 3% goal, and the Small Business Enterprise (SBE) program with a 25% goal. These goals apply to consultants and contractors' participating in the Commission's Capital Program.

The Contract Compliance Department continues to monitor, update and analyze the payments for the MWSBE diversity program.

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

Meeting of December 17, 2018

COMMUNICATIONS REPORT

November 2018

- **COMMISSION AWARENESS EFFORTS:**

I-78 Bridges and Approach Slabs Rehabilitation Project – Provided interviews and background on the approaching end of the 18-month-long I-78 Bridges and Approach Slabs Rehabilitation Project to reporters at the Express-Times/Lehigh Valley Live and WRNJ-AM. This closes out the public awareness and public involvement aspects of this project, which involved numerous lane closures and several weekend-long single-lane travel configurations. The coverage reinforces how the Commission is using toll revenues to upgrade its regional transportation network.

Public Awareness for Downstream Roundabout at I-295/NJ Route 29 Interchange – As a result of weather-related postponements, the opening of the downstream roundabout at the I-295/NJ Route 29 interchange was postponed from October into November. Public awareness and education efforts conducted in October were carried over into November, including additional press releases and social media postings.

2017 Annual Report – Completed article drafting for the annual report. This means the product preparations can now move into final editing and design in the month of December with the collection photographs and production of graphics. As has been the case in recent years, this will be a strictly online product. The traditional corresponding content materials – audit, bridge inspections report, and traffic engineering report – area all live on the website.

Scudder Falls Bridge Replacement Project Website Redesign – Completed fine-tuning efforts for the Scudder Falls Bridge Replacement Project's redesigned website, which went public in early October 4. The fine tuning included the locating and posting of project press releases that were not carried over from the prior project website. Another corrective measure involved the prior gallery of project photographs that were voluminous, disjointed and not easily viewed. Instead, a new visuals link was created, consisting of the content already files in the construction progress section. The mis-classification of short alert messages as news items also was corrected and a better methodology for updating weekly travel advisory listing in the construction section also was achieved.

- **MEDIA RELATIONS:**

Hot Topics: Scudder Falls Bridge Replacement Project weekly travel updates; Lower Trenton Bridge's "Trenton Makes" sign figures in article marking Trenton's 228th anniversary as New Jersey's capital; Scudder Falls' transparent noise barriers; Commission personnel report woman tied up in Easton park, but it turned out to be an art photo session; roundabout to open Nov. 4; old tokens are from 1970 not 1934; canal towpaths near Scudder Falls

bridge to close on weekdays starting Nov. 27; weekend lane closures in vicinity of Woodside/Taylorsville roads intersection; I-78 construction nears end; Frenchtown welcomes visitors for holiday event; multi-vehicle crash shutter I-80; winter comes early for Lehigh Valley; Thanksgiving off with Two-Town Turkey Trot in New Hope and Lambertville; post-storm commute: Lanta running, airport open, I-78 clearing up; Solebury supervisors okay apartments at Centre Bridge; marathoners to carry Army-Navy game ball across New Hope-Lambertville Toll Bridge traffic control urgent in Washington Crossing area.

- **COMMUNITY AFFAIRS:** (Please refer to Community Affairs report)
Worked with Community Affairs Director Jodee Inscho on the following items:
 - Edited the summer/fall newsletter.
- **E-ZPASS:** Received a heads-up from McCormick Taylor executive Bill Capone regarding outdated E-ZPass service area description and map on Commission and Scudder Falls pages. Turns out the maps and information also are out-of-date on the NJ E-ZPass Group website – the Commission’s back-office E-ZPass service provider and – and the Pennsylvania Turnpike.
 - Contacted E-ZPass IAG to request updated service area map; received short-term PDF to be used until high-rez JPG version can be provided.
 - Alerted New Jersey Turnpike to outdated information on the NJ E-ZPass Group website, which is linked from both the Commission and Scudder Falls websites.

INTERNAL/EXTERNAL COMMUNICATIONS

- The Commission website recorded 11,017 sessions (visits) in November. This reflects a decrease from October when 12,482 sessions, but an increase over November 2017 when there were 9,572 sessions.
- Issued 14 press releases/travel advisories in November. These were for either the Scudder Falls Bridge Replacement Project or the I-78 Bridges and Approach Slabs Rehabilitation Project.
- Participated in radio interview for Joyce Estey of WRNJ on I-78 project.
- Posted various travel alert tickers atop the DRJTBC website.
- Fielded inquiry from NJ Motion Picture & Television Commission representative about potential use of Lower Trenton Bridge for overnight television production in December. Subsequently contacted by Josh Dorn, location manager for TV production firm Silvercup Studios East. Received tentative okay from executive director and deputy executive director of operations that overnight filming may be possible, but the firm would need to file a use of facilities permit, meet the Commission’s insurance requires, coordinate with all local and state entities, provide road closure and detour services, and reimbursement for any Commission costs that may arise. Coordinated UOF process with Lendell Jones, Gwen Flynn, Arne Larsen, and Arnie Conoline.
- Updated various online detour maps for the Scudder Falls Bridges Replacement Project website.

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

Meeting of December 17, 2018

- Drafted and relayed detailed responses to various public inquires on the Scudder Falls Bridge Replacement Project as part of the ongoing public involvement program; these ostensibly involved tolling and the late pickup of overnight construction zone on the morning of Nov. 14 (multiple inquires).
- Worked with McCormick Taylor and Stokes Creative Group in identifying missing press releases and ensuring the integrity of the new Scudder Falls project website's newsroom content; the redesigned website was missing press releases and/or had them wrongly classified.
- Responded to motorist Arthur Kirikian regarding loose bridge joints on New Jersey approach structure to the Scudder Falls Bridge.
- Continued the practice of posting Scudder Falls travel advisories and other traffic notices on local Facebook pages for Ewing, Lower Makefield, Pennington-Hopewell as well as providing to individuals who post items in Newtown and Yardley, PA.
- Updated the Delaware River Crossings content entry for the New Jersey Legislative Manual.
- Conducted interviews with various individuals directly involved with – or who knowledge of – the Commission's 1984-87 compact changes. These included a former New Jersey transportation commissioner, the chief of staff to the NJDOT, an associate of former New Jersey Congressman Robert Roe, and a former colleague of Commission special counsel David J. Goldberg.
- Uploaded and posted various new content (detour maps, progress presentations) on the Scudder Falls website.
- Posted alerts on DRJTBC and Scudder Falls websites advising motorists of start of toll collections at the new bridge and urging them to get E-ZPass.
- Attended various budget review conference calls.
- Organized and participated in meeting to discuss logistics/permission for overnight CBS-Elementary program taping at Lower Trenton Bridge in early-to-mid December.
- Participated in conference call on status update/issue identification for Scudder Falls Bridge Replacement Project public involvement program.
- Reached out to Jay Watson regarding status of proposed D&R Canal towpath connection route through Commission's Bridge and New Warren streets intersection in Trenton.
- Formatted two Scudder Falls project progress presentations for posting on website.
- Posted winter storm alert ticker on Commission website.
- Reviewed and corrected updated Commission service area map submitted by media consultant Alex Styer of Bellevue Communications; finalized the map for use in new pocket folder order for Contract Compliance Department.
- Compiled and provided various example of use of Commission's motto – Preserving Our Past, Enhancing Our Future – to Teresa Dandridge, intellectual property assistant for law firm Stradley Ronon.
- Provided NJDOT, PennDOT, and local municipal contacts to Josh Dorn of Silvercup Studios Inc.
- Publicized via media outlets and social media platforms the November 27 start of weekday closures of canal towpaths in the Scudder Falls Bridge vicinity; towpaths closures are scheduled to continue into Dec. 14.

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION
Meeting of December 17, 2018

- Conducted phone interview with author Rinker Buck, whose best-seller non-fiction book *The Oregon Trail* includes an item on how his father managed to move horses and a cart across the New Hope-Lambertville Bridge. This will be used for a brief 2018 annual report item on the 60th-anniversary of this unique crossing.
- Intercepted incorrect Bellevue Communications invoice and, working with Mary Linton in engineering and Dina Davis in accounting, facilitated resubmission of a revised – and correct – invoice.
- Worked with website services consultant Stokes Creative Group to revise and report the Commission's interactive bridge crossings map on the agency website. A concerned party – Yosen Momma – alerted us to the fact that the interactive map on the website was inoperable. Stokes director Matt Touhey determined that the map plugin was no longer being supported by Google. This was subsequently corrected.
- Provided electronic photographic file of repelling bridge inspector at Easton-Phillipsburg Toll Bridge to engineering department for use in upcoming presentation.
- Updated the About the Commission entries on the website to provide a correct number for the agency's fulltime workforce; confirmed with human resources.
- Provided written responses to contact portal inquiries on website's interactive map and the definition and background of "toll-supported" bridges.
- Responded to former NJDOT employee inquiries regarding photographs of 1955 flooded bridge locations.
- Provided photograph of blue-yellow lighting display on Trenton Makes sign to College of New Jersey student working on webpage documenting the college's Trenton roots.
- Provided Senior Director of Public Safety & Bridge Security Matt Hartigan with detour maps and other materials related to overnight TV-taping closure of the Lower Trenton Bridge in early to-mid December; provided taping set-up and filming schedule to Ken Terry.
- Corresponded with publisher/editor of New Hope Free Press regarding correct location of New Hope-Lambertville Toll Bridge (Solebury, PA. and Delaware Twp., NJ) and Dec. 7 route of Army-Navy game ball run by West Point cadets.
- Fielded phone call from Sue Knott of Morrisville Borough municipal offices regarding advance signage for upcoming Lower Trenton Bridge overnight closure.
