Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Stream Encroachment Permit, a U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwaters, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities which require a permit may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Stream Encroachment: Under the Flood Control Act DEP is empowered to require a permit to control construction within and proximate to flood hazard areas to reduce flood damage to and from new development and to protect the flood storage capacity and ecology of flood plains.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed does not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed inside the back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

PUBLIC NOTICE AND STATEMENT OF BASIS

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation Program, proposes to restrict and control the discharge of water from the United Water Toms River Parkway Wells Numbers 26, 28 and Interceptor Well #26B. The water from these wells are treated by an air stripper and pumped via a 12 inch main to two sets of Granulated Activated Carbon (GAC) Contactors which can be operated in parallel or series mode. The treated water from the GAC Treatment System is conveyed to the Garden State Parkway (GSP) storm sewer headwall structure via approximately 2,200 feet of 12-inch diameter ductile iron pipe. The treated water is piped into a pipeline under the Garden State Parkway on the East Side and discharges to the ground once it exits the pipeline on the West Side of the Parkway. The system design flow is 1,400 gallons per minute. In addition to this continuous flow, a small amount of ground water associated with periodic monitoring related to the Reich Farm plume will be treated and discharged under this permit.

This notice is being given to inform the public that the Department has prepared a draft NEW JERSEY POLLUTANT DISCHARGE ELIMINATION SYSTEM / DISCHARGE TO GROUND WATER (NJPDES/DGW) permit NJPDES NO. NJ7002114 in accordance with the provisions of the New Jersey "Water Pollution Control Act" (N.J.S.A. 58:10A-1 et seq.), its implementing regulations (N.J.A.C. 7:14A-1 et seq.), and the Ground Water Quality Standards (N.J.A.C. 7:9-6 et seq.).

The implementation of the New Jersey Pollutant Discharge Elimination System requirements are the enforcement mechanism by which pollutant discharges are brought into conformance and compliance with laws, regulations and standards. The pollution control requirements are those conditions necessary to restrict the discharge of pollutants and protect the public health and the environment. This particular discharge has no exceedances above standards mandated by the Safe Drinking Water Act, the Ground Water Quality Standards or any Federal Maximum Contaminant Levels. This discharge is being performed as a precautionary measure, since the toxicity of the group of substances found, referred to as "SAN trimer", is unknown. It should be noted that the "SAN trimer" has not been detected in the discharge.

The draft document prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, between 8:30 A.M. and 4:00 P.M., Monday through Friday. Information regarding appointments for inspection may be scheduled by calling Richard Yarsinsky at (609)-633-0763.

Interested persons may submit written comments on the draft permit to the Assistant Director, Responsible Party Cleanup Element, PO Box 028, 401 East State Street, Trenton, New Jersey, 08625. All comments shall be submitted within 30 days of the date of this public notice. All persons, including the owner or operator, who believe that any condition set forth in this document is inappropriate, must raise all reasonably ascertainable issues and submit in writing to the Department all reasonably available arguments and factual grounds supporting their position, including all supporting material, by the close of the public comment period. All comments submitted by interested persons in response to this notice, within the public comment period, will be considered by the Department with respect to the requirements being applied to this facility. After the close of the public comment period, the Department will make a final decision. The Department will respond to all significant and timely comments when a final decision is made. The owner or operator and each person who has submitted written comments will receive notice of Department's final decision.

Any interested person may request in writing that the Department hold a nonadversarial public hearing on the draft document. This request shall state the nature of the issues to be raised in the proposed hearing and shall be submitted within 30 days of the date of this public notice to the Assistant Director, Responsible Party Cleanup Element, at the address cited above. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period in this notice shall automatically be extended to the close of the public hearing.

Additional information concerning the draft NJPDES Permit may be obtained between the hours of 8 A.M. and 4 P.M., Monday through Friday from Bob Marcolina of the Bureau of Case Management at 609-633-7237.

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation Program, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested in writing to the Bureau of Federal Case Management or by fax at (609) 777-4285. Requests should be made to the attention of the file custodians. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department hold a nonadversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to the appropriate permitting bureau:

Joyce Kilmer Service Area (8N) 7000987 90-11-09-1610	NJTP - Milepost 78.7 North East Brunswick Middlesex County	David Nickerson BUST (609) 633-1445	Discharge to Ground Water Pennsauken Formation II-A	The New Jersey Department of Environmental Protection (Department) is issuing a draft renewal of a permit to restrict and control the discharge of pollutants from Joyce Kilmer Service Area. The discharge is to the Pennsauken Formation, where ground water occurs under water-table conditions. Depth to ground water is approximately 18 feet to 26 feet below grade, and flows in a south-southwest direction. The operating remediation system will actively remove dissolved ground water contamination. Existing recovery wells RW-1 through RW-3 are pumped to lower the water table, thus directing the flow of dissolved ground water contamination to three recovery points. The contaminated ground water withdrawn from recovery wells RW-1 through RW-3 are pumped through a carbon treatment system before being injected back to the ground water using five injection wells upgradient of the dissolved plume. The permit will allow the permittee to discharge treated ground water upgradient of the dissolved plume into five injection wells on-site, and to continue active ground water remediation of the dissolved plume. The permittee is required to currently maintain hydraulic control of the dissolved ground water contaminant plume, which resulted from leaking underground storage tanks.
US Oil Corporation - High Mountain Automotive 8000018 0065108	1052 High Mountain Road North Haledon Passaic County	Karen Mersereau BUST (609) 292-5184	Discharge to Ground Water Basalt II-A	The facility is an active gasoline station which has an approved on-site ground water recovery system that extracts contaminated ground water. The water is treated and was formerly discharged to the sanitary sewer under a Remedial Action Workplan Approval (RAW) dated April 6, 1998. The contaminants present are: benzene, toluene, ethylbenzene, xylenes, methyl tertiary butyl ether (MTBE) and tertiary butyl alcohol (TBA). On December 31, 1999, a 90-day NJPDES/DGW permit-by-rule commenced which allowed injection of the treated water into the ground water via an upgradient infiltration gallery, as a pilot study. The NJPDES/DGW permit will allow the treated water to be discharged into the ground water of the Orange Mountain Basalt Formation, via the upgradient infiltration gallery, beyond the permit-by-rule period. Ground water sampling is/will be conducted quarterly, in accordance with the RAW Approval.

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes 30 calendar days after publication of this notice. All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:
