

New Jersey City Directories at the New Jersey State Library

Updated October 19, 2018

This document provides a list of every New Jersey city directory in the collections of the New Jersey State Library. The list is in order by primary city covered by each directory. Some of the microfilm series of city directories also contain other types of directories such as county, multi-county, and state-wide directories.

Column four of the list provides the location code for each city directory. There are six basic codes:

1. "Book"
2. "Rare Book"
3. Organization name followed by "PL" or "HS," and "Reel" number
4. City name followed by "Seg" number, and "Reel" number
5. City name followed by "Seg I," and "Fiche" number
6. "Fiche LH" number

The location of each group is described below:

1. **Book.** These city directories are located in a special section at the beginning the Genealogy book collection on level 4.
2. **Rare Book.** These city directories are kept in a locked area. In most cases directories in the rare book collection are also available on microfiche or film. To see a city directory from the rare book collection, ask for it at the reference desk on level 4.
3. **Organization name followed by "PL" or "HS," and "Reel" number.** These city directories are on microfilm. The microfilm reels are located in the microform room on level 4 in the cabinet on the right as you enter the room. The reels are filed in the top four drawers grouped by the name of the public library or historical society owning the original collection and reel number.
4. **City name followed by "Seg" number, and "Reel" number.** These city directories are on microfilm produced by the Gale Cengage company. The reels are filed in drawers 5, 6, and 7 in the same cabinet as the ones above and filed in order by the name of the principal city, segment number, and reel number.
5. **City name followed by "Seg I," and "Fiche" number.** These city directories are on microfiche produced by the Gale Cengage company. They are located in binders on top of cabinets in the microform room. They are filed by city name and fiche number.
6. **Fiche LH number.** LH stands for Local History. These microfiche are located in the microform room and filed by LH number. Many of these directories are also available in the HeritageQuest online service.
