ROLL CALL

WELCOMING REMARKS OF VICE CHAIRMAN

Chairman Lavery welcomed those persons whose identities are set forth hereinabove under "Appearances".

INTRODUCE ANY COMMENTS FROM THE PUBLIC

Chairman Lavery addressed the meeting and invited any comments from the public on items pertaining to today's Agenda. No questions were presented.

EXECUTIVE DIRECTORS REPORT

Joseph Resta, Executive Director, addressed the meeting and said;

As everyone probably knows, today is Halloween, for the Commission, though, this day falls during a period of readiness, planning, and year-end accomplishment. Our Administrative, Operations and Maintenance forces are hard at work preparing for the upcoming winter travel season. Our engineering department is wrapping up this year's construction season while setting the groundwork for several 2017 project kickoffs. Our financial personnel are fully engaged in budget preparations and a new bond offering for the Commission's next major project. Meanwhile, as this meeting will attest, the Board of Commissioners has its set of tasks to perform during this transitional period.

The stepped-up pace of current activities is perhaps most evident in the area of our Scudder Falls Bridge. Following the close of the Indiana bat foraging season on October 1, stage 2 tree cutting work is now fully underway on both the New Jersey and Pennsylvania sides of the bridge. The tree removal is dramatically changing the landscape in the vicinity of River and Woodside roads in Pennsylvania, giving the public a glimpse of the scale and scope of the upcoming bridge replacement project. Another advance construction activity currently changing the landscape is

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

Meeting of October 31, 2016

the installation of noise walls along the bridge's Pennsylvania I-95 approach. Work crews are now setting uprights and noise-abatement panels on a daily basis. As part of this advance noise wall contract, netting also is being installed beneath the current Scudder Falls Bridge to prevent bird nesting once the bridge replacement project begins next year. This work began in mid-October and should wrap up within two weeks. Unrelated to the tree-cutting and noise wall activities, utility relocation is in the process of getting underway. This work involves a variety of natural gas, electric, and telecommunications lines in the vicinity of the current bridge and the nearby Taylorsville Road Interchange in Pennsylvania. Various preparations for the upcoming bridge replacement project are taking place behind the scenes as well. Our engineers and consultants are pushing to secure general construction permits from the New Jersey and Pennsylvania Departments of Environmental Protection and the U.S. Army Corps of Engineers. We're also working under established agreements with the Pennsylvania and New Jersey Departments of Transportation so we can carry out upcoming construction activities along their roadways and facilities. Additionally, we're attempting to wrap up the permit process for the access ramp that will connect New Jersey's Delaware and Raritan Canal towpath to the new bridge's bike-ped path. This particular permit-acquisition process is complex and involves three separate agencies: the New Jersey DEP, the New Jersey DOT, and the Trenton Water and Sewer Authority. Looking ahead, we plan to install a peregrine falcon nesting box on an island a half mile upriver of the current Scudder Falls Bridge during November. A 16-inch-diameter, 30-foot-high steel pole is to be installed on the island to support the nesting box, enabling falcon eggs and nestlings to be safe from potential predators like cats and foxes. To do this work, we are in the process of acquiring the Pennsylvania Fish and Boat Commission's permission to use its river-access ramp south of the Scudder Falls Bridge as a construction launch area. If all goes as planned, the contractor could have the falcon facility installed by Thanksgiving. There are two action items on today's executive agenda that will allow us to further prepare for the upcoming Scudder Falls Replacement Project. One is a proposed contract award for an engineering consulting firm to provide construction management services for the replacement project. This professional services procurement involves a variety of oversight tasks, including establishing and monitoring the project schedule and construction progress, reviewing shop drawings and administering invoicing and payments. The winning firm also will supervise the network of field inspectors we intend to bring on board to oversee the project's numerous construction tasks. The other related action item for Commissioners' consideration today involves the appointment of the various professional firms that will serve as part of the underwriting syndicate for the anticipated bond issue to finance the Scudder Falls Bridge Replacement Project. As all of these endeavors demonstrate, we continue to advance this project so that we might begin construction during the first half of 2017.

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

Meeting of October 31, 2016

Turning to matters not related to Scudder Falls, we are now entering the time of year when budget reviews become a primary focus of attention. Draft copies of the 2017 operating and capital budgets will be made available to Commissioners after today's meeting. These materials are voluminous. It takes an extraordinary amount of time and effort on the part of Commissioners to review the budgets and corresponding support documents. They deserve credit for conducting their fiduciary responsibilities on a volunteer basis without any measure of compensation. We truly appreciate their efforts performed in the spirit of public service.

Before I close today's remarks, I want to recognize a former employee, Richard McClellan, who served as the Commission's Director of Community Affairs until May of last year. Rich passed away two weeks ago after a brief illness. For seven years, he was the Commission's point person with host communities, local residents and elected officials. In this capacity, Rich played an important role in the successful execution and completion of Commission capital project and service improvements. It is with sincere regret that we extend our condolences to his family and many friends.

COMMENTS FROM COMMISSIONER LAURENTI

Commissioner Laurenti addressed the meeting and said

"I would like to pay particular tribute to Rich McClellan, whose unexpected death at what I now view as the young age of 61 was a shock to us all in Mercer County.

"Rich brought a quiet effectiveness to his work with us at the Bridge Commission, reaching out to local communities that had long viewed the Commission as distant and perhaps even high-handed

"Moreover, he understood that "local communities" means more than just local elected officials, important as they are. Rich worked to build dialogue also with the business community and civic groups in the towns that our bridges serve. The Commission had recognized that many in our river towns felt a bit used and abused, and took a number of steps to build greater trust there. Hiring Rich McClellan was one such step. You might say that those who felt used and abused Rich respectfully schmoozed

"Rich McClellan brought "political savvy", in the best sense, to the Commissions dealings with local communities. He believed politics should be honorable and he saw public service at any level as a vocation. He served the people in all our river towns well."

“RESOLVED, by the Delaware River Joint Toll Bridge Commission at its Regular Meeting assembled this 31st day of October, 2016, via this Resolution authorizing payment of invoices, invoices #125365, #125364, 125363 and #125521 in the total amount due of \$9,614.27 for Capital and Non-Capital Professional Services to Florio, Perrucci, Steinhardt and Fader, NJ Legal Counsel; and

“RESOLVED, identifying the Operating Fund as the source of funds required for any and all disbursements.”

Chairman Lavery then invited any questions on the Resolution. No questions were presented and the Resolution was unanimously adopted.

INVITE ANY COMMENTS

Chairman Lavery invited any Comments from the public.

Mr. Bernard Griggs, from Building Trades Council addressed the meeting and said:

“Mr. Chairman. I thank you, board. My name is Bernard Griggs. I'm a representative of the Building Trades Council. Building Trades Council is the umbrella organization that represents all the building trade unions for the Philadelphia and the five-county area. As many of you know, I was a Commissioner here myself for six years under the Rendell Administration. With the passage of the PLA today, I would be remiss if I not only stopped by to say hello, but to also thank you for moving forward on what would be the largest single capital project that the DRJTBC will probably undertake and by doing it under the Project Labor Agreement. I believe not only does it level the playing field on a public works project that is open to both union and non-union, it further ensures that the project will be done in a timely manner and within budget. So I just wanted to stop by and say hello and thank you for the PLA.”

INVITE ANY FURTHER COMMENTS

Chairman Lavery invited any further Comments. No further comments were presented.

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

Meeting of October 31, 2016

STATISTICAL SUMMARY OF EXPENDITURES

This includes reports entitled “**Budget vs Actual**” covering the month of September 2016 and the nine month year-to-date (“YTD”) operations of fiscal year 2016 relative to Toll Bridges, Toll Supported Bridges and Administration departments.

Total expense plus encumbrance totaled \$5,327,106 for the month of September. For the 2016 fiscal period, total expense plus encumbrances amounted to \$41,273,792 or 87.3% of the YTD operating budget.

Most of the expense line categories are within their normal line item budgets. Currently, EZPass operating expense is running \$145,406 above the year-to-date operating line budget. This increase is mainly due to larger than anticipated increases in EZPass traffic.

There were three payrolls during the month of September resulting in higher than usual operating expense. This payroll situation was accounted for in the monthly operating budget. There were no other unusual expenses or charges during the month.

CONTRACT COMPLIANCE REPORT

IDENTIFIED BUSINESS ENTERPRISES (IBE) PROGRAM

The Contract Compliance Program and IBE Target of 25% of the total Commission's contract award became effective on July 1, 2014. From the start of the IBE program to date, the Commissioners have awarded a total of twenty-seven (27) contracts, including four (4) Task Order Agreements awarded with the new IBE program requirements.

STATUS UPDATES

During the month of September, the Contract Compliance Department staff researched companies that could appropriately provide the Commission with needed tracking services for our construction services and professional services contracts. The CCD shortlisted three (3) companies to interview and have webinar demonstration of their systems as well as references interviews.

The CCD updated the construction guidelines to include information pertaining to prevailing wages and certified payrolls tracking. In addition, the CCD updated all its forms by clarifying the process on how contractors may increase their IBEs participation and meet or exceed the 25% target before and after submitting their bids package.

B2GNOW CONTRACT COMPLIANCE DEPARTMENT PAYROLL REPORTING SYSTEMS

Through the B2GNOW system the CCD is able to generate dozens of reports to provide an array of information as to how the contracts are performing. The CCD has chosen three of these reports that identify the contracts being monitored and audited by the CCD through the B2GNOW program. The three reports are the Compliance Overview Report, the Primes and Subs on Active Contracts Report, and the IBE Quarterly Report. These reports provide significant amount of information pertaining to the types of certified IBEs being subcontracted by the Primes to complete the work awarded by the Commission. The reports illustrate pertinent information of each sub-consultant/subcontractor, including: gender, ethnicity, and payments compared to the 25% Commission target.

LCP TRACKER CONTRACT COMPLIANCE DEPARTMENT PAYROLL CERTIFICATION SYSTEMS

- The Contract Compliance Department continues to research and interview other agencies that provide tracking services for prevailing wages and certified payrolls for construction services as well as tracking payments to IBE sub-consultants by prime consultants providing professional services to the Commission.

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION
Meeting of October 31, 2016

COMMUNICATIONS REPORT
September 2016

- **COMMISSION AWARENESS EFFORTS:**

Scudder Falls Bridge Replacement Project Website – Made a series of updates and additions to the project website, including the establishment of a separate home-page section for the new bridge's proposed toll schedule – including links to the full scope of toll materials on the Commission home page. This was revised after the Commission's approval of the toll schedule. Changed the site's home page banner entry to highlight the posting of the main project for construction bids.

Public Hearing/Comment Process for Proposed Scudder Falls Toll Schedule and Two Changes in Existing Bridge Toll Rate Classifications – Reviewed and overhauled the draft report of toll comments compiled by Scudder Falls public involvement consultant McCormick Taylor. As per the executive director, compiled staff responses to the 50 or so items of testimony and public comment received during a toll review process that kicked off in early July. The final report now compiles more than 60 pages and was made possible with the assistance of Community Affairs, Engineering, Operations and the E-ZPass departments. Additionally, worked with Program Manager of Technology Chip Straccioli to draft preamble and resolution for proposed toll adjustments. This was refined after review to eliminate the proposed adjustment for dual-wheel rear-axle pickup trucks. A press release was drafted, vetted and issued to announce the Commission's September 26 toll actions.

- **MEDIA RELATIONS:**

Hot Topics: Feature article on Easton-Phillipsburg (Route 22) Toll Bridge Rehabilitation Project in Civil Engineering magazine; New Jersey threatens to end tax reciprocity with Pennsylvania – Scudder Falls Bridge commuters affected; letter to editor correcting lineage of bridges linking New Hope and Lambertville; Scudder Falls toll schedule comment period deadline extension; Commissioners forgo proposed toll adjustment for dually pickup trucks; Lower Makefield Day and canal path at SFB; noise-abatement walls going in along I-95 in Lower Makefield; Canal Street Bridge in Delaware Canal Festival article; Washington Crossing history; traffic signals sought for Taylorville Road; Commissioner John Siptroth receives award; bridge closure for Milford Alive event; Scudder Falls toll schedule approved; Lafayette students build 150-foot Northampton Street Bridge replica; Lower Makefield charter bus company threatens to challenge Scudder Falls Bridge toll schedule; last chance to comment on Scudder Falls Bridge tolls (WHYY radio).

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION
Meeting of October 31, 2016

- **COMMUNITY AFFAIRS:** (Please refer to Community Affairs report)
Edited various draft communications. Reviewed advertisement for Alliance for Action event publication.
- **WEBSITE**
Updating – Updated home-page entries and links for Scudder Falls Replacement Bridge toll schedule and other 2016 toll adjustments. Updated the respective DRJTBC toll pages upon passage action by Commissioners on Sept. 26.
- **E-ZPASS**
Posted and removed special alert from website; concerned the short-term service disruption of toll postings on customer accounts handled by the Commission's E-ZPass back-office services provider.
- **CONTRACT COMPLIANCE**
Swap out Contract Compliance Plan Program for Construction Services document and replace it with updated document in the Doing Business section of the Commission's website. Remove all Construction Services documents from the website's CMS and publish new forms conforming with the new program document.

INTERNAL/EXTERNAL COMMUNICATIONS

- Recorded 13,198 sessions at (visits to) the Commission's website in September. This reflects a decrease from August (14,916) and an increase over September 2015 (11,609).
- Produced two press releases during the month, both toll related. One was a five-day reminder of the looming extended deadline for public comments on the proposed toll adjustments and the other was the announcement of the Commission's toll adjustment approval action.
- Returned call of Tony Henry of WPST/Connoisseur Media regarding potential for future ad placements relative to the Scudder Falls Bridge.
- E-mail WPVI regarding expiration of comment period for the toll adjustments.
- Made thorough edit of Commission's 2017 Safety Calendar compiled by Sgt. Alan Clarkson of District III.
- Review annual report outline with Pete Peterson of Bellevue Communications and complete first article.
- Address information request from PA Senator Mario Scavello.
- Draft and send individual responses to various toll adjustment commenters where warranted.
- Research whether other agencies provide pre-addressed and post-marked return address envelopes with electronic toll billings.

Community Affairs Report

September 2016

The following Community Affairs activity took place during September:

Scudder Falls Bridge/Toll Adjustment Hearings

Assisted in review and response to all public comments received during the public hearing period of the proposed toll schedule adjustments.

Collected public comment via email, distributed to McCormick-Taylor and Commission staff for inclusion in final report. Assisted in developing responses to those messages which contained questions, as appropriate. Of particular note was a question from the owner of a bus company, disputing that buses are “trucks” instead of passenger vehicles. Responded with the proposed toll schedule and an explanation of the Commission’s vehicle classifications. Forwarded the response to Senator Santarsiero’s aide Ryan Bevitz, who was also contacted by the bus company owner.

Knowlton-Columbia Winter maintenance

Commission officials previously approved the revised map and agreement for winter maintenance of roadways in the village of Columbia; awaiting approval from Knowlton Township.

Coordinated and attended meeting between the New Jersey Department of Environmental Protection, Department of Transportation and the Commission for a presentation on the results of the DEP’s study of the salt/groundwater issue in the area. The results show significant levels of sodium chloride in the wells, including in the area of the Township DPW garage and downstream to Columbia.

The DEP identified several possible sources of the sodium chloride as well as remediation options. The results will be presented at a public Township meeting in October, after which it is anticipated that all involved agencies will be meeting to discuss further action.
