Technology for efficiency

Make your freight shipping more efficient and your experience simpler, with technology that works for you.

Web tools

XPO employee using shipment tracking and shipment tools

200,000+

shipments moved weekly by our linehaul routing technology

Easy-to-use shipper tools:

- Tracking and shipment management
- Requesting quotes and pick-ups
- Entering shipment data

linehaul miles run per year

Data science and machine learning:

Constant network optimization

Freight flows managed in real time

Dynamic pricing and routing

Accountable to our customers

Our local reps know your market and your industry. They work with you to deliver services that meet your specific timing and handling needs.

Services

Our team's commitment...

“We offer the complete package and are there for customers from the beginning to the end of the freight movement, no matter what.”

— Jamie Sheffield, Local Director of Sales, XPO

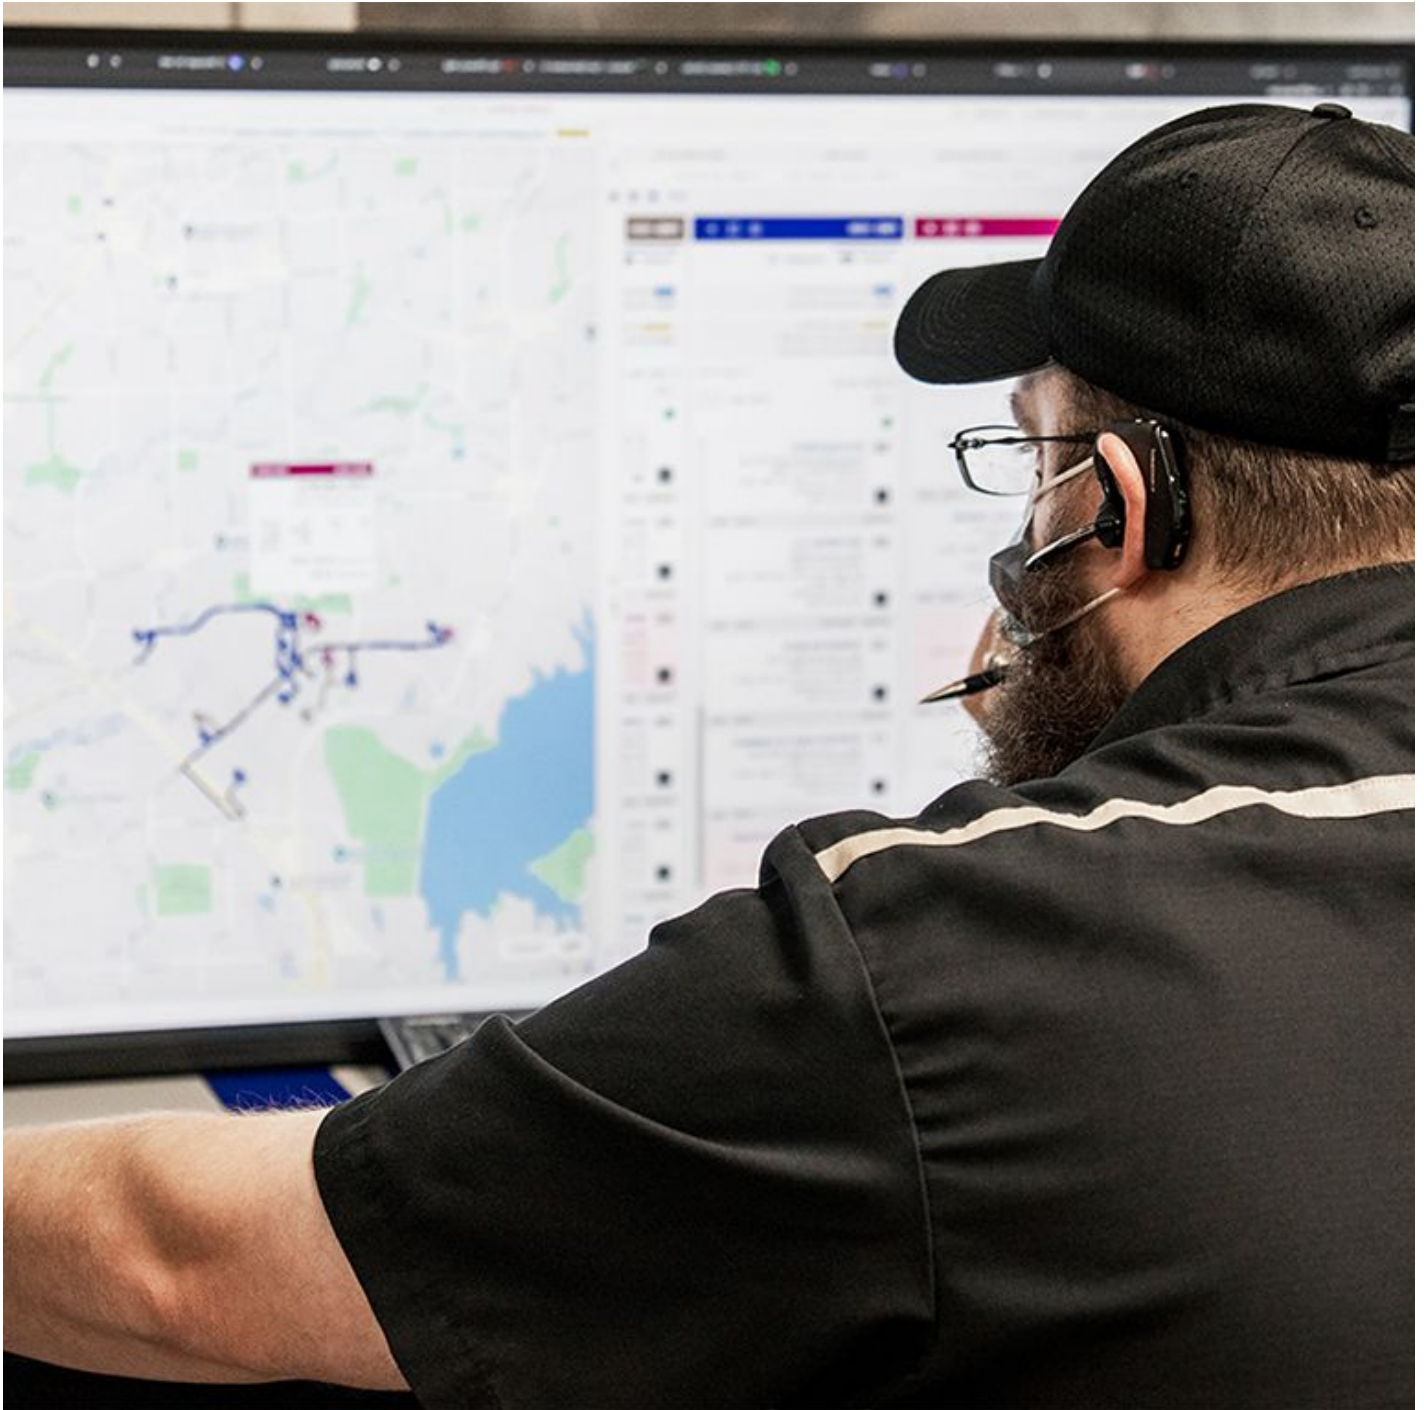

XPO

...creates value for customers

"XPO's strengths lie in their ability to problem-solve. They proactively reached out to us, pointed something out in our data and told us how they'd be able to help. XPO put in the work ahead of time."

— Nicholas Evers, Logistics Manager, OshKosh Corporation

Help us create world-class LTL

Looking for a career with an industry leader? Join our team of technology and transportation experts committed to the safety, growth and opportunity of every employee.

Careers

▶ All XPO truck driver standing in front of an XPO truck
