General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

**PUBLIC NOTICE
OF THE ISSUANCE OF AN EMERGENCY PERMIT UNDER
THE RESOURCE CONSERVATION AND RECOVERY ACT (RCRA)**

The State of New Jersey, Department of Environmental Protection, Bureau of Landfill and Hazardous Waste Permitting has reviewed the hazardous waste emergency permit application submitted by:

EPA ID No. NJ0170022172
Department of the Navy
Naval Weapons Station Earle (NWSE)
201 Hwy 34
Colts Neck, N.J. 07722
Monmouth County

For the emergency treatment by open detonation of one waste 14 inch military munition that was recovered during dredging by the U.S. Army Corps of Engineers at the New Jersey State Police Range at Coyle Field Route 72, Woodland Township, New Jersey. The Department has determined that an emergency situation existed and therefore issued a RCRA emergency permit in accordance with 40 C.F.R. 270.61.

WHAT THE EMERGENCY PERMIT COVERS

- Name and address of the office granting the emergency authorization;
- Name and location of the permitted hazardous waste management facility;
- A brief description of the wastes involved;
- A brief description of the action authorized and the reasons for authorizing it;
- Duration of the emergency permit; and
- All applicable requirements of 40 C.F.R. Parts 264, 266 and 270.

The permit is effective for a period of thirty (30) days from the date of issuance and may be extended one time only for a period not to exceed ninety (90) days.

DESCRIPTION OF EMERGENCY ACTIVITIES

This emergency permit authorized NWSE to mitigate a threat to human health and the environment caused by one waste 14 inch military munition that was recovered during dredging by the Army Corps of Engineers. The munition is currently stored under the custody of NWSE. The munition needs to be disposed of because it has been deemed unsafe for long-term storage.

Prior to treatment by open detonation the munition will be transported by NWSE's EOD personnel to a New Jersey State Police range designated as Coyle Field Route 72, Woodland Township/Chatsworth, Burlington County, New Jersey. Safety precautions will be in place to prevent and minimize harm to the public and the surrounding area and the personnel involved.

WHERE TO OBTAIN ADDITIONAL INFORMATION

Copies of the permit are available at the Department's office in Trenton, the Mayor's Offices in Colts Neck Township and Woodland Township. Anyone wishing to obtain a copy of the permit or to arrange to review the administrative record should first contact:

This permit covers the ongoing hazardous waste activities that are regulated under the Solid Waste Management Act (N.J.S.A. 13:1E-1 et seq.) on the State level and the Resource Conservation and Recovery Act on the Federal level. These regulations allow the Department to issue a temporary emergency permit to a facility to treat, store or dispose of a hazardous waste in the event that the Department finds an imminent and substantial endangerment to human health or the environment resulting from the hazardous waste.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE FINAL INTENT TO SETTLE
FRESHWATER WETLANDS LETTER OF INTERPRETATION**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to enter into a Settlement Agreement, subject to notice and comments, which would result in the reissuance of a Freshwater Wetlands Letter of Interpretation (LOI). The reissued LOI would change the resource classification of a small isolated wetland area on the subject property from exceptional resource value to intermediate resource value. The wetland location plan is shown on a single sheet, prepared by Lippincott Jacobs Consulting Engineers, entitled "WETLANDS LOCATION PLAN, BLOCK 5074, LOTS 25 & 25.01, LANDS SITUATE IN CITY OF NEWARK, ESSEX COUNTY, NEW JERSEY, PREPARED FOR ARCADIS S.S., INC.", signed by Robert E. Lee, dated December 3, 2010, last revised August 1, 2012. This settlement is being entered into because the Department determined that the small isolated wetland area, depicted on the revised plans as Wetland A, is not suitable habitat for a threatened or endangered species due to its actual size and condition, and is therefore of intermediate resource value. The larger complex of wetlands on the subject property, depicted on the revised plans as Wetland B-1 through B-12, is documented and suitable habitat for a threatened or endangered species, and retains its exceptional resource value classification. The ordinary resource value classification for Wetland B-12 through B-37 remains unchanged from the original LOI.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF SETTLEMENT
FRESHWATER WETLANDS GENERAL PERMITS 6 AND 7**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION has issued a Letter of Condition Compliance concerning Freshwater Wetlands Statewide General Permits 6 and 7 previously issued to the Levin Management Corporation, which authorized the disturbance of 0.545 acres of freshwater wetlands, in connection with the construction of a retail development within Lot 165 of Block 1589, in the Township of Hamilton, Mercer County. The work is authorized under the Freshwater Wetland Protection Act rules (N.J.A.C. 7:7A-1.1 et seq.) and the Stormwater Management rules (N.J.A.C. 7:8-1.1 et seq.) The permits were issued under File Number 1103-02-0022.1 FWW 030001, FWW 030002. The permittee filed an appeal of three conditions included in the permit, which read as follows:

1. The applicant must make specific arrangements to ensure the continuous maintenance and efficient operation of all proposed stormwater BMP's on site. This includes, but is not limited to, the cleaning and inspection of all structural and nonstructural BMP's in accordance with the New Jersey Stormwater Best Management Practices Manual, the cleaning and inspection of all stormwater inlets at least twice a year and after every major storm, and the continuous implementation of appropriate soil conservation practices within any grassed swales, stormwater outfall structures and other similar appurtenances throughout the site in order to limit soil erosion and sediment discharge into adjacent waterways.

2. The recharge areas and nonstructural stormwater BMP's must be protected by a deed restriction. Prior to site preparation, the permittee shall submit a draft copy of the required conservation restriction for review and written approval of the Program. Upon written approval of the draft, a final conservation restriction shall be recorded with the property deed in the office of the County Clerk, and proof of recordation shall be submitted to the Program. No site preparation or construction authorized by this permit shall commence until the approved conservation restriction is recorded with the property deed in the office of the County Clerk.
3. The applicant must certify that any possible mounding of groundwater will not result in adverse impacts to nearby roadways or structures. No construction may begin until such certification is submitted to the Department.

The permittee has agreed to abide by Conditions 1 and 2 above. Additionally, through submission of an engineering report revised through August 2012, plans revised through September 27, 2012, a report dealing with supplemental soils evaluations dated August 2011, and a report concerning groundwater mounding revised through February 5, 2009, the permittee has satisfied Condition 3 above. The Permits will remain valid for five years from the date of the Letter of Condition Compliance. This settlement satisfies the appeal of File 1103-02-0022.1 FWW 030001, FWW 030002.
