CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Coastal Permit: A permit or an authorization issued under this chapter pursuant to CAFRA, the Wetlands Act of 1970, N.J.S.A. 13:9A-1 et seq., or the Waterfront Development Law, N.J.S.A. 12:5-3.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway, floodplain or riparian zone in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
REQUEST FOR MODIFICATION OF CONSERVATION RESTRICTION  
PUBLIC HEARING

**TAKE NOTICE** that, in accordance with the New Jersey Conservation Restriction and Historic Preservation Restriction Act, N.J.S.A. 13:8B-5, the New Jersey Department of Environmental Protection, Division of Land Resource Protection (the “Department”) has received an application for the modification of a Conservation Restriction held by New Jersey Turnpike Authority, recorded in 2002 in Deed Book 5328, page 0184 and following and was also identified as Instrument Number 113445, on property identified as Block 586, Lot 11. The lot is shown on the official tax map of the City of Linden in Union County, New Jersey.

The applicant is proposing to construct a pipeline within 0.67 ac of previously disturbed freshwater wetlands transition areas along the southern boundary of Lot 11. Because the entirety of Lot 11 was included in the conservation restriction, a modification of said restriction is required to allow the proposed work to occur in these disturbed areas. The work is also subject to authorization under the Coastal Zone Management rules and Freshwater Wetlands Protection Act rules, which will require permit applications to be submitted to the Department.

APPLICANT: Buckeye Partners LP

**PUBLIC NOTICE OF INTENTION TO EXTEND LANDFILL POST-CLOSURE CARE PERIOD FOR THE PARKER VILLAGE HOMEOWNERS ASSOCIATION AT MARPAL SANITARY LANDFILL**

The New Jersey Department of Environmental Protection hereby issues this public notice, pursuant to N.J.A.C. 7:26-2A.9(c)10, of its intention to extend the post-closure care period for the Parker Village Homeowners Association at Marpal Sanitary Landfill (landfill) located in the Borough of Eatontown, Monmouth County by an additional 10 years.

The Sanitary Landfill covers approximately 3 acres and is owned by Parker Village Homeowners Association.

The Marpal Sanitary Landfill (a.k.a. Marangi Landfill) is located off Route 36 and covers approximately 29 acres in two (2) municipalities. The site was originally used as a borrow source for the Garden State Parkway. The landfill was subsequently used for the disposal of municipal solid waste from 1957 to 1960. The landfill was properly closed and capped with either a 300,000 square foot shopping center, the Monmouth Consumer Centre (MCC), or a final cover system in 1993 in accordance with the approved closure and post-closure plan and began its post-closure care period. Maintenance and monitoring of the subject facility has been required by the Closure and Post-closure Care Plan Approval originally issued on July 10, 1991. In 2003, a soil berm was installed at the perimeter of the landfill between the Parker Village homes and the Marpal Landfill. A perimeter trench was installed under this soil berm with piping to facilitate passive venting of methane and mitigate horizontal migration of methane.

The two (2) portions of the Marpal Landfill were separated in 2020 into the existing Marpal Sanitary Landfill in the Borough of West Long Branch and the Parker Village Homeowners Association at Marpal Sanitary Landfill in the Borough of Eatontown. On January 31, 2017, the Department issued Parker Village Homeowners Association a modified Closure and Post-closure Plan Approval that set forth their post-closure care responsibilities of the Eatontown portion of the Marpal Landfill. The approval has been modified on several occasions, most recently on March 17, 2023.

The Solid Waste Regulations at N.J.A.C. 7:26-2A.9 require that closed landfills be maintained and monitored during their post-closure care periods which continue for 30 years after closure. However, the Department may extend the post-closure care period upon finding that such an extended period is necessary to protect human health and/or the environment.

Based on data generated during the post-closure care period and a review of the most recent post-closure evaluation report, the Department has found that the landfill will require post-closure maintenance and monitoring to continue beyond the initial post-closure care period to protect human health and the surrounding environment. The Department intends to extend the post-closure care period for ten (10) additional years, until December 31, 2033. During this extended post-closure care period, the Department will require maintenance and monitoring of the landfill to continue in accordance with N.J.A.C. 7:26-2A.9 and the closure and post-closure plan approval.

If anyone has questions or comments concerning the Department's intention to extend the post-closure care period of the landfill, please send the questions or comments to the following address:
